YOUR HOME AND YOU

By BETSY CALLISTER

Name some spices and condiments that are obtained from stems and leaves.

Name some spices and condiments that are obtained from buds and flowers.

Name some that comes from barks.

Name some roots that yield spices and condiments.

Name some that come from fruits.

What spices and condiments are derived from seeds?

As a little test of your knowledge and observation, see how many spices and condiments you can give after each of the above questions. Then compare your answers with these facts that I have taken from Bailey's "Source, Chemistry and Use of Food Products."

Stems and leaves—Bay leaf, sage, spearmint, sweet marjoram, sweet basil, summer savory, peppermint, parsley, tarragon, wintergreen, thyme.

Buds and flowers—Capers, Cloves, saffron.

Barks—Cassia, cinnamon.

Roots—Tumeric, garlic, ginger, horseradish, sassafras.

Fruits—Allspice, capsicum, paprika, juniper, pepper, vanilla bean seeds. Anise, cardamon, tomka bean, caraway seed, celery seed, coriander seed, cumin seed, dill, fennel, grains of paradise, mustards, nutmeg and mace.

SICK STOMACH

Suffered Agony For 10 Years Tanlac Brought Relief.

Few people are so fortunate as to escape an occasional attack of indigestion with nausea and headaches. But what must it mean to suffer for ten long years with a gnawing pain in the stomach and be compelled to live on dry toast. This was the experience of Mrs. Mary Bond, 23 Main St., East View Ont. "The minute any food entered my stomach", Mrs. Bond writes, "I would have such terrible pains that I could hardly move. Even sweet milk disagreed with me and I didn't dare eat any meat. Although I had doctored and taken all kinds of medicine, I had never been able to find anything to help me until a boarder recommended Tanlac. I have now taken five bottles of Tanlac and am elighted with the way it has helped me. I am feeling world's better—have a good appetite—whatever I eat now agrees with me—and I never have pains or indigestion. You can imagine how good I felt when I ate a nice big steak and didn't have a bit of trouble afterwards, after having lived on dry toast for almost a year."

If you are bothered with Stomach Trouble, don't delay. Get Tanlac at your druggist's today. Your money back if it doesn't help you.

Tanlac brings back appetite; helps you digest your food, gain in strength, increase in weight. Made of roots, barks and herbs—nature's own medicine for the sick. Get a bottle from your druggist today; your money back if it doesn't help you.

TO MOTORISTS

If your eyes are easily irritated, we can advise you about wearing tinted glasses. Motorists come to us for relief after long distance runs in the wind and dust, and are quickly relieved.

If you get a cinder in your eye, don't rub.

"See us and you'll see better."

Clarence Badger and Clara Bow,

Paramount director and star, say

"Smooth skin is a girl's greatest charm"

New incandescent "sun-spot-lights—film even more highly sensitized than before! That is why the beloved screen stars must now keep their skin lovelier and smoother than ever for the all-revealing close-up.

CLARA BOW, Paramount's popular star, in the bathroom which is one of the most luxurious built in Hollywood.

"A beautifully smooth skin means even more to a star than to other women. Keeping one's skin flawless for the all-seeing eye of the camera means constant care. Lux Toilet Soap is a great help in keeping the skin in perfect condition."

Clara Bow

Photo by O. Dyar, Hollywood

THELMA TODD, First National star, says: "A star's skin must be what we call 'studio skin,' to be lovely in the close-up. It requires constant protection, especially in hard water. Lux Toilet Soap's gentle lather is lovely for my skin."

The next time you see MERNA KENNEDY, sparkling little star with Universal, notice how delightfully smooth Lux Toilet Soap keeps her skin. "A star must guard with so much care the perfection of her skin! Lux Toilet Soap keeps my skin so smooth," she says.

9 out of 10 Screen Stars guard their skin this way

NO MATTER where you see it—on the street, at dinner, on the screen—your heart beats a little faster in response to a faultlessly lovely skin.

"The most important thing in making a girl lovely is an exquisite smooth skin," says Clarence Badger, Paramount—and sums up the opinion of 39 leading directors in Hollywood.

"Because beautiful skin charms people so, it is a first essential for screen stardom," he continues. "Velvety skin is the treasured possession of every screen star."

As Clara Bow says, "A beautifully smooth skin means even more to a screen star than to other women."

Of the 451 important actresses in Hollywood, including all stars, 442 (98%) keep their skin smooth and lovely with Lux Toilet Soap. Little wonder, then, that all the great film studios have made this white fragrant soap the official soap in their dressing rooms.

When you see your favorite star in the close-up, *remember that nine out of ten screen stars use Lux Toilet Soap for smooth skin.*

Luxury such as you have found only in French soaps at 50¢ and $1.00 the cake

Errors Prove Costly As Crescents Lose Out

Cogs Win By 3-1 Count

Frost Pitches Great Ball, But Is Given Poor Support By Team Mates.

ALLOWS SIX HITS.

Errors in Fourth Inning That Should Have Retired Side Netted Cogs Two Runs.

Despite the errors made by the Crescents, Cognawagas had a great struggle on their hands to defeat them 3 to 1 in an East Peterborough League baseball fixture at Exhibition Park last evening.

The game was just as close as the score would indicate and it was the twirling of "Bun" Frost, Crescents right hand gunner, that made it so. Frost took earnestly to his duties and had a world of stuff, turning back ten of the Cogs' batters on strikes. He allowed but six hits and they were scattered, coming in singles except for the fourth when the Cogs cracked out two doubles. Frost hit Wilson, the first man up, but after that he was as steady as bed-rock. He turned back the batters just as scores were imminent.

It was a great game that Frost pitched and he deserved a win but his team mates ran ragged, making eight errors in all. Two errors in the fourth that should have retired the side gave the Cogs two runs. In the fifth Frost saved an utter rout by striking out three men after three got on bases on a hit that should have been caught, and two errors.

The Cogs on the other hand played sterling ball and kept entirely out of the error column. They could not do much against Frost's slants, however, and their usual flock of hits was missing.

"Casey" Masterson started on the mound for the winners and navigated along in impressive style until the fourth when two hits and two walks gave the Crescents their only run. He was replaced in favour of Vanest who had only three batters face him in the fifth and seventh and four in the sixth.

Masterson struck out seven, issued four walks and allowed four hits in the four innings he worked. While Vanest allowed but one safety and struck out two in the remaining three.

"Chuck" Kennaley was the only other member of the Crescents to turn in a snappy performance. Kennaley had two safe hits and threw out two runners at second, his peg being dead on the mark.

Crary at second was the outstanding batter of the game, getting half of the six Cogs' hits. He was responsible for all three of the Cogs' runs, smashing out a double that sent in two and coming in himself for the other. He had a hit at every appearance.

The Crescents did nothing in their half of the first, but the Cogs had a great chance. Wilson was hit and Hilliard lined out a safety back of second, but Corbett and Hilliard flied out and Cripps was sent back on strikes.

In the second two hits by Kennaley and Heard with none out made it appear that Crescents were due. Jones next up was fanned by Masterson. William's roller was grabbed by Ross who threw out Kennaley at third and Gohan whiffed the air on three.

Neither team had another chance until the third although the Crescents muffed up two in the third. Kennaley first up hit to left field; Heard drew a walk and Jones hit over first placing three on the runways with one out. Williams and Gohan struck out and Masterson had two and three on Frost and then walked him, scoring Kennaley. J. Lebarr flied out.

In their half of the fourth Cogs got two runs. Corbett, first up, struck out. Rooke hit to centre for two bases. Cripps was safe on Gohan's error and Rooke got safe on third when Heard dropped the ball after catching him cold between the bases. Jones fanned. Crary lined out a two-bagger scoring both runners. Rose was struck out by Frost.

Cogs nearly scored in the fifth but great pitching on the part of Frost retired three on strikes after two got on bases on errors. Two errors and a hit gave Cogs their other run in the sixth. S. Jones was safe on J. Jones' low throw to first and he went to second when Kennaley's throw was low. The same runner was called out going to third when he unintentionally got in the way of Gohan who was trying to field Crary's hit. Crary stole second and came in on Ross' sacrifice.

F. Jones hit into a double play after Heard had got safe at first on a hit over second and Williams struck out in the sixth. And the Crescents could do nothing in the last innings and the game was over.

Runs batted in by—Jones 1, Crary 2. Two-base hits—Rooke and Crary. Earned runs—Crescents 1, Cognawagas 1. Sacrifice hits—Ross. Stolen bases—J. Lebarr, Crary. Hit by pitcher—Frost 1, (Wilson). Struck out by Masterson in 4 innings 7, by Vanest in 3 innings 2, by Frost 10. Walks off Masterson in 4 innings 3. Umpires—Edgar Lebarr and Alex Kay.

Maple Leafs Split Double Bill With Buffalo

TORONTO CLUB FOURTH PLACE IN STANDINGS

Barnes Hurls Good Ball For Five Innings of the Lost Battle.

ORIOLES WIN OUT.

Keystones Nose Out Bears 3-2 —Montreal Royals Drop Verdict to Rochester.

TORONTO, Ont., June 4.—(C.P.)—Winning two games in the afternoon is a hazard the Leafs have yet to overcome. For the second time in three days they shared the points with the Bisons when they broke even in yesterday's doubleheader at the Waterfront park. On several occasions this season they have endeavored to turn back their opponents twice on the same day, but without success, always being forced to accept defeat in one of the games.

The Leafs won the first half of the semi-holiday affair 9 to 5 and then went out and lost the other half 5 to 2. Frank Barnes, flinging his first game in Toronto toggery, was quite a southpaw for five rounds in the game that was lost.

NOSE OUT BEARS.

READING, June .—(C.P.)— Pete Fowler bested Al Mamaux in a hurlers' duel here yesterday and the Reading Keystones nosed out the Newark Bears, 3 to 2.

Fowler gave only three hits, while Mamaux was touched for seven.

AGAIN DROP ROYALS.

MONTREAL, Que., June 4.—(C.P.)—Montreal Royals handed a 5 to 4 verdict to Rochester here yesterday afternoon and the Wings took a 2 to 1 lead on their first series here.

Four errors, all of them comin gin the first two innings, spoiled a fine hurling performance by Herbie Thormalen, who outpitched a pair of Red Wing Hurlers.

WIN OUT 6-2.

BALTIMORE, June 4.—(C.P.) —Gordon Rhodes, late of the New York Yankees, hurled a good game for the Jersey City Black Cats here yesterday but lost by a score of 6 to 2.

Rhodes held the locals to six hits but Bill Carson was also in rare form for the Birds, holding the invaders to five hits and fanning an equal number.

Results Announced of the First Shoot In Lakefield Silver Salver Competition

LAKEFIELD, June 4.—(Examiner Correspondence).—The following are the scores in the Silver Salver competition by the Lakefield Rifle Association:

	200 yards	500 yards	600 yards	Total
B. G. Dench	23	25	30	78
W. Bickell	25	27	26	78
N. Payne	27	24	26	77
William Trude	27	25	24	76
W. A. Payne	29	26	20	75
E. Bickell	22	21	29	72
J. H. Payne	25	27	19	71
S. Spence	18	27	21	66
A. Darling	25	24	10	59
Dr. Lingwood	22	21	16	59
S. Higgins	23	16	13	52
N. Lemay	18	19	14	51
C. Payne	15	17	15	47
G. H. Spence	16	18	11	45

The first and second prizes were divided between B. Dench and W. Bickell who tied for first place and N. Payne was awarded third prize.

The shoots will be on June 13, June 27 and September 12 in the afternoon of each day.

GIANTS TAKE THIRD STRAIGHT

Carol Hubbell Pitches New Yorkers to 8-1 Victory Over the Cubs.

CARDS STRENGTHEN LEAD.

CHICAGO, Ills., June 4 (C.P.).—The New York Giants made it three in a row over the Cubs yesterday winning 8 to 1 behind the steady pitching of Carol Hubbell.

It was the fourth straight defeat for Chicago and the Giants' eleventh victory in the last twelve games played coupled with the defeat of the Phillies the victory put New York into the first division.

Pat Malone was driven from the mound in the sixth inning under a barrage of Giant base hits which netted three runs. Mel Ott, with three singles and a walk in four trips to the plate, and Freddy Lindstrom, with a home run and a single, led the Giant attack.

STRENGTHEN LEAD

ST. LOUIS, June 4 (C.P.).—The Cardinals took a firmer grip on the National League yesterday by defeating the Brooklyn Robins, 9 to 8, in the twive-delayed opened of their series.

The Cards had a slight hitting margin in the ding-dong battle that was tied up four times and not decided until the eighth inning. They collected 13 hits of Dudley and Ballow while Sylvester, Johnson and Sherdel yielded an even dozen.

BEAT QUAKERS 14—2

PITTSBURG, June 4 (C.P.).—Pittsburg Pirates, after losing two straight to Philadelphia, wreaked vengence on the Quakers yesterday by beating them 14 to 2.

It was the ninth consecutive win for Burleigh Grimes, spitball artist, who has not dropped a contest this season.

Boston Drops Second Straight to the Reds

CINCINNATI, June 4 (C.P.).—Six hits off Cantwell, three of them doubles, and an error in the first inning whch produced six runs, gave the Reds a lead which they never relinquished and Boston dropped its second straight game to Cincinnati 12 to 3 here yesterday.

Athletics Break Uhle's Streak of Nine Straight

PHILADELPHIA, June 4 (C.P.).—The Philadelphia Athletics breezed in ahead of the Detroit Tigers in 13 innings yesterday at 3—2, thereby bringing to an end Geoorge Uhle's winning streak of nine straight games.

The end of the long tussle came in the more undramatic way possible. In the home half of the thirteenth, Foxx opened with a double and Dykes and Collins, pinch hitting, were intentionally passed, filling the bases. Uhle then forced home the winning run by walking Bishop.

RINK PERSONNELS.

The members of the Ladies' Lawn Bowling Club commence their schedule games on Tuesday afternoon at 2.30, on the Brock street greens. This year there is an addition of two rinks and four unattached players, making a total of forty-four members. Each rink is as follows:

Mrs. McGee, Mrs. Mark, Mrs. Borland, Miss Allen (skip).

Mrs. Moffatt, Mrs. Burnham, Mrs. Staunton, Mrs. French (skip).

Mrs. Fanning, Mrs. Wood, Mrs. Bredin, Mrs. Yeotes (skip).

Mrs. Archibald, Mrs. McLeish, Mrs. Eldred, Mrs. Coleman (skip).

Mrs. Mowry, Mrs. Martin, Mrs. Henry, Mrs. Graham (skip).

Mrs. Neigh, Mrs. Cheverill, Mrs. Fox, Mrs. Greenslade (skip).

Mrs. Moore, Mrs. Welsh, Mrs. Devey, Mrs. Wright (skip).

Mrs. Gregson, Mrs. Andrews, Mrs. Deyman, Mrs. Miller (skip).

Mrs. Darcey, Mrs. Wiggins, Mrs. Wiley, Mrs. Gimblett (skip).

Mrs. Hepburn, Mrs. Hanna, Mrs. Williams, Mrs. Hutchinson (skip).

Unattached — Mrs. Metcalfe, Mrs. Freeman, Mrs. Skinner, Miss Littlefield.

This 80-Year-Old Vancouver Athlete Wins a Prize In a Walking Marathon

(By G. N. SENIOR, Special to The Examiner, Copyright)

VANCOUVER, B.C., June 4.—To live 80 years is an achievement in itself. When people say of an octogenarian that "he seems to be possessed of all his faculties" they do so with flattering awe.

Such a remark about Major C. B. Fowler of Vancouver would be truly sarcastic. There are men of 50 who merit that appraisal more than he. He is an athlete.

A Vancouver newspaper held an 11-mile walking marathon around Stanley Park recently. There were five classes, one of which was for men of 60 or more. Of the 70 entries in this veteran group Major Fowler was much the oldest. He spotted his competitors from 9 to 19 years and finished fifth, winning a prize for his effort.

The winner of the open contest, a former champion of England, covered the course in 1.38. Major Fowler's time was 1.59 a minute less than two hours.

Six feet tall, slim, lithe, alert, his every movement as springy and light as that of a youth, Major Fowler would start no argument with a stranger if he claimed to be 50. Yet 50 years ago he was just concluding a decade of athletic competition on the cinder track.

DELORO WINS 10-6.

Smelter Crew Takes Eight Run Lead in First Two Frames.

MARMORA, June 4.—(Examiner Correspondence). —Marmora juniors journeyed to Deloro on Saturday evening to play a five innings game of baseball with the juniors of that village and a good lively game ended in the home team's favor with the score 10-6.

Score by innings—

	R.	H.	E.
Marmora	1 1 0 4 0—6	10	4
Deloro	4 4 0 2 x—10	12	3

Umpires—C. McInroy at plate; S. J. Sanderson on bases.

Teams—
Marmora—J. Rice, C. F. Burns
Marmora—J. Rice c., F. Burns p., H. Hewitt 1b., D. Auger 2b., M. Emmorey s.s., E. Nayler 3b., M. V. Emmorey r.f., E. Gray c.f., H. Phillips l.f.
Deloro—E. Phillips c., F. Callery p., L. Paquet 1b., M. Corrigan 2b., G. O'Neill s.s., J. McInroy 3b., J. O'Neill r.f., W. Simmons c.f., S. Smith, l.f., C. Clemens 1b., (replacing M. Corrigan in 3rd).

JUVENILES WIN OUT

MARMORA, June 4.—(Examiner Correspondence)—An interesting and close game of juvenile baseball was witnessed on the Marmora fair grounds on Saturday afternoon when the homesters defeated a visiting Deloro team by 13-12. Thompson pitched well for Marmora, securing thirteen strike outs while Dawson was the prolific hitter for that team.

For Deloro V. Callery proved a tricky pitcher and J. Reynolds at the receiving end in the fifth made a fine catch of a foul ball. Deloro's runs were largely the result of the other team's errors, Marmora's total were obtained by good hitting. Umpires were C. R. Quinn at plate and H. Dorie on bases.

Score by innings—

Deloro	3 0 3 0 0 3 3 0 0—12
Marmora	3 0 0 2 1 4 2 1 x—13

Teams—
Deloro—R. Loveless 2b., G. Stewart 3b., W. Simmons 1b., J. O'Neill l.f., P. Gray, s.s., J. Reynolds c., V. Calley p., H. Haecke r.f., D. Smith c.f.
Marmora—E. Gray 1b., H. Phillips 2b., Earl Gray 3b., R. Dawson, s.s., H. Cock l.f., M. Emmorey c., J. Linn r.f., J. Rice c., G. Thompson, p.

Wells Outpitches Lyons Yankees Down White Sox

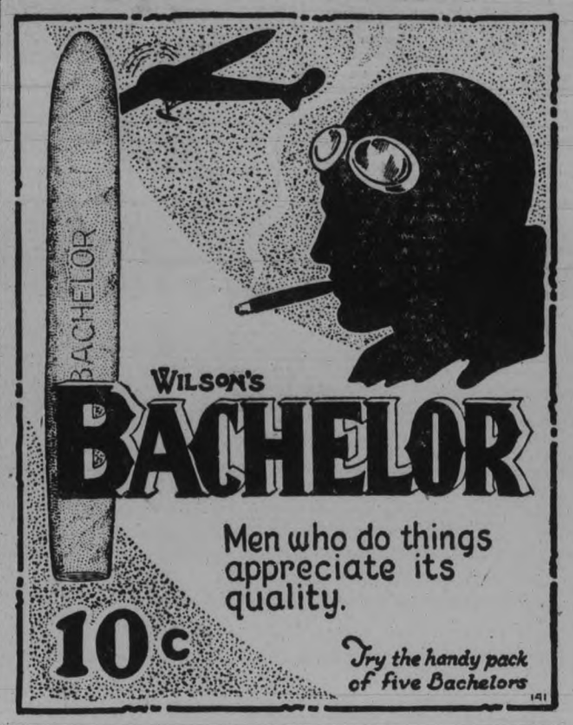
NEW YORK, June 4.—The Yankees made it three straight wins over the Chicago White Sox yesterday 1 to 0 by virtue of a brilliant pitching performance of Ed. Wells, young lefthander. Wells gave the Sox but two hits.

The Yanks got to Lyons for only six hits, three of them doubles by Gene Robertson. Two of the hits came in succession in the opening inning for the only run.

Robertson's first double brought in Combs after the centre fielder had opened the game with a single. Score:

	R.	H.	E.
Chicago	0 0 0 0 0 0 0 0 0—0	2	1
New York	1 0 0 0 0 0 0 0 x—1	6	0

Batteries—Lyons and Autry; Wells and Dickey.



Sammy Gray Hurls Browns To Victory

WASHINGTON, June 4.—Batting Braxton for four runs in the first inning, St. Louis took a 6 to 4 decision from Washington yesterday in the third game of the series.

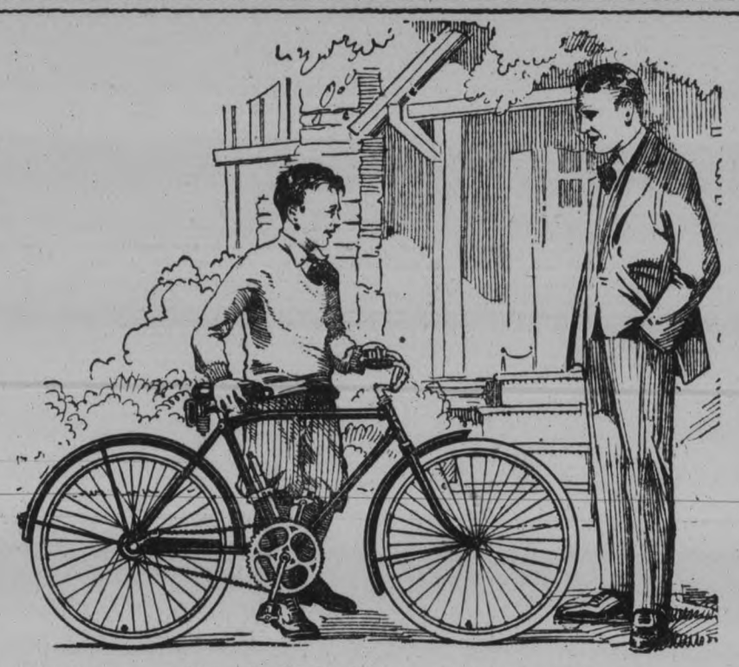
Sammy Gray, although touched for more hits than his mates got, kept the situation in hand and allowed no more than one run to an inning.

Welsh Soccer Team Win By Close Score

HAMILTON, June 4 (C.P.).—The touring Welsh soccer team ran into a lot of opposition in their second Canadian game at the civic stadium here last night when the Hamilton All-Stars held them to a 1 to 0 score and came mighty close to reversing the verdict on the famous visitors.

The first-intercolonial post of the United States was organized and put in operation May 1, 1693.

Hipparchus, a Rhodesan, prepared the first card index in the second century B.C., a catalogue of over 1000 stars.



For "EXAM" Time

Promise your Boy or Girl a C.C.M. Bicycle for Passing

LET golden hours of pleasure on a smooth-running C.C.M. Bicycle be the reward of concentrated hours of study.

Your boy — your girl — wants a BICYCLE. He or she will only be young once. Let "Exam." time be your excuse for gratifying that desire. Put it up to your boy or girl to pass the "Exams" with flying colors. Hold out the reward of a new C. C. M. Bicycle.

A C.C.M. has many points of superiority, including the famous Triplex Crank Hanger, the Hercules Coaster Brake, 20-year nickel-plating, three coats of enamel baked on over a coat of rustproof, larger ball bearings for easy running, Dunlop Tires.

Get your C. C. M. catalogue at the nearest dealer's or write to Canada Cycle & Motor Co., Limited, Weston (Ont.), Montreal, Winnipeg or Vancouver.

DRAW MAKERS WIN OUT 16-1

Wire Department Defeated in Opening Game of C.G.E. Inter-Departmental League.

SOFTBALL LOOP.

The Wire Department team was handed a thorough trouncing last night in the opening game of the C.G.E. inter-department softball league by the Drafting Room, who outplayed the Wire team at every stage of the game to win 16—1.

The Drawing Makers started off the game with a snappy display of clever infielding that savored of victory and in the first three innings the Wire batters were retired in order. Scotty McGrath stretched a grounder into a two-base hit, stole third and went home on an overthrow to chalk up the lone run for the losers in the fourth innings.

The Drafting Room players gathered in 4 counters in the first innings, 5 in the second, 1 in the third and 6 in the fifth for a total of 16, besides being able to have men on bases in every frame while only 7 of the Wire Dept. reached first base.

Twirls Nice Game

Allin, who twirled for the winners turned in a nice game and was given almost airtight support by his teammates. He passed two and struck out three, pulling himself out of a tight corner in the sixth innings by fanning Bailey with the bases loaded and two out. Floyd, the Wire Department hurler, pitched nice ball, also fanning three and walking four and the high score was due only to the shaky exhibition of his teammates who, with the exception of Montgomery at first and Bannon behind the bat, played poor ball.

The line-up:

Wire Dept.—C. McGillen, lf; Montgomery, 1b; McGrath, 2b; Lennon, mf; Bailey, rf; Bannon, c; Wilson, 3b; Broadley, ss; Floyd, p.

Drafting Room.—Shields, c; Allin, p; Palmer, 2b; McLeish, ss; Metherel, mf; Howe, 3b; Morrison, 1b; Huffman, rf; Thornton, lf.

Umpires—Bennett at the plate and Begley on the bases.

TEAMS CLASH ON WEDNESDAY NIGHT

Packers and Brintons Will Meet At King Edward Park.

To-morrow evening the Canadian Packing and Brinton A.A. play in a league game on King Edward Park. Kick-off will take place at six o'clock, with Jack Clark acting as referee.

This is an important match, a win or loss will alter the league standing in many ways.

League Standing.

	P.	W.	L.	D.	F.	A.	Pts
Dom. Woollens	4	3	1	0	9	7	6
Can. General	4	2	0	2	10	4	6
Deloro	4	2	2	0	15	8	4
Can. Packing	3	1	1	1	4	4	3
Brinton A.A.	3	1	1	1	4	6	3
Quakers	4	0	4	0	8	21	0

Two points for a win, one for a draw.

Spalding Semi-Final.

One Wednesday, June 12, the Canadian Packing meets Deloro in the semi-final of the Spalding Cup at King Edward Park. Referee, Alex McKinley.

Spalding Cup Scorers.

Brooks, Deloro	3
James, Brinton	2
Beggs, C.P.C.	2
B. McMaster, C.G.E.	2
J. McMaster, C.G.E.	2
W. Brown, Deloro	1
Carmichael, C.P.C.	1
N. Downer, C.P.C.	1
Cousins, Deloro	1
Hawthorne, Brinton	1

Saturday's Games.

The Woollens travel to Deloro in a league match. Referee, J. Middleton.

Canadian Packing will meet the Quakers in a league game on Saturday afternoon at three o'clock. Referee, A. Aitkenhead.

W. Brown, Deloro	5
Gresham, Deloro	4
E. Jones, Brinton	3
J. Montgomery, Woollens	2
A. Burgess, C.G.E.	2
Brooks, Deloro	2
Ward, Quakers	2
J. McMaster, C.G.E.	2
Whitely, Woollens	2
E. Brown, Deloro	2
Beggs, C.P.C.	2
Watkins, Quakers	2
B. McMaster, C.G.E.	2
Craig, Quakers	2
Gore, Woollens	2
Cousins, Deloro	1
Foster, C.P.C.	1
Dundas, Woollens	1
J. Mitchell, Woollens	1

Wade, Woollens, scored against his own team in the Quakers vs. Woollens.

Cross, Quakers, scored against his own team in the Quakers vs. Deloro.

New Director.

Ernie Abraham has been elected to the board of directors of the executive of the P. and D. F. A. A letter was received from Ernie Hanson informing the executive that he could not participate in the meetings owing to pressure of business, and his resignation was accepted with regret.

Players Released.

Deloro Club requested the release of J. T. Kelly, and this was granted. Owing to injuries J. Holston was granted release from the Quakers quota.

Players Registered.

S. T. Maker was registered by the Quaker Oats. A. E. Hanson signed a registration form for the Quakers.

HIGHWAYS AND BYWAYS IN THE SPORTS WORLD

BOOSTS AND KNOCKS For EVERYONE

(By "TED" OUTRAM)

FROST GIVEN INDIFFERENT SUPPORT.

The Crescent ball club made a carnival of errors to toss away the game to Cognawagas 3 to 1 last evening. "Bun" Frost pitched a game that deserved anything but a different fate. It was only his commanding pitching that kept Crescents in the hunt. Manager Brioux was forced to use two of his players out of position, and one of these men made four errors.

The game did illustrate this fact that when the Crescents get a little more practice and get shaken down in their places they will give the Cogs and any other team in the league a memorable tussle.

The Cogs, as a result of their win, are sitting pretty at the top of the league with two wins and no losses. The Crescents are next with a win and a loss, and Bethany and Hastings bring up the rear with one loss apiece.

Crescents will have to play better ball if they expect to stay up near the front however. This Bethany team came to Exhibition Park on Friday evening to play them, and the mountain village boys, strengthened by some locals, make a team that is not to be fooled with.

* * * * * *

COBOURG PLAYS HERE WEDNESDAY NIGHT.

Fans will be glad to hear that the Raybestos are playing their game with Cobourg at the Exhibition Park on Wednesday evening at six o'clock. The Rays are going to adhere to the same principle that holds good in the East Peterborough League in regard to admission, too. Silver collection will be the order of the day, each person putting in what he can, and what he thinks the game is worth. It should be remembered, however, that the boys are playing in a circuit where there is considerable travelling, making their expenses high. Manager Art Primeau and President Bill Kay are confident that the fans will come out to see the game in droves, rallying to the support of the team that gave them so much good ball last season.

Nothing needs to be said concerning the game, except that it promises to be a sparkler. The Rays have to take this battle if they desire to stay up near the front. The same applies to Cobourg, who have a team of old timers mixed up with some clever youngsters.

* * * * * *

HEAVY PROGRAM IN CITY LEAGUE.

The fans will get real baseball this week. They certainly should not toss up the two City League games at James Stevenson Park. To-morrow evening Lockworks will engage Jack Deannard's Kiwanis nine in the opening Junior game, and on Thursday the Canucks will strive to take a fall out of the galloping Moose. The fans should support these youngsters, and the biggest way they can do that is by going over the bridge and seeing their games.

* * * * * *

VETERAN CALLS 'EM IN PORT HOPE.

A historic figure in the Central Ontario baseball world stood behind the plate and "called 'em" in the game in which the Rays engaged Port Hope on Saturday. It was none other than Jack Rosevear, who will be well remembered by old fans here.

Jack's record as an umpire in torrid ball arguments goes back to the old Midland League, which operated in the early years of this century. He was arbiter, too, in the Central League when it comprised the lake Front towns, Lindsay and Peterborough, some six years ago, too.

Mr. Rosevear is now getting rather rotund, but he proved that has lost none of his eyesight, nor his old grip on the game. "One of the best," Alex. Kay said, referring to him.

* * * * * *

THE MARATHON WATER CRAZE.

The Wrigley Marathon will take place again in Toronto this year and some entry forms are to hand. They may be secured from Elwood Hughes in Toronto. He has the affair in hand and is eager to have entries from all over the country. The water event has apparently become an established sport fixture. There was for a time some agitation regarding where the so-called sport event was to take place, and Toronto was eventually selected.

The affair has twice aroused great enthusiasm in that quaint city, and it was a foregone conclusion that it would be held there. Last year no one finished in the main event, which developed into a test of floating and endurance. The Toronto press panned the affair plenty, and declared it a montrosity—a blot on sport, etc. Most out of town papers were milder and simply declared it a monotony.

The Toronto press is, however, getting quite heated up again over the affair, which promises another chance for George Young to redeem his swimming reputation. In case you have forgotten Young won the Catalina marathon some years ago, and later on fizzled out in various events.

He became somewhat of a water-front Don Juan around the lagoons and bayous of Lake Ontario, and various lady swimmers became enraptured over his antics. Those who know their Byron, and if you don't you have missed a hot number, will recall that he was a great swimmer who swam the Helespont like Leander of old. Byron, who wrote Don Juan, doesn't make it exactly clear why he went for the long swim, but knowing By as some do it is suspected that he wanted to meet some Turkish lassie on the other side of the Golden Horn, the Bosphorus, or wherever it was the poetic natator was plunging for—Ottawa Journal.

BASEBALL GOSSIP

The following is the schedule for city hardball league, with the first game in the junior section being slated for next Wednesday night when the Kiwanis meet the Lockworks juniors at James Stevenson Park.

Junior Series.

Kiwanis vs Lockworks, Wednesday, June 5.
Lockworks vs Kiwanis, Wednesday, June 12.
Kiwanis vs Lockworks, Wednesday, June 19.
Lockworks vs Kiwanis, Wednesday, June 26.
Kiwanis vs Lockworks, Monday, July 1, 3 p.m.
Lockworks vs Kiwanis, Wednesday, July 10.
Kiwanis vs Lockworks, Wednesday, July 17.
Lockworks vs Kiwanis, Wednesday, July 24.
Kiwanis vs Lockworks, Wednesday, July 31.

All games to start at 5.45 p.m. except July 1, which will start at 3 p.m.

Juvenile Series.

Canucks vs Moose, Thursday, June 6.
Moose vs Canuucks, Thursday, June 13.
Canucks vs Moose, Thursday, June 20.
Moose vs Canucks, Thursday, June 27.
Canucks vs Moose, Thursday, July 4.
Moose vs Canucks, Thursday, July 11.
Canucks vs Moose, Thursday, July 18.
Moose vs Canucks, Thursday, July 25.
Canucks vs Moose, Thursday, August 1.

All games to start at 5.45 p.m. at James Stevenson Park (Riverside).

Alex Kay will appoint all umpires for all games.

WOULD JOIN LOCAL SENIORS

Ivan Miller and A. I. Tyson Applications For Reinstatement Laid Over.

TRANSFERS RATIFIED.

TORONTO, June 4.—Much business in the interest of baseball was transacted at the meeting of the executive committee of the Ontario Baseball Amateur association held last evening at the Carls-Rite Hotel.

Two applications for re-instatement were placed before the members present and both met a similar fate. Ivan Miller, of Hamilton, who has done much work in the promotion of amateur sport in the city of Hamilton, applied for reinstatement as did also A. W. Tyson, of Oshawa. Miller, played for a part of a season in professional company many years ago and although he has given up the game as a professional he has kept in touch with the sport and has devoted much time in the interim to amateur athletics. His application was laid over as was also that of Tyson. The latter has been under suspenson by the O.B.A.A. for a period of about three years and since having the ban placed on him has remained out of all competition with the exception of a couple of games which he played with the Osler club of this city.

Player Churchill, who applied for permission to play with Harrow, had his request granted while Player Hodare was declared ineligible to play with the Windsor team.

Thirty-four applications for transfer were dealt with by the committee and all with the exception of three were granted. The application of Player David Abbey, formerly of this city and latterly of Winnipeg, who desired to play with London, was refused, while no action was taken on the application of Player Ibertson, formerly of Kingston, who wished to play with Peterborough.

Transfers Ratified

The following transfers were ratified: J. T. Shea, of Deloro, to Belleville; R. Elliott, of Kingston, to Deloro; J. R. Hall, of Guelph, to Peterborough; F. Lycett, of Port Hope, to Oshawa; D. S. Barton, of Elk Lake, to Toronto; T. Barber, of Guelph, to Toronto; K. Stoll, of Stratford, to Toronto; H. Mullin, of Silver Centre, to Toronto; E. A. Cameron, of Oshawa, to Toronto; R. B. Burley of Belleville to Toronto; R. Fowler, of Midland, to Toronto; J. E. Mulroney, of Ottawa, to Toronto; M. J. Macartney, of Walkerton, to Toronto; H. P. Moore, of Walkerton, to Toronto; C. Gillian, of Bronte, to Hamilton; F. W. Wright, of Montreal, to Dundas; J. Schonfeldt, of Guelph, to Hamilton; F. Horan, of Palgrave, to Hamilton; G. Lawton, of Brantford to Hamilton; H. March, of Milton, to Waterdown; H. Crawford, of New Westminster, B.C., to Guelph; S. Dundas, McGillivrey township; F. C. Catelon, from Brantford to Exeter; A. Zuch, of Kitchener, to Woodstock-Ingersoll; G. Manchester, of Leamington, to Chatham; A. B. Fletcher, of Appin, to Windsor; A. J. O'Donnedd, of Forest, to Sandwich; E. Churchill of Windsor, to Harrow; E. W. Stuart, of Lambertville, N.B., to Deloro.

Considerable time of the executive committee was spent in considering ways and means of stimulating interest in those parts of the province which are at the present time not active in baseball. Organization work has been done by several members of the committee, and in many cases attempts have been made to form leagues under the jurisdiction of the association. There are, at the present time, a number of towns desiring to play baseball which are unable to do so owing to the lack of interest in other near-by towns. An efforts is being made to arouse sufficient interest in these places in order that compact groups may be formed.

Get Bye in Play-off

In some sections where this is impossible, it is likely that the teams affected will be allowed to play exhibition games with other teams in the O.B.A.A., and will be given a bye into the play-offs at the end of the season. In such cases it will be necessary for the teams to file their certificates in the regular way with the secretary of the O.B.A.A. by July 15.

At the annual meeting of the association it was decided that representation should be made to the provincial government to have the fee for birth certificates reduced. The executive committee is making a move toward having this effected, and in the meantime the matter is in abeyance.

The following members were present at last night's meeting: President Arthur Hillmer, of Oakville; Secretary W. J. Snyder, of Hamilton; C. K. Jutten, of Hamilton, treasurer; Vice-President, Robert Elliott, of Deloro; W. A. Smith, of Galt; John Turner, of Toronto; Hugh C. Maguire of St. Catharines; A. J. Walsh and W. J. Smith, of Toronto.

BOWLING DATES.

WEDNESDAY, JUNE 5.

Mr. McLeish in charge.
Coleman vs. Routley.
Fox vs. Curvin.
Fitzpatrick vs. Johnson.
Wise vs. Oke.
Bennett vs. Donaldson.
Bacon vs. Fallen.

LOTT ON TEAM

CHICAGO, Ills., June 4.—(Canadian Press).—George Lott, third ranking tennis star of the United States, has decided to compete on the Davis Cup team in its forthcoming invasion of Europe.

HAS HE GOT THE SPEED

Bill Sweeney, the bang-up first baseman of Steve O'Neill's pennant-chasing Toronto Maple Leafs, now looks one of the best first-sackers in the minor leagues.

This so-called veteran—and that he is younger than Collins of Rochester—has turned out to be one of the most brilliant performers at the first stop since the days of the great Jack Thorney. He not only plays like Thorney, but resembles him in appearance. Thorney was a real human dynamo and so is Sweeney.

A suggestion was made reecntly that his speed would be more useful in the field than at first base but the objection raised to this is the fact that he is not the best thrower in league, but that shouldn't be held against him.

ELECTRIC RUNNERS LEAD FROM START

Winners of Walker Hardware Silver Trophy in Belleville Relay Race.

The C.G.E. relay team earned their first real victory of the season yesterday when they won the 11½ mile relay race from Trenton to Belleville in the splendid time of 1 hour 1 minute 30 seconds. Willby started for the local team against five other entries, and at the finish of the first lap, which was half-mile, he had a lead of 40 yards. Harold Stewart ran the second lap of one mile in great style, stretching their lead into almost 100 yards. Sam Freeman was the third man, and made his best showing so far this season. He started the two miles with a spurt that opened up the gap and when he reached Newt Hamilton at the beginning of the three-mile jaunt, the C.G.E. boys had a lead of over 200 yards.

The Trenton team, which took second place in the event, had their best man on the three-mile stretch, but Hamilton more than held his own, and Herb. Tranter was given a good lead for the last five-mile lap. Nevertheless, Tranter reeled off the miles in speedy fashion, finishing before any of his opponents were in sight, well over four hundred yards in the lead.

The spirit of co-operation which Alexander Mitchell, their coach, has taught them, aided the C.G.E. team greatly in making their victory a clean-cut one, and left no doubt as to their superiority.

The Walker Hardware Silver Trophy goes to the winners, together with medals for each individual.

THEATRES

AT THE CAPITOL

CLARA BOW IN "THE WILD PARTY."

The "It" girl has a good time in this feature picture at the Capitol Theatre, and she proves herself to be just as good an actress as when she started to blaze the trail for joyous flappers.

"The Wild Party" goes in for the same type of flippant wise crack that obtained in Colleen Moore's "Why Be Good?" but it is a picture of a different type. Clara Bow would be quite offended if she were told that her "wild party" was quite tame compared to "Pert Kelly's" cutting up in the above-mentioned picture, but such is the case. And "The Wild Party" also points a moral which distinctly adorns the tale.

To give the zippy "It" girl a professor lover who has a small moustache and an uplift urge is to label her somewhat of a back number, as modern maidens are concerned. But she seems to like him, and the close of the tale finds her preparing to embark with him on a honeymoon trip to Malaysia, to do some work in anthropology in that far distant archipelago.

Clara is Stella Ames, a popular senior of Winston College, and hero is Professor James Gilmore, (Frederic March), teacher of Anthropology to a large class of ladies who have become intrigued by his fairly handsome visage and self-controlled manner. Marcelline Day has the role of the Senior who is in charge of student government at the college and there is a real, honest-to-goodness snooper in the form of Miss Eva Tutt, one of the students who makes a business of spying on her companions.

The "wild party" takes the form of a drinking house party that lasts well into the morning hours and Stella later on, out of loyalty to Helen, her friend and room-mate, takes the blame which later accrues to the guests, when news of the affair leaks out. That is where the moral tone of the performance comes in and the action of Stella reaches a high plane after her giddy doings.

It is an interesting picture with a very high-brow and virtuous hero. If the zippy maidens of the present are going to fall in love with men like this, the country is still safe for posterity.

Stan Laurel and Oliver Hardy in "Double Whoopee' have a comedy that is characteristic and full of fun.

—Jeanette.

Toronto Team Plays Tie Game At Kingston

KINGSTON, June 4.—Toronto St. Mary's and the Kingston Central Ontario league team played a 5 to 5 tie here yesterday before a crowd of over 2,000 people. The game was called at the end of the ninth after Kingston had tied the score.

The Ponies played remarkably well in what was their first game of the season, outhitting St. Mary's, though their fielding was not so tight. St. Mary's held a one-run lead with two out in the last of the ninth, but Cherry, Kingston, centre fielder, drove out his third hit and scored on Lawlor's smash for two bases.

A double steal by St. Mary's in the second inning, with Giroux pilfering home, was one of the features of the game.

O'Neil pitched a good game, though inclined to be wild.

Schedule Is Revised For Central Ontario

OSHAWA, June 4.—After many meetings and much discussion and the announcement of a schedule and an amended schedule, the officials of the Central Ontario Baseball League at last think they have formulated a draw that will suit all parties. In the previous schedules it was found that Alexandra Park at Oshawa was slated for both senior lacrosse and senior baseball on several days, and it was to iron out this difficulty, as well as others from other teams in the League, that the new schedule was drafted. After Peterborough, Belleville, Deloro and Oshawa settle among themselves which is the better team, Kingston will step up and play off in the finals. The new schedule, the first four games of which have already been played, is as follows:

May 24—Deloro at Belleville, Peterborough at Oshawa.
May 29—Peterboro at Belleville.
June 1—Deloro at Peterboro.
June 5—Oshawa at Belleville, Peterboro at Deloro.
June 8—Belleville at Peterboro, Deloro at Oshawa (double-header).
June 12—Belleville at Deloro, Peterboro at Oshawa.
June 15—Oshawa at Peterboro.
June 19—Peterboro at Belleville, Oshawa at Deloro (double-header).
June 22—Belleville at Oshawa, Deloro at Peterboro.
June 26—Peterboro at Deloro, Oshawa at Belleville.
July 1—Oshawa at Peterboro, Belleville at Deloro.
July 3—Deloro at Belleville.
July 6—Deloro at Peterboro, Belleville at Oshawa.
July 10—Peterboro at Belleville, Oshawa at Deloro (double-header).
July 13—Belleville at Peterboro (double-header).
July 17—Peterboro at Deloro, Oshawa at Belleville.
July 20—Oshawa at Peterboro, Deloro at Belleville.
July 24—Peterboro at Oshawa, Beleville at Deloro.
July 27—Belleville at Oshawa, Deloro at Peterboro.
July 31—Peterboro at Belleville.
Aug. 3—Belleville at Peterboro, Deloro at Oshawa (double-header).
Aug. 7—Peterboro at Deloro, Belleville at Oshawa.
Aug. 10—Belleville at Deloro, Oshawa at Peterboro.
Aug. 14—Deloro at Belleville, Peterboro at Oshawa.
Aug. 17—Oshawa at Belleville.

Such *delightful salads*

...So easily prepared

BECAUSE salads are so easy to prepare and because they are so fresh, delightful and healthful, more and more experienced and clever hostesses are serving them daily on their tables.

To please your family and your guests do as these women do. Serve salads every day and serve with them dressings made in your own home with Keen's Mustard as one of the ingredients.

English mustard enhances the savour of a salad dressing—increases its zest—gives it an added flick of flavour. Also mustard is healthful because it aids digestion.

GOLDEN DRESSING

Mix ¼ cup of sugar, 2 tablespoonfuls of flour and 2 teaspoonfuls of Keen's Mustard together. Heat 1 cup of canned pineapple juice and add the mixture to it. Cook over hot water until thick, then add the beaten yolks of 2 eggs and 2 tablespoonfuls of lemon juice. Cook 3 minutes more and when cool add a cup of whipped cream.

A Wonderful Book of Recipes FREE

We have prepared a beautiful illustrated book, SALAD SECRETS, which contains scores of tried and tested recipes for salads and salad dressings. This book is yours FREE for the asking. Write for it to-day.

KEEN'S MUSTARD

Aids Digestion

RURAL SCHOOL RIGHTS.

Editor of Examiner:

Dear Sir,—In regard to those two years' High school work that is to be taken up in the rural Public school, the sooner it is quashed the better for the farmers. It is a mistaken idea that it will help keep boys on the farm, or girls either; it will do the very opposite, because when a boy attends High school at home for two years, well the parents will try to send him the remaining two years and therefore he is through on the farm. If there was no High school work taken up in Public school the boy would be put to work immediately after the Entrance and be quite content to stay on the farm. I know whereof I speak, as we have High school work taken up in some of our schools now and where the teachers are experienced they get on splendidly. Another item against this plan is the fact that we would overwork our teachers as the majority of rural schools have already from 6 to 10 classes primer class with little tots of 6, so it can be clearly seen that the junior classes will not get the attention they do now. If this abomination comes to the school, the place for pupils who have passed Entrance is in the Continuation or High school, as it has been all along; that is what has kept our rural schools at such a high standard. I have been a trustee in a rural school for 15 years, and the experienced teachers say if this comes in force they will resign, as they are overworked as things are now, so it is up to the farmers to stand up for what is best for ourselves and one of these things is to keep our boys on the farm.

FARMER.

Neptune's satellite is supposed to be about as large as our moon and it moves around the planet in a little less than six days.

Beauty is marred

when gums break down

Daily care may safeguard beauty and youth from such dread diseases as Pyorrhea, Gingivitis and Trench Mouth—diseases that attack undernourished, under-exercised gums — diseases that only expert dental treatment can thwart when once contracted.

So avail yourself of the skill of modern dentistry. Brush teeth and gums, every morning and night, with the dentifrice designed to help keep gums firm and sound, so protecting them from disease. This dentifrice is Forhan's for the Gums.

Nobody's immune from the attack of dread gum diseases . . . you may be next! As a preventive measure, see your dentist at least twice a year and start using Forhan's daily. When you use Forhan's, notice how much better gums look and feel and the way it cleans teeth and helps to protect them from decay will delight you. Get a tube from your druggist—today.

Forhan's *for the gums*

* 4 out of 5 after 40 and thousands younger pay the extravagant price of neglect.

PETITIONERS OBJECT TO PLAN

(Continued from Page 1)

that it had been previously licensed, had been used for a time and then discontinued. The Home Lunch were now re-opening it.

Ald. Lowe's amendment that the request for the Simcoe Street upstairs eating house license be granted was seconded by Ald. Huffman, but was otherwise unsupported.

Chinese Opposed It

Opposition to this proposed restaurant was expressed in a letter with numerous signatures, among them proprietors of Chinese cafes, which complained that the upstairs location provided no means for the proper disposal of garbage, that there was only one exit for a fire escape, that the city had already more eating houses than the population could support, and that this contention was borne out in the death of a Chinese restaurant keeper some months ago, whose liabilities to merchants and other business men totalled nearly $12,000. The letter also stated that some of the existing restaurants could be bought at a fair price.

Some of the names affixed to the letter were Tom Long of the Canton Cafe; Hing Cheu, of the Sanitary Cafe; Hum Sam, the Paris Cafe; Willie Hum of the Home Lunch; Henley Hum of Louis Cafe; Henry Hum of the King Cafe; also E. H. Brown of the Montgomery Hotel, D. A. Kinnf, L. R. MacDonald, of the Naborhood Shoe Store; J. J. Jopling and Sons, Porter S. White and Co., and others.

R. R. Hall, K.C., told the Council he appeared on behalf of some merchants who were opposed to the licensing of this restaurant. The letter which was read in Council, he said, spoke for itself.

Seemed a Monopoly

In the subsequent discussion Ald. Lowe declared that he did not like the opposition of other restaurant keepers, and it smacked of monopoly if the request for the upstairs cafe was refused.

Ald. MacDonald said—"I don't think it is a suitable place. It is too narrow to begin with, less than 14 feet in width. That increases the fire hazard, and, as Mr. Hall pointed out, it would not be as easily supervised by the police as are the restaurants on the street level.

Ald. Phelan—"Among those opposed to it is Herb. Stenson, and he has paid taxes here a long time. They tried to get his upstairs to enlarge the place they intended to make, but they wouldn't let them have it."

No Licenses For Booths

The Council also refused eating house licenses to applicants who evidently planned booths for Old Home Week. And some merchants who sell soft drinks are believed to have overlooked the necessary license. They will be visited by the Sanitary Inspector in the near future.

H. Smith, Hunter street, was granted a free license for an ice cream stand on Hunter Street near Aylmer Street, because he is an ex-service man and also on account of a long illness. Some of those who were granted licenses were John Pritchard, Smith Street; V. E. Crebar; J. J. Menzies, 641 George Street; the Woolworth Company; Peterborough Milk Products Co.; (some of these were renewals), Mrs. B. McKnight, Armour Road; Mrs. A. Lefebvre, Rogers Street, Peter Goselin, Hunter Street; R. B. English Chamberlain street; M. E. Finn, George Street; N. Renzetti, S. Whatley, Charlotte Street.

Complaint By Neighbor

The license held by Mrs. Bradley, Sherbrooke Street, near Rubidge Street, was not renewed, because of a complaint from a neighbor that it kept open until late at night and thereby causes a nuisance. It was intimated that the license may be retained if assurance is given by the owner that midnight noise will be discontinued.

Asked for Compensation

John Quinlan and other property owners near Hazlett and Rogerts street wrote the Council asking for compensation for the depreciation of their property by the proximity of the city's gravel pit.

Ald. Hamilton remarked that there was a question for the Court of Revision to deal with. Ald Holland supported the contention of the petitioners that the value of their property had been depreciated. They should receive consideration from the city, he said, because the municipality owned and was benefited by the gravel pit.

Ald. Holland moved, seconded by Ald. Stocker, that City Solicitor Wearing be asked to writ Mr. Quinlan informing him that his request comes within the jurisdiction of the Court of Revision.

A petition from residents of Donegal street urged that the street be gravelled, repaired and drained. It was signed by the following: Stanley Harris, H. E. Kirn, Reg. H. Turner, Sam. Hoolihan, James Murty, Joseph Crowe, C. D. Macfarlane and others; and was referred to the Board of Works.

Ice For Fountains

The contract for supplying ice at the drinking fountains at the police station, Confederation Park, King Edward Park and Victoria Park was awarded to the Sanitary Ice Company, on Ald. Huffman's motion seconded by Ald. Stocker. Two tenders were received, each for $160, the same price as last year. Ald Huffman said that the tender was given to the Allen Ice Company a year ago, and for that reason he suggested that it be transferred to the Sanitary Ice Company for 1929.

A. G. Metheral, plumbing inspector, reported for May 38 permits issued for the installation of plumbing fixtures, and 98 inspections of which 29 were water tests and 15 smoke tests. He also issued 32 certificates of completed work during the month.

City Engineer Parsons issued 54 permits last month for a total value of $58,270. The details were as follows; 16 garages $1,925; 7 dwellings $19,600; and 31 miscellaneous permits $36,745. The report also mentioned 53 inspections in May.

Fire Chief's Report

The Fire Department, according to Chief Gimblett's report for last month, responded to 32 fire alarms in which the total loss was $382, as follows—$125 to buildings and $257 to contents. The inspections totalled 361, of which 10 were by the Chief, 14 were reinspections totalled 361, of which 10 were by the Chief, 14 were reinspections and 337 were ordinary inspections. William Osborne, aged 28, was appointed motor driver and Stewart Foster and Daniel Creely were taken on the staff as substitute firemen during the holiday period.

The recent drowning of three persons at the Locks elicited from the Chief the suggestion that all persons using motor boats be required to pass a proper examination in the handling of such boats; that life preserves be carried on all boats, and that the seven men who assisted in finding the bodies be recompensed by the Council.

Kresge Co. Need Chute

The Kresge Company asked for permission to make a chute in the sidewalk for the receiving of merchandise. Ald. McNabb moved, seconded by Ald. Lowe that this request be granted on the condition of the usual nominal rental and also that the work be done under the superfision of the City ngineer.

Ald. McIntyre's motion that curbs and gutters be made on both sides of Benson Avenue from Smith to Wolsley tSreet, and also on Robinson Street in Ashburnham from Burnham Street to Mark Street was seconded by Ald. Lowe and carried. Brock and Murray Streets between Water and Sheridan Streets will be similarly improved, as proposed by Ald. Hamilton and seconded by Ald. Holland.

RULING

MACHINE-RULED FORMS OF ALL kinds, in all ruling colors, are neatly and promptly attended to at The Peterborough Examiner Ltd. Intricate forms our specialty.

NOTICE TO CREDITORS.

IN THE ESTATE OF JOHN HENRY DIXON, DECEASED.

NOTICE IS HEREBY GIVEN, pursuant to the Trustees Act, R.S.O. 1927, Chap. 150, that all Creditors and others having CLAIMS against the Estate of John Henry Dixon, late of the Township of Harvey, in the County of Peterborough, Farmer, who died on or about the 29th Day of January, 1929, at the Township of Harvey, are required on or before the 15th Day of June next to send to the undersigned Solicitor for the Executor, the full particulars of their Claims, and the nature of the securities (if any) held by them.

AND FURTHER TAKE NOTICE, That after such last-mentioned date, the Executor will proceed to distribute the Assets of the Estate among the persons entitled thereto, having regard only to the Claims of which he shall then have notice, and the said Executor will not be liable to any persons or persons of whose Claim notice shall not have been received by him.

DATED at Peterborough this 27th Day of May, 1929.

W. F. HUYCKE,
395 Water Street,
Peterborough, Ont.,
Solicitor for the Executor.

$1.00 EACH.

Lawn mowers called for, machine ground, set and oiled, ready for use and delivered for $1.00 each. We also grind grass shears, sickles, scythes, etc. Wm. Taylor, 221 Hunter street west. 'Phone 109J. t.t.s.

CARD OF THANKS.

The family of the late Mr. Thomas Weaver wish to thank their many friends for their kindness and floral tributes and all those who loaned cars in their recent sad bereavement in the loss of their father.

TALK ABOUT YOUR CLOTHING SALES!

Mr. J. L. Wyatt, the one and only enterprising Merchant Tailor of East City, reports a busy season in men's suit sales during the past two weeks. He estimates the number of men's and boys' suits disposed of during that short period to be one hundred and ten, in addition to which large quantities of gent's furnishings have also been sold. This seems to be "good going" for East City, coupled with judicious advertising. 1d

TRUTH VERSUS ERROR.

Error and superstition abounds, and until the great deceiver (the Devil) is bound, it will still prevail to a certain extent, for Satan will continue to blind the minds of the people. He has succeeded in getting the majority to believe his lie, "there is no death," and many are led by him to accept the God-defaming doctrine of "endless torments." The Scriptures say that "the wicked shall be turned back unto "hell" (death conditions) Ps. 9:17, and that "the wages of sin is death," Rom. 6:35. It is written the soul that sinneth shall die (not suffer eternal torments). We have never publicly or privately made the statement that "there is no hell." The Bible mentions many times the word "hell." Satan has prevailed upon his agents to make the Bible hell to mean endless torments, which is not only utterly false, but absurd.

1d-131-8618. M. T. BUTCHER.

MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-belching, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a pint of lime water in neutralizing cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book, "Useful Information." It will be sent you, FREE. Write The Chas. H. Phillips Chemical Co., Windsor, Ont.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

BOY KNOCKED FROM WHEEL

Last night about five-thirty an elderly man, driving a sedan was proceeding along Hunter street when he struck a boy on a wheel. Parts of the wheel flew in all directions. The lad appeared uninjured and jumped up at once. The driver was more frightened than the rider. Differences were settled between them.

DOG KILLED BY MOTORIST

A careless driver proceeding along Hunter street was the cause of the killing of an innocent dog yesterday afternoon and breaking the leg of another. Pure carelessness was the cause, according to police authority, and nothing else. After striking the animals, the driver did not even stop. Another man driving in the same direction slowed down to avoid striking the dogs while the other driver literally tore through striking both animals, and in cold heartlessness kept on going.

ADVERTISE FOR TEACHER

The growth of the Peterborough Collegiate and Technical school has warranted the employment of an additional teacher. A new face will greet the scholars who are taking mathematics and Science, in the Industrial department when the school opens in September.

ended a mild controversy that was

FLOOR IS RE-TILED.

The vestibule floor at the post office is being re-tiled. The old tiles have all been removed and preparations are being made for the laying of the new floor.

STORE FRONTS BEING RE-DECORATED.

Higgins Hardware Store and the F. W. Woolworth Company are two of the more recent shops in the city to have the fronts of stores re-painted during the recent epidemic of "Save the Surface and You Save All."

NEW FLOOR IN WAREHOUSE.

Traffic at the brewery warehouse has warranted a new floor and at present workmen are busy repairing the floor and getting the place in shape for the warm weather, which always spells business.

RYE'S PAVILION OPENS.

Rye's pavilion opened last night with a good crowd and music that was exceptionally excellent. Roy Locksley and his Canadians besides furnishing the music also gave a number of novelties that were appreciated.

UNIVERSITY RESULTS OUT.

University of Toronto students are at present in a very upset state of mind as the results of the recent examinations have made their appearance in the Toronto papers. The fourth year results were published to-day and other years will follow in the near future. Convocation will be held on Friday when the successful candidates will receive their sheep skins as a reward for four years of more or less hard labor.

PRESENTATION TO MANAGER.

W. C. Beamer, manager of the Bell Telephone Company, was presented with a handsome gold cigarette lighter on behalf of the Bell staff in Peterborough as a token of esteem in which he was held. G. F. Elms made the presentation while H. A. Wilson, district traffic superintendent, made a few remarks as to the great feeling among the staff at Mr. Beamer's departure and wished him the best of luck in his new position as District Commercial Engineer of the Eastern District at Montreal. Mr. Beamer made a graceful reply and was taken back by the unexpectedness of the presentation.

H. H. P. Johnston, the new manager, was introduced to the staff and also wished Mr. Beamer the best of luck.

STOVE-PIPES CATCH FIRE.

Overheated stove-pipes gave the firemen a run to 49 Wolseley street at 9.58 a.m. Monday morning. The danger was removed before any damage was done.

SIPHONING GAS FROM CARS.

During the paving operations on Gilmour street, cars of residents in that locality are required to be parked on Charlotte street. Last week the night watchman, who has supervision of the paving equipment, noticed a man who was siphoning gasoline from several of the parked cars. The marauder was chased away.

VOLUNTEERED THEIR SERVICES.

Fire Chief Gimblett, in conversation with the Examiner this morning, expressed a desire that those who gave their time so unsparingly to aid in the serach for the victims of the triple drowning be credited with their generosity. Many members of the Fire Department volunteered their services during their off-duty periods and also civilians devoted their valuable time to the search. Several names were inadvertently omitted in a previous report of the names of the workers.

Those who manned the boat which retrieved the body of Dick Bell were: W. Lightheart, Len Foster and Larry Gibson. Those who found the body of Scobel were Norm. Welsh, Archie Davis and Danny Edwards. The body of Anne Lucas was found by V. Carr, Jimmy McMartin, Bill Hunt, W. O'Rourke and Al. Fields.

The Chief wishes also to thank the Johnston Motor Company for the loan of two boats and motors and the Peterborough Canoe Company for the loan of a boat for use in the search.

TAX BILS ARE SENT OUT. ..

If you haven't yet received your 1929 tax bill, you are not being overlooked, for Frank Adams, city treasurer, informed the Council last night that the remainder would be in the mail before the 15th of this month.

City Engineer Parsons' expense sheet for May shows a total of $8,514.45, of which labor accounts for $7,067. A big item in the labor payroll was $2,486.10 for new surface drains. The total cost of material was $1,014.82.

... CUPID WORKS OVERTIME

Cupid was working overtime in the city during the month just closed, because the city's statistics show that there were sixteen marriages, just double the number in May of 1928. There were not as many births however, there being only fifty-five as compared with sixty last year in the same month. he deaths were the same, thirty-two.

The number of births in May were the same as in April of this year. But in April there were twenty-one marriages and only twenty-seven deaths.

CARS CRASH ON GEORGE STREET.

At 12.45 last night two cars were greatly damaged in a collision at the corner of Perry and George streets. James Rutherford of Warsaw was driving east on Perry street and he slowed up at the intersection of George to cross. Just as he got onto the main thoroughfare, police officers, allege Brian Copping, who was driving a car at a rapid rate of speed north on George street, crashed into Rutherford's car. The damage to both cars was great.

VESUVIUS IS IN ERUPTION

Streams of Molten Lava Pour Forth in Direction of Pompeii

NO DANGER FORESEEN

NAPLES, Italy, June 4.—(C.P.)—Mount Vesuvius, scourge of the rich Neapolitan countryside, burst suddenly into eruption again yesterday afternoon.

The eruption occurred suddenly on the south-east side of the crater at the base of a small cone. A stream of molten lava poured out in the direction of Pompeii, which Vesuvius wiped out 1,850 years ago.

The lava stream was nearly 40 feet wide. No danger was forseen for new dwellings or the ancient excavated city of Pompei since the new lava current thrown from the great crater was pouring into "Hell Valley." The interior eruptive cone maintained its normal activity.

HOUSE DESTROYED.

Mr. and Mrs. T. Archer, of Horseshoe Lake, Suffer Heavy Property Loss.

LINDSAY, June 4. — (Special to Examiner.)—Friday night the home of Mr. and Mrs. T. Archer at Horseshoe Lake, Haliburton county, was destroyed by fire, which is thought to have originated from a spark from the chimney. Fortunately they were able to save practically all of the contents. Mr. Archer had only moved into the house on Monday. There was a slight insurance on house and contents.

TORY LEADER RESIGNS TO-DAY

(Continued from Page 1.)

the royal presence for the purpose of receiving power. The first was a little more than five years ago when he had a tacit arrangement with Lloyd George and the Liberals which enabled him to carry on for a time.

Depends on Liberals

His tenure of office now depends again largely on what the Liberals will do, for the Liberals hold the balance of power and he is short of an absolute majority in the House of Commons.

The King was in bed, suffering from an abscess of the lung when he received Mr. Baldwin to-day. It was more than an hour and a half after the premier's arrival at Windsor castle before it was officially stated he had resigned.

Right Hon. Arthur Henderson, former Home Secretary, is prominently mentioned as the new Foreign Secretary, a post Mr. MacDonald held himself, along with the Premiership. Other suggestions are: Lord Chancellor, Lord Justice Sankey; Secretary for the Dominions, Right Hon. J. H. Thomas; Air Secretary, Lord Thomson; President of the Board of Education, Sir Charles Trevelyan; Secretary for War, Lord Arnold, or Hugh Dalton; Secretary for India, Lord Oliver; First Lord of the Admiralty, Viscount Chelmsford. Rt. Hon. J. C. Wedgwood, or Captain Benn; Minister of Labor, Arthur Greenwood; Secretary for Scotland, Tom Johnson.

But these and all other prophecies are the purest of speculation, and it is unlikely Mr. MacDonald will be able to announce his Cabinet before the end of the week. The Labor Party executive will meet to-morrow to discuss the party's parliamentary program. Later in the day there will be an executive conference with a committee of the Parliamentary Labor Party to consider general policy and the formation of a Cabinet.

Second Election Not Wanted.

Comment on the situation continually emphasizes the fact that nobody wants another election this year and this will likely be of material assistance to Mr. MacDonald in retaining the reins of office. Mr. MacDonald has himself declared he will do everything possible to prevent another election within two years. But it is pointed out while the Labor chieftain may be personally desirous not to attempt anything ambitious in view of the parliamentary position he will have to consider the advanced wing of his own party.

OBITUARY

WILLIAM McFEE.

William McFee, son of the late Hugh and Margaret Tully McFee, of Dummer, Ont., passed away in Toronto on May 20. A brother, Mr. David McFee, of Forrest, Manitoba, and a sister, Mrs. James F. Youren, of Strathroy, survive. The body was interred in Strathroy Cemetery.

FREDERICK MURNEY

Frederick Murney of 301 Townsend street died early this morning after a short illness, He was the son of Mr. and Mrs. William R. Murney and has survived them for some time. Born in Wiarton, he moved when a boy to South Monaghan and then came to Peterborough ten years ago. He attended Knox United Church while living here and was employed by the City Board of Works. There survives three brothers, James and William of this city and Howard of Millbrook and one sister, Mrs. Dan. McDonald of Wiarton.

The funeral will be held from his late residence to Little Lake Cemetery on Thursday at 2 p.m. Rev. William McDonald will conduct the service.

HOSPITAL FUND FOR LINDSAY

$75,000 Appeal Issued For Addition to James Ross Memorial Hospital.

DRIVE STARTED.

(Special to The Examiner.)

LINDSAY, June 4. — Lindsay, like Peterborough, has an hospital problem on its hands. The Ross Memorial Hospital, which was the gift of the late James Ross of Montreal, is altogether too small to meet the needs of the district served, and a scheme has been launched with a view to enlarging the institution. T. H. Stinson, K.C., M.P., for Victoria and Haliburton, has issued an appeal to the county for the sum of $75,000 for this work. He has offered to give his annuity as a representative in the Federal House to the fund.

RICHARD DAWSON HAS HEAVY LOSS

Driving Shed and Farm Implements Destroyed By Fire—Cause Unknown.

LINDSAY, June 4.— (Special to The Examiner.)— Richard Dawson, who lives about a half mile north of Islay, Fenelon township, has his large driving shed destroyed by fire about three o'clock Saturday morning. The shed contained an auto, buggy, all his fall implements. The adjoining buildings were saved through the efforts of neighbors. The loss is partly covered by insurance. The cause of the fire is a mystery.

YOUNG MEIGHEN WINS PRIZE

QUEBEC, Que., June 4.—Theodore Meighen, son of Rt. Hon. Arthur Meighen, former Prime Minister of Canada, won the second Tessier prize, given to the two law students obtaining the highest total of marks in the written and oral examinations, it was announced by the Faculty of Law of Laval University to-day. The first prize winner was Roger Letourneau, formerly of St. Annes' College.

The former Premier's son is completing his final year as a law student.

THREE QUARRYMEN KILLED.

NORTH BERGEN, N.J., June 4. — Premature explosion of a six hundred pound charge of dynamite today killed three quarrymen, gravely injured two others, and tore an estimated thousand tons of rock from the Belmont-Gurnee Stone Company's ledge in the northern end of the town.

Foreman Thomas Donato, who missed death by thirty seconds, was arrested on a charge of manslaughter by North Bergen police, and turned over to detectives ordered to investigate by County Prosecutor John Brewen.

NATURALLY.

"I can't seem to place your face," said the groggy boxer as he kept swinging over the other's head.—Fight stories.

NOTICE TO USERS OF ELECTRIC LIGHT.

IN ORDER TO MAKE NECESSARY REPAIRS, THE ELECTRIC LIGHT WILL BE SHUT OFF BETWEEN 9.00 AND 11.00 A.M. AND 1.30 TO 4.30 P.M., ON WEDNESDAY AND THURSDAY, JUNE 5TH AND 6TH, IN THE DISTRICT BETWEEN PARK STREET AND MONAGHAN ROAD, FROM WELLER TO KING STREETS.

PETERBOROUGH UTILITIES COMMISSION.

ROUTLEY-BRAUND STILL IN BUSINESS

Stock Removed To Basement Store of Building.

In yesterday's Examiner it stated in connection with the taking over of the Routly-Braund store by the Atlantic and Pacific Trading Company, that with the change the name of Routly-Braund would pass from the street. This is not the case, as the firm has removed the stock to the basement store of the same building and are still doing business for the present at this stand.

URBAN TRUSTEES TO MEET JUNE 10

Annual Meeting Will Be Held in Brockville This Year.

The annual convention of the Urban School Trustees' Association, which takes in all the cities of the province and the larger towns, will meet in the New Manitonna Hotel, Brockville, June 10th, 11th and 12th. The Costs of Education Committee will report on their two years' work, which is one of the big subjects to come before the delegates, and a full half-day is given for discussion on this subject. The Brockville Board of Education has made great preparation to receive the delegates, and two boats, holding about 160, will take the delegates for a trip through the Thousand Islands. A splendid outing for the half-day is assured.

Last year the convention was held in Toronto, and Thomas G. Bishop of Kingston was elected as president. He will preside at this meeting.

MARRIAGE.

BRYANT — WALLIS. — The marriage is announced of Mabel Wallis, eldest daughter of Capt. C. F. Wallis, Penzance, England, to Garfield Bryant, of this city.

MAGNA CHARTA DAY TO BE HELD JUNE 15

Ontario School Teachers" Federation Appeals To Council For Support.

Magna Charta Day and its celebration on June 15th, is a little matter that will engage Mayor Denne's idle hours in between business and Old Home Week meetings, and things like that, reading a voluminous pamphlet explaining what it's all about.

E. A. Hardy, secretary of the Ontario School Teachers' Federation, wrote to the Council that the purpose of Magna Charta Day was not only to remind English-speaking people of their historic charter of rights, but also to deepen the racial sympathy and good-will. The letter asked the Mayor to issue a proclamation for the general recognition of this day.

Ald. Hamilton proposed that Mayor Denne read the long booklet on the Great Charter, and issue the proclamation if he considered that it should be done, as already undertaken in Winnipeg, Toronto, Edmonton and other cities.

LAST BARRIER IS REMOVED

(Continued from Page 1).

000,000,000) to reduce her interior debt relieving the budget of from 2,000,000,000 to $2,500,000,000 francs.

The accord incidentally is expected to facilitate ratification of the Allied war debts toward the United States since the settlement provides that annuities are to run throughout the period of the debt payments to amounts sufficient to meet them.

It will also lead to evacuation of the Rhineland by the Allied armies of occupation within the space of tim erequired for necessary negotiations and material arrangements to withdraw the forces now there.

NEW WATER COACHES FOR TORONTO ISLAND SERVICE
"Miss Simcoe," the first of the T.T.C.'s new water-coaches for use in taking tourists around Toronto harbor and through the Island lagoons, is due to reach Toronto from Peterborough to-day, and "Miss York," the sister launch, will arrive shortly. "Miss Simcoe" is shown above (No. 1) in the water after she was launched here Monday, while (No. 2) the lower picture shows the seating arrangement, exactly the same as a Gray Line coach, and with the same capacity. The boats went to Toronto via the Trent canal and Lake Ontario. They were constructed by the Peterborough Canoe Company.—Photos by the Roy Studio, Peterborough.

FAVORABLE REPORT IS MADE BY DEPARTMENT INPSECTOR ON CONDITIONS AT COLLEGIATE

Staff Is Found To Be Well Qualified and Discipline Highly Satisfactory.

PRINCIPAL COMMENDED.

Question of Responsibility For Dental Work Is Left With Inspector Mowat.

That the Peterborough Collegiate Institute and Vocational School is being operated under efficient teachers and instructors and that the students are being well trained in all their studies was indicated in the report written by the inspectors of the Department of Education, who recently made a thorough study of the school and the courses. This report was read at the regular monthly meeting of the Board of Education held in the board room of the Collegiate Institute last evening.

The inspection was made early in May and the inspectors were: F. S. Rutherford, J. D. Campbell and A. W. Hamill. Extracts from the report states: "Ratio of pupils to teachers, satisfactory, and division of duties among the teachers most satisfactory."

Handicapped During Year

"The school has been greatly handicapped this year owing to the illness of instructors. The time-table is at present weak in mathematics and science. This condition is due to the above causes. The division of time between practical and academic subjects is according to regulations" the report continues.

"The staff is qualified and the discipline is highly satisfactory. Attendance is good.

"The teachers of shop subjects have made an excellent beginning in their respective subjects; they are following good courses and are using approved methods of instruction. The shops are in good condition, which is evidence that the teachers have correct ideas of management.

"The staff of the commercial department is well qualified and the work being done is, on the whole, satisfactory. An examination of the students work in bookkeeping show-

Oxford University Elects Two Conservative Members

LONDON, June 5 (C.P. Cable). —Oxford University elected two Conservatives to the House of Commons in the general election of last Thursday. Rt. Hon. Lord Hugh Cecil and Sir Charles Oman, members of the last house retained their seats, and the Liberal candidate, Prof. Gilbert Murray, was defeated.

The announcement of the result leaves only four seats yet to be decided,—three seats of the combined Scottish Universities and Rugby-Warwick, where the election was postponed owing to the death of the Labor candidate.

Fairbanks, Jr., 19, Weds Joan Crawford

NEW YORK, June 5.—Douglas Fairbanks, Jr., and Joan Crawford, motion picture players, were married yesterday in St. Malachy's Roman Catholic Church, by the Rev. Edward F. Leonard. Mr. Fairbank's mother, Beth Sully, the first wife of Douglas Fairbanks, was at the ceremony. The wedding came after an engagement lasting two years, during which there were many rumors of their marriage.

Mr. Fairbanks said yesterday in his suite at the Algonquin that he had told his father, Douglas Fairbanks, of his intentions before he left Hollywood, and that the latter had given his blessing and followed it with a telegram of congratulations yesterday.

FINAL APPEALS TO ELECTORATE

Saskatchewan Voters Will Go To Polls To-morow To Choose New Legislature.

REGINA, Sask., June 5.—(By the Canadian Press.) —With the many candidates staging their final appeal in rural and urban ridings, party organization officials concentrated their efforts to-day in urging the electorate to "get out and vote" in the provincial general election on Thursday.

The appeal of the party organization workers was broadcast by radio, by house-to-house canvas, and by circulars. "Vote on Thursday" was the slogan to-day.

While the campaign has been one of the most active in the history of the province, so far there have been no last minute sensations flashed to the electorate.

With rural roads in excellent condition for motor travel, a heavy poll is anticipated on Thursday.

HAS A NARROW ESCAPE

COOKSVILLE, June 5.—A narrow escape from being crushed beneath the engine of a C.P.R. freight train was experienced yesterday by G. M. Wynks, 20 Duke street, Stratford, who jumped from his truck a few seconds before the vehicle was smashed to pieces at the Cooksville crossing.

Shipments of electrical equipment from the United States during 1928 were valued at $110,729,121, an increase of $8,213,664 over 1927.

Johnson Motors To Expand

To Handle Export Trade

Johnson Motors Expect To Increase Their Production Fifty Per Cent.

PRESIDENT VISITS CITY.

Lou Marsh Purchases a Johnson Outboard Motor Boat.

Warren Ripple, president of the Johnson Motor Company, of Waukegan, Ill., intimated during a week-end visit to Peterborough that the company's entire export trade to all the British possessions may be transferred to the local plant, probably next year. This additional business will increase the production of the Peterborough factory at least 50 per cent., and may double it.

Mr. Ripple was accompanied by his brother, R. S. Ripple, who is a large shareholder in the Johnson Motor Company. Warren Ripple spent a holiday at Stoney Lake five years ago, and the memory of it lured him last week through the Kawartha Lake country to Maple Lake, twelve miles from the village of Haliburton. He and his brother, with Hugh C. Campbell, superintendent of the Canadian Johnson Motor Company of this city, and Hy Wood, foreman of the local plant, went back to Haliburton County last Friday and remained until Monday. They enjoyed the comparatively rare experience of getting close to nature, of cooking their bacon on the lake shore, and roughing it in a quest for trout, which by the way, safely eluded their bait.

A Pleasure Beyond Price.

"This is something money can't buy," said the president of the company to Mr. Campbell, and he was so delighted with the outing that he is coming back in two months.

Mr. Ripple is highly pleased with the progress of the Peterborough factory. The city itself made a very favorable impression on him, and incidentally he expressed to Mayor Denne his appreciation of the good relations that have existed from the beginning between the city and the officials of the company. Mr. Ripple motored through the country around Peterborough, and got a glimpse of the city from the rolling hills of its horizon. His visit, the first since the factory began operations, left him highly satisfied with the city and the Johnson interests here.

Lou Marsh Buys a Johnson.

Mr. Campbell read a telegram which he had received this morning from Lou Marsh of the Toronto Star, in part, as follows: "Sea Horse arrived O.K., and is now stabled in the Marsh barn. Next thing is to get a jockey who can ride him."

(Turn to page 16 please.)

500,000 ATTEND DERBY

LOCAL COUPLE ARE 50 YEARS MARRIED TODAY

Mr. and Mrs. J. M. Brooks Are Celebrating Their Golden Wedding.

MARRIED IN NEWCASTLE

For Past Twenty Years Couple Have Been Residents of Peterborough.

Fifty years ago on June 5th, 1879, Jacob M. Brooks and Mary Cullen were united in the holy bonds of matrimony by the Reverend Mr Drummond, in a beautiful little Presbyterian church at Newcastle.

Since that date, time has lightly left its mark on this grand old couple. Mr. and Mrs. Brooks are both healthy in appearance and look back on the half century of married life as one of happiness and success. Both husband and wife have retained a whimsical sense of humor that must of won them many friends during their career together and Mr. Brooks is especially endowed with a dry sense of humor that has in itself a very winning way.

Mr. Brooks recalls his marriage day as one of bright sunshine, even if it did rain like the dickens the next day. It was the time of the South Ontario elections when T. M. Gibbs was an outstanding candidate. "I remember," said Mr. Brooks, "that I had a holiday on June 5th" and when The Examiner asked if that is why he got married he dryly said "sure."

Born In Ireland.

Mrs. Brooks in answer to how she met Mr. Brooks in her humorous way said, "Surely you do not have to be told that. How does any girl meet a fellow?" Mary Cullen as she was known before her marriage, was the daughter of Thomas and Frank Cullen and was born on that Emerald Isle of Ireland, when in her younger years she moved to the State of New York, after which she came to Oshawa in 1875 where her romance with Jacob Brooks came to such a successful end.

Mr. Brooks was born in Pickering after which he moved to Oshawa in 1867, where he was destined to meet his helpmate in the trials of the

FRACTURES COLLARBONE.

Prince Henry, third son of King George, who was injured yesterday in a polo game in Vancouver.

LIBERAL LEADER OPENS FIRE ON POLICY IN NORTH

Sinclair Demands Survey of Expenditure in New Ontario.

ATTACKS TIMBER SALES.

Minister Can Dispense Favors Without Check He Declares.

PORT ARTHUR, June 5. (C.P.) — Hon. W. E. N. Sinclair, leader of the Ontario Liberals last night, in Port Arthur delivered the second address of his tour of Northwestern Ontario. Switching from the subject of administration of the Liquor Control Act, which provided the ammunition for his initial address at Fort William, wherein he charged political patronage, and a travesty of the control idea he turned last evening to the subjects of Northern Development and Timber Conservation. The Liberal leader attacked the system of appropriation for northern development, declaring the departure from the usual budget system of designating the purpose and place was improper and unbusiness-like tending to a further development of patronage. He declared the more definite system associated with the allocation of budgets would be more in the interests of the whole province than the voting of money in bulk to be used at the entire discretion of those associated with the department. On the subject of timber conservation he said he had found immense areas of timber that would not be used for many years already alienated to private interests.

Always Favored Development.

The Liberals have always supported the government in the voting of the five million dollars supply for Northern Ontario. There is however a difference of opinion as regards methods of expenditure. When it comes to Northern Ontario development there is no statement given to the Legislature as to where the money is to be expended. We believe in roads and development but the representatives of the people should be informed where it is to be spent, and the purpose; no one is able to tell how much has been spent in any given constituency. The people and their representatives in the legislature should know this. For years we have been asking for estimates before the money is spent and for statements afterward. We believe it is good business. Surely the people want to know what the development is to be, and how it is to be carried on. The Minister says he cannot tell. I disagree with him. He must know. If the Liberals are entrusted to office this is the method we will adopt.

EX-MAGISTRATE DEAD

BELLEVILLE, Ont., June 5.—Levi Williams, 86, police magistrate here 1910 to 1928, died here yesterday as the result of a stroke.

MODERATOR INJURED

TORONTO, Ont., June 5. — Rev. Dr. J. Buchanan, Moderator of the Presbyterian church, sustained a broken leg and injured ribs in an accident at Mimico yesterday, when he was struck by an auto on the Lake Shore road. He is confined to Western Hospital.

Trigo Wins English Race

Great English Classic Is Captured By An Outsider At 33 to 1.

26 IN FIELD.

Half Million People Witness Race On Famous Epsom Downs.

EPSOM DOWNS, England, June 5 (Canadian Press).—W. Barnett's Trigo, an outsider at 33 to 1, ran away from a picked field of 25 rivals to win the 149th running of the famous English Derby here to-day.

Walter Gay was second and Brienz third.

Before an immense crowd estimated at over half a million, this comparatively obscure son of Blandford and Athiasi romped home a winner by one and one-half lengths.

As the game colt tore down the slopes of the straightaway to register one of the many upsets recorded in the long history of this famous classic, literally millions of dollars changed hands throughout the entire world where wagering and participation in the mammoth sweepstakes is believed to have totalled nearly $100,000,000.

Favorites Are Out

In that final rush for the finish which is accentuated in the Derby by a downhill sweep in the famous track, thousands of eyes searched in vain among the leaders for such popular favorites as Cragadour, Mr. Jinks and Hunter's Moon.

Of the three show horses Walter Gay which finished second was the best liked in the pre-race speculation. Brienz which came home third, two lengths farther back, was held at the extremely long odds of 50 to 1.

Walter Gay had been one of the heaviest tipped horses in the event for the last few days and his fine showing was well received. There had been some doubt before the race as to whether he would start, as his popular owner, Lord Wollavington, had served warning that the hard ground might keep him out of the field.

Kopi Fell at Tattenham Corner

Kopi, which was one of the most heavily backed entries, had the misfortune to fall near the hazardous "Tattenham Corner." Fortunately,

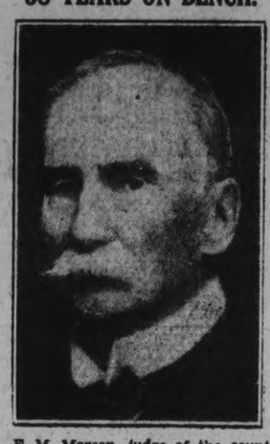
38 YEARS ON BENCH.



F. M. Morson, judge of the county court, completed his 38th year on the bench on June 4. His honor was appointed to the bench by Sir John A. Macdonald in 1891, and his was the last appointment made by the government of the famous Conservative statesman. His record is one of the finest of the pioneer jurists of Canada.

R. R. OFFICIALS VIEW BRIDGE

C. N. R. Representatives and Aldermen Discuss Rebuilding of Bethune Street Bridge.

RAISE PRESENT FLOOR.

C.N.R. officials discussed with members of the City Council this morning the proposal to rebuild the bridge on the Lakefield line at Murray street. The company was represented by George A. Stokes, superintendent of the Belleville division; M. J. McQuaig, superintendent of motive power, Toronto, and several engineers, and the council's representatives were Mayor Denne, Aldermen Hamilton and Stocker, and City Engineer Parsons.

The city is asking the C.N.R. to raise the present floor level of the bridge to avoid the usual Spring ice jams. Another project that was mentioned in this morning's conference was the location of a new engine house. Nothing definite was decided on, but it is understood that a site east of the Aladdin Company's factory and owned by the city has been proposed and is being considered by the company.

Officials of the C.P.R. were also in the city this morning on routine business, and were greeted by Mayor Denne. Their visit did not involve any question of unusual importance.

TELEPHONE COMPANY LEASES GROUND FLOOR OF REVIEW PLANT

New Office Will Be One of the Most Modern in Layout.

ERECT NEW BUILDING.

Present General Office Will Be Altered For Plant Purposes.

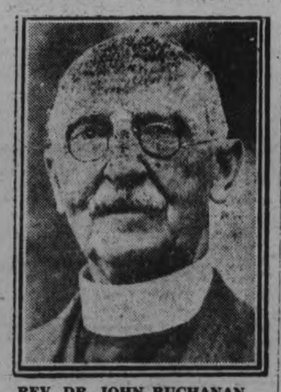
The Bell Telephone Company has leased from James Lynch the ground floor of the former Review building at Hunter and Chambers streets for a new business office, which is expected to be ready for occupancy early in August.

H. H. P. Johnston, who was recently appointed manager in Peterborough, informed The Examiner to-day that the new office would be of the deskless design, the latest adopted by the company, and the last note in modern office layout. The present general office premises will likely be altered and utilized for plant purposes.

A. H. Stratton will be affected by his change, and will move his press room and office to a new building which Mr. Lynch will build at the rear of the premises he is now occupying. The adjoining barber shop is reported to be arranging for accommodation in the front of Schooley's tailor shop.

The new Bell Telephone office will be similar to the St. Catharines office which is regarded as one of the most complete and modern in the Bell's Ontario chain.

INJURED IN TORONTO.



REV. DR. JOHN BUCHANAN,
Moderator of Presbyterian Church in Canada, who was injured in Toronto yesterday on eve of opening of General Assembly in Ottawa.

STEAMER IS ON FIRE

TOKIO, June 5.—The steamship Ugo Maru, carrying 700 passengers, most of whom are Russias, was reported on fire between Vladivostock and Kamchatka by the newspaper Nichi Nichi Shimbun to-day. Other ships were rushing to its aid, but no other details were available.

RAMSAY MACDONALD VISITS KING GEORGE AT WINDSOR CASTLE

Labor Leader Accepts Invitation To Form Cabinet.

OFFICIALLY ANNOUNCED.

Is Accompanied By His Son and Lord Arnold to King's Bedside.

LONDON, June 5.—(C.P.)— Ramsay MacDonald, leader of the Labor party victorious in Thursday's polls, at noon to-day accepted King George's invitation to form a Cabinet to replace that of Stanley Baldwin, Conservative Premier who resigned yesterday.

Official announcement of the acceptance was made at Windsor Castle, where King George was ill, a few minutes after the Labor leader had called and left to go back to London.

He arrived at 11:04 with his son, Alastair MacDonald and Lord Arnold. The King's equerry, Colonel Seynour, escorted him inside the castle. He remained slightly more than an hours, leaving at 12:18.

It was the second cabinet Mr. MacDonald has been called upon to form, the first being that of more than five years ago when the Labor party, with the aid of the Liberals, was given its first chance at control of the British Government.

News in Brief
(By Canadian Press)

POSTAL CLERK GETS 4 YEARS

TORONTO, Ont., June 5.—(Canadian Press).—Convicted of stealing money from a letter, also stealing a number of letters, Raymond Wood, a postal sorting clerk, was yesterday sentenced by Judge O'Connell in county court, to four years in Portsmouth Penitentiary.

FOUND IN DYING CONDITION.

TORONTO, Ont., June 5. — Bursting open the bathroom door of his home where they had been summoned by his wife, police found Joseph E. Myer, 54, colored, in a dying condition. Rushed to the hospital, it was found he had drunk a half bottle of lysol.

PLANES FAIL TO START.

OLD ORCHARD, Me., June 5. — Atlantic weather to-day still was unfavorable for the start of the French plane Yellow Bird for Paris and the Green Flash, American monoplane, for Rome.

POSTMEN RETURN TO WORK.

PARIS, June 5. — Postmen who struck yesterday for 24 hours in sympathy with fellow-workmen who were suspended for a month after a strike over uniforms and pay, returned to work to-day

Buildings Left In Ruins

200 Persons of Cranberry Portage Are Rendered Homeless.

HOLD FLAMES IN CHECK.

Buildings Were Constructed Only Few Months Ago.

THE PAS, Man., June 5 (Special to The Examiner). — Cranberry Portage is faced with total destruction to-day. Forest flames which wiped out half the town yesterday gained in fury this morning, and marched on the remaining part of the old town site. The blaze is fanned by an east wind. The residents are helpless.

THE PAS, Man., June 5 (Canadian Press). — Surrounded by a wall of fire, forest rangers, railway construction workers, miners, and every able bodied man in Cranberry Portage, little Manitoba mining town on the shores of picturesque Lake Athapapaskow, battled throughoue the night to save what remained of the settlement after the flames had brought destruction early on Tuesday afternoon.

Early this morning the wind had died down completely, and the fire fighters were reported to be holding the flames in check, after a night of terrific struggle.

It was the new town site of Cranberry Portage, constructed only a few months ago across the railway tracks from what is now known as the old town, that was destroyed when flames from a forest fire swept in from the north shortly after mid-day Tuesday.

200 Are Homeless

Within 20 minutes, a score of dwellings, several business buildings, the railway station and hospital were smouldering ruins, and 200 persons, of the town's 800 population, had been rendered homeless. There were no casualties. The property loss will run into the thousands of dollars, and many small personal fortunes were swept away. No insurance was carried as Cranberry was considered a fire hazard by the underwriting companies, surrounded as it is by forest.

Fanned by a strong north wind, a forest blaze which had smouldered for two weeks, suddenly swirled into a huge mass of flames, and, defeating all efforts of a fire patrol, soon reached the outskirts of the town, swept into the fringe of log dwellings in the old town, cut a circular swath there, then jumped the railway tracks into the new section, and brought total destruction. All the buildings were of frame construction.

At the first approach of fire Tuesday, women and children were placed aboard a train and moved far down the railway toward the Pas and out of the danger zone. Many others took refuge in boats, rafts and canoes out on the lake.

Properties Destroyed

A complete list of properties and residences destroyed could not be obtained early to-day, but those known to be in ruins included offices of the Dominion Construction Company, operators of the Flin Flon Railway, which contained valuable maps and records of Northern Railway development, the railway station, two hotels—the Scandia and Schamehorne—a blacksmith shop and foundry, a garage, several stores and boarding houses and the hospital.

The Cranberry hospital was an eight bed institution, but only one patient was there when the fire swept into the town. He was a construction worker, recently injured on the Flin Flon Railway, and was rescued.

The Home of Col. K. A. Ramsay, superintendent of the Dominion Construction company a complete loss.

Fought Through Night

Roy Brown, aviator, who flew over the burning town, arrived here to-day. At one o'clock this morning, he stated, the fire was right outside the northern end of Cranberry Portage. Gangs of men fought the flames all through the night, but made little headway.

"A red glow" said Brown "spread over the town, throwing into bold relief the dozens of buildings nestled among the trees and the fire-fighters hurrying about to the numerous danger zones. Soon the flames began to lick at the new townsite and several biuldings were quickly demolished. Realizing the hopelessness of trying to save the new site, efforts were concentrated on the squatters' sections where the greater part of the population is still centred."

Four Motorists Killed By Train

Freight Hits Car

Cobalt Motorists Fail To See Approaching Train Near Cornwall

WOMAN IS INJURED.

Accident Occurred When Two Trains Were About to Pass Each Other.

CORNWALL, Ont., June 5 (C.P.).—Positive identification of the victims of the fatal level crossing accident at Moncklands, 17 miles north of here, yesterday afternoon, when three persons were killed and a fourth died en route to the hospital, while a fifth is in the hospital at Smith's Falls, seriously injured, was made to-day by provincial police.

Octave Geroux, 48, Cobalt, driver of the touring car which was struck by a westbound Canadian Pacific freight train, after waiting while an eastbound freight passed the crossing, was killed instantly, and Wilfred Therrien, Larinville, Que., formerly of Sudbury, died en route to the hospital, and Laura Geroux, 22, and Rosa Geroux, 19, daughters of the former, were instantly killed. Mrs. Octave Geroux, 42, lies in hospital suffering from three inch scalp wound, gash in her throat, two broken ribs, and severe shock.

The family was moving to Cornwall when Octave Geroux had secured employment, and Theirrien was travelling with them from Plantagonet, where the Geroux family had spent the week-end.

Freights Were Passing

The accident occurred when two freight trains, one going east and the other west were passing just about at the point where the highway crosses the tracks at Moncklands. The party in an open car were approaching the crossing from the north side. Apparently, the driver of the car was attracted by the eastbound train, which was travelling on the highway line on the south side of the right-of-way. The westbound train, although in clear view and on the side of the tracks closest to where the car was waiting for the other train to pass, apparently escaped unnoticed. The eastbound trai nhad cleared the crossing and the car started across the tracks when it was struck by the east-bound freight, which could not have been travelling more than 20 miles per hour The train stopped within two or three hundred feet

The car was totally wrecked and the dead and injured were strewn about the tracks, some of the dead being horribly mangled.

FALLS THIRTY FEET.

ST. CATHARINES, Ont., June 5.—oseph Stohill, Thorold, boilermaker, fell thirty feet from a steel gate on the Welland Canal to-day, and is confined to hospital here with severe injuries.

FUNERAL ON THURSDAY.

HAMILTON, Ont., June 5.—Full military honors will be paid to Sir John Gibson, who will be buried in Hamilton Cemetery Thursday after a service at Central Presbyterian Church. Rev. Dr. William Barclay, pastor of the deceased, will officiate assisted by Rev. George M. Barrow, chaplain, the Royal Hamilton Light Infantry, of which Sir John was Honorary Colonel.

OTONABEE COUNCIL ENDORSES PROPSED CHANGE IN C.N.R. TRAIN

Numerous Complaints Are Received at Regular Meeting of Campbellford Council.

ASKS FOR SEWER.

By-law Appointing Rev. Clarke Wallace To Library Board Is Passed.

CAMPBELLFORD, June 5 (Examiner Staff Correspondence).—Routine business with but a few other items was the order of procedure at the June meeting of the town council held in the council chambers on the evening of June 3rd at eight o'clock. All members of the council were present.

After disposing of the minutes the correspondence was the first order. The first letter was from the clerk of the township of Otonabee, informing the local council that the council of Otonabee had expressed itself as being unanimously in favor of the desired change in the C.N.R. time table whereby an evening train would be run east over the line through here. So far no correspondence from either Stirling or Hastings relative to the matter has been received. A letter from Harold Petherick enclosing a petition for the sewer on Frank street was received and the petition referred to the clerk for verification. In a letter to the council, the H. J. Boyle Co., authorized the council to apply the transient traders' tax which they had paid to the taxes of Miss Wallace, whose property the company occupies. The letter was laid on the table since the council did not approve the suggestion.

Address Council

Mrs. Hollings addressed the council, complaining of the condition of the sidewalk on Raglan street. Her complaint was of water flooding private property there. The council agreed to view the situation and take the necessary action.

A. H. McKeel asked for a sewer on Inkerman street. He thought the property there was badly in need of this service and offered to do all he could to have the work done. He suggested that it could be installed

Eight Negro Women Drowned Near Beaufort

BEAUFORT, S.C., June 5.—(Canadian Press).—Eight negro women were drowned in the Johnson river near here last night. One woman of a party of eleven persons crossing the river in a boat stood up, causing the craft to overturn.

The boat contained nine women and two men. One of the women said she was getting wet and stood up. It overturned and only three of its occupants were able to make it to shore.

Searching parties were dragging the river to-day but none of the bodies had been recovered.

FLOOD WATERS ARE RECEDING

Hundreds of Homes Flooded in Calgary Over Week-end.

HEAVY DAMAGE

CALGARY, Alta., June 5.—(By the Canadian Press).—Mountain streams and rivers, churned into flood stage by the melting snow from the rocky peaks, which took a toll of life and caused property damage of many thousands of dollars, were receding early to-day, and a perceptible fall was noted in practically all the inundated districts of Alberta's foothills. In Calgary hundreds of homes were flooded during the week-end, streets undermined and gas mains broken, while in the outlying districts bridges were swept away and highways flooded.

Early to-day reports from the country districts showed the high water on the decline, after taking a heavy toll of property, especially in the town of High river.

Flood conditions were reported in the eLthbridge district, but damage there was not extensive.

PRINCE HENRY HURT IN FALL FROM HORSE

Suffers Fractured Collarbone at Vancouver Polo Park.

VANCOUVER, B. C., June 5. — (C. C.)—When his mount fell during a polo game yesterday afternoon at the Brighouse Polo Park, H. R. H. Prince Henry, Duke of Gloucester, suffered a fractured collar bone. Dr. W. L. Graham, who was on the ground, had the Prince removed to his suite in this city, where he was attended by Dr. W. H. Sutherland and Dr. Graham.

Last night the two physicians issued a bulletin as follows:

"The fall resulted in a complete fracture of the outer collar bone. The fracture is not commuted, and the result will be excellent. The X-ray following reduction shows the fragment to be in excellent position."

His Royal Higness is resting quietly it was stated.

The Weather

Meteorological Office, Toronto, June 5. — (C.P.) — Pressure is low over the Great Lakes, and also over the Rocky Mountain states, and relatively high over the central portion of the continent and the far north. The weather has been cool from Ontario eastward with light showers in some districts and fair and warm in the western provinces.

Forecasts.

Lower Lake Regions — Moderate winds, cloudy, with occasional showers. Thursday: Moderate west to Northwest winds mostly fair and a little warmer.

Georgian Bay: Moderate West and Northwest winds; fair to-night and Thursday; a little higher temperature on Thursday.

Northern Ontario: Cloudy and cool, with scattered showers; Thursday, fair and a little warmer.

Ottawa and Upper St. Lawrence Valleys: Moderate winds, unsettled with occasional light showers. Thursday, Moderate westerly winds; mostly fair, not much change in temperature.

Lower St. Lawrence Valley: Moderate winds; unsettled to-day and part of Thursday, with occasional showers.

Gulf and North Shore: Light to moderate winds, fair. Thursday, moderate to fresh winds; becoming unsettled with showers.

Lake Superior: Moderate winds, fair. Thursday, Moderate winds, fair and somewhat warmer.

Western Provinces: Fair and warm to-day and Thursday.

Father and Mother Are Sent To Reformatory

STRATFORD, Ont., June 5.—(Canadian Press).—Sentence of one year each in the Ontario Reformatory with indeterminate terms of two years less one day was meted out by Judge James L. Killoran yesterday to Mr. and Mrs. Arthur J. Wilson of Wallace Township, convicted last week of not providing the necessities of life for their child, Alma Olive Wilson, such neglect causing her death on April 10, last.

GIVEN ACCLAMATION.

WINDSOR, Ont., June 5.—(Canadian Press).—Frank D. Riberdy yesterday was chosen mayor by acclamation of the new city of East Windsor, thirteen other nominees retiring from the field. He had been serving his third term as Mayor of the community which until last Saturday had been the town of Ford City. Three of nine aldermen were elected without opposition.

The election will be held next Saturday.

ESCAPES FROM JAIL.

BRAMPTON, Ont., June 5.—As he was being taken into jail here yesterday, Harry Graham, 24, escaped from the custody of the Police Chief and has not yet been apprehended. He had pleaded guilty to fraud and had been remanded for sentence.

As the result of labor agitation and communistic demands, 2,500 rug weavers in Pekin, China, were out of work for three months this spring.

MISS MACPHAIL WOULD REDUCE VOTE TO CADETS

Lady Member Moves Amendment Reducing Estimates For Training to One Dollar.

$500,000 VOTED.

Col. Ralston Declares That No Compulsion Was Exercised With Respect to Scheme.

OTTAWA, Ont., June 5.—(Canadian Press).—The only woman in the federal parliament once again, yesterday, led in spirited opposition to the annual vote for cadet training in Canadian schools. Estimates of the Department of National Defense, totalling $20,123,378, were before the House of Commons in committee of supply. The second appropriation under the militia heading was $500,000 for "cadet services" and to this vote Miss Agnes MacPhail, Progressive member for southeast Grey, took most decided exception. Her opposition found expression in an amendment to reduce the amount of the appropriation from $500,000 to $1. The amendment was defeated on a standing vote, by 56 to 15.

Cadet Training Growing

"I am more opposed to this vote than to any other in the Department of Defense estimates," Miss MacPhail informed the committee. She offered statistics to show the tremendous growth in cadet training in the schools of Canada. These figures aroused the enthusiasm of some supporters of the cadet movement in the house, who applauded when they were announced.

"The applause smows more of the old time patriotism than common sense" was the comment of Miss MacPhail.

The chief ground of complaint against cadet training, as indicated by Miss MacPhail, was that is fostered the military spirit in the youth of Canada. Cadet training was military and not physical, she asserted.

Defends Policy

The instructors in physical training greatly outnumbered this engaged in cadet training, Col. J. J. Ralston, Minister of National Defense, declared to the house. There was no compulsion exercised with respect to the scheme of cadet training. He stated that the province of Quebec had shown the greatest increase in cadet training of any province during the past year.

Col. Ralston objected that Canada was not spending $20,000,000, nor did she propose to spend this sum, on her militia. The amount appropriated for military services was only $111,065,000 which was lower than in 1913-14.

hen the appropriation of $2,315,000 for the non-permanent active militia was under consideration, John Evans, Progressive member for Rosetown, moved a reduction of two millions. His motion was lost, and the vote carried.

WIDOW ARRESTED; MAN'S BODY FOUND

Body of Tecumseh Man is Recovered From Waters of Lake St. Clair.

WINDSOR, June 5.— (Canadian Press).—The body of Ernest Ducharme, 34, Tecumseh, who had been missing since May 26, was recovered late yesterday afternoon from Lake St. Clair, at the head of Pelee Island.

Maranda, the 24-year-old widow of Ernest Ducharme, the slain man, is held for questioning at the Riverside police station. She was taken there at 4.25 o'clock yesterday afternoon from the home of her mother, Mrs. Sarah Hennin, by Chief of Police Jerry Desjardins and Dennis Mahoney of Riverside, questioned at considerable length and held for further examination.

PETRIE GIVEN TWO YEARS.

HAMILTON, Ont., June 5.—(Canadian Press).—Harry D. Petrie, at one time candidate for parliament and former Hamilton lawyer, was sentenced to serve two years less one day in Ontario reformatory at Guelph. Sentence was imposed yesterday by Judge Walter Evans in county criminal court. He faced 11 charges of theft, conversion and false pretenses in connection with misappropriation of his clients' monies and pleaded guilty to all charges.

District Churches

WARSAW CHURCHES.

WARSAW, June 5. — (Examiner Correspondence.)—There was no service in the United church on Sunday, as Rev. Mr. Herrington was absent at conference. Pastor Walling preached his first sermon in the Baptist church on Sunday morning. He will be here during the summer, preaching at Warsaw and at Indian River. He will make his home at Indian River.

Rev. J. F. O'Conor-Fenton conducted evening service in St. Mark's church on Sunday.

Rev. Mr. McCleary preached in the Presbyterian church, which was filled. He sang "In the Secret of His Presence," and preached from the text, "And the same day when the even was come he saith unto them, let us pass over to the other side," Mark iv-35.

Some of his points were that Jesus had done a full day's work, that the disciples even were inconsiderate of Him. Jesus was tired and slept; that the disiples were astonished when He did the very thing they asked of Him. Every word was full of interest and he gave people much to think about.

Play Presented.

A full house attended the play, "Too Many Husbands," given in Warsaw Town Hall on Friday evening by the Otonabee Young People's Association from Keene. A dance followed the play and for this the hall was crowded. The Burn's Bridge Club catered and Fife's orchestra from Norwood supplied the music, dancing being kept up until nearly three o'clock a.m.

To Address Institute.

Miss Appelbe is taking Miss Guest's work during the week, and will address Warsaw Women's Institute on Thursday afternoon in the Institute room.

W.M.S. To Meet.

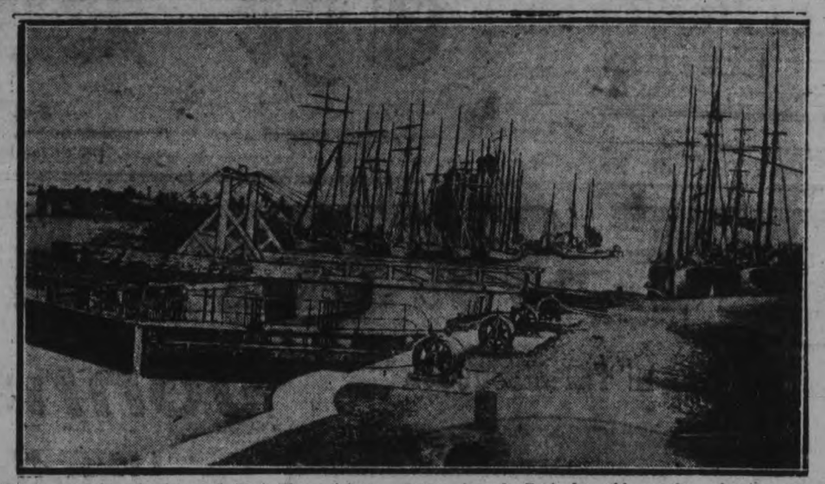
The United Church W. M. S. will meet on Thursday afternoon of next week, June 13.

Personals.

Mr. and Mrs. Everett Sloan and infant son, accompanied by Mr. Sloan's parents, motored to Janetville on Sunday.

Mr. and Mrs. Adamson, Keene, visited Mr. and Mrs. Gordon Payne on Sunday.

Mr. and Mrs. A. F. Choate went to the Lake last week.



Spectacles of grain jams at Port Colborne are not new, according to a picture which is in the possession of J. Barnett, St. Catharines. The picture, above, is of Port Colborne harbor taken as it was in 1870. At least fifteen sailing vessels can be seen in the picture. An old wooden elevator can be seen in the background behind the masts of the boats on the left.

POSTPONED.

LONDON, June 5.—Miss Alice Christmas wondered why her intended husband didn't appear at the church on their wedding day. Investigation proved that he had been found poisoned in Bush Woods. "I went to the hospital at once," she said. "We hope to get married after he recovers. It has been a very severe shock to me of course, but I am confident that all will turn out happilly yet."

RAH FOR THIS CLUB.

LONDON, June 5. — An anti-scandal club has been formed at Exhall by Rev. Frank Melville. Most of us, the minister declares, "suffer from this miserable habit." Members of the club are pledged not to speak evil of any person. They are pledged for a few weeks to see whether their resolutions are strong enough. Fines are proposed for those who break the rules.

UNLUCKY JIM.

WHITTLESBY, Wis., June 5. — Jim Peterson is unlucky on the draw. Last year he and Louis Steiner received a tie vote for a proposition on the town board. Lots were drawn, and Steiner won. The same thing happened in the election this year. Peterson figures he will bet a "break" next year if the election results in a draw.

How shall I Paint my House

Houses surrounded with shrubbery should be painted with bright colors to contrast with the foliage.

Isolated houses should be painted in darker tones.

Where other houses are close, preserve the harmony with them by using either similar or complementary colors.

Good combinations for framework on brick, stone or cement houses are 268 Ivory or 278 Cream, trimmed with 198 Dark Brown or 218 Maroon.

For frame houses, 228 Outside White trimmed with 198 Dark Brown, 258 Green or 218 Maroon can always be used. 268 Ivory or 278 Cream trimmed with 198 Dark Brown are good combinations. 168 Pearl Grey, trimmed with 188 Dark Green is frequently used. Numerous other suggestions can be taken from our complete color card.

We give you this Service—FREE

Your paint dealer or master painter will give you reliable advice. Or, write us all the particulars about your home, and we will send you appropriate suggestions on painting with a complete set of FLO-GLAZE Paint and Enamel color cards. IMPERIAL VARNISH & COLOR CO., LIMITED, Morse Street, TORONTO. Also at MONTREAL, WINNIPEG, and VANCOUVER.

Eases sprains, strains and bruises

FORD CAR HOUDAILLE HYDRAULIC SHOCK ABSORBERS

Positive—Smooth—Double Acting—

HOUDAILLE Hydraulic Shock Absorbers, four to every Ford car, are entirely defensive in their action since they remain inactive and in neutral position on smooth roads. Let a wheel encounter the slightest depression or bump, however, and they respond with the velvet precision of a cat's paw.

Houdaille Shock Absorbers were not adapted to the Ford car after it was built, but were part of the specifications laid down by the Ford engineers as they planned the car. Therefore, Houdailles, their powerful operation coordinated, became integral parts of the complete chassis. It is for this reason that they function with such perfect efficiency on the Ford car.

Houdailles absorb both the upward and downward thrust of the shock through slowing the spring action by means of a heavy glycerine solution, which is forced through a small valve from one compartment to another. They check the rebound of the car softly, exert no tension on the springs and are always ready to offer resistance to the blow when and as required. In fact, the more severe the shock, the more effectively Houdailles operate.

Different from any other shock absorber, the Houdaille connecting link between the frame and the axle of the car is a steel arm, not just a fabric strip to wear out and be replaced. Adjustable to suit differing road conditions and various loads, the Houdaille is more than a shock absorber and more than a snubber.

Inspect the Ford car carefully part by part. Then know the thrill of driving it. By its performance you will realize the easy riding comfort of an Houdaille equipped Ford.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, June 5. —Monday a late trading accounted for all but a hundred head of the cattle offered and these together with the fresh receipts made 850 for sale yesterday. Trade was fairly active at the start.

Butcher steers, heifers and cows sold at steady prices. Handiweight and light butcher steers brought 10¾ to 11½ cents and a few of the best up to 11¾ cents a pound. Best butcher cows were firm at 9 to 9½ cents, and medium cows were a shade easier at 6½ to 7¼ cents. Canners and cutters showed a range from 4 to 5½ cents a pound.

Light butcher bulls were strong at 8½ to 9 cents a pound. But heavy bulls and bolognas were somewhat easier.

A few choice baby beef sold up to 14 cents with the rest downward to 10½ cents a pound.

Feeder cattle brought steady prices up to 10¼ cents a pound for the best. Stockers were not very active, and very few of the good kind were offered. Some common sold at 8 cents.

The calf supply was light for a Tuesday and the market showed a somewhat better feeling. The bulk of the choice veals sold from 13 to 14 cents a pound and quite a few choice kind brought 14½ cents. Common calves were unchanged at 7 to 8 cents.

Spring lambs sold fairly steady with Monday's decline at 18 cents a pound for the best and light lambs downward to 12 cents.

A few yearling sheep moved at 8 to 9 cents a pound, but butcher sheep were slow and fairly steady at 6 to 7 cents a pound for the best, with the bulk of the offering clipped. Culls sold downward to 2½ cents a pound.

The price for the bulk of hogs is not yet settled, but packer's bids were unchanged at 12¼ cents f.o.b. or 13¼ cents w.o.c. for select and it looks as if this bid would carry in the final selling.

Cattle receipts, 750; calves, 727; hogs, 728; sheep and lamps 724.

WINNIPEG GRAIN.

WINNIPEG, June 5.—Following the high price trend recorded at Chicago Monday, local wheat prices soared to higher levels yesterday, closing with net gains of 6½c to 7 5-8c for the day. At the opening the market bounded forward 4½c to 5½c, and, except for a short period of weakness around mid-session, values continued their upward swing to the close.

Washington reported more news of the Government contributing large sums to aid farmers in marketing their crops, and this had a decidedly bullish effect here, the July future running 7c over Saturday's close.

Cash wheat was in fair demand at unchanged prices. Offerings were extremely light, and no new export business was reported.

Demand for feed oats continued good, sales being made at prices fractionally higher. No. 4 C.W. barley, rejected, and feed, were active at higher prices. Flax advanced in sympathy with wheat, but the rye market was dull and prices unchanged.

POULTRY AND EGGS.

Dealers are quoting country shippers for ungraded eggs, delivered, at Toronto, cases returned:

Eggs—		
Fresh extras	27	to 28
do. firsts	25	to 26
do seconds	22	to 23

do. extra, loose	33	to 00
do. firsts	31	to 00
do. seconds	27	to 00

TORONTO PRODUCE

TORONTO, June 5.—Egg prices were unchanged yesterday on the wholesale produce market, with dealers quoting country shippers for ungraded eggs, delivered and cases returned, as follows: Fresh extras, 27c to 28c per dozen; firsts, 25c to 26c per dozen; seconds, 22c to 23c per dozen. Large shipments of fresh eggs were arriving on the market yesterday, and both brokers and producers were making fairly heavy offerings, which, however, met with very little bidding from buyers, demand being particularly light. Sellers refused to reduce prices and the market closed fairly firm. Reports from country point indicate that although production is slightly lower, as is usual at this time of the year, shipments for the rest of the week would continue to be comparatively heavy.

Butter Slightly Lower

Butter prices slipped a fraction on the wholesale market yesterday, No. 1 finest creamery being quoted at 35½c per lb. down ½c, with No. 2 grade selling 1c lower at 34½c per lb. The usual seasonal increase in production has increased supplies, and the demands of the retail trade were easily met.

Trading on the cheese market was very quiet yesterday and the price of No. 1 large colored paraffined and Government-graded held steady at from 18c to 18¾c per lb., delivered in Toronto.

TORONTO SEED PRICES.

Wholesale dealers are selling seed to country dealers at the following range of prices, f.o.b. Toronto:

Red clover—	Per 100 lbs.	
Domestic, No. 1	$30.00	to $32.00
do. No. 2	28.00	28.50
Imported No. 1	26.00	26.50
do. No. 2	24.00	24.50
Alsike, No. 1	32.00	34.00
do. No. 2	28.00	28.50
Alfalfa, domestic No. 2	34.00	35.00
Imported, No. 1	30.50	32.00
Sweet clover, No. 1	6.50	8.00
do. No. 2	5.75	7.00
Timothy, No. 1	10.00	11.25
do. No. 2	7.75	8.50

WHOLESALE VEGETABLES.

Vegetables on sale at the wholesale houses in Toronto are quoted as follows:

Domestic—		
New Ontario potatoes, 90-lb. bags	$1.00	to $1.25
Carrots, bag	1.00	1.25
Beets, bag	1.00	0.00
Hothouse tomatoes, lb.	0.35	0.40
Mushrooms, 1-lb. basket	0.65	0.75
Artichokes, 11-quart	0.50	0.75
Asparagus, 11-quart	2.00	2.50
Rhubarb, doz.	0.25	0.35
Spinach, bushel	0.50	0.65
Imported—		
Egyptian onions, sack	3.75	4.00
Celery, Florida, crate	4.50	5.50
Celery, California	8.00	8.50
Ariz. head lettuce, case	5.50	6.00
Iceberg lettuce, cal., case	5.00	6.00
Cranberries, 25-lb. box	5.00	0.00
California carrots, crate	4.00	0.00
Tomatoes, crate	4.00	4.50
Cucumbers, hamper	5.00	6.00
Cucumbers, 11 qts.	2.25	2.50
Beans, hamper	3.00	3.50
New cabbage, crates	2.50	0.00

MONTREAL PRODUCE.

MONTREAL, June 5.—Butter prices were unchanged. Eastern Townships No. 1 pasteurized sold at 35c per lb. wholesale. Small lots of New Zealand butter sold at 36¼c per lb. Receipts were small, amounting to 15 boxes. Retail prices were 37c per lb. for solids and 38c per lb. for prints.

The cheese market continued firm. No. 1 Western, white and colored, selling at 18¾c per lb., and No. 1 Quebec, white and colored, was 18 3-8c to 18½c per lb. Receipts were heavy at 5,928 boxes for the day.

Egg prices were unchanged. Receipts were 3,449 cases for the day.

Increasing importation from the United States gave a somewhat easier undertone to the potato market here yesterday. New Brunswick Green Mountains were quoted at 60c per 90 lbs. in bulk, with Prince Edward Island potatoes at 75c for Whites and 80c for Green Mountains per 90 lbs. in bags. Track supplies are somewhat reduced, loadings having fallen off.

CHICAGO GRAIN.

CHICAGO, June 5. — Lightning that flashed out in earnest from Washington yesterday set the grain markets ablaze at the last, and wheat prices whirled upward 6½c a bushel. Corn soared a maximum of 5½c and rye exactly 5c. Immense expansion of buying which accompanied the rise in prices followed instantly upon receipt of despatches telling of Administration plans to put into immediate use, not one million or two millions of dollars for farm relief, but a full half-billion, the entire appropriation to be authorized by Congress.

Closing quotations on wheat were excited at the day's topmost level, 3⅞c to 6½c above Monday's finish. Corn close 3⅞c to 5½c up, rye 2½c to 5c advance, oats at 1½c to 1⅞c gain, and provisions varying from 2c decline to a rise of 5c.

Complete effects of the day's news from Washington apparently were yet to be witnessed, for the grain trade, even when the final gong cleared the brokers from the pits, were still unaware that definite action on immediate use of a half-billion-dollar appropriation was not merely planned, but had already been taken by the Conference Committee of the Senate and House at Washington. However, enough was known to bring about general recognition that farm relief measures swiftly were being made ready for the President's signature, and that the whole of the vast sum of money furnished would be available without delay for any purpose which the judgment of the new National Farm Board would direct.

Announcement Creates Excitement.

Announcement of this from Washington came dramatically at a moment when about half an hour before grain trading would cease the wheat market was fluttering indecisively whether to advance or decline. Previous to arrival of the Washington news wheat values had tended downward a good share of the time, influenced chiefly by unresponsiveness which the Liverpool market displayed regarding Monday's advances on this side of the Atlantic, and also by assertions that Argentine wheat could be obtained cheaper than wheat from the United States.

Price Rallies Occur.

Commission houses, though, were prompt to take advantage of the early downturns in wheat prices, and purchasing orders from this source brought about rallies which, however, until the final half-hour, were of a more or less transient character. Then came a storm of buying that overwhelmed opposition and the market sped forward like a cannon ball. During the onward rush of prices that ensued many stop-loss orders were forced into execution. On the other hand, the great majority of traders joyfully congratulated each other as they trooped out of the Exchange.

Corn, rye, and oats acted in thorough sympathy with the advance of wheat. Frost reports from some Illinois points also tended to strengthen the corn market.

Despite downturns in hog values, provisions turned upward with grain.

OTONABEE COUNCIL ENDORSES CHANGE

(Continued from Page 1).

for a matter of two hundred and fifty dollars. Asked if this estimate included a water main as well, McKeel thought fifty dollars ought to be added to the amount. The council will view the situation and bring in a report at the special meeting next week.

Frank Hubble complained to the council that he was unable to obtain employment with any of the corporation gangs. The council heard his complaint but took no action. Llewelyn Reynolds complained of a dangerous situation that had arisen from the gravel trucks coming out of the pit and not stopping at the stop street sign. He thought it was dangerous for children and also drivers coming along the through street. The council will take the matter up with the drivers of the gravel trucks. S. H. Rowe requested that two more lights be placed on Victoria street. A recommendation for this work will be brought before the W. and L. Commission at their regular meeting Thursday. A petition for a water main on the southern end of Grand road was presented and referred to the clerk for verification. Deputy Reeve Stone advised the council that a culvert on Victoria street was badly in need of repair. The matter was left with the road and bridge committee.

By-law number 953 was brought in by Reeve Bygott and passed. It named the Rev. N. Clarke Wallace as the council's representative on the public library board as successor to A. J. Jenkins. The pay sheets and accounts were passed and the council adjourned at 10.15 p.m., to meet again at 7.30 p.m., Monday, June 10.

LOCAL COUPLE

(Continued from Page 1)

following years. During the last twenty years, Mr. and Mrs. Brooks have lived in Peterborough.

This happy couple was blessed with six children. Jacob who answered the call of his country, is sleeping somewhere in France. Greta died five years ago. The living children are, Fred and Lewis who are at home while the two daughters are living in the United States, Mrs. Lyman is a resident of Kingston, Mass., and Mrs. Dr. Steiner lives in Brooklyn, N.Y.

No Celebration.

The last fifty years have been one of happiness as Mr. Brooks says, "We haven't had any quarrels and as Mrs. Brooks remembers it, "I know that I have worked hard but we have been very happy and got along very nicely."

The couple regret that they are not going to have a celebration on their golden wedding anniversary but they do not feel like holding the festivities when their girls are absent and it is impossible for them to be in the city until next month when there is a possibility that they will then celebrate the fifty years of married life.

DAY IN PARLIAMENT.

OTTAWA, Ont., June 5.— Day in Parliament.

To-day—In the House, estimates and government bills will be under consideration.

Yesterday— In the House, third reading was given to bill for $5,000,000 Montreal terminals. Amendment by Hon. R. B. Bennett that bill be referred back to committee to incorporate clause that "This act shall come into force by proclamation of the Governor-in-Council after approval of said plans and works has been given by the Board of Railway Commissioners" was defeated without division. Public works estimates totalling $4,365,630 were passed. Railways and canal estimates, including C.N.R. loans and loans to C. N. Steamship Lines, totalling $70,850,645 were also passed. All estimates of Department of National Defence passed with exception of civil government vote. Amendment by Miss Agnes MacPhail (Prog. Southeast Grey) to reduce $500,000 vote for cadet services to $1. was defeated by 56 to 15. Amendment by John Evans (Prog. Rosetown) to reduce vote for non-permanent active militia from $2,315,000 to $315,000 was defeated. One divorce bill was given third reading and two others second reading and refered to committee. Motion by J. S. Woodsworth (Lab. Winnipeg North Centre) to clear galleries of House for discussion of evidence in one divorce bill was defeated.

ANNUAL DECREASE IN TOTAL FIRE LOSS

Fatalities by Fire in Canada Totalled 314 in Past Year.

HALIFAX, N.S., June 5 (Canadian Press).—While actual property loss by fire was somewhat higher in Canada than in 1928 than in 1927, there had otherwise been a steady decline in the annual loss since 1922, indicating the progress of fire prevention work in Canada, said the report of the insurance committee presented to the annual meeting of the Canadian Manufacturers' Association to-day. Fatalities by fire totalled 314 in the past year, including 179 children, compared with 465 in 1927. The total fire cost in 1928 was $102,697,849, the highest figure since 1923 with the exception of 1926. This was made up of property loss, $36,402,018; insurance premiums in excess of losses, $29,367,337; maintenance of municipal fire protection, $26,882,169; installation and maintenance of private protection, $10,046,325. More than two-thirds of fires caused less than $1,000 damage, but 37 fires caused in excess of $100,000 damage each.

The committee reported that during 1928 there were 61 new installations of sprinkler equipment in Canadian factories and 34 additions to existing equipment. The average rate of insurance had fallen from 1.21 to .90 during the past 15 years, due to increase in volume of insurance and keen competition for business as well as additional preventive methods.

Appended to the report was a statement by E. H. Finalyson director of forestry of the department of the Interior, Ottawa, which showed the importance of the forest products industries, the tremendous losses which had been occasioned by forest fires and the necessity of taking all possible precautions to prevent further loss. He remarked the dominion was spending at present less than $5,000,000 to protect forest property worth, as it stands, at least $1,300,000,000 in merchantable stumpage and $500,000,000 in accessible young growth.

LOSING TEAM GIVES HAPPY LAWN PARTY

Ladies' Aid Plans Strawberry Social in July.

NORHAM, June 5. — (Examiner Correspondence)—The contest, which the Young People's Class of Norham Sunday school has carried on since Christmas and which included league attendance closed last week. The losing side treated the winning side to a weiner roast.

On Wednesday night about forty young people gathered on the parsonage lawn and played games. Later weiners and rolls were enjoyed by all. The gathering closed the league services for the summer months.

Ladies' Aid Meets.

The monthly meeting of the Ladies' Aid was held at the home of Mrs. John Diamond, when the president, Mrs. David Evans, had charge of the meeting. The main business was to make plans for the strawberry festival to be held on July 1. Committees were appointed and the work organized.

After the business a flower contest, arranged by Mrs. B. Isaac, was given. This was tied by three ladies and on a draw, was won by Mrs. P. Windover.

A dainty lunch was served and a social hour enjoyed.

Service Withdrawn.

On account of Codrington church dedication services on Sunday the evening service at Norham was withdrawn when a large number of the congregation attended the Codrington services.

There was a large attendance at Sunday school in the morning when the pastor addressed the Sunday school.

WEDDING BELLS

BLAKLEY—McARTHUR

HAVELOCK, June 5 (Examiner Correspondence).—A quiet but pretty wedding was solemnized by the Rev. W. R. Archer, B.A., at the United Church Parsonage, Havelock, on Saturday, June 1st, at 11 a.m., when Vida Blanche, eldest daughter of Mr. and Mrs. Martin McArthur of Belmont became the bride of Mr. Johnson Christopher Blakley, son of Mr. James Blakley of Warsaw.

The bride was charmingly attired in a gown of white flat silk crepe with hose and shoes to match and carried a bouquet of Ophelia roses. After the ceremony a wedding dinner was served at the home of the bride's uncle and aunt, Mr. and Mrs. Bernard Smith, the dining room being prettily decorated with tulips for the occasion.

Later the happy couple left by motor for a honeymoon trip to Toronto and Niagara Falls, the bride travelling in a costume of honeydew flat crepe with hat, gloves and purse to match and coat of castor tricotine. The bridegroom's gift to the bride was a white gold wrist watch. On their return Mr. and Mrs. Blakley will reside near Warsaw.

STEWART—DAINARD

HASTINGS, June 5 (Examiner Correspondence).—A quiet but pretty wedding took place Tuesday at 11 a.m. in the Presbyterian manse, when Stella Mary Elizabeth, eldest daughter of Mr. and Mrs. John Dainard, became the bride of Harold Clinton, son of Mr. and Mrs. James Stewart, Foxboro, Rev. Dr. Thomson officiating.

The bride was becomingly dressed in rose pink georgette trimmed with sequins and carried a bouquet of sweetheart roses and lily of the valley. She was unattended.

After the ceremony, a wedding dinner was served at the home of the bride. Later the bride and bridegroom left on their wedding tour to Toronto and western points, the bride travelling in a new cocoa shade ensemble with hat, hose and shoes to match and navy tailored coat. On their return they will reside in Hastings.

KELLY—THOMPSON

WARKWORTH, Ont., June 5.—St. Paul's United Church Monday afternoon, at two o'clock, was the scene of a very pretty wedding, when Verna, only daughter of Mr. and Mrs. J. E. Thompson, was united in marriage to Orval E. Kelly. Rev. F. H. Howard officiating.

The bride, who was given in marriage by her father, entered the church to the strains of Lohengrin's Wedding March played by Joseph W. Dixon.

The bride, who looked very pretty, wore a dress of white georgette with lace trimmings and wore a veil of embroidered net caught with orange blossoms and carried a bouquet of Ophelia roses.

Miss Verna Dawson, bridesmaid, wore a dress of pink georgette with lace trimmings and hat to match and carried a bouquet of Sweetheart roses.

Little Mary Insley acted as flower girl and wore a dress of shell pink crepe-de-chine and carried a basket of pink tulips and lily-of-the-valley.

Neil Thompson, brother of the bride, supported the bridegroom. J. B. Thompson and Donald Thompson acted as ushers.

The church was decorated with mauve and white lilacs. During the signing of the register Mrs. (Dr.) Fred Free of Campbellford sang "O Promise Me."

After the ceremony a reception was held at the home of the bride where the happy couple received the good wishes of about fifty relatives and friends, after which all repaired to the dining room where a dainty lunch was served by Misses Helen Mattries, Agnes Dick, Sarah McCombe and Jean Walker.

The dining room decorations were carried out in pink and white.

The bridegroom's gift to the bride was a handsome cheque; to the bridesmaid, a bar pin; to the flower girl, a locket; to the best man and organist, gold cuff links.

The happy couple left amid showers of confetti and good wishes by motor to points east; the bride travelling in a lipstick red flat crepe dress with hat to match, tweed coat and blonde shoes and hose.

Out-of-town guests were Mr. and Mrs. W. Vogt, Miss Edith Angus, Mrs. Jean Mattries; Miss Helen Mattries, Messrs. George and Edward Mattries of Richester, N.Y.; Mrs. Richard Jeffkins of Chesley; Miss Mabel Campbell, Peterboough; Mrs. Geoorge Bilton, Mr. Jason Thompson and Mr. and Mrs. J. B. Thompson, Toronto; Mrs. L. Gerow, Rossmore; Mr. and Mrs. C. A. Thompson, Cobourg.

The many beautiful and useful gifts, among which was a beautiful floor lamp from a number of young people, half a dozen silver knives and forks and a leather club bag from the United Church, showed the high esteem in which the young couple were held.

Against the First and the Last Cold Days -

THE man who puts off buying his coal until cold weather, and then tries to buy just enough to see him through, needs to be a good weather-prophet.

Just *when* Winter comes is an eternal question. It is easy enough to find an answer in the almanac, but the thermometer doesn't always co-operate.

And when Summer comes and goes is equally debatable. In 1928 we had temperatures below 45° in May and below 60° in June; then below 45° again in September.

The best plan is to lay in your coal now, while the price is at its lowest, and to lay in enough so that there is some margin for emergencies.

Old Company's Lehigh Anthracite is a fuel that does not deteriorate. Its high heating-power remains the same whether it is stored for a month, a year, or a century.

The early buyer is protected against the first cold days, and the last; against seasonal price increases; against delayed delivery because of the snow and ice storms of Winter; against disappointment and worry.

A Special Demonstration

For 2 DAYS Only of the

NEW NASH "400" SERIES

SPRING IS HERE—Summer is just around the corner. Enjoy the long sunny evenings ahead of us to the full, by driving a really fine car.

So that you may have a special opportunity to examine at your leisure this wonderful new line of automobiles, we are arranging a special demonstration for two days this week on the

THURSDAY and FRIDAY June 6 & 7

New Nash "400" Series

You will have an opportunity to see what Twin Ignition is and what it does—how the Nash outboard mounting of hydraulic shock absorbers improves riding ease—how Nash-Bijur Centralized Chassis Lubrication simplifies car maintenance—what it means to drive the world's easiest handling motor car—and how motoring expense is reduced by the Nash policy of completely equipping (except spare tire) every "400" model at the factory,

AT NO EXTRA COST.

This special demonstration will just last for these two days. You are cordially invited to pay us a visit at our showrooms to attend this interesting event.

WEDNESDAY, JUNE 5, 1929

MR. SINCLAIR'S TOUR.

The present tour of Mr. W. E. N. Sinclair, Liberal leader in Ontario, and other Liberal members of the Legislature throughout Ontario is a step upon which the opposition members are to be congratulated.

It has not always been the case in the past that the importance of the newer portions of the Province has received due recognition; largely because of lack of knowledge of its possibilities and problems there has been an apathy among citizens of older Ontario that has been resented by the up-and-coming residents of the North, who know what proper development of their section means to Ontario as a whole.

Last summer several Progressive members spied out the land for themselves, and it was noticeable during the past session that they were sympathetic toward any proposals for northern development.

It is to be imagined that Mr. Sinclair and the members of his party will be similarly impressed by what they see during their present tour of the Northland, and there will be on their part a quickened interest in New Ontario and a sincere desire to lend their aid to any policies that promise to work for the benefit of that rich portion of the Province.

AN IMPORTANT DEVELOPMENT.

The action of W. E. N. Sinclair, Liberal leader in Ontario, in abandoning the Liberal temperance plank of 1919 and accepting the principle of Government control as indicative of the will of the people of the Province, is a most important political development.

So far as the two old parties in Ontario are concerned, it means that the Government control question will not be an issue in the next provincial election, except in so much as the application of the principle of Government control and the enforcement of the act by the present Government are involved.

Both old parties now accept the present system and differ only as to details of enforcement and administration—a decided change from the respective positions before the last general election.

Mr. Sinclair's action will leave the Progressive-U. F. O. group alone in the dry field, and may have a decided bearing upon the results in rural Ontario in the next election, in view of the predominately dry sentiment along the side lines, which the Progressive candidates can be depended upon to use to advantage in their appeal to their constituents.

At the same time the adoption of the Government control principle will have an effect on urban voters, especially those who left their parties on the temperance issue.

A GREAT CANADIAN.

One of the outstanding figures in the public life of this Province has passed in the death of Sir John M. Gibson, of Hamilton, former Lieutenant-Governor of the Province, who as a statesman, a militiaman and a power in industry had played a prominent part in Ontario affairs for many years.

Sir John has truthfully been described as a man of many talents, a distinguished scholar, a shrewd lawyer, an able administrator of public affairs, an ardent soldier, a crack rifleman, a capable industrialist and financier, and a leader in Masonic and church circles.

And withal his life had been distinguished by a love for simplicity and by many evidences of a kindly heart.

In political life he served Ontario over a long term as a member of the Legislature, his ability being indicated that at various times he was Provincial Secretary, Commissioner of Crown Lands and Attorney-General.

As a soldier, Sir John had won the admiring title of the grand old man of the Canadian militia, his military career commencing in the ranks of the 13th Regiment of Hamilton and terminating as honorary colonel of that unit. Particularly famous was he as a marksmen, his skill making him a member of the Canadian rifle team on many occasions and winning him the Prince of Wales prize at Wimbledon.

A great Canadian has gone in his passing and Ontario is the poorer thereby.

A PLACE IN THE SUN.

The important place that Canada now occupies in the eyes of the world is effectively indicated by the fact that Canadian articles form a large part of the contents of the current edition of the Review of Reviews, the space given to Dominion affairs in that influential publication telling its own story.

The Review of Reviews, published in New York, makes the point clear when it says editorially in the same issue, "Canada already is one of the great nations of the world."

Special Canadian articles, splendidly illustrated, which appear in the June number, include a republishing of Premier MacKenzie King's article, "Canada and the United States"; "The Evolution of a Nation," by Duncan McArthur, professor of history at Queen's University; "Water, Mines and Mills," by H. E. Chisholm; "John Bull's Rich Nephew," by Floyd S. Chambers, managing editor of the Financial Post, and "Rolling Back the Map," by Alan N. Longstaff.

So much publicity for Canada in one issue of a periodical of the standing of the Review of Reviews is indeed a striking proof of the fact that the prosperity and progress of the Dominion have impressed observers the world over who realize that this country has obtained a place in the sun.

TUNNEY'S TROUBLES.

Gene Tunney, retired heavyweight champion pugilist of the world, including Scandinavia, is being sued for a cool half million dollars by a pretty divorcee who sets forth in her statement of claim that her heart was irreparably broken when she read of Tunney's marriage to another. All of which is, to borrow from the idiom of the younger generation, "just a lot of hooey," of course, but it will be interesting to follow the course of the case when it comes to trial. Tunney had a reputation of being an exemplary young man and he will have to be given the benefit of the doubt in this scandal until the evidence is all in and the judicial pronouncement has been made. It is said by solicitors for the retired champion that this same woman tried to make trouble for him on the eve of his last fight with Dempsey and that they have in their possession an affidavit in which she deposes that she has no claim upon him and apologizes for the trouble she caused. But that was before Tunney's marriage to a New York society girl and the revival of the charge gives basis to the belief that the United States court system is being employed as a medium through which to work a polite game of gouge. The young woman in the case certainly doesn't expect to get a half-million dollars, and it is highly probable that she would prefer "a settlement out of court." Can it be that a racket has been rigged against the student of Shakespeare and swat on the premise that, considering the enrollment in society's blue book, he will pay prettily to save his new bride distress? Tunney admits an acquaintance with the plaintiff, but insists that in the few days he was in her company he was no more than polite. He is treating the whole matter as a joke and so far his legal advisers have not even dignified the action with an official protest. Had Mr. Tunney lost his championship and his fortune, it may be reasoned that the plaintiff would have permitted him to marry whomsoever he set his heart on—and her own cardiac organ, now irreparably broken, would not likely have missed a beat.—Hamilton Spectator.

A TRANSFORMED WEST.

According to a Canadian contributor to the quarterly review of the political situation in the British commonwealth, appearing in a recent issue of the Round Table Magazine, a decided change is passing over the whole purview and outlook of the Canadian West. This has been distinctly in evidence since the Prairie Provinces turned seriously to the question of providing for their own industrial needs, and it throws an interesting light on what seems to be the waning importance attaching to the finding of new eastern outlets for the grain crop. This Canadian correspondent is distinctly of opinion that the West not only has quite lost its former inferiority complex, but is developing a new conviction of self-sufficiency, associated with the increasing inclination to regard the Pacific, not the Atlantic, as its ocean of opportunity.

When the bottom dropped out of the inflation that collapsed in 1921, the West confronted a straitened situation corresponding to that which brought the agricultural depression in the Middle West grain districts of the United States and has led directly to the revised tariff bill now menacing Canadian agriculture generally. Wheat prices tumbled, banks were burdened with frozen assets, business slowed down and men, unable to find jobs, turned southward in search of work. But the turn of the tide came when the Western farmers began to realize that in co-operative marketing they had ready to hand the instrument of their own economic salvation. Its extraordinary expansion and success has also pointed the way of hope for the discontented United States regions.

To-day the Alberta wheat pool is the most spectacular and significant example of the value of the doctrine of self-help to be found anywhere. This organization numbers something like 150,000 members and has profitably marketed almost a billion bushels of wheat. It has become a factor of marked potency in the world's grain situation, and its influence has been accentuated with the favorable movement of grain rates and the growing stress laid on crop diversification, not to speak of the accumulating evidence that a mining development awaits the West comparable to that already found in northern Ontario and Quebec. All these have played their part in the extraordinary wave of optimism that is rolling across the Dominion from the Ontario boundary to the Pacific Ocean.

Even more remarkable is the industrial and urban development, stimulated by the general prosperity and abundant promise of a still larger future. Last year sixty-two industries were established in Winnipeg, raising that city to fourth place among the industrial centres of the Dominion. Regina grew by 15 per cent. last year when its population reached approximately 56,000. Development of an oil-gas field near Calgary has enabled that city to hold its place as second Western city with a population of about 80,000. Edmonton and Saskatoon and, most of all, Vancouver, have had a share in this growth. Vancouver, says the Round Table correspondent, expects from now on to ship about 100,000,000 bushels of wheat a season. It is enjoying a notable building boom. What is most significant is that the present prosperity is not dependent upon a single factor; Western Canada has ceased to be a one-crop country, nor is it solely dependent on agriculture. As it grows and builds up new industries for itself, it is also building up a new consuming population which will no longer be compelled to look to the East to satisfy its necessities.—St Thomas Times-Journal.

EDITORIAL NOTES AND COMMENT.

We haven't been the only sufferers. New York has been shivering in the coldest June on record.

If members of Parliament think their constituents are in favor of sessional indemnities they are decidedly out of touch with public opinion.

What Mr. Sinclair apparently proposes now is bigger and better Government control.

Speculation is not so active as to the membership of Mr. MacDonald's Cabinet as it is to its duration.

Supplementary estimates in the Federal House are three millions less than last year—which is something over which to be thankful.

"What's wrong with farming?" asks a heading in The Globe. And doubtless a good many of its readers will reply that, there are many things wrong in that industry.

The slump in wheat prices is not very cheering news, but it comes at a time when the major part of the Canadian crop has been marketed, which takes out some of the sting.—Lethbridge Herald.

Arrested for speeding at 55 miles per hour, a Flint girl said she was just learning to drive, but she was certainly learning fast. Detroit News.

The old-timers said a man could not live on his reputation, but that was before cigarette testimonials were invented.—Quebec Chronicle-Telegraph.

Apparently the election contest in Great Britain is being waged with everything except tanks.—St. Catharines Standard.

A Thought

ELOQUENCE

Eloquence shows the power and possibility of man. There is one of whom we took no note, but on a certain occasion it appears that he has a secret virtue never suspected—that he can paint what has occurred, and what must occur, with such clearness to a company, as if they saw it done before their eyes.

By leading their thought he leads their will, and can make them do gladly what an hour ago they would not believe that they could be led to do at all; he makes them glad or angry or penitent at his pleasure; of enemies makes friends, and fills desponding men with hope and joy —R. W. Emerson.

Horoscope

The Stars Incline, But Do Not Compel

Thursday, June 6, 1929.
(Copyright McClure Newspaper Syn.)

Good and evil aspects contend in to-day's horoscope according to astrology. It is a time for positive attitude of mind and energetic action.

The morning hours should be auspicious for established lines of business which should be pushed widely.

While the rule is not favorable to foresight or quick decisions it seems to favor routine matters.

Under this direction of the stars there may be much division of opinion among partners or political associates.

Bankers come under a sway that seems to indicat a tendency to criticize and to nourish suspicion regarding policies.

National debts again are likely to come under widespread discussion and to cause international difficulties.

The stars seem to indicate lack of judgment and common sense on the part of many persons while this configuration prevails.

Neptune is in a place making for changes in the business of producing and distributing oil and its by-products.

This is not a particularly auspicious date for beginning ocean voyages, for unexpected discomforts are forecast.

Great numbers of Americans will tour Europe this summer. Astrologers foretell crowds that may cause unusual complications in travel plans.

Women are to-day subject to favorable planetary influences that should benefit them in business or the professions.

This is read as an uncommonly lucky wedding day for it presages prosperity as well as faithful love.

Persons whose birthdate it is, have the augury of good luck in the coming year which should be especially fortunate for lawyers and writers.

Children born on this day probably will be unusual in their talents. Many linguists belong to this sign which encourages education and stimulates intellectuality.

Nathan Hale, patriot, was born on this date 1758. Others who had this as a birthday ,were General Nathaniel Greene, 1742; John Trumbull, portrait painter, 1756; Charles Joshua Chaplin, French figure painter, 1823; Gerritt Berck-Hyde, Dutch painter, 1638.

Lyrics of Life

By Douglas Malloch

A SOLDIER YET.

My grand-dad is a soldier man.
Of course, he's old and gray,
And when he talks of battlefields,
He talks of far away,
And always says, when he gets through,
"That's many and many a day."
And yet he is a soldier yet,
No matter what they say.

My grand-dad is a soldier man.
Of course, he's gray and old;
His fingers now are bent too much
A sword or gun to hold.
He always says, when he gets through,
"Well, that's a tale long told."
And yet he is a soldier yet,
And just as brave and bold.

My grand-dad is a soldier-man.
Of course, his step is slow,
And when he talks of marching days
That's long and long ago.
But when the flag is passing by
You ought to see him though!
My grand-dad is a soldier yet,
And that is how I know.
(Copyright, 1929, by Douglas Malloch.)

Why We Do What We Do.

WHY WE KICK A HAT.

Did you ever pass a fallen hat not your own without kicking it? If so you are the prize exception or else it was on April's Fool's Day when stray hats are not as stray as they look nor nearly as innocent. They usually have a brick or a rock concealed inside.

The very fact however that boys will load an old hat with rock and hide to see the fun of someone kicking it and getting a kick back proves that the average person is likely to kick the hat.

"Say what you will about it," says philosophical Philomena, "a stone has to roll to get anywhere." By Gettler.

The Tule Marsh Murder

By NANCY BARR MAVITY

Story of a Missing Actress and the Taxing of Wits to Explain Her Fate

THE STORY THUS FAR.

Don Ellsworth's wife, formerly the famous actress Sheila O'Shay, disappears, leaving no trace. Dr. Cavanaugh the great criminal psychologist learns that their married life has been very unhappy.

Peter Piper a reporter on the Herald, tries to get an interview with Dr. Cavanaugh. Instead he meets Barbara Cavanaugh, the attractive daughter, and finds that she was engaged to Don Ellsworth before his marriage.

An unidentified body is found in the tule marsh outside the city. It has been burned by a fire in the marsh until it is entirely unrecognizable except for the fact that it is a woman. Dr. Cavanaugh is called in to help with the identification.

CHAPTER 11.

The object which Camberwell held out on the extended palm of his hand was a small flat jar of glass, with a tightly fitting screw top.

"Fire is always a freakish thing," he mused. "With the brush dry as tinder, as it is at this time of year, it was hot enough to burn nearly all the flesh off this woman's bones. Of course, if it was murder, and the fire was not accidental, there is the possibility that the body was drenched in some inflammable substance, first. Yet this one little scrap was left. A flame that veered in a puff of wind, a bit of earth less dry than the rest—we'll never know the how and why of it, but here it is."

Dr. Cavanaugh deliberately flattened the burning end of his cigar against the side of the ash tray before reaching for the jar. He was capable of rapid action when necessity arose, but he never hurried without reason. His only sign of eagerness was the agate-hardening of his brown eyes—a change of expression which Camberwell was quick to note and appreciate.

"I told you I didn't bring you here for nothing," he said. "You can bet one of those nickels with yourself that you'll find this interesting."

Dr. Cavanaugh gravely selected a nickel from a handful of loose change and laid it on the corner of the d3sk. Then he unscrewed the lid of the jar and walked to the light of the big window.

"Hm," His only immediate comment was a noncommittal hum, but when he returned to the desk after a somewhat prolonged scrutiny at the window, he pocketed the nickel.

"This goes to the elephant," he said. "But it was hardly a fair bet. I expected to lose. Your finds usually are interesting, you know.

"Yes," he added, "I can doubtless do something with this—not everything, but something."

"It'll be plenty," Camberwell assured him, "so long as you're really willing to take it up. You begin where I leave off, you know. It's too much for me."

"It's only a matter of physiology, which is in my line as a medical man. You started me on this track of investigation in the first place, but it happens to fit in with my previous training. You have here,"—he tapped the lid of the jar lightly with a thumbnail—"an irregular patch of scalp about an inch in diameter, with perhaps half a dozen hairs clinging to it. And that hair not only belonged, of course, to only one person on earth, but from it we can describe that person, and even, if we have the basis of comparison, can identify its possessor as absolutely as if the one who placed her there had obligingly left for us a full set of her fingerprints. We are very ignorant, after all." Dr. Cavanaugh turned the box idly in his hands and looked meditatively into the distance. "It has taken thousands of years for us to discover that the skin of the fingers, and the hair, and the markings on a discharged bullet are unique and individual. Perhaps in a few more thousands of years we shall know that of a million pebbles on the beach, each has marks of identification which makes it different from every other.

"That would make the keeping of our records even more complicated," Camberwell smiled. He rather hoped the reference to his own work would bring the doctor back to the matter in hand. But Dr. Cavanaugh's mellow voice rolled steadily on.

"Hegel, whom perhaps you have never read, called it the uniqueness of the real. A dime, for instance, he maintains, has what he termed 'an infinite number of distinguishing marks,' even though a million dimes were stamped with the same die and minted with the same machinery. We can never construct in our imagination any idea or image of a dime, or a hair, or a bullet which is as infinitely complex as the real object. Hegel is considered old-fashioned now, but he would have agreed whole-heartedly with your new science of forensic ballistics."

An acute observer might have harbored the suspicion that Dr. Cavanaugh was drifting along the current of this irrevelent discourse with the surface of his mind, while his real attention was elsewhere. Under cover of these meanderings, he appeared to be gaining time for some hidden line of thought, reaching some inner decision. But Camberwell was not a psychologist. He twisted uneasily in his chair—with so much to be done, he was in no mood to listen to a lecture on philosophy!

Slight as it was, his impatient movement did not escape the dreamy, inattentive eyes of Dr. Cavanaugh. He shook off his absorption, and laid down his cigar, as if that small and definite act were the symbol of his decision.

"I'm as bad as Hamlet's grave digger. He'd never have been allowed to finish that soliloquy if one of you detectives had been present!" he said with the smile which revealed a surprising mobility of expression in the large, deeply chiseled features. "However, I promise not to waste any more time. I'll take this home with me, where I can take a squint at it under the microscope, and give you a report in the morning."

"You think you can identify it?" Camberwell asked eagerly.

"At least I'll narrow the range of possibilities." And Dr. Cavanaugh slipped the gruesome little box into his pocket as nonchalantly as if it had been a package of peppermints.

Camberwell's impatience, perhaps, would again have been severely tested if he had seen the psychologist, several hours later, placidly stretched on the chaise-lounge and apparently concentrating on the production of the series of perfect smoke rings which floated ceilingward. No one would have suspected that recumbent figure of a preoccupation with crime.

Neverth eless Dr Cavanaugh had spent a busy two hours, during which the Florentine leather desk appointments had been relegated to the floor, and their place taken by a sheet of glass The desk, oddly out of keeping with the rest of the furnishings of the room, became a laboratory table, where Dr. Cavanaugh his big fingers moving with delicate precision, made a number of smears on a series of small strips of glass, protected each one with a cover-glass, and marked it with a red-bordered sticker, labelled in the doctor's neat, minute handwriting.

His face was impersonally calm and intent, as if the small objects which he manipulated with rapid expertness belonged to the routine of a class-room experiment instead of holding a meaning heavy with life and death, and tragedy and crime. He sat almost motionless, hunched over the microscope, occasionally removing one slide to insert another taking notes on the pad, of paper under his hand without removing his eye from the lens. At last, with a faint sigh he shut the microscope once again in toits wooden case and restored the desk fittings to their accustomed places. Even the sheets of faintly penciled notes were thrust casually into a drawer. Stretching himself comfortably on the chaise-lounge. Dr. Cavanaugh devoted himself to watching the procession of smoke rings through drowsy, half shut eyes. To all appearances, body and mind were alike relaxed in the aimless revery that precedes sleep. But the air of somnolence which hung over the quiet room was illusory. Dr. Cavanaugh was thinking hard, slipping ideas and inferences into place as precisely as he had slipped the slides under the lens of the microscope. Suddenly he heaved himself up from the chaise-lounge and moved to the telephone; then returned to his former position to await, with his usual quiescence, the ringing of the office door bell.

Fifteen minutes later the door banged open and Don Ellsworth rushed in before the doctor had time to put his feet to the floor preparatory to answering the single sharp announcement of the bell.

"You've found out something!" The momentum of his entrance carried Don half way across the room before he paused. The words were half aquestion, half an exclamation.

(To be continued.)

LAUGHS FROM LIFE

"That's a swell suit you're wearing, Pete."

LIFE ETERNAL

The Autobiography of a Straw Hat

So this is the opening of Straw Hat Season. Ah, well! Labor has its Day, Hallow has its E'en, and we—we have our Opening—and Closing. Will you forgive an old fellow his garrulity? It seems but yesterday—and it was but yesterday, as we Straw Hats number our cycles—that Mr. Todd, of Todd & Todd, purchased me. In those days he was the "& Todd." To-day he is Todd—the first one. Ah, welladay!

How shamefaced he was when he entered the store! How shamefaced all men are when they buy hats! I was the first one he tried on. He glanced once in the mirror, muttered, "Thass fine," paid for me and departed hurriedly.

But how nobly he came to my rescue when Mrs. Todd, after her first look at me, cried: "What a scream!" "Scream nothing! ejaculated Todd. "'Sperfeckly good hat! 'Sexcellent hat!" A splendid fellow, Todd! And I must admit that after the novelty had worn away his wife became more amiable.

What times we had, to be sure! Day in and day out I helped Todd at the office, and even went with him when he donned his evening uniform, which he humorously referred to as "the ole soup-and-fish." There were disquieting moments, of course, like that last baseball game of the year when thousands of my brethren were cast to the winds, to be trampled under-foot. But Todd was true to his friends....

That night there was a conference. I could not hear it all, but I did hear Mrs. Todd say: "You take it down to Tony's in the morning and get it all cleaned up and then next May...."

That man Tony! What a filthy glue massage he gave me! But I confess it improved my complexion, which was getting a bit murky.

"There!" said Todd, as he wrapped me up in tissue paper that night. "As good as new. Now I'm all set for next spring." And he put me in the closet....

That was seven years ago. But I am not lonely, for since then six of my comrades have come to keep me company and regale me with the latest gossip. Odd chaps, some of them. But we must make allowances for the Younger Generation.

We are already making plans for the next initiation ceremonies to our Club in September....

—Tip Bliss.

QUITE SO.

There was a man in our town
And he was wondrous dry;
He fell into a fitful sleep
And dreamed a quart of Rye.
And when he saw what he had dreamed
(Oh, Virtue shall prevail!)
He dreamed a horde of Volstead spies
Who dragged him off to jail.
(Copyright 1929 by The Bell Syndicate, Inc.)

Disease germs rarely travel through the air alone, but fly as "passengers" on particles of dust, declares a European scientist.

Auto enthusiasts in the Netherland East Indies refuse to buy anything but the latest models of high-priced cars this season.

NORANDA LEADS UPWARD MOVE IN MINE SECTION ON STANDARD

Sells Up To New High of 53.15 To Register Net Gain of 2.90.

HOME OIL DECLINES.

Mayland Oil and Commonwealth Petroleum Added To Ranks of Listed Oils.

TORONTO, June 5. (C.P.) — Traders drew a dividing line between Mines and Oils on the Standard Mining Exchange to-day, the former recording advances in steady trading while the Oils were under pressure throughout the morning session. Noranda in one of its sporadic spurts led the mines to higher levels, selling up to 53.15 and steadying at noon to 53.00, a gain of 2.90.

Elsewhere gains were not so pronounced but indicated a definite upward trend. Dome gained 40c at 10.00; Ventures 35 to 9.95, while Sudbury Basin and Teck-Hughes were each up 5 at 8.30 and 8.20 respectively.

Mayland Oil and Commonwealth Petroleum were added to the ranks of the listed oils to-day. Home led the declines in this group with a 50 point loss to 21.50.

CHICAGO PRICES AVERAGE LOWER

Failure To Advance of Liverpool Quotations Affects North American Values.

CORN ALSO SAGS.

CHICAGO, Ills., June 5.—(C.P.)—Feverishly active and rapidly fluctuating with a range of about 2 cents, wheat prices were averaged lower early to-day. The fact that Liverpool wheat quotations failed to advance even half as much as had been looked for in view of yesterday's upturns on this side of the Atlantic led to heavy selling here, and to a manifestly two sided market. The opening unchanged to 2 cents lower, Chicago wheat later rose at times to above yesterday's finish, but failed to hold. Corn and oats also tended to turn irregularly downward, corn starting 1 1-8 off to 1-8 up, and consequently showing an all-

MINOR LOSSES IN OIL SECTON

List Prices Hold Steady At Noon To-day After Trading in Morning Session.

ON TORONTO CURB.

TORONTO, Ont., June 5 (Canadian Press).—After pushing forward during the first half-hour of trading, prices hesitated on the Toronto Stock Exchange to-day, following a quieting in trading, so that in the noon quotations mostly minor changes were shown. Walkers was an exception and was in good demand all morning, forging up to 20¼, a gain of 1 3-8 points, while Nickel at 48¼, Massey-Harris at 59¼, and Brazilian at 55, all showed fractional increases.

Oils were slightly irregular, with North Star dropping back 2.50 to 20.00, while McColl gained a single point to 39, as did Canadian at 47. British American at 47, Imperial at 27 5-8, and International Petroleum at 49, all showed minor losses.

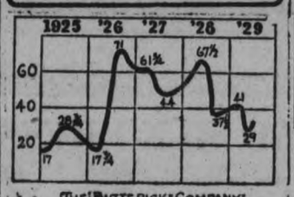
FORD OF CANADA

Combined production of cars and trucks of Ford Company of Canada and export production in the month of May was 24,696 units, as compared with 28,592 units in April, according to figures just released from Detroit. Production of A cars and AA trucks up to date have been 290,803 units. The figures given out were as follows:

Ford Motor Car Co., May domestic production totalled 175,207 cars and trucks. Combined domestic, Ford of Canada and export production was 200,103 units.

Domestic production in April was 161,796 units while combined output of domestic plants, Ford of Canada and foreign plants in April totalled 190,388 cars and trucks. Aggregate world production of model A cars and AA trucks to date totals 1,750,644. Of this number 1,459,841 comprised domestic production.

STOCK A DAY



THE BUTTERICK COMPANY

5 YEARS RECORD.

The Butterick Company is engaged in the publication and sale of periodical fashion magazines, fashion advertising matter and in the manufacture and sale of paper patters. The principal publications are 'Everybody's', 'Adventure,' the 'Delineator' and 'Romance'. New interests acquired control of the concern in 1926 and made some radical changes to modernize the business. Some of the publications are printed in several foreign languages as well as in English. The distribution of Butterick patterns is world wide. The company has several subsidiaries and the latter have valuable plants and holdings. The main subsidiary has branches in London, Paris, Toronto, Winnipeg, Chicago and San Francisco while its main offices are in New York.

As a result of gains in circulation and advertising combined with operating economies, net income in 1927 amounting to $611,424 nearly doubled that of 1926 which was $312,813. Net for the first nine months of 1928 was $405,300 or $1.29 a share with compared which $3.41 a share for the corresponding period of 1927.

Funded debt totals $3,954,500. Capital stock outstanding consists of 210,785 shares of no par value. The stock was changed from $100 par to no par early in 1928 the exchange being made share for share. No dividends were paid in 1927 or 1928 the last payment being $2 in cash and 8 percent in stock in 1926. As of January 1, 1928, total current assets amounted to $4,554,871 current liabilities were $614,234 and net working capital was $3,940,637. Book value of the no par stock amounted to $22.24 a share.

NEW YORK LIST IS IRREGULAR

Favorable Credit Outlook Turns Market Upward After Early Depression.

CALL MONEY UNCHANGED.

NEW YORK, June 5 (By Stanley W. Prenosil, Associated Press Financial Editor). — Stock prices continued to move irregularly higher in today's market. Heavy selling developed in some of the farm implement, mail order shares, and scattered specialties in the early trading as a result of senatorial attacks on stock speculation; but strong buying support was quickly supplied, and the market subsequently rallied under the leadership of the copper, public utility, motor, food and steel shares.

The recovery was influenced, in part, by the bullish interpretation placed by many brokerage houses on the reparations settlement and the growing confidence in the credit outlook.

Call money renewed unchanged at 7 per cent. with demand and supply about evenly balanced. There was no quotable change in the money or the commercial paper rates.

FOREIGN EXCHANGE.

NEW YORK, N.Y., June 5 (Canadian Press). — Foreign exchange steady; demand rates (in cents): Great Britain 4.84 7-16.

Canadian dollars 25-32 of one per cent. discount.

Opening up of ore bodies at various levels of the Frood has enabled Inco to secure comprehensive smelter assays of the precious metal conten of the deposit. It is now reported that a statement of these values may be made at the adjourned annual meeting on June 19.

NEWS FROM THE MINES

Solloway, Mills & Company Through

LAKE SHORE

Recent break in market has moved Lake Shore to a level where it is attractive either for speculative profits or for investment purposes. Program of expansion under way bound to bring recognition of substantial nature when market improves, whereas solid nature of enterprise classes it among best in the mining list.

DOME HOLDING

It is to be noted that one of the stock that stood brunt of recent liquidation best of all, and this in spite of international nature of its trading, was Dome which has held firmly around $9.50. At this level, yield is near 11 per cent, and possibility of speculative profits are excellent. Cash position strong.

HOME

Home 2 well flowing around 300 barrels naphtha daily is earning $1,000 daily, which in itself is no mean well. If allowed to stand for few days No. 2 may duplicate performance of No. 1 and blow in much greater production. On this basis alone Home's earnings are $1,500,000 exclusive of crude oil output or gas sales.

OUTLOOK ENCOURAGING

With holidays out of way for a month, with uneasiness at New York replaced by feeling of optimism, with steady flow of good news on tap from Turner Valley, it is reasonable to expect that oil shares will pick up from now on. General view is for firmer and more active market in oils.

ASSOCIATED

News that Associated Oil and Gas has encountered limestone is highly important. It is first well in south end to encounter lime on west flank of structure. This decidedly improves outlook for Mayland, Southwest ete, Baltac, Calmont and A. P. Consolidated.

BALTAC

Operation perhaps most interest in Associated's success in cutting limestone is Baltac which is north and direct in line on structure with Associated well. Associated proves ground to north and this takes in Baltac's proposed drilling site.

WELL INTO LIMESTONE

Associated hit limestone at 5,178 feet and last report gave depth of well as 5,182 feet.

EAST CREST

Drill now going again at East Crest and making new hole. This would indicate that all troubles have been overcome.

SOUTHWEST PETE

Drillers at Southwest Petroleum are now shooting at 3,800 ft. mark which will be passed in next few days. As well is high on structure and as big rotary outfit is making wonderful footage daily, it is not too much to expect that limestone will be reached well before the end of June.

DIRECT TURNER VALLEY CONNECTIONS

Solloway, Mills' Calgary office private telephone connections with Turner Valley office now functioning. Means in stant connection with actual field operations.

BARRY HOLLINGER

Crosscut driven on 1500 ft. level Barry Hollinger cut vein 22 ft. wide, 9 feet of which is solid quartz and over half is heavily mineralized and shot with spectacular showings of free gold, it is officially announced.

McLEOD

McLeod No. 4, now 1,230 feet in lime, to be drilled deeper with start made at once. New producing about 75 barrels daily, and is deepest well in lime in Valley. Splendid progress being made at McLeod No. 3.

HIGHWOOD

Highwood-Imperial on Highwood structure making up drill rods for resumption of drilling in lime.

ASSOCIATED PLEASES

Calgary oil operators immensely pleased with prospects in Associated which reached the lime at 5,178 feet and is now drilled to about 5,184 feet where casing is being run and will be cemented in lime. A few days will be allowed for cement to harden, after which drilling into production will be started. Well being drilled by Imperial and has struck lime at depth similar to Home No. 1.

FALCONBRIDGE NICKEL

Shaft at Falconbridge has reached objective of 1,000 feet, and cutting station is in progress. Extensive progam of drifting and crosscutting will be undertaken and ore zone at 1,000 foot depth explored. It is said officially that for present no deep diamond drilling will be undertaken, but efforts will be confined to an examination of deposit at 1,000 in comparison with values and widths at upper levels.

INTERNATIONAL NICKEL

Opening up of ore bodies at various levels of Frood mine has enabled Inco to secure comprehensive smelter assays of precious metal content of Frood deposit. Understood statement as to values contained may be made at adjourned annual meeting June 19. It is assumed on good authority that very favorable information obtained since meeting was deferred, and directors could now present to shareholders a much better picture of Frood operations.

MINING STOCKS SUFFER SETBACK

Lost Ground Despite Favorable Market Conditions During Past Month.

No one would have predicted that the leading mining shares would have suffered further declines during the past month, in face of the news that has come out. When a market movement is under way, however, the price course sometimes takes no account of intrinsic conditions. Seven stocks are selected, because they have lost ground, following news which, under more favorable market conditions, undoubtedly, would have brought above substantial appreciation in values. These stocks are Lake Shore, Teck Hughes, McIntyre, Ventures, Falconbridge, Noranda and International Nickel. In good time, the merits behind these shares will have their influence marketwise.

Lake Shore will have a 2,000 ton mill treating ore better than $15 per ton each day, by the beginning of 1930. The mine has more ore, it is estimated, than any other gold property in the world, something over $100,000,000, down to 2,000 feet, with drill indications of greater bodies of ore for over 1,000 feet below that horizon.

Teck-Hughes has just entered high grade ore at the new 21st horizon, and should have three more levels in ore, probably, within the next few weeks, down to 3,000 feet. How many millions of dollars in ore the six new levels, from the 20th to the 25th, will be added to reserves, when development is advanced, is an open question, but it is assured that the total will be huge.

McIntyre in its annual report showed 38.88 p.c. earned on the stock and a surplus of nearly $4,000,000. Ore reserves were increased in spite of the fact that spade work was the main factor in development. The work in the deeper reaches of the property in the centre and east has already disclosed ore bodies, of grade better than the average of the mine. Ore development in these sections has already begun, and within another month, when the central shaft (No. 11) goes into full operation, enormous volumes of ore can be made in quick time.

The deal whereby Ventures takes over a refinery and rights to a highly successful nickel refining process, has given the company a ranking, potentially, at least, with its great contemporary and a ready market for its products.

At the Falconbridge Nickel Mines, development proceeds rapidly in opening up a nickel-copper ore body of assured great value.

The development of the "H" ore body at Noranda early in 1928 assured the company's future as a great copper mine, but the discoveries early this year between 975 and 1,500 feet have increased its physical resources substantially, and as a result the smelter is being tuned up for treatment of ore at the rate of 2,000 tons per days or better by early this autumn.

International Nickel continues to develop the Froom mine, which is reported to be standing up to the most sanguine expectations of the management. While the company's outstanding stock increased less than 25 p.c. in the first quarter, due to acquisition of the Mond company, profits increased over 150 p.c. over the corresponding period a year ago, and production facilities are increasing as each month passes. The new copper refinery will be in operation next year.

The Rouyn camp is next in line. The Gilbec here is now said to have given a contract for 2500 feet of diamond drilling, as recommended in a recent progress report. The intention is to drill a series of short holes from the 100-foot level, and also from the surface. The primary purpose of this drilling is to define and de-limit a huge prophyry mass which came in at depth. The Gilbec is completly equipped with a mining plant.

Financial News and Briefs

A Special Service to the Examiner

Formal Acceptance Given to B.C. Packers' Offer

According to an announcement made over the week-end, the recent offer of the British Columbia Packers, Ltd., to exchange its own preferred shares for preference stock of the British Columbia Fishing and Packing Co., Ltd., and the Gosse Packing Co., Ltd., on a share for share basis, has been accepted by holders of a substantial majority of the shares of each of the two constitutent companies.

As a result, holders of the deposited shares will receive preferred shares of British Columbia Packers Ltd., in an exchange for the trust company's deposit receipts now temporarily held by them. In addition, they will receive subscription warrants entitling them to purchase one share of British Columbia Packers common stock at $20 on or before November 1, next, for each preferred share exchanged. It is understood that the initial dividend on British Columbia Packers Ltd., preferred will be payable to holders on record as of June 15, and those who have deposited their shares will rank for this dividend payment.

In order to permit of conversation by those who have not yet returned in the shares, the offer has been extended by the directors. It is pointed out that holders of B.C. Fishing and Gosse preferred who deposit their shares before June 15 will rank for the initial dividend which is to be declared to shareholders on record as of that date. The subscription warrants for common shares will be in negotiable form and will probably be available for trading within the course of two or three days. The advantage of the subscription warrant compared with the existing common is that the warrant gives a call on the stock at any time up to November 1 by which date results of the 1929 fishing season should be generally known.

United Gas Offers Stock to Holders

New York stockholders of the United Gas Company will receive letters announcing that the directors on May 31 voted to offer for subscription at $20 a share pro rata to the company's common stockholders of record of June 10, additional common stock, on the basis of one new share for each five shares held. Rights will expire at the close of business on June 24.

Two Related Nova Scotia Projects Involve xpenditure of $12,000,000

Liverpool, N.S.—Rapid progress is being made with two related projects costing $12,000,000, the largest provincial industrial development of the year, he Mersey Paper Company's plant at Brooklyn, near here, is stated to be ready for operation in October, and it is stated the Mersey River hydro-electric development, undertaken by the Nova Scotia Power Commission, will be ready to supply energy when it is required by the paper mill. More than four times the amount of power used by Halifax and Dartmouth from the St. Margaret's Bay development is called for in the contract between the paper company and the power commission.

Nearly two thousand men have been employed continuously for a year on either the hydro or mill construction. The mill will produce 250 tons of newsprint a day employing 250 men and three times as many supplying pulpwood. Approximately 20,000 cords of pulp or pulpwood have been exported from Nova Scotia each year.

Deal Between Shell Company and McColl-Frontenac Underway

In circles well informed regarding the affairs of McColl-Frontenac, the opinion has developed into almost a certainty that a deal with a large outside producer of oil and gas will become an accomplished fact within a very short time. It is understood that at a meeting of directors held during the past week the matter was under discussion and arranging terms.

Although officially no intimation is obtainable regarding the other party to the transaction, it is pretty generally accepted that negotiations have been under way with the Shell Company, by which McColl-Frontenac will look after the distribution in Canada of the big oil company's production, particularly of gasoline. The process under which Gyro is produced is the same as that of Cyclo, the rights to which are held by McColl-Frontenac in Canada. It is understood the purpose of the deal, so far as the Shell Company is concerned, is to provide a market for a large portion of its output in this country and in order to do this it will be necessary to come to an arrangement with McColl-Frontenac covering the Canadian distribution.

The situation, combined with reports of big gains in earnings since the beginning of the year, has been a potent factor in the particularly strong showing by McColl-Frontenac on the local Curb Market during a week of marked weakness in other issues.

Canusa Mines Adds to Present Holdings

Canusa Mines have added another 120 acres to their present holdings making in all 250 acres owned by the company outright. The new acreage lies directly west and on the extension of the vein of the old Scotish-Ontario on which Canusa holds an option.

To date the shaft is down 300 feet and considerable cross-cutting has been done on this level, upon which good results are reported to have been obtained. The directors of the company at a meeting held Monday last, at the King Edward Hotel decided on a diamond drilling campaign, in order to get the necessary information for future development.

Famous Players Canadian Corporation formally opened its new North Bay Theatre on June 1. It was built at a cost of $400,000 and has the very latest in equipment, including sound-protoplay.

Montreal.— Montreal's convention starts this week and 1929 will undoubtedly be a banner year in this respect. Bookings from June to October have been very heavy. The Montreal Tourist and Convention Bureau announces at a considerable list of conventions has already been booked for 1930.

Winnipeg.—Crop prospects in Western Canada have been considerably enhanced by generous rainfall in practically all districts during the past week, according to the crop repor of the C.P.R. Moderately warm weather has brought on phenomenal growth. The outlook is regarded as very bright and the recovery in wheat prices in the market is a favorable develpoment.

Detroit.—Chrysler Corp. shipments of Chrysler-built cars and commercial vehicles for May this year amounted to 54,595 units, an increase of 14,991 units over May, 1928, when the Chrysler and Dodge companies, operating as separate units, had aggregate shipments of 39,604 units.

The City of Quebec has moved the date for the opening of tenders on its $3,524,000 5 p.c. 30-year bonds, payable in Canada or New York or Canada only, 7 days to June 7 at 4.15 p.m.

The Orthopedic Hospital, 100 Bloor St. West, has been purchased by J. H. Gundy of Wood Gundy and Co., and Col. F. B. Robins, president of Robins, Ltd., it is announced to-day. The consideration is said to be around $250,000.

National Trust Co., Ltd., is applying for probate of the will of Emil Andrew Wallberg, late of the city of Toronto, civil engineer, who died on March 30 at Battle Creek. The will dipsoces of an estate of $4,196,592.56.

Firestone Gum-Dipped Tires are again champions. At the terrific rate of 97.585 miles per hour over the 16-year-old rough, brick track they carried Ray Keech to victory in the annual 500-mile International Auto Race at Indianapolis, May 30th.

You may never put your tires into such drastic, gruelling service, but you do want Firestone strength, endurance and dependability. Equip your car with Firestones—the strongest, safest, most rugged tires made.

NEXT DOOR TO PETERBORO HARDWARE

140 CANDIDATES ARE IN RACE IN SASKATCHEWAN

Sixty-One of the Sixty-Three Will Be Contested in Election To-morrow.

STRENUOUS CAMPAIGN

In sixteen Ridings There Will Be a Three-Cornered Contest.

The return of natural resources has been keenly debated. In Regina recently Premier Gardiner said that an equitable accord with Ottawa authorities had been reached on this matter and that the province would not suffer. The Conservatives, on the other hand, claimed that the province had not been fairly dealt with by the federal government and demands a fair accounting from the Dominion. Their chief contention was that the annual subsidy paid the province under the agreement whereby the federal government took over administration of the natural resources never had been high enough, and that the federal officials had underestimated the actual area of the lands belonging by right to Saskatchewan. Failing a satisfactory adjustment, they promised if returned to power, to carry the question to the Privy Council.

Religion Taught in Schools

The Conservatives charged that religion was being taught in public schools, and the Government replied that schools were free from religious influences and that text books and examination papers had no flavor of sectarianism. Dr. Anderson also advocated the appointment of a commission to investigate the school system and urged that more attention should be paid rural scholars with a view to training them more for work on farms than for industrial or city jobs. The Liberals met this challenge with the statement that provision already been made for this aspect of the educational problem.

Conservative critics see in the Government Power Commission something that is merely dallying with the public ownership idea, expressing fear that the cities will not be dealt with fairly in any attempt by the government to take over their power plants. The government promised that nothing would be done precipitately, and that the commission, based on the Hydro Electric organization of Ontario, would proceed slowly to guide and develop the important electrical industry of the province.

To the Conservative plea for a change, Government spokesmen have recited a list of things the Gardiner administration and its predecessors had done for Saskatchewan, pointing to old age pensions, and their public health and agricultural policies.

FAVORABLE REPORT MADE

(Continued from Page 1)

ed that it was below average with respect to penmanship and neatness. More attention should be given to the teaching of spelling and to the penmanship of pupils in bookkeeping.

"The work observed in the academic subjects, both of the commercial and technical classes was satisfactory.

Independent Thinking

"In the home economics department it was apparent that the teachers are making an earnest effort to teach the subjects in such a way that independent thinking and a sense of responsibility and interest on the part of the pupils are developed and maintained."

The report complimented the principal on the splendid manner that the opening exercises were conducted in the morning assembly.

On important recommendation brought forward in this report which will doubtless not be favourably received by the pupils, was that the recess period be discontinued since the pupils have sufficient opportunity to move around during the changes of classes. This was especially recommended for the technical classes, however.

That a mild epidemic of coughing has swept through the schools recently was indicated by Dr. A. W. McPherson's report. This was stated to be akin to whooping cough, and in all twenty-five pupils were temporarily sent home from school. Otherwise a clean bill of health was given for the schools, no mention being made of the measles, which had caused so many absentees several months ago.

Dr. J. C. Green, the school dentist, reported that, after a complete survey had been made of Central School, some slight improvement had been found in the condition of the children's teeth.

A total of thirty-nine pupils were absent from Public School on account of sickness; eight were irregular in attendance; three were absent from school due to lack of clothing, but were now back since the Home and School Associations had looked after their needs. There were three truants. These facts were indicated in the attendance officer's report for the month of May.

Changes have been discussed by the Property Committee in the heating system of the South Central School, Chairman F. H. Dawson reported. Tenders have also been requested for the building of a new roof and interior decorating for this school. This work will be done during the summer holidays.

The paving company doing work on Monaghan Road has dumped 600 loads of gravel in the hollows of the Queen Alexandra School's playground. The hollow in a part of King Edward School grounds will also be levelled in this manner. The grounds to the south of the Collegiate building have now been almost completely levelled, it was further reported.

That the Committee on Appointments be authorized to fill any vacancies that may occur on the staff at end of the present term was the motion moved by Dr. H. M. Yelland, and adopted.

Responsibility of Dental Work.

The question of the Board's responsibility in doing the work on the children's teeth that has been found necessary by the school dentist after the parents have failed to see that this work is done on their own responsibility was again brought forward. Mr. Mowat reported that in all 12 per cent. of the parents had requested that the Board repair their children's teeth. Out of the fifty-five that had made this request at Central School, nineteen, the school inspector recommended, should be rejected since the parents had steady income, and could well afford this expense. The Board adopted the motion that Inspector Mowat have the power to refuse to have children's teeth repaired, at the expense of the Board in cases where he saw fit.

A proposition for an attachment to the school boilers, which was stated to reduce fuel expenses, was submitted by a delegation composed of Messrs Prier and Scollard. This was left in the hands of the Property Committee for further consideration.

James Dutton made a request on behalf of the Old Home Week Committee for the use of the school grounds and basements for the convenience of visitors. This was left in Mr. Dutton's and the Property Committee's hands.

Showing that the qualifications of Secretary G. H. Thompson are held in high regard by the Ontario Department of Education, Chairman Craig stated that when Belleville's Board wrote to the Department requesting advice on financial matters, they were referred to Mr. Thompson for assistance.

"SI AND MARY"

Peterborough To Be Honored By the Distinguished Visitors.

To-morrow the citizens of Peterborough will have an opportunity of meeting "Si and Mary." These high class entertainers are to be the guests of J. J. Duffus Limited, Willys Overland Distributors, during Thursday, Friday and Saturday of this week.

Coming here from the city of New York it is their intention to meet as many citizens of Peterborough as possible and to visit all the manufacturing plants, business houses, etc.

Their first official call will be on His Worship Mayor Denne, after which they will pay their respects to President Dutton and Manager Stinson, of the Chamber of Commerce.

They are travelling in a sporty Whippet Roadster.

They are special friends of all the boys and girls, particularly school children and undoubtedly will prove intensely interesting.

In order to prevent any blockade of traffic the skill of Chief Constable Newhall's staff will be taxed to the limit, especially during the noon hour.

Through Mr. J. J. Duffus, President of J. J. Duffus Limited, by special arrangemetns with Kiwanian Vern Morphet, they will entertain the Kiwanis Club at Friday noon and already every member of this popular, hard-working and effective philanthropic organization has signified his determination, no matter what else intervenes, to be present.

ACCEPTS POSITION IN PENNSYLVANIA

F. C. Hungerford Was Formerly Manager of Woolworth Store Here.

F. C. Hungerford, who for many years acted as manager of the Woolworth store in Peterborough, has recently accepted a position as manager of the new Schulte-United department store in Frankford, Pennsylvania, one of the finest stores opened by the Schulte-United people to date. For more than eight years, Mr. Hungerford was identified with the local Woolworth store, in that time gaining great respect as a business man in this district. He has won an enviable reputation as a merchandiser with far-seeing vision and the ability to understand the needs and desires of any community.

For 20 years Mr. Hungerford built up store after store of the Woolworth chain, the local store being one of them. He left this enviable background last year to join Schulte-United. The many friends Mr. Hungerford made while in Peterborough will be glad to hear of his success. He was an active member of the Peterborough Rotary Club and a Mason.

Given his choice among 20 new stores that are being added to the chain, Mr. Hungerford chose the Frankford store. Frankford is an active and growing community, so, surrounded with such conditions and possessing the marked ability which he has displayed throughout his business career, Mr. Hungerford's chances for success in his new position are great.

GIVEN FOUR YEARS.

SIMCOE, Ont., June 5. — William Snipes, 28, was sentenced to four years in Portsmouth Penitentiary after pleading guilty to eight charges of stealing chickens.

ANNUAL PICNIC NEXT SATURDAY

Good Program Planned By C. G. E. Social and Athletic Club.

AT OSHAWA BEACH PARK.

Next Saturday the C.G.E. plant will be shut down as this is the date set for the holding of the annual picnic of the Social and Athletic Club; which will be held this year at the Oshawa Beach Park.

The special train bearing the picnickers will leave the C.N.R. station at 8.30in the morning, and the passengers will be conveyed directly to the picnic ground from the Oshawa Station in street cars.

Each year this day's outing has been growing in popularity and it only remains for the weatherman to make this year's picnic the best yet. The various committees have their work well in hand and have introduced several new features which facilitates the arrangements and adds to the pleasure of everybody. This year every child whose father or mother is a member of the club will be given a strip of tickets, good for 25 cents on the picnic grounds, for which they may obtain, ice cream, soft drinks or a ride on the merry-go-round. These strips of tickets may be obtained from the zone representatives on Friday of this week.

SPORTS PROGRAM.

The afternoon program includes a big bill of track and field sports, dancing from 2 till 5 and a five-a-side soccer tournament, besides this, there will be a softball and football game. There will be a ferris wheel and a merry-go-round on the grounds and all those who wish to buy their meals may do so at the pavilion. Plates and cups can be rented for 1 cent each and tea can be purchased at 1 dollar a gallon.

The train will leave Oshawa to return at 6.30 and any person missing the train will not be granted a refund. Any information may be had by interviewing the zone representatives and club members are reminded that in order to get the special rate on tickets they must secure them before 5 o'clock on Friday.

ARMY CRUSADERS HERE ON FRIDAY

Special Services Will Be Conducted in St. George's Church.

On Thursday, May 9 (Ascension Day), a small group of young people set out from the city of Toronto on a three months' walking tour that will end at Smith's Falls. It is nothing in the nature of a "freak marathon" or "stunt" that they have undertaken, but rather a March of Witness for "Christ and the Church." On the day they left Toronto, they attended a dismissal service in the Church of the Holy Trinity. From there they went in procession to the city hall, where Mayor McBride wished them God-speed, and Bishop Sweeney sent them on their way with his benediction. Of these young men—seven in number—six are cadets in training for the work of Church Army Evangelists, young Canadians who will be the first of what is destined to be a great movement in the life and work of the Anglican Church in Canada. They are under the direction and leadership of Captain Morley of the English Church Army, who is their Training College Officer. Captain Morley will be remembered by many in Peterborough as one of the evangelists who conducted missions in the Anglican churches of this city in January last.

In their March of Witness they will make their way through the Diocese of Toronto, Ontario, and Ottawa, visiting about sixty country churches, villages and towns, covering in all about 400 miles.

They are provided with a "trek" cart on which they carry their tent, mattresses and bedding, and on our highways and byways they may be seen on the trek hauling along their belongings. The Crusaders are due to visit Peterborough on Friday of this week, June 7, when they will pitch their tent on St. George's Church grounds and hold services at St. George's that same evening.

St. George's will be the only church in Peterborough to be visited upon this occasion.

On Saturday morning, after a Celebration of the Holy Communion, they will "strike camp" and proceed to Lakefield, where they will spend the week-end. Many in Peterborough are already familiar with the Church Army services, and a hearty invitation is given to all to attend St. George's Church on Friday evening.

Bishop Lucas will also be with the Army for the day when it visits Peterborough.

TRIGO CAPTURES ENGLISH DERBY

(Continued from Page 1.)

his jockey, F. N. Winter, escaped injury.

The judge placed Lord Derby's Hunter's Moon fourth and W. M. G. Singer's Engarde fifth.

Two United States owned horses, Mr. Clorney's Posterity and Gordon Selfridge's PDQ were left behind.

Posterity finished sixth, while PDQ was not in the first fifteen.

W. Barnett, the owner of Trigo which overturned all the advance forecasts to win the Derby Stakes, is an Irish breeder who bred the Newbury Cup winner, Athford—brother of Trigo.

Trigo's trainer is R. C. Dawson, also an Irishman, who never before trained an Epsom winner, but trained Fifinella, which won the wartime Derby at Newmarket, and also the Oak Stakes. Trigo's jockey was J. Marshal, a young Epsom lad who is a pupil of Trainer Stanley Wooton. He rode a gallant race.

None of the forecasters thought much of Brienz but this horse showed brilliantly enough in the grilling test over the mile and one-half course. Finishing third, he completely outshone Lord Astor's Cargadour, the favorite, his stablemate in training.

CAPE TOWN, South Africa, June 5 (Canadian Press). — One of the Calcutta Sweepstakes tickets in Trigo, winner of the Epsom Derby, was declared to be held by a resident of Oudtshoorn, Cape Province, whose name was not immediately ascertained.

LONDON, June 5 (Canadian Press). — G. L. Brillin, 26-year-old clothier of Leeds, won second prize in the Calcutta Sweepstakes on the Derby at Epsom to-day, having drawn Walter Gay. The prize is £67,500 sterling, or about $337,500.

The holder of the Exchange Sweepstake ticken on Brienz, which ran third, is James Mackie, who is employed in the Accounts Department of the Commercial Cable Company. He thus won a prize of £32,000 sterling, or about $160,000.

W. Barnett, owner of Trigo, and J. Rice, of Belfast, each bought one-eighth of a share on Monday in the London Stock Exchange sweep for £500 sterling (about $2,500) and won over £15,000 sterling, or $75,000 each.

RESEARCH IS WELCOMED

Manufacturers Express Gratification at Strides Education Has Made in Dominion.

CONTINUE FEDERAL GRANT

HALIFAX, N. S., June 5.—C.P.)—Gratification at the splendid progress which has been made, particularly during the past year, with the promotion of scientific and industrial research in Canada was voiced by the education committee reporting to the annual convention of the Canadian Manufacturers' Association here today. The committee recommended that the thanks and congratulations of the association should be tendered to the dominion government, the government of Ontario, the National Research council, the Ontario Research Foundation and others who had contributed so much to advance the cause of scientific and industrial research in Canada.

It was stated the new research building to be erected in Ottawa would be one of the finest laboratories in the world and would have the latest equipment for research. Experiments would be carried on similar to those in the national physical laboratories in Great Britain, the Bureau of Standards in Washington and the Mellon Institute in Pittsburg. There would be divisions for engineering, physics, industrial chemistry, industrial engineering, textiles, economic biology and others as required. Under the Ontario Research Foundation laboratories had been equipped in Toronto and several groups of manufacturers had organized to conduct experiments in connection with their problems.

Continue Grant

Under the head of vocational education the committee had made representations to the dominion government with a view to having the federal grant of $10,000,000 voted in 1919 for a period of 10 years, continued for a further period. This had not been granted but an amendment to the technical education act had been passed by Parliament, making unexpended portion of the original grant available during the next five years. This amounted to $2,035,299. The association had taken up the question of vocational education for the first time in 1901. It was represented on the Royal Commission which recommended the outlines of the plan to be followed and members have taken a keen interest in developments since that time. They were now receiving their reward in having available thousands of young Canadians who had received vocational training which helped to fit them for industrial work.

"It has always been the policy of the association," stated the committee, "to provide the highest possible type of education for Canadian youth believing that this course contributes to higher standards of Citizenship. Taking into consideration the extent of territory in relation to population and the amount of money available for educational purposes, your Committee believes that the educational system and the standards of learning in Canada will bear very favorable comparison with those of any other country."

PUPILS PRESENT PIANO RECITAL

Students of Miss Mary Harstone Acquit Themselves Most Creditably.

PRIZES PRESENTED.

Pupils of Miss Mary I. Harstone were heard in a very enjoyable and well-attended closing Piano Recital held on Monday evening in the Sunday School hall of St. Andrew's Church. The students acquited themselves in a manner that showed a great deal of thorough tuition and painstaking attention on their own part and the majority of the selections were given from memory. The stage was a bower of spring flowers, with a profusion of lilacs and tulips used in its decoration. At the conclusion of the program the pupils were entertained by their teacher, when ice cream and cake were served. Miss Harstone was presented with a lovely bouquet of flowers.

The pupils were assisted by Kenneth Gadd, pupil of Roy Rome, who played several well-rendered violin numbers, with piano accompaniments played by Miss Margurite Rome.

The prizes which are given annually by Miss Harstone to her pupils were presented by Dr. A. W. McPherson and were won as follows: For General Proficiency, Alicia Langley; for Memory Work, Fred Hooper and Olga Westbye; for Practising Norman Green and Bessie Atkins; for Well-Performed Lessons, Mary and Douglas McPherson.

The program was as follows:

The White House at Washington is considered the most valuable residence property in the world.

REGISTER

Of Social and Business Meetings

The Register is published to enable organizations planning major meetings to know in advance, and reserve, evenings on which there are no rival attractions. It will pay Peterborough organizations to consult the Register prior to settling dates. Responsible officers should mail notices well in advance.

Before deciding a date for any event, consult the Register to ascertain that there is no conflict with other events—and then send in YOUR date quickly so that other organizations will not use it.

BURNED BY FIREWORKS

HAMILTON, June 5. — Teressa Schott aged 8 years, is in a critical condition at the General Hospital as the result of burns sustained last night while playing with fireworks. The little girl was burned about the arms, face and neck. Her clothing caught on fire when she ignited a firecracker, and in a moment she was enveloped in flames.

TRACTOR PLOWING IS DEMONSTRATED

Eleven Acres of Sod Are Plowed in Sixteen Hours.

(Examiner Correspondence.)

BURNBRAE, June 5.—A very practical demonstration of fast and satisfactory tractor plowing, was given on Wednesday and Thursday of last week, when Don. Watson, junior partner of the firm of L. J. Watson and Sons with a 10-20 McCormick-Deering tractor, drawing two plows, turned over 11 acres of sod on the farm of Edwin Wilson. Actual working time was just 16 hours, and as this is the first job of plowing ever done by the new outfit the youthful operator has set for himself a hard record to surpass.

On the following day he spent 3 hours and 45 minutes plowing two acres of fall-plowed ground for roots on the farm of George Anderson. To accomplish this he ran the tractor in high gear much of the time, covering a 320 yard round in less than 2 1-2 minutes. The farmers of this locality, who have watched the performance of this first tractor ever owned at Burnbrae, are greatly enthused over the feat, and it would occasion no surprise if more tractors appear here soon. Mr. Watson and his son are well pleased with their investment finding that they can keep well ahead with their work, and much of the cost of operation is offset by the decrease in man-power required.

SALVATION ARMY SECURES $545.02

Annual Tag Day Proves a Big Success In City.

The genial spirit, kindly approach, and courteous attitude of the sixty-three taggers, together with the never-failing, up to the minute generosity of the Peterborough citizens, yielded the sum of $545.02 for the local Salvation Army's contribution to the divisional and territorial tag day totals. The local workers operated last Saturday concurrently with their colleagues in Toronto, the latter rolling up the very gratifying amount of $12,979.48, an increase of $356.00 on last year's total.

The voluntary and arduous effort of the local taggers was considerably lightened by the many appreciative remarks made to them by those who in exchange for the coin of the realm were decorated with either the red or blue shield which served as a fitting background for the words, 'The Salvation Army' which has become in just over sixty years a household name, and still exists to plead the red—symbolic of the blood of Jesus, as the only means of atonement, also the blue—representative of the pure heart, which stands for separation from the world.

The tag day was the concluding request in connection with the annual self denial appeal which this year was carried on simultaneously with the various commemorative services relative to the centenary of the founder, William Booth.

Ensign E. H. Green wishes to thank all those who in any way contributed to the success of the tag day. Tonight he will conduct the local corps' self denial ingathering, when the totals raised by the various branches will be announced, together with the grand total. These will be interspersed with musical renditions from the Temple Band and vocal contributions by the Senior Songsters and Young People's Singing Company. The leaders of these respective combinations being Bandmaster S. J. Richardson, Songster Ben Smith and Y. P. Singing Leader, Sister Ethel Payton. The meeting is open to all and we invite those interested in the Army and its work to join us in thanks to God for other year's bless-

FAITH TO SUCCEED IS SERMON'S THEME

Rev. J. F. Mears, of Port Hope, Preaches Gospel of Progress.

MILLBROOK, June 5.—(Examiner Correspondence).—Morning worship in the United Church at Millbrook, and in the afternoon at Fallis Line, on Conference Sunday, was in charge of Rev. J. F. Mears, B.A., of Port Hope, in the absence of the pastor, Rev. W. W. Jones, who was in Napanee. The evening service was withdrawn.

The choir sang the anthem, "I Will Lift Up Mine Eyes Unto the Hills", Mrs. H. W. Johnston taking the soprano solo part, M. McDowell the baritone, and Mr. Johnston the tenor solo.

Rev. Mr. Mears chose his text from Mark 11:22. "Have faith", suggesting that these words were worth repeating on each day of the year since Christian experience cannot come to its full fruitage, or completion, without faith.

"Without faith there remains no upward stairway by which you yourself may climb towards God, or by which the church may help others into the way that leads to life eternal. Those who have faith are on the affirmative side of life, and no intelligent person can be satisfied with a mere negative philosophy. Almost any one can pull down, but it requires ability to construct, and to build up the life on spiritual foundation."

Speaking of God as 'the Everlasting Yea', and of faith as "a fire in the heart of man", the minister went on to develop his theme under these three heads: (a) have faith in yourself at your best; get right with God and in line with your own destiny, then go ahead, and let nothing turn you aside; pay special attention to the strong traits in your character, and work them for all they are worth. Have ideals and live up to them; give others no cause to despise, or distrust, you; believe in your creation, redemption, your place in the world, and be yourself: let no man take your crown.

(b) Have faith in your fellowmen; evil appears in many lives, but how superlative is your own goodness? Do not judge the whole race by a few of its worst specimens; after all the Lord made them, though they have done their best to spoil His image in themselves. 'Down in the human heart, crushed by the tempter, feelings lie buried that grace can restore.'

(c) Have faith in God; in the whole of the Scriptures there is no attempt made to prove that God exists, it is assumed as a fact, a sense that is innate in all races everywhere. The age-old question as to 'why' of human suffering the speaker frankly acknowledged he could not answer, but it would appear that we climb by the things we suffer, and that we could not reach the higher places except through sharp discipline. "Take comfort from the thought that when God in Christ came to our earth He was not exempt. He did not tread any royal road but was exposed to all manner of temptations; misunderstood, denied, betrayed, crucified, almost His last words were: "My God, My God, why hast Thou forsaken me?' He bore our sins, and our afflictions were laid upon Him. God does not stand by as an indifferent beholder: His own Son suffered extremity and He suffers with us now. Acquiescence in the divine will is the healing of the heart."

ENGLISH STOPS 'EM

NEW YORK, June 5.—Incorrect use of English, the inability to express themselves and poor writing are holding back numerous men in the engineering field, according to Dr. Harvey Nathaniel Davis, president of Stevens Institute of Technology. "The engineering field," he says, "is clogged by men whose technical training has been thorough, but who, because of their poor spoken and written English, are unable to move up to positions of leadership."

THE DRAMATIC CLUB PRODUCES SUCCESS

"The Hand of the Law" Presented by Experienced Players.

PONTYPOOL, June 5.—(Examiner Correspondence).—Ballyduff Dramatic Club made its initial performance of the new play, "The Hand of the Law" in the Presbyterian Church at Ballyduff on Thursday evening. This club has a real record for giving plays of the highest calibre. The members received considerable distinction in their last play which they gave ten times, the name of which was "Lean Rivers." The club is fortunate in having as its leader, one who is very capable in the management of dramatic work in the person of Mr. J. J. Clarke.

The club put on the new play very well and received many favorable comments on it. The play has plenty of humor, romance, tragedy and moral to interest any audience. Any one wishing to secure a good play would make no mistake in securing this company.

"The Hand of the Law" is an interesting story of New England life, the scenes being laid in the little village of Bradford, county seat of Bradford county. Dan Chamberlain, a young attorney, wins the love of Edith Hazelton, a village girl. Dan is chosen to the office of prosecuting attorney, defeating Squire Evans, owner of the grist mill for re-election. Through force of circumstances he is placed in the position of prosecuting Ruben Hazelton, father of Edith, on a charge of murder, the circumstantial evidence against Reuben being great.

A misunderstanding arises between Edith and Dan, brought about by the Squire, who loves Edith, and Grace, who is in love with Dan. The murdered man is George Gregory bookkeeper for the Squire, and there was but one witness, Ezra, a village lad, who is struck by a chance shot from the Squire's revolver before he has a chance to reveal the identity of the murderer. Through the work of Abner Jugkins, a tin badge detective and through an accident which restores Ezra's memory, Reuben is cleared of the murder charge and Dan wins Edith. Comedy is furnished by Abner and by Sally Snodgrass, maid of all work for the Hazeltons.

The cast of characters is:

Dan Chamberlain, J. Payne; Reuben Hazelton, P. Preston; Squire Evans, J. J. Clarke; Ezra, K. Gilbank; Luke Higgins, A. McGill; Abner Judkins, W. Gainor; Mrs. Hazelton, Mrs. W. Gainor; Grace Evans Mrs. M. Gray; Edith Hazelton, Mrs R. Henders· Sally Snodgrass, Mrs P. Prestor

DISTRICT NOTES from Villages and Towns in District

(BY CORRESPONDENTS OF THE EXAMINER)

CAVAN.

Mrs. Harold Bigelow, of Shannonville was a visitor in Cavan during the week. Her aunt, Miss F. Hunter, returned to Shannonville with her on Friday and will remain for a visit.

So crisp it *crackles* in cream!

LISTEN to it! Taste it! The new Kellogg cereal. Bubbles of flavor that actually pop and crackle when you pour on milk or cream.

That's how crisp they are—and what a delicious flavor! Toasted rice grains. So good every spoonful is a real flavor surprise!

Your family will surely welcome Rice Krispies for breakfast. Something brand-new and different. Enjoy them for lunch, with fruits or honey added. And because they are nourishing and easy to digest, they are ideal for the kiddies' supper.

Make crunchy macaroons and candies with Rice Krispies. Sprinkle them into soups. Eat them plain or butter and serve like pop corn.

Order a crisp red-and-green package from your grocer. Made by Kellogg in London, Ontario. You are missing something if you haven't tried the cereal that crackles in cream!

In Police Court

Fragments in the story of a liquid party at a dance in the Town Hall at Keene, and humor and pathos were unfolded in rapid succession in the Police Court yesterday before Magistrate Langley. It was a crowded docket that graced the court room after the week-end and the holiday and a most lengthy session developed.

William Burke, a man who has been enigma to police officials ever since he was picked up stalking behind houses on Sunday night, was next forced unwillingly into the box. This man had every appearance of the confirmed Knight of the Road. The police had succeeded in getting his name from him, but otherwise he would not talk.

He acted as though he did not understand the Magistrate's questions, but at critical moments he showed that he understood perfectly and it could be judged that his silence and dumbness was a sham. "Can you hear me?" shouted the magistrate in exasperation, and then trying another tack, "Can you read?" He next asked if anyone could speak French because the man had told police officials that he was a French-Canadian from Montreal. At this moment the man spoke his first word, mumbling, "I speak English."

At this first ray of intelligence the Magistrate read the vagrancy charge and asked, "Would you leave town if I gave you a chance?" The prisoner did not reply. He was remanded for a week to look up his record.

Robert Allen was fined $5 and $3.25 costs for speeding across the intersection of George and Charlotte streets.

John S. Moore, held in connection with an arson charge against him in the village of Warsaw, was bailed for trial. He and his brother, Robert E. Moore, each gave sureties of $2,000.

Leonard Davis, who had pleaded guilty on Saturday to stealing a bicycle in the city, was brought in charged with breaking into the home of W. G. McIlmoyle in Burleigh on or about May 26 and stealing a revolver valued at $25. The accused elected summary trial before the magistrate, and pleaded guilty immediately.

"One thing, Davis, you don't give us much trouble with your trials," remarked the magistrate. The man said he had nothing to say. "Nothing but a smile," said the bench.

"All in the day's work," tossed in J. A. O'Brien.

The man was remanded until Monday to give the magistrate an opportunity to look up his previous convictions. "There's no danger of him escaping," he then asked somewhat anxiously.

"Not where he'll be" confided assuredly Provincial Constable Thompson.

James Hamilton, an immigrant boy from Scotland, who had been working on Mr. Anderson's farm in Otonabee, was charged with assaulting Violet Hall. He pleaded guilty. It was explained that there had been a disagreement in malking cows, and the boy had struck the girl with the milking stool. He was fined $10 and costs of $3.25.

Provincial Constable H. Thompson and County Constable H. McLachlan, made a quick descent on a dance that was in merry progress in the Keene Town Hall Monday evening. Yesterday showed the fruit of their visit when six men filed into court. All were charged with infractions of the Liquor Control Act. All pleaded guilty.

The man, who was caretaker of the hall, was fined $20 and $5.98 costs. The magistrate said that he was the man who should keep such dances respectable.

Four men paid over $10 for consuming and a young Hastings man was taxed $100 and costs for having in his possession liquor purchased on a permit in other than a residence.

Magistrate Langley lectured the sextette sternly, warning them that the quiet respectability of the village of Keene was not going to be infringed upon by a bunch of drunken hoodlums. "We have heard stories of these dances at Keene and I am going to see that they are stopped. The axe will fall heavily next time."

This concluded the business of the day.

CHEAP EGGS

You can use cheap eggs all the year round by packing them in Parke's Glassine, the perfect egg preserver. Now is the time to pack them, while they are down in price. They will keep fresh for a year or more in Glassine. 15c, 25c and 50c. Bond's Drug Store, corner George and Hunter streets.

That Body of Yours

(By Jas. W. Barton, M.D.)

SYMPTOMS MORE IMPORTANT THAN PAIN.

It is a strange thing but nevertheless true that the only symptom of which you and I will take notice is pain.

If we feel a pain anywhere we try to secure relief at once and then perhaps investigate the cause a little later.

Now there are other points about that body of yours that should be just as important, in fact more important, than a little pain. I refer for instance to the loss or gain in weight.

It comes along so gradually that you scarcely notice it; it is only when your friends remark on your gain or loss in weight that you perhaps pay any attention thereto.

Now a little loss or a little gain may be exactly what your body needs, but if you have been going about your regular routine of life and yet show a loss or gain there is some underlying reason for it.

If you are losing weight, it may be that there is some stomach or lung condition that is beginning to have its effect upon the tissues.

If you are gaining in weight, then it is likely that you are simply eating more or exercising less. Now this may not be a serious matter and yet serious kidney or heart conditions can follow an increase in weight.

Research men tell us that the majority of patients with diabetes give a history of overweight.

It must be admitted of course that some folks are naturally overweight, despite the fact that they eat no more, in fact eat less than other individuals who are actually underweight. They were born that way. This is due to the action, or lack of action of the ductless glands, which permit food to be stored instead of being built into muscle or thrown out as waste. However, these cases number only about one in a hundred so there is only one cause for most cases of overweight, that is overeating. Forget about cutting down on certain articles of food such as potatoes and bread, but cut down on all food by 10 to 15 percent. Making the noon meal the "big" meal of the day. It may not be wise from the standpoint of getting mental work done, but helps to reduce the weight gradually just the same.

So watch your weight just as you would a pain, and remember that there is always some reason for a gain or loss.

OLD SONGS

THAT PIECE OF SONG,
That old and antique song we heard, last night.

PRAIRIE LAND.

I've seen the land of pleasant scenes,
Of level plains and deep ravines;
Where flowers bloom on every hand,
In our great northwest prairie land.

Chorus:

O prairie land, sweet prairie land
Where every one joins heart and hand.
We are a royal jolly crew
And if you were there you would say so too.
If you were there to join our band
In our great northwest prairie land.

The prairie chickens skip and fly
And they are pleasant in a pie:
And if you were a man of luck
You'd have a chance to shoot a duck.

The little gophers skip and play,
Across our pathway every day;
And badgers, too, there they may be found
In holes they burrow in the ground.
There's many a lonley bachelor there,
Awaiting, watching, for their fair.
And by and by he hopes she'll come
To soothe his heart and cheer his home.

J. R. BIRCHALL.
Born May 25, 1866, Hanged Nov. 14, 1890.
(Contributed by "Leatherhead")

I.
Come all you tender Christians
Wherever you may be
And kindly pay attention
To these few lines from me.
For the murder of Frederick Benwell
I am condemned to die
On the 14th of November
Upon the gallows high.

(Chorus)
My name is John R. Birchall
My name I'll never deny;
I leave my wife in Woodstock
In sorrow there to sigh.
It's little did I think
When in my youth and bloom
I'd be taken to the gallows
To meet my awful doom.

II
Running to Buffalo
To make my escape
When the chief of police at Niagara Falls
Nabbed me in my chase;
He landed me in Woodstock Jail.
Where I was condemned to die
On the 14th of November
Upon the gallows high.

III
Three cheers for Lawyer McKay
Who did so much for me;
Likewise to Lawyer Blackstock
Who tried to set me free.
Sir John Thompson would not pardon me—
I'll tell you the reason why:
Because he thinks I'm guilty
And this day I am to die.

IV.
The day of my execution
Was a pitiful sight to see;
Two of my chums from Montreal
Took their last farewell of me.
Now my song is nearly ended;
I hope I've offended none
And if I have come tell me
Before I will be hung.

V.
My wife she came to see me
The night before I died;
She threw her arms around me
And bitterly she cried.
She said: "My dearest husband
I fear that you shall die
For the murder of Frederick Benwell
Upon the gallows high."

VI.
At eight o'clock next morning
I knew my doom was sealed;
I gathered up my courage
Determined not to yield;
And as these words were spoken—
These words "Thy will be done"
The trap-door it was lifted
And Birchall he was hung.

Contributed by "Leatherhead".

THE DYING CALIFORNIAN.

Lie up near, brother, nearer,
For my limbs are growing cold,
And thy presence seemeth dearer
When thy arms around me fold.

I am dying brother, dying,
Soon you'll miss me from my berth
And my form will soon be lying
'Neath the ocean's briny serf.

Hearken to me brother, hearken,
I have something I would say
'Ere the veil my vision darken
And I go from earth away.

I am going brother, going,
But my hope in God is strong,
I am willing brother, knowing
That He doeth nothing wrong.

Tell my father when you meet him
That in death I prayed for him,
Prayed that I might some day greet him
In a world that's free from sin.

Tell my mother, God assist her,
Now that she is growing old,
That her son would fain have kissed her
When his lips grew pale and cold.

Hearken brother, catch each whisper,
'Tis my wife I speak of now,
Tell, oh tell her how I missed her
When the fever burned my brow.

Tell her she must kiss my children
Like the kiss I last impressed,
Hold them as when last I held them
Folded closely to my breast.

Oh, my children, heaven bless them,
They are all my life to me,
Would I could once more caress them
'Ere I sink beneath the sea.

'Twas for them I crossed the ocean,
What my hopes were I'll not tell,
But they gain an orphan's portion,
Yet He doeth all things well.

Bring them early to their Saviour,
Putting all their trust in God
And He never will forsake them
For He says so in His word.

Tell my sister I remember
Every kind and parting word,
That my heart has been kept tender
With the thoughts her memory stirred.

Tell them I ne'er reached the haven
Where I sought the precious dust,
But I gained a port called heaven
Where the gold will never rust.

Urge them to secure an entrance
For they'll find their brother there.
Faith in Jesus and repentance
Will secure for each a share.

Hark, I hear my Savious calling,
'Tis His voice I know so well,
When I'm gone then don't be weeping,
Brother, there's my last farewell.
—J. H. TAYLOR.

INDIGESTION RELIEVED . . . QUICKLY

CARTER'S LITTLE LIVER PILLS

This Purely Vegetable Pill aids nature as a laxative in its digestive duties. Often one of these little pills taken after meals or at bedtime will do wonders, especially when you have overeaten or are troubled with constipation. Remember they are Dr. Carter's formula, young and old can take them. All Druggists 25c and 75c red pkgs.

CARTER'S LITTLE LIVER PILLS

The Whatnot

A Column for Little Bits of Everything of Interest to Women Readers

Conducted by Marion (Copyright)

PETERBOROUGH has so far escaped the freak "marathons" and bizarre contests that have been so prevalent in other parts of the country. But one never knows.

* * *

A few years ago someone pushed another in a wheelbarrow from Lakefield, and was indignant because the passenger wished to take along a copy of Webster's unabridged dictionary to read during the journey!

* * *

And I have read in the old files of The Examiner about someone who rolled a pea nut down George street, pushing it with his cane.

* * *

But these feats were mere bagatelles to those accomplished by some persons. We all recall the dancing marathon that was stopped "in the interests of humanity" last year.

* * *

Probably the open season for queer contests started in the Garden of Eden when one of the parties wagered he could eat more bites of apple than his mate. Anyhow, through duelling, and bull-fighting, and gladiatorial combat, with trans-Atlantic crossing champions and pie-eaters sandwiched in, the torch of achievement has come down to the age of coffee drinking and Niagara barreleers.

* * *

What a soul-satisfying thrill Bill Williams, plasterer, will have when he completes his deathless odyssey! Bill is starting out this summer to use his nose as the propelling force behind a peanut over twenty-two miles of roadway.

* * *

The world can hold no further thrills for the New York physician who will golf from Paris to Berlin, 674 miles, in 7,000 strokes. Probably when he establishes par there will be a score who will endeavour to beat it.

* * *

We have all heard about the German sailor who rolled a barrel from the heart of Budapest to the Danube, drank its contents, got inside it, and started to float to the Black Sea.

* * *

We have read about the sedate winkle-eating champions of England, and the man who ate ninety-three plum puddings; about the champion hog-callers of Iowa and Edward Kemp, who played the piano for eighty-two consecutive hours; about the two youths who remained awake for seventy-two hours, and Augustus Comstock, who drank eighty-five cups of coffee in seven hours, fifteen minutes, and no seconds to speak of.

* * *

The point is, what is left for ordinary Peterborough folk to do? The point of dancing from one town to another is too old to merit attention; pie-eating and pancake eating (even when the record of forty-three five-inch flapjacks stares one in the face) are ancient (though I did hear of a pie-eating contest here a few weeks ago which was varied by baking the pies with salt instead of sugar, to the consternation of the competitors); and the swimming pools are so small that any marathoner would get dizzy through turning so much.

* * *

In seeking some new way of achieving fame, why not combine freakishness (since that seems to be necessary) with usefulness?

* * *

We of the neighborly circle might, for instance, have a contest to see who could house and entertain the greatest number of visitors during the Old Home Week, or we might invite all the oldest of our friends and total the ages—the palm going, of course, to the woman who had the biggest total. We might allow neighbors to count in their own ages, but that mightn't work, since the details would have to be published!

* * *

Or let's remain practical and start a hand-shaking marathon—the winner being the woman who shakes hands with most visitors during the week.

* * *

Better still, how about cooking meals? Multiply the number of persons served by the number of meals, and see who is ahead at the end of the big week.

* * *

There must be SOMETHING new that we can do—and Peterborough, as we all know, was never noted for merely following others' leads.

* * *

Joking aside, this Old Home Week proposition is only a month away, and many of the problems are still unsolved. Where are the people to stay, who is to feed them, and are we all out to make them feel at home?

* * *

We will need a lot of volunteers for all branches of the service if these thousands of old boys and girls are to be entertained as they should be. We must all determine to do our share.

* * *

Have you planned your household so that you can take in the greatest number of guests? Have you started to plan your meals so that you will still have time to take in some of the sights? Are you ready to do your share in making Peterborough a friendly place for every visitor?

* * *

This is a big affair to which Peterborough is pledged, and the co-operation of every one of the city's 25,000 people is needed.

* * *

The city has been well advertised of late by the Male Voice Choir, and the boys who won the honors in speed boating at Toronto—but just think of having all these thousands of Old Home Week visitors going out to the ends of the continent to tell how well they were treated here!

* * *

It's an opportunity that comes only once in the lifetime of a city.

* * *

And, withal, I think that we natives can manage to have a good time too. It will be wonderful to see all those who helped to build Peterborough in years gone by; to have the thrill of showing them around the places they used to know.

* * *

Because, after all, the greatest joys in life come through making others happy—and that is OUR mission for Old Home Week.

FAVORITE RECIPE.

(Contributed by Mrs. C. J. S.)

JELLIED VEGETABLE SALAD.

Two cups canned tomatoes, one small onion. Small piece bay leaf. One-half teaspoon salt, three peppercorns, one cup cooked lima beans, one-half cup diced celery, one tablespoon gelatine, two tablespoons cold water, three hard cooked eggs. Simmer the tomato with chopped onion and seasonings for ten minutes. Rub through a sieve and add the gelatine, which has been softened in cold water. Add the beans and celery and let stand until partially thickened. Arrange in a mold with alternate layers of sliced egg. Chill, turn out on lettuce and serve with mayonaise.

STUFFED POTATOES.

(Contributed by Mrs. C. J. S.)

Six baked potatoes, three-quarter teaspoon salt, two tablespoons butter, one-quarter cup milk (hot a little pepper. Cut slice from side of potato and scoop out the inside. Mash; add butter, salt, pepper and milk. Beat until light; refill skins and brown in hot oven. Potatoes may be sprinkled with grated cheese before being put back in oven.

READ THE WANT ADS.

A Captive At Bay

By DUDFORD JENNE

The head care-taker of her father's four thousand acre country estate was ushered into the library. Phyliss stared at him as he came in. One of his Irish eyes was black, and he looked a bit battered.

"Why, Tim, you look somewhat the worse for wear!" she exclaimed.

He grunted. "We caught a chap going through the dell, and it took three of us to handle him. I've got him locked up, and I thought you might tell us what to do with him," he said bluntly.

Phyliss smiled. She knew her father had given orders that any trespasser on his grounds was to be handled "rough," but her curiosity was aroused. She made up her mind that she would like to see the man that Tim and his men had found difficult to handle—probably some country fellow with beef and brawn. So she told Tim to bring the captive in.

A few minutes later she looked up from her book. She saw standing beside Tim a disreputable figure so far as torn clothes were concerned. "It must have been a battle royal," Phyliss told herself. The captured man looked at her with cold eyes. He was slight in physique but she was enough of an outdoor girl herself to know the power that might be hidden in the finely proportioned frame. His hair was dark and curly, his brows level, and his mouth well modeled. It dawned upon her that he was handsome. She made up her mind that he was interesting enough to help her pass a few minutes.

"Leave him with me, Tim. I'll see if I can handle him," she suggested.

Tim looked highly doubtful, but he went out, and she motioned the captive to a chair.

He sat down with the ease and grace of men whose muscles are under full control.

"What do you mean by invading grounds that are private?" she asked coldly.

He looked at her with his dark, direct gaze. "I had what I thought were good reasons, my lady, which I did not give when your roughnecks appeared, and which I do not care to give now."

"Is that so?" she demanded, a bit nettled with the "my lady," and his air of command.

"It seems to be," he answered calmly. "I happen to be Mr. Wellington's daughter, and just now I am in authority here. Perhaps you don't know that our men are legal constables, and that you may land in jail for this!" she threatened.

He looked her over coolly. "You and your dad are samples of the kind of people I don't like—"

"You are frank!" she interrupted.

"I can be franker," he said mildly. "You buy three or four fine farms that were giving families a good living and then you turn them into a playground for you and your useless crowd."

"We paid for them," she retorted, feeling the crimson come to her cheeks. She saw his eyes change as he watched her cheeks. But he went on:

"And then you close a road that the people in the village have been using for years to get down to the lake to fish. No wonder you have to keep three gunmen to protect your precious acres!" he said with finality.

"You are almost insulting!" she said angrily.

"The truth is never insulting," he replied mildly.

"It was my intention to release you, but I think I'll keep you until my father arrives," she announced and at the same time heard some inner whisper, 'You want to keep him."

"Suit yourself, princess," he said. "I'll have a chance to tell your father what I think of him."

"Just who are you?" she demanded suddenly.

She saw him start. "Are you interested in me?" he asked, amused.

She blushed in spite of herself. "You can be hateful—and—and I do rather want to be nice to you."

The door opened, and a tall man of aristocratic bearing entered. He stared at them, and Phyliss promptly explained the situation. Mr. Wellington looked uncomfortable. He asked for the captured man's name, and got it—"Norman Hazen."

The older man started. "Are you my old western friend Bill Hazen's son?"

The other smiled. "Yes, he's up here on a business deal and is planning to buy some property on the lake. I came to the village last night, took a walk, and a young setter I have got onto your grounds and I had something of a mix-up with your guards."

Wellington nodded. "Tim thinks you are some prizefighter. I'm sorry about it—guess I better ease up on keeping people out."

"I favor it. I know the people in the village are sore. I have been advising Miss Wellington on that point."

"Well, I think you are right. I wish you would come back to dinner. I'll drive you down to the village," Mr. Wellington said. "I want to make some amends if I can."

"I think I'll drive him down, Dad, if he doesn't object," Phyllis announced. "I have been pretty mean to him."

The dark eyes looked into hers and said very plainly: 'I like you and I think I'm going to like you more and more!" And her brown eyes said very plainly: "I know I like you—and I'm going to like you more and more!"

The older man, not being able to read meanings in the eyes of youth, merely said:

"All right, then, Tot, but be sure to bring him back!"

FLIT kills Mosquitoes Quicker!

Our Children

By ANGELO PATRI

THE FAMILY FAILING.

Jimmie was always late with his school work. If the teacher asked for a book report on Friday she got it next Thursday, maybe. If reports card were to be returned Monday morning, Jimmie handed his in late Thursday. If the class had to change rooms at a given signal, Jimmie was always scrambling through his desk when the last member of the class passed out of the corridor.

"Dear me, yes I know it," said his mother. "His whole family is like that. His father's family you know were never on time in their lives. My husband was late for his own wedding. How can Jimmie help it?"

Lateness, is not a hereditary failing. It is a matter of training. If Jimmie had been trained to be on time, he would have been so, but as he had been trained to be late, he was late.

Hereditary is a force we have to accept. But none of us know just how much of it is at work in the children under our care and as long as we do not know wouldn't it be better for the children if we were to hope that this failing could be trained out? Deny the power of a poor trait or tendency instead of affirming it to your mind and the thing loses force. Keep affirming it, and it gathers power.

I have seen this happen many a time. A parent accepts as a settled thing that a son or daughter can't do certain work; or can do certain work; or must be gifted in certain lines and not in others; because their family traits were such and such.

Sometimes the thought is right, but many time it is not and sad conditions are set within the child when they might have been eradicated under another point of view. An open mind toward a child's traits and tendencies and habits is always best. Faith in their ultimate goodness and rightness is always best. To pin a bad habit upon them for life is never helpful and always bad teaching.

I know you cannot make a singer out of a child who has no voice. That sort of thing is too obvious for notice. But there is no need of crippling the growth of a child by placing a family pattern on him and so forcing him to conform to the worst standards of the group. Now is there?

You can teach a child to be on time. You can teach him to do his daily work to a standard of neatness. You can teach him the simple though fundamental habits of cleanliness, of health, of good manners if you are willing to take the trouble.

A lot of trouble that is charged to heredity is nothing more than the imitation of a poor example. A child may inherit the color of his hair and the voice of his father or mother, but I'm not willing to believe that he inherited their slack habits. So I'm going to keep right on training them out. Jimmie is going to bring in his work on time.

A GOOD RECIPE FOR DANDRUFF

Nobody loves Dandruff. But thousands endure it, not knowing it can be easily stopped and the scalp kept free and clean by just three minutes daily attention. From any drug store, get 6 oz. Bay Rum, 2 oz. Lavona (de Composee) and ½ dr. Menthol Crystals. Mix together and allow to stand over night before using. Then each morning on arising, rub the mixture thoroughly into the scalp with the finger tips or a stiff brush.

Dandruff quickly vanishes under this treatment, itching ceases instantly and hair stops falling out and is made lustrous and fluffy and looks and feels 100 per cent better.

If you want to stop dandruff and save your hair, try this simple home recipe, just as thousands have done and are doing. It is a famous old English formula that is harmless and inexpensive.

Uncle Wiggily

A Bed-Time Story by Howard R. Garis

UNCLE WIGGILY'S SECRET SLIDE.

(Copyright, 1929, by McClure Newspaper Syndicate.)

No so very many years ago, about as long as it take to go from one lollypop to the next, Uncle Wiggily was hopping around in the woods, looking for an adventure, when he heard some voices shouting.

"Now it's my turn!" some one said.

"Look out the way! Here I come!" said another.

"Oh, what a big splash!" cried a third.

"I must see what this is!" said Uncle Wiggily to himself. "I don't believe it is the Fuzzy Fox or the Woozie Wolf. They never are as jolly as these voices I hear. I'll hop a little nearer."

Making his way along the path through the bushes, Uncle Wiggily came closer to where he had heard the voices. Some one shouted:

"Now for a long one!"

I wonder if it can be some more of the animal boys who have found Susie's grape vine swing and are having fun?" thought Mr. Longears. "If it is, it isn't much of an adventure. For I helped Susie down yesterday when the swing was stuck high in a tree."

You remember that story, I dare say.

All of a sudden Uncle Wiggily hopped around a turn in the path and he saw before him some small, brown animals, with large flat tails, sliding down a slippery mud bank and going splash into a little brook of water at the botton of the slide.

"That looks very jolly!" said the rabbit and he laughed aloud.

"Oh! Who is there?" asked one of the sliding animals just ready to coast down the slippery mud path into the brook.

"It's only Uncle Wiggily, Toodle," spoke the other. "Don't be afraid! Go on, slide, and then it's my turn!"

"Pooh! As If I would be afraid of Uncle Wiggily!" laughed the beaver boy who was about to slide. "Hello, Unkie Wig!" he called. "Don't you want a slide?"

"Maybe! I'll see about it!" answered Mr. Longears, as he hopped closer and soon he saw Toodle Flat Tail, the beaver boy, coast down the slippery mud, slide into the water.

"That was good—almost as good as I could do it!" said another brown animal who, however, wasn't Noodle, the other beaver boy. For this animal did not have a broad, flat tail.

"I know who you are," said Uncle Wiggily to this animal. "Though I haven't seen you for a long time. You are Oscar Otter, aren't you?"

"Yes, that's who he is," spoke Toodle the beaver, "and this is his slide. Otters make better slides than we beavers can make," went on Toodle. "But Oscar kindly said we could play on his for a while."

"I'm glad to have them," said the Otter boy, whose brown fur was almost black, so sleek and shining was it from sliding down the mud hill into the water. "This is an old slide my father and mother made, but they have moved away and I'm going with them so we don't need the slide any more."

"And he said we could have it," spoke Toodle.

The beaver boy coasted down the slide.

"And we'd like to have you slide, Uncle Wiggily," added Noodle.

"Thank you, but I'm afraid I'm too old a rabbit to go coasting down a mud slide into the water!" laughed Mr. Longears. "I don't very much like getting wet unless I'm at the seashore in my bathing suit."

"Oh, but you don't need to get wet unless you want to," said Oscar, who knew all about the slide. Otters are famous for playing on mud slides. "Just before you get to the bottom of the slide," said the sleek, brown animal boy, "reach up over your head, grab hold of a tree branch and hold on. Then you won't go in the water. See! Like this!"

He went to the top of the slide and gave himself a little push. But, instead of plopping into the water as he and the beaver boys had done before, Oscar reached up, caught a low-hanging branch and held on, swinging in the air away from the brook.

"That's jolly!" laughed Uncle Wiggily. "I should dearly love to have a slide on your mud path, boys, but I have on my good clothes. And, even if I don't let myself go plop into the water. I'm afraid I would get all mussed up."

"Go home and put on some old clothes and come back," said Toodle.

"Yes, do!" begged Noodle.

"But don't tell anybody about this slide. We want to keep it a secret," said Oscar. "Don't tell anybody!"

"I won't!" promised Mr. Longears. "I'll keep this slide secret. And I'll go home, get on some old clothes and come back to have some fun."

English tea drinkers are rejoicing that the removal of the duty has reduced the price of tea to consumers by about eight cents a pound.

FASHION SERVICE

Lavender blue is used for this sports costume, which has a hand knitted sweater trimmed with a motif in rose and blue, and a smart cravat in the same colors. This is one of the new creations to be found in the Jenny collection.

HAND KNITTED SWEATER COMPLETES THE SPORTS COSTUME.

By Mme. Jenny.

This sports costume in lavender blue has a hand knitted sweater trimmed with a motif in tones of rose and blue, and the same tones have been used for the smart tie. I have made the skirt with a scalloped yoke and have given fullness by the use of godets, as you will see. A very narrow belt marks the higher waistline.

NORHAM WOMAN IS NINETY-SIX

Oldest Resident of District Has Been in Bed For Several Years.

HAD HIP BROKEN.

NORHAM, June 5 (Examiner Correspondence).—On Saturday, June 1, Mrs. McClelland of Norham, the oldest resident, celebrated her ninety-sixth birthday. Three years ago, Mrs. McClelland had the misfortune to fall and break her hip, and as it was not set on account of her age, she has been a helpless invalid since. But it is a pleasure to visit her, as with her bright smile, she says, "I am not sick, but I cannot do anything."

Mrs. McClelland spent her early married days in the Salem district, near Colborne. About sixty years ago, they moved near Norham on the farm occupied by Mr. Wooddard. About forty years ago they moved to the home, then new, now occupied by the family. Her husband died about twenty-eight years ago, and since then, Mrs. McClelland has lived with her son. After her accident, a daughter, Mrs. Tweed, of Colborne, has taken care of her.

Many friends called or sent tokens of remembrance on Saturday as another year was marked off on a long and useful life.

Church Service Is Conducted by W.M.S.

MADOC, June 5.—(Examiner Correspondence).— In Trinity United Church, owing to the absence of the pastor, Rev. G. W. Rivers at Conference, the morning service was in charge of the Women's Missionary Society of the church.

The president, Mrs. L. Ashley, acted as organist with Mrs. G. Huffman, vice president, Mrs. G. W. Rivers of Madoc and Mrs. Hicks, of Tweed, on the platform. A special choir of W.M.S. members provided the music for the service. The decorations were massed white lilacs. Mrs. Huffman read Matt. 28 ending with the christians great commission, "Go ye, therefore, and teach all nations, baptising them, and teaching them to observe all things whatsoever I have commanded you."

The anthem was "There is Sunshine in My Soul To-day." After the announcements and collection which was taken up by members of the W.M.S. the hymn "We Have Heard the Joyful Sound" was sung.

Then Mrs. Hicks, of Tweed, was called on, not as a stranger, but as a beloved fellow-worker, a vice president of the Presbyterial. Mrs. Hicks gave a brief resume of the organization. Before union there were five Presbyterials in the Bay of Quinte Conference. Now since union there are seven, necessitated by the vastness of the country covered. Of these the local branch belongs to Belleville Presbyterial and this has five vice presidents, Mrs. Hicks being the one representing Madoc district.

The general division of the missionary work is into foreign, Oriental work in B.C. India, and home missions so those who do not believe in foreign missions can still find room for work in home missions which assist largely in Canadianizing the new comers to Canada.

With interesting incident and story Mrs. Hicks held an interested audience to the end closing by quoting: "Go, labor on, spend and be spent.

Your joy to do the Father's will,
This is the way the Master went.
Shall not His servant tread it still."

Ask Your Neighbors

"I was all run-down, tired all the time and could not do my housework. My eyes were dull, my tongue was coated and I did not want to eat. A neighbor told mother about Lydia E. Pinkham's Vegetable Compound. I began taking it and now I am hungry all the time. I sleep well, my nerves are good and I have told lots of friends how the Vegetable Compound has helped me. I have also used Lydia E. Pinkham's Sanative Wash and I feel lots better. I will be glad to answer any letters."—*Mrs. H. E. Winters, 827 S. Willow St., Faribault, Minnesota.*

Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Med. Co., Lynn, Mass., U.S.A. and Oshawa, Ontario, Canada

Here they are, Mother!

WOMEN in millions of homes rely on Bon Ami *Powder* and *Cake* for dozens of cleaning and polishing tasks.

The soft, snowy-white *Powder* is so convenient to use on bathtubs, basins and tiling; fine kitchen utensils of aluminium, enamel and agate ware; floors of marble, tile, Congoleum, etc., painted woodwork—and ever so many other things.

And there's the handy, compact *Cake* to bring back shining spotlessness to cloudy windows and mirrors . . . to restore the lustrous gleam to nickel, brass and copper.

Cleaning with magic Bon Ami is easy as pie—quick as a wink! Just apply the Bon Ami with a damp cloth. In a moment it dries. Then a few brisk rubs with a *clean*, dry cloth and everything glistens with shining cleanliness.

A very charming and successful tea was held in the ladies' parlor of St. John's Parish Hall yesterday afternoon, under the auspices of the Women's Friendly Bible Class of the church. The room was decorated with quantities of ferns and Spring flowers. The central table had an embroidered cloth and a pretty silver basket of white lilacs and lily-of-the-valley. The guests were received by Mrs. A. O. Phillips, while Mrs. W. S. Hake and Mrs. G. F. Collis poured tea. Tea room assistant were Mrs. A. Pink, Mrs. H. Howell and Mrs. G. Chambers. Mrs. J. Bacon and Mrs. W. Davis had charge of a table of home-made cooking where many tempting delicacies were displayed, and soon disposed of. Miss Ada Jenkinson, sewing convenor, had a sale of work, which proved very successful.

* * *

Mr. and Mrs. Percy Bentley of Ottawa returned home to-day after spending the week-end with the Rev. G. J. Bousfield and Mrs. Bousfield, at St. Luke's Rectory.

* * *

Friends of Mrs. E. E. Holmes of Reid street will regret to learn that she is ill in Nicholls Hospital.

* * *

Mr. and Mrs. F. R. J. MacPherson and two of their children, Norine and Francis, are in Toronto to-day and will attend the graduation exercises at Columbus Hall this evening of the training staff of St. Michael's Hospital, Toronto. Their daughter, Miss Margaret MacPherson is one of this year's graduates from the Hospital.

* * *

Mr. and Mrs. L. Moore, Mr. and Mrs. W. Smale, and Miss Rogers of Ops township were in the city on Sunday visiting friends, and visited Mrs. D. McKinnon, of McDonnel street, who is convalescing in St. Joseph's Hospital.

* * *

Mrs. A. Thackeray, Stewart street, celebrates a birthday anniversary to-day.

* * *

Mr. Donald Heins of Toronto, a member of the Violin Department of the local Conservatory of Music, left to-day for Vancouver, B.C., where he will conduct violin examinations for the Toronto Conservatory of Music. During his absence, his classes will be taken by Mrs. Heins, who is an accomplished violiniste.

* * *

The many friends of Mrs. Ada Craig, of Rogers Street, will be pleased to hear that she is progressing satisfactorily after a recent operation in St. Joseph's Hospital.

* * *

Miss Laura Davidson and Miss Helen Munro entertained at bridge and tea yesterday afternoon in honor of Miss Marion Harstone, whose marriage takes place this month.

* * *

The name of Miss Helen Huff, formerly of Peterborough, daughter of Mr. and Mrs. Ed. Huff, appears in the list of those who received the degree of Bachelor of Arts at this year's examinations of the University of Toronto.

* * *

Mrs. Joseph Crowe, Brock Street, is visitin gher daughter and son-in-law, Dr. anl Mrs. Paul Epperson, at Milwaukee, Wisconsin.

* * *

Mr. Frank H. Dawson celebrates a birthday anniversary to-day.

* * *

Mr. Arthur Mitchell, of Detroit, spent the week-end with his parents, Mr. and Mrs. A. Mitchell, of 78 Aylmer Street.

* * *

Mr. and Mrs. George Manning (nee Adela Dorrington) were presented, prior to their marriage, with a handsome china tea set, the gift of the fellow-employees of the bridegroom, at the W. Scott Coal Company.

* * *

Miss Vivian McAllister, of Windsor, Ontario, is the guest of Miss Eva Letellier at 215 Crescent Street.

* * *

Miss Mabel Millcott, of Port Hope, took highest standing in practical work among the graduates this year of the Western Hospital, Toronto.

* * *

Mrs. Robert French spent the week-end in St. Catharines with her husband.

* * *

Mr. Harry Ebbs spent the week-end with friends at Muskoka Beach Inn, Gravenhurst.

* * *

The winners of a contest recently conducted in the surrounding district by the Prudential Life Insurance Company, were the guests of the Oshawa branch on Saturday afternoon and evening. After inspecting the newly remodelled offices in the Alger Building, the party were driven around the city and proceeded to the lake, where dinner was served by W. H. Barnhart. A pleasant feature of the dinner was the presentation to R. F. Sedgwick, assistant superintendent at Peterborough, of a diamond studded locket, in recognition of his twenty years of service with the company. After a theatre party at the Regent, the party were entertained at the home of W. O. Bennett, the local manager. Those present included Mr. and Mrs. J. I. Allen, Mr. and Mrs. R. F. Sedgwick, Mr. and Mrs. T. Best and Miss Marion Best, Mr. and Mrs. A. Moffatt, Mr. and Mrs. W. H. McLaren, Miss E. Taylor, of Peterborough, Mr. and Mrs. E. Jeffrey, Mr. and Mrs. Coffey, Mrs. F. Cockburn of Cobourg, Mr. and Mrs. C. Harris of Bowmanville, Mr. and Mrs. W. H. Fair, Mr. Whelan and Miss E. Ryan of Orillia, Dr. and Mrs. H. M. MacDonald, Mr. and Mrs. W. O. Bennett, Mr. and Mrs. A. E. Sparks, Mr. and Mrs. J. Fewtrell of Oshawa.

* * *

Mrs. J. E. Todd, who is leaving soon with her husband, the Rev. Mr. Todd, for Calgary, Alberta, was presented yesterday by the members of the Ladies' Aid Society of George Street United Church, with a lovely silver console set. During the afternoon, Mrs. H. F. Doig sang very sweetly and dainty refreshments were served.

* * *

The many friends of Mrs. D. McKinnon, of 240 McDonell street, will be glad to know that she is recovering satisfactorily after a serious operation at St. Joseph's Hospital.

* * *

A surprise party was held on Monday evening at the home of Mr. and Mrs. B. Fowler, Dublin street, in honor of the birthday of the former's mother, Mrs. Alice Fowler. During the evening, an impromptu address was made by Mr. Albert Fowler, accompanied by the presentation by Mrs. Fowler's little grandson, Frederick Fowler, of a handsome silk parasol. Mrs. Fowler made a suitable reply. The evening was spent in the enjoyment of music and cards and dainty refreshments. Among those present were Mr. and Mrs. Bayne, Mr. and Mrs. Hinds, Mr. and Mrs. McCaw, Mr. and Mrs. Matthews, Mr. and Mrs. Albert Fowler, Mr. and Mrs. J. Grimison, Mr. and Mrs. M. McIntyre, Mr. and Mrs. C. Fowler, Mrs. B. Miller, Mrs. Illingworth, Mrs. T. McMillan and Mr. T. Grimison.

* * *

Mrs. Graham, who arrived in the city recently from Rothesay, Scotland, has taken up residence with her son, Mr. R. Graham, at 152 Stewart street.

* * *

Little Eric Lang, the five year old son of Mr. and Mrs. J. Kenneth Lang, 300 Smith street, was the small host at a jolly birthday party held at his home on Monday, to celebrate his fifth anniversary. The little guests were entertained at a birthday tea, with a centerpiece in a birthday cake, adorned with five pink candles, and an evening of games and music followed, concluded by a motor drive for the party, with Mr. Lang as chauffeur. The guests included Barbara Cubitt, Lucille Doughty, Colleen Doughty, Billy Kemp, Lorne Roberts and Jimmy Record.

* * *

The name of Miss F. C. Reynar of Cobourg, appears in the list of successful candidates in the third and fourth year Teacher's' Courses of the University of Toronto.

* * *

Under the supervision of their leader, Mrs. G. J. Bousfield, and the assistant, Mrs. E. Heap, the members of the Junior W. A. of St. Luke's church, held a very jolly picnic to Jackson Park, when a program of games and races was run off. Those who kindly loaned cars for the occasion were the Rev. G. J. Bousfield, Mrs. W. Hepburn, Miss Bertha Curtis, Mr. P. Lindley and Mr. J Lush. The members attending the picnic were Muriel Krant, Marjorie Joyes, Myrtle Joyes, Peggy Lawless, Evelyn Lawless, Olive Henry, Emily Odell, Phyllis Starr, Dorothy Lipsett, Hazel Mahood, Beatrice Mahood, Isabel Milligan, Joan Heath, Audrey Heap, Thelma Pattenden, Gladys Clark, Eva Clark, Billy Hepburn, Albert Mason and George Bousfield, Junior. Adults who attended included Mr. and Mrs. J. S. Mason, Miss Lillian Rogers of Whitby, Miss Lily Sporle and Mr. J. Lush.

Fashion's Forecast

IT'S DECIDEDLY FRENCH.

THE STYLE with side closing bodice and brief fluttering skirt shirred to the long-waisted bodice in sprigged dimity in rose and pink tones on pale blue ground would make any little girl look attractive. Pale blue organdie band trims neck sleeves and makes pert bow at waistline. Orchid voile pale pink batiste white cotton broadcloth with tiny red polka-dots blue and white checked gingham jonquil yellow linen printed pique in red and white geometric motifs and nile green chambray with white pique printed in green dots as trimming are important combinations for young fashionable of 2, 4 and 6 years.

THE PATTERN No. 2789 contains a Chart that shows each step in the making in Picture Lessons. It's so simple to understand that two dresses of different fabrics could easily be made in a morning and at a great saving in cost. It is offered at cost price 15 cents (stamps or coin) as a service to readers who sew.

NEW FASHION BOOK containing all the latest styles is 15 cents but may be obtained for 10 cents if ordered with a pattern.

FEATURE DANCE BEING PLANNED

Jerry Shea's Paladians Will Play at Big Hall During Old Home Week.

TICKETS ON SALE.

What promises to be the outstanding event of Old Home Week is the feature ball at the Armouries, July 3. The Dance Committee, under the chairmanship of Art. Costello, has spared no expense to make this one of the most meritorious presentations of the week.

Jerry Shea, famous leader of the Paladians, of the Palace Theatre, has been engaged to furnish the music. Mr. Shea is recognized as one of the greatest leaders in Canada to-day. His ability is recognized by the greatest institutions in the Dominion. The programs broadcasted by the Canadian National chain are arranged by Mr. Shea. This fact alone speaks volumes for him.

The Paladians are forty in number. They are engaged regularly at the Palace Theatre in Montreal. Mr. Shea is bringing 14 picked men from this organization, each man a versatile artist of the highest calibre. They are not only musicians, but entertainers as well. They will present a distinctively novel and highly laudable performance.

The number of tickets to be issued and sold will be limited. A number will be necessarily held for out-of-town guests. The sale of these tickets will open in a very few days and an announcement of the method of distribution made in this paper.

Neighborly Helps

This column is used by Examiner neighbors to help out others who have requested recipes or advice. You may use it freely by addressing Marion.

CANNING CORN

(Contributed by "Quid Est")

A recipe for canning corn was requested recently. I never can corn, we prefer it dried. Besides, to us having a better flavor, it uses less sealers, occupies less space. It must be kept in a dry place, preferably in a cotton bag. Before using, it needs to be soaked about two hours. If you have no sweet corn, the common field corn is quite good. Boil in salted water as for use. We usually boil a pot full and dry what is not used.

Using a sharp knife, cut from the cob in such a way as to split all the kernels. To insure quick drying spread fairly thin on dripping pans covered with paper, dry in the oven with door open so it will not burn and stir frequently until fairly dry. The moisture must be gotten out quickly, else it will sour. By the time the dishes are washed it is usually dry enough to leave, so long as the fire is not hot enough to burn, or if the warming closet be warm, leave it there with door partly open. When thoroughly dry put in bag. It may be added to until the required amount is dried.

DATES ALWAYS FILLED.

COLUMBUS, O., June 5.—The most popular co-ed in college is the freshman, according to Ohio State University. A survey taken there showed that the impertinent little freshmen gadded about 95 per cent of their evenings—24 out of every 25 nights. They also go to more dances than any other classmen. The sophomore, junior and senior women, more settled, only go out half of their evenings.

98 OUT OF EVERY 100 SAY "HUSKY" BENEFITTED THEM

Marvelous Medicine Helps Practically Everyone Who Suffers From Sour Stomach, Gas, Constipation, Catarrhal Troubles, Rheumatism, Kidney Ailments, Weakened Conditions and Similar Ills.

EDWARD BENNETT

"Husky," the marvelous new medicine distributed here by Bond's Drug Store, has made a record in Peterborough and throughout the Dominion that has probably never been equalled by any medicine anywhere. Ninety-eight out of every 100 persons reporting their cases say that "Husky" has given them wonderful benefits. "Husky" has maintained this record in thousands of cases throughout the entire Dominion.

With this record, it is not surprising that practically everyone in Peterborough using "Husky" is being helped. It is natural that local people are coming to Bond's and telling how quick Husky is taking gas off their stomachs, relieving bloating, heartburn and other forms of indigestion, that constipation is gone, that catarrh and pains in the back and limbs are disappearing, that headaches and nervousness are things of the past and that they sleep better, have a new appetite and feel stronger than they have in years.

Another interesting letter from a Husky user is that of Edward Bennett, of Windsor, who says:

"La grippe had gotten me so weak and run down I didn't have enough strength to move. This old grippe gets a fellow so his food has no taste, and I had just lost my appetite. I was always having headaches, even had them frequently before I had grippe. I had gotten constipated and was feeling weak and miserable.

"Husky got hold of me right away and started strengthening me. Now I enjoy my food and have stopped having headaches. The constipation is relieved, too, and I want to say that this medicine does all that is claimed for it when it comes to making you feel better."

Influenza, la grippe, head colds and similar troubles so often leave a catarrhal condition in the system. This catarrh irritates the delicate stomach lining until it becomes inflamed and secretes mucus, which surrounds the food you eat, causes gas and acidity and constipates you. Your food is a soured mass and sends impurities, rather than strength and nourishment, into your blood. Weak feelings, nervousness, headaches, rheumatic pains and other ailments follow.

Husky's ingredients cleanse the system of this mucus and soothe the irritated membranes. That's why Husky makes you feel better so quick and why a treatment of several bottles gives permanent relief and new strength. Begin using Husky to-day and see how soon food tastes better, sleep is more sound and you feel stronger.

Everyone who would like to learn more about the Husky treatment is invited to call on the Husky Expert from the Husky Laboratories at Bond's Drug Store. His information is free and he wants to explain to everyone how best and quickest results are obtained from the use of this marvelous medicine. Call on the Husky Expert at Bond's to-morrow. His information has led thousands to find the relief and new health they had been seeking for years.

Blossom Day Is Inspiring Service

MADOC, June 5.—(Examiner Correspondence).—Sunday was Blossom Sunday at St. Peter's Presbyterian Church. The church was beautifully decorated with white and purple lilacs, apple blossoms and other spring blooms. Appropriate music and special sermons were preached by Rev. T. G. Marshall, the pastor, both morning and evening.

The subject for the evening was "The Garden of Life" with "We are labourers together with God; ye are God's husbandry", I Cor. 3:9, as the text. The decorations will be used for the meeting of the Presbyterial in St. Peter's Church this week.

Tulips Displayed.

A beautiful and interesting display of tulips under the auspices of Madoc Horticultural Society was held in the large shop window of Whytock Bros. on Friday evening and Saturday.

While only tulips were on display the variety in form and color was excellent, many of them being far above the average.

The winners were: For collection, first, Miss I. Breakell; second, W. E. Connor; for single flower, first, Mrs. G. West; second, G. Wallbridge.

The judges were Miss G. Aylesworth and Miss A. Wood.

History of Peterborough

Written by Thomas W. Poole, M.D., and Published in Peterborough 1867

CHAPTER VIII.

Erection of Court House and Jail.

On the second day of June, 1838, a meeting of the magistrates of the proposed new Colborne District was held at "the Government school house," as the minutes term it, for the purpose of naming a building committee for the erection of the new court house and jail and other matters in connection with he same, as provided in the Act passed at a now previous session of the Upper Canada Legislature. The magistrates present were:

Daniel Griffith, Esq., J.P.; Thomas Need, Esq., J.P.; Edward Duffy, Esq., J.P.; C. Moe, Esq., J.P.; Edward S. Hickson, Esq., J.P.; Robert P. Madge, Esq., J.P.; James Wallis, Esq., J.P.; Walter Crawford, Esq., J.P.; Robert Dennistoun, Esq., J.P.; John Langton, Esq., J.P.; Thomas Traill, Esq., J.P.; G. A. Hill, Esq., J.P.; Ephraim Sanford, Esq., J.P.; George Bird, Esq., J.P.; Robert Reid, Esq., J.P.; F. Connin, Esq., J.P.; J. Hutchinson, Esq., J.P.; Thomas Carr, Esq., J.P.; John Darcus, Esq., J.P.; Thomas A. Stewart, Esq., J.P.; A. McDonell, Esq., J.P., M.P.P.

The Hon. T. A. Stewart, M.L.C., was called to the chair, and John Darcus, Esq., appointed secretary of the meeting. On subsequent motions, the following gentlemen were appointed officers and members of the building committee, of whom three were declared a quorum:

Building Committee.

Hon. Thomas A. Stewart — Chairman.

William H. Wrighton, Esq.—Secretary.

Edward Duffy, Esq.—Treasurer.

Ephraim Sanford, Esq.

Robert P. Madge, Esq.,

Edward S. Hickson, Esq.

On motion of C. Moe, Esq., seconded by E. Duffy, Esq., the committee was restricted to an expenditure of £4,000 on the new buildings, but subsequently, on finding that the tenders for the work, offered agreeably to the plans adopted, exceeded that amount, a second meeting of the magistrates was held, at which, on motion of James Wallis, Esq., seconded by R. Dennistoun, Esq., the building committee was empowered to proceed to the extent of £6,000.

At the first meeting, the magistrates instructed the building committee to direct the clerk of the peace of the Newcastle District "to add one penny in the pound to the assessment roll of the proposed District of Colborne, for that year (1828) pursuant to the Act establishing the said proposed district." This rate was subsequently extended by resolution over the three following years. The committee was also authorized to advertise for plans for the proposed new court house and jail, and to pay the following premiums for the plans they may deem the best:

For the 1st, twenty pounds; for the 2d., fifteen pounds; for the 3d., ten pounds.

(To Be Continued)

RACING PROGRAM IS BEING PLANNED

There will be something for everyone when the time for Old Home Week rolls around and the lovers of fast horses will be assured of three days of good races.

Under the guidance of Ald. Stanley Lowe, who is chairman of the committee in this line, races of the same quality that are seen during Exhibition time in the city are assured.

A purse totalling $1,500 is procured for the events, and this in itself should be sufficient to draw the best entries from far and near.

The program calls for the opening race to be held on Thursday, July 4, when there will be a 2.30 trot or pace and a 2.14 trot or pace. On Friday, July 5, the next day, there will be a 2.24 and a 2.18 trot or pace, while on the final day, Saturday, July 6, there will be a 2.30 trot or pace and a free-for-all that should attract many entries.

WOULD LOOK BETTER.

Frank Farley, 699 Hague Avenue, St. Paul, Minn., says: "St. Paul is a beautiful city, but the old home would look better to me now." Mr. Farley, who is a post office clerk left here in 1899. Pat Farley, Mrs. John Fitzgerald, and Mrs. Ellen Sullivan are relatives.

FROM HUBBARD.

Andrew Wilson, of Hubbard, left Peterborough in 1899, and is now engaged in farming. Mrs. Wilson was formerly Ida M. Branham.

MANUFACTURERS WILL OPEN PLANTS

A meeting of the Canadian Manufacturer's Association was held Monday afternoon to determine what the Peterborough industries will do toward the entertainment of Old Home Week visitors. It was decided to throw the city's industries open for inspection as far as practicable at stated hours during the week. Complete schedules will be printed in the directory of events now being prepared by the Old Home Week committees for accommodation, registration and reception.

FROM HESPELER, ONT.

Miss Lettie Robinson, of Hespeler, Ont., left Peterborough thirty-five years ago. Miss Robinson formerly resided at 262 Aylmer Street, and four sisters still reside in this city. She says: "Thank you for the invitation, and if possible, will be there."

THERE IS NO BETTER CITY.

"I have always said that there is no better city in Canada for its size than Peterborough," writes Barney Cain, 256 Queensdale Avenue, Toronto 6, who left Peterborough in 1907. Mr. and Mrs. Cain resided on Water Street, and Mrs. R. J. Wilson, 459 Gilmour Street, is a relative.

A SPLENDID CITY.

"I recall Peterborough as a splendid city to live in, always snappy and up-to-date, just as Detroit is now," says George H. Halpin, of Detroit, Mich., who left here in 1898. Mr. Halpin resided at 213 Hunter Street.

PUBLIC SENTIMENT HAS INCREASED

Canadian-Made Goods Are Becoming Greater in Demand in Canada.

HALIFAX, N.S., June 5.—(By the Canadian Press).—Striking indications of the growth of public sentiment in favor of Canadian goods were noted by the executive committee of the Canadian Manufacturers' Association in its report on the "Produced in Canada" campaign presented at the annual meeting today. Statements made recently by some of the greatest Canadian enterprises that materials and supplies used in extensive building and contracts were to be of Canadian production were given as indications of this trend and special reference was made to the very large orders for railway equipment that had been placed in Canada. These provided much employment, not only in the factories directly supplying such equipment, but also in nearly a thousand other factories that made materials and supplies. The influence of the "Produced in Canada" campaign was steadily extending and there was an increasing tendency to specify Canadian products in preference to those made in other countries, the report said.

On the question of manufacturing in government institutions, the committee deprecated any tendency to enlarge such manufacturing operations, believing these should be carried on by private industries. It was admitted that a reasonable amount of manufacturing in prisons and hospitals for use in institutions was permissible, as it provided occupation for the inmates, but such manufacturing should not be carried to a point where it took away employment from Canadian workmen. From reports received during the year it appeared that there was no appreciable increase in manufacturing in institutions but there had been somee increases in manufacturing by public-owned or semi publicly-owned organizations, and special attention had been directed to such cases.

Referring to the question of rust in wheat, which had been raised by western members at the last annual meeting, the committeee reported that the association, through its representatives on the National Research Council, had been in touch with the work of investigation for some time. Studies were being carried on at the Dominion rust laboratories, Winnipeg, and at the universities of Alberta, Saskatchewan and Manitoba, under the direction of a joint committee of the department of agriculture and the National Reesearch council. The executive committee recommended that the association follow the progress of this work sympathetically and assist in every possible way to find a solution, which would save many millions of dollars annually to the farmers of Western Canada.

Salient Points of Bidding

Auction: The Auction bidding requires no comment.

Contract: Following West's bid of two Hearts, East, with 6 Probable Tricks in hand with Hearts as trumps, jumps to the game bid four Hearts.

The Play

North opens the 2 of Spades absolutely readable as a singleton. With a singleton Spade, North would be most unlikely to be entirely void of Hearts. To guard against the contingency of North's holding all three of the outstanding Hearts (which include the Queen) West leads a low Heart form the King in Dummy to his Ace. Winning this with the Ace, West secures a tenace position in Dummy with reference to the Queen now known to be in North's hand. Two leads through the Queen capture it and exhaust the adverse trumps.

Declarer then leads the King of Clubs from Dummy to establish the Queen. South comes up with the Ace and leads a Diamond. West declines to finesse the Queen of Diamonds, for, even though it should win, he cannot gain a trick, and should the finesse fail, game must be lost, since with the Diamond trick he must also lose two Spades and has already lost one Club. By declining the finesse, he is in position to so play the hand as to lose only one Spade and one Diamond in addition to the Club.

Declarer leads his good Queen of Clubs followed by a low Club which he trumps in Dummy. Declarer then leads a Diamond from Dummy, North winning with the King. Any lead North makes must now give the Declarer a ruff and discard, assuring the loss of but one more trick. Had South instead of North held the King of Diamonds, South would have been equally helpless, as the only trick he could have made would have been with the King of Spades.

"The Best Furnace Made"

Pease

"Economy"

FURNACE

After a winter of perfect comfort with the minimum of furnace work, the writer of this letter is convinced that no other furnace can equal the Pease in economy and efficiency.

"If the Pease Furnace continues like it is doing, we could not wish for better results. We were never warm in this house until the Pease Furnace was installed. Now we have to keep the windows open part of the time to cool the air. It certainly must be the best furnace made. My mother lives upstairs, also two sisters. My mother was never known to be warm, this year she has complained several times of being too warm."

A dozen special features combine to make the "Economy" an outstandingly successful heating plant. Attractive and informative literature describing the unit is yours on request.

Toronto Club Breaks Even in Series with Bisons

O'NEILL'S CLOUT TO LEFT FIELD ENABLES MAPLE LEAFS TO BLANK HERD BY 1-0 SCORE

Poor Batting of Leafs Offset By Gibson's Work on the Mound.

WINGS BEAT ROYALS.

Keystones Tally Seven Runs in Eighth Inning To Defeat Newark 15-10.

TORONTO, Ont., June 5 (Canadian Press).—When Manager Steve O'Neill hit to left field in the fifth inning of yesterday's ball game with the Buffalo Bisons, he made the Leafs' third and final hit. But it proved to be the most important drive of the game, for it enabled Ralph Shinners to come sliding home with the run that gave the Leafs a 1 to 0 victory and an even break in the six-game series with Clymer's men.

The Leafs failed to do very much in the matter of hitting, but what they lacked in this respect was more than offset by the good right arm of Sam "Hoot" Gibson. Gibson set the Herd down with an even half-dozen blows, and in only one inning was he seriously in danger of being scored on.

KEYSTONES WIN OUT.

READING, Pa., June 5 (Canadian Press).—Reading rallied for seven runs in the eighth inning to score a 15 to 10 victory over Newark in a wild game here yesterday. The game saw nine pitchers toil, with five working for Newark. Reading scored its seven runs on three hits in the eighth. Wildness of Bear pitchers aided the Keystones.

CAPTURES FINAL GAME.

MONTREAL, Que., June 5 (Canadian Press).—Rochester employed their base hits to better advantage than did the Royals, and the Red Wings captured the closing game of the series here yesterday afternoon 7 to 6. The victory gave the Wings a 3 to 1 break on their first visit here.

The Royals outhit the Wings 11 to 6, and the tying and winning runs were on base with one out when Relief Hurler Carleton fanned Urbanski and made Fowler line out to Toporcer to end the game. Pinch Hitter Conley hit a home run with none on in the ninth to start the assault on Lingrel, who had been sent in to finish the game for Jacobs. Heinie Sand hit a home run in the fifth with Worthington aboard. The Wings pulled two double plays during the game, the second being their 64th of the season.

HOARDS LOSE OUT 13 TO 12

Petherick's Team Playing Great Ball in District Softball League.

PROGRAM FOR WEEK.

PETHERICK'S CORNERS, June 5 (Examiner Correspondence). -- The local entry in the softball league started away on the right foot in the holiday evening fixture here when they defeated Hoard's fast nine by a score of 13 to 12, with none out in the final innings. Rain and late arrivals delayed the starting of the encounter with the result that only six innings could be played. Pierce, Hoard's spin-ball artist, was absent with a sore arm, and the hurling task fell to the lot of Charlie Hoard, who pitched great ball until the final innings when he weakened, and a barrage if heavy hits won the day for Petherick's.

Ken. Addie, Hoard's youthful second sacker, was the heavy hitter for the team, with four safeties in as many trips to the plate, and scoring three runs. Carman Gunning also secured a trio of counters. Hoard's outfielders pulled off some nice catches to rob local batters of sure hits, but the feature play was made by Grant Meiklejohn, who made a one-handed stab of a hot liner over short and doubled a base-runner off first with a snappy throw. Ray Fry and Grant Kerr shared the pitching honors for the homesters and were both steady. The quartette of runs secured by Hoard's in the first frame were the result of three errors before the local fielders got accustomed to the wet ball. Roy Barnum was the heaviest batter for Petherick's, with four safeties in the same number of trips. Every local batter secured at least one hit and a run.

Hoard's — C. Hoard, p; W. Jeffs, c; W. Hume, 1b; K. Addie, 2b; F. Heagle, 3b; O. Rannie, ss; J. Thompson, lf; A. Jones, cf; C. Gunning, rf.

Petherick's — Roy Fry, p; Ted Owens, c; H. Petherick, 1b; G. Kerr, 2b; R. McKeown, 3b; Grant Meiklejohn, ss; Gerald Petherick, lf; R. Barnum, cw; L. Anderson, rf.

By innings:

Hoard's	410232—12
Petherick's	030118—13

Umpires—Eagleson and Fred Fry.

The league schedule has got away to a good start with two games on Friday last. Hoard's entertained Springbrook and sent them home on the short end of a 21 to 7 score.

Bethel pulled a big surprise at Stirling when they trounced the strong Menie squad 27 to 14.

Menie at Springbrook and Bethel at Hoard's are the other games on tap for this week.

DELORO BOWLING CLUB SCHEDULE

The following rinks are announced for the coming season by the Deloro Lawn Bowling Club (the first named being skip):

1—A. V. Yates, S. B. Wright, R. D. Murray, Simmons, F. Gray.
2—R. A. Elliott, J. Judge, H. R. Haacke, F. Leal, J. Hart.
3—F. Paquet, H. F. Berry, C. H. Buskard, J. H. English, S. J. Sanderson.
4—W. Williams, J. K. Crawford, W. K. Savage, H. Boudreau, W. M. Regan.
5—D. E. Bell, J. P. Martin, Dr. D. L. Curtis, Dr. H. Crawford, T. W. Rhind.
6—J. Hemphill, H. Smith, H. A. McNally, F. A. Bapty, H. Buck.

The following schedule is also announced:

June 6 — Williams vs. Hemphill; Yates vs. Elliott.
June 11—Paquet vs. Bell; Elliott vs. Williams.
June 13—Hemphill vs. Yates.
June 18—Paquet vs. Williams; Elliott vs. Bell.
June 20—Yates vs. Paquet; Bell vs. Hemphill.
June 25—Williams vs. Yates; Elliott vs. Hemphill.
June 27—Williams vs. Bell; Paquet vs. Elliott.
July 2—Hemphill vs. Paquet; Bell vs. Yates.
July 4—Hemphill vs. Williams; Elliott vs. Yates.
July 9—Bell vs. Paquet; Williams vs. Hemphill.
July 16—Williams vs. Paquet; Bell vs. Elliott.
July 18—Paquet vs. Yates; Hemphill vs. Bell.
July 23—Yates vs. Williams; Hemphill vs. Elliott.
July 25—Bell vs. Williams; Elliott vs. Paquet.
July 30—Paquet vs. Hemphill; Yates vs. Bell.

All games to start at 8.00 p.m. sharp.

Games to consist of sixteen ends.

Scores to be handed to bowling manager, R. D. Murray.

Winner to be declared by August 3rd.

Each member of winning team to receive a prize.

Prizes are to be on display in Trading Company window shortly.

Mussolini, Italian dictator, fills ten cabinet posts: Head of the Government, Foreign Minister, Secretary of War, First Lord of Admiralty, Air Minister and Home Minister are some of them.

CARDS LOSE HALF POINT LEAGUE LEAD

Split Double-header With the Brooklyn Robins With Scores of 3-1 and 11-8.

PHILLIES BREAK EVEN.

Leverette Holds Cincinnati To Seven Hits To Allow Boston 4-1 Victory.

ST. LOUIS, Mo., June 5.—(C.P.)—The Cardinals lost half a game of their lead to the victorious Pirates and Cubs by dividing a double-header with Brooklyn here yesterday, but nevertheless remained in first place in the National League by a comfortable margin. The champions took the first game behind the fine pitching of Jess Haines by 3 to 1, but permitted Brooklyn to romp off with a decision by 11 to 8 in the nightcap.

PIRATES WIN OUT.

PITTSBURGH, June 5.—(C.P.) — Steve Swetonic kept Philadelphia's hits scattered until late in the game and Pittsburgh won a free-hitting affair yesterday, 9 to 5. The Phillies took the first two contests of the series and the Pirates the last two.

SMOTHER REDS.

CINCINNATI, June 5.— (C.P.) — The Braves smothered the Reds' attempt to pull them down into a last place tie here yesterday by knocking Luque and Erhardt from the box. Boston won 4 to 1. Leverette limited Cincinnati to seven hits and held the home club scoreless until the final inning. Sisler led the Boston attack with four hits in five times up. The Reds won the series, two games to one.

HOMERS FEATURE.

CHICAGO, Ills., June 5.—(C.P.)—The Cubs shook off their batting lethargy here yesterday and although they failed by one hit to match the Giant total of 14, they sent enough drives over the fence to win the final game of the series from the New York team by 10 to 9. Hack Wilson led the Chicago attack with two home runs and Hornsby, Grimm and Grace got one apiece. Ed. Roush and Bill Terry hit for the circuit in behalf of John McGraw.

SILVER PLANT WINS THE SAFETY FLAG

Deloro Safety Committee Hold Regular Monthly Meeting.

(Examiner Correspondence.)

MARMORA, June 5. — The monthly meeting of the Deloro Safety Committee was held at the Hub on Monday evening, J. Hemphill presiding in the absence of R. A. Elliott. Twelve suggestions were reported as being received in May. The flag was awarded to the Silver plant while the Oxide plant retain the star for best record thus far in 1929. Floyd Gray reported for the Inspection committee and H. Smith was appointed floating member for June. Other committees reported progress. The Publicity Committee is running a daily sporting bulletin on the bulletin board.

GAINS 18 WINNER.

WINNIPEG, Man., June 5 (Canadian Press). — Larry Gains, Toronto (Canadian heavyweight champion), knocked out Carl Augustine, Minneapolis, Minn., slugger, in the second round of their scheduled ten-round bout at the amphitheatre last night.

Cragadour Favored To Win Epsom Derby; Large Field Entered In Turf Classic

EPSOM, England, June 5.—Today is Derby Day. Twenty-five or twenty-six highly nervous thoroughbreds, trained to the minute, will give of their best in a race over the rolling mile and a half course on Epsom Downs for the Blue Riband of the English turf. Multitudes will see the race and many millions thorughout the whole world will as eagerly await the outcome.

It takes more than a general election to disturb the British horesman's faith in his Derby fancy, and not all the changes that have been and will be made in the Government and the Premiership could keep the mind of the man in the street off one of the most fascinating problems ever offered in the century and a half of the great race. To-day's battle is open as if none of the potential winners had ever trod turf before.

Lord Astors Cragadour, and Mr. Jinks, owned by Major McCalmont, are favored to win.

Likely to Rain.

The question being asked by hundreds of thousands is: "Will it be fine?" The question was an acute one for the cosmopolitan thousands who occupied the far-spreading Downs with thundery-looking clouds as their counterpane, for only the luckiest were able to erect canvas bivouacs or similar shelters. Rain has been absent for weeks and the course was baked to a dangerous hardness.

Hundreds of gipsies in their picturesque garments were congregated on the Downs last night, just as though a ban on their encampments had not been issued recently by the Epsom Grand Stand Association, controllers of the race course. They lolled around their caravans in the light of camp fires, while numerous tattered tramps roamed around or lay under the shelter of the hedges, and the inevitable fair in the hollow below "the Hill" added to the completeness of the scene.

Meanwhile the basement of the great grandstands was a picture of feverish activity as scores of cooks and their assistants prepared enough dishes to feed an army corps. The little town of Epsom was thronged with racy characters.

The main forecast was: "It will be an umbrella Derby."

DETROIT TEAM TURNS TABLES ON ATHLETICS

Tigers Defeat Philadelphia Club 8-4 in Final Game of Series.

AMERICAN LEAGUE.

Yankees Take Four Straight Over White Sox To Win the Series.

PHILADELPHIA, June 5.—(Canadian Press).—After losing three straight to the Athletics, the Detroit Tigers turned the tables in the final game of the series yesterday, and by taking an 8-to-4 lecision stopped the league leaders' winning streak of six in a row.

WIN FOUR STRAIGHT

NEW YORK, N.Y., June 5.—The Yankees made it four straight over the White Sox here yesterday, winning the final game of the series by 4 to 2. The White Sox again hit freely and were mastered by Henry Johnson, who gave up only four safeties. The offensive total of Chicago for the four-game series were four runs and 18 hits.

LOU FONSECA STARS

BOSTON, June 5. —Lou Fonseca's batting gave Cleveland four runs, while Jeff Zinn was allowing the Red Sox only five hits yesterday, and the Indians defeated the Bostonians 4 to 0. In the first innning Fonseca drove the ball over the left field fence after Jamieson had doubled. In the fourth Travener and Zinn singled, and after an infield out Fonseca singled, scoring the two runners.

SENATORS BEAT BRUINS

WASHINGTON, D.C., June 5. — (Canadian Press).—After trailing for eight innings, Washington drove over six runs in the last frame to defeat St. Louis, 8 to 7, yesterday and even the series. Walter Beall, Yankee castoff, making his first appearance on the mound for the Senators, relieved Liska in the fourth inning and got credit for the victory.

PICTORIAL GOLF

"ALWAYS LINE UP A PUTT"—HAGEN.

Lining up the putt is a big factor in a golf round. Too often we see our mistake after the ball has been hit and the putt has gone astray. No putting green is perfect even when perfectly level.

Greens are seldom made level in these days as putting becomes more and more an art. The putt requires more care than ever before on account of this fact. We must watch closely to find the true line to the hole. Once found, it is necessary to putt with plenty of freedom. We find little sympathy for the man or woman who is constantly short as we know they do not deserve success. Plenty of putts will be missed, but the one who can get the largest percentage is the most successful golfer. (Copyright, 1929, by the Bell Syn., Inc.)

BALTIMORE WINS.

Roseneath Team is Defeated in Opener of the Season at Home.

(Examiner Correspondence.)

ROSENEATH, June 5. — The first ball game played in Roseneath this season took place on Monday afternoon when the Baltimore team played the home team with a score of 10-7 in favor of Baltimore. Roseneath will play Harwood on Saturday, June 15.

NATIONALS ARE HERE SATURDAY TO MEET PETES

Provincial Champs Will Provide Opposition in Week-End Clash.

ALWAYS A FIGHT

There is Action Every Time These Two Old Rivals Clash.

Belleville Nationals, Ontario champions, will be here on Saturday for a Central Ontario League game with the Petes and the first appearance of the season of Walter Gerow and his men will attract a big crowd to James Stevenson Park.

The Nationals have always been a drawing card here and by the same token a Belleville-Peterborough ball game is always a snappy battle. Last season the Gerow men were beaten three times on the local grounds but in each struggle they were dangerous until the last man was out.

The Petes have already one victory to their credit over the Ontario champs but that doesn't mean a thing to the Nationals, who will be in there trying every minute on Saturday.

The homesters got rid of a lot of bad ball against Deloro Saturday but they hope to show the home fans in the game with Belleville that they are capable of a much better brand.

The clash should be well worth seeing.

DIRECTORS ARE RE-APPOINTED

Stirling Skating and Curling Association Closes Year With Balance of $300.

(Examiner Staff Correspondent.)

STIRLING, June 5. — At a meeting of the Skating and Curling Association last week the directors of 1928, were re-appointed as follows: R. W. Meiklejohn, W. J. Whitty, Walter Wright, Earl Luery and Henry Tulloch.

The Association has a surplus of over $300 in the bank, but on account of further expenditure it was decided to withhold dividends this year. Seven per cent. was paid shareholders last year.

Officers Elected.

The Young People's Society of St. Paul's United Church, elected their officers for the ensuing year, as follows: Hon. President, Rev. E. W. Rowland; president, H. E. Hulin; 1st vice-pres., Miss Grace Vanderwater; assistant, Mrs. J. D. Mills; 2nd vice-president, Miss Florence Bailey; assistant, Miss Lilian McGuire; editor "Blue Outlook," Mrs. A. E. Dobbie; 3rd vice-president, Miss Ruby Richardson; 4th vice-president, James Bamforth; assistant, Morgan Rowland; missionary treasurer, Miss Bessie Dickens; secretary-treasurer, Mrs. Nora Wescott; pianist, Mrs. E. W. Rowland.

CLERKS BEAT MILL WORKERS

Listed With St. Andrews As One of Winning Teams in Softball League.

CAMPBELLFORD LOOP.

CAMPBELLFORD, June 5.—(Examiner Staff Correspondence). — Soft ball has started for another season and although the first two games did not do credit to any of the teams, better work is indicated. Practice had been almost an unheard of thing and the four teams displayed their lack of it. The Clerks and St. Andrews each have one victory to their credit and the Mill and Legionnaires are losers.

The first game was played Monday night between the Legionnaires and the Churchmen. As usual, the Soldiers were short of some players when the time came to take the field and had to resort to conscription to fill up their ranks. Farrel and McArthur handled the game and when the smoke cleared the Troops had suffered a crushing defeat of thirty four to seventeen. Last year they had the honor of playing all season without winning a single game. This year they have a much more formidable team and under the management of George Free, president of the local branch, are expected to make a good showing. Their next encounter is staged for Monday night at six-thirty with the Clerks as their opponents. St. Andrews have much the same line up as last year. Their play is, like all the others, ragged in spots, but there is every indication that they will smooth out the wrinkles and give a good account of themselves.

Last night the game was between the Mill and the Clerks. The Counter-hopper won out by two runs with the score fifteen to thirteen. Things looked promising for a first class exhibition of softball at the beginning. There were no runs scored in the first innings. The second time up, the Clerks got three, they repeated the dose the third frame and then cut the number to one for two innings. In the sixth they got four, in the seventh, two and in the eighth, one. The clothmakers did not count at all till the fifth time up. They got one run. This seemed to break the charm for they collected six more in the sixth and retired with a man on second. In the seventh they collected three, in the eighth two and in the ninth, one. When the third man was put out the bases were full and there was every indication of a Mill victory or at least an extra innings. Tinney and Free handled the game.

TEST MEN SWAMP INDUSTRIALS 23-6

Rally in Fourth To Overcome Early Lead Control Team No. 2.

Snappy infielding and clever pitching on the part of the Test Department, combined to swamp the Industrial Control No. 2 softball team last night by the score of 23 to 6.

The game was very close until the end of the fourth innings when the score stood 7-6 in favor of the Test men, but in the next two innings the winners played almost air tight ball to hold the Control crew scoreless, while they in their turn collected 16 runs.

Poor Infield Playing.

Both teams found it very difficult to handle the ball in the infield, due to the rough ground, and both first basemen had several fumbles to their credit. McIlwain twirled for the losers, striking out three and passing two, while Robinson, pitching for the test fanned three and issued no free passes. A feature of the game was a home run into deep centre by Hedger, the Test centre fielder, with two men on bases.

The line-up::

Industrial Control, No. 2: McIlwain p; Grierson c; Hunter 1b; Malane 2b, Kraut 3b; Hunter ss; Leach lf; Naish cf and White rf.

Test Department: Craighead ss; Hedger cf; Munro 1b; Jones 3b; Robinson p; Storey c; Gudmunson lf; Simser 2b; Mather rf; Butcher rf; Greenlaw lf.

Soccer Notes

All spectators are requested to keep away from the goal-keepers in the game to-night between the Packers and Brintons in a soccer league match. If the fans only co-operate in this intimation, it will facilitate the work of the referee.

A special practice game is scheduled for Thursday evening at King Edward Park by the Quaker Oats eleven. Players please note that this is in view of the game for Saturday.

THEATRES

AT THE CAPITOL

"THE BARKER" A COLORFUL PICTURE OF CARNIVAL LIFE WITH MILTON SILLS AND DOROTHY MACKAILL, AT THE CAPITOL THURSDAY, FRIDAY AND SATURDAY.

Every once in a while a picture comes along that takes us completely out of ourselves and transports us into a new and unfamiliar environment. For a time we live the lives of the players in the story, suffer vicariously and joy with them in their triumphs.

Such a picture is "The Barker," which opened at the Capital Theatre to-morrow. It has Milton Sills in the title role as the spieler in the little third-rate carnival troupe. Sills has never given better work to a role. It is shaded so finely, restrained where needed and flamboyant where the characterization demanded expressiveness.

Dorothy Mackaill is co-starred as the girl Lou. She plays the part with just the proper degree of abandonment, the pathetic desire for a clean atmosphere and a real love is expressed with delicacy and comprehension.

Betty Compson is admirable as the Barker's sweetheart, and Douglas Fairbanks, Jr., is excellent as the son of the same hardened individual, whose only soft spot is his love for his boy.

The trials and tribulations of the troupe, the internal dissension as as result of the Barker's son falling in love with the carnival girl, Lou, whom he eventually weds, the father's repudiation and final reconciliation—all these things enter into the romantic, whimsical and at times humorous picture. Sylvia Ashton, George Cooper, S. S. Simon, One-Eyed Connolly, John Irwin and other contribute delightful characterizations and the direction by Fitzmaurice again shows his mastery of the art and technique of his profession.

Large Fields Feature Belleville Race Meet

BELLEVILLE, June 5. — A large crowd attended the race meet held under the auspices of the Agricultural Socity here. A very large field of horses competed and the racing was spirited. Following is the summary:

2.12 Class—Purse $300.

Princess Audrey, R. E. Scott, Toronto	2	1	1	
Jack Abbe, James Akey, Peterborough	1	2	3	3
Jean Peter, C. Chapman, Toronto	3	3	2	2
Hal J., W. Elmhurst, Texas	4	5	4	4
Marion Harvester, C. Randall, Napanee	5	6	5	
Monte Carlo, F. Metcalfe, Kingston	6	4	6	5

Time—2.14, 2.12¾, 2.14¼, 2.16.

2.18 Class—Purse $300.

Gentry Todd, W. Dumart, Kitchener	5	2	1	1
Peter Direct, L. Bennett, Port Hope	1	1	2	2
Joe McGregor, W. Hillock, Toronto	2	4	3	3
Eleanor May, J. Akey, Peterborough	3	3	5	6
Beryl Grattan, R. E. Scott, Toronto	6	6	4	4
Lu Grattan, C. Schooley, Peterborough	4	5	6	7
Lena Marque, W. McPherson, Smith's Falls	7	7	8	5
Del Wilkes, S. Hunter, Smith's Falls	10	8	7	8
Ena McKinney, E. Rowe, Newton Robinson	9	9	6	9
Billy Sunday, C. Randall, Napanee	8	10	dr	

Time—2.15, 2.14¼, 2.13, 2.17, 2.17.

2.24 Class—Purse $300.

Lady Helen, R. Welsh, Hastings	1	1	1	
Adolphe the Great, B. H. McKane, Stella	2	3	2	
General Alex, W. Parks, Toronto	6	2	3

Kathleen Parlow, M. Hutton, Smith's Falls	5	4	4	
Mr. Penalty, Charles Randall, Napanee	4	5	8	
Lady Marie, A. S. Turner, Ryckman's Corners	7	7	6	
Nida Grattan, L. Bennett, Port Hope	12	8	7	
Alayne, R. E. Scott, Toronto	8	9	9	
Minnie Hal, R. Cowan, Picton	10	11	10	
MacDale, A. T. Johnson, Peterborough	11	12	7	
Sue Volo, H. S. Hunter, Smith's Falls	13	10	dr	
Lester Davis, J. H. Locke, Toronto	9	14	dr	

Time—2.15, 2.15, 2.15.
Starter—George Kingsley.
Judges—Harry Ketcheson, Adam Palmer.
Timer—Jack Lafforty.

The largest urban concentration of negroes in the world is found in New York City, which had a negro population of more than 160,500 in 1920.

DELORO GAME HAS BEEN RAINED OUT

Peteh' Trip to Home of League President Is Postponed.

Owing to this morning's rain, the Central Ontario League fixture scheduled for Deloro this afternoon, has been postponed, a message from Deloro stating that the grounds could not possibly dry up in time to play to-day. The Petes' next game will be on Saturday at James Stevenson Park, where they will entertain the Belleville team.

Manager Swanston requests Pitchers Heckman, Hardill, Morrison and Smythe to report at James Stevenson Park, to-morrow, Thursday night, at 6 o'clock, and the whole squad will practice at the same park on Friday night.

Salo Again Regains Lead from Gavuzzi

SUPERIOR, Ariz., June 5.—(C.P.)—The tired but persistent contestants in the Pyle Bunion Derby to-day jog 57 miles to Mesa, Ariz., with less than two weeks to go. The leg marathoners are looking eagerly for their first glimpse of the Pacific. They have already completed 3,003.6 miles.

Johnny Salo, Passaic, N.J., tied Sam Richman, of New York, for first place in yesterday's 21 mile lap from Miami and regained the lead in elapsed time over Pete Gavuzzi, of England. Salo's advantage at to-day's start was thirteen minutes and sixteen seconds.

SCIENCE IMPROVES THE GOLFER'S GAME

(By NEA Service)

LONDON, June 5.—Duffers who moan about the woeful conditions of the greens and fairways should hearken back a few decades and then thank science for improving their game of golf.

For instance, green and fairway conditions have been improved considerably through the breeding of grasses. Grass that grows in clumps is unsuitable. Grasses with fine slender leaves are chosen for the greens and a type that creeps along the ground for the links. One of the best golfing grasses developed by science is "dog bent" grass, which is said to be worth more than its weight in gold.

A specialist in the line of grass study is Prof. Stapledon, a member of the Research Committee endowed by golf clubs. He has devoted years to studying and pedigreeing different strains of grass.

Further scientific improvement in the game of golf is the ball itself. One of the first golf balls was a covering of leather stuffed with feathers. Experiments have developed the modern gutta percha ball, product of the "taban" tree of Malaya.

MOTION TO CLEAR GALLERIES.

OTTAWA, Ont., June 5.—For the first time in the history of the Canadian Parliament, a motion was made in the House of Commons last night to clear the galleries. The motion came from J. S. Woodsworth (Labor-Winnipeg North Centre) on the second reading of a divorce measure during private members' hour. On a call for ayes and nays, only a few members voted in favor of the motion.

C.G.E. RUNNERS MAKING GOOD PROGRESS.

Local runners are making steady progress in the C.G.E. Track and Field Club. This was proven in the commanding way that the relay team won the long race between Trenton and Belleville. There were six teams competing and Peterborough's first runner took an early lead and from then until the final lap that was stretched until Herb Tranter, the last man, finished four hundred yards in advance.

The biggest thing to be said in favor of the C.G.E. club is the development that it is giving to young runners. The club has several runners around seventeen and eighteen in its stable that promise to make their mark with a little more experience..

* * * * * *

CITY BASEBALL LEAGUE SCHEDULE OPENS TO-NIGHT.

The City League teams have been out practising baseball in fair weather and foul and this evening their schedule opens with a smart junior battle at James Stevenson Park. To-morrow night in the same park the Loyal Order of Moose nine will play the Canucks

The standard of baseball that these Junior players learn will be the standard of ball the fans will see here in later years. They need the support of the fans to set that standard high.

* * * * * *

RUTH IS STILL KING OF SWAT.

There was a discussion in the Yankee dugout about big hitters now pounding the ball in the American League, writes John Kerrnan in the New York Times. "The players think that the Babe, though he doesn't hit as frequently as he did a few years ago, can still ride the ball a greater distance than any of his rivals, veterans or rookies. Lou Gehrig connects more regularly, and hits harder, on the average, but Lou's best gives away to the Babe's best when a real Ruthian sweep connects with a fast ball.

"Heinie Manush is a gatling gun at the plate, rattling the ball to all fields. Harry Heilmann is still pounding them high up and far away, but Yankee players rate Dale Alexander, the huge rookie first baseman, a harder hitter, the demon insurance agent of Detroit. He slams them on a line and keeps the carpenters busy patching up the damaged fences in his wake.

"Goslin belongs to the heavy-hitting brigade, but the wild goose of the Potomac has been a bit below his usual form so far this season. Gehringer of Detroit has blossomed as a rapid fire hitter but the players don't rate him with the big fence busters for slugging. But Al. Simmons should be in there somewhere, and Jimmy Foxx belongs there. Or as Charley O'Leary puts it: 'He may be a Foxx to his family, but he's a curly wolf at that plate."

* * * * * *

O'NEILL WINS GAME FOR OUR CLUB.

The Leafs failed to clout the ball in their game with the Bisons yesterday, but Manager Steve O'Neill got the Leafs' third hit to win the game 1 to 0. The feature of the game was a pitching duel between Sam "Hoot" Gibson and Art Mills. The victory gave the Leafs an even-split in the six game series with Buffalo.

* * * * * *

RUMORED DEMPSEY HAS GONE BROKE.

Jack Dempsey is running around and around in an effort to find a peg for his promotional bonnet. He has left the Messrs Cole and Fugazy gazing somewhat ruefully and out of countenance over his defection, but he took $40,000 with him. It appears that he was to get this money for lending his name to their more or less ephemeral promotions.

Both declare with considerable vehemence and with what dignity they have left that Dempsey took a "run out" powder, and that he did nothing to help them build their mammoth stadiums, put on their million dollar fights, and fistic ventures, which made such a brave show in the papers when the trio signed articles.

Dempsey was hither and thither, in Detroit, in Chicago, and all over the map trying to put publicity and life into the venture. As a promoter Dempsey was a bust. It is now rumored that he is short of funds, and will likely enter the ropes again. There isn't a doubt but that the "Manassa Mauler" still has much of his old drawing power, but no one knows about his hitting power.

LADIES' CLUB OPENS SEASON

Members of Bowling Club Open Bowling Schedule For Summer.

RESULTS ANNOUNCED.

The ladies of the Peterborough Lawn Bowling Club assembled on the greens yesterday afternoon for the first time this season, beginning their schedule rink games. J. Sedgwick, president of the club and M. Bredin, vice-president, were in charge of arrangements and welcomed back the old members as well as several new ones.

This year the membership has increased with ten complete rinks, with the following skips: Mrs. Graham, Miss Allen, Mrs. Miller, Mrs. Coleman, Mrs. Gimblett, Mrs. Hutchinson, Mrs. Metcalfe, besides several unattached players who were very gladly welcomed. This is a great advantage to the club to have some available 'subs,' and everyone is looking forward to a very enjoyable season. The greens are in good condition for the first of the season and it certainly presented a pleasing and animated scene yesterday afternoon with forty enthusiastic players present. According to arrangements one of the skips will be in charge of the greens each bowling day, and Mrs. H. Graham was appointed to keep everything in order for yesterday's games. The ladies play 12 end games and the regular schedule games are called for each Tuesday and Friday afternoon at 2.30.

Yesterday's games were, on the whole, closely contested, Mrs. Greenslade's rink and Mrs. Metcalfe's rink having to play an extra end to decide the victory.

The draw, personnel of the rinks and their scores were as follows:

Mrs. Coleman, skip, Mrs. Eldred vice, Mrs. McLeish second, Mrs. Archibald lead, with a score of 10 against Mrs. Graham, skip, Mrs. Henry vice, Mrs. Martin second, Mrs. Mowry lead, with a score of 9.

Mrs. Greenslade's rink, composed of Mrs. Greenslade skip, Mrs. Fox vice, Mrs. Cheverwill second, Mrs. Neigh lead, with a score of 12 against Mrs. Metcalf, skip, Mrs. Staunton vice, Mrs. Burnham second, Mrs. Mofatt lead, with a score of 10.

Mrs. Miller skip, Mrs. Deyman vice, Mrs. Andrews second, Mrs. Gregson lead, had a score of 13 against Mrs. Hutchinson skip, Mrs. Williams vice, Mrs. Freeman, playing second, Mrs. Hepburn lead.

Mrs. Wright skip, Mrs. Devey vice, Mrs. Welch second, Mrs. Moore lead, had a score of 15 over Mrs. Gimblett's rink, with Mrs. Wiley vice, Mrs. Wiggins second, Mrs. Darcey lead with a score of 9.

Mrs. Yeotes skip, Mrs. Bredin vice, Mrs. Wood second, Mrs. Littlefield leading, had a score of 23 against Miss Allen skip, Mrs. Borland vice, Mrs. Skinner, playing second, Mrs. McGee, with a score of 5.

SNOW IN THE NORTH

SAULT STE. MARIE, Ont., June 5.—William Wilson, who motored from Batchewana to the Sault reported that along the height of land he drove through a section of five miles where an inch of snow had fallen during the night.

WINNER AT VARSITY MEET

Titian-haired Peggy Mathieson, pride of the Canadian Ladies' A. C. band of sprinters, "Smiling Peggy," still a junior, won the 60-yard dash at Varsity on the holiday in a close finish from her club-mate, Kay Wheatley, who won the open 100-yard dash.

Burglars Steal Safe; Contains No Money

GUELPH, Ont., June 4 (Canadian Press).—Burglars broke into the offices of the Imperial Oil Company during the night and carried off the safe. Their car was backed into the yard and the safe loaded into it, to be removed to some more convenient spot for opening. The car was found later not far from the Imperial Oil plant, but no trace of the safe has yet been discovered. The manager says there was no money in the safe when stolen.

WHEN YOUR BACK SEEMS BREAKING

Backaches arising from stooping or reclining often mean kidneys need help. Aid them by avoiding meats, spicy foods, liquor, and take Santal Midy capsules. They also help irregular, scanty or burning passages and night rising from bladder weakness. Genuine bear signature of Dr. L. Midy. All druggists have them.

HEAVY RAINS IN ALBERTA

One Life is Lost When Boat is Swamped in Swollen River.

DAMAGE IS HEAVY

CALGARY, Alta., June 5 (Canadian Press). — Southern Alberta yesterday counted the loss occasioned by torrents of rain which deluged the sandy foothill lands in week-end anger, claiming one life and leaving swollen rivers, water-soaked roads, and generally disorganized communication in its wake.

Swept from a raft tossed on the turbulent waters of the Red Deer River, Ernie Watte was carried to death in the rushing stream. The accident occurred when a fishing party was caught in the torrent 35 miles west of Crossfield yesterday afternoon.

Debris carried along in the swollen rivers threatened to crash down the bridges and showed no signs of abatement early to-day. Basements of houses along the river banks were water-filled, and Southern Alberta residents felt apprehension as the level of the water gradually rose.

Reports gathered over telegraph and telephone lines functioning none too well due to the deluge indicated that the damage might amount to thousands of dollars and that the list of casualties might be increased beyond first figures.

Play "Never Again" Much Appreciated

THOMASBURG, June 5.—(Examiner Correspondence).—A play entitled "Never Again" was given by young people of Roslin in the I.O.O.F. hall on Wednesday evening, under the auspices of Christ church here.

The play was much appreciated as was shown by the hearty applause. Those who took part are as follows: Rev. Mr. and Mrs. A. Smith, Alice Wilson, Hazel Wilson, Ena Kerr, Minnie Hamilton, William Bates, Arthur Bates, John Hart, Milton Snider, John Suttle.

Music was furnished in the intermission by Mr. and Mrs. Grantley Burleigh.

"NUGGET" Shoe Polish

gives a brilliant lasting shine with a minimum of effort. Use it daily on your shoes, not only for appearance's sake but also because it preserves the leather.

THE "NUGGET" TIN OPENS WITH A TWIST! 61

DODGE

PRESBYTERIANS TO DISCUSS ADMINISTRATIVE MINISTERS

General Assembly Will Open in St. Andrew's Church, Ottawa June 5.

TOTAL REVENUE $569,031.

Different Departments of Church Life Will Report Successful Year.

OTTAWA, Ont., June 5.—(By the Canadian Press).—Selection of a new moderator will be one of the first tasks of the general assembly of the Presbyterian Church in Canada, which gathers in St. Andrew's church here to-night. The retiring moderator is Rev. Dr. John Buchanan, Toronto, and among those prominently mentioned as his probable successor are Rev. Dr. Robert Johnston of Knox Church, Ottawa; Rev. Dr. D. Perrie of Wingham, Ont.; Rev. Dr. R. G. Macbeth of Vancouver, B.C., and Rev. Dr. D. R. Drummond of Hamilton, Ont.

Speakers representing the board of home missions and the women's missionary societies will be heard on the second evening, and on the evening of June 7 the important subject of foreign missions will be discussed. The budget will be taken up on Monday evening, January 10. George M. Dunn will be the new treasurer.

Representatives of the Presbyterian churches in England, Ireland and Scotland are expected to attend the gathering and closer union and co-operation between Presbyterianism in these countries and in Canada is expected to be achieved in the near future.

Much interest will centre about the question of the composition and duties of the Board of Administration, the church's chief executive body. At the last assembly a special committee under Rev. D. R. Drummond recommended that the the Board of Administration, at that time composed solely of lay members, should be supplemented by a general board composed of 16 ministers and elders nominated by the synods, 11 lay members representing the assembly and 10 representatives of the administrative boards. The duties of this board would be to control finances, co-ordinate the work of other boards, act as the assembly's committee in emergencies, and in general supervise administrative services. The Board of Administration however opposed the change, especially the introduction of clerical members.

The assembly as an experiment appointed eight ministers representing the eight synods of the church, to the Board of Administration and referred the recommendation of the special committee to a "representative conference" between the Board of Administration and representatives of the other church boards. The report of this conference will be presented to the coming assembly and is awaited with some expectation. It is understood however that the question of the permanent composition of the Board of Administration has not been agreed upon and will be discussed again by the Assembly. The experiment of adding ministers to the Board, it is reported, has returned out very satisfactorily.

The Year's Work.

During the year commencing Feb. 1, 1928, and ending Jan. 31 last, the total revenue was $569,031, the treasurer's report will show. In spite of the fact that this represents a substantial increase over 1927, enlarged expenditures, largely on account of home and foreign missions work, will cause a deficit on the year's operation of $18,776, expenses amounting in all to $587,807.

The report of the clerk of assembly will show that 6,229 persons were received into membership of the church by profession of faith, and 7,893 by certificate, while 9,425 were removed. This showed a net gain according to Synod of 6,697, total membership being 176,841.

In 1928 there were 677 ministers, 5,880 elders, 89,442 families, and 1,298 congregations and preaching stations, these figures representing healthy increases in each case.

The report of the Senate of Knox College records an attendance in theological and arts classes of 73, an increase of 13 over 1927-28. The Board of Sabbath Schools will report a total of 1,085 schools, a decrease of five, with an enrolment of 121,123, officers and teachers numbering 11,490. Membership in the 452 Young People's Societies is 14,467. The amount raised by Sabbath School was $152,486.

The Record will report a satisfactory year under the editorship of Rev. Dr. W. M. Rochester. Paid circulation is 41,800, so that, it is estimated, the publication reaches about one-half of the church's families.

The Pension Board paid to retired ministers and widows and orphans a total of $38,057. The church extension fund will report 18 applications for loans to assist in church buildings approved, totalling $63,300. Since 1927, $237,360 has been loaned for such purposes, repayments to date totalling $11,493.

SIGNALLER GIVEN 112 DAYS.

LONDON, June 4. — George Sivewright, the Scots Guard signaller who shocked all British military traditions by deserting his post in front of Buckingham palace not long ago, will not be a heroic figure for tourist and nursemaids' eyes any more.

He was found guilty by a court martial and was sentenced to 112 days' hard labor in a civil prison and to be discharged from the Army with ignominy.

Sivewright had pleaded that he was sleepwalking.

Successful operation of the carrier telephone system in British Malaya is expected to result in the extension of the service.

CANADIAN MANUFACTURERS MEET IN HALIFAX

The fifty-eighth annual general meeting of the Canadian Manufacturers' Association is taking place in Halifax, N. S. The above lay out shows the principal officers of the Association: 1, Elmer Davis, Kingston, Second Vice-President; 2, L. W. Simms, Saint John, N. B., President; 3, R. J. Hutchings, Calgary, First Vice-President; 4, C. A. Lusby, Amherst, N. S., Ex-Chairman, Maritime Division, who has been active in the arrangements for the Halifax meeting; 5, J. E. Walsh, Toronto, General Manager; 6, T. F. Monypenny, Toronto, Honorary Treasurer; 7, A. F. Blake, Saint John, Chairman, Maritime Division; 8, G. M. Duck, Toronto, Chairman, Ontario Division; 9, C.E. Harvey, Winnipeg, Chairman, Prairie Division; 10, J. H. Roaf, Vancouver, Chairman, British Columbia Division; 11, N. C. Polson Jr., Montreal, Chairman, Quebec Division.

The White Star liner Doric has been chartered by the Council of the Free Churches of Britain for a pilgrimage to Canada, and is due to land 1,200 pilgrims at Montreal on June 8. Among the leaders of the tour are: (1) Rev. A. G. Sleep, who is the only Canada-trained minister in the group; (2) Rev. Hugh Jenkins of Exeter, formerly of Edinburgh University, and (3) Rev. J. G. Sutherland of Edinburgh, principle clerk of the general assembly, United Free Church of Scotland.

WEDDING BELLS

MANNING—DORRINGTON
A pretty wedding took place at one o'clock at St. John's Church, the rector, the Rev. Dr. R. C. Blagrave, performing the ceremony, when Adele Dorrington and George Manning both of Peterborough, were united in the holy bonds of matrimony. They were attended by Miss Greta Scott and William Dorrington.

The bride was charmingly attired in beige crepe de chine, with hat, shoes and hose to match, and carried a bouquet of white carnations. She was given in marriage by her father, Mr. William Dorrington.

The bridesmaid wore maize satin and carried a bouquet of pale pink carnations.

After the ceremony, a dainty wedding repast was served at 52 Victoria avenue, the home of the bride, attended by about thirty guests. Later, Mr. Manning and his bride left for a honeymoon trip to Toronto and Niagara Falls, the bride travelling in a navy ensemble and hat.

OBITUARY

ROBERT GRAHAM

The death of Mrs. Robert Graham occurred very suddenly at her home 793 George Street, early this morning. Mrs. Graham was, before her marriage, Sarah Greer, the daughter of the late Mr. and Mrs. Matthew Greer. She was born in Cavan, Ont., and lived in the 4th Concession of Smith Township before coming to Peterborough ten years ago. She was a member of George Street United Church in Peterborough. Her beloved husband, Robert Graham, and one son Cecil of Washington D.C., survive her.

On Friday, June 7, at 1.30 p.m., the funeral will be held from the family residence to Little Lake Cemetery. Rev. J. E. Todd, of George Street United Church, will officiate at the service.

Child In High Chair Is Seriously Burned

LONDON, Ont., June 5 (Canadian Press).—His clothing catching fire from the flame of a gas stove, Jackie Morris, 10 months old, son of Mr. and Mrs. William Morris, of 9 Dundas Street, received burns from which he is unlikely to recover. The child was seated in his high chair, when the accident occurred, and is believed to have swung a cloth into the gas flame.

Firemen gave first aid, but at Victoria Hospital it is said the baby cannot live.

McCORMICK-DEERING NEWS

"Good equipment makes a good farmer better"

Published by
W. BURNS
THE FARM EQUIPMENT MAN

Vol. 1, No. 11 Peterboro Wednesday, June 5, 1929

Watch for the "News" each week. Suggestions and news items invited.
W. Burns, Editor.

Time and tide wait for no man, but time always stands still for the woman past thirty.

—

It's an easy job to take off the pitman from a McCormick-Deering Mower. Just pull up one small lever and the jaw is released.

—

A young bride recently visited her grocer and complained that the flour he sold her was tough.

"Tough—?" exclaimed the grocer.

"Yes, tough. I made biscuits with it and my husband would hardly eat them."

Subscriber: "Is this a toll operator?"

Telephone girl: "Yes sir."

Sub: "Then toll, will you? My line's dead."

—

Next time you are in the store ask us to show you one of those McCormick - Deering Knife Grinders. They're great stuff for sharpening the mower knives.

—

You can rake your hay or ted it for quick curing by using a McCormick - Deering Side Rake and Tedder. Same machine does two jobs.

—

Aviator, to sweet young thing: "Wanna fly?"

"Oh-h-h, Yes!"

Aviator: "Wait here, I'll catch one for you."

—

You have heard of people having trouble starting tractor engines, and even of getting their wrists broken at this job. But you never heard of the owners of McCormick-Deering Tractors having this trouble, because the impulse starter on the high-tension magnetos gives just as hot a spark at cranking speed as at running speed, and positively prevents a kick-back and a broken or badly bruised wrist.

—

We would say that the man recently convicted of having married three different women was formerly a master of ceremonies for a three-ring circus.

—

So Long, See You Next Week.

W. BURNS—The Farm Equipment Man.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

UNDERWRITERS' PICNIC.
The Life Underwriters' Association of Peterborough, through President J. I. Allen and the secretary, J. R. McGerrigle, have arranged for the annual picnic to be held this year on Saturday, June 15 at Mount Julian, where the genial host will be Mr. Thompson. A fish and chicken dinner will be served to the sixty guests who will be present. A program of sports will be drawn up by the following committee: T. A. Gillespie, H. B. Matthews, J. W. Kenmure and A. Moffatt.

PEACE ON THE MORN.
The clang of picks was stilled, the grunt of the steam roller was silent and the shouts of teamsters to their horses was unheard, while citizens of Gilmour, Homewood and Walton streets for one day in many weeks slept through to the warning of the alarm clock wondering why all the silence and on looking out the window, they blessed the rain that fell so silently, halting the paving operations.

SCHOOL PINS OUT
The students of P. C. I. are now sporting school pins and rings which were recently procured by the Literary Society of the school. The design on these is diamond shaped finished in garnet and grey, the school colours.

CHIMNEY FIRE
Preparations for supper were rudely interrupted yesterday afternoon about 4.45 at 125 Haslett street when a chimney fire broke out. The firement arrived promptly and with chemicals quickly removed the danger.

OIL STREETS NEXT WEEK.
The middle of next week will see the dust menace fighting a dying battle. The Municipal Spraying and Oiling Company of Toronto will step into Peterborough with all their machinery, and will subdue the dusty streets with road oil.

City Engineer Parsons told The Examiner that general preparations are being made through the city for the oiling of streets. Holes in the roads are being filled and the streets in general are being put into shape for the final improvement.

It will only be a matter of a couple of days between each section of the city and the oiling company do the work fast, so there will not be much inconvenience to anyone as far as waiting until their streets are finished.

RECREATION GROUND.
The space beside the Collegiate where the rink was situated during the winter has been levelled off and prepared with a layer of topsoil. It will provide a smooth lawn for use as an outdoor basketball court or a tennis court.

HONORED BY PRINCIPAL.
The Cadets of P. C. I. were congratulated by their Principal, Mr. Renner, on Monday morning on the high standard of their work at the inspection on Friday. He said that the Cadets had made the best showing he had witnessed in years.

SPEEDING MOTORISTS.
Residents of the Chemong Road are complaining of two things: first, those living on the paved part tell that they are afraid to venture on the highway after dark because of speeding and racing automobiles. Those on the unpaved part have been blessed with clouds of dust during the past few days as autos sped along the road, and of this they are not at all satisfied.

NARROW ESCAPE.
Although the gravel piles on the Chemong road are marked by lights now, one motorist had a narow escape from an accident similar to one that occurred last week when he attempted to get past the piles in front of an approaching car and was forced to climb on top of the mound of gravel. As he was proceeding slowly no damage resulted from the ascent. Most motorists know of these piles of gravel and a little care should be exercised when approaching them.

TALKIES TRIED OUT.
Patrons at the Capitol theatre last night were given a taste of what the talking pictures will be like. Music from the various musical shows was played over the sound system alone, which is used in place of orchestral overtures, and the march out. An extra row of seats is being installed in the theatre to accommodate the expected crowds that will greet the "Talkie" in Peterborough.

BORN
COLLINS.—On Tuesday, June 4th, at Nicholls Hospital, Peterborough, to Mr. and Mrs. Fred H. Collins, a daughter.

PLACE SIGN ON HIGHWAY

Many Suggestions For Publicity Discussed By Chamber of Commerce Committees.

RAILWAY POSTERS.
The Publicity and Advertising committee of the Chamber of Commerce met last night, with J. A. McKone, chairman, H. E. Mounstephen and W. F. Butcher present. It was decided to place a large advertising sign on the highway just outside the city for the purpose of advertising the commercial, industrial and recreational potentialities of Peterborough. Other publicity methods were discussed such as pictorial note paper to be used by the Chamber of Commerce and a number of other business organizations of the city. Posters for display in railway and steamship ticket offices and stations and special tickets to be printed and distributed among the tourists welcoming them to Peterborough were among the suggestions.

800 ARE FEARED LOST ON VESSEL

Japanese Ship Total Loss—Crew and Passengers Believed Drowned.

380 WOMEN ON BOARD.
LONDON, June 5 (C.P.).—A message to Lloyd's from Yokohoma today said the Japanese steamer Ugo Maru was reported a total loss from fire with the crew and passengers believed drowned. The fire began May 31 off the coast of Kamchatka.

Other Japanese dispatches said the ship was afire with 700 Russian passengers, 380 of them women and 43 Japanese crew members.

TOKYO, June 5 (C.P.).—The Ugo Maru, reported lost, left Vladivostok on May 23 en route to the fishing banks on the each coast of Kamshatka. On May 28th benzine in the hold was ignited, the blaze finally getting beyond the control of the crew.

PROGRESS REPORTED IN BIG CAMPAIGN

Between Thirteen and Fourteen Thousand Subscribed For St. Michael's College.

The three million dollar drive in connection with St. Michael's College of the University of Toronto of which Peterborough's share is $50,000 is well under way. From incomplete reports to date between $13,000 and $14,000 have been received in the city.

The people of Peterborough, as a whole, are manifesting a responsive spirit, according to those in charge of the work. The workers have been canvassing for two days, Monday and Tuesday, and it is expected that they will have the canvas completed by Friday night.

The eleven captains of the canvassers in the parishes will meet for luncheon at the Empress Hotel tomorrow, at 12 o'clock noon, when more definite reports will be received.

Warsaw

Quite recently a copy of a questionnaire regarding maternal care, which was compiled by the National Council of Women of Canada has been received by most institute branches.

Dr Margaret Patterson is one of a committee of five. Mr. Putnam is another, who were appointed by the Provincial Board to look over the questionnaire. While maternity is a natural pathological condition, especial care should be given. Many Institutes have studied the subject. Dr. Munro is to give a talk on it in the Institute room, Warsaw, on Thursday afternoon, September 12, at 2.30 o'clock.

This talk is for every woman in the community. The doctor is intensely interested in the subject and offered some months ago to give the talk.

The questionnaire is sent with the request that it be discussed at an Institute meeting. It is known that no doctor has a better record for his maternal work in the twenty-two years he has been here, than has Dr. Munro, and yet he is handicapped often, because of little or no pre-natal care and little or no real care after. Public opinion needs to be roused to the great responsibility of caring for the mother, not only that she may live, but that she may live and be well. Other conditions being equal, the woman who has borne children should be the better. She has done the normal thing. The babe, too, should have a chance, which it very often does not.

King George Able To Sit Up In Bed During Part Of Day

WINDSOR, Eng., June 5 (Canadian Press).—King George's condition has improved sufficiently so that he is now able to be up during a portion of the day.

The official bulletin issued at the Castle this morning was as follows:

"His Majesty the King had a good night. His general health is satisfactory, and His Majesty is now able to be up during a portion of the day. The local trouble is making slow progress."

In Police Court

As a result of the close check-up on speeders that Chief Newhall has instigated during the past two weeks, there were four fines levied in Police Court this morning for speeding. It was automobile day, and every case was some infraction of the traffic laws.

James King, Harry Murduff, Richard Evans and Herbert Tranter were each fined $5 and costs of $3.25 for speeding. In this connection Chief Newhall stated that it had become the habit of some motorists to speed across intersections in coming into the city on the main thoroughfares, Water and Reid Streets. All these speeders were caught on these main arteries of travel, and the Chief stated that it was only the beginning of the campaign.

George Doukas was fined $5 and $3.25 costs for driving without a chauffeur's license.

George Sturmer again failed to appear when his name was called, and his case was adjourned until Wednesday, June 12. Special courier brought the news that the man was in the hospital.

Ed. Burke of Labatt's Brewery Company writes to the Police Department requesting the address of Ed. Greer. Anyone having news of Mr. Greer is requested to notify the police.

(Continued from page 1)

This addition to the Marsh fleet was a four cylinder 32 h.p. Johnson outboard motor which was ordered immediately after the recent victory of "Miss Cadillac" in the Toronto sea-flea races. That boat, as already published, was made by J. B. O'Dette and Son, and was powered by a Johnson motor, a complete Peterborough job.

IN MEMORIAM.
PILLING—In fond and loving memory of Mrs. Ted Pilling, who departed this life June 5, 1921:
Eight years have passed and gone,
Since one we loved so well
Was taken from our home on earth
With Jesus Christ to dwell.
The flowers we place upon her grave
May wither and decay,
But the love for her who sleeps beneath
Will never fade away.
—Inserted by her husband and family.

CHANGE IN WIND SAVES PART OF MINING VILLAGE

Reports From Cranberry Portage Say Flames Held in Check.

DANGER STILL THREATENED.

In Few Minutes Half Hundred Buildings Were Destroyed On Tuesday.

THE PAS, Manitoba, June 6. (C.P.)—A sudden lull in the wind, combined with the battle of men against the roaring flames of a forest fire, has saved Cranberry Portage, the picturesque mining town, 50 miles north of The Pas, from complete destruction.

At an early hour this morning, reports from Cranberry said the flames were being held in check after an heroic struggle on the part of miners and prospectors, under the direction of forest rangers, but danger still threatened. The fire still was raging, and if a stiff wind again comes up from the northeast the remaining buildings in the town would be endangered.

Swept new Townsite.

Tuesday, the fire, fanned into a raging inferno by a terrific Northeast wind, swept into the new townsite of Cranberry, and within a few minutes had destroyed half a hundred business buildings and dwellings, and rendered 200 people homeless. All day Wednesday it threatened the old site and only the fortunate lull in the wind, and the mighty battle of the begrimmed fighters kept the flames behind the fire guards hastily constructed.

Another Manitoba frontier town, mile 83, on the Hudson Bay Railway, suffered from fire devastation Wednesday, but forest flames were not responsible for this calamity. Fire starting in a private residence swept to adjoining structures, and before it was brought under, fifteen dwellings and stores had been destroyed.

Under Control

WINNIPEG Man., June 6.—(By the Canadian Press).—Forest fires which threatened destruction of summer residences on Vermilion and Harbor Islands a short distance north of Minaki, Ontario, have been brought under control, according to a report received here late last night.

Make List Public On Friday

First Cabinet Meeting Has Been Called For Monday.

CHEERED BY CROWDS.

Rumor Says Rt. Hon. J. H. Thomas Will Look After Unemployment.

LONDON, June 6. (C.P. Cable.) — The new Labor Cabinet has already been completed, it is understood, and the list of new ministers will be made public to-morrow night. The first meeting of the new cabinet is to be held on Monday and immediately after that the new premier, Right Hon. J. Ramsay MacDonald, will go to Scotland for a short holiday.

Mr. MacDonald, accompanied by two of his colleagues, Right Hon. Philip Snowden, and Right Hon. J. H. Thomas visited the Prime Minister's official residence, No. 10 Downing St., to-day, but Premier Baldwin was not present at the time. It is understood that Mr. MacDonald is not anxious to take up his quarters there at once, but wishes to allow his predecessor ample time to secure other accommodation in London. Mr. and Mrs. Baldwin have no London home, and are faced with the prospect of securing new living quarters or remaining at their country home in Worcester.

Leaders Cheered.

As Mr. Snowden was leaving No. 10 he was cheered by a crowd, including many people from the provinces, and a number of United States tourists. His reception was very mild, however, compared to that accorded Mr. MacDonald and Mr. Thomas. Cries of "Good Luck," "Good Old Ramsay," and "Labor for Ever," greeted them, followed by hearty cheering. Both smiled and waved to the crowd.

Rumors that Right Hon. J. H. Thomas, who was at first mentioned in connection with the Foreign Office, may take over the task of solving the unemployment problem which Mr. MacDonald intends to assign to a member of his Cabinet, are gaining force. Mr. Thomas, it was stated today, has a plan for dealing with un-

(Turn to Page 19, please)

ONE JURY CASE SET DOWN FOR COUNTY COURT

June Sessions of the Peace Open Before Judge Huycke On Tuesday.

SLANDER ACTION.

Several Non-Jury Cases Are Set Down On the Docket.

The June sessions of the County Court, with Judge Huycke presiding, open next Tuesday afternoon at one o'clock. The docket lists only one action for trial by jury in which T. A. Coughlin, of Hastings, asks for $500 damages, and costs, for alleged slander by Mrs. Elizabeth Callaghan, of Percy Township. The plaintiff is a druggist and telegraph agent.

Mr. Coughlin alleges that prior to May 4, 1928, he transmitted a telegram for the defendant, and on that day before Magistrate Floyd, of Cobourg, and others, Mrs. Callaghan pointed to the plaintiff and said: "This man is a forger, and I can prove it. He forged a telegram I gave him to send." It is also alleged that the defendant uttered these words in other places in Hastings in the presence of Thomas Lynch, Frank Lynch, and in A. J. McKenty's hardware store. Mr. Coughlin states that by reason of these utterances he had been injured in his credit and reputation. He claims $500 damages, and costs of the action.

Mr. Coughlin's solicitors are Gordon & Elliott, and Mrs. Callaghan's are Peck, Kerr & McElderry.

The Non-Jury List.

Ernest P. Jackson has entered suit for $250, and interest, from March 7, 1928, against A. Olin, alleging that a building lot on Aylmer Street which Jackson bought from Olin was not correctly described in the deed of conveyance. The statement of claim alleges that the deed describes an adjoining lot. The price of the property was $250, and Jackson states that the defendant subsequently cashed the cheque for that sum and received the money.

Mr. Olin sets out that he entered into an informal agreement with H. J. McCannan, real estate agent, to buy the lot, but later decided to sell it instead of building on it. He did not receive a conveyance, and had only executed an informal agreement of purchase. Olin declares that he never pointed out any lot, but stated that there was a parcel of land which contained a lot, the boundaries of which he did not know.

The plaintiff, knowing that the lands were unfenced, had a duty imposed on him of having them surveyed, but neglected to do so, the statement of defence declares.

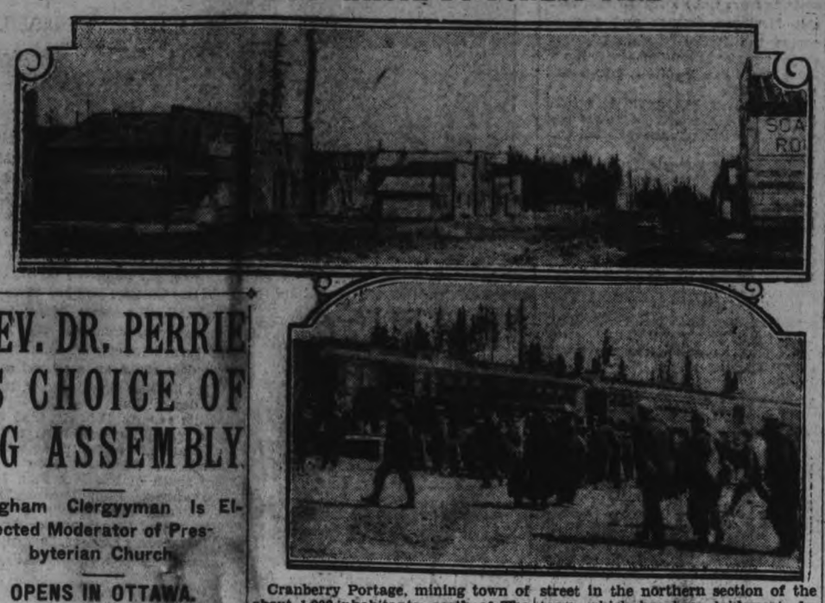
The defendant denies that Jackson delivered to him the purchase price, but alleges that the defendant paid it to H. J. McCannan, agent for the vendor, one Wyatt of East City . Hall,. Hall & Stevenson for the plaintiff, and Gordon & Elliott for the defendant.

Claim Against City.

Mrs. Ida Cranfield is claiming $500

(Turn to Page 14, Please)

LAID WASTE BY FOREST FIRE



Cranberry Portage, mining town of about 1,000 inhabitants, north of The Pas in Northern Manitoba, was threatened with extinction by a forest fire which swept the northern part of the town. Layout shows, above, Portage Avenue, the main street in the northern section of the town, which has been laid waste by the forest fire. Below is shown the crowds waiting to board the train for the new mining town, which has been a rendezvous for prospectors since the mining boom.

REV. DR. PERRIE IS CHOICE OF BIG ASSEMBLY

Wingham Clergyyman Is Elected Moderator of Presbyterian Church.

OPENS IN OTTAWA.

Dr. Buchanan's Address is Read By Dr. Drummond of Hamilton.

OTTAWA, June 6.—Commissioners of the "Auld Kirk" gathered at the Fifty-fifth General Assembly of the Presbyterian Church in Canada, in St. Andrew's Church here last night, elected Rev. Dr. David Perrie of Wingham as their Moderator. Their choice, unanimous, is a Canadian who has served the Church in Canada for more than forty years, and thirty-five of those years in one charge.

The Supreme Court of Presbyterianism made their choice from two men nominated, Dr. Perrie and Rev. Dr. Robert Johnston of Knox Church, Ottawa. Their preference was indicated by a standing vote, and Dr. Perrie had a very comfortable majority. When the result was made known, Rev. Dr. George E. Ross and Dr. Murray MacLaren, M.P., of St. John, N.B., who proposed Dr. Johnston, appealed to the Assembly to make the choice of Dr. Perrie unanimous.

Rev. Dr. Robert Johnston of St. Catharines and Rev. James Wilson of Brampton proposed and seconded Dr. Perrie's nomination.

In addition to the 250-odd Commissioners to the Assembly who filled the front sections of the church, the auditorium was crowded to the doors by the Presbyterians of the Capital, there to follow the proceedings of the first assembly held in their city for fifty years.

Dr. Buchanan's Address Read.

In the absence of Rev. Dr. John Buchanan, retiring Moderator, who on the eve of the opening of the Assembly met with a serious accident in Toronto, Rev. Dr. D. G. McQueen of Edmonton, a former Moderator, constituted the Assembly and presided during the election of the new Moderator. The address prepared by Dr. Buchanan was read by Rev. Dr. D. R. Drummond of Hamilton. The sermon was an inspirational appeal for a forward-looking Church whose youth had been renewed by its many trials and afflictions.

Taking the text, "Except a corn of wheat fall into the ground and die, it abideth alone, but if it fall into the ground and die it bringeth forth fruit," Dr. Buchanan's address declared that while the disruption of the Church at the time of Union might have seemed for a time death, it was but the sowing of good seed. Despite this sad and hopeless outlook, the address read, great things were accomplished. Trials and afflictions, he said, had given renewed youth to be cherished. "Even the minority groups alone would have made a great Church, for they have been tried with twentieth-century legal and refined afflictions."

DRIVES CAR INTO TRAIN

BROCKVILLE, Ont., June 6.—E. J. McDermott, Ogdensburg, N.Y., was killed last night when he drove his car into the middle of a moving Canadian National Railway freight train at Rooney's Crossing, east of Prescott. McDermott's car was demolished and the heavy oil tank car with which it collided was derailed.

McDermott was returning from Ottawa and was hurrying to catch the ferry for Ogdensburg at Prescott.

PIONEER ALBERT AN OIL MAN PRESIDENT OF MANUFACTURERS

Canadian Association Closes Annual Conference in Halifax.

COMMITTEES CHOSEN.

President-elect Was Born in Ontario In 1884—Successful Career.

HALIFAX, N.S., June 6 (C.P.).—"If these underlying factors become less favorable, it will be increasingly difficult for Canada to take a policy of lowering customs tariff rates and eliminating other safeguards, in the face of rising tariffs and restrictions throughout the world." This is the keynote of a tariff statement prepared by the sub-committee representative of the Canadian Manufacturers' Association, and unanimously approved at the association's business session to-day. The improvement in agricultural and industrial conditions during the past three years is attributed, in part at least, by the association to the following underlying factors, "general international recovery from the war, indirect influence of the prosperity of the United States, recent large crops, development of mining, and the cumulative effect of a deferred construction program."

HALIFAX, N.S., June 6.—(C.P.)—R. J. Hutchings, of Calgay, vice-president of the Great West Saddlery Company, Limited, and pioneer Albertan oil man, was elected president of the Canadian Manufacturers Association at the concluding business session of the Association this morning.

Mr. Hutchings will have associated with him as first vice-president, Elmer Davis, of Kingston, Ontario; second vice-president, W. H. Miner, of Granby, Quebec, and treasurer, T. F. Honypenny, of Toronto.

Chairmen of committees chosen today are: Tariff Committee, J. O. Thorn, Winnipeg. Transportation Committee, C. A. Waterous, Brantford. Insurance Committee, H. M. Jauquays, Montreal. Membership Committee, F. R. Whittall, Montreal. Legislation Committee, W. S. Morden, Toronto. Industrial Relations Committee, L. L. Anthes, Toronto. Education Committee, Henry Rolland, Montreal. Commercial Intelligence Committee, W. R. Dryma, Hamilton. Publishing Committee, W. C. Coulter, Toronto.

An Executive Council of eighty-two completed the elected membership of the Directing Board.

Robert John Hutchings, president elect of the Canadian Manufacturers' Association, came to Alberta as a

Young To Train At Fenelon Falls

LINDSAY, June 6 (Special to The Examiner).—George Young, the famous Toronto swimmer, arrived in town yesterday with his retinue, en route for Fenelon Falls, where Young will go into training in the waters of Cameron Lake. The party lunched at the Elsmure Hotel, their presence in town attracting a large crowd. Fenelon Falls promises to be very much on the map as a result of Young's training in the village.

BRITISH STAND CAUSES BIG STIR

Sir Esme Howard Will Not Ask For Any More Importation Permits.

NOT UNPRECEDENTED.

WASHINGTON, D.C., June 6. — (Canadian Press)—Official and diplomatic Washington was stirred last night over reports that Sir Esme Howard, British Ambassador and Dean of the Diplomatic Corps, has decided to make his embassy dry territory by not importing any more liquors.

Attaches of the embassy refused to confirm the reports pending instruction from the ambassador, but said they had understood Sir Esme contemplated voluntarily relinquishing the privilege of importing diplomatically immune liquors.

They further explained such a step could be considered "a logical one for the ambassador to take" in view of his recent statement in New York that he would be willing to forego the privilege if requested to do so by the American Government. The embassador's statement followed a letter written to James T. Carter of Lynchburg, Virginia, by Michael Wright, Sir Esme's private secretary, in which similar sentiments were expressed.

It was reported that Sir Esme would carry out his desire for a dry embassy by not requesting any more importation permits of the state department. Such action by Sir Esme would not be unprecedented, since it is well known in diplomatic circles that the Viscount D'Alte, the Minister of Portugal, and the veteran of the corps, does not import liquors having voluntarily relinquired the privilege several years ago.

PLAYWRIGHT IS ILL.

LONDON, June 6.—The London Daily Express to-day said Eugene O'Neill, American playwright, was seriously ill with tuberculosis in Switzerland, and therefore was unable to come to London for the premiere last night of his play, "Welded."

There were reports last December Eugene O'Neil was suffering in Shanghai from a recurrence of a lung ailment, but the reports were denied by Mr. O'Neill's lawyer, Harry Weinberger, of 70 West 40 Street, New York.

CONGRESSMAN FEARS TRADE WILL BE HURT

Representative Douglas Urges Moderation in New Tariff Rates.

REFERS TO PROTESTS.

May Lead To Delay in Development of St. Lawrence Waterway Plan.

WASHINGTON, D. C., June 6. — C. P. Staff Correspondent.)) — Warning as to the effects of the tariff measure on trade with other countries and especially with Canada is contained in a speech in the House, by Representative Douglas of Arizona, Democrat, who urged moderation in the rates.

Mr. Douglas' speech appeared in the Record to-day under the privilege of leave to print. He referred to the many protests from other countries which are reaching the United States Government against the tariff bill and said these were coming from the "best customers" of the United States.

Canada Protests.

"On many commodities there have been imposed import duties so high that the greatest purchaser of our surpluses is almost prohibited from purchasing these surpluses by exchange of commodities. Consequently Canada has protested vigorously against the proposed legislation and has even gone to the extent of implying that unless she is treated more fairly she will neither engage in nor permit the development of the St. Lawrence Waterway.

"Is it not possible that the rates thus imposed upon Canadian exports may not only reduce the amount of our surpluses which will be purchased by Canada but also lead to delay in one of our great potential channels of water transportation.

BIG PLANE DAMAGED

KEYPORT, N.J., June 6 (C.P.).—The Burnelli monoplane, which was to have been used in a ship-to-shore mail pick-up from the deck of the Leviathan at sea to-morrow, was damaged in a ground test to-day. The plane struck an obstruction while taxiing on the field. Its right wing was damaged.

George R. Pond, the pilot, escaped without injury.

Local associates of P. W. Chapman, owner of the plane, said the damage was not great, but repairs could not be completed in time for the experiment to-morrow.

Explosions Occur In Crater

Panic-stricken Residents Pray To Be Delivered From the Wrath of Vesuvius.

TOWN LAID WASTE.

As Walls Crumple House Disappears in River of Liquid Rock.

NAPLES, Italy, June 6 (Canadian Press). — Explosive activity in the eruptive cone of Mount Vesuvius increased today with tremendous barrages of rocks and ashes bombarding the walls of the great crater. There was a slight subsiding in the flow of lava, however.

An official bulletin from the Vesuvius Observatory said further danger probably would be avoided, yet it concluded:

"But the life of volcanoes is so mysterious that one cannot judge the outcome from the appearances of the moment."

Villagers around the southern and eastern base of the volcano were panic stricken as they deserted their homes, the ruins of Pompeii, destroyed 19 [illegible] before, always mute testimony of what Vesuvius could do.

Prayed for Deliverance.

Trudging behind their two-wheeled carts which carried household effects, and all their worldly possessions, they prayed that they might be delivered from the "wrath of Vesuvius," and sang hymns of trust and faith in Providence.

The erstwhile busy little village of Terzigno appeared becoming encircled with a belt of lava from a flow which first started toward Campitello woods but somehow changed its course and entered the village itself.

The lava oozed around the dwellings, smoke poured from the windows and the walls bulged like the skin of a baked potato. As the walls crumbled the houses disappeared in the river of fiery liquid rock. The speed of the flow was asserted by observers to be as times as high as 1500 feet an hour.

Because of the danger from falling rocks ,the authorities as much as possible, have prevented sightseers from

(Turn to Page 14, Please)

TWO WORKMEN ARE KILLED IN BIG GAS WELL EXPLOSIONS

Eight Employees Are Injured When Buffalo Well Catches Fire.

FIGHTING FLAMES.

Thousands of Dollars Worth of Gas Are Being Consumed Hourly.

BUFFALO, N.Y., June 6 (Canadian Press).—Workmen were battling to-day to subdue a 75-foot pillar of flame roaring from a gas well which exploded last night on the farm near East Auroa, killing two men and injuring eight others.

The employees of the Iroquois Gas Corporation, owners of the well, today were preparing to play steam into the blazing pit, and it was feared the flames, fed by 15,000,000 cubic feet of gas pressure, according to geologists' estimates, may have to be checked by wrecking the casing of the well by nitro-glycerine.

Two emergency boilers were being set up, from which workmen will try to force a blanket of steam against the blazing column.

Struck Gas at 2,500 Feet.

Drillers struck gas yesterday at 2600 feet, and it was while setting an inside casing, preparatory to tapping off the well, that a spark, either from clashing casing metal, or the friction of pressure, touched off seepage gas.

Andrew Bell, 56, of Hamburg, and Frank Sckert, 36, of Ebenezer, were killed in the explosion which followed. Eight other employees, from nearby towns, were injured.

The explosion wrecked the drill house, hurled flaming embers over a wide area, and sent a column of flame 100 feet into the air, which was seen far over the countryside.

Thousands of dollars worth of gas were being consumed hourly, it was estimated, and it is believed at least three days will elapse before the fire is extinguished.

Walnut trees over 150 feet tall are not uncommon in forests along the basins of the Ohio and Wabash rivers.

ELECTED MODERATOR.

Rev. David Perrie, D.D., of Wingham, who was elected Moderator of the Presbyterian Church in Canada last night at the opening meeting of the General Assembly in Ottawa.

U.S. HORSE WINS CORONATION CUP

Reigh Count Was Winner of Last Year's Kentucky Derby.

EPSOM, England, June 6 (Canadian Press). — Reigh Count, United States winner of last year's Kentucky Derby, finally won a race to-day in his invasion of England, romping off with the Coronation Cup.

With J. Childs astride the United States colt instead of Chick Land, who has had the mount since he won the 1928 Kentucky Derby, Reigh Count led Athford to the finish wire by a head. A length separated the second and third horses. Reigh Count was quoted at 10 to 1, Athford 9 to 4, and Plantago 5 to 1.

TORONTO DAY BEING PLANNED

Delegation Will Hold Big Parade With Massed Band.

SERVICE AT MEMORIAL.

Toronto Old Boys and Girls will arrive in Peterborough July 2nd by motor cavalcade at 11 a. m. headed by a band. The parade will be along Charlotte Street to George Street, up George street to Central Park, where a fifteen minute ceremony will be held at the War Memorial, which will include an appropriate musical setting including the playing of the Last Post and Reveille by the Toronto band, the laying of a wreath by the Chairman of the Toronto Committee, Frank O'Connor, then three musical offerings. This ceremony will take place at 12 o'clock noon.

The Toronto delegation are tendering a complimentary luncheon at the Collegiate Institute at 12:30 p. m. to the Mayor of Peterborough, City Council, County officers, Chairman of Board of Education, Parliamentary representatives and heads of the Old Home Week Committees.

In the afternoon there will be a program at the Exhibition Grounds, where there will also be addresses by prominent Peterborough Old Boys from Toronto. In the evening the Toronto delegation are putting on a band concert and fireworks in front of the Grand Stand. The bands will be left at Peterborough's disposal for Wednesday.

Prospective Bride And Groom Killed When Freight Hits Auto Near Cornwall

OTTAWA, Ont., June 6 (Canadian Press). — When death exacted a toll of four lives in the crossing accident at Monklands Crossing, near Cornwall, Ont., on Tuesday night, it claimed as its victims a prospective bride and groom, it was disclosed here yesterday.

Wilfred Therrien and 18-year-old Rose Giroux, whose bodies were mangled when their car was struck by a west-bound locomotive were to have been married within a month. The girl's father and elder sister were also killed.

Rev. Brother Gonzaque, of the teaching staff of St. Anne's Separate School, disclosed the pathetic details as he arranged for Therrien's burial here.

SIR JOHN GIBSON LAID TO REST WITH FULL MILITARY HONORS

Thousands of Citizens View Funeral Cortege in Hamilton.

PRIVATE SERVICE HELD.

Guard of Honor Watched Over Bier of Late Leader.

HAMILTON, Ont., June 6 (C.P.)—With full military honors, the funeral was held to-day of Major-General the Honorable Sir John M. Gibson, K.C.M.G., M.A., LL.B., K.C., ex-Lieut.-Governor of Ontario, while thousands of citizens lined the streets to pay final tribute to the city's most distinguished son.

After a private service in the home, Ravenscliffe, conducted by Rev. William Barclay, the casket was conveyed at 12.30 o'clock to Central Presbyterian Church, where the body lay in state until the public service commenced two hours later.

With arms reversed and in full dress uniform, a guard of honor composed of four members of the Royal Hamilton Light Infantry, of which Sir John was Honorary Lieut.-Colonel, stood around the casket. One sergeant-major and eight sergeants comprised the guard of honor, four standing on duty, and then being relieved.

Hundreds of persons visited the church to look for the last time upon the venerable features of the deceased.

WORKMAN PASSES AWAY

ST. CATHARINES, Ont., June 6.—Joseph Stall, 44, of Thoroid, died at the General Hospital this afternoon from injuries received Tuesday morning when he fell 30 feet from a steel gate at Lock 2 Welland Ship Canal, on which he was working.

CAR STRUCK BY TRAIN

LONDON, Ont., June 6.—Elmer McIntyre, storekeeper at Appin, and a well known Appin baseball player, was fatally injured when his car rolled 300 yards down the tracks by a Canadian Pacific Railway express at the North Appin crossing to-day. He was 36 years of age and is survived by his widow and one son.

Serious Frost Reported In Toronto District

TORONTO, Ont., June 6 (Canadian Press).—Vegetable garden centres near Toronto reported serious damage last night from frost. Temperatures as low as 28 were unofficially recorded. In the neighborhood of Islington some acres of tomato and bean plants were levelled, and the damage will run into thousands of dollars, according to the growers' estimates. Low-lying plants and seedlings seem to have suffered most. Fruit trees and vines in this district escaped loss. Some flowers were damaged.

The lowest temperature recorded by the Meteorological Observatory in Toronto last night was 35 degrees.

The Weather

This morning (and be it noted this is the 6th of June) the temperature was down to 35 degrees. Although I did not actually see any frost there was evidence that it had been around. There will probably be reports of damage done in some sections. Those who have read those interesting books of Mrs. Moodie and her sister, Mrs. Traill, dealing with pioneer life in this section from Rice Lake to Douro township, cannot help but have noticed the frequent references to damage done by June frosts. At times the gardens of the settlers were completely blackened by frost, but as the country became more cleared these frosts became less frequent. I have no doubt but that there has been a change of climatic conditions in this section during the last 100 years—and certainly as to the prevalence and severity of "June frosts." This June has been unusually cool, but warmer and more seasonable conditions now prevail in the western states and Western Canada, and our turn will come shortly. Highest temperature yesterday, 54 degrees. Rain .15.—W.P.

U.S. to Stage No Man-Hunt

Status To Change July 1

Canadians in United States Five Years May Secure Permit.

DEPARTMENT PLEASED.

United States Will Not Stage Man Hunt On Canadians.

WASHINGTON, D.C. June 6. — (By Kenneth S. Clark, Canadian Press Staff Correspondent).—There will be no man hunt for Canadians illegally in the United States after July 1.

Assistant Secretary of Labor, W., Husband, told the Canadian Press yesterday that the status of Canadians in the United States would remain after that date as it is expected that by effectuation of an amendment to the naturalization act, those who entered the country prior to 1924 will have an opportunity to legally establish their residence.

The amendment provides that persons who entered the country five or more years ago without registration may by affidavit or otherwise prove their entrance. Such proof would permit them to freely re-enter the United States after absence from the country.

Benefit to Immigrant

The secretary said that the immigration authorities whose duties have been increased and complicated from time to time by new legislation were pleased at being able to put into effect a law which would be of benefit to the immigrant.

He made it clear however that a reported exodus of Canadians from various points in the United States to Canada for the purpose of obtaining proper papers for entry was far from displeasing to the immigration department.

The department has now for some time been enforcing the amendment to the Deportation Act. his amendment makes deportation a bar from the United States for life. It makes re-entrance after deportation a misdemeanor providing for a jail sentence or fine and second re-entrance a felony with a jail sentence of six years as a possible penalty. Those illegally resident in the United States are subject to deportation.

TO RESIDE IN TORONTO.

OTTAWA, June 6.— Captain John T. Randall, central figure in the I'm Alone incident, left Ottawa last night for Toronto, where he intends to make his home in the near future. He expects to be present with the mate and chief engineer at the hearing of the arbitration between Canada and the United States on the sinking of the ship.

Dreaded anaemia can be banished!

IN middle life, when vitality is not as great as it once was, and the blood stream is naturally thinned and devitalized, anaemia easily lays hold on the system. At first, just a tired feeling, it quickly results in bodily weakness that ordinary tonics cannot avail.

Dr. Williams' Pink Pills then become a wonderful aid. They supply the necessary oxygen to the blood, increase the blood count and renew waning vigor.

"I was seized with anaemia," writes Mrs. Charles Lambert of Port Hope, Ont., "and was in a very bad state. As a girl I had taken Dr. Williams' Pink Pills for a run-down condition and decided to take them once more... Again the result was marvellous. In a little while I was fully well again."

You cannot begin too early to check anaemia. Dr. Williams' Pink Pills are sold at your druggist's or by mail, postpaid, 50 cents, from The Dr. Williams Medicine Co., Brockville, Ont.

"A HOUSEHOLD NAME IN 54 COUNTRIES"

ADVERTISE IN THE EXAMINER

PONTIFF REBUKES MUSSOLINI AS RIFT DEVELOPS AT ROME

Primordial Claim of Church Control of Education Is Asserted.

WORSE THAN HERESY.

Recent Speech of Italian Premier Forms Basis of Letter From Pope.

VATICAN CITY, June 6.—(C.P.)—Pope Pius XI, in an open letter to Cardinal Gaspari, papal secretary of state, yesterday admitted he was frankly displeased with several statements in speeches made by Premier Mussolini on the Lateran treaties before the Italian chamber and senate.

The Duce's speeches in question were delivered May 13 in the chamber of deputies and May 25 in the senate and urged the ratification of the Lateran accords drawn up between the Italian government and the vatican.

His holiness replied to both these speeches in his letter to Cardinal Gasparri which was published last night in the Osservatore Romano, finding in them "worse than heretical expressions as to the very essence of Christianity and Catholicism.

Pontiff Deplores Riff.

The pontiff deplored the rift in the understanding between the Fascist government and the Holy See which had come after such laborious discussions. He etrmed it "an unwelcome and dolorous interruption."

He concluded, however, that peace between Italy and the Holy See would last because of his own faith and the fidelity and the good will of men, but above all because of his "greater faith in the help of God."

The pope reasserted the primordial claim of the Catholic church to supervise the education of youth and the church's pre-eminence in Italy as the state's religion.

He stoutly defended the church from any imputation of encroaching upon the legitimate sovereignty of the state, but insisted the church's right must be scrupulously respected.

Taking up statements by Premier Mussolini about liberty of conscience and full liberty for discussion, the

INSTRUCTORS SUING BOARD OF TRUSTEES

Des Moines University Professors Are Claiming $21,872.51 in Action.

DES MOINES, Iowa, June 6 (Canadian Press). — Twenty-nine ousted Des Moines University instructors yesterday filed suits against the school for alleged unpaid salaries aggregating $21,872.51. Dr. T. T. Shields, of Toronto, chairman of the Board of Trustees, who is in charge of the university since dismissal of its entire faculty, was named defendant.

Dr. Harry C. Wayman, deposed president, seeks to collect $2,646.66 the largest amount.

Dr. Shields has not indicated whether the board will take any action regarding diplomas which the faculty gave to sixty seniors on Monday.

PRISONER MAKES GOOD HIS ESCAPE

Radio Operator Held On Charge of Murder Is Found Missing.

SAN FRANCISCO, Calif., June 6.—(Canadian Press).—William Tallman, young radio operator, arrested Tuesday on board the steamship Admiral Benson on a charge of murder in connection with the slaying of Mrs. Virginia Patty at Los Angeles, was missing when the vessel docked here last night.

Investigation showed that the accused man had unscrewed the lock on his state-room door with a piece of iron torn from a radiator. Not knowing the prisoner had fled, Captain Martin Host of the ship placed a guard on duty outside the door.

Police believe Tallman either jumped overboard and swam ashore or walked down the gangplank before his disappearance was discovered.

The Weather

Meteorological Office, Toronto, Ont., June 6.—A shallow low area extends from Lake Superior eastward into Northern Quebec and another covers the Rocky Mountain states, while pressure is high on the Atlantic coast and from Manitoba northward to the Arctic.

The weather has been fair and warm in the Western Provinces and cool with scattered showers from Ontario eastward.

Forecasts.

Lower Lake Region — Moderate winds; fair and a little warmer today; showers to-night and early on Friday.

Georgian Bay—Moderate winds; unsettled with showers. Friday — North-westerly winds; mostly fair and cool.

Northern Ontario — Cloudy with scattered showers. Friday—Northerly winds; mostly fair and cool.

Lake Superior—Moderate winds; partly cloudy, with a few scattered showers. Friday—Northerly winds; partly cloudy and rather cool.

Western Provinces—Fair and warm to-day and Friday.

ROBBERS GAG MOTOR DEALER

Colborne Garageman is Robbed of $3,800 By Two Men.

POLICE START SEARCH.

COLBORNE, June 6.—W. G. Covert, local motor car dealer and garage owner, was found by his wife early Tuesday morning lying on the floor of the garage with a cloth over his face. He said that two men had turned out the lights, gagged him and left with all the cash in the garage —about $3,800.

Dr. Pembroke and Provincial Constables Storey and Noble were called to the garage immediately, and after the doctor had made his examination of Covert the officers started their investigation. Covert, until five or six months ago, had been on a farm.

Representatives of a finance corporation in Toronto and two motor car dealers were here yesterday in consultation with Covert.

Provincial Constable Storey refused last evening to comment upon the case, although he said there would be developments within the next day or two.

TO PARADISE IN FOUR HOURS

Did you ever realize that a veritable outdoor paradise can be reached in the same time it would take a person to walk across the city? Four hours comfortable travelling and one is transported from the dust and heat of the city to the cool woods and sparkling waters of the Muskoka Lakes.

There are no dull hours on a Muskoka vacation. Bathing in the soft waters of the lakes, canoeing, sailing, motor boating, golfing tennis, fishing and steamboat excursions provide something new for each day. One may indulge in all the festivities of gay social life or enjoy the restful calm of hidden bays and coves bordered by sweet scented pine woods.

Don't miss the opportunity of visiting one of the most highly developed resort districts in Ontario with its bracing summer climate and wealth of opportunity for recreation.

Ask any Canadian Pacific Agent for the well illustrated and descriptive booklet on the Muskoka Lakes. it will be of infinite help in choosing the place to spend your vacation. Mr. J. Skinner C.P.A., Peterborough.

MINISTERS HOLD CONFERENCE.

WASHINGTON, June 6. — Progress looking toward settlement of the I'm Alone case has been made, Secretary of State Stimson announced yesterday after a conference with Hon. Vincent Massey, Canadian Minister. Details of the matter of arbitration were discussed, the secretary said.

ELECTED TO PARLIAMENT

Susan Lawrence, woman Labor candidate, was elected to the House of Commons, defeating both her Conservative and her Liberal opponent in the British elections.

PARTY CONTROL OF LIQUOR LAW SINCLAIR SAYS

Political Appointees Have Administration of Action Liberal Leader Says.

PREMIER CRITICISED.

Promises if Party Returned to Power Rigid Enforcement of Act.

KENORA, Ont., Junen 6.—Charging that the administration of the Liquor Control Act was strictly partisan, and that party men were being regularly appointed to positions with the board, not free to make its own appointments or have full control of the staff, William E. N. Sinclair, Leader of the Provincial Liberal Party, made a strong attack on the present Government here last night, speaking to a meeting of Liberal members and supporters in the Council Chambers.

Mr. Sinclair and his party, which includes Dr. George A. McQuibban, Hon. Nelson Parliament, A. A. Colquhoun and Robert F. Miller, arrived here yesterday afternoon and were met by prominent Liberals. The party went for an enjoyable trip on the Lake of the Woods before returning for the meeting.

"Political Interference."

"There has been and is political interference," stated the Liberal Leader, "and political appointees have the administration of the act. The amendments are not made in the interests of temperance, and the sources of this revenue are concealed.'" The present government does not give full enforcement of the act, and there must be a government which will allow its goverfiment and board full scope. The Liberals will give this kind of government, said the speaker emphatically.

Premier Criticized

Mr. Sinclair also stated that he always felt Premier Ferguson had made a mistake in taking the portfolio of Education. He felt that there was enough for one man in the office of Prime Minister and that in tying the two together, there was no opportunity to effect any plan for general education and advantage of the pupils of the Province.

Dr. McQuibban made an attack on the financial policy of the present Government, stating that the only taxation reductions had been on license markers, race-courses and entertainment taxes. The tax had been increased by $82,000,000 and only a small reduction of $3,000,000 had been made, with a deficit of $3,000,000 pending. The present Government went down to the Hydro and came back with $2,100,000. Where this money came from, the Liberal Party had been unable to find out.

Mr. Miller stated that the people of this section had not been looked after by the Government.

All supporters of the present Government are under an iron rule, he said, and the Prime Minister liked to do all the work. The Government had increased taxation and the Provincial debt was now almost 400,000-000.

A. A. Colquhoun (South Perth) stated that the need was for men to put the screws on expenditures and reduce taxation. They were now paying $9,000,000 interest on money borrowed to pay interest on capital account, a deplorable state of affairs.

Hon. Nelson Parliament paid a compliment to Hon. Peter Heenan, who, he stated, was now serving the people of the Dominion as well as he was serving the people of the Province.

ELECTED GOVERNOR.

LONDON, Ont., June 6.—(Canadian Press).—Joseph Sheedy, North Bay, was yesterday elected Ontario-Quebec District Governor of Lions Clubs at the annual convention held here. North Bay, in preference to Windsor, was chosen as the 1930 convention city and Jack Connell, Toronto, retiring district governor nominated unanimously for internationl president.

FOREST FIRES CONTINUE OVER WIDE DISTRICT

Fate of Northern Manitoba Settlement Is Hanging in the Balance.

TOWNS ARE MENACED.

Flames Are Sweeping Towards the Cottages At Minaki.

THE PAS, Man., June 6 (C.P.).—With the fate of one Northern Manitoba settlement hanging in the balance, while a wind-fanned forest fire was steadily eating its way back to the part of the town as yet undestroyed by the ravaging flames that have wrought hundreds of thousands of dollars damage and left more than two hundred persons, many women and children, homeless, the Northland turned its eyes at least momentarily last night on a second mining village, likewise threatened with complete destruction.

While reports indicate that Cranberry portage, quaint little town on the shores of Lake Athapapaskow, is doomed, 16 homes at Mile 83, two miles south of the Flin Flon Mines, have already been burned to the ground and the remainder of the settlement is threatened by fire.

At Cranberry Portage, 50 structures, including a score of dwellings, two hotels, the station, several stores and the hospital, in the first onslaught of the forest flames Tuesday, were levelled to the earth.

240 Acres Burned

WINNIPEG, June 6 (C.P.).—Forest fires are raging on Vermilion and Harbor Islands, eight miles north of Minaki, Ont., and are reported moving in the direction of the summer resort at Minaki, threatening the numerous cottages with destruction.

More than 240 acres of Harbor Island had been devastated by the fires despite the efforts of forestry department men and settlers to check the flames.

Fires in Saskatchewan

PRINCE ALBERT, Sask., June 6 (C.P.).—Forest fires which have been well under control for the past two weeks have broke nout again in Pasqua forestry reserve, according to reports reaching here from Ruby Lake and from Bannock, south of Greenwich, also came reports of conflagration. In the Torch River district, north of Nipawin, fires the once more broken out with fury, and reports of three fires in the Isle A La Crosse vicinity where brought in Tuesday by forestry air patrol.

Is Under Control

PORT ARTHUR, June 6 (C.P.).—after burning its way across a wide section of Stirling township, near Hurkett, destroying valuable sections of standing timber, as well as a considerabel quantity of cut wood, one of of the worst forest fires of this season in this district has finally been brought under control to-day. A report received at noon by the chief fire ranger, Max Rabbitts, said that rain had commenced to fall, bringing welcome relief to the force of rangers and settlers who have been fighting the blaze since Monday morning.

TEN YEAR TERM

TORONTO, Ont, June 6 (C.P.).—Clifford Hynes, colored, convicted of theft, attempt to enter a dwelling, and assault of police officers, was sentenced to ten years in Portsmouth Penitentiary here yesterday.

ELECTED PRESIDENT.

MONTREAL, Que., June 5.—(Canadian Press).—Rev. J. A. Miller, of St. John's United Church, Kemptville, Ont., was yesterday elected president of the Montreal and Ottawa conference of the United Church of Canada, which is now in session here.

Other officers were re-elected as follows:

Dr. William Munroe, Montreal, secretary; Walter Cushing, Montreal, treasurer; Rev. Albert Johnson, Montreal, statistical secretary.

ELEVEN WORKMEN KILLED

UDINE, Italy, June 6.—(Canadian Press).—Eleven workmen were killed and thirteen injured in an explosion yesterday at a warehouse filled with war stocks in the village of Aturiand near Spilimbergo. Of the thirteen injured six were in a serious condition. The cause of the explosion was not known.

THREE KILLED IN EXPLOSION.

EAST BRAINTREE, Mass., June 6.—(Canadian Press).—Three deaths resulted from an explosion and fire at the Ford River plant of the Cities Service Refining Company early yesterday. Frank Ford, an employee, died at the Quincy hospital this forenoon and the bodies of two unidentified men were found in the ruins.

TRADE AND COMMERCE ESTIMATE PASSED BY HOUSE OF COMMONS

Conservative Slogan Is "Buy From Countries Which Buy From Us."

TWO NEW COMMISSIONERS.

Debate in House Covers Wide Field, Including the U.S. Tariff.

OTTAWA, Ont., June 6 (Canadian Press). — "Buy from the countries which buy from us." That was the slogan which Conservative members of the House of Commons yesterday urged when the estimates of the Department of Trade and Commerce were under review. The debate covered a very wide field. It took in the United States tariff, the opportunities of trade with the countries of South America, and methods of advertising Canada abroad.

The comparative advantages of a foreign trade and a domestic trade brought on a discussion which eventually ended in an argument on the tariff. However, the estimates piloted by Hon. James Malcolm, Minister of Trade and Commerce, seemed fairly satisfactory to all parties and moved through with reasonabe facility.

The anhouncement by the Minister that two new trade commissioners were being located in the United States brought the first opposition. Conservative speakers insisted that if the new Tariff Act of the United States became law, Canadian trade commissioners could bring more results almost anywhere else than stationed in that country. The advantages of South American countries were urged as fruitful fields for trade expansion.

The new Orthophonic "True in Sound" Trade Mark Reg'd Victrola

No. 4-30 $95. (Less albums)

Gives you that wonderful Orthophonic-toned music—the natural tones. Thousands of pieces of music to choose from in the Victor record library. Famous artists any time you want them. Instruments from $95 up. All models stop Victor records automatically when through playing. Magic cabinets artistically designed in rich woods. Worth going miles to hear. Victor dealers everywhere. Convenient terms.

COURT HEARS ONE APPEAL

No Action Is Taken By Seymour Council On Dancing Pavilion Question.

REFUSE LICENSE.

CAMPBELLFORD, June 6 (Examiner Staff Correspondence). — Seymour Township councillors who sat as a Court of Revision and also as councillors in the afternoon had a full day of municipal business on Tuesday, June 4. The Court of Revision met in the morning. There was only one appeal. Mrs. George Wright as a reduction of $400 on her assessment. Her appeal was sustained and her assessment reduced on the south half of Lot 20, Concession 8 of the Township of Seymour. The assessment of Lot 26, Concession 8, was changed from George Dunk's name to that of Murray Meiklejohn.

Council Meets.

In the afternoon the Council met. All the members were present. Once again the Trent River Dancing Pavilion question came up and the decision of the Council was that no license to operate be granted as yet. Two petitions were placed in the hands of the Council, one for and one against the pavilion. The situation will be further probed before any definite action is taken.

Among the communications was a request from the Hydro to have a man appointed by the Council to assist in trimming the trees along the Hydro lines. The councillors agreed to attend to this work. Victor Irwin asked that work be done on the Seymour-Rawdon boundary road, and the Council agreed to spend three hundred dollars provided the Rawdon Township Council would do likewise. The school attendance report was received and filed. Mr. Cook's request for five loads of gravel was granted. A committee of five was appointed to measure the gravel on the Belmont boundary and report at the next meeting. The committee consists of the Reeve, Deputy-Reeve, Councillor Duncan, and the road superintendent. Once more the pavilion question came up and a motion carried to the effect that no license be granted till further notice. Another motion granting a license for Mondays, Wednesdays, and Fridays of each week was lost. The last item of business before passing the accounts was to instruct the clerk to make an appointment with Mr. Fellows, the Government engineer, for a visit to Seymour.

Accounts Passed.

T. J. Ketcheson, salary and Court of Revision, $234; E. L. McNachtan, counties treasurer, $26.25; W. W. Redden, $10.15; Arthur Redden, $23.12; H. Seaborne, $1.80; G. A. Hay, salary, $124.99; British American Oil Co., $71.89; Walter Henson, $16.58; J. C. Birmingham, $28.55; Municipal World, $6.38; J. C. Anderson, $3.15; Adam Bros., $37.24; Thomas Petherick, $5.17; Ward Archer, $6.60; Albert Grills, $4.13; Garnet Craighead, $10.45; William Fraser, $5.50; John Bennett, $2.75; Charles Stephens, $6.87; Harold Barnum, $4.90; Carl Whitton, $5.50; Daniel Clarke, $2.00; John Varcoe, $57.95; Alexander Green, $66.70; John Dorie, $64.50; D. T. Petherick, $75.19; Harry Rowe, $48.25; Stanley Keller, $47.25; Douglas Rutherford, $91.50; Arthur Watters, $26.00; Adam Hay, $19.99; Harry Thompson, $27.49; Pat Keenan, $20.99; Cliff Dorie, $29.23; Peter Beattie, $12.49; George E. Brown, $6.25; George Barnum, $5.50; Thomas Moffat, $93.50; D. T. Petherick, $111.15; George Anderson, $5.00; Ernest Haig, $112.50; Harry Meiklejohn, $57.77; Joe Quinn, $11.00; Total, $1,633.17.

STEAMER SAFE.

Authorities Investigating Report of Los-sof Japanese Steamer.

LONDON, June 6. — (Canadian Press)—A dispatch to the Exchange Telegraph Company from Tokyo said the Japanese steamer Ugo Maru had arrived at Kamchatka, Siberia. Authorities were said to be investigating previous reports the vessel had burned and its crew of 43 and 700 passengers lost.

The ship was under charter by the Soviet Fish Trust and was bound for Kamchatka from Vladivostok. Soviet authorities in denying the mishap charged the reports were spread to make it difficult to recruit other fishing crews.

KING MAKING GOOD PROGRESS

Passed a Good Night and Was Sitting Up When Physician Appeared.

LEAVE END OF MONTH.

LONDON, June 6 (C.P.).—King George passed a good night and was sitting up this morning when his physician Henry Martyn visited him, remaining about an hour.

It was learned authoritatively he suffered no ill effects from the transactions of yesterday and the day before incident to a change in the nation's government.

If His Majesty's steady, slow progress continues, it was believed today he would be able to adhere to his original plans and leave Windsor for Sandringham toward the end of the month.

There has been a perceptible healing of the abscess which formed at the old lung incision, and was the cause of the present illness.

GENERAL BOOTH IN POOR HEALTH

Has Not Been Out of Bed Since He Was Deposed By High Council.

CASE BEFORE COURTS.

LONDON, June 6 (C.P. Cable).—General Bramwell Booth, deposed head of the Salvation Army, is suffering from a setback in his health. He has not left his bed since he was deposed some months ago by a meeting of the High Council of the Army.

The General's lawyers have completed the case they are bringing in the courts against the decision of the High Council, and it is expected a special sitting of the Chancery Division will be held shortly to deal with the matter. The Army, it is understood, is suffering considerable financial loss owing to the uncertainty of its position and is anxious to have the case disposed of.

PONTIFF REBUKES

(Continued from Page 1).

pope said this was a delicate question, but it was inadmissible that there could be absolute liberty of discussion because it might easily damage the faith of the slightly educated "and might easily become a dissimulated form of propaganda dangerous both to the state and to religion.'"

He reiterated his remand for "a full and perfect mandate for education for the church" and declared that the state cannot either hinder or change the exercise of that mandate.

Pope Pius said the state had nothing to fear from education under direction of the church, adding:

"It is this education which has produced the good and higher aspects of modern civilization. From the first days of Christianity up to the present, fathers and mothers have sent or brought their millions of sons to educational institutions founded directly by the church."

The pontiff criticized the premier's statement that Italy was not a "Catholic state, but a Fascist state." He said.

"No one wants to admit that the Fascist state is not in accord with Catholic doctrine and practice in regard to its order of ideas as well as its order of practical action. Otherwise the state could not be Catholic.'"

POLICE GUARD PLANT

OAKLAND, Calif., June 6. — Police to-day guarded the East Pakland Plant of the Fisher Body Works to prevent demonstrations by striking metal workers who quit after their demands for a fifty per cent. increase in wages and the abolition of "piece work" were refused.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK.

TORONTO, June 6. — Including Tuesday's holdover of 500, the cattle offering at the opening of the market at the Union Stock Yards yesterday amounted to slightly over 1,000 head. Opening trade was slow with the salesmen holding for an advance. Early sales showed prices steady to a shade higher than the opening of the week on light butcher steers, choice kind selling from 11 to 11¾ cents a pound. Heavy steers were slow and weak.

Cows were just steady and the top sold at 9½ cents a pound. The plain butcher kind sold downward to 7 cents.

Bulls were easier at 9 to 9½ cents for good butcher kind and 6½ to 7½ cents for bolognas.

Store cattle sold anywhere from 8 to an extreme 10¼ cents a pound.

Milkers and springers were steady at $110 each for best fresh cows and $130 for best quality springers.

The calf market was strong and prices showed a gain of one dollar a hundredweight for the week. Choice veals sold at 13½ to 14½ cents a pound, and grassers brought from 7½ to 8½ cents.

Lamb prices were unchanged at 18 to 19 cents a pound for choice and culls sold from 13 to 15 cents. Sheep sold steady at last week's decline. Good clipped ewes brought 6 to 6½ cents a pound and the odd wool sheep 7 cents. Culls sold from 2½ to 4 cents and medium heavy sheep 5 to 5¾ cents.

Hog trade was dull with bids steady at 12¼ cents f.o.b. and 14¼ cents w.o.c. select. The supply for sale at the opening of the market was 1,040 hogs, and there is a considerable number coming in by truck and market. Cattle receipts: Cattle, 562; calves, 735; sheep and lambs, 195; hogs, 1,040.

Quotations:

Heavy beef steers, $10.50 to $11.50.
Butcher steers choice, $11 to $11.75.
Do, fair to good, $10.00 to $11.75.
Do, common, $9.00 to $9.50.
Butcher heifers, choice, $11.00 to $11.50.
Do, fair to good, $10.00 to $10.75.
Do., common, $9.00 to $9.50.
Butcher cows, good to choice, $9.00 to $9.50.
Do, common to medium, $7.00 to $8.00.
Do, canners and cutters, $4.50 to $6.00.
Butcher bulls, good to choice, $9.00 to $9.50.
Do, medium, $8.00 to $8.50.
Do, bolognas, $6.00 to $7.50.
Baby beef, $10.00 to $13.50.
Feeders, choice, $9.75 to $10.25.
Do, fair to good, $9.00 to $9.50.
Stockers, choice, $9.25 to $9.50.
Do, fair, $8.50 to $9.00.
Calves, good, $12.50 to $14.00.
Do, medium, $9.00 to $12.00.
Do, grassers, $7.00 to $8.00.
Springers, $85.00 to $130.00.
Milkers, $75.00 to $110.00.
Lambs, per cwt., $18.00 to $19.00.
Do, culls, per cwt., $13.00 to $15.00.
Spring lambs, each, $18.00 to $18.00.
Sheep, choice, $6.00 to $7.00.
Do, medium, $5.50 to $6.00.
Do, culls, $2.50 to $4.00.
Hogs, selects, w.o.c., $13.25.
Do, fed, $12.95.
do, f.o.b., $12.25.
Do, thick smooths, $12.75.

WINNIPEG GRAIN.

WINNIPEG, June 6—An advance of ¾c to 2¾c in the first hour of trading was rapidly wiped out on yesterday's wheat market when a flood of offerings struck the pit. Fluctuations became erratic and the market finished the day ½ cent lower to unchanged. Chicago interests were the best buyers yesterday, taking liberal quantities of the October and December future. Seaboard houses also figured in the buying.

Trading was fairly active in cash wheat, No. 2 Northern and Nos. 4 and 5 wheat in good demand by exporters. Values were fractionally higher.

An excellent export trade was worked in barley overnight and all grades were in good demand yesterday at fractionally higher prices. Oats also active. Rye and flax were neglected and prices eased slightly.

BUTTER AND EGGS.

TORONTO, June 6.—A falling off in consumptive demand has caused an easier undertone on the wholesale egg market, and, although prices were unchanged yesterday, large dealers stated that the market was barely steady at present levels. The cooler weather has stimulated production, and fairly large shipments of fresh eggs reached the market yesterday.

Quotations to country shippers for ungraded eggs delivered and cases returned are as follows: Fresh extras, 27c to 28c per dozen; firsts, 25c to 26c, and seconds, 22c to 23c per dozen. Retail prices were also unchanged.

Butter-Making Active.

Production of domestic butter is increasing daily, and dealers report that supplies from this source are more than sufficient to take care of the demands of the trade. Trading was slow on the local wholesale butter market yesterday, and the price of No. 1 finest creamery held steady at 35½c per pound, with No. 2 grade quoted 1 cent per pound lower. Large dealers do not expect butter prices to move very much lower, and it is generally believed that the bottom of the seasonal slump has been reached.

Lacking any new interest of note, trading on the local cheese market remained quiet, and No. 1 large, colored, waxed and Government graded supplies sold at 18¾c per pound.

CHICAGO GRAIN

CHICAGO, June 6 (C.P.).—Impressive broadening out of selling yesterday swept the wheat market here down grade, largely wiping out recent gains in price. Notwithstanding word from Washington that a full half-billion dollars plus $1,500,000 additional, is provided in a farm relief bill agreed upon yesterday by senate and house conferees, friends of higher prices found themselves at a disadvantage and unable to make any lasting headway, despite a feverish struggle for mastery of the market. The defeat met with was apparently owing in great measure by antagonism shown by foreign markets concerning advances in domestic grain values.

Closing wheat quotations here were decidedly nervous, 1⅝ to 3⅛c below Tuesday's finish. Corn closed 1⅜ to 2⅝ down, and oats ⅝ to 1¼c lower.

Rith at the outset Chicago wheat traders were confronted by the fact that the Liverpool market, instead of reflecting Tuesday's sharp advance in United States prices, was up not even half as much as had been looked for. Reports of selling by the Canadian growers' pool and of relatively cheap offerings of wheat from Argentina were ascribed as reasons. Nevertheless, purchasing of future deliveries here was of a magnitude sufficient to lift the market at times to somewhat above Tuesday's closing level.

Fluctuations, however—downward in particular—were extraordinarily rapid and irregular, often outrunning the speed of the blackboards. Houses with eastern connections appeared to be in the lead as sellers, taking the ground that price gains had been too fast and that the market had become top-heavy. Setbacks undergone early yesterday had been mainly recovered from when news came that, as expected, the debenture feature of farm relief plans had been eliminated, and that the farm bill was at last in shape to be formally enacted by both houses of congress.

CHICAGO LIVE STOCK

CHICAGO, June 6.—Hogs—Receipts 20,000; top, $11 paid for around 190 lb. weight; choice 261 lb. averages at $10.15; butchers, medium to choice, 250 to 300 lbs. $10.10 to $10.65; 200 to 250 lbs, $10.25 to $11; 160 to 200 lbs. $10 to $11; 130 to 160 lbs., $9.75 to $10.90; packing sows, $9 to $9.75; pigs, medium to choice, 90 to 130 lbs. $9.25 to $10.50.

Cattle—9,000; calves, 3,000; slaughter classes, steers, good and choice, 1300 to 1500 lbs, $13.50 to $15.25; 1,100 to 1,300 lbs. $13.50 to $15.25; 950 to 1,100 lbs, $13.50 to $15.25; fed yearlings, good and choice, 750 to 950 lbs, $13.25 to $15.25; heifers, good and choice, 850 lbs. down, $13 to $14.75; cows, good and choice, $9.75 to $12.25; bulls, good and choice, beef, $10 to $11.50; cutter to medium, $7.75 to $10.25; vealers, milk-fed, good and choice, $12 to $15; stocker and feeder steers, good and choice, all weights, $12.25 to $13.25; common and medium, $9.75 to $12.25.

Sheep—12,000; yearlings, slow, weak; bulk, $11.50 to $12.50; top, $12.25; fat ewes, weak, $6 to $6.50; lambs, good and choice, 92 lbs down, $15.50 to $16.60; ewes, medium to choice, 150 lbs down, $5.75 to $7; feeder lambs, good and choice, $12.50 to $13.60.

MONTREAL LIVE STOCK

MONTREAL, June 6.—There were 69 calves and 596 hogs for sale on the two markets, including about 210 hogs held over from Monday's markets. The calves offered were sold for $8 to $12.50. The hog market was very unsettled. Tuesday's market closed at $13.50 to $13.75 for hogs of good quality, fed and watered. There were no early sales yesterday. Odd sows were weighed up at $10 to $10.50.

JUSTICE MEREDITH DISMISSES ACTION

Authorities Unable To Prove Hamilton Brewing Association Had Not Exported Beer.

HAMILTON, June 6. (C.P.)—Finding that the Federal authorities had failed to show that beer brewed by the Hamilton Brewing Association had not been exported, Chief Justice Meredith yesterday dismissed the action for $700,000 brought against the local company. The claim was for sales and gallonage taxes on 600,000 gallons which it was alleged had not been exported but sold in Ontario. The defendant company admitted liability for $32,000 of the claim and judgment for this amount was entered.

The company will now take action for a refund of $68,000, on the claim that the taxes were overpaid to this extent. W. H. Tilley, K. C., defence counsel, stated that prior to 1925, the firm paid $100,000 on export goods, and legislation was later enacted that for the return of such money if proof of payment were produced.

His Lordship refused to accept the suggestion of Mr. Tilley that the $32,000 should be accepted as credit on the money owed by the government to the company.

GOOD PRICE PAID.

COBOURG, June 6—Glen G. Davis, manager of the Tredmar Farms, Missouri, U.S.A., purchased a pure-bred Holstein cow from R. Honey & Sons, Percy Township. The price paid is stated to have been $2,000.

TRENT RIVER YOUTH RECEIVES INJURIES

Jack Garneau Bruised About Head and Shoulders in Fall From Wagon.

(Examiner Correspondence.)

TRENT RIVER, June 6.—Jack Garneau, eldest son of Mr. and Mrs. Oliver Garneau, met with an accident on Monday at his home when, while working with the manure spreader with his brother Frank, the horses became frightened, running away and throwing Garneau off. He fell in front of the larger wheel of the spreader and the wheel passed over his body. Fortunately the spreader was not loaded.

Medical aid was summoned and it was found that while no bones were broken he was severly bruised about the head, arms and back.

COURT TO HEAR APPEAL MONDAY

Man Sentenced to Hang June 21 Appeals to Division Court.

NEW EVIDENCE.

TORONTO, June 6.—(C.P.)— The hearing of the appeal of John Ivanchuk, who is under sentence to be hanged on June 21 for the murder of Provincial Officer T. H. Constable on October 15, 1926, will not be held until Monday. A. G. Slaght, K. C., counsel for the prisoner, and I. A. Humphries, K. C., Crown counsel, both asked the first divisional court at Osgoode Hall today for a postponement of the hearing. Mr. Slaght, on the ground he had not had time to prepare the case, and Mr. Humphries, that he had just been served with the particulars of the new evidence on which the appellant intended to rely.

The new evidence, which takes the form of alibi evidence, is sworn in an affidavit by E. De Repentigny, commercial traveller, of Montreal. Mr. Humphries was granted an order to have Mr. Repentigny present on Monday in case the court might desire him to be cross examined on his affidavit.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them published.

THE DROWNING FATALITY.

To the Editor of The Examiner.

Sir,—May I take the opportunity in writing this explanation as to how volunteers were welling to offer their services continuously until three victims were discovered in a watery grave.

In Tuesday's Examiner it was stated in connection with Fire Chief George Gimblett's debt of gratitude to those who volunteered their services in searching for these victims drowned in the Otonabee River. It is true they all did well. Let me admit frankly to state that when I tried to get a permission from the lockmaster, in conversation with Mr. George Gimblett with whom he was sitting on the grass, talking with Mr. Craig, father of the Sporting Editor at Examiner Office. The Fire Chief smiled and said he is in full charge of the affair, and further on I stubbornly induced him to allow me use the punt boat to row myself alone for the purpose to find the body or bodies that I could possibly search. He nodded and did not like to take responsibility on account of being deaf and dumb, but I took risk and he granted me his permission, then I went down to jump in the small boat and proceed as far as Crawford's Grove; gazing at a dead body against the white pole I approach it and was terribly to see such a decomposed face. I tried to lift, suddenly I got "duck in" river and almost drowned, with the presence of my mind I managed hanging on the end of the boat and kicked my legs to reach to the shore. For an hour I dried up clothes from shoulders to feet in the heat of the sun. It was a blessing that the weather was ideal that time. I decided to get in boat again and rowed back, tried to call attention of Chief Constable Newhall, but his watch dog was barking loudly, recognizing that I may get bitten, so I rowed along and arrived the pier at about half-past six in the evening, and walked home through the King Edward Park in a chilly condition.

During the electrical storm that afternoon which brought up Scobell's body. During the night it is also believed that storm brought up Anne May Lucas which floated away at four miles, and in conclusion I volunteered to try and find last victim, not only myself but as well as five of us. Needless to say those all who did faithful service are entitled to credit of their generosity. Thanks to all.—Truly yours,

WILLIAM O'ROURKE.

SEGREGATING YOUNG OFFENDERS.

The decision of the Dominion Government to establish "preferred class" penitentiaries for the Provinces of Ontario and Quebec where youthful criminals can be segregated from the older and more hardened prisoners will be generally applauded.

For many years there has been an agitation that conditions in our penitentiary system by which young men serving their first term are thrown into daily contact with calloused crooks should be remedied.

It has long been recognized that in too many cases the penitentiary has been a finishing school for criminals where novices are taught by old hands at the game and from which they emerge out to test their knowledge at the expense of society.

These preferred class penitentiaries should solve the problem, or at least do much to snatch young prisoners from a life of crime.

Their establishment will be regarded as a very decided step in the direction of reforming our system of dealing with the criminal class.

MR. ROBB IS ON GUARD.

The rumored drive on the Federal Treasury is beginning to take more definite form, in view of the report that the members who are agitating for larger indemnities are demanding that the remuneration be increased from $4,000 to $6,000.

Such an increase would involve an addition of over half a million dollars to the cost of government—an amount the members probably regard as trifling, in view of the buoyant condition of the national revenues, but that will appear to the general public as sizable at least.

There is, however, a reassuring note in the Ottawa story.

Hon. James Robb, Minister of Finance, is opposed to the increase—and it should be gratefully remembered that Mr. Robb's opposition effectually disposed of a similar agitation a year ago.

The Finance Minister has shown by his budgets that he keeps very close to public opinion—and he is giving further evidence of that fact in his refusal to throw up his hands at the command of the would-be Treasury raiders.

The round-robin method of pressing for larger indemnities is likely to prove ineffective against the firm stand on the part of Mr. Robb.

PROGRESS IN RESEARCH.

Considerable evidence that Canada is beginning to regain lost ground in the field of national research is furnished by the fact that Dr. H. M. Tory and the officials of the National Research Council have issued a periodical which is to appear every two months and will be devoted entirely to information in regard to research.

The Canadian Journal of Research, containing most valuable information as to the investigations that have been made in various problems of agriculture and industry should be warmly welcomed by those who appreciate the importance of scientific study along such lines.

The first issue deals with a number of most interesting subjects, among others, the effects of ultra-violet rays, the vaccination against tuberculosis, and the nature of rust resistance in wheat.

It is of manifest value that Canadians who are interested in research problems should have first-hand knowledge of what is being accomplished, and the new periodical will undoubtedly be appreciated by business men and others.

The progress that is being made in this direction should mean great things for Canada in the near future.

ADVERTISING VALUES.

Roger W. Babson, the widely known business statistician, whose name is as well known on this side of the line as it is in his own country, will henceforth be hard to convince that any method of advertising ranks as more effective than the daily paper.

Mr. Babson is one of those individuals who take nothing for granted, so he has been doing so experimently as to the relative value of radio and newspaper advertising.

The result of his test is interesting.

Mr. Babson spent $3,000 on a half-hour radio broadcast over a well-known network not long ago, and during the week that followed he paid a similar sum for newspaper advertising in Cleveland, Boston, New York, Philadelphia and Chicago.

In other words, he covered the same field in two ways.

His radio broadcast produced sixteen inquiries and two orders that were telegraphed in.

The newspaper advertising, on the other hand, yielded 4,000 inquiries.

That means that the papers attracted 222 possible clients, as against every one secured by radio, and that each radio answer cost him $166.66, while the newspapers replies cost only 75 cents each.

Mr. Babson's test has a moral that need not be pointed here.

UNITY IN INDIA.

Reports come from India of a new feeling which is gradually growing up there among the many wealthy native princes, who still live in control over their domains. These maharajahs, with their constant jealousies and private wars, have for years proven one of the greatest stumbling blocks to peace and prosperity in that great country. So great an annoyance have they sometimes proven to be, that Britain has often been freely criticized for not using a more stern hand, and for leaving so much independence in the hands of the native potentates.

The British system, however, seems to be vindicating itself. The princes, while they warred among themselves, have evidently been keeping watchful and observant eyes on British India, where the Viceroy, under the Emperor, is the supreme ruler. They are keen and intelligent men, and they have been quick to discern the benefits that are coming about through British rule. They have seen lowly peasants brought to a state of independence, if not wealth, and they have watched prosperity grow as internecine strife has been stamped out.

Now the princes are showing unmistakable signs of a desire for unity and co-operation, according to authoritative observers who have recently returned from India. They are finding that the legislative enactments of the dignitary to whom they act as advisory council are wise and just and beneficial. They are realizing that what is good for British India will be just as good for their own domains. This new attitude will go far toward developing India, as a whole, into one great, solidified and co-operative nation, and Britain's dream of an India coming into her full destiny is that much nearer realization.—Border Cities Star.

"THE COUNTING HOUSE OF CANADIAN HISTORY."

Whatever consideration may be given by the Government to the representations made on behalf of the Dominion Archives by the delegation of university professors, historians and research scholars, which waited upon the Prime Minister and the Secretary of State, they shall have served a useful purpose in calling public attention, not only to the needs, but to the character, aims and activities of an institution whose value and importance are not adequately appreciated.

Just as there are English people benighted enough to think of the British Museum as a vast repository of relics and objects of interest pertaining largely to natural history, knowing little of the almost incomparable literary treasure which is its chief possession, so there are Canadians whose ideas of the functions and scope of the National Archives are equally vague and confused. A common impression is that it is merely a storehouse of official documents, musty records and more or less illegible manuscripts gathered together and preserved for no particular purpose, and of interest only to elderly, bespectacled Dry-as-Dusts with a penchant for burrow-

There are those whoing among moth-eaten papyri. visualize it as a sort of cloistered sanctum exclusively reserved for university professors, research students and literary aspirants engaged in the preparation of academic theses or historical treatises; and some are not quite sure as to whether it is a semi-public library, an exhibition of literary and artistic curiosities, or a museum.

What is not generally realized is the fact that, while the National Archives offers facilities for study, research and observation not elsewhere available and of incalculable benefit to those who avail themselves of them, its paramount value lies in the services it renders, and the inspiration it gives, to the pursuit of knowledge of the past which lays bare the foundations of a nation, traces its growth and development, reveals the inward as well as outward significance of the events and agencies that have shaped its destinies, and makes for a better understanding and truer appreciation of what it represents in the world's sphere of civilization. Without the raw material preserved and made readily accessible in the Archives, Canadian history would be not only less voluminous, but infinitely less intelligible and inspiring.

The story of the growth of the Archives is in itself a record of interest. Contrary to popular belief, the idea of establishing an institution for the preservation of public documents and manuscripts of historical importance is not exactly modern. Nearly two hundred years ago, Gilles Hocquart, Intendant of New France, submitted to the home government a proposal which, if carried out, would have insured perpetual possession under suitable conditions of a large number of valuable papers that were later lost or destroyed. Again, after the advent of British rule, measures were suggested and, as far as possible, adopted, for the collection of state documents and records that had lain mouldering in vaults at Quebec, Montreal and Three Rivers.

Throughout the greater part of the nineteenth century, the process of accumulating and storing historical data in the shape of documentary material went on in somewhat haphazard fashion. There was no attempt at centralization save within provincial bounds. Accommodation for such collections as existed was neither adequate nor protective. Irreparable losses resulted from fires, notably from that which destroyed the Parliament buildings in Montreal in 1849, as well as from the periodical removal of records attendant upon the changing of the seat of government.

Not until some years after Confederation was the first practical step taken in the direction of establishing in Ottawa an archives of national scope. At first it was merely a branch of the Department of Agriculture operating as a receptacle for the scattered masses of official documents that had piled up in the various administrative departments, or that could be transferred from other repositories throughout the country. The arduous and difficult task of collecting, assorting and classifying the material available was entrusted to Dr. Brymner, whose indefatigable efforts during a period of 30 years brought order out of chaos, and gave a stimulus to historical study and research that was reflected not only in the works of Canadian historians, but in a keener public interest in archival effort.

Then came the movement of expansion initiated a quarter of a century ago by Lord Minto; the appointment as Chief Archivist of Dr. Doughty, whose enthusiasm, energy, wide knowledge of the sources of Canadian history and success as a literary treasure hunter have done so much to raise the Archives to its present outstanding position; the erection and later extension of the building in Sussex street, Ottawa, and a period of sustained activity in the location, acquisition and classification of historical material that has made the collection one of the finest of its kind on the American continent. But as history itself has no limits, so there is no end to the work of securing and preserving the records out of which it is woven. In that effort the National Archives, the "counting house of Canadian history," to borrow Professor Chester Martin's happy description, is worthy of all the support the Treasury can afford.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

Think British—and buy British—if you want to help both Canada and the Empire.

Old Home Week is drawing rapidly near. Are you ready for your visitors and to do your part in making the re-union a success?

Peterborough restaurant patrons are not going to be given a chance to "walk up stairs and save ten."

Federal members of Parliament will soon be demanding as much money as is paid provincial Cabinet Ministers, who give all their time to the duties of their position.

At least the City Council has not rescinded the daylight saving by-law.

A Thought

HUMAN PITY.

More helpful than all wisdom is one draught of simple human pity that will not forsake us.—George Eliot.

Horoscope

The Stars Incline, But Do Not Compel

Friday, June 7, 1929.

(Copyright McClure Newspaper Syn.)

Benefic aspects rule to-day, according to astrology, which reads fair promise in the stars.

It is a day for undertaking enterprises that command courage and foresight. Business development and trade expansion should be undertaken at this time.

Much of sensational interest appears to be foreshadowed for the courts, and judges are to have extraordinary cases brought before them, it is forecast.

At the lunation of this date, there is for Great Britain a planetary rule that indicates new danger of war.

Revelations regarding criminal activities will continue through the summer, astrologers prophesy, and new horrors regarding dope will become known.

Secret diplomacy and disarmament disagreements will cause renewed controversies and widespread criticism of so-called statesmen, the seers prophesy.

Women are not well directed under this rule of the stars and they should be exceedingly cautious.

Social rivalries and broken friendships may be common while this configuration prevails.

This is not an auspicious day for wives to make requests for money or for women to incur financial responsibilities.

This is read as an unfavorable day for women to seek new positions or to make changes of any sort.

There is a sign of fair promise to-day for writers and especially for newspaper workers.

Persons whose birthdate it is, have the augury of journeys and changes in the coming year which should be especially prosperous. Happiness as well as success is indicated.

Children born on this day probably will find life exceedingly pleasant. The subjects of this sign often combine with practical tendencies a high degree of artistic talent.

Susan E. Blow, famous kindergartner, was born on this date, 1843. Francis Gustave Dauphine, 1840, artist, also claimed this as his birthday.

Lyrics of Life

By Douglas Malloch

THE LUCKY ONE.

A hundred miles from home, and her,
From children shouting at their play,
I did as many a traveler
Has done on many another day—
I walked the streets, a wanderer,
To pass a little time away.

My man was seen, the deal was done,
And I remembered what he said:
"Well, surely you're the lucky one,
No treadmill that you have to tread,
No business that you have to run,
But just to see the world instead—

"But look at me, the same old thing,
Day in, day out, or pretty near.
To-morrow you'll be traveling,
But where will I be? I'll be here;
And that's the way in fall and spring
And Ev'ry other time of year."

And then he locked the little store,
His labor done, the day complete,
And hurried westward to his door,
As I turned eastward up the street
To walk a little while before
I stopped, my lonely meal to eat.

Why We Do What We Do.

WHY WOMEN ARE CATTY.

"If she's a woman she's a cat," said a friend of mine in an unguarded moment.

"Under velvet endearments," says a noted sociologist, "they stretch their claws and scratch like cats." He is speaking of the fair sex, the ladies.

"The Lord made them that way to match the men," retorts a member of the sex. Comparison of mental traits between men and women is an ungracious and somewhat hazardous undertaking. A lot depends on who is making the comparison and for what purpose. A great deal has been written on the subject. Most of it is froth.

Undoubtedly there are some mental differences as there are certain physical differences between men and women. But it is very easy to exaggerate this difference. Every scientific investigation purporting to discover differences usually ends by pointing out similarities and likenesses instead.

The most important consideration is that nearly all mental differences betwee men and women, as between the various races of mankind, are due mainly to environmental conditions and not to inherent qualities that are fixed.

Woman, being the weaker sex physically, could not hope to get her way by main force. She had to be cunning and subtle. Practice made her perfect.

"It is the straw," says Flapper Fannie, "that tells which way the soda is going." By Gettier.

The Tule Marsh Murder

By NANCY BARR MAVITY

Story of a Missing Actress and the Taxing of Wits to Explain Her Fate

THE STORY THUS FAR.

Don Ellsworth's wife, formerly the famous actress Sheila O'Shay, disappears leaving no trace. Dr. Cavanaugh the great criminal psychologist learns that their married life has been very unhappy.

Peter Piper a reporter on the Herald, tried to get an interview with Dr. Cavanaugh. Instead he meets Barbara Cavanaugh, the attractive daughter and finds that she was engaged to Don Ellsworth before his marriage.

An unidentified body is found in the tule marsh outside the city. It has been burned by a fire in the marsh until it is entirely unrecognizable except for the fact that it is a womsan. Dr. Cavanaugh is called in to help with the identification. The only thing by which the body can be identified is a patch of scalp with some hair attached. Dr. Cavanaugh takes this home with him.

CHAPTER 12.

Dr. Cavanaugh motioned his visitor to a chair, disregarding the tempestuous manner of his entrance, and waited until Don had flung himself into it.

"I don't believe I said I had found anything," he corrected mildly.

"No, but—I understood——"

"That there was some news in which you might be interested. As a matter of fact, it is impossible to say as yet whether even that really concerns you. However, on the fact of it, it seemed worth discussing."

"What is it you have found?" From Don's dry throat the words emerged as little more than a hoarse whisper.

"Not I; I've merely been asked to enquire into it a bit—and, as I told you, I am still in the dark. Have you read the evening papers?"

"I haven't looked at a paper for a week. I won't read the cursed things, with my name sticking out in headlines all over th place!"

"You have not heard, then, that a body, burned beyond recognition by the action of a grass fire, has been found on the slope of El Cerrito, above the marsh." Dr. Cavanaugh's voice was studiously conversational. He might have been mentioning nothing more important than the finding of a golf ball.

"I don't care who or what they've found," Don exploded, "So long as it isn't Sheila!"

Don twisted his hands nervously in his lap. There was the tension of long continued strain behind the irascibility in his voice. At first glance he looked noticeably thinner than on his previous visit; but a careful observer would have noted that the effect was due not so much to actual loss of weight as to the lines which gave his features a drawn look and to the dark smudges under his eyes.

"Language is an absurdly ambiguous instrument of communication," the doctor meditated, completely ignoring Don's agitation. "For example, that last sentence of yours. On the face of it, it might mean that you are indifferent to all else but Sheila's welfare and her possible danger—or it might mean that you hoped above all things that Sheila would not be found. Naturally, I assume that the first interpretation is the correct one."

"I don't know what I meant!" Don's hand was flung out in a gesture of angry impatience. "I don't feel much like entering on a discussion of grammar."

"Oh, but it sometimes matters quite a lot—quite a lot," the doctor murmured.

"Well, I'm not in a mood to choose my words very carefully. Suppose Sheila never shows up—simply drops out of sight altogether. I'd still be legally tied to her, wouldn't I? Unless" a faint gleam of eagerness shone in Don's hollow eyes—"unless I could get a divorce on grounds of desertion. Do you think I could?"

"No doubt. But that's not the particular bridge we are crossing at the moment." Dr. Cavanaugh ruthlessly pulled him back.

"Well, then, suppose she came back—with all this turmoil there's been in the papers. I'd be in a sweet position then, wouldn't I? Things would be as bad as before—no, a hundred times worse, because the one thing I put my neck into the noose to secure, decency and dignity would be gone. What a life!" His lips twisted in what was almost a grimace. "I wish I'd been blind and deaf before I ever met that woman!"

Dr. Cavanaugh listened calmly to this jerky, spasmodic outburst, his face as expressionless as that of an image of Buddha. He waited without interruption until Don relapsed into a silence as abrupt as his speech.

"There's still another possibility," he said then. "A cutting of all Gordian knots. I don't say that it is more than a possibility But I wouldn't be too sure, if I were you, that the activities of our friends, the police, as outlined in to-night's paper can be disregarded."

With an obvious effort at self control, the young man forced his hands to stop their nervous clenching and unclenching and lie tightly closed in his lap. Only the involuntary twitching of a muscle at the corner of his eyes betrayed an agitation beyond the power of his will to conceal.

"I don't understand what you're driving at," he said in a low, breathless voice. "You said—the body they found in the marsh couldn't be identified."

"You came here not long ago and asked me to help you," Dr. Cavanaugh went on, as if Ellsworth had not spoken. "But the positions are reversed—I am now about to ask you to help me. I said that the body I mentioned was unrecognizable. It was—except for a tiny patch of scalp." Without raising its tone, the doctor's voice took on a new emphasis. "That body belonged to a woman about forty years of age. She patronized an expensive beauty parlor, where she had recently had what I believe is called a marcel. She was in the habit of using black narcisse perfume. She was fair of skin with brown eyes and vivid color that accompany this particular pigmentation. Her hair, naturally red, was darkened to auburn by the use of henna, and was worn long—in fact, rather surprisingly in this day, it had never been cut. It was thick and luxuriant, and she took an extreme pride in it. So much for what the microscope tells us.

"From measurements taken of the body itself—Camberwell of the identification bureau was kind enough to supply me with the figures over the telephone (I have not seem it myself)—we are safe in saying that this woman of expensive tastes which she was able to gratify and a somewhat overweening consciousness of her personal appearance was rather tall—five feet seven inches. Naturally, she would have been of the opulent, deep-bosomed type. But she kept herself trained down to the fashionable slenderness. The articulation of the bones, particularly of the feet, indicate that she was trained in dancing. The formation of the roof of the mouth makes it probable that she was a singer—though she had not taken her singing very seriously of late, as strains on the teeth show her to have been an excessive smoker of strong cigarettes. Does all this convey anything to you?"

The face in the chair opposite might have been carved out of ivory-yellow white, with burnt out coals for eyes. Don cleared his throat and run the tip of his tongue across dry lips.

"You mean it's Sheila," his voice was a rasping whisper.

"I mean it was someone who at least bore a general resemblance to Mrs. Ellsworth," Dr. Cavanaugh amended imperturbably. "But there is a way of finding out whether we are dealing with a resemblance or identity. Under the microscope the cell structure of the hair is as individual as the whorls that make up the pattern of finger prints. I have the hair of the woman who was found in the marsh. Will you bring me for comparison, a hair belonging to Mrs. Ellsworth—from her brushes, her gown—any place where you can be sure the hair was hers? That ought to be easy."

For a moment the face before him did not change. Only that twitching eye muscle marred its absolute rigidity. The teeth were clenched so tightly that the line of the jaw stood out sharply. Then a dark flush, almost purple, flooded his cheeks and mounted until even the eyes were blood-shot. His fist crashed suddenly on the arm of his chair.

"I'll be damned if I will!" he shouted.

(To be continued.)

PLAN SCHOOL PICNIC.

Queen Alexandra School Pupils Will Be Entertained On June 21.

The June meeting of the Queen Alexandra Home and School Association was held Monday evening in the kindergarten room. Mrs. Karl Simpson, the president, was in the chair.

Plans were made to hold the annual school picnic at Nicholls Oval on June 21st.

Maxwell Parnell delighted the audience with a piano solo, entitled "In a Monastry Garden."

The attendance picture was won by Junior Third, Miss Walker's room.

FEEDING OF STOCK POTASSIUM IODIDE

Two to Four Ounces Should be Mixed With Every 100 Lbs. of Salt.

The Peterborough branch of the Ontario Department of Agriculture has received a number of inquiries in the last couple of weeks on the subject of feeding potassium iodide to breeding live-stock, as the result of an item of the same subject which appeared in the Examiner recently.

Following are definite recommendations regarding the quantity of potassium iodide to be administered to the various types of stock and methods of procedure:

Sheep require 140 grains per year.

Brood sows require 230 grains per year.

Brood mares require 230 grains per years.

Cows require 385 grains per year.

From 2 to 4 ounces of potassium iodide should be mived with each 100 pounds of salt used. Spread out the dry salt on floor and then dissolve the potassium iodide in pint of water, sprinkle the solution over the salt and mix well. Let animals help themselves or give with feed.

Iodide is required in the normal functioning of the Thyroid gland, there is no substitute. The quantity required is small, but absolutely necessary. It is generally given to prevent goitre and hairlessness in new born animals and for the clearing up of pus areas that can not be reached in any other way.

LAUGHS FROM LIFE

Mactavish capitalizes his daughters' popularity.

SUCCESS.

When Oswald Cleek was ten years old, he was caught by his Aunt Martha reading a volume of Keats' poems. When he was twelve years old he was often seen sauntering in the parks with a tome of Milton or Shakespeare under his arm, and looking just the same as Shelley must have looked in his more inspired moments. When he was fourteen years old, he won the public school poetry contest with a five-hundred line poem on "Falling Leaves."

His teachers in high school fell heavily for him. They predicted a brilliant future for Oswald. His doting mother was sorry she had not named him Ariel. The name of the future great American poet should be distinctive. Even her relations were impressed by Oswald's building genius. When they saw Oswald lounging around the house, with a last rose of summer expression in his eyes, and the "Rubaiyat" in his hands they glanced significantly at each other. Needless to say, Oswald came through all the poetry contests in high school with flying colors. His opponents could not get within eight miles and fourteen metaphors of him.

In college, Oswald was up against stiffer competition, but still he managed to wrestle the muse to a fare-thee-well. From his fluent fountain-pen there flowed blank verse, sonnets, roundelays, ballads and other wares in the poetical market, which netted him at graduation a gold medal with a black ribbon, and the complete poetical works of Edgar Allen Poe in one volume, with gold edging. Oswald's parents wondered whether his bust would look better in bronze or just plain marble.

Only seven years after graduation from college, Oswald became famous. He won one hundred dollars for filling in the last line of a limerick.

ASK PAYMENT FOR ADDITION TRENTON PLANT

Canadian International Films Asks Ontario Government For Redress.

FUTURE OF INDUSTRY.

British, American and Canadian Rights To Bairnsfather Film To Be Sold.

TORONTO, June 6.—The affairs of the Canadian International Film Corporation, which have been in a somewhat disorganized state since the comparative failure of the Bruce Bairnsfather picture, are about to be placed on a better footing, if the kindly offices of a committee of Canadian business men can achieve anything along this line. All told there were about forty shareholders interested in the venture in a pecuniary way, and the Board recently appointed a sub-committee consisting of Messrs. Allan Ross, of the William Wrigley, Jr., Company, and C. H. Carlisle, of the Goodyear Tire and Rubber Company, to devise a scheme for realizing upon the assets of the concern and to provide, if possible, for its future operation.

Use Government Studio

The Ontario Government a couple of years ago undertook to establish a motion picture plant at Trenton, and a number of essential buildings and facilities were provided at that point. When it was decided to exploit a picture entitled "Carry On, Sergeant," based upon the well-known Bairnsfather cartoons, additional buildings and equipment were found to be necessary, and an appeal was made to a number of the leading business men of the country to provide the requisite capital. This was readily forthcoming, and a total of close upon $450,000 was speedily subscribed.

The whole venture was in the nature of a patriotic effort. It was felt that if a motion picture industry could be established in the Dominion, movies adapted to the requirements of the Canadian public could be turned out and a much more direct and effective appeal made to the patrons of such forms of entertainment in this country. The idea had long prevailed that too many films of foreign origin were being presented and that these reasonably could be superseded, without loss to those in the audience, by pictures which might emphasize typically Canadian scenes and impressions.

Canadian International Films was then formed to carry the aims of the promoters into effect. Enlargements were made to the Government studio at Trenton and a great deal of new equipment was provided. Everything within reason was done to make a success of the Bairnsfather picture. That the hopes of the promoters were not realized was due to inherent defects in the picture itself and to the fact that the introduction of the "talkies" diverted the interest of the public into a new line. Finally, the Bairnsfather picture had to be temporarily withdrawn and it is now safely ensconsed in the vaults of the corporation.

It is not thought that all the monies invested in the manner indicated will be a total loss. Indeed, the promoters are sanguine that the corporation yet may be placed on a satisfactory basis. N. L. Nathanson, the managing-director of Famous Players Corporation is at present in London, England, where he will make an effort to sell the British rights and it is understood that on his return an arrangement will be made to take over the Canadian and American rights. In the opinion of those who have provided the capital the picture, when brought up-to-date and provided with "talkie" adjuncts, will make a distinct impression upon the popular mind.

Some have entertained the view that the Ontario Government would be asked to reimburse the subscribers to the picture venture launched under its auspices, but this is not at all the case. None of the subscribers, it is pointed out, went into the venture with a view to making money; their action was dictated as a patriotic gesture, designed solely to assist in the establishment of another infant industry. The farthest that the subscribers will go is to ask that a refund be made of the monies that went to place the Government studio on a basis that would admit of the creation of a wide line of pictures on a satisfactory basis. If the additional buildings and equipment are bought at a fair appraisal, the subscribers are quite willing to retire and leave the sale of the picture to those who are regularly in the business.

The whole matter, it is expected, will be wound up, so far as the existing shareholders are concerned, by August 1, at the latest. Funds have been provided to meet such debts as are recognized as fair claims against the corporation and these will be paid within the next fortnight.

The board of directors of the Canadian International Film Corporation at present consists of the following gentleman: Allan Ross, C. H. Carlisle, C. O. Stillman, George McLaughlin, Col. C. S. Macfarlane, William Harty, E. P. Johnston, W. S. Clark, J. A. Smith, Henry Gooderham, J. D. McNab and C. Berkinshaw.

Tenders are now being called for a mining plant to be installed on the Arntfield Gold property in Boischatelel. The vein system developed on surface will in this way be explored at depth, after which, if results warrant, underground work will be carried on.

The oldest newspaper in the world is said to be the Peking News, which started publication in the sixth century.

OIL SECTION FOLLOWS MINE ISSUES LEAD

While No Pronounced Advances Recorded, Prices Move Steadily Upward.

ON STANDARD CURB.

Sudbury Basin, Ventures, Teck Hughes and Wright Hargreaves All Firmer.

TORONTO, Ont., June 6 (C.P.).—Prices generally continued to move steadily forward on the Standard Mining Exchange to-day, though no pronounced advances were recorded. Oils, after working in opposition to the dominating trend for the past couple of days, fell in line with the mining stocks and showed some improvement. Noranda touched a high of 54,00 and then firmed at 53.00, up 50 cents, while McIntyre gained 20 to 16.85. Sudbury Basin, Ventures, Teck-Hughes and Wright-Hargreaves were all firmer.

Graham Bosquet shot up 5 points to 14, and Amulet got up 7 to 1.30 but with these exception there was little change shown in the lower-priced issues.

RAILS LEAD UPWARD MOVE AT NEW YORK

Most of Speculators Holding Off From Buying On Large Scale.

CALL MONEY UNCHANGED.

Wall Street Worried Over Possibility of Flurries in Call Rate.

NEW YORK, N.Y., June 6 (C.P.).—Stock prices continued to move upward to-day with new leaders being brought forward in the food, railroad equipment and railroad groups. The buying continued to be rather selective in character with the outside public still showing little inclination to re-enter the market on a large scale.

Call money renewed unchanged at 7 per cent and appeared in fair supply at that figure. Wall Street is still worried over the possibility of sharp flurries in call money rates later in the month. Several new pools, which have been organized recently, are understood to have suspended the beginning of operations until next month on the theory that a definite easing of credit prospects is likely at that time.

RECORD VOTE IN SASKATCHEWAN

Weather is Fine and Largest Vote in History of Province Expected.

LIBERALS CONFIDENT.

REGINA, Sask., June 6.— (By the Canadian Press.)—Under a beaming sun, voters of Saskatchewan converged on polling booths to-day to cast a record vote in deciding the political fate of the province for the next four years. Favored by forecasts of "fair and warm weather," the ballot aggregate was expected to exceed the quarter million for the first time in the province's history.

In all parts of the province, excepting the far north, voting was in progress by nine o'clock Mountain Standard time. Elections in Cumberland and Ile a la Grosse, vast constituencies in the northern extremity of Saskatchewan have been deferred. Polls were scheduled to close at five o'clock.

Supporters of the Liberal government, which has held office for 24 years since Saskatchewan became a province, claimed their very large majority in the Legislature would be reduced but little, if at all. Conservatives forecast overthrow of what they term the "Gardiner Machine." Progressives, upholding non-party politics, sought to gain the balance of power.

Prices Receive Setback During Early Session

CHICAGO, Ills., June 6 (Canadian Press). — Foreign selling here and Liverpool quotations much lower than looked for did a good deal to bring about early set-backs in Chicago wheat values to-day. Buying enlarged on the downturns, but rallies that ensued failed to hold well. Opening ⅞c to 1⅛c off, Chicago wheat recovered to almost even with yesterday's finish, but sagged again. Corn, oats, and provisions were also weaker with corn starting unchanged to 1c down and subsequently keeping near to the initial figures.

FOREIGN EXCHANGE.

NEW YORK, N.Y., June 6 (Canadian Press). — Foreign exchange steady; demand rates (in cents) — Great Britain, 4.84½; Canadian dollars 23-32 of one per cent. discount.

HIRAM WALKERS LEADS TRADING

Minor Advances Scored in Early Trading Wiped Out During Late Session.

SOME ISSUES GAIN.

TORONTO, Ont., June 6 (C.P.).—With Hiram Walker's the only active issue, little change was shown in prices on the Toronto Stock Exchange to-day. Minor advances scored in early trading were practically all lost after the overnight orders had been disposed of.

International Nickel touched 49½ and held at 48¾, off ⅞, while Brazilian at 54½, was slightly easier. Loblaw dipped 1¼ points to 18⅛ and Canada Dry lost 1¼ to 82.

Of the few stocks to show improvement, Canadian Oil gained 2 to 49, McColl 1¼ to 40, and Massey-Harris one to 60.

TAKINGS OF STEEL CONTINUE HEAVY

Pittsburgh.—If the rate of steel production has decreased it has only been from the influence of hot weather and the playing out of open-hearth furnaces after four months of exceptionally hard driving. From March to April there was an increase in Bessemer steel production and the chances are almost even that the official report will show as high a daily rate of steel ingot production for May as for April.

Substantially heavier consumption is hardly to be expected for all the steel consuming lines are doing as well as could be expected. There has been phenomenally heavy buying of line pipe, chiefly for natural gas lines, since late last June, and there is no more big business in prospect, while production of line pipe has been stepped up. The freight car shops have been increasing operations in the last few weeks, some of their orders having been placed early in the year.

The agricultural implement industry has been extremely active.

A Good Start Means a Long Life

The New Model A Service Policy Adopted By All Ford Dealers Insures Proper Attention While Your Car Is New

To make absolutely sure of a correct start on the long life of satisfaction built into every Ford car, we have established a policy of free service at 500, 1000 and 1500 miles.

No charge is made for labor incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

We believe that it is our duty, not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time, at a minimum of trouble and expense.

The Ford car in design, quality of materials and precision of manufacture is comparable with the most expensive automobiles being built today.

In performance, getaway, riding comfort, hill climbing ability and braking efficiency it has established a new standard for comparison of all makes.

In economy, both at the time of purchase and throughout many thousands of miles of constant, dependable operation, it emphatically proves that price is no longer a gauge of quality.

And in service, every one of over 700 dealers in Canada offers clean, careful, courteous workmanship, equally worthy of the most costly automobiles.

This new free service is in addition to our usual warranties, which will be continued. Ask your Ford dealer for complete particulars.

CLEAN, CAREFUL, COURTEOUS SERVICE

The critical period in the life of an automobile is when it is new. Proper care and attention during the first few hundred miles will lengthen its life and prevent unnecessary trouble later on.

PUPILS PRESENT PIANO RECITAL

Students of Mrs. Ethel Tully Heard Give Program in Temple Hall.

FLOWERS PRESENTED

Piano pupils of Mrs. Ethel Tully Heard gave a delightful recitation on Monday evening in the hall of the Salvation Army Temple. There was a good attendance of parents and other interested friends and the pupils gave a splendid demonstration of excellent training. The smaller pupils scored in their playing of difficult music. From memory, two little girls being especially proficient in this way. They were Peggy Green ,seven-year-old daughter of Ensign and Mrs. E. Green, and Ardyth Richardson, the small six-year-old child of Mr. and Mrs. Stanley Richardson. This little lady played two exacting compositions from memory and also added to the pleasure of the occasion by her recitations.

At the conclusion of the program, Mrs. Heard thanked those present and also Ensign Green for the use of the hall. Two of the pupils, Sam Patte ,and Olive Sidey of Bridgenorth, presented their teacher with a lovely basket of flowers, the presentation being made by little Norma Ray.

The program was as follows:—"Folk Song" (Urbach) played by Neal Foster; "Air de Ballet" (Dupont) by Geraldine Riley; "Melody in C" (Schumann) and "Invitation a la Danse" (Carl Heins) by Winifred Francis; "Waltz" (Krogmann) by Harry Walsh; "Etude" (Czerny) and "Waltz" (Krogmann) by Teresa Gallegher; "Folk Song" (Urbach) by Lois Matthews; "Hungarian Dance" (Engelmann) and "Narcissus" (Slater) by Griffin; "March in C" (Rummel) by Margaret Griffin; duet, "The Departure" (Heins) by Miss Griffin and Mrs. Heard; vocal solo, with music composed by Mrs. Heard sung by Sam Patte; "Fairies Everywhere" (Slater) and "Fairy Fingers" (Slater) by Margaret Evans; duet, "The Shepherd Boy" (Wilson) by Sam Patte and Mrs. Heard; "Loccatiner" (Mozart) and "Petite Waltz" (Guiliani) by Gordon Green; "Waltz" and "Red Rose" (Graham) by Peggy Green; duet by Peggy and Gordon Green; "Waltz" (Hopkirk) by Berenice Madden; vocal solo, with music composed by Mrs. Heard, also "Somewhere a Voice is Calling" sung by Olive Sidey of Bridgenorth; "Intrata" (Bach) and "Dans le Pre" (Saverin) by Ardyth Richardson; duet, "Folk Song" by Ardyth Richardson and Berenice Madden; vocal solo, "When You Come Home" (Squire) and "Marie" (Irving Berlin) sung by Marie Madden; "Skating" (Klein) and "Joyous May" (Lichner) by Sam Patte; duet, "Troops on Parade" by Berenice Madden and Mrs. Heard; "Sonatina" (Kuhlau) and "The Watchman's Song" (Grieg), by Olive Sidey of Bridgenorth; duet, "Napoleon's Last Charge" and "Parade Review", by Miss Sidey and Mrs. Heard.

Ensign Green congratulated Mrs. Heard heartily on the success of her pupils and the splendid showing made by them.

New York state has one-seventh of all the nervous and mental patients of the United States, and it also has one-seventh of the total of all types of hospital patients.

SUBSIDIZED LINES COST $248,107

Canadian Government Through Subsidies Aided Steamship Lines.

OTTAWA, June 6 (C.P.).—Subsidized steamship services in the fiscal year 1927-1928 cost Canada $248,107.10, a reduction of more than half a million dollars from the figure paid out in 1921-1922, when $751,757.76 was the cost of such subventions. This was stated in the House of Commons today by Hon. Fernand Rinfret, Secretary of State, in reply to a question by E. W. Tobin (Lib. Richmond-Wolfe). Services are subsidized to South Africa, Brazil, Uruguay, Argentine, New Zealand, Alaska and the British West Indies.

WEAK AND RUN-DOWN

TANLAC Helps Digestion and Builds Strength.

"I was weak and run-down after 'Flu' writes Mr. A. D. Lavergne, 55 Mason St., St. Boniface, Man. "I had no appetite—digestion was poor—and whatever I ate seemed to form gas on my stomach. I saw TANLAC advertised and bought a bottle. I have not had those pains since taking TANLAC. I am always ready for meals now and am not bothered with Indigestion. I sleep soundly now and feel fit in every way. TANLAC certainly is good stuff."

It costs less than 2c. a dose—and your money back if it doesn't help you. Ask your druggist.

LAKEFIELD CHURCH SOCIETY HEARS ACCOUNT OF MEETING

Visitors From St. Paul's W.M.S. in Peterborough Take Part in Gathering.

REPORTS READ.

Women's Association Formed in Congregation of Lakefield Presbyterian Church

LAKEFIELD, June 6.—(Examiner Correspondence).—The regular meeting of the W. M. S. of the Presbyterian Church was held at the home of Mrs. J. C. Smith on Queen street Friday afternoon with the president, Mrs. J. W. Ridpath in the chair and Mrs. Smith acting as secretary pro tem.

The treasurer's statement was given by Miss Duff and showed a good financial condition and a substantial balance on hand. It was decided to hold the next regular meeting at the home of Miss McKibbin on June 28 and the next sewing meeting at the home of Mrs. Ridpath on June 14.

A number of ladies from St. Paul's W.M.S., Peterborough, were present and two of them, Mrs. Cox and Miss Simpson sang a duet very acceptably, Mrs. (Rev.) J. Ross playing the accompaniment.

Mrs. Turner, of St. Paul's Church, Peterborough, gave an interesting account of the Presbyterial meeting held recently in Cobourg and also of the Provincial meeting held in Hamilton. The Presbyterial meeting was held in St. Andrew's Church, Cobourg, when various societies shared in the devotional part of the meetings in turn.

The reports of the secretaries were interesting, the first one to report being the Home Helpers Secretary. In Peterborough Presbytery there are one hundred and forty-three Home Helpers, all active and sending in money. In Ontario there are 6,400 Home Helpers and their givings amounted to $9,500. The work of this branch was stressed by the Secretary, Miss Johnson, of Centreville. Miss Johnson declined re-election at the meeting and Mrs. Eakins of Millbrook, was elected to take her place.

Miss Tedford of Norwood gave the Welcome and Welfare Secretary's report; Mrs. Armstrong gave the Literature Secretary's report and Mrs. Eakings of Millbrook, who has been the supply secretary, stressed the need of branches sending only what is asked for and keeping to their allocation. Mrs. Anderson, the Provincial Supply Secretary, also spoke on this subject. Last year gifts valued at nearly seven hundred dollars were contributed and the Presbytery of Peterborough contributed $58 to the boot fund. A tribute was paid to the work of the Lakefield society which is one of the minority groups.

Miss Davidson, the Glad Tidings Secretary, urged that more subscriptions be secured for this, which is the official organ of the W. M. S. The Press Secretary gave a report which showed that there is no better way of conveying information than through the work of this officer.

Mrs. Jordan, in charge of life memberships from June to December, gave a report on this work.

Exceed Allocation

Mrs. McDougal, of Lakeport, the treasurer, gave a statement which mentioned the allocation of $5,000 and the amount raised was $5019.85, which is highly creditable.

Mrs. Clark, of Brighton, financial secretary, reported that the allocation has been raised this year to $5,102.00. The Dominion allocation is $130,000 and of this $132,000 is to be raised by Ontario which is the banner province of the W. M. S.

The custom of sending flowers to the sick and deceased members was discussed at the meeting when it was thought a letter might be sent or visit paid, instead of sending flowers.

Miss Harvey, corresponding secretary of the Presbytery, gave her report which showed 25 branches in the Presbytery besides the Mission Bands. Miss Sinclair, secretary of the C.G.I.T. group movement, urged greater attention paid to this Branch.

The Cobourg Mission Band gave an interesting pageant, illustrating the ways to receive the new Canadians who are coming to us. An honorary life membership was presented to Mrs. Ewart by the Peterborough Presbyterial, who was very much touched at the evidence of love and esteem of her co-workers.

Mrs. McKerroll, of Toronto, gave an address on British Guiana, it being a very illuminating and highly interesting address. When the roll call of auxiliaries was called, Vernonville, near Port Hope, was the banner branch. It is one of the minority groups with five members and an average attendance of five, and raising $100 for the year. This group leads the province.

The closing words were given by Mrs. Head, of Colborne, who urged each branch member to go forward and watch that each did the work of the Master for the coming year.

Mrs. Ridpath expressed the thanks of the ladies to Mrs. Turner for her splendid report, after which Mrs. Smith served afternoon tea.

Association Formed

A Woman's association has been recently formed in the congregation of the Lakefield Presbyterian Church for the purpose of doing work which does not altogether come into the W. M. S. and which is usually done by a Ladies' Aid. These are the officers:

President—Mrs. Robert Garbutt.
Vice President—Mrs. J. Ross.
Secretary—Mrs. J. M. Simpson.
Treasurer—Miss McKibbin.

To Visit Lakefield

Six young men from the Church Army headquarters in Toronto will visit St. John's Parish on Saturday, June 8, remaining over the week-end as the guests of the Parish. This is in connection with the route march of witness through the diocese of Toronto.

The land purchases of the United states since 1800 ranged from a price of two cents an acre for the 1603 Louisiana Purchase to $293.70 an acre for the Virgin Islands.

EATS PILLS; CHILD DIES

PORT COLBORNE, One., June 6 (C.P.).—Believed to have eaten more than two dozen pills, Thomas Adams, 3, died last night after three doctors had worked for over three hours to save his life. The youngster got hold of a bottle of pills when his mother was lying on a sick bed.

EIGHT STOWAWAYS FOUND ON VESSEL

Four Men and Four Women Claimed Paid $1,000 Each To Get Into States.

NEW YORK, N.Y., June 6 (Canadian Press).—Eight stowaways, four of them women, were discovered aboard the United States liner Republic when she docked at Hoboken because a Customs inspector refused to believe a "wet paint" sign.

Discovering the paint in the third-class section to be dry, Inspector William Geary ripped out one of the boards under a stairway, disclosing a narrow compartment in which the stowaways were huddled. They said they had paid $1,000 each to be smuggled into the United States. They came from Poland and Lithuania.

HOME INFLUENCE TOPIC OF ADDRESS

Mrs. J. H. Myers, of Dundas, Delivers Address to Marmora Institute.

MARMORA, June 6 (Examiner Correspondence).—Marmora Women's Institute held its monthly meeting on Tuesday evening at the home of Mrs. F. N. Marett. The main feature was an address entitled, "Is Home Life and Influence Declining; If So, Why?" by Mrs. J. H. Myers, Dundas, Ont.

There was a large attendance of the ladies, and the meeting was thoroughly enjoyed. Mrs. Myer's talk was very much appreciated and made this meeting one of the best ever held. Mrs. Myers laid emphasis on a few points, as to making the monthly programs, educational and humorous, also to make each one's influence felt in her community so that people would say: "I am going to try and live to that standard." Another thought that was left to be thought over, was to make and bring Canada to the front in every way—in our thoughts, as our country, in buying Canadian goods and pushing Canadian products. A strong thought in supervising the activity of the young people, stressing the thought that people wede making things too luxurious or building too strict a wall in our own homes which made the young people go to other homes instead of bringing their friends to their homes. Mrs. Myers won a host of friends in Marmora, and ended by saying: The key to happiness is to help the other fellow lift his load.

The district convention will be held in Marmora on June 12; a crowd of 200 is expected. Lunch for this event will be served by Marmora.

And anyone particular prefers this finer tea.

"SALADA" TEA

'Fresh from the gardens'

Chocolate Gets Decision Over Gregorio of Spain

PHILADELPHIA, Pa., June 6. — Kid Chocolate, flashy Cuban negro, was awarded the decision over Vidal Gregorio of Spain, in a slashing ten-round open-air bout at Shibe Park last night. The verdict did not meet with the approval of many of the fans. Chocolate weighed 119¾, Gregorio 117¼.

The battle was fast and furious from start to finish. With the opening bell, the rivals sailed into each other with rights and lefts to the head and body and kept it up until the finish. In several rounds they stood toe-to-toe, showering each other with body blows and uppercuts. Neither, however, was able to floor the other or to slow up his opponent. Chocolate gave a great exhibition of boxing and in this he excelled the Spaniard, but in no other way did he appear to have an advantage. More than 20,000 fans witnessed the bout.

PLEADS NOT GUILTY,

WINNIPEG, Man., June 6.—(Canadian Press).—Cyril Agnew, charged with the murder of Mrs. Elizabeth McLean on February 3 last, was arraigned yesterday before Mr. Chief Justice Macdonald at the opening of the summer assizes.

Agnew entered a plea of not guilty and his trial was set for June 10.

Mrs. McLean was found dead in an office in a downtown building with her neck broken and her body badly bruised.

One washday I went on strike

Now I get whiter washes—without hard work . . . let me tell you my secret

I WAS ready to scream! I had rubbed, rubbed, rubbed all morning. I just couldn't get the clothes white enough. The kitchen was unbearably hot. Any minute the children would be hurrying home from school for their lunch . . .

Oh, how I hated washday! I dumped the half-white clothes into a boiler of steaming suds. Still another tub of clothes to wash. Another tub of clothes to struggle with . . . suddenly I burst into tears. I just couldn't scrub another thing.

"I've gone on strike!" I told my husband that night. "I'm not going to kill myself scrubbing clothes—I've got enough to do taking care of the house and the children."

"You're right," he said. "Washday *is* wearing you out. We've got to do something about it."

The next day I was telling my troubles to my neighbour. "How do you get such a nice snowy wash?" I asked her. "You never seem worn out from scrubbing, the way I do."

"Scrubbing? Why, that's old-fashioned! Don't you know that nowadays the whitest washes are just soaked and rinsed?"

And then she told me about Rinso. How its thick suds soak out dirt and stains . . . and wash clothes *whiter* so easily, so safely. Next washday I tried it, and my, what a difference! No soap I ever used was even half so marvelous. My wash was out of the way even before the children came home from school. The *snowiest* wash I ever saw!

Rinso certainly changed my washday to a day of comfort.

It makes no difference whether you use wash tub or washing machine—just follow the easy directions and Rinso will give you a whiter wash than you ever thought possible.

Mrs. (Dr.) Cochrane and daughter, Mrs. Taylor, of Toronto, spent the week-end with Miss A. Stephenson.

Mr. and Mrs. R. Poast, Mrs. Robert McConnell and Mrs. J. Bushnell, spent Thursday afternoon in Lindsay.

Mr. and Mrs. Albert Ford and son Wilson, of Havelock, visited Mr. and Mrs. R. Ford on Sunday.

Mrs. G. Freed of Mariposa visited Mrs. J. Doube on Sunday.

Mrs. Cyril Elliot and children spent a few days last week with her parents, Mr. and Mrs. Thurston of Dunsford, her father having been very ill.

Mr. Neill Henderson of Toronto spent Monday at his home in town.

Mr. and Mrs. Sid Connell of Fairmount visited the formers' brother, Mr. W. Connell on Sunday.

Mr. Norman Stinson of Hamilton, Mr. and Mrs. W. Irvine and Mrs. William Stinson of Janetville, visited Mr. and Mrs. J. Bushnell on Tuesday.

Miss Gertrude Pogue was the guest of her aunt Mrs. Holmes of Campbellford last week.

Mr. and Mrs. H. Biglow and family of Bethany visited Mrs. Biglow's parents, Mr. and Mrs. R. Howden on Saturday.

Miss J. Weir of Buckhorn is the guest of Mr. and Mrs. D. Weir.

Rev. E. W. and Mrs. Rowland of Stirling, spent a couple of days with the former's sister, Mrs. J. Egglestone and renewed old acquaintances in town.

Mr. and Mrs. W. Eagleson and child of Lindsay spent Sunday at the former's home, south of Omemee.

Mr. and Mrs. H. Copeland of Mariposa visited Mr. and Mrs. D. Belsh on Sunday.

Mr. and Mrs. W. Best spent a couple of days last week, with Peterborough friends.

Mr. Horace Hill is redecorating Dr. Irvine's cottage at Pleasant Point.

Mrs. T. Rowan of Lindsay spent Saturday with her parents, Mr. and Mrs. I. H. Fee.

Miss Blanche Elliot of Toronto was the guest of Miss Lila Parsons, over the week-end.

Mr. L. A. Mahood and son Donald and Floyd and Gordon Parsons motored to Toronto on Saturday.

Rev. J. T. E. Blanchard and Mr. F. G. Sandy, M.P.P. attended the Conference of the United Churches at Napanee last week.

Mr. Arnold Kennedy of Toronto visited his father in town, over Sunday.

Mr. and Mrs. L. A. Mahood and son and Mrs. H. Nugent visited Mr. and Mrs. F. C. Nugent in Lindsay on Sunday.

Mr. and Mrs. Alf Eagleston of Lindsay visited Mr. and Mrs. W. Rea on Sunday.

Mrs. Elmer Mahood and Mrs. S. O'Neill motored to Toronto last week.

Mr. and Mrs. Havelock Fee, of Peterborough, visited the latter's parents. Mr. and Mrs. S. Grandy on Sunday.

SIR JOHN GIBSON REACHED THE PEAK IN ALL HIS ACTIVITIES

Sir John M. Gibson, former lieutenant-governor of Ontario, financier, industrialist, philanthropist and "grand old man of Canadian militia," died at Ravenscliffe, his Hamilton residence, on June 3. He had been in ill health for several months but his death was not expected. He enjoyed the distinction of having reached the highest office in each of his many pursuits. Lady Gibson and her family have received messages of condolence from every part of the Dominion. The funeral on June 6, at 3 o'clock, will be in charge of the 13th Royal Hamilton Light Infantry, of which he was an honorary colonel. The layout shows, (1) Sir John M. Gibson in his twenties, (2) as (Sovereign) Grand Commander of the Supreme Council, A. and A.S.R. for the Dominion of Canada, his most recent studio portrait, (3) Sir John in his uniform as a major-general, (4) in his office at the government house, Toronto, during his tenure as lieutenant governor, (5) as winner of the Prince of Wales prize at Bisley in 1879, (6) Ravenscliffe, the Gibson home in Hamilton, and (7) the Christmas card sent by Lady Gibson to her friends last year. It shows Sir John and Lady Gibson with Miss Eugenia Gibson lounging in the garden at Ravenscliffe last summer.

HE NEVER COULD DIGEST HIS FOOD

"FRUIT-A-TIVES" Brought Perfect Health.

What miserable years Mr. Leo Godin spent when his stomach was all upset and he was deathly sick with bilious attacks. As he writes from Montreal, "It seemed to me that I was always bilious and never digested my food. Finally, an old friend told me to try "Fruit-a-tives." Since taking them, I have been so well that I want to congratulate you on this wonderful medicine." This is the way it goes. People suffer for years with Indigestion, Bilious Attacks, Pains in the Back, Bladder Trouble, Rheumatism, Headaches and never realize that the CAUSE of these troubles is weakness or poor action of the bowels, kidneys and skin. "Fruit-a-tives" restores these three great blood purifying agents of the body to normal, healthy action, sweetens the stomach, makes digestion sound, enables you to eat and sleep and enjoy life.

SANDWICHES are DELICIOUS Spread it Thinly on Bread and Butter Because it is so Concentrated

NO MORE PILES

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. Dr. Leonhardt's Hem-Roid, a harmless tablet, succeeds because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to pile sufferers. It will do the same for you or money back. McDermid & Jury, Bond's Drug Store and druggists everywhere sell Hem-Roid with this guarantee.

SENATORS PASS C.N.R. EXPENDITURE

Bill Received More or Less of Critical Review in Commons.

OTTAWA, June 6. —(C.P.)— The Senate Committee on Railways today recommended without amendment bill authorizing the Canadian National Railways to construct terminal facilities in Montreal at an estimated cost of $51,409,000. The bill had received a more or less critical review in the Commons, but there was only one pronounced protest among the senators. Senator W. H. Sharpe, of Manitoba, objected to so great an expenditure at the present time. No amendment was moved.

More than 1,500,000 negroes, or about one-seventh of their race in this country, now live outside the southern states.

NORTHERN ROUT VIA HUDSON BAY FOUND FEASIBLE

Icebreakers and Shipping Guides Will Be Necessary For Long Season.

11 MONTHS IN NORTH

Modest Report of Hudson Straits is Made Public.

OTTAWA, June 6.—(C.P.)—Scarcely a hint of danger is contained in the "blue book" reports of the leader and the logs of the ships which carried the Hudson Straits expedition of 1927-29 to the Far North on its perilous undertaking. The modest report of N. B. McLean, leader of the enterprise conducted under the direction of the dominion government, and the logs, have just been made public. Accompanying Mr. McLean were his assistants, flying officers and the crews of the stout vessels which kept McLean in contact with the outside world until one of the great adventures of modern times concluded its labors on Nov. 14 last.

The purpose of the expedition was to establish the feasibility of a ship route from Fort Churchill, through the waters of Hudson Bay, thence down Hudson Strait and to the ports of Europe. It was the work of the expedition to investigate ice conditions and the difficulties with which commerce would have to contend in tapping the newly opened northwest, meeting the newly constructed Hudson Bay Railway. The course on which winged ships of the Hudson's Bay company were set 200 years ago was the same one the expedition followed. But they explored it, charted it from the air, for the most part. They discovered, in brief, that there was a reasonable period of time when navigation was possible. Ice-breakers would be necessary to keep the ship lane clear for a longer season and guides for shipping would have to be erected; but over the same channel the clipper ships of two centuries ago sailed with their crews of adventurers, the future lane of commerce could be established.

Spent Eleven Months

For eleven months the expedition camped, toiled, faced hardship and sometimes death, exploring those water ways of the north. On July 17, 1927, the little blunt-nose ice-breaker Stanley and the bulkier freighter S. S. Larch, steamed out of Halifax with the expedition and all of its equipment on board. There were approximately 50 men, excluding the ship's complements. The equipment included six Fokker aeroplanes, launches and tractors, materials for buildings to house the men and stores, fuel, food and other necessities.

The first work of the expedition was to establish its three operating bases. One was set up at the north eastern extremity of the shoulder which borders on Ungava Bay. A second was erected at Nottingham Island. A third was placed at Wakeham Bay, at the end of a long inlet of the sea. The sites were selected after observations had been made from a Moth plane. After this work of reconnaissance "the beaches were improved where necessary and tractors, slip way and derricks sent ashore" says the report. Materials and stores of all kinds were discharged to the beach in surf boats and a small scow.

Surf boats were unloaded at the beach to stone boats or jumpers which in their turn were hauled by tractors to the position where they were required. But the picture of sailormen, working with their tackle, handling those ponderous pieces of machinery and the great bulk of the stores, setting all aboard the surf boats and riding, in many instances, a heavy sea in towards the shore, is very different in actuality from that which the "blue book" gives. It was labor of most exacting nature. The only hint of the danger involved in the work is given by Mr. McLean when in his report he expresses satisfaction that the expedition did not lose a single man through disease or disaster.

Pilots Flew Over Seas

But if the surf boat work was for rugged, fearless men, what of the duties of the flying officers of the Royal Canadian Air Force? Pilots flew over the seas which were unchartered. The report pays no compliment to those men who flew about their business. It gives them credit, certainly. But it states merely that "grave hazards were very uncertain weather conditions and over rough, rocky country or hummocky, broken ice where safe landings were almost impossible."

The report says very little of "the crew that pasesd the night of drifting ice of Nottingham Island" and reached their base next morning with about a pint of gasoline in their tanks. And it is a matter of grave consequence to become marooned in that northern wilderness of ice and water. Nor does there occur more than passing mention of the plane from Wakeham Bay, the engine of which stalled over the rocks in thick weather, and yet was brought safely to a landing; or the number of different times boat crews were caught and smothered in snow and fog for agonizing hours. Nor again is anything much said of the two men, who, with an Eskimo, landed sixty miles out in the Atlantic. It took them eight days to make their way to Labrador coast, and si days more to reach their base. They at nothing but raw walrus meat and very little of that. And there was the adventurous flight of the two officers from Nottingham Island and Wakeham Bay to the rescue of comrades lost out in the Atantic.

When the spring break-up came in 1928 a new steamer went north and assisted in bringing the weary expedition back to Halifax.

There will be a sequel to this story of the exploration of the Hudson Straits. It will be written into Canada's history by men who guide the nation's commerce.

MINISTER WAS GOING TO BUILD AT RIFLE RANGE

Gaol Farm and Penitentiary Was Once Intended For Otonabee Township.

PORTSMOUTH CROWDED.

General Hughes Endorsed Plan in 1925, Hon. G. N. Gordon Claims.

Honorable G. N. Gordon, K.C. today told The Examiner that the $150,000 vote set aside for the new Penitentiary in Ontario as the initial vote, brought back to his mind the arrangement he made in 1925 to induce the Minister of Justice to build a Penitentiary outside the city of Peterborough.

Mr. Gordon said that when he was member he arranged with the Minister of National Defence that he would hand over some 850 acres comprised in the Rifle Ranges, in the township of Otonabee to the Department of Justice for use as a gaol farm and penitentiary grounds, without cost to the Department of Justice.

General Hughes, who was the superintendent of penitentiaries, came to Peterborough, and with his surveyors and engineers, investigated the conditions of the site, and found in the immediate neighborhood brick clay existed, as well as gravel for concrete work, and was very favorably impressed with the location. The location for a penitentiary and gaol farm, according to General Hughes, so Mr. Gordon said, should be in a neighborhood somewhat isolated from main lines of railway and motor traffic so that the escape of prisoners would be less easy, and this location would be suitable for that reason. In addition to that Mr. Gordon said it was expected there would be 18 to 25 guards, with their families, who would live in the neighborhood, and the children of these families, it was exvected, would go to the school in the neighborhood, and the Government would pay the school taxes for the teaching of these children, which would lessen the very heavy burden on this school section, as the Rifle Ranges has taken up some several farms, and the Government pays no taxes on this large area of land which is a serious loss to the township.

$150,000 Per Year

It was estimated by the Inspector of Penitentiaries that there would be expended among the merchants, in Peterborough, about $150,000 per year, and in addition to that there would be many hundreds of people visiting the prisoners each year, which would help the hotels, in the city, as these persons would require frequently to stay over night in the city.

General Hughes' plan, was the construction of a new penitentiary, to take charge of first offenders, and to remove the women from Portsmouth, as the penitentiary was over-crowded, and many of the prisoners required to be removed from time to time from the penitentiary to other penetentiaries.

Mr. Gordon said, however, that the scheme was never carried into effect, and as he was not re-elected in the general election in 1925 he never had the opportunity of following the matter up, and it would appear now as if the new penitentiary would be located at Kingston in the neighborhood of the existing Portsmouth Penitentiary.

The former Federal member said that he felt that if he had been able to continue in parliament he could have induced the government to erect the penitentiary in Otonabee township, because of the free site, and General Hughes' favorable impression of the locality, but circumstances had changed, and Mr. Gordon said that he felt that the penitentiary would be located elsewhere, and extensions from time to time would be continued wherever the Government decided the new penitentiary would be built.

A Page of Household Hints

When you buy this big yellow package of Princess Soap Flakes you are sure of getting a package brim full with *pure soap*—not a lot of chemical filler put in to give you bulk. That is why a few Princess Flakes go so much farther than ordinary chipped soap. They are *all* soap.

Guarantee

Palmolive *guarantee* to replace any washable garment which, by reason of its having been washed with Princess Soap Flakes, has been damaged in texture or its colour made to run, provided such garment has been washed in accordance with instructions. We suggest that you test garments in plain, tepid water before washing, to make sure they are washable, and that the colour won't run.

Don't Have Red Hands

This Red Hand on the top of the big yellow package of Princess Soap Flakes is your guarantee of the genuine product.

Simplifying Your Weekly Washing Tasks

Today I would like to talk to you about some of the short cuts you can take in doing the weekly washing. To obtain the best results everything must be put through the separate operations of washing, wringing, rinsing, bluing, and possibly starching. And special care must be given to many things.

I have found that, owing to the dressing found in new materials, things which are being washed for the first time require soaking and then washing separately.

Coloured things must also be washed separately. It is advisable to soak coloured things which have never been washed before in salted water before washing them; and also to add salt to the rinsing water.

And the temperature of the water used for washing woollens must be very carefully regulated to prevent shrinking caused by sudden changes.

Then there are all those delicate things which need to be washed so carefully—silk stockings, lingerie, fine table linen and curtains. I wash them all with Princess Soap Flakes, because Princess suds will not harm anything that will stand plain, tepid water.

To wash silk stockings I always use tepid water (95°). Hot water fades coloured stockings and turns white stockings yellow. After washing, I rinse in water of the same temperature, gently squeeze the water out, and roll in a dry towel. Always remember, silk stockings should not be dried over direct heat. It weakens the silk fibres.

If you use Princess Flakes you will find that rubbing is practically unnecessary. That is why Princess suds are so good for all delicate things. They remove dirt and grease with minimum rubbing.

Princess Soap Flakes are just as good for everything in your laundry, particularly the heavy bedding which is so difficult to handle. In all my experience as Home Economics Counselor I have not found a more efficient general household soap.

If you would like to try these Princess Soap Flakes, about which I so often speak in this column, write and let me know, enclosing 4c in stamps, and I will be glad to see that you receive a free trial package. I would also like to help you with any washing problems you may have. My address is 64 Natalie St., Toronto 8, Ont.

How to Wash Window Curtains

Before washing, the curtains should be well shaken to remove loose dust. Then place them in a bag made of some loosely woven material, such as mosquito netting, and let soak in luke-warm Princess suds. After soaking for about fifteen minutes, work the bag of curtains up and down in the suds with your hands. White curtains should be boiled in the Princess suds. When washed, rinse through several waters and blue slightly. Iron lengthwise to prevent shrinking.

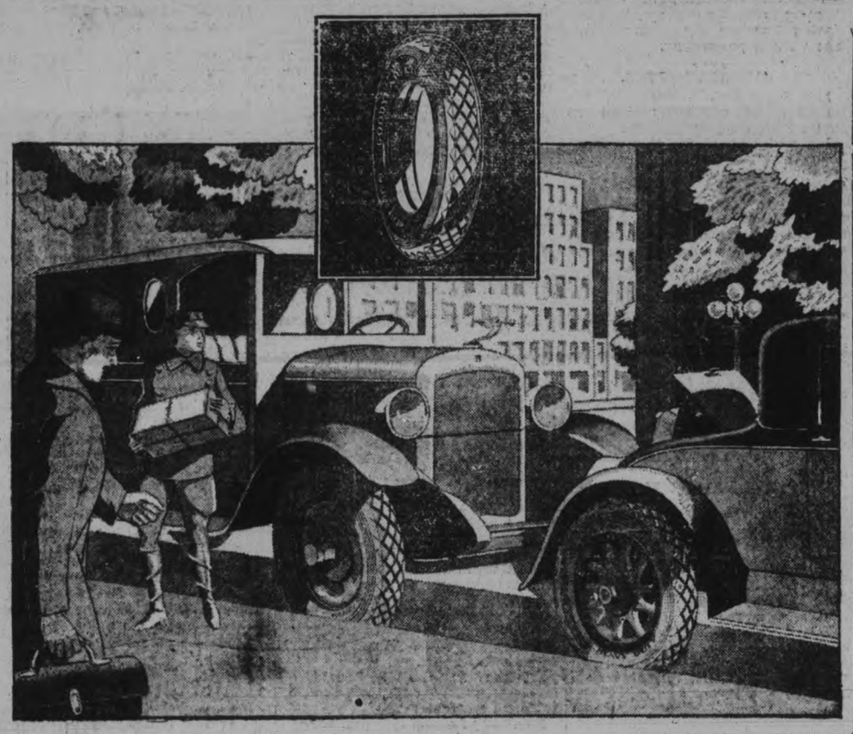
INCREASING CAPITOL STOCK

LONDON, June 6.—he Hudson's Bay Company is increasing its capital to 3,000,000 pounds sterling by the creation of 1,000,000 new ordinary one pound shares which will be offered to the present shareholders on the basis of one new share for every four now held. The price to shareholders has not yet been announced.



To those who buy tires for fleets of cars

from light coupes to heavy trucks

SALESMEN'S cars—demonstrators—delivery trucks—these are tire punishers. Severe roads, loads and speeds cut down tire mileage—increase tire-expense.

For just such needs Goodyear developed the Heavy Duty Tire. Extra rough and tough—filled with brute strength. All-Weather Tread for road grip. Supertwist Cords for long life.

The Goodyear Heavy Duty comes in passenger car, bus and truck sizes. It is specially designed for *hard* service—bad roads, high speeds, heavy loads, heavy cars, day and night service as in taxicabs and emergency cars.

Sold by Goodyear Selected Dealers. In every town in Canada large enough to support a good tire dealer, there is at least one Goodyear Selected Dealer.

Goodyear means Good Wear

KITCHENER BLOCKS GRID GROUPINGS

Protest O.R.F.U. Senior Plans and Threaten To Leave Major Ranks.

KITCHENER, June 6 (C.P.).—A rearrangement of the senior O.R.F.U. groups which would place the Kitchener-Waterloo club in a four-team group with Sarnia, Vasity and Balmy Beach, leaving Hamilton Tigers, Windsor and Camp Borden in the three-team section is the suggestion which the Twin City club has advanced in a firm letter of protest to the Ontario Rugby Football union. The letter protesting the present groups was drafted only after several executive sessions at which every angle of the Kitchener-Waterloo team's relations with the O.R.F.U. were fully discussed so as not to enter upon any course hastily or unwisely.

If the O.R.F.U. cannot or will not re-arange the groupings which now consist of Varsity, Sarnia, Hamilton, and Windsor in one group with Twin in the other, the Twin City team will City, Camp Borden and Balmy Beach revert to intermediate standing for this season, the latter states.

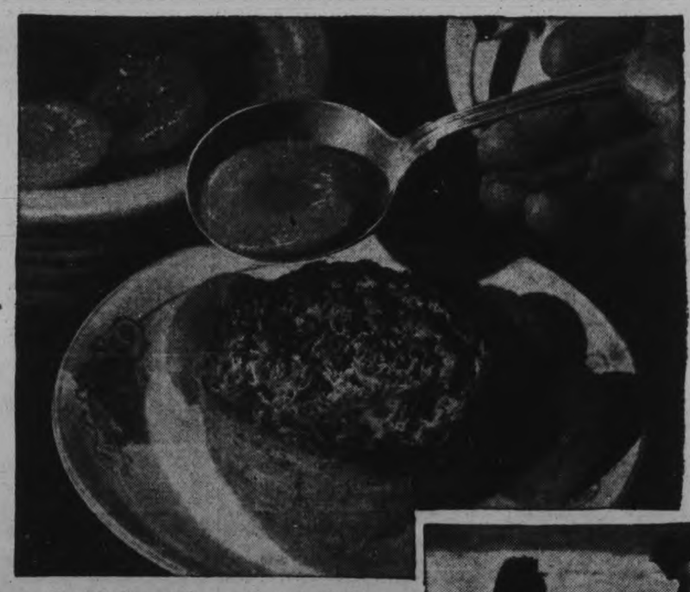
Get Second Revision

The letter points out that Balmy Beach secured a second vote on the groupings after the first arrangement of Windsor, Sarnia, Twin City and Varsity in one group and Hamilton, Camp Borden and Balmy Beach in the other, which resulted in the groups being drafted along the lines now approved which the Twin City team is protesting. The protest also emphasizes the fact that the Twin City club now has a large deficit and faces the likelihood of it being increased materially unless a re-arrangement of the groups is consummated.

In offering the new grouping, the Twin City club advanced the following reasons for placing Hamilton, Camp Borden and Windsor in one group leaving the other four teams in the other section. That Hamilton is a "second string" team whose financial problem is tied up in the success of the Tiger Firsts; that Camp Borden is a military team which is not confronted with the financial difficulties which beset the other O.R.F.U. teams, and that Windsor as the newest senior team should not come in at the inconvenience of the older teams.

Irradiation of Cereals by Steenbock Process now offered for the first time

Muffets, whole-wheat cereal, now have "sun" vitamin by irradiation with Ultra-Violet Rays. No increase in price!



HERE, for your pleasure and health, is something entirely new in breakfasts. Muffets is its name. Muffets is cooked whole wheat, drawn to a ribbon, rolled up and toasted to a delicious brown. In the making, Muffets are passed under ultra-violet lamps and given the healthful vitamin "D" of sunshine.

The process used is that discovered by Professor Steenbock of the University of Wisconsin and acclaimed by nutritionists everywhere as the most important food discovery of the age.

Vitamin "D", or the sun vitamin, builds sound, hard teeth and strong bones. Children need an abundance of the sun vitamin if their bodies are to be well developed. Adults, likewise, need a constant supply of Vitamin "D". The ultra violet rays of the sun cannot penetrate through ordinary window glass, and they are effectively stopped by fog or smoke, and even by the clothes you wear.

All Muffets are Irradiated

All Muffets on your grocer's shelves have been irradiated, whether so stated on the package or not. There are two Muffets packages but only one kind of Muffets—in every package the same irradiation, the same quality, the same wholesomeness of the whole wheat.

Eat Muffets with your favorite fruit.

Now it's possible to increase your "sunshine ration" at any meal. Irradiated Muffets, eaten with cream and sugar, with berries or fruit added . . . Um-m-mm! You'll find they make a wonderful meal. Irradiation does not change the taste or appearance of Muffets in the least. This nutritious whole wheat food is simply made more nourishing and healthful now in a way that no other whole-wheat food can claim to be—and at no increase in price!

Ask your grocer for Irradiated Muffets. Breakfast on "sunshine" tomorrow!

Children and grown-ups both benefit from sunshine. And now the sun's precious health vitamin is in a cereal food!

Irradiated MUFFETS

Whole Wheat Biscuit—A product of The Quaker Mills

GEORGE WALSH APPOINTED K. C.

Former Millbrook Man Among Those Who Have Attained Distinction at Bar.

DISTRICT NEWS.

(Examiner Correspondence.)

MILLBROOK, June 6.—Among the twenty-four barristers who have attained distinction at the Bar, and were given the honor of appointment as King's Counsel by Order-in-Council, as announced by Attorney-General W. H. Price, over the week-end, is George Theophilus Walsh, now of Toronto, but a former Millbrook boy who was born and brought up in this community. Mr. Walsh is the youngest son of the late J. Wesley Walsh, and Mrs. Walsh, was educated in the local schools, and later graduated from Osgoode Hall, Toronto. He served overseas in the Bantam Battalion, and has been highly successful in his professional career, more than once winning cases which he has carried before the Privy Council in London, England. The community is honored in this distinction which has come to a former local boy, and for which only men of the highest calibre are preferred, and there is a general feeling of pride and desire to extend congratulations.

Entertains Society

Mrs. George Locke entertained the Ladies' Aid Society of the United Church for its June meeting, the gathering, which was on Tuesday afternoon, being largely attended with interest evidently unabated in the various activities for which this organization is responsible.

The president, Mrs. J. McKnight, was in the chair.

Among the business it discussed was the holding of the annual garden-party on July 9, the home of Mrs. Wynne, Fourth Line, Cavan, being available for this event. A counter proposal that the Aid cater for a family reunion which is to be held here on July First, at which the attendance will be over two hundred and for which both dinner and tea will be required, was discussed at some length, and the offer accepted providing the intention to make Millbrook the scene of the gathering is confirmed.

Canvassers were appointed to cover the village and surrounding territory, and a special business meeting will convene at Mrs. F. Smith's home next Wednesday evening to complete arrangements. If the family reunion goes elsewhere, the garden-party will be proceeded with on the date mentioned.

The treasurer, Miss Duncan, reported having paid the bills for the installation of the electric blower for the church pipe organ, and fees amounting to more than $5.00 were collected when the roll was called.

A feature of particular interest was a recitation, "Choosing My Cross", by Mrs. Howson, Senior, who is in her eighty-ninth year, her memory being remarkable, her enunciation clear, and a very impressive expression marking the recital of the somewhat lengthy poem throughout. Warm applause greeted the contribution of this wonderful old lady to the program, and after the meeting practically everyone present took occasion to express their pleasure in meeting Mrs. Howson, and in hearing her recite, especially as the poem chosen carried a helpful lesson that went home to the hearts of the listeners.

Rev. Mr. Jones, who came in before the business session closed, made an announcement of importance and brought the meeting to a close.

Afternoon tea was served at the conclusion of the business gathering, and a very pleasant hour was spent round the daintily-laid tables, the hostess being assisted in serving her guests by her daughter, Mrs. McKnight, and other members of the Society including Mrs. H. W. Johnston, Mrs. C. C. Garside, Mrs. A. J. Brown, Miss May Duncan, and Mrs. F. H. Smith.

Quite a number who were not in attendance at the meeting came in for the tea hour, the cold and rather rainy weather out-of-doors making the warm, bright rooms very cozy and attractive by contrast, so that guests lingered over their tea cups, and the social side of the gathering received emphasis and was evidently a very popular feature.

The Aid has been serving afternoon tea, open to the public, after most of its meetings for some months past, with quite gratifying results as regards attendance, social enjoyment, and an addition, financially, to the treasury. Two new members, Mrs. W. O'Brien and Mrs. W. Westall, were enrolled at Tuesday's meeting. The date and place of the July meeting will be announced later when definite arrangements have been made.

Attends Divine Worship

There was a representative attendance of the local Lodge of the Canadian Order of Foresters at Grace Presbyterian church on Sunday evening, the minister, Rev. John Riddell, delivering a message appropriate to the principles of the Order, and of a deeply religious significance throughout. The choir, under the leadership of Charles Thorndyke, had prepared special music for the occasion. Had public announcement been made of the fact that the Foresters' Lodge was attending divine worship on Sunday evening, there is no doubt that a capacity congregation would have gathered at Grace church for the occasion, the attendance, however, was large and the service an impressive one.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so.

"A friend advised me to take

MILBURN'S HEART AND NERVE PILLS

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

History of Peterborough

Written by Thomas W. Poole, M.D., and Published in Peterborough 1867

CHAPTER VIII.

Erection of Court House and Jail.—Continued.

The building committee, at their second meeting, arranged to meet every Friday, for the dispatch of business. They also entered into negotiations with several of the provincial banks, as well as with private individuals, to procure loans of money to carry on the work, until the taxes of the district would be available for that purpose. The following are the several sums procured by loan or otherwise for this purpose:

Commercial Bank, Cobourg, notes of committee discounted, £1,176; O. Morrow, Esq., loan at 6 per cent. interest, payable half yearly, £500; Hon. John Kirby, loan at 6 per cent. interest, payable half yearly, £800; Mrs. Elizabeth Fowler, loan at 6 per cent. interest, payable half yearly, £741; Rev. Francis Firkpatrick, loan at 6 per cent. interest, payable half yearly, £2,350; Hon. Z. Burnham, treasurer, Newcastle District, taxes on proposed Colborne District for 1838-9-40, £1,694 3 7½.

These sums, lessened as they were by discount and interest, did not suffice for the completion of the buildings, but several of the contractors accepted the committee's debentures for sums varying from £100 to £1,000, and these, as they matured, were met by the taxes levied on the new district in subsequent years. In a short time plans and specifications for the new buildings were submitted to the committee by Joseph Scobell and Walter Sheridan, Esquires. That of the former met with most favor, and was awarded the first prize, while Mr. Sheridan's entitled him to second. The Hon. T. A. Stewart was then deputed to proceed to Toronto, and submit them to the chief justice, who confirmed the decision of the committee. Some alterations were afterwards discussed by the committee, and the plans modified, but the one originally approved was finally adopted and carried out in its general details. Some minor alterations were, however, made, consisting chiefly of modifications in the interior, by which additional space was gained both above and below. They also instructed the masons to put in cut stone quoins, arches, base course, jams and window sills, not in the original specifications. In excavating for the foundation it was found necessary to go double and in some places treble the depth on which estimates had been formed. All this occasioned an additional outlay, which exceeded the sum which had been stipulated as the limit of their expenditures, but their proceedings were endorsed by the magistrate and met with the entire sanction of that body, as well as of the public.

The tender of Messrs. Thomas Harper and B. Bletcher for 800 cords of stone at 14s 9d each was accepted, provided they furnish all quarried stone, and this was agreed to by these gentlemen.

(To Be Continued)

DAY IN PARLIAMENT.

OTTAWA, Ont., June 6.—Day in Parliament to-day: In the House, Government estimates will be under consideration.

Yesterday: In the House, amendment of C. H. Cahan (Conservative, St. Lawrence-St. George) that no person shall be dismissed from employment in Government service on a charge of political partisanship until after investigation was lost on a call for ayes and nays.

Trades and commerce estimates totalling approximately $6,513,550 were passed. Estimates on the Department of Marine and Fisheries, totalling approximately $2,310,000, were passed. Report of Agricultural Committee respecting Canada Grain Act was tabled.

In the Senate, Montreal terminals bill for $50,000,000 terminal was considered in committee and reported to Senate without amendment. The report was adopted without division and the bill will receive third reading to-morrow. Second reading was moved of bill for the establishment of separate domiciles for women for purposes of divorce.

Natural heat from the volcano of Kilauea is used to heat the superintendent's office in the Hawaii National Park.

GREETED IN BERLIN.

BERLIN, June 6. — (Canadian Press).—The Paris settlement of the Reparations questions has been greeted with a sign of relief in official and unofficial circles in Berlin.

HONORS TENOR

Edward Johnson of Guelph, celebrated star of the Metropolitan, was made a doctor of laws at the convocation ceremonies at the University of Western Ontario, London. Photo shows the tenor in his academic robes.

PRESENTATION TO MRS. TODD

George Street Ladies' Aid Honor Minister's' Wife at June Meeting.

AFTERNOON TEA SERVED.

The board room of George Street United Church Sunday School hall was beautifully decorated with baskets of mauve and white lilacs and red tulips Tuesday afternoon for the the June meeting of the Ladies' Aid Society. As this was the closing meetings before the holidays and the last meeting of the society that Rev. J. E. and Mrs. Todd would be present at before their departure for Regina, there was a very large attendance.

The president, Mrs. C. E. Smith, presided and opened the meeting with prayer followed by repeating the Lord's Prayer in unison. After singing a hymn, Mrs. O. Gray gave the Bible lesson reading.

Mrs. G. C. Staples gave the secretary's report, and Mrs. S. Oke, the treasurer's report, both of which were received and adopted.

Miss Mary Elliott gave a report of the correspondence, and Mrs. J. Stubbs for the sick and visiting committee reported 58 calls made during the month of May.

Miss Morrow, convenor of the flower committee, reported ten bouquets having been sent during the past month, and Mrs. Weldon reported regarding the flowers for church decoration during the summer months.

Mrs. Richardson gave the report of the parsonage committee and as Mrs. Kelly was unable to act in this work, Mrs. Yelland was appointed.

Mrs. T. Doig sang a beautiful solo, "Love's a Merchant," accompanied by Miss Gwen Mary Donley, which was much appreciated.

Mrs. J. E. Todd was then called to the front while Miss Mary Elliott read the following address and Mrs. Yelland and Mrs. Harvey carried in a small table covered with a beautiful lace cloth on which were placed a beautiful silver flower holder on a reflector filled with pink roses and lily-of-the-valley, and a pair of silver candlesticks to match, holding pink candles the exact shade of the roses. These gifts were presented to Mrs. Todd by Mrs. C. E. Smith.

"Dear Mrs. Todd:

We are called upon, once more, to bid adieu to the beloved wife of our pastor. Mrs. Todd, in the four years you have lived amongst us, you have endeared yourself greatly to the people of your husband's pastorate.

Your graceful dignity; your gentle, unselfish and patient manner; your quiet magnetic influence; the harmony with which you have worked among us have combined to endear you to us and to enshrine you in the hearts of the women of George Street Church.

You have given of your best to us—you have aimed to live a quiet, unobtrusive life in a complex age, to thread all you ractivities on a single, golden strand, and to do everything for the sake of the one motive—to glorify God by elevating man.

You have not live here to be entertained, but to achieve; not to enall your activities on a single, golden joy attractions which would prove to be subtractions from the pure, subtle influence which you have always wielded among us.

We pray that your life here may be the earnest of that fuller, richer and more abundant life which you will be privileged to live in the West:

'Your life stretches out in its future plan
And a new hope comes to you;
You know not the length of the warp you view,
You know not the given span;
But into the fabric you yet may weave
You will put all the best you can.'

Jean Blewitt has a few lines on "A Good Woman," which seem very appropriate just here:

'Her eyes are the windows of a soul
Where only the white thoughts spring,
And they look as the eyes of angels look—
For the good in everything.
And she can walk wherever she will,
For she walketh never alone;
The work she does is the Master's work,
And He guardeth well His own.'

Signed on behalf of the Ladies' Aid Society of George Street United Church, Peterborough, June 4, 1929.

Florence Shortley,
Hettie Smith,
Elizabeth Staples,
Annie Oke,
Ella Foote,
Alzina Hetherington"

Mrs. Todd made a very feeling reply, expressing her regret at parting with her friends of George Street Ladies' Aid and thanking them for their kind thoughts and the beautiful gifts.

The meeting was closed by repeating the Mizpah Benediction.

Afternoon tea was afterward served, the tea table being set in the hall, and decorated with a beautiful silver basket of white lilacs and red tulips.

Mrs. T. H. Squire and Mrs. F. Redpath poured tea assisted by Mrs. W. Savigny, Mrs. H. C Walsh, Mrs. O. Grey, Mrs. McFarlane and Miss Mitchell, Mrs. P. Hetherington and Mrs. T. Mark were general convenors in charge of arrangements.

ICE CREAM SOCIAL IS BIG SUCCESS

Peterborough Artists Assist in Program at Fairmount.

(Examiner Correspondence.)

FAIRMOUNT, June 6.—The W. M. S. of Fairmount United Church held a very successful ice cream social in the church on Monday evening. Rev. Mr. McConachie, pastor of the Springville circuit, acted as chairman and gave a very pleasing address of welcome to the large assemblage. A high class program was given, many of the artists being from Peterborough.

Mrs. T. Curvin was at her best and delighted the audience with several numbers, including "The Sunshine of Your Smile," "The Whippoorwill," a group of old English songs, and concluding with the "Veterans' Song. She was accompanied by Miss May Pollock.

Miss Pollock also gave several piano numbers, which were much appreciated.

A very impressive pantomine "The Ninety and Nine," was presented by Helen Sanderson, and Muriel Hooton, with Mrs. Seymour reading and Mrs. Curvin singing "The Ninety and Nine," Miss Helen Staples gave some splendid readings and two musical monologues.

A violin and piano duet by Harry McArthur and Robert Rose was much applauded as well as the instrumental music furnished by Mr. Curvin and Mr. Clarke on the violin and banjo.

Miss May Pollock acted as the accompanist of the evening.

Mrs. R. C. Hanbridge, President of the W. M. S. moved a vote of thanks to the artists of the evening for their excellent program.

HENRY HUBBEARD RECEIVES INJURY

Bruised About Head When Team Which He Was Driving Runs Away.

(Examiner Correspondence.)

MILLBROOK, June 6.—Henry Hubbeard, Zion Line west of the village, was painfully injured on Thursday evening when the team which he was driving, and which he had left standing while he opened the gate leading to David L. Armstrong's farm, became frightened in some unexplained manner, and ran away.

Mr. Hubbeard has no clear recollection of how the accident happened, but apparently he caught the reins and was dragged some distance before he lost consciousness, and the horses continued their mad run over the hill, a very soggy place in the roadway finally compelling them to slow down when they were thrown to their knees, and were caught. Mr. Hubbeard was hurt about the head, his face being badly bruised and swollen, and his leg cut, the clothing being torn away. Harold Hubbeard, some distance away, noticed the runaway team, and his father's difficulty, and came at once with his car, conveying him to the house where medical attention was given as soon as Dr. H. A. Turner, who was immediately summoned, could arrive. Convalescence is likely to be slow, and attended by considerable suffering.

OBITUARY

JAMES QUINLAN

The death occured in Edmonton recently of James Quinlan,an old and respected resident of Asphodel. Deceased was in his 68th year and was educated at Norwood High school. For a number of years he taught in the surrounding district, going west to Edmonton in the spring of 1901, where he continued teaching for three years, shortly after he went into business and did exceedingly well, winning a host of friends.

There are left to mourn his loss besides a sorrowing wife, five brothers and two sisters. Namely: Cornelius and Andrew of Asphodel, William and Mrs. Philiph O'Brien of Douro, Mrs. John O'Leary of Peterborough, John of Chicago and Patrick of Cleveland, Ohio.

The funeral took place from his residence, 9919-105 St. to St. Joseph's Cathedral and interment was made in the Edmonton R. C. cemetery. Pall bearers were: E. J. Hart, F. Morkin, Charles McManus, T .J. Collisson, E. Wankel and J. Allen. There were many floral offerings showing the high esteem in which deceased was held.

Iced fillings in different flavors between two light, crisp, fresh wafers. Simply delicious.

QUEBEC WOULD TWICE HONOR HERO AT PLAINS OF ABRAHAM

Noted Canadian Sculptor's Work On Wolfe May Be Duplicated.

ACQUIRED FINE PARK.

Battle Believed Won When Famous General Stood On Levis Shore.

(By Blowden Davis)

TORONTO, Ont., June 6—(Special to The Examiner, Copyright).—"Je me souviens" says Quebec succinctly, expressing a characteristic which lies back of that charm and personality which make the province well-beloved in places strangely different in temperament and modes of life.

None of the other provinces have devoted themselves so religiously to "remembering." Even in the remote country districts of Quebec the traveller will come upon the bronze plaques, in both French and English, bearing the Quebec motto and recalling stirring events of days gone by. In Quebec, itself, as in no other city of the Dominion, are its old heroes and heroines commemorated in stone and bronze.

The Historic Monuments Commission with headquarters at Ottawa, has recently acquired for the Battlefields Park, Quebec, a stretch of territory which will include the celebrated Wolfe's Cove by which the British troops climbed to the Plains of Abraham on the morning of September 13, 1759. Several millions of dollars will be expended within the next few years on this park, and the Quebec government is erecting a magnificent granite building which will house the publicly-owned museum. The drive which now terminates at the Lookout, with its superb view of the St. Lawrence, will eventually descend by curves to the water's edge, and the suggestion has been made that at Wolfe's Cove there should be erected a replica of the statue of James Wolfe which Dr. R. Tait McKenzie, the Canadian sculptor, is making as a gift from Canada to Great Britain. This imposing memorial figure of Wolfe will stand at Greenwich, England, near the historic college and hospital and the Thames, and close also to the home of General Wolfe's parents.

Born in Ontario

Tait, McKenzie, the sculptor, was born at Almonte, Ontario. He graduated in medicine at McGill and became an instructor in anatomy there. In the course of his teaching he conceived th idea of moulding clay figures to demonstrate the principles which he taught. This revealed his great natural gift for plastic art. To-day he is director of physical education in the University of Pennsylvania, where he combines his knowledge of athletics and physical beauty in his celebrated sculptures, many of them of male figures engaged in the vigorous pursuits of sport.

During the war Dr. McKenzie enlisted with the army medical corps and devoted himself to structural surgery, achieving important results in orthopedics. On his return home he turned to the perpetuation of various types of soldiers. His figures of celebrated Canadians and his typical figures such as The Airman have recorded the motives that acuated youth in its service th the war. Two of his most celebrated memorial figures are "The Home Coming," at Cambridge, England, and "The Call," at Edinburgh, Scotland.

Won On Levis Shore

Dr. McKenzie believes that the Battle of the Plains was won when Wolfe stood on the Levis shore opposite to the famous cove and studied the situation on the north shore where he determined to strike a final blow by way of the cleft in the cliff. Therefore he has produced a Wolfe who stands with his left hand resting lightly on his hip, his right hand, grasping his glass, lowered and resting on his breast while on his face is a look combined of exultation and determination. There ,then, the blow was struck that won Quebec and Canada.

Wolfe was not handsome. He had thin red hair and refused to wear a wig as was the fashion of the day; he had a sollouette which has come to be known as the envelope flap profile. But plain as he was, Wolfe was a man of natural gifts and charm and loftiness of character. The sculptor with sympathetic skill has drawn out these great characteristics without sacrificing any of the traditional conceptions of Wolfe's appearance.

FRECKLES

Don't Try to Hide These Ugly Spots; Othine Will Remove Them Quickly and Safely

This preparation is so successful in removing freckles and giving a clear, beautiful complexion that it is sold by all drug and department store with a guarantee to refund the money if it fails.

Don't try to hide your freckles or waste time on lemon juice of cucumbers; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask for Othine—double strength; it is this that is sold on money-back guarantee.

HABOCO STORE IN BOBCAYGEON

"Baker's Dozen Store" Is Being Opened Up This Week-end.

UNIQUE SALE.

A branch of the Haboco Stores is being opened in Bobcaygon this week, making the thirteenth store of this thriving young grocery chain, which started on a program of expansion last July. The management claim that they are superstitious of the number "13," especially as the new store is being opened on Friday, so they are calling their store the "Baker's Dozen Store." To celebrate the event they are giving an extra tin of corn, peas or tomatoes free with a dozen of these canned goods, and 13 eggs, lemons or bananas at the regular price of a dozen.

The Haboco Stores, operated by H. J. Boyle Ltd., have eight stores in Peterborough, one in Millbrook, one in Hastings, one in Campbellford, one in Lindsay, and the "Baker's Dozen" store in Bobcaygeon.

If one pair of English sparrows increased without hindrance for 10 years, it would have more than 275,000,000,000 descendants.

Delicious with cold drinks—a rare summer delicacy. Buy them by the pound, or in handy packages.

McCormicks Oven-kist WATER ICE WAFERS

Baked by the Bakers of McCORMICK'S JERSEY CREAM SODAS

PROVIDE AIDS TO NAVIGATION

Most Accurate Signals and Charts is Best Protection.

PATROL STEAMER IN FALL.

OTTAWA, Ont., June 6.—(By The Canadian Press).—The view of the marine and fisheries department relative to life-saving service on the Great Lakes is that the best protection can be given by providing up-to-date aids to navigation, accurate charts, lights, fog signals, buoys, radio etc. This was the reply given in the House of Commons yesterday to a question in connection with this matter. Proper inspection and the broadcasting of weather reports are also, in the department's opinion, factors that make for the safeguarding of life.

The service steamer "Murray Stewart" will be equipped with modern life-saving appliance in the fall of the year and will be used as a patrol steamer on Lake Superior.

BOARD IS NAMED TO SETTLE DISPUTE

C.P.R. Conductors on Eastern Lines Are Seeking Increase in Wages.

OTTAWA, Ont., June 6.—(By The Canadian Press).—A board of conciliation and investigation under the provisions of the Industrial Disputes Investigation Act has been established by the Honorable Peter Heenan, Minister of Labor, to deal with a dispute between the Canadian Pacific Railway Company, Eastern Lines, and its conductors, members of the Order of Railway Conductors. The cause of the dispute is given as the employees' request for increased wages and for a separate schedule covering conductors as a class on the eastern lines of the railway.

Eight hundred employees are stated to be directly affected by the dispute and 2,600 indirectly. The personnel of the Board is as follows: George C. McDonald, Montreal P.Q., chairman appointed on the joint recommendation of the other Board members; George A. Campbell, K.C., Montreal, and Cyril A. Boyce, K.C., Ottawa, nominated by the employer and employees, respectively.

That Body of Yours

(By Jas. W. Barton, M.D.)

WHAT NOISE DOES.

Some months ago I wrote about a young boxer who was pitted against the world's champion in their particular class. He was quite nervous as I examined him before the bout.

He was naturally nervous and kept himself so "tense" during the few rounds that he was completely exhausted and was unable to finish the bout.

The lesson was that when you keep yourself so tensed in boxing swimming or any form of exercise that you are expending almost as much energy as if you are really working or exercising. The tensed muscles and nerves by being used are manufacturing five to ten times as much waste matter or poison as when you are at rest.

The thought then in boxing or swimming or other sport is to relax between blows or strokes as much as possible.

And now research men are able to show that noise is harmful for the same reason.

Noise they tell us is nerve racking distracting and beyond question interferes with rest and sleep.

In order to prove that noise is harmful they are using an instrument which "measures" noise from 0 to 100 units 0 being noise enough that you can just hear it and 100 noise enough to make the ear drum tingle to a degree just short of actual pain.

It was found that there are few places where people work that are below 50.

Busses automobiles and taxis contribute about 50 noise units.

Now it is not because the ear drum or the nerve conducting the noise from ear to brain gets injured but a sort of "fear reaction" is set up from the noise which by causing a tenseness in the nerves and muscles of the body increases the rate of the heart beat and breathing and raises the blood pressure.

I mentioned the fact once before that typists who had noise lessened in a room were able to turn out more work and where the noise was increased the amount of work accomplished became less.

Now you and I may be able to arrange matters so that we get less noise. In fact when I am staying in a hotel in a downtown section I usually put some absorbent cotton in both ears. This may not be wise if we think of the possibility of fire but it certainly means more rest anyway.

As far as "day" noises are concerned it is going to be a matter of education on the part of everybody as we find that our bodies must not be tensed for prolonged periods if we are to do and feel our best.

Our Children

By ANGELO PATRI

EDUCATIONAL SNOBISHNESS.

Every now and then I come across a demonstration of educational snobbishness. All teachers have met in their field of work. The superintendent feels above the principal of the school; a classroom teacher has no standing professional or otherwise in a group of supervisors. The high school teacher lifts a bored eyebrow toward the enthusiasms of the primary teachers. Crimes—all of them against education.

But it is not at them I would point my arrow to-day, although this caste feeling seeps down into the classrooms and has its effect on the children. The attitude of the teachers MUST have its effect on the children. It has a very depressing effect upon such children as are not equipped with scholastic minds. Those children who want to work with their hands rather than become clerks, assistant-lawyers, lawyers, teachers, doctors, ministers, scholars, are sniffed at by the schools and teachers who think education lies only in the classics and in the schools dedicated to their service. Only scholastic education is worth while in their eyes. Only such children as can take the general cultural course are of the elect.

That is too bad. The scholastically elect must be few. They ought to be few. Only the genuinely gifted scholar should be given a classical course and headed toward a scholastic career. The others, the great group of humanity's children who are the world's workers, ought to be given a type of education that will enable them to become useful, happy people in their own fields.

These people who carry on the work of the world are not to be pushed aside as worthless. Their gifts and the contribution they are to make to society are quite as worth while as any that those of the other group will make. The world is dependent upon those who create in workroom, in the fields, in the factories, laboratories, offices, a highly trained, technically skilled citizenry is what the life of a nation rests upon. Unskilled, untrained, uncultivated, unenlightened masses are the peril of a nation. Why then this sniffing? This haughty head tilting, at the mention of trade school, art school, commercial school, shops, and the rest?

Isn't it a beautiful thing to be able to lead a child to his best self? Isn't it a miracle to have a child evolve a skill in drawing or weaving or writing or cooking so that he is uplifted in working hours. Why isn't it as fine a job to help a child master a craft or an art or a trade as to coach him for a degree in Letters' I believe it is.

All education is a sacred task. All child growth in whatever field it is stimulated is a revelation from on high. The primary teacher who helps a dirty-faced little lad to learn to read is doing as fine a bit of work as he who induces a boy to translate Latin verse. The school that helps a child find his life work, trains him for it and sends him out skilled in its performance is doing as noble as work as the one that sends a student to the university for his post graduate course.

All children are worth while. All teaching is great work. All schools ought to be filling a well felt need in the lives of their pupils.

Fashion's Forecast

2802

ATTRACTIVE WASH FROCK

THE STYLE No. 2802 in red and white percale with white pique contrast accented with plain red pique piping, expresses simple smartness for mornings or porch wear. It's easily made as the back is in one piece; front in two sections with lower skirt sections pressed in plaits each side of centre, forming a panel to add length to panel, forming a panel to add length to figure. The belt marks normal waistline. Novelty shantung is another interesting suggestion that is smart enough for street. Printed rajah is sportive. Wool jersey in chartreuse green is stunning for golf and sports wear. Printed pique, checked gingham, linen and cotton broadcloth also becoming fabrics.

THE PATTERN designed in sizes 16, 18 years, 36, 38, 40, 42, 44, and 46 inches bust has a Picture Chart, which is a dressmaking lesson in itself, for it shows in pictures from the beginning to end, just how to make it. It is offered at cost price 15 cents (stamps or coin) as a service to readers who sew.

NEW FASHION BOOK containing all the latest styles is 15 cents, but it may be obtained for 10 cents if ordered with a pattern.

OLD SONGS

THAT PIECE OF SONG,

That old and antique song we heard, last night.

"WOODMAN, SPARE THAT TREE
"WOODMAN SPARE THAT TREE".

(Contributed by 'Beatrice.')

Woodman, spare that tree,
Touch not a single bough;
In youth it sheltered me
And I'll protect it now.
'Twas my forefather's hand
That placed it near his cot,
There, Woodman, let it stand
Thy axe shall harm it not.
That old, familiar tree,
Whose glory and renown
Are spread o'er land and sea—
And wouldst thou hack it down?
Woodman, forbear they stroke,
Cut not its earth-bound ties;
O, spare that aged oak,
Now tow'ring to the skies.

When but an idle boy,
I sought its grateful shade;
In all their gushing joy,
Here, too, my sisters played;
My mother kissed me here,
My father pressed my hand.
Forgive this foolish tear—
But let that old oak stand.

My hear-strings round thee cling,
Close as thy bark, old friend;
Here shall the wild bird sing,
And still thy branches bend;
Old Tree, the storm still brave,
And, Woodman ,leave the spot.
While I've a hand to save
Thy axe shall harm it not.

Constant daily testing and blending of the world's choicest teas give Red Rose Tea its inimitable flavor and never-varying goodness. Every package guaranteed. 64

The Whatnot

A Column for Little Bits of Everything of Interest to Women Readers

Conducted by Marion (Copyright)

WITH June weddings—the scene of confetti lying on the sidewalk in front of a local photographers to-day made me think of it—and who does not love preparing a shower for the bride?

* * * * * *

They are such fun to get ready and everyone enjoys them so much—perhaps it is because they are so intimate, as only friends of the bride partake in them.

* * * * * *

The day of surprise showers are past, but the surprise may come in the way the gifts are presented—umbrellas hung above the table which will rain down lovely trifles are always a pretty decoration. Then one may have place cards of umbrellas, if the shower takes the form of a luncheon. The decorated table is usually the main feature of the shower.

* * * * * *

One of the newest showers of which I have attended is the clothesline shower. It really surprised me at first for I wondered what on earth she would do with about a dozen clotheslines, but I discovered before I had purchased one for her that contrary to its name, it merely means that one can bring anything which will wash and iron. It was a miscellaneous shower and the gifts were hung on a real clothesline across the room. Place cards and other novel decorations were made from clothespins, soap and other washday articles. The bride was given a clothes basket to put her gifts into.

* * * * * *

Another unique shower which I was told about was a smoking shower. But, of course, this would depend if the bride indulged in this modern-day amusement.

* * * * * *

Smoking jackets, lounging pyjamas, slippers, ash trays, fancy colored matches, lighters, cigarettes holders and other smoking equipment, would make an interesting selection.

* * * * * *

Bridge showers are not new, but are always interesting—score pads, cards, bridge table covers, table numbers and pencil contrivances all help to make up the bridge shower. This, would too, of course, depend if the bride was a bridge fan.

* * * * * *

Since the arrival of so much color, showers are more interesting because the gifts come in every hue. Bathroom showers are like a rainbow with the wealth of color and flowered things that bathrooms inspire.

* * * * * *

Scented salts, delicately perfumed soaps, colorful bottles of lotion, pastel shaded towels, wash clothes and mats, printed shower curtains window curtains and colored hampers. Oh what a lot of things one can buy for the bathroom! Then there is the furnishing of the wardrobe and clothes closets—little colored flowers for hat stands, birds for shoe trees, colored cretonne for dress, shoe, laundry and lingerie bags and numerous plain and colored boxes for miscellaneous articles.

* * * * * *

I heard once, too, of a number of friends clubbing together and buying a vacuum cleaner for the bride and a variety of brushes and called it a cleaning shower.

* * * * * *

I am sure Peterborough brides would appreciate a shower like that!

* * * * * *

The bride who is to live in an apartment must have careful consideration before showers are planned for her. A modern shower is perhaps the best—where the guests bring small accessories which are necessary for the making of any home-like home—vases, lamp shades, or potted plants, etc. Sofa pillows too, would be most acceptable for an apartment bride but should be chosen to correspond with her color scheme if possible. The colored linens with different colored pillow cases to match are quite pretty also.

* * * * * *

Of ccurse, there are always the silver, linen, kitchen, and all the other showers of yesterday which are as good as ever. One simply adds a modern idea!

* * * * * *

After we are finished with the planning of and attending to showers, our thoughts are turned to the question of the one gift itself—the custom of presenting gifts has grown until it has become much of a burden and something of a farce, from the absolute uselessness of many of the articles which is likely to take place.

* * * * * *

In every case the gifts should be in accordance with the means and style of living of the recipient, and as far as possible in harmony with their tastes and surroundings. Simple, tasteful selections are rarely out of place and there is a wide choice of articles which every family can use. this.

We must not hesitate to send a gift because the money value is small for invariably these gifts are always very welcome, and a gift which owes its existence to the donor's own labor is regarded as especially flattering.

* * * * * *

It is the spirit in which the gift is given, not the cost of the article itself, which counts.

* * * * * *

If you are in doubt as to what to send in the case of a large circle of friends, you should try to find out just what has been given so as to avoid duplication. It is not uncommon for the bride of to-day to have enough odd pieces of silverware to start a store, yet the most essential pieces have been forgotten.

* * * * * *

But no matter what our gifts consist of, the real home is founded upon happiness, and we come to that quotation: Home is home, though it be never so homely."

* * * * * *

And we have from Emerson: Nothing is more simple than greatness; indeed, to be simple is to be great."

* * * * * *

Real happiness is cheap enough, yet how dearly we pay for its counterfeit.

* * * * * *

And the new homemaker when welcoming her first guests will remember a quotation from "Come Dine With Me."

* * * * * *

"For whom he means to make an often guest,
One dish shall serve; and welcome make the rest."

GREAT NECKERS

ATHENS, O., June 6.—At least, the gals are frank about it. Ninety-three per cent of the co-eds enrolled at Ohio University admitted that they neck—and bragged about it. Out of 231 interviewed, 213 admitted they indulged in necking parties.

LADIES' AID MEETS.

Bethany Women Plan Strawberry Festival For July 6.

BETHANY, June 6. — The Ladies' Aid of the United Church met on the church lawn on Friday afternoon, sixteen members present. Considerable time was spent in fixing the lawn, arranging the flower beds, etc. A meeting was then held to make arrangements for a strawberry festival to be held on the church lawn July 6. Afternoon tea was then served, the following committee of ladies acting as hostesses: Mrs. J. Jones, Mrs. W. Lee and Miss Ella Jackson.

The entertaining committee for the next meeting to be held in June will be Mrs. (Rev.) Poulter, Mrs. Clarence Neill and Miss Sara McMullen.

Irish Eyes

By LEETE STONE

Jackson Gaige, head of Gaige, Talmadge and Gaige, was obviously worried and flurried Something was wrong.

To Kathleen Callahan, his secretary, he represented all that was noble, honorable and brilliant in the legal profession. She noticed her employer's sudden abstractions in the middle of dictation, watched him gaze wistfully out of the window over the tops of a myriad buildings, saw his fits of fidgeting—and she felt very sorry for him; she wished she could help unravel the tangle.

His pretty little secretary, who had eyes of Irish blue and blue-black hair, blamed Jackson Gaige for only one thing; namely ,that he had recently discharged William. William was bookkeeper, cashier and purveyor of pay envelopes.

Still, Kathleen knew her worthy chief was not really the one at fault. That cat, Irene French, had done it. She wore her heart on her sleeve where William was concerned, and he made no secret of his preference for Kathleen. In spiteful retaliation Irene had carried untrue tales of William's omissions and shortcomings to the office manager, who, in turn, had at once requested the chief for permission to let the young man go.

Kathleen was sitting in her small office next to Mr. Gaige's spacious room one morning when she heard two men who had just come in, talking loudly and earnestly to her chief. Fists thudded the big mahogany desk in strenuous emphasis of a point here and there. The two men finally left and she could hear Jackson Gaige pacing up and down his office in the troubled way he had of late.

At last he pressed the buzzer that summoned her and Kathleen hurried in with her notebook. As she seated herself at the glass-topped desk, the manager stepped hastily in, excitement written in his eyes and a letter crushed in his hand.

"Here's another letter from them, Mr. Gaige. They won't wait but four days longer. If they push the case before that bill goes through, our goose is cooked. What did you tell those two chaps from the District Attorney's office who just left?"

Kathleen hated the manager with Celtic fervor. He had dismissed William, and now he was taking an insolent tone with her kind boss.

"You've got to fight them with their own weapons," continued the manager. "If we can't persuade Kelly to defer that case until after election; if we can't get a satisfactory interview with him—well, we must try other means. I know you're dead against a bribe; but if two or three hundred dollars slipped to Jenkins, who needs it badly, will straighten matters out...." He shrugged eloquently.

"I used every argument in the world with those two men," Jackson Gaige replied. "They held out against me, saying the only possible delay would be if Kelly himself postponed the case. Guess we're at the end of our rope. Kelly won't give me an interview. If he would see me I'm sure I could straighten out the whole business; but he won't. I was about to try him once more with a letter when you came in, though I'm afraid its' useless— Take this, please, Miss Callahan!"

"Mr. Patrick J. Kelly,
99 Nassau Street,
New York,
Dear sir—"

"Please, Mr. Gaige, I'd like to say something," said Kathleen.

The kind boss and the hated manager turned impatiently to the trim little secretary.

"If you'd like an interview with Patrick J. Kelly of 99 Nassau, I'm sure I can arrange it. You see, he is my stepfather. He'd do almost anything in the world I wanted him to because he's very fond of me. He's never been keen about my being in business—doesn't see why I should want to be independent when he loves to give me everything. I wish—so we don't talk much about it at home. I don't suppose he even remembers where I'm working."

"Well, I'll be darned!" said the kind boss to the unkind manager.

Unique situation! Kathleen Callahan secretary, of wondrous Irish eyes, solving a situation that had nagged the brains of half a dozen men for half a dozen days.

The interview was arranged for the next day.

Everything was adjusted and settled amicably, after which Jackson Gaige asked Kathleen what she would like as as token of appreciation for her valuable service.

Kathleen reminded her chief of one, William, former bookkeeper, cashier and purveyor of pay envelopes. Had Mr. Gaige any direct knowledge of the slightest defection on William's part?.... Ah—no indeed! He had simply been told by the manager, who had been informed by Miss French that William paid too much attention to someone in the office, and neglected his work..... Then, if the kind boss had no objection, could not William be reinstated?..... Well—ah, of course the manager had charge of these minor matters; but if injustice had been done, certainly he, Jackson Gaige, would see that William returned.

"Which means, I presume," Kathleen's employer patted her shoulder, a world of understanding shining in his smile, "that I shall be getting a good bookkeeper, perhaps—and losing a good secretary, surely. However, a fair exchange is no robbery—eh?"

Irish eyes looked up at him and smiled.

FAVORITE RECIPE.

JUMBLES.

(Contributed by 'Betty Lou.')

Three eggs; 1½ cups brown sugar; ½ cup butter; ½ cup lard; 1 cup chopped dates; ½ cup chopped walnuts; 3 cups flour; 1 teaspoon vanilla; 1 teaspoon soda. Drop on greased pans and bake to a nice brown.

The hair of men is said to be finer than that of women.

A PROBLEM SOLVED

Thousands who have previously failed to find a hygienic toilet tissue have adopted INTERLAKE as their household standard. A special tissue free from alkali, acid or other impurities. 700 sheets in each roll guaranteed. 10c. per roll, 3 for 25c. Do not accept substitutes. 194

Interlake Toilet Tissue

RUSSIAN SAFETY PLAN HIT.

Reports that the Soviet governmen is considering the erection of experimental buildings with "armored" walls and gas-proof chambers, have caused much discussion among scientists and engineers of Europe. According to the reports the walls and foundations of the structures would be thick reinforced concrete. Each floor would contain a gas-proof room with air-tight double doors and a supply of oxygen tanks ready for an emergency. Below the structure, underground stories would form additional safety places. Above, a series of protective roofs would make bombs harmless. Beneath the buildings would be underground highways, railways and light and water plants. One European chemist has scouted the idea, declaring that the danger of gas attacks on large cities is overestimated because planes could not carry enough gas to do great damage.

GAINED 10 POUNDS IN 22 DAYS

That's going some—but skinny men, women and children just can't help putting on good healthy flesh when they take McCoy's Cod Liver Extract Tablets.

Full of health and weight building substances—the proven and successful kind—the kind that are a real help to frail, rundown, skinny men and women.

Try these supremely efficient sugar coated tasteless tablets for 30 days—if they don't help greatly your money will be refunded.

One woman gained ten pounds in twenty-two days. Sixty tablets, sixty cents—Economy Size $1.00. Ask McDermid & Jury, McDermid's, Bond's, Lynch's and Payne's or any druggist for McCoy's Cod Liver Extract Tablets. Directions and formula on each box.

HOW CAN THEY?

DENVER, June 6.—A red button the lapel of a handsome young man at the University of Denver causes many a fair co-ed to see red. This red emblem is a sign that the young fella is a member of a "woman hater's" club that has sprung up on the campus here. The only occasion one of these members talk to the opposite sex is that of business.

IDEAS FOR THE DYE-WISE

PRIZE LETTER FOR WISE DYEING

"No Dye to Compare with Sunset"

Says Mrs. Chandler

"Having a peach coloured linen dress to darken, I obtained Navy Blue Sunset Dye, but made the solution weak as I desired a lighter shade than Navy. It came just what I wanted. I still wear the dress and it has been laundered all winter.

"Delighted with my first Sunset experience, I dyed a flat silk crepe of soft blue and white with tiny checks of black. I used Old Blue Sunset making the dye bath stronger than called for in order to cover the black thread. It came out darker than Old Blue, a smooth, even colour. I dyed a light gray figured wool dress, simply darkened it about two shades with Gray Sunset, and it looks like new material.

"I dyed a heavy, white wool sweater using Dark Brown Dye, and the result was perfect. My latest venture was a tan silk dress, the bottom heavily embroidered. I used Black Dye, and the result is highly satisfactory, a perfect black with a beautiful lustre.

I have never found any dye that compares with Sunset. They give maximum results with minimum labor, are so clean and free from discolouration of the hands, utensils, pressing board, etc., they are a joy to use, directions are so simple yet comprehensive."—Mrs. J. S. Chandler.

For fast dyeing use Sunset Soap Dyes, 15 cents a cake. For beautiful tinting use Dytint, wonderful new tint in a big box, 10 cents. Made in Canada.

Announcing an Advance Showing For One Day, on Friday, June 7

Mr. and Mrs. Leo Clancy motored from Detroit to visit the former's father, Mr. John Clancy, Charlotte Street.

* * *

Mr. Harold Barnard of the Dominion Bank staff spent the week-end with his cousin, Mr. Ross Morrow, of Lindsay, and also took the excursion to Toronto and Niagara Falls, on Monday.

* * *

Miss Annie Amys, daughter of Dr. and Mrs. C. H. Amys, obtained standing in the third year examinations in the Household Science department of the University of Toronto.

* * *

Mr. Walter T. Belleghem is in Toronto to-day, attending the convention of the Ontario Funeral Association.

* * *

Mrs. James Kerr of Campbellford received honorable mention in the results of the short-story contest conducted recently by the "Canadian League," the official organ of the Catholic Women's League of Canada.

* * *

Mrs. Fred Free of Campbellford was soloist on Monday at the wedding in Warkworth of Miss Verna Thompson and Mr. Orval E. Kelly.

* * *

Mr. George Manning whose marriage took place recently, was presented with a handsome china tea set by Mr. W. Scott, of the W. Scott Coal Company, with whom he is employed, while Mr. Ira D. Moore, manager of the Scott Company, presented him with a cheque.

* * *

Mrs. Vincent Eastwood, Junior, entertain at dinner and bridge at her home last evening in honor of Miss Marion Harstone, whose marriage takes place this month.

* * *

At the graduation exercises of St. Michael's Hospital, Toronto, held last evening in Columbus Hall, the prize given by Dr. G. S. Fould for proficiency in the out-patient department was awarded to Miss Margaret MacPherson, one of the graduates, and a daughter of Mrs. F. R. J. MacPherson of this city.

* * *

Friends of Mr. and Mrs. Walter M. Hogan of Montreal (formerly Miss Myra Moloney of this city) will be interested in the announcement of the birth of a son, Walter Joseph.

* * *

Miss Dorothy A. Moir, daughter of Dr. and Mrs. A. Moir, took honors in the third-year examinations for the Arts course (Department of Household Economics) of the University of Toronto.

* * *

Mr. and Mrs. Thomas White and Jack White, with Mrs. William Collins and son, Gerald Collins, all of Toronto, were guests over the week-end of Mr. and Mrs. J. McWilliams of 36 Ware street.

* * *

Miss Dorothy Langley, daughter of Magistrate and Mrs. O. A. Langley, was a successful candidate in the third year Arts courst of the University of Toronto.

* * *

Miss Mary Harstone is in Toronto for a few days.

* * *

The official opening for the season of the Peterborough Golf Club was a very successful event of yesterday afternoon and evening, when a very enjoyable program of games, followed by dinner, bridge and dancing, was the entertainment of the day. The chilly weather, which had little effect on the tournament of the afternoon, spoiled the verandah dancing to a certain extent, but the evening was much enjoyed, nevertheless and the entire affair proved to be a splendid beginning of the local golfing season. Arrangements for the afternoon contests were in charge of the sports committee, with Mrs. C. G. Graham as convenor, assisted by Mrs. Gerald Wood, Mrs. B. D. Hall, Mrs. Reg. Turner and Mrs. D. Lawrie. The driving competition was won by Mrs. C. G. Graham and Mr. F. C. Webber, while the one-club competition and the blind hole were both won by a quartette that included Mrs. Gerald Wood, Mrs. J. F. Strickland, Mr. F. C. Webber and Mr. H. C. Sootheran. In the evening, winners of bridge prizes were Mrs. J. A. Dewart and Mr. Carl S. Browne. Four tables were played, while the other guests danced. Arrangements for dinner were in charge of the social convenor, Mrs. E. Stratford Martin, and her committee; Mrs. H. A. Morrow, Mrs. L. A. Potvin, Mrs. E. H. Wood and Mrs. J. F. Strickland. The decorations were lovely and were carried out with a profusion of Chinese lanterns, tulips and lilacs, arranged in hanging baskets and on the six long and four small tables that were used. About eighty guests were present for dinner, including Mr. and Mrs. W. C. Ackerman, Mr. and Mrs. F. M. Delafosse, Mr. and Mrs. F. C. Webber, Mr. and Mrs. C. S. Browne, Mr. and Mrs. J. A. Dewart, Mr. and Mrs. Bazil D. Hall, Mr. and Mrs. Fred L. Roy, Mr and Mrs. W. Sangster, Dr. and Mrs. T. P. McCullough, Mr. and Mrs. Gerald Wood, Mr. and Mrs. L. A. Potvin, Mr. and Mrs. J. H Vernor, Mr. and Mrs. J. F. Strickland, Mr. and Mrs. B. L. Barns, Mr. and Mrs R. Abbott, Mr. and Mrs. D. Lawrie, Mr. and Mrs. R. T. E. Hicks-Lyne, Mr. and Mrs. Gordon Matthews, Mr. and Mrs. Claude Rogers, Mr. and Mrs. C. G. Graham, Mr. and Mrs. Ford Turner, Mr. and Mrs. G. Monkman, Mrs. E. S. Martin, Mrs. J. A. Aylmer, Mrs. E. H. Wood, Mrs. F. D. Kerr, Mrs H. A. Morrow, Mrs. L. Scott, Mrs. W. H. Hill, Mrs. Reg. Turner, Mrs. A. E. Coulthard, Mrs. W. White, Miss Daisy Davidson, Miss Mayme Montgomery, Miss Meta Meredith, Miss Marjorie Hatton, Miss Lenore Lyle, Miss Margaret Denne, Miss Mary Mulholland, Miss Eleanor Eastwood, Miss Maida Conner, Miss Edith Killaly, Miss Jean Fraser, Miss Elsie Anderson, Mr. O. DeGraw, Mr. V. J. McElderry, Mr. John Crane, Mr. W. F. Huycke, Mr. G. A. Macdonald, Mr. H. Cooper, Mr. Frank Bradburn, Mr. G. Howson, Mr. Pearson, Mr. Douglas Hall, Mr. A. Jennings, Mr. Ross Dobbin, Mr. Alex Donnelly, Mr. H. C. Sootheran and Mr. Logan Dickieson.

Make last-year's sportswear newly smart *with* Tintex

. . . . *will you* permit Tintex to save you many dollars in your Summer sports-outfit? Then just get out your last year's faded sports-wear and you will be delighted at the way Tintex will restore them to original beauty and usefulness.

. . . *and you* will be surprised how easy it will be, too—really just fun, for with Tintex you simply "tint as you rinse." Tintex gives you the very colors that all smart women are wearing for Summer—flaming oranges and yellows, glorious orchids and blues, lovely pinks and greens.

. . . . *you can see* the Tintex Colors on actual samples of silk. Simply ask your dealer to show you the Tintex Color Card—today!

—THE TINTEX GROUP—

Products for every Home-tinting and Dyeing Need

FASHION SERVICE

Madame Jenny has used a navy blue mousseline de soie, dotted with red, green and yellow, to make this summery frock with its graceful skirt and wide flowing sleeves.

SUMMERY FROCK IN DOTTED MOUSSELINE DE SOIE.

By Mme. Jenny.

I have used navy blue mousseline de soie, dotted with red, green and yellow, to make this summery frock, concentrating the interest in the wide flowing sleeves, and in the skirt which has a whole series of supple points which ripple softly about the figure and preserve its slender line.

REMOVABLE VESTEE.

A black satin frock has its waist cut tuxedo, with a three-inch circular flounce outlining the front. The finely pleated suntan chiffon vestee is removable for cleaning.

NEW ENSEMBLE.

With a short blue jacket topping a white sleeveless sports frock for summer, there is a beauty in a jaunty tricolored striped cravat scarf, large bag and sun parasol.

HIGH LOW.

Sports shoes in brown and white leathers favor the new high-low heels. This is a happy compromise between the golf heel and the spectator sports sandal heel.

NEW TIE.

Those fringed-end Louiseboulanger scarves do not have to be tied under the chin in a school-boy knot that is unbecoming to older women or those with round faces. Paris ties them low, just above the normal waistline.

NEW COLLAR.

A golden beige summer tweed suit has its raglan sleeved jacket finished in a new way. A little rounding yoke takes the place of a collar and ties in front, like a bow tie.

Sore, Swollen Feet

Sore, swollen feet—burning all day! Bathe them in "Tiz" and you can just feel all the ache being drawn out and glorious comfort soaking in!

"Tiz" draws out the poisons and acids that cause feet to swell, burn and ache. Also takes all the soreness out of corns, bunions and calluses. Sweet, fresh, comfortable feet the year 'round with a package of "Tiz." Get it at any drug or department store.

WEAK WOMAN TELLS HOW QUICK HUSKY STRENGTHENED HER

Well-Known Resident Tells How This Medicine Relieved Weak Feeling, Improved Digestion and Makes Her Sleep Better.

MRS. ROSA PAMPLIN

"Husky is a great medicine to build you up and it has saved me so many, many hours of suffering that I feel like telling everyone about it," said Mrs. Rosa Pamplin, of 165½ Rawdon St., Brantford, Ont.

"For several years I have been so terribly weak," she said, "and have suffered so much with indigestion and I don't know what I would have done if I hadn't found Husky recently. My nerves were weak and shaky and I never did get a good, restful night's sleep.

"Ever since I have started the Husky treatment I have noticed a great change. I have gotten stronger and I am not nervous like I was. I have a good appetite as my food agrees all right, I sleep restfully and feel so well. I cannot say too much about Husky, for it has made my life so much happier, and I certainly do recommend it to everyone."

Begin using Husky to-day and note how soon your food tastes better, sleep is more sound and restful and you feel stronger. It is nothing short of marvelous what this medicine will do for you in a few days.

If you would like to know more about "Husky" call on the Expert from the Husky Laboratories, who is now making his headquarters at Bond's Drug Store. He explains, free of charge, how best and quickest results are obtained from the use of this medicine and answers questions about the treatment. Call at Bond's and ask for the Husky Expert to-day. His information has led thousands to find the relief and new health they had been seeking for years.

MARION'S MAIL

Address correspondence to Marion, at The Examiner Office.

Dear Marion:

How are you? There were two evenings without your "Whatnots," and I wondered if you had been ill. I hope not, and I did miss your writings. We used to get such a lot of nice letters, but they seem to have dwindled down to a few.

Come on, neighbors, don't leave it to one or two, as we all like to read the letters! I noticed a few of the neighbors seemed to like my letters, and I thank them for their nice comments.

Your Whatnot of Tuesday, the 4th, interested me a lot, Marion, and I agree with you, that your hostess had a poor method in running her home. On the other hand, Marion, there are exceptions. For myself, mornings are my worst times. I have a weak spine (although I look the picture of health), and it is always about 8.30 or 9 a.m., before I can get really going. I usually get up about 6.30 or 7, start the fire, prepare the grapefruit, etc, and after breakfast, when the children have gone to school, I generally mend or darn or knit for about half an hour. Then I can go ahead, but I must have a little rest first. I always get up tired, but after I get a short rest I feel better.

But I generally get all my hard work done in the morning, and when I have visitors, I get it done before they are up. Some visitors are fine, as they seem pleased with your efforts, and give a little help now and then. I think you would be like that, Marion. Others, again, sit around and do nothing, but slip in a little criticism now and then.

You seem to have travelled quite a little, Marion, and I think that is what makes your writings so interesting. I, too, have travelled quite a little, but my pen does not move, nearly so well as yours. I only wish it did.

In regard to farm work; some women are more fitted for it than others. One lady farmer said to me, that anyone could work on a farm if they put their mind to it. I asked her if she put her driving mare on the plough. She said, 'Why, no, she is not able for such work, as she is nervous and high-strung, but a good driver.' I asked, didn't she think that there was just as much differences in human beings, some being fitted for one kind of work and some for other kinds. Apparently that point of view had not presented itself to her. So now, Marion, I will conclude this rambling letter and enclose a 2-cent stamp for help marked.

With sincere good wishes,

Your friend,

'Quo Vadis'."

We are always glad to hear from you "Quo Vadis" and I am sure the neighbors will enjoy reading your letter as much as I did. I hope the warm weather—if it will ever come back—will be beneficial to you with your weak back.

Marion

IN WOMAN'S REALM.

By JEANETTE.

"When a man does not keep pace with his companions, it may be because he hears the music of a different drummer."—Thoreau.

* * *

Those who have been clearing out clothes closets and attics in the house-cleaning season would do well to remember the needs of two old people whose belongings were entirely destroyed by fire last week.

Thomas Tweedy, living in a log house on the Government road above Buckhorn, suffered from a disastrous fire that burnt out all his household goods and clothing, while his wife, who had come in to the city to see a daughter here, had only the clothes that she wore on the trip.

The two old people are now staying with the daughter, who is employed at 271 McGill Street, and anything in the way of clothing or money that would help to get them on their feet again, would be much appreciated.

* * *

"It's not the 'igh 'opping over the 'urdles as 'urts the 'orse. It's the 'ammer, 'ammer, 'ammer of his 'oofs on the 'ard 'ighway."

* * *

Speakers to the city from outside points come and go. They say their pieces and they depart and the amount of good they do is measured by what their hearers remember. But often in the middle of a great deal of chaff there is some little outstanding sentence that remains in the mind. Like these:

Dan McCowan, speaking to the Women's Canadian Club some time ago on the beauties of the Banff district, recommended as a fine piece of writing, in the way of Western Canadiana, a book titled "Women of Red River."

Judge Margaret Patterson of Toronto, speaking to the Kiwanis Club and its friends, alluded to the many women who came before her in Toronto on charges of shop-lifting. Enquiries as to the reason for the thefts often brought the answer: "I took it for a bridge prize"'

And Miss G. Morson, general secretary of the Young Women's Christian Association at Woodstock, addressing the annual meeting of the local 'Y', told a little story of a woman buyer, as illustrative of the manner of women in demanding a good deal for a little return. This woman bought a remnant at a store for half a dollar and went back next day, in great indignation to protest because she found noths in it "What do you expect for half a dollar, madam?" enquired the clerk. "Humming-birds?"

* * *

In an interesting little brochure that has to do with Family Allowances, a scheme which is now in the air with regard to paternal Government assistance towards those workers whose living wage is not sufficient to maintain them and their children in comfortable living conditions, reference is made to the fluctuating nature of budgets, as compiled by various experts. It says:

"For several years past, the Canadian Government, following the lead of other countries, has been publishing every month in the "Labor Gazette" the average budget of a family of five persons, taking retail prices as a basis. For the past year, theamount fluctuates round about $1,100. As this amount includes only food, rent, heating and lighting, the compilers point out that in order to have a complete budget it would be necessary to add fifty per cent. to the official figures. Which means that the real budget of a family of five persons (which is the accepted basis for such figuring) in Canada in 1927-8 comes to about $1,650.

"Several publicists have tried their hands at completing this budget in detail. Miss Margaret Gould, in "Social Welfare", for November, 1926 arrives at a total of $2,160. She had evidently in view surroundings in which the scale of living is higher than the average which obtains in Canada. Mr. Joseph Comeau, formerly agent for the "Catholic Guilds," after instituting enquiries among workers' families of average condition, fixes on a budget of $1,937. Mr. Georges Pelletier, in an essay on the "Family," read at the Social Week of 1923, fixes on a minimum budget of $1,700, and Mr. Arthur St-Pierre on the same occasion proposed the sum of $1,768.

"All these budgets were worked out on the basis of the incomplete budget of the 'Labour Gazette.'

"The Montreal Council of Social Agencies has remodelled this entire budget independently. The results of the Committee of Enquiry, published by Mr. G. B. Clarke last January, indicate a more moderate figure. They estimate at $1,101.76 the budget of a family of five persons and they enumerate in this several items which find no place in the governmental budget, such as clothing, education, transportation, etc. But the compilers of the budget take no account of extraordinary expenses, nor of those which vary considerably from one family to another. Thus no mention is made of medical fees, drugs, assurances, church and charitable expenditure, union and society fees, recreations tobacco, dainties, stationery, renewal of kitchen utensils, furniture, bedding, underclothing, etc. The estimate of $1,101.76 forms but a very incomplete budget and several hundred dollars would have to be added to represent the real expenses of a family of five persons.

"There is also the Family Budget prepared and published by Mr. W. J. Hushion of Montreal which shows an annual cost of $1,800 for a family of five persons. To quote from this budget: 'Each item was tested for accuracy by men and women who are actually living under conditions such as prevail in any working class district to-day.' In his investigations Mr. Hushion tried to get down to the cost to an average family to merely exist, and he came to the conclusion that by the elimination of many things considered indispensable to healthy living it was possible for a family of five to exist in an urban centre on $1,200 per year.

"Special attention should be paid to the question of insurance policies. In calculating the annual family budget, many do not take that item into consideration. We think that this is altogether wrong. To-day, insurance is recognized by all economists as one of the best social institutions now existing; it is considered an efficacious means of forcing people to practise economy, and of averting poverty and misery from the family, in case the wage-earner should die. Without insurance policies, such families generally rely on public charity for support.

"If insurance is a good institution, it should be good for those who have greatest need of it, viz., those families that are entirely dependent on the daily wage of the father for a living. We therefore hold that the annual family budget should include at least $100 for insurance policies, and that wages should be so calculated as to allow for the payment of that sum in annual premiums."

HEADS I.O.D.E.

Mrs. John A. Stewart of Perth, Ont., was re-elected by acclamation to the presidency of the Imperial Order Daughters of the Empire at the concluding session of the annual meeting at Victoria.

The Children Will Love This Treat

Delicious Corn Flakes with Money-Back Offer on Every Package

The finer flavour and crunchy crispness of Quaker Corn Flakes make a big appeal to children. It becomes their favourite corn flakes once they have tasted it.

Try them. The flavour is guaranteed to be the finest you have ever tasted. This money-back offer is on every package.

Serve with cream or milk, or with fruit, fresh or cooked. Each succeeding spoonful tastes better. Easy to serve for breakfast, lunch or supper, after school, or as a bite before going to bed. They are a tempting, satisfying dish.

For languid appetites, as well as those of healthy youngsters who are always hungry, these dishes are sure aids to mothers:—Quaker Corn Flakes with berries, peaches, prunes, or other fruit, or just with milk or cream.

The fine flavour and crispness are retained because the package is triple-sealed and wax-wrapped. Moisture and taint proof.

And besides—packages contain coupons with which you can secure high quality silverware and other household and personal articles you need.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

HONOR FIRST FLIGHT

It is to be regretted that memory is so short and that the majority of Canadian people have apparently forgotten British airmen were the first to make a transatlantic flight, so the Daughters of the Empire of Peterborough, the Otonabee, Peter Robinson and 57th Chapters, wish to call attention to this fact. Sir John Alcock and Sir Arthur Whitten Brown, starting from a Newfoundland point, and landing in Ireland on June 14, 1919, were the first successful flyers.

So on this date of June in this year, the members of the organization requests that merchants and citizens display their flags in honor of the occasion, and that it be remembered that the first flight was made by a British plane and by British aviators.

NEWEST DANCE HITS.

Melody Inn at Lakefield, specializes only in the most recent of song hits. "Rick" promises some real arrangements of the newer pieces for those who drop in for a dance at this new pavilion. Among the latest are Lonely Cinderella, by Emmerson Gill; How About Me?; Louise, a latest waltz medley by Irving Berlin of the following numbers; Marie, Coquette, and Where is the Song of Songs for Me?; the theme song for Corinne Griffith's picture To be in Love, "Lady Divine," Dream Boat, from Fioretta, and an autographed copy of "My Ideal," a new song by Larry Norett and Sam Stept, Cleveland composers.

PRESENTS BRIGHT APPEARANCE

The Empress Hotel is prepared to attract tourists and the Old Boys and Girls. The front of the building has been repainted, and a bright, colorful awning, has been placed over the balcony, the combination making an attractive front.

NEW RECORD FOR JUNE.

A resident living on the corner of Smith and Antrim Streets had the unfortunate experience last night to have a bed of gladiolas nipped by frost. This is a very unusual occurrence in the month of June for this section.

BANK CLEARINGS.

The bank clearings for the week amounted to $961,621.

NO FIRE DAMAGE.

Excessive smoke at 356 Park Street gave the Fire Department a run at 7.57 this morning. No damage resulted.

CAFES REDECORATING.

The Paris Cafe is closed for two weeks until it is redecorated, and when opened for business again it will present a new and attractive appearance. Louis Cafe on Charlotte Street is also in the hands of the decorators, and is being dressed up for Old Home Week. However, this latter is not closed and is doing business as usual.

PRESENTATIONS MADE.

A number of presentations were made at the assembly of students in the Collegiate yesterday morning. Pennants were presented to the winning forms of the girls' inter-form basketball league, Forms 4B and 2A being the winners of their respective groups this year. The girls of the senior basketball team of the school, which won all the games it played, were presented with crests. A gift of a picture, entitled "After the Picnic," was also made to the school by the Girls' Athletic Association through the principal, Mr. Kenner.

LEFT ESTATE OF $13,337.

Mr. Robert Quinlan, of Toronto and formerly of Havelock, falls heir to considerable money from the estate of his brother William, who was killed in an automobile accident in Toronto on April 5th last. The brother was unmarried, and left an estate of $13,337, and no will, so that the estate goes in equal shares to his three brothers and two sisters.

BAND CONCERT FRIDAY NIGHT.

The Rangers Band will commence their season's concerts in Victoria Park on Friday, June 7.

DRAW PLANNED FOR FALL

Otonabee Chapter of I. O. D. E. Holds Last Meeting of Season.

At the regular meeting of the Otonabee Chapter I.O.D.E., held yesterday afternoon in the green room of the Y.W.C.A., it was decided to have the draw for the silver tea service take place in the Fall.

The meeting was the last one for the season and was presided over by the first vice-regent, Mrs. C. A. White.

The members were reminded of the sale of work which takes place in the Fall and announcement was made that the Chapter would co-operate with the other I.O.D.E. Chapters in the city, in putting on a float in connection with the Old Home Week.

EXPLOSIONS IN BIG CRATER

(Continued from page 1)

approaching the mountain. Automobiles have been turned back a long distance from the volcano in order to leave the roads clear for fleeing inhabitants. The railway trains run only as far from here as Boscotrecase, a suburb.

The pillars of smoke from the cone have cast a pall over the entire countryside, giving it much the appearance of a dire prophetic twilight.

Diamonds valued at more than $70,000,000 were shipped from South Africa last year.

RUBE VISITORS CAUSE LAUGH ON CITY STREETS

Si and Mary Stebbins From Smithers Corners Seen in City To-day.

HOLD UP TRAFFIC.

Huge Crowd Follows Comedians in Beautiful Whippet Car.

Si and Mary Stebbins from Smithers Corners are in town. They were on the streets to-day. Not that they are on the social register or that they claim descendents from one of Peterborough's pioneers but they draw a lot of people even as they are.

That's why. Because they are as they are and the funniest pair of rubes who ever drove a Whippet roadster across a level crossing or held up traffic on GeGorge street. They are on their honeymoon — that's one of the reasons why they are so funny—and they are seeing Peterborough on their first trip.

A wedding present as Mary says—a Whippet roadster with finger trip controls and a jumble seat—but Si insists that it has finger tip controls and a rumble seat.

When Si parked this noon on George street, Mary had a hard time directing him to the curb, shouting, pushing and warning, Si, an expedienced driver of two weeks she finally guided him within six inches of the curb but not until a huge crowd had gathered. Then Mary wanted some gum so into the Metropolitan Store went Si and bargained for three packages for 10c.

Call on Mayor

Mayor Roland Denne missed a big sale when he was out, as Si called on him to find out the price of five tons of fertilizer for his brother's farm near Omemee, however, Si is going back and perhaps he can get the five tons.

Bill Williams, an old friend of the couple, works at the Canadian General Electric and so to the big plant went the couple from the small town and if they did not locate Bill they drew a big crowd at the plant and so entertained them with some mystifying card tricks and told them all about the Whippet that was Mary's wedding present. Si would not let her have the car to take one of the good looking fellows for a ride, as he had just bought her a new pair of shoes and he did not want her to wear them out too soon.

Of course a girl like Mary is more used to hosses than Whippets. She said that Si bought her the neat littel roadster as a honeymoon present after seventeen years on the farm, and in spite of the fact that she was his third wife she can only say "Ain't he grand?" Although married only two weeks she said that she would like to have been married sooner.

Now I Know You Love Me

"Don't shove me like that" she would say and Mary would be shot into the far side of the car like a stone from a catapult, but Mary would only smile and put her arm around the ancient tweed coat of her lover and say "Now I know yer love me dear."

They are staying at the Empress Hotel but Mary says that don't faze her none. "I stayed over to the Smither's house, Smither's corners when I was married and they served tooth picks with every meal" said Mary. So you see the Stebbins are no ordinary mortals. They know their finger bowls. Mary, like all women, talks a great deal, and Si the true man, replies, "Shut up."

They will be in the city for the next three days and each night in Duffus' Show rooms from 7.30 to 8.30 they will give some real entertainment.

It is a free show to everyone who wishes to drop into the Duffus' show rooms and an opportunity to hear a famous team. Mary would like to admit first of all of being under the Big Top with Barunm and Bailey and later a star vaudeville act on the Keith-Orpheum circuit.

The next three days will see them on the streets in their Whippet roadster and meet new and old friends, to give everyone a laugh, as they walk into an ice cream store and get Cocoa Cola with two straws or tell the traffic officer that the lights at the corner are winking at them. They are real folks.

ONE JURY CASE IS SET DOWN

(Continued from Page 1)

and damages from the city for injuries which she suffered from a fall on the sidewalk at George and Westcott streets, on December 18, 1928. She alleges that ice was allowed to accumulate and was thereby dangerous to pedestrians. Gordon and Elliott for plaintiff and City Solicitor Wearing defending.

Mitchell Vs. Quigley.

In August, 1928, Lewis Mitchell and Joseph Quigley began to work as partners, taking stone and gravel from the Patterson pit in North Monaghan. Mitchell alleges that Quigley tried to exclude him from active management as a partner, and wrongfully caused accounts to be made out and rendered in the name of the defendatn instead of the name of the partnership and collected the moneys thereof, and at the same time caused account paper to be prepared in the name of the partnership, copies of which he furnished to Mitchell who was unaware that Quigley was sending out bills to various parties and companies in Quigley's own name.

On Jan. 2, 1929, Mitchell issued a writ claiming dissolution of the partnership and an accounting of the monies received. He asks in this suit that the partnership be dissolved and that an accounting of the business be made and the affairs wound up; also for a permanent injunction restraining the defendant from collecting or receiving any money that may be owing the partnership. Also costs of the action.

The statement of defense alleges that Mitchell refused to do his work as a partner, and refused to assist and perform his share of the labor. The defendant kept books of account and sent out bills at the request of the plaintiff, and the working arrangement was that both partners should give full time to the business.

Quigley alleges that Mitchell has removed machinery and plant, making successful operation of the business impossible.

Quigley alleges that he always accounted to Mitchell and explained the position of the partnership, but "plaintiff decided to be superintendent of the plant, and with the connivance of one Patterson, the lessor of the plant, conspired with Patterson to oust Quigley from the business so that Mitchell and Patterson might acquire the gravel pit to their own advantage."

He counter claims for dissolution of the partnership, accounting and costs. Peck, Kerr & McElderry for Mitchell, and Gordon & Elliott for Quigley.

A Highway Case.

William T. Cresswell, of Peterborough, asks $240 damages with costs from Fred T. H. Mawson, of Toronto, as a consequence of a collision of their automobiles at West Hill, 12 miles west of Toronto, on November 12, 1928. Cresswell alleges that Mawson was driving at a high rate of speed and did not have control of his car.

Mawson's defense is that he had to stop suddenly to avoid collision with a car in front of him and going in the same direction westerly, that he collided with a car on the north side of the road and after this collision drove across to the south side. While his car was stopped with all lights lit, Cresswell driving at an excessive rate of speed, collided with Mawson's car, greatly damaging it.

Defendant alleges that he did nothing to contribute to the collision. He enters a counter claim for $110 and costs.

SI AND MARY STEBBINS

This fine looking pair is celebrating their honeymoon by automobile tour and are in the city for the rest of the week. They may be seen on the street in a new model Whippet and are the guests while in the city of J. J. Duffus, Ltd.

Bowling Tourney On Friday Night

The Men's Bowling Club of Peterborough have decided to hold Friday night tournaments again this year as was the custom last year. The first will be staged to-morrow night if good weather prevails, and a good attendance is expected. An Auto-strop razor outfit will be the prize for the winner of to-morrow night's tournament.

These weekly tournaments proved to be very popular last year and the club looks for an equal degree of interest this year. A schedule will appear on Saturday.

In Police Court

"It is possible that he has drunk more than he ought, but the question is, how much ought a man to drink when the government supplies him with the liquor," so spoke F. D. Kerr, K.C., while pleading leniency for a man convicted of a breach of the liquor control act in the police court this morning. The man's permit was under scrutiny when his counsel asked Magistrate Langley the question.

A local man pleaded guilty to consuming liquor in other than a private residence. He was given the choice of paying a fine of $50 or remaining in jail for thirty days, it being his second offence. He paid the fine.

Another man on the same party pleaded guilty to the charge of having liquor obtained on a permit in other than a private residence. He was fined $100. It was in this case that Counsel Kerr made his strong plea for the minimum fine.

"Just falling in line with the clean up at Keene," stated Constable H. Thompson, when another county man pleaded guilty to consuming. He paid a $10 fine.

In County police court yesterday afternoon three otners from Keene pleaded guilty to consuming liquor at the big Keene dance, and were fined the minimum $10.00.

Proclamation !

Know All People

That life's great victories as well as private achievements, are based on the actions of individuals.

(It is the individual soldier who brings victory to the army).

That no community cause can prosper except with the support of every member of the community.

That Peterborough is embarked upon a City Beautiful Crusade—for the delight both of those whose homes are here and those who will return for Old Home Week.

WHEREFORE know ye all that The Examiner and the Horticultural Society have united in common cause against weeds, unsightly lawns, unkempt flower gardens, and barren spots—and they call for recruits in the name of Peterborough The Beautiful.

Beautify Peterboro Campaign

CONDUCTED BY THE EXAMINER

Sign this pledge and bring it to The Examiner Office. You will be given two attractive "Please Keep Off the Lawn" signs, 8" x 6", printed in green.

I will endeavor in all possible and legitimate ways to preserve my lawn; I will check up persons who habitually walk on it; I will care for my lawn regularly so that it will be always attractive; I will not "cut across" any other person's lawn.

Cobourg Falls Before Onslaught of Ray Batters

MAUDSLEY'S GREAT PITCHING FEATURES RAYBESTOS' INITIAL LAKESHORE LEAGUE VICTORY

Brakeliners Win From Cobourg 13 Runs to 2 With Visitors Tamed By Southpaw Ace.

FOURTEEN STRIKEOUTS.

Raybestos Have a Batting Bee at Expense of Two Cobourg Twirlers and Finish Looking Back.

(By F. D. C.)

"Sailor" Maudsley took the Cobourg team for a ride at Exhibition Park last night when Raybestos beat the Campbell-Boundy entry 13 runs to 2 in seven chilly innings. Art Primeau's men thus taking their first scalp in three starts in the Lakeshore League.

The Rays' southpaw ace simply made the talent from the Horse Show town sit up and say uncle.

In seven innings he mowed down fourteen of the invaders via the strikeout route, retired the side in order in four of the frames, allowed only three singles and was never pressed except momentarily in the third session when his supporting cast wobbled.

Meanwhile as Maudsley cast his portside spell over the Cobourg bats Raybestos were fattening their batting average at the expense of two visiting moundsmen. They shelled G. Campbell off the hilltop in less than four innings and their war clubs rattled merrily against the offerings of McMahon, who led a relief expedition early in the fourth and failed to show any reason why he had been selected for the task.

Every member of the Rays lineup got at least one run and one hit so that altogether it was a cheery albeit frost-bitten evening for the local crew. In spite of the Arctic breezes there was a refreshingly large crowd in the grandstand.

The Raybestos team included two former members of the Central Ontario League team in Fred Hickey and Shockey Mein, released at the beginning of the week by the Petes. Both broke into the error column but on the other hand contributed effectively to the offensive strength of the winners.

The fielding feature of the twilight engagement was a nice running catch by Harry Corrin of McMahon's short fly in the fifth. Corrin had to come in fast for the drive.

Raybestos took the lead in the second frame when, with one out, Markey failed to judge Corrin's high wind-blown fly to centre field and it went for a double. Corrin rode home a few seconds later when Hickey lined a single into right. Mein drew a pass. Hickey was caught between bases and called out, but Oscar Nicholls ripped a double through short to score Mein. Maudsley's roller to first ended the inning.

Cobourg evened it up in their half of the third. With one down G. Campbell went to second when Hickey lost Batten's low throw. Markey's high fly in short centre dropped safe for a single, scoring Campbell. Markey went to second when Hickey missed Maudsley's throw and to third when Mein also let a toss get away. Rollins struck out but G. Campbell singled to right scoring Markey. He was out himself trying to stretch the hit into a double.

The Rays went in front again in the end of the frame. Batten got a life on Elliott's miss but was snuffed out trying to go to second on the play. H. Nicholls shot a double down the left field line and scored on Rogers' long double to left centre. Collins rolled to second. Corrin's fly was dropped by Hutton, Rogers scoring on the play. Hickey raised one to Hutton for the final out.

The winner scored a flock of runs without doing much hitting in the fourth. After Mein had fanned, O. Nicholls drew a pass and Maudsley singled past second. When Batten hit to G. Campbell the Cobourg pitcher threw to third too late to get Nicholls. With the bases full H. Nicholls tapped to Hutton and again the throw was slow and O. Nicholls scored. Rogers rolled one to Hutton and once more Cobourg played for the headman and lost him, Maudsley being safe at the plate. Collins dropped a single back of second to score Batten and send Campbell to the bench. Corrin greeted McMahon, his successor, with a single to center on which H. Nicholls and Rogers registered. E. Campbell knocked down Hickey's liner for an out at first but Collins scored on the play and when W. Campbell let the throw to the plate get away Corrin also registerd. Mein, up for the second time, rolled out to retire the side.

Cobourg failed to get a man to first in the last three frames while the Ray hung up a couple of unnecessary runs. In the fifth with two out Batten beat out a roller to Hutton and went to second on the third baseman's wide throw to score on H. Nicholls' single to centre Rogers singled through short and Collins was safe when Markey missed his liner. Hutton tossed out Corrin for the third hand down.

The Rays broke loose again in the sixth. Hickey singled over first and scored on Mein's long double to left. O. Nicholls beat out an infield hit but Mein was out trying to score on the play. Maudsley singled to right but Batten struck out and H. Nicholls rolled to McMahon.

The box score:

Raybestos:	AB	R	H	PO	A	E
Batten, ss	5	2	1	0	2	0

JUST TAGGING ALONG.

A California fighter was matched for a title go and was trying to shake a pestiferous sparring partner who insisted on tagging along wherever the Californian went.

"I'm just going for a manicure," he ablibied this time.

"O. WK.," said the trainer, grabbing his cap, "I'll go along and help you carry it home."—Fight stories.

Doyle Loses His Seventh Game

TORONTO TEAM FALLS BEFORE WELSH VISITORS

Touring Footballers Put To Their Best to Take 4-1 Decision.

LEAD IN FIRST HALF.

Third Victory In As Many Games Played in Canadian Tour.

TORONTO, Ont., June 6.—(Canadian Press).—Gaining their third victory in as many games the touring Welsh Association Football team defeated an all star Toronto team at Maple Leaf Stadium last evening by four goals to one. Opposed by one of the best elevens that has ever been selected to represent this city the players from the little principality—practically all of them internationals—were called upon to play superlative soccer for fully half the game.

While the visitors had easily the best share of the game during the first half during which time they annexed two goals through Warren, the outside right, their opponents pressed vigorously for most of the remaining 45 minutes and were rewarded with a splendid goal by Hunter. The third and fourth goals for Wales were obtained by Neale and Davies after bad lapses by the local defence. Midway through this period the Toronto team were awarded a penalty and Sathrag failed with the kick, smashing a "blinder" against the cross-bar with Gray well-beaten.

The game was played before 10,000 enthusiastic fans in fine weather.

PACKERS DRAW WITH BRINTONS

Over-anxious Players Miss Many Opportunities in Front of Goal.

NO GOALS SCORED.

After a gruelling seventy-minute tussle, the Brinton A.A. and the Canadian Packing soccer teams failed to score a goal in a league encounter last evening at King Edward Park before a good attendance of spectators. Both elevens are credited with a point apiece in the league table to even the standing in the four games played, lost one, won one, and drawn two for four points each. Referee Jack Clark handled the official whistle.

Packers Pressed.

The toss went against the Brinton team and they were compelled to face the sun and a strong wind from the west. Opening exchanges were in favor of the Packers, who were too lackadaisical in front of goal, in fact they wanted a perfect shot which left the defence ample time to repulse the attacks. Hawthorne carried the ball to the other end where the inside left was left in possession of the sphere but missed the open goal. Tactics were confined to midfield with the half-backs never allowing the forwards too much scope, thereby producing free kicks in abundance.

Erratic Shooting.

Whenever the forwards broke through the defence, they tried to carry the ball into the goal, and when in a favorable position shot wide of the mark. In spite of the fact that the Brintons were kicking against the wind, time and again they raised havoc in the Packers' territory and kept Griffin busy in goal. Westwood nullified the sieges at the opportune moments, and finally gave Buchan an opening to visit Curtis' charge. Beggs' individual effort deserved a better reward than an opponent's head deflecting the ball out of danger.

Packers Pressed Hard.

Just before the interval, the Canadian Packers made a determined attack on the Brinton goal without any success, although throw-ins and flag-kicks were mostly in the Brintons' territory until the thirty-five minutes was up.

Half-Time.

Aided with the wind, the Carpet boys opened up the attack on the Packers' citadel to find the full backs in a positive mood. Two raids within the first five minutes caused excitement inside the goal area of the Packers. Then the same performance was repeated on Curtis' charge when Beggs rapped a low grounder for the corner of the net, but the custodian kicked clear. Exchanges continued on an even basis until Robertson on the right wing repeatedly made splendid openings that only brought out the qualities of the defence. A foul against the Packers looked dangerous, but Griffin grasped the ball away from the attacking force.

Both Goals Bombarded.

Raid after raid by the forwards of the two teams enlivened the game to the fans' satisfaction. No matter what movement was inaugurated by the fast moving forwards, the defence closed in upon them to offset the long-swinging method, while the dribbling code occasionally made progress until an opponent would check hard and fast.

Splendid Finish.

Towards the finish, all the players endeavored to break the deadlock, but the game ended the same as it started—no scoring.

The Teams.

Brinton A.A. — W. Curtis, goal; Lucas and H. Curtis, full-backs; Cherrill, Hawthorne, and Creighton, halves; Robertson, James, E. Jones, Sharman and Darling, forwards.

Canadian Packing — Griffin, goal; Westwood and Downer, full-backs; Wilson, Buchan and Bromley, halves; O'Halloran, Carmichael, Beggs, N. Downer and Laidler, forwards.

"BIG BOY" HIMSELF

How many of you ball fans remember "Big Boy" Alexander, who, last year, graced the line-up of the Toronto Leafs. At first they wouldn't have him with the team because he seemed weak on the bag, but they had to admit that he sure could paste the old pill out of the lot.

The second season he made the grade and succeeded in holding down the first sack, and boy, what a heat when he leaned on that pill!

Now he is with the Detroit Tigers and the scouts predict that he will become another Babe Ruth. He is the talk of the major leagues and more than one manager would reach good and deep into the money bags to get his services. He is becoming known as "bads news" for pitchers. So let us all hope that "Big Boy" keeps pushing them uu.

RED SOX STAGE SLUGGING BEE

Athletics Take First Game of Series From St. Louis Browns.

YANKEES WIN BY ONE.

BOSTON, June 6 (C.P.).—Even Manager Lena Blackburne took the rubber yesterday as the Red Sox hammered the White Sox pitchers for a 17 to 2 victory.

Each of the Red Sox hit safetly and drove in at least one run. They made 23 hits for a total of 39 bases. Berry led the attack with a homer, a double and two singles; Todt had two singles, a double and a triple and Bill Barrett, formerly of the White Sox, a homer and two doubles.

ATHLETICS WIN

PHILADELPHIA, June 6 (C.P.).—The Philadelphia Athletics took the first game of the series from the Browns yesterday, well distributed hits being responsible for a 5 to 2 victory.

Rube Walberg again displayed his mastery over the St. Louisians, this time holding them to four hits. Two of these were successive home runs from the bats of Hehlo and Kress. Miller and Cochrane hit for the circuit for the Athletics.

DETROIT LOSES OUT, 8—2

WASHINGTON, June 6 (C.P.).—Big Fred Marberry, who was only a relief pitcher when Bucky Harris was manager of the Senators, got his chance as a starting pitcher against his old boss yesterday, and Washington beat Detroit, 8—2.

Marberry held the Tigers to five hits, and Cronin's error and a passed ball paved the way for the visitors' two runs.

The Senators pounded Carrol from the mound in the fourth inning.

YANKEES WIN BY ONE

NEW YORK, N.Y., June 6 (C.P.).—The Yankees opened their series against Cleveland here yesterday by pulling out a 6 to 5 victory in the twelfth. Waite Hoyt opposed Joe Shoute at the start, but both of these luminaries gave way to less prominent boxmen, Fred Heimach for New York, and John Miljus for Cleveland, who fought the game out to its finish.

Bees are being transported from various flower districts in Los Angeles in motor cars. This is part of experiment being conducted to increase the production of honey.

LEAFS BEATEN BY MONTREAL IN CLOSE GAME

Double and Single in Tenth Wins For the Royals.

READING KEYS LOSE.

Jersey City Slugs Way To Victory Over Newark Bears.

TORONTO, Ont., June 6 (Canadian Press). — The Montreal Royals came to town yesterday, outhit the Leafs 14 to 8, and won the first game of the series, 6 to 4, in ten innings. Double to the left field barricade by Catcher Niebergall and a single by Haines decided the issue after the teams had finished the regular nine rounds locked in a 4-4 tie.

Jess Doyle was doing the firing when the Royals broke up the ball game, the veteran right-hander having gone to work at the opening of the ninth after Walter Leverenz, the starting pitcher, had given way to Pinch Hitter Satterfield in the eighth. The two runs in the tenth meant nothing more than another defeat for Jess. It was his seventh, so he is accustomed to such happenings.

ORIOLES BEAT KEYS.

BALTIMORE, June 6.—(Canadian Press).—The Orioles took a nip and tuck battle in the opening of the series with Reading Keys here yesterday by scoring two runs in the eighth to win 6 to 4, after Reading had knotted the count at 4-all in their half of the same inning.

Stuart Bolen was in hot water continuously with his wildness and was nicked for 11 blows, one less than Welch of the Keys allowed.

BEARS LOSE OUT.

JERSEY CITY, June 6 (Canadian Press).—Nowark Bears fell victims to Don Miller, the Black Cats' newly acquired righthander, for the second time within a week, when they were beaten 7 to 3 here yesterday.

This was Miller's second victory in as many starts with Jersey City.

With the score deadlocked 3-3 in the fifth, the Cats got to Al Marvin, the Bears' starting pitcher, in the seventh inning and scored four runs to win the game then and there.

CARDINALS LOSE TO N.Y. GIANTS

Pittsburgh, Although Idle, Takes First Place in National.

REDS SCORE 21 RUNS.

ST. LOUIS, June 6 (C.P.).—The Giants pulled the Cardinals out of first place yesterday by defeating the National League Champions, 6 to 4, while the Pirates were idle in the rain.

Carl Mays and Bill Walker divided the Giant pitching, credit for the victory going to Walker, while the veteran Clarence Mitchell went the route for the home team.

SCORE 21 RUNS

CINCINNATI, June 6 (C.P.).—The Reds enjoyed their greatest run-making spree of the season at the expense of the Phillies here yesterday and assaulted four Philadelphia hurlers for a 21 to 4 score.

Cincinnati failed to score in only one inning and more than batter around in the sixth, when nine runs were hammered over the plate.

ROBINS NOSED OUT

CHICAGO, June 6 (C.P.).—A four-run rally against Doug. McWeeny in the ninth enabled the Cubs to nose out the Robins by 4 to 3 here yesterday in the opening game of the series. Brooklyn drove B. Horne from the box and Mike Cvengros, his successor, gave way to a pinch-hitter, leaving Hal Carlson to get credit for the victory.

The World's Greatest Show

COMEDY "THE SHE GOING SAILOR"

THEATRES

AT THE CAPITOL

OLD TIME TENT SHOW OF THE MIDDLE WEST HICK TOWN IS DEPICTED IN "THE BARKER" AT THE CAPITOL. MILTON SILLS AND DOROTHY MACKAILL CO-STARS.

On the side street of a middle western college town an eight-piece band is blaring "In the Good Old Summer Time." Any musician can tell from a distance of half a mile that it is a colored band, for the musicians are slurring their tones.

Gay banners flap in the breeze in front of a row of dirty tents. Barkers proclaim the wonders to be seen within the canvas shelters, and on a rude platform that trembles with her every move, "The Girl from Albany" gives just a suggestion of the dance she will do within, after the suckers have laid their money on the line.

Spring has come to the middle west, and the carnivals are blossoming out, with the apple orchards and the peach groves. The "grifters," of operators of "two-way" or crooked games, have set up their stands. The "shills" or "coppers" are ready to make their marvelous winnings. The "dips" or pickpockets are working through the crowd and the show is about to begin.

A local lodge has been named as sponsor for the show. A portion of the proceeds go to the building fund. The local authorities have been "seen," and the show will run unmoested until Saturday night when the constable will stop the "cootch" dance and halt the shill games. And the vigilant officers will be commended for doing their duty—after the carnival has cleaned up.

This is the story of the typical American street carnival, as it ran in the "old days." And times have not changed greatly at that, for the "racket" is still being played by a few travelling organizations, at pleasure parks and beach resorts.

The old games have been replaced by new. The shell game is gone, but the "flash" game is taken the place—those dazzling lights that flash from globe to globe and stop on the one that nobody played.

The percentage is still to the operator—if there is any percentage. In the carnival racket the customer is always wrong.

Witt, Former Yankee Accepts Key Terms

READING, Pa., June 6. — President E. J. Pool, of the Reading Internationals, after a conference with Lawton Whitey Witt, former Philadelphia Athletic and New York Yankee outfielder, here yesterday, announced that the veteran major leaguer had accepted terms to play with the Keys, and will join Manager Hinchman's bunch of Keys as soon as he is reinstated by Judge Kenesaw Mountain Landis. Witt at present is on the voluntarily retired list.

Salo Holds Hour Lead Over His Nearest Rival

MESA, Ariz., June 6 (Canadian Press).—With a lead of more than one hour over his nearest rival, Johnny Salo, the Flying Cop of Passaic, N.J., to-day took up another notch in his belt with the firm intention of increasing his advantage in the Pyle Bunion Derby.

To-day's hard-rock trail was to Buckeye, Ariz., a distance of 35 miles.

Yesterday Salo beat Pete Gavuzzi, Italian from England, and No. 2 man in elapsed time, into Mesa, from Superior by 59 minutes and 53 seconds, increasing his lead in elapsed time to one hour 13 minutes and 9 seconds.

Gavuzzi tied with Sam Richman of New York for fourth place.

NATIONAL GAME BEING REVIVED

Fred Waghorne Taking Active Part in Organizing of Lacrosse Leagues.

THROUGHOUT DISTRICT.

A revival of Canada's national game, lacrosse, is undergoing a revival in the district, due to the energetic efforts of Fred Waghorne, who is travelling all over Ontario in the interest of the Ontario Amateur Lacrosse Association.

Hastings and Campbellford each have a junior lacrosse team, and between the two they will form a league under the O.A.L.A. Port Hope has a town league of four teams in the midget class. Oshawa has four teams in the City League, and Bowmanville is organizing.

In Peterborough, the sport is being sponsored by the Canadian General Electric, where a meeting was held about a week ago and officers were elected. Another meeting will be held shortly, when more definite arrangements will be made.

QUICK KNOCKOUTS.

Discussing the quick knockouts in the June issue of FIGHT STORIES, Hype Igoe tells the following story about George Chip and Al McCoy:

"One night, Eddie Curley and I rushed over to the old Broadway Club in Brooklyn to see George Chip, middleweight champion, knock out Al McCoy, the Southpaw who could hit.

"Curley and I told each other confidentially that it was much of a fool errand, as Chip, thundering hitter himself, would sock Albertus on the rubbersets and would Martin Flaherty him in jig time.

"There was a tremendous crowd present; nor did it come to see McCoy win. Rather it had dropped into the club to see which way McCoy was going to fall!

"Curley and I fought our way to our seats in the press row. Some of the gay dogs in the row were laughing at the unseeming haste of Mr. Curley and your personal eagle eye. Then, just as the bell rang, I said aloud to the rest of the chroniclers: 'Gentlemen, be seated—' Mr. Curley congratulated Mr. Igoe and Mr. Igoe congratulated Mr. Curley on the speed with which we had negotiated the trip from our offices in Manhattan to the Brooklyn club.

"I don't know why I did it, but as we were going through all this formality, I looked up out of the corner of my eye at Chip. He had forced McCoy into a corner near us. Not a blow had been struck. Chip feinted again, and then I'll swear McCoy closed his eyes and crossed his left—crossed his left because he was a southpaw, remember! He caught the unsuspecting Chip right on the point of the jaw. Chip went down like an old lamp-post that had been arguing the right of way with a sand truck. The back of his head hit the boards with a terrific whack. They don't get up often when they go down that way. Also, when a man so floored tries to lift his head and it keeps falling back, they never do get up! I've been watching fallen gladiators for every thirty years and nearly always I can say when they're not going to get on their pins again.

"Mr. Curley arose and said: 'Gentlemen will rise and leave by the nearest exit.'

"'Ten'—and Mr. Chip was carted to his corner. A world's crown had been whisked off his head so quickly that it would have made the great Thurston gasp.

"The strange part about that bout was that McCoy never lived up to his remarkable feat. He seemed always to think that he was a fluke champion. He couldn't rise to the importance of the job, and he truly became the 'cheese' champion. He was the first to be called it and he never was able to shake off the name. He left the ring, the jest of the mob, and yet McCoy could fight and he could hit. He knocked a world's champion from under his tiara, and at least that was what he signed to try to do. But apparently he didn't believe it himself, even after he had accomplished the rare feat."

CRICKET

A full practice of the Peterborough C. C. will be held to-night at the Oval instead of to-morrow night.

On Saturday afternoon a practice match will be held commencing at 2.30. All players are urged to turn out. Anyone not members of the club will be welcomed for this game.

BASEBALL—Moose vs. Canucks in juvenile fixture of city hardball league at James Stevenson Park. (6 p.m.).

FIRST JOYS OF VICTORY FOR RAYS.

After making two false starts in the Lakeshore League, the Rays showed their wares and tasted the first joys of victory by snowing under the Cobourg nine, 13 to 2. "Sailor" Maudsley, their hard-working twirler, had the biggest share in the victory throwing them in a manner that kept the lake shore batsmen paralyzed. While Maudsley was most effectively spoiling the batters' day, the Rays themselves went out and collected sixteen healthy hits, against the two star twirlers that the visitors sent in.

The Rays are a powerful nine and their first two losses can be put down to poor luck and flukes. They will come through in impressive style from now forth.

CLOSEST RACE OF GAMES

Tom Keene track coach at Syracuse university was asked recently what he considered the greatest race he ever saw, and without hesitation let it be known that he figured the final of the 400 meters at the Olympic game at Amsterdam last year in which Ray Barbuti defeated Jimmy Ball of Canada by the smallest kind of margin, gave him his greatest thrill.

He goes on to say that the United States had failed to win a single running race and toward the end of the games, when six finely trained athletes arched their backs as the starter's gun cracked for the start of the 400 meters.

"On they came, not three yards separated the six as they entered the final hundred-yard straightaway. Barbuti shot out from the pack to assume a three-yard lead, apparently a comfortable advantage with the goal not far ahead.

"From among the other five, a young man wearing the shield of Canada on his jersey, started a sprint after Barbuti. Foot after foot Barbuti's precious lead was cut down by the flying feet of the Canadian. Not many yards from the tape, Barbuti, giving everything he had in his physical make-up, fought off the gallant effort of Ball to win by the scant margin of a foot."

PRIZE AGAIN GOES TO RANK OUTSIDER

The 149th running of the English Derby is now history. The race was featured by a rank outsider, Trigo, an Irish horse, which ran a perfect race to win by one and a half lengths. Before an immense crowd estimated at nearly a million this obscure colt from the Emerald Isle tore down the slope of the straightaway to register one of the many upsets recorded in this famous classic.

As a result literally millions of dollars changed hands throughout the entire world, where wagering and participation in the mammoth sweepstakes is believed to have totalled nearly $100,000,000.

MORE TRIMMING FOR LEAF PLAYERS

Although Billie Webb and Rollie Naylor have been cut off the Toronto Leafs' payroll, the axe is still suspended, reports from Toronto state, and there is to be more trimming in the near future. No definite statement has been given out, but all fandom looks for Jess Doyle to be the next to go. Doyle fell down badly last year and was given a salary cut this season. Up to the present he hasn't turned in much of a performance, and the rumor is out that the cleaver is going to fall in the vicinity of Doyle, Hankins or Leverenz.

* * * * * *

One Sammy Gibbs, promoter of parts, who once had a well-nourished string of fighters to flaunt in box car letters on bill boards, is threatening the whole fabric of racing in Quebec. Samuel saw his fighters detached from his fond ministrations one by one. Yielding to the blandishments of other promoters, they eased themselves away from his benevolent sway to seek the solace of tumbling to the canvas in the interests of other managers.

This went on and on till the manager could hold on no longer, and finally in his anguish he appealed to the law. Pointing out that racing had an extremely light hold in a legal way, he called for its elimination by process of law.

Strangely enough the authorities listened to his plaintive plea, and it may be that those whom Sammy is assailing may find themselves punch drunk trying to dodge the right and double crosses of old Habeas Corpus, and may weary themselves clinching with Kid Mandamus, and if they try to make weights for old replevin may wind up with a flock of fiats staring them in the face.

The most competent authorities maintain that there is nothing more distressing than to observe little impresarios when confronted with a full blown fiat. Affairs so far as boxing is concerned are ominous, indeed, while Samuel tramps the legal treadmills.—(Ottawa Journal).

BARE-KNUCKLE DAYS.

(Jem Belcher)

Jem Belcher was a highly popular ring figure in the late seventeen and early eighteen hundreds, says FIGHT STORIES magazine. All of England liked him. And they liked him for his little human weaknesses as well as for his sturdy manhood and courage. For Jem was a good-looking roysterer, graceful of carriage and endowed with a personality that set him apart from many of the pugilists of his day.

Jem was born at Bristol, England, April 15, 1781. He was a grandson of the old champion, Jack Slack who had passed away three years before Jem's advent into this vale of uppercuts and right crosses. One can imagine, however, that the memory of Jack Slack proved something of an inspiration to Jem, for even as a youngster he revealed considerable aptitude for boxing, and at the early age of seventeen made his professional debut in a bout with Jack Britton, whom he defeated in thirty-three minutes.

Jem now journeyed to London, where he was taken up by old Bill Warr and matched against Paddington Jones. He won hands down, and soon he came so be known not only as a brilliantly scientific boxer, but as a battler of great aggressiveness and courage as well.

Belcher's only minor set-back in these early years was a draw with Jack Bartholomew at Uxbridge, but he came back the following year at Finchley with an impressive win over his former opponent. The rounds were short and fierce, according to an early authority, seventeen being fought in twenty minutes, and despite Bartholomew's greater size and being fought in twenty minutes, and weight, Jem's lightning speed and hard punching carried the day.

There followed a decisive five-round victory over Andrew Gamble, and then came Jem's three successive encounters with that fearless, tiger-like battler, Joe Berks. What contests they were! Action to warm the heart of the most sophisticated fans! And Jem came out of them the recognized champion of England.

And now a stroke of genuine misfortune befell the title-holder. While playing a game of racquets one afternoon he was struck by the ball and subsequently lost the sight one one eye. Whereupon it was generally assumed that he was through as far as the prize ring was concerned. He bought himself a public house—the 'Jolly Butchers," in Wardour Street, Soho—and entered business.

For two years all was quiet along Wardour Street. He still enjoyed the prestige of a champion. Then along came Henry Pearce, better known as the "Game Chicken," and Jem's peace of mind gave way to stirrings of ambition. Again he heard the call of the ring, and all the old fire and enthusiasm surged through him. The Game Chicken had made an enviable reputation, and they were speaking of him as Jem's successor. Jem's envy flamed at this, and he issued a challenge to Pearce, to the astonishment of the entire sporting world. Pearce accepted, and the battle was staged at Blyth, near Doncaster, December 6, 1805.

But the days of glorious victory had passed for Jem, though he wouldn't believe it at the time. He wasn't as sturdy as he had been, and his blind eye proved a distinct handicap, but to the crowd he was a hero. He put up a desperate, heady battle, but in the end the superior strength of the Game Chicken took its toll, and the great Jem Belcher, one-time Napoleon of the ring, went down to defeat.

Jem remained in the game to fight two more equally desperate, losing battles with Tom Cribb. And, curiously—like Dempsey—he was even more popular in defeat than in victory.

He died at the early age of thirty and was sincerely mourned by every lover of the manly art.

The Maple Leaf ball team is playing an exhibition game at Sacred Heart grounds to-night at 6.00 o'clock. The manager of the Maple Leafs requests that all players bring their birth certificates.

KIWANIS CLUB WINNERS 4-2

Consistent Twirling and Clever Exhibition of Base Stealing Allows For Victory.

FOURTEEN STRIKEOUTS.

Consistent pitching by their star twirler Crary and a clever exhibition of base stealing by his teammates combined to bring at 4-2 victory to the Kiwanis in the opening game of the junior city hardball league against the Lockworks last night at James Stevenson Park.

The base stealing by the winners was a big factor in helping them to win as they were only able to touch the opposing pitcher for two safe hits. This, together with eight free trips to first base and a weak peg by the Lockworks' catcher, cinched the game for the Deannard crew.

Hillier, who pitched for Lockmakers, is a southpaw, and he turned in a splendid performance, the first and last innings being his worst. In the first he issued two free passes and was touched for one hit which Jack Hope stretched into a counter by his nimble exhibition of base running. He struck out ten and passed seven. His teammates worked steady and effectively behind him. Hillier pitched himself into a hole in the first innings when after fanning the first batter he walked three to load the bases. He was replaced at this period by Westbrooke who finished the game but allowed three runs by heaving them wild to the plate.

Jack Crary twirled for the winners and was in top form striking out fourteen men and allowing but two passes. He retired the first three batters to face him with twelve pitched balls and never faltered in his steady performance. Web Starr behind the plate had a little trouble stopping a few of his high ones, but these didn't allow any runs. The Kiwanis infield worked smoothly and had but one error, this by Weir who ran back for a high fly but failed to gather it in.

The Kiwanis were superior in their battery but averaged about equal with the Lockworks with the rest of the team.

Kiwanis:	AB	R	H	PO	A	E

GEROWMEN HOPE TO SHAKE JINX IN GAME HERE

Petes Only Team To Take Series From the Ontario Champions.

BATTLE SATURDAY.

Vinnie Utronki, Belleville Ace, To Do the Mound Work For Nationals.

Walter Gerow will lead his Ontario champion Belleville team into action against the Petes at James Stevenson Park on Saturday hopeful that at last the Nationals may be able to shake off the ascendency which the local crew seem to have established over the Bay of Quinte gang. The Nationals won the provincial title last season and won every series with the best in Ontario—that is every series except with the Petes, who beat Belleville four games out of six in the 1928 race and have won the only game played between the two teams this season.

Vinnie Utronki, the Renfrew submarine pitcher, will be used by the Nationals against the Petes in Saturday's game. Utronki is now the ace of the Belleville staff and it is hoped to groom him into another winner as Gibson developed last season under the tuition of Peeney Mills.

The Belleville crew have the same smart infield as last year: Harry Mills at first, Verne Weir at second, the fast-fielding Harry Blakely at short and Bob Scott at third base. The Nationals are a formidable crew still and the Petes will have to play faster ball than they did against Deloro last Saturday to take the verdict.

The home talent promise to do that very thing. They are disappointed in their showing in the Deloro game and are determined to give their supporters something to cheer about in the clash with Belleville.

The game will get under way at 3 o'clock sharp.

ON THIRD ROUND.

BOURNEMOUTH, Eng., June 6.—(Canadian Press). — Great Britain's Davis Cup tennis team started its third round European zone contest with Africa auspiciously to-day, H. W. Austin, former Cambridge star, defeating Louis Raymond, South Africa, 8-6, 6-1, 2-6, 6-3.

HIGHER TARIFFS ARE GENERAL

Two Changes in Recent Budget Speech Considered Unfavorable by Manufacturers.

NEW TRADE AGREEMENTS

HALIFAX, N. S., June 6.—C.P.)—In its annual review of tariff changes in other countries, the tariff committee of the Canadian Manufacturers' Association reported at the annual meeting today that increases had been made during the year by the United Kingdom, Irish Free State, Austria, Estonia, Italy, Lithuania, Portugal, Spain, Brazil, Cuba, China and Japan and in an appendix summarized tariff changes since the war showing that 94 countries had put higher customs tariffs into effect. Referring to the Canadian situation the committee noted the two tariff reductions at the present session of parliament, affecting combine harvesters and threshers and certain machinery used in mining, which it described as serious and continued:

"Nearly all the other tariff changes apply to goods of a class or kind not made in Canada. It must be remembered, however, that the removal of these duties will increase the difficulty of establishing industries which will manufacture such goods in Canada. Experience shows that when goods go on the free list they stay there as a rule."

Limit Exports to States

Dealing with the proposed increases in the United States tariff the committee recalled that the Fordney Tariff act of 1922 had diminished exports of Canadian agricultural products. "It is certain," it remarked, "that the propsed increases in duty will further limit Canadian exports," and added, "We are advised that further increases will be introduced during the progress of the bill."

During the past year trade agreements had been ratified between Canada and Latvia, Hungary, Roumania, Spain, Kingdom of the Serbs, Croats and Slovenes (Jugo-Slavia) Esthonia, Lithuania, Portugal and Czecho-slovakia, by which products of those countries entered Canada under most-favored-nation rates of customs duty. Also by order-in-council the temporary trade agreement with Cuba had been extended until Nov. 22, 1929. In addition to these new agreements, the committee noted that by previous agreements the products of 13 other countries and their dependencies were entering Canada at most-favored-nation rates.

Attention was drawn by the committee to the success attending the policy of safeguarding specified home industries in the British Isles. Quoting statistics issued recently by the British Board of Trade it was shown that for the comparative periods, 1925 and 1928, imports of manufactures which were safeguarded fell off by 24 per cent while imports of manufactures which were not safeguarded increased 22 per cent. On the other hand exports of safeguarded manufactures increased 12 per cent whereas exports of non-safeguarded manufactured decreased 11 per cent.

MIRROR ACTS AS BRAKE.

BERLIN, June 6.—Dr. Baeseler, German scientist, has successfully demonstrated over 4000 times a new device to stop trains by means of a mirror. A mirror of many faucets is placed in a semaphore signal and the light from the oncoming locomotive is picked up and thrown back to a selenium cell on the engine. This, in turn, works the brakes, bringing the train to a stop within a few feet.

Pittsburgh, Pa., has more people outside than inside its limits, and is virtually a city of 1,200,000.

THAT is an old saying and a true one. But it's surprising how few people realize that it is true. How often have you yourself gone to your service man in a hurry and just had some grease added to what is already in your transmission and differential?

That's what you call greasing your car, but in reality, you might as well have saved your money, because the fresh grease is only wasted.

Added to impure grease, it immediately loses its value as a lubricant. What you should do is to have the old grease flushed out and a complete fresh supply put in.

Your dealer sells and recommends "WHIZ" GEAR GREASE as the most perfect of tested greases.

Drop in tomorrow and let him service your car as only an expert can.

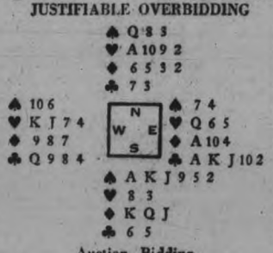
SOUND AUCTION BRIDGE

By WILBUR C. WHITEHEAD

The World's Greatest Authority

JUSTIFIABLE OVERBIDDING



Auction Bidding

	S	W	N	E
1st Rd.	1 ♠	Pass	Pass	2 ♣
2d Rd.	2 ♠	Pass	Pass	3 ♣
3d Rd.	3 ♠	4 ♣	4 ♠	Pass
4th Rd.	Pass	Pass		

Contract Bidding

	S	W	N	E
1st Rd.	3 ♠	Pass	4 ♠	Pass
2d Rd.	Pass	Pass		

Salient Points of Bidding

Auction: South's holding might well justify a three Spade bid to start with. The fact, however, that it contains side strength counsels preferably an original one bid to distinguish the type of holding. South's second unassisted rebid, even though a slight overbid, was unquestionably justified with his holding.

East's unassisted rebid to three Clubs was a distinct overbid of between one and two tricks, justified perhaps to save a threatened game at comparatively small cost, considering the four honors held.

West's assist to four Clubs is sound, assuming East to hold the number of Probable Tricks shown by his three bid. The same is true with respect to North's assist after South's second rebid of Spades.

Contract: While it is possible that a game contract would have been reached by North and South had South opened with a one bid, there is always the danger of such bid being passed by both partner and opponents, particularly if the outstanding bidding strength be held by the opponent last to declare. Consequently, to safeguard against this danger, South should open the bidding at Contract with three Spades. To start with a two-bid would signify distributed strength in at least three suits, false information that might well lead to partnership overbidding. Following South's three-bid, North, holding 2½ Probable Tricks in support, is justified in bidding four Spades for game.

The Play

West opens the 4 of Clubs, East winning with the King and returning the Ace. East shifts to Diamonds and leads low from Ace and two others up to Dummy's weak cards as apparently the best possible play in a situation that offered no well refined lead. South false-cards with the King and wins.

South now leads the Ace of Spades followed by a low Spade, winning the second trick with Dummy's Queen, at the same time exhausting the adverse trumps. Incidentally, Declarer establishes the 8 of trumps as a second entry in Dummy. Declarer now plans if possible to establish a long Diamond in Dummy for the discard of losing a Heart. East wins the Diamond lead from Dummy, and, to drive out if possible Dummy's Ace of Hearts as an entry, shifts to the Queen of Hearts.

Declarer wins with Dummy's Ace and leads another Diamond from Dummy, winning in his own hand and establishing Dummy's long Diamond as planned. Declarer then enters Dummy with the 8 of trumps and discards his losing Heart on Dummy's Diamond.

MR. WHITEHEAD WILL ANSWER QUESTIONS CONCERNING YOUR BRIDGE PROBLEMS. WRITE TO HIM CARE OF THIS PAPER ENCLOSING SELF ADDRESSED STAMPED ENVELOPE.

PIANO RECITAL WELL RECEIVED

Pupils of Miss Isobel McKee Present Delightful Program at Conservatory.

FINE TUITION SHOWN.

The piano pupils of Miss E. Isobel McKee gave a very interesting recital last evening in the hall of the Conservatory of Music.

The playing was very good in every instance, showing fine tuition and unremitting attention on the part of the teacher. The students played with excellent tone and good legato. Outstanding in the class were little Margaret Jackson, whose tonal qualities were very fine; Grant Carroll, who showed exceptional ability, also Herbert Vallery and little Ethel Dobson. The more advanced pupils, Earle Rosborough, Helen Barrie and Harry Marsh, also played in fine style.

Miss McKee was assisted by Miss Jean Cameron, soprano, whose accompaniments were played by her teacher, Mrs. Dorothy Allan Park, and whose singing was marked by ease and pleasing tone.

Max Warne, a pupil of Donald Heins, also assisted in the program, and played excellently for such a young performer, showing splendid tuition, Miss Gladys Renouf played accompanments for the young violinist.

At the conclusion of the program, Miss McKee was presented with a pretty bouquet of flowers.

The program was as follows:

Duet (selected)—Ferne Armstrong and Opal Rosborough.

By the Stream and Bogies in the Wood (Sanderson)— Margaret Jackson.

Waltz (Lochr)—Hubert Vallery.

Waltz (Raefe)—Harold Lesurf.

Waltz (Englemann)—Eric Mason.

Marionettes (Rhode)—Grant Carroll.

Violin solo (selected)—Max Warne.

Life in Spring (Sartario) —Mary Hendren.

Valsette (Brown)—Jean Harvey.

Happy-Go-Lucky (Lange)— Agnes Fife.

Duet (selected(—Lilian and Olive Mills.

Elfin dance (Jensen)—Ethel Dobson.

Frolics (Wilm)—Earle O'Toole.

Vocal solo (selected)— Jean Cameron.

Tripping Through the Meadows (Brown)—Olive Mason.

Sonatina (Kuhlan)—Agnes O'Toole.

Water Sprites (Heller)—Helen Carrol.

Sonatina Op. 36 No. 2 (Clementi)—Elizabeth Wren.

Curious Story (Heller)—Annie Profit.

Violin solo (selected)—Max Warne.

A Mountain Dance Englemann)—Gordon Seabrooke.

La Scintilla (Gottschaulk)— Lucy Fisher.

Two Preludes Op. 28 No. 6 and 20 (Chopin)—Gertrude Hohner.

Gavotte (Schmeidler)—Earl Rosborough.

Vocal solo (selected)—Jean Cameron.

(a) Waltz in G flat (Chopin) and (b) Theme with Variations (Beethoven)—Helen Barrie.

"A Toi" March (Ringuet)— Harry Marsh.

REGISTER Of Social and Business Meetings

The Register is published to enable organizations planning major meetings to know in advance, and reserve, evenings on which there are no rival attractions. It will pay Peterborough organizations to consult the Register prior to settling dates. Responsible officers should mail notices well in advance.

Before deciding a date for any event, consult the Register to ascertain that there is no conflict with other events—and then send in YOUR date quickly so that other organizations will not use it.

employment, which involves railway reorganization, the development and revival of trade, and pensioning aged workers.

Electrify Railway Lines.

It is foreshadowed the trade facilities act will be brought into operation to enable the railway companies to undertake the electrification of their lines and effect other modern improvements. The question of introducing privately owned cars for the transportation of particular classes of goods, is also to be considered as well as the creation of a new railway "ring" around London in order to reduce the difficulties in handling goods and traffic.

In connection with pensions Mr. Thomas' scheme is to provide men of 60 or 65 years of age with adequate state pensions to enable them to retire. They could then be replaced by young men who are at present unemployed and subsisting on the dole.

The appointment of Mr. Thomas to such a post is being hailed as an excellent move in Labor circles, although Liberal newspapers have scoffed at it, alleging all his ideas are copied from the Liberal unemployment program.

PIONEER OIL MAN IS PRESIDENT-ELECT

(Continued from Page 1.)

youth of eighteen from Westport, Ontario, in 1884. Beginning his career in farming, in which his family had engaged on Canadian soil for ninety years, he forsook the ranch for the harness shop and with a brother, built up his plant from a retail shop to a wholesale and manufacturing establishment. He is a director of more than a dozen leather, oil and supply firms in various prairie centres. As long ago as 1902 he has been one of the backers of the company that drilled for gas at Calgary and in 1914 became heavily interested in oil development in Turner Valley.

Mr. Hutchings is an energetic Rotarian and keen Mason. For many years he has been a member of the session of Knox United Church. Now in his sixty-fourth year, he is still accustomed to rise at 6 o'clock in the morning and start his day with a long walk.

He is the father of five sons and two daughters.

OBITUARY

MRS. GLEN DOUGLAS.

The death of Mrs. Glen Douglas deprived Peterborough of a greatly resected resident early this morning. She passed away at her home at 299 Murray Street, after an illness of short duration. The deceased was formerly Kate Middleton, the daughter of the late Mr. and Mrs. John Middleton. Mrs. Douglas was born in Dummer, and lived in Warsaw before coming to Peterborough 17 years ago. She is survived by her beloved husband, Glen Douglas, and two daughters, two sisters and a brother. Her sister, Mary Middleton, passed away in Buffalo last Monday morning.

The funeral will be conducted from the family residence in Peterborough to Warsaw Cemetery, and will take place Saturday, June 8, at 1.30 p.m. The service will be conducted by Rev. Wm. Allan of St. Paul's Church.

DEATH.

GAUL. — At Nicholls Hospital, on June 6th, 1929, Betsy Webster, beloved wife of Duncan Gaul, 494 Bolivar Street, Peterborough.

Funeral from the family residence, on Saturday at 2 p.m., to Little Lake Cemetery.

IN MEMORIAM

SANDIFORD,—In memory of Harry Sandiford, who died June 6, 1914. Not forgotten by his loving father and mother.

IN MEMORIAM.

CONNER.—In loving memory of Hughie Conner, who was killed at Bowmanville June 6th, 1926.

"He was taken without warning,
His going left hearts filled with pain;
But though he is gone from among us
In our hearts he will always remain."

Mr. and Mrs. P. Maynard, Peterboro.

IN MEMORIAM.

DUNFORD.—In loving memory of our dear one, Beatrice Dunford, who passed away, June 6, 1928:

No one heard the footsteps
Of the angels drawing near,
Who took from us to heaven
The one we loved so dear.

—Inserted by her daughter Verna, and sister Dorothy.

IN MEMORIAM.

DUNFORD — In loving memory of my dear Wife and darling Mother, Mrs. Arthur Dunford, who passed away June 6, 1928:

"Sunshine passes, shadows fall,
Love's remembrance outlasts all."
We little knew your end was near,
The shock was great, the blow severe,
Not a whisper, when your lips were sealed;
Only in your breast was your prayer concealed.
Oh, how we miss her when we need a friend,
On her, we always could depend.

—Inserted by her loving Husband and Family.

IN MEMORIAM

In loving memory of Mrs. D. H. Fowler, who departed this life June 6, 1922.

June brings sad memories
Of a loved one gone to rest,
And those who think of her to-day
Are those who loved her best.

—Inserted by husband and family.

WEDDING BELLS

MARINO—BOGUE.

A very pretty wedding was solemnized at eight o'clock yesterday morning at St. Peter's Cathedral, when Dorothy, daughter of Mr. James Bogue, 220 Dublin street, and the late Mrs. Bogue, was united in the holy bonds of matrimony to Frank Marino, son of Mrs. Angelina Marino, 25 eorge street, and the late Mr. Frank Marino. The Rev. P. Costello said the nuptial mass.

The bride, who was given in marriage by her uncle, Mr. William Gereghty, looked charming in a graceful gown of beige georgette and lace, with beige lace hat, and black fox fur. She carried a bouquet of Ophelia roses, and lily of the valley.

The bridesmaid, Miss Mary Marino, a sister of the bridegroom, wore pale yellow georgette, and carried a bouquet of American Beauty roses.

The best man was Mr. Charles Raney.

After the ceremony a dainty wedding breakfast was served at the home of the bride on Dublin street. The dining rooms and halls were tastefully arranged with a profusion of flowers and white bells and streamers.

Later, Mr. Marino and his bride left for a honeymoon trip to Toronto and Niagara Falls. On their return they will live here.

LIBERALS DETHRONED IN SASKATCHEWAN

LABOR CABINET IS ANNOUNCED

News in Brief
(By Canadian Press)

MEMBER IS GIVEN 20 YEARS

BELGRADE, Jugoslavia, June 7—Puniza Ratchitch, former deputy in the Jugoslav parliament, was sentenced to twenty years imprisonment to-day on his conviction for the murder of Stefan Raditch, Croatian peasant leader, in parliament on June 20 of last year.

Former deputies Popovitch and Kovanocic, charged with being his accomplices, were acquitted at the trial which ended to-day.

BODY OF TEACHER FOUND

LAWRENCE, Mass., June 7.—The body of Miss Louis J. Douglas, 22-year-old commercial school teacher, missing since Monday, was found to-day in the south canal. The police believe she ended her life because of unhappiness over a romance with a married man.

SERVICE INTERRUPTED

LONDON, June 7—Fire in a cable conduit early to-day put thousands of London telephones out of commission. The blaze occurred between Blackfriar's Bridge and Temple interrupting service between the city and the west end.

PASSED GOOD NIGHT.

WINDSOR, Eng., June 7.—It was officially stated at Windsor Castle to-day that King George had passed a good night. His physician, Henry Martyn, visited him, remaining about an hour.

MUCH COMMENT ON ACTION.

LONDON, June 7.— Action of Sir Esme Howard, British Ambassador at Washington, in renouncing ambassadorial liquor importation privileges has drawn much attention in London club and diplomatic circles, where opinion was divided as to its propriety.

While the newspapers have carried long stories setting forth the Ambassador's position and pointing out it is not binding on any of his successors, none yet has editorialized on the action.

MAY REDUCE WAGES.

LONDON, June 7.—A private message from Manchester received here late this afternoon said the Federation of Master Cotton Spinners was considering a proposal to reduce wages of their operatives by 12½ per cent. It was estimated that 200,000 workers would be affected.

NEW TRIAL ORDERED.

TORONTO, Ont., June 7. — The Division Court to-day set aside the conviction of Edward Hewson, who was sentenced to five years in the penitentiary, with ten straps for robbery and violence, and ordered a new trial on the ground that the magistrate's certificate bearing on the trial at Pickering had fallen short of the provisions of the criminal code.

STUDY PARK DEVELOPMENT.

GLASGOW, Scotland, June 7. — Development of national parks in Canada will be studied by the sponsors of an important project to acquire 100,000 acres in the famous highlands to be set aside as a national park or forest reserve.

The rapid exploitation of the highlands by construction of roads and by power schemes renders such a scheme imperative, it is urged.

ARMY LEADER IS DEAD.

WINDSOR, June 7. — Mrs. Laura Hurst, East Windsor, Salvation Army Staff Captain in charge of the new East Windsor Corps, was instantly killed yesterday when she drove her small sedan into a Pere Marquette train on the first concession road, a mile east of Kingsville. Captain Howard Fisher of the Army Hostel on Goyeau Street, Windsor, who was riding with Mrs. Hurst, escaped with his life.

Premier to Hold Dual Post

Rt. Hon. J. Ramsay MacDonald To-day Announced Personnel of His Government.

LIBERAL ENTERS.

Philip Snowden Will Again Become Chancellor of the Exchequer.

LONDON, June 7 (Canadian Press). — The new Cabinet which is to take over the Government of Great Britain, with Ramsay MacDonald as Prime Minister, was completed to-day so far as its principal offices were concerned. The list will be submitted to King George to-morrow.

The first woman to hold a Cabinet post in the British Government was named in the list. She is Miss Margaret Bondfield, who will have the portfolio of the Ministry of Labor.

Another unexpected appointment was that of Sydney Webb as Minister for the Dominions. It had been understood that he had practically retired from politics because of advancing age.

Liberal Enters Cabinet.

Another appointment that caused instant comment in political circles was the naming of William Allen Jowitt as Attorney-General. He was a Laborite member of Parliament when MacDonald held the sceptre of power five years ago, but was elected to the new House last week as a Liberal. His defection from the party of David Lloyd-George was announced at Labor Party headquarters only a few hours before the Cabinet list appeared.

Mr. MacDonald set at rest discussions as to his personal part in the Government by naming himself as First Lord of the Treasury, in addition to being Prime Minister. In the previous Labor Cabinet Mr. MacDonald held the portfolio of Foreign Affairs. That department is to be headed by Arthur Henderson in the New Cabinet.

Philip Snowden, who was Mr. MacDonald's right hand man in the 1924 Government and who has been one of the militant leaders of the Labor Party throughout the five years of

GOVERNMENT DEFEATED.

Hon. J. G. Gardiner, Premier of Saskatchewan, whose Government was defeated at the polls yesterday.

DENTAL THIEF PLEADS GUILTY

Harry Butler is Sentenced to One Year in Ontario Reformatory.

STOLE GOLD FILLINGS.

Hary J. Butler, the thief who entered the dental offices of Dr. Morrison and Dr. Killoran in this city and stole gold fillings valued at nearly $100, on or about May 24, has been apprehended and was sentenced on Wednesday to one year determinate and one year indeterminate in the Ontario Reformatory. The man was caught in Toronto and received sentence in the Toronto police court. He fully admitted his Peterborough thefts.

Inspector Boyd of the Provincial police happened to be in the city at the time when Butler paid his visit here. The inspector in company with Chief Newhall, made a thorough investigation of the thefts here. A description of the stolen gold fillings was taken to Department headquarters by Inspector Boyd, and detectives were set to work.

Detective-Sergeant Wickett of the Toronto city police, was called in on the case. Soon detectives were successful in finding the receiver of large quantities of stolen goods. These goods had been taken in thefts throughout Ontario, and in nearly every case by Harry J. Butler.

Inspector Boyd identified the gold stolen from Peterborough among the

JOHN COMSTOCK IS HONORED BY UNDERTAKERS

Retiring Presidents and Mrs. Comstock Are Given Presentation By Association.

MEET IN TORONTO.

Lack of Respect Shown Funerals By Pedestrians and Motorists Discussed.

In recognition of his personal contribution as president during their year which ended this week, the members of the Ontario Funeral Service Association presented John Comstock of Peterborough with a smoker's set of hand-etched English brass, and to Mrs. Comstock a beautiful tray of the same material, as an appreciation of her hospitality during the association's meetings here a year ago.

These presentations were made on Thursday at the conclusion of the convention which was held this week in Toronto. Mr. Comstock presided throughout the three days' sessions, and is succeeded in the presidency by Harry Phillips of Sarnia. The meetings of the association were held in the Transportation Building at Exhibition Park, and the program included the annual dinner which was held at the Palais Royale at Sunnyside on Tuesday, luncheon and sail around the harbor on Wednesday and on Thursday a luncheon at the Old Mill on the Humber, together with a motor drive around the city, the convention cars being accompanied by three of Toronto's traffic constables.

Lack of Respect.

The funeral directors were welcomed to Toronto by Controller Wemp, representing Mayor McBride. One of the topics discussed was the lack of respect shown to funerals by pedestrians and motorists who cut through the processions. W. T. Stewart of Toronto stated that Chief Draper was preparing to enforce the present regulations. Mr. Gerald McFadden and W. T. Belleghem of Pet-

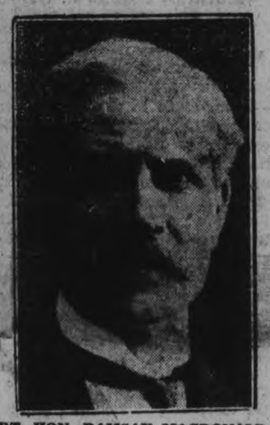
Boys In Their Teens Are Making Money Smuggling Liquor Into The United States

BUFFALO, N. Y., June 7. (C.P.)—The Erie County Sheriff's investigation into the mysterious disappearance of "Bobbie" Repich, 16, of Tonawanda, has led to starling revelations concerning profitable smuggling across the Niagara River by boys in their 'teens. The boy left Bridgeburg, Ont, the night of May 19, with a rowboat load of ale, witnesses said. He was heard to cry for help. He vanished with boat and cargo.

Statements taken by the Sheriff, Charles F. Zin....erman, suggest the youth was the victim of hi-jackers, who ply the river in motorboats. High profits lure boys into the ale running game, the Sheriff said, some of them making $50 to $100 a night. According to his statements they get $1 a bag of ale, and can easily row over a load of 50 bags at one time.

NEW TARIFF REGULATIONS ON BRITISH COTTON MATERIALS UNDER FIRE IN MANCHESTER

BRITAIN'S NEW PREMIER.



RT. HON. RAMSAY MACDONALD, Who to-day announced the personnel of Great Britain's second Labor Government.

Goods Are Requested To Be Fifty Per Cent. British Material and Workmanship.

PARTIALLY AFFECTED.

Secretary of Chamber of Commerce Denies Recent Statement of Minister in House.

MANCHESTER, Eng., June 7 — (Canadian Press Cable)—Outspoken criticism of the Canadian government's attitude towards the tariff on goods and the regulation requiring goods to be of fifty per cent British materials and workmanship in order to come under the preferential tariff rates was voiced to-day by Raymond Street, Secretary of the Manchester Chamber of Commerce, in the course of an address before the Manchester Rotary Club.

He said he hoped the Canadian government would realize the goodwill of the people of Lancashire was worth something to Canada but the government did not seem to take kindly to the representations made by the Manchester Chamber of Commerce through the British Board of Trade showing the new regulation might debar goods from preferential treatment which were essentially British.

Extended Every Facility

The Chamber, he declared, had extended every facility to the Canadian official sent to investigate the situation. They had provided him with an office and a clerical staff and had supplied a list of firms each of which could give information on the subject from a different angle. They had brought representatives of these firms to see the official and had finally provided him with a memorandum setting out three practical proposals as to ways in which the Canadian government might still adhere to their legitimate desire not to give a preference to goods not essentially British without excluding cotton goods made from raw material which was not obtained from British sources.

The official's report and the chamber's were now being considered at Ottawa, he said. In view of this fact Mr. Street expressed great surprise at a reported statement of Hon. James Malcolm, Minister of Trade and Commerce, in the Canadian House of Commons last week to the effect that no complaints had been received recently from British sources.

"Naturally," he said, "we have not kept repeating our complaints seeing that we placed the whole case in the hands of the Canadian representative. It is not very fair to us, therefore, to bring forward as an excuse for doing nothing the fact that we have shown extraordinary courtesy in refraining from further representations while, as we imagine, our memorandum is under consideration."

Mr. Street said he almost gathered from the debate at Ottawa there were people in Canada who wished to let the matter remain unaltered and wanted certain British cotton goods removed from the preference so that Canadian manufacturers would have greater protection. He then pointed out only a part of the Manchester trade in rather cheap goods would be affected anyhow

But he said it seemed important to him that Canadians who felt that way about it should remember there were two sides to everything. Their complaint that a duty was recently put on optical glass made in Canada was true, he admitted, but Great Britain had put on duty on all the great mass of Canadian trade to the British Isles and had spent millions of pounds through the Empire Market Board in advertising the products of the Dominions, including Canada.

"It is within Canada's rights to do away with preferential duties on British goods if she wishes," concluded Mr. Street, "but it is not a very creditable think to seek to achieve this end by means of a regulation which on the face of it is illogical."

Stalemate Feared As Final Results Eagerly Awaited

After Holding Power For 24 Years in Saskatchewan, Provincial Government Is Dethroned in Yesterday's General Elections.

AS RETURNS POUR IN IT IS HIGHLY PROBABLE CONSERVATIVES UNABLE TO COMMAND MAJORITY

Vote Unprecedented in Annals of Province Effected the Upset, With Cities and Towns Piling Up Big Majority Against the Administration.

REGINA, Sask., June 7 (Canadian Press). — With returns still dribbling in slowly, Conservative leaders to-day claimed they would control a majority in the next Saskatchewan Legislature. While only about two-thirds of the sixty-three seats had reported definite results, it was clear that the Liberal Government of Premier J. G. Gardiner had gone down to defeat.

It appeared evident, however, that the Conservative group alone would be unable to command a majority over all in the Regina House. Even if the nine Conservatives leading on the face of present returns are returned, the followers of Dr. J. T. M. Anderson will total but twenty-nine—three short of a majority in a Legislature of sixty-three seats. Deferred elections are to be held in two constituencies.

WITH THREE DOUBTFUL

The following standing was given out by the Liberal headquarters:

Elected	
Conservatives	26
Liberals	23
Progressives	5
Independents	4
Doubtful	3
Total	61

This standing would place ruling power beyond the reach of both Liberals and Conservatives until two deferred elections are held in Ile a Lacrosse and Cumberland unless expected overtures towards Independents swelled Conservative ranks to a slender majority.

Heavy Vote Polled.

A vote unprecedented in the annals of Saskatchewan politics effected the upset, which reduced the Gardiner Government from the possession of 51 to 63 legislative seats in the last Legislature to a total of seats which can scarcely be better than one-half of the previous Liberal aggregate.

Though figures will not be available until later to-day, it is certain that the poll of votes far exceeded the former record of 213,000 set in the 1925 election.

With the election of A. J. McLeod, Conservative candidate in the constituency of Wilkie, conceded early this morning, the forces of Dr. J. T. M. Anderson added another victory to their slate as the result of Thursday's polling in the Saskatchewan provincial election.

Mr. McLeod gained the seat from the Liberals, defeating R. A. Nay, who represented the constituency in the last House.

The status of the Liberal party as shown in the final standings for the night tabulation, marked a vast improvement over the position in the returns of an hour before. Independents who had been leading were thrust out of the front position by a surge of Liberal ballots, but the improved Liberal standing failed to alter the position of the government as defeated.

Two Ministers Defeated

Two of the cabinet ministers of Premier Gardiner, Hon. S. J. Latta, Provincial Secretary, and Hon. C. M. Hamilton, Minister of Agriculture, were avowedly defeated by Progressive and Independent candidates, respectively. Hon. George Spence, was being led in Maple Creek by D. S. Horne, Independent, but his defeat was by no means certain.

Other members of the cabinet were returned to the legislature. Premier Gardiner prevailed easily in a three-cornered fight in North Qu'Appelle. Hon. T. C. Davis, Attorney General, after running behind, downed J. G. Diefenbacker, Conservative, by 500 votes.

The elections of Hon. W. J. Patterson, Provincial Treasurer and of Hon. J. M. Uhrich, Minister of Health, were conceded early in Pipestone and Rosthern.

Dr. J. T. M. Anderson, Conservative leader, was elected easily in Saskatoon, but Charles Little, nominal leader of the Progressives, met defeat in a three-sided contest in Bengough, where Herman Warren, Conservative, was conceded victory.

Overthrow of the Liberal Government was first forecast by the overwhelming Conservative vote cast in Moose Jaw, Regina and Saskatoon, where all members elected were Conservatives. Whereas one-half of the representatives from the three two-seat cities had been liberal supporters at the last Legislature, the entire six elected candidates are now followers of Dr. Anderson.

"It is now the duty of the elected majority to do their best in the interests of the general welfare," said Dr. J. T. M. Anderson, at Saskatoon. "The Conservatives," he said, "will now have a chance to 'do something'." He hoped it would be the sincere attempt of Mr. McConnell, himself and the rest of the party not to betray the trust and confidence that the electorate had placed in them.

Congratulates Opponents

Surprised at the outcome of the Saskatchewan general election, marked by the fall of the Liberal regime, Premier James G. Gardiner last night congratulated the opposition on the success of their campaign. His statement is as follows:

"The result is undoubtedly a surprise. The propaganda put on consistently during the past 18 months seems to have convinced the public that there is something not altogether right with the administration, and it has exercised its right to check up. I am sure they will find that their past confidence was not misplaced. I congratulate our combined opposition upon the success of their campaign.

The obvious move of the Conservative chieftain will be toward the Independents, now elected in three seats and leading in another. Largely of Conservative persuasion, the Independents are expected by the Con-

OLD HOME WEEK HEADQUARTERS WILL BE AT DUFFUS' SALE ROOMS

Fred Whitcroft Donates Handsome Silver Cup For Cadet Competition.

ODDFELLOWS COMING.

Cup Has Also Been Donated For Best Flat in Big Parade.

Plans for Old Home Week, the biggest celebration that Peterborough has ever contemplated, are nearing completion and an enthusiastic meeting of the general committee was held in the council chambers last evening. The chairmen of the respective committees made their weekly report, showing that each committee has its work well in hand.

It was reported that the local industries will make special efforts to have their property looking at its best for Old Home Week, and the visitors will be privileged to make a tour of many of the plants.

Arrangements have been completed, reported James Dutton, for the securing of the Duffus' Sales Room for registering headquarters. The admirable qualities of this building for the purpose were pointed out by Mr. Dutton. It is centrally located, large, bright and airy. The Legion Hall is also being retained to be used as a rest room. It is planned to have several old citizens in attendance at the registering office to welcome the returning Old Boys and Girls.

Parking in School Grounds

An application has been made to the Board of Education for the use of the school grounds for parking places. The caretakers will be in charge of the grounds. This, it is thought, will reduce some of the traffice congestion from the streets.

A large Canton of Oddfellows are coming to the city on Saturday and Sunday during Old Home celebration to take part in Decoration Day at the cemetery. The question of accommodating these Oddfellows was brought up. Plans to quarter them in the Oddfellows' Hall are being worked out.

The Cadets of the schools will take part in the big parade on the morning of July 1. A letter was received from R. J. Bolton to that effect. The Cadets will get into the grounds free in the afternoon.

R. M. Glover stated that Fred Whitcroft had donated a handsome silver cup as a prize for the Cadets. It was suggested that this cup should

Premier Cuts Thumb As He Breaks Bottle

HAMILTON, Ont., June 7. — (Canadian Press).—The sky was black with aircraft of all sizes and colors when Premier Ferguson officially opened the civic aerodrome here yesterday. Chief interest centred in two Baby Blimp balloons brought from Akron and a huge 14-passenger tri-motored plane. The Blimps and the big plane did a roaring business with passengers wanting to go for rides.

The formal bottle of champagne was used by Premier Ferguson to christen the shiny silver and white moth plane presented to the Aviation League of Canada. As he smashed the bottle on the shiny propeller the Premier cut his thumb.

PLANES COLLIDE OVER HAMILTON

Crack Pilot of De Haviland Company Is Seriously Hurt In Crash.

FAILED TO SEE EACH OTHER.

HAMILTON, Ont., June 7 (Canadian Press).—Crashing when about to land, two planes at the new Hamilton Airport, fell a distance of forty feet to the earth at noon to-day, severely injuring one pilot, and inflicting minor injuries upon two other persons.

Fred Shaylor, crack pilot of the De Haviland Company, who was flying a moth plane with one passenger and was in the act of taking off.

He had reached an altitude of about forty or fifty feet when a Pitcairn plane, piloted by Captain J. D. Parkenson, who was descending, met the Moth with great force. Both machines dropped to the earth instantly.

Apparently the pilots did not see each other. Shaylor seemed badly hurt, and was rushed to the General Hospital. Captain Parkenson and the passenger in Shaylor's plane escaped with cuts and bruises.

CONSERVATIVE MINISTERS HAND SEALS OF OFFICE TO KING GEORGE

His Majesty Receives Members in His Bedroom in Windsor Castle.

IMPRESSIVE CEREMONY.

As Each Leaves He Kisses Sovereign's Hand Ceremoniously.

WINDSOR, England, June 7 (C.P.) —The state ceremony of handing over the seals of office by members of the retiring government, impressive enough under ordinary circumstances but acquiring unusual interest because of the peculiar condition necessitated by King George's illness, took place at Windsor Castle this afternoon.

The Conservative ministers drove to Windsor Castle in a body.

The members of the Baldwin Cabinet travelled from London in a special train and were met at Windsor station by six state carriages in which they rode to the castle, where the King was awaiting them.

Mr. Baldwin motored from Chequers Court and reached the castle about twenty minutes after his ministers had arrived.

The entire party was then conducted into the King's bedroom. The monarch received them while seated in a chair. The errand of surrendering the tokens of office was quickly concluded and the ministers kissed the Sovereign's hand ceremoniously as they took their leaves.

Daylight Saving Will Start Midnight June 15

So that there would be no interruption or confusion in connection with the putting of daylight saving time into effect, clocks are to be changed at midnight Saturday, June 15th, when the change over the Sabbath will work out without any business disorganization. If the new time was effective Friday at midnight it would no doubt cause considerable confusion.

PREVENT EXPLOSION.

KINGSTON, Ont., June 7.—To prevent an occurrence similar to the recent explosions at Ottawa, this city has passed a by-law making it unlawful to empty cylinder oil or gasoline refuse into sewers, and demanding stricter regulations for underground gasoline tanks.

ENTER NEW LABOR CABINET

George Lansbury (left), who has been appointed to the position of First Commissioner of Public Works, and Hon. Arthur Henderson (right), who from point of years is the oldest Labor man in the House. Mr. Henderson will be Foreign Secretary.

LEADERS IN MACDONALD CABINET

Rt. Hon. Philip Snowden (left), who will be Chancellor of the Exchequer. Mr. Snowden occupied this important position in the last Labor Government in Great Britain. Hon. John R. Clynes (right), first House leader of the Labor Party, who will be Secretary for Home Affairs.

CAMPBELLFORD DAIRYMEN WILL FORM MILK PRODUCERS BRANCH

Speakers Tell District Farmers More Profit Realized if Milk Standard Raised.

INSTRUCTIVE TALKS.

New Cheese Market Opened For the Dominion Producers in Scotland.

CAMPELLFORD, June 7.—(Examiner Staff Correspondence).—Seven o'clock was the hour advertised for the meeting of the milk producers of the district, but the gathering was not called to order till eight-thirty. There was not a large attendance but some of the best dairy herds in the district were represented. John Murray, cheese inspector, occupied the chair. The object of the meeting was primarily to elevate the standards of dairying in the district, and the belief of all the speakers was that the standard of cheese and butter could be raised if the quality of milk were carefully guarded. Although no definite organization was formed last night, steps were taken for action in the near future.

The Speakers

George Barr, director of dairying for the province, was the first to speak. He pointed out that every phase of industry was organized and thought it was beneficial to them. The cheesemakers had organized recently and no better move had ever been made in the interests of the dairy industry. If this were good in the case of the cheesemakers, it ought also to apply to that of the milk producers. Canadian factories and makers were capable of producing the best cheese in the world, he thought, if they were furnished with good milk to make it. New Zealand is the chief competitor of the Dominion and the dairymen of that country are doing all they possibly can to further the interests of the industry. Nevertheless the Canadian cheese had the preference on the British Isles market. At the present time, Scotland is producing less cheese and shipping whole milk to London, England. This opens up a new market for the Canadian product. Canadian cheese is the most popular substitute for the local cheese of that country and the market can be had of the proper milk for its making is forthcoming.

No one farmer, he thought, could actually understand the troubles of the milk producer. They would be the best and proper people to handle the situation. Last year, ninety two out of seven hundred and fifty-five cheese factories, made one hundred percent cheese. He believed that there was a mistake somewhere or there would be a still higher average. Upon this high average was what the market depended. An organization of the milk producers was a move along this line. There was a need and a great one for this sort of thing. In Madoc and Marmora, organizations had already been formed.

REPRESENTS ASSOCIATION.

J. P. Griffin, Toronto, representing the Ontario Milk Producers' Association, was the second speaker. He thought that Mr. Barr had covered the ground well. By way of further explanation, he said that there had been a belief rumoured that the association was formed to protect only certain branches of the industry. This was not the case except for the fact that it could not get the co-operation of the other branches. Now it was protecting the interests of all. The association was formed of local organizations bound together by one central group. Last year it had accepted the "Milk Producer" as its official publication. Lanark county was the first to organize along dairy lines and it had prospered by its venture. Others had followed in its footsteps. Referring to the cheese industry, Mr. Griffin wished to congratulate those actively interested in this district for their fine work last year. He had expected that the Dairy shield would be won by Central Ontario but it had gone to Western Ontario by seven one-hundredths of one per cent. Last year the cheese from this district brought a bonus of one and one-half cents per pound. This amounted to more than two million dollars. aLrge as this amount was, he believed that there were still some careless and indifferent producers. If these men could be brought up to standard, the returns would be even greater. It was up to the producers themselves to look after this phase of the situation. It could be attended to in a friendly way.

The cheese makers themselves were anxious and determined to make good. They were keenly and personally interested in the industry. As a motive for friendly competition, trophies had been donated. The milk producers could do much to help the makers win their laurels. If the same care were taken with the milk sent to cheese factories as with that sent to powderies, condensories and to the city trades, the cheese maker could make one half pound more of cheese from every hundred pounds of milk. It was necessary for the producers to know their cows and he suggested that they have them tested. There were both profitable and unprofitable animals. He would like to see an organization in this district associated with the head organization. The fee was small, one dollar per year. Of this fifty cents remained in the local treasury. The other fifty cents went to the head association, authorized a delegate to attend the convention and paid for the official magazine.

OTHERS SPEAK.

Other speakers were Alex. Hume, Seymour East; S. G. Chant, of Oshawa, and James Irwin, of town. After some discussion it was agreed that John Murray would call a meeting of the cheese factory presidents of the district at an early date. This will be for the final discussion and organization of a branch of the Ontario Milk Producers Association here.

FIRE DESTROYS WOODEN BUILDING

Prompt Action By Marmora Fire Brigade Saves Adjoining Property.

MARMORA, June 7. — Prompt action by the local fire brigade Thursday afternoon confined a fire threat to the wooden building at the rear of Loomis and Bonter's grocery store. It is supposed that the fire started from the burning of some refuse in the yard, caught the wooden building and in a short time was pouring heavy clouds of smoke over the business section. The shed was completely destroyed, but the efficiency of the firemen prevented the spread of the flames to the nearby store. One stream of water was turned on soon after the alarm was sounded and the firemen handled the situation smartly.

INVESTIGATE DEATH

OSHAWA, Ont., June 7.—Police are investigating the death here yesterday of Thomas Allan, Montreal. His death was attributed to heart failure by a doctor, but police are concerned over the fact that he bled profusely from the nose and mouth before he died, and suffered a similar seizure at a local theatre Wednesday evening.

MINING VILLAGE IS OBLITERATED BY FOREST FIRE

Homes of Flin Flon Miners Wiped Out in Northern Manitoba.

AID RUSHED NORTH.

Forests Still Blazing, But Rest of Cranberry Portage Believed Safe.

THE PAS, Man., June 7 (Canadian Press).—Fires that have been raging in two northern Manitoba settlements during the past three days, destroying the greater part of Cranberry Portage and completely obliterating the little mining town at Mile 83, had been checked—at least momentarily—early last night and though the danger is not over, fire-fighters do not expect another attack from the roaring flames.

Practically the entire 300 population of Mile 83 is homeless and the tiny settlement is a mass of charred ruins, wiped out by a fire which started in the frame home of one of the residents on Wednesday night. Virtually all workers at the Flin Flon mines lived at Mile 83. Many of them lost all their personal belongings, but no loss of life is recorded.

Volunteers Save Town.

Cranberry Portage, partially destroyed by a forest fire late Tuesday, last night was checking losses after rangers and volunteers averted a fresh tragedy late Wednesday. A large number of persons are homeless at the portage as the result of the blaze which levelled more than a score of homes.

Fires still are burning on three sides of Cranberry Portage, but they are all some distance away. Gangs of men are gradually forcing the flames further from the settlement and all fires in the district are said to be well under control.

Relief measures to aid the homeless in Portage have been taken by the Provincial Government. Dr. H. H. Elliott, Commissioner for Northern Manitoba, returned here yesterday after organizing relief work. Fifteen families, stated Dr. Elliott, lost their homes and all belongings. A shipment of tents and blankets is already on the way to the portage and will temporarily alleviate the housing problem. Food supplies are adequate, Dr. Elliott said.

A voluntary subscription fund has been opened here to aid those who are in need of assistance.

Only a strong north wind would place Cranberry Portage in further danger from the fire menace and the threat becomes more remote each hour as gangs drive back the flames from the town.

Fires In Alberta.

EDMONTON, June 7.—With driving winds continuing and the woods like tinder from a long dry spell, the fire situation in the Fort McMurray district is rapidly becoming serious, according to word received yesterday from the threatened area. Every forest ranger is now battling with the numerous fires that are burning in the McMurray section.

From Fort McMurray through the Peace River there is a wide belt of country which has not had a drop of rain this season and it is along this strip that the fires are situated.

SHIP WINE IN TANK CARS

ST. CATHARINES, Ont., June 7.—The demand for Ontario wine in other provinces is so great that the shipment of wine in tank cars is being considered, according to officials of the Jordan Wine Company, which announced to-day its purchase of the Welsh Grape Juice plant.

OLD CEMETERY IS NEGLECTED; SKULLS EVIDENT

Burying Ground of Pioneers of Brockville District in Deplorable State.

MINISTER TO INVESTIGATE.

BROCKVILLE, Ont., June 7 (C.P.)—In an effort to obtain correction of conditions existing in the old cemetery at the Tincap, five miles north of here on the Smith's Falls highway and containing the bones of numerous pioneers of this vicinity, the Provincial Department of Health is being asked to conduct an investigation.

A descendant of some of those buried in the plot recently observed, standing in one spot, six human skulls, as well as other human bones, which had become exposed through the shifting of the sandy soil, and complaint is also made that farm animals are permitted to roam over the graves, which are quite unfenced. The cemetery, was established in the early days of settlement, lack control on the part of any organization or authority and has been abandoned, so far as interment are concerned, for almost half a century.

Hon. Dr. Forbes Godfrey, Minister of Health, stated last night that while no complaint regarding the cemetery near Brockville had been brought to his attention, he had appointed Dr. J. W. S. McCullough of the Department of Health, to make a thorough investigation of all the cemeteries, particularly the old and neglected ones in Ontario. Dr. McCullough was now making reports to him. If he received a request he would investigate the situation at Brockville immediately, said Dr. Godfrey.

LIBERAL MAY JOIN CABINET OF MACDONALD

One of Foremost Lawyers in Britain is Expected to Become Attorney-General.

STIPULATIONS EXPECTED.

Lord Justice Sankey Is Being Mentioned As Lord Chancellor.

LONDON, June 7 (By Thos. T. Champion, Canadian Press Staff Correspondent).—The last of the big rumors with respect to the new cabinet is the most interesting of all so far. It is that W. A. Jowitt, K.C., Liberal member for the double-barrelled constituency of Preston, will join the Labor party and enter the Cabinet as Attorney-General.

Rather curiously the small Liberal party in the new House of Commons is rich for its size in eminent lawyers, among whom are Sir John Simon, Mr. Jowitt and Norman Birkett. Even the Conservatives to-day seemed favorably struck with the idea of the inclusion of Jowitt in the Cabinet, for it recognized it would be a pity for all this eminent legal talent to be lost to the law offices of the Crown.

Mr. MacDonald has been given general credit for endeavoring to obtain the best legal talent available. It is not impossible, it is stated, that if Lord Justice Sankey, who has never been a party man and who is mentioned in connection with the Lord Chancellorship, and Mr. Jowitt, who has always been a Liberal, do accept law offices, they may make some stipulations as to their freedom from responsibility for the general policy of the Labor government.

Last night Mr. Jowitt had a meeting with the Liberal executive of Preston. He told the press afterwards he had nothing to say and did not want anyone else to say anything.

THOMAS HEADS UNEMPLOYMENT

Labor Considers Appointment One of Most Important in Government.

DIFFICULT TASK.

LONDON, June 7 (C.P.).—In an interview last night, Rt. Hon. J. H. Thomas confirmed the statement that he would be Minister in charge of unemployment in the Cabinet of Rt. Hon. Ramsay Macdonald, new Labor Prime Minister.

"I have undertaken the appointments because the Prime Minister and his colleagues feel that unemployment is the most responsible post in the government," Mr. Thomas said. He added he was aware of the great difficulties and intended to tackle them in wholehearted fashion.

In order to leave him free for this he will take a more or less nominal cabinet position, probably that of Lord Privy Seal, which does not carry any administrative duties.

News in Brief

(By Canadian Press)

COMMAND 22ND.

OTTAWA, June 7. — Colonel D. Carmichael, D.S.O., M.C., V.C., has been appointed to command the 22nd Infantry Brigade with regimental headquarters at Collingwood, Ont. Vice Lieutenant-Colonel, G. E. McLean, V.D., who has been transferred to the reserve, according to announcement made yesterday by the Department of Nattional Defence.

JOINS LABOR PARTY

LONDON, June 7. — The Herald, National Labor newspaper, to-day announces that William Allen Jowitt, K.C., a prominent barrister with a wide practice, who was elected as a Liberal member of Parliament, at Preston, a week ago, has joined the Labor party. The newspaper intimated he may receive a high legal office in the new government.

Preston returns two members. Tom Shaw, Minister for Labor in the last Laborite government, headed the poll last Thursday, with Jowitt second.

CHAMPION GROUNDHOG SLAYER

GUELPH, Ont., June 7.—Credited with being the champion groundhog exterminator of Wellington country, J. J. B. Leadlay, city clerk here, produced a record yesterday to show that he had bagged over two thousand of the pests in 12 years. Twice this Spring he has shot 12 goundhogs in a day.

WELL ACQUAINTED

VINTON, Ia., June 7.—Mr. and Mrs. George Redington recently celebrated their 72nd wedding anniversary. Redington is 95 and Mrs. Redington 88. They became acquainted while riding horseback to a spelling bee and were married a year later.

MAY COME TO TORONTO.

LOS ANGELES, Cal., June 7. — Toronto is definitely under consideration as the 1930 convention city of Shriners. Another centre vieing for the gala gathering is New Orleans, but it was announced yesterday that selection of a venue for next year's sessions will be deferred for 30 days because the Imperial Council of the order has decided the list of invitations is so far insufficient.

If there were but one potato in the world, 10,000,000,000 could be produced from it in 10 years with careful cultivation.

LIBERAL LEADER SINCLAIR PAYS VISIT TO WINNIPEG

Manitoba Liberals Tender Informal Banquet To Ontario's' Leader.

TOUR OUTLINED.

Northwestern and Northern Ontario Will Be Visited in Next Ten Days.

WINNIPEG, Man., June 7.—(By the Canadian Press.)—The Hon. W. E. N. Sinclair, Ontario Liberal leader, has outlined a strenuous speaking program for the next ten days. Visiting to-day in Winnipeg, informally, Mr. Sinclair last night at a banquet given by prominent Manitoba Liberals and to-day he sets out on a ten-day tour of Northwestern and Northern Ontario, during which he will deliver eight speeches. Mr. Sinclair speaks to-night at Fort Francis, Ont.

After returning to Winnipeg for a second brief visit, Mr. Sinclair again sets out Sunday night and will speak on consecutive nights at Cochrane and Timmins, Monday, June 10th at the former and Tuesday, June 11, at Timmins. On Thursday, June 13, the Liberal party head will address a gathering at Haileybury, while on Friday and Saturday he will speak at North Bay and Sturgeon Falls, respectively.

Travelling to Sault Ste. Marie on Sunday, Mr. Sinclair will address a Soo audience on Monday, June 17th. He will conclude the arduous weeks campaigning at Sudbury on Tuesday, June 18. Mr. Sinclair and his party will arrive in Toronto the following day.

The Weather

Meteorological Office, Toronto, June 7. (C.P.)—A shallow depression covers the St. Lawrence Valley and New England States and pressure is low over the southwestern and Rocky Mountain States, while a high area of moderate intensity is centred north of Lake Superior.

The weather has been fair and warm in the western provinces and cool with showers from Ontario eastward.

Forecasts.

Lower Lakes and Georgian Bay — Moderate to fresh north and northeast winds, fair and comparatively cool today and Saturday.

Northern Ontario—Fair and cool to-night and Saturday.

Superior—Fair and comparatively cool to-day and Saturday.

Manitoba — Fair and warmer today and Saturday.

Saskatchewan and Alberta—Fair and decidedly warm to-day and Saturday.

DEGREES CONFERRED.

TORONTO, Ont., June 7.—Degrees were conferred yesterday by the University of Toronto on 487 graduates, including 44 coeds, in the Faculties of Graduate Studies, Medicine, Applied Science, Education, Music, Law, Dentistry and Pharmacy.

ARREST MADE NEAR MADOC.

BELLEVILLE, Ont., June 7. — Percy Sanford, living north of Madoc, was arrested by the Provincial Police yesterday, charged with dynamiting a cheese factory one month ago.

More than 60,000 persons applied for jobs as bus drivers in London recently. Of this number only 1023 were accepted.

District Institute Branches Gather at Lakefield

REPORTS READ SHOW SOCIETY MADE GREAT PROGRESS IN YEAR

Successful Home Nursing Class Conducted Under Auspices of Warsaw Branch.

BANQUETS HELD.

Delegates Decide To Hold Next Annual District Meeting at Havelock

LAKEFIELD, June 7.—(Examiner Correspondence).—The Peterborough district meeting of the Woman's Institute was held on Wednesday, June 5, in the town hall, Lakefield, with a large attendance present, representing Belmont, Warsaw, Norwood, Havelock, Apsley and Lakefield senior branches, and Havelock and Lakefield junior branches. The district president, Mrs. J. A. Sexsmith of Belmont, was in the chair and the meeting opened with the Institute ode, Mrs. John A. Northey presiding at the piano.

The reports of branches was the first item and in every case there was progress made, hopes for future achievement and a high spirit of optimism displayed.

Mrs. Rigby of Havelock gave the report of her branch which was organized on March 22, 1928 and has already seventy-three members. In conjunction with the Presbyterian choir they put on a play "East Lynn" and realized $25.25. On October 31 they put on a masquerade dance which netted $17. An everlasting wreath was purchased and placed on the memorial gates on Armistice Day and in March of this year a birthday party was held on the first birthday. The branch has purchased dishes and kitchen equipment and during the year a teaspoon and tea towel shower was held with very satisfactory results. The cash balance on hand is $100.

WARSAW REPORT

Mrs. Weller gave the Warsaw report which showed receipts of $263.63, expenses of $182.93 and a balance of $80.70. The branch served meals at the 12th of July celebration and at the ploughing match and had a booth at the Warsaw school fair. During the year addresses were given by Mrs. C. F. Yates of Athens, Mrs. Cameron of Lakefield, J. B. Nelson, agricultural representative of Peterborough, Dr. Munro of Warsaw, Mrs. G. G. Weller and Mrs. Crowe of Warsaw. In October the branch celebrated its silver jubilee with a banquet; assistance was given to a needy family in the district and a collection of useful articles was sent to the Red Cross hospital at Apsley. Two delegates, Mrs. Miller and Miss Drain, were sent to the convention in Toronto; at Christmas invalids and shut in people were remembered with gifts of cheer.

In February a nursing class was held under the direction of Miss Alexander, eleven members wrote on the examinations and 10 passed with honors. An interesting report of the historical research committee was given and many interesting stories told of pioneer days. A cash donation toward prizes for the school fair was given.

BELMONT REPORT

Mrs. W. Smith gave the report for Belmont Institute which during the year purchased a piano for the Community Hall, the funds being partially raised by a play, Mr. Nelson addressed the branch in July. During the summer the tenth annual Children's Day was held and was attended by 100 children. A grandmother's day was a feature of the September meeting, the grandmother's supplied the program. A picnic was held at Blairton in August to which the women of the community were asked and it was hoped that it would be possible to organize a branch of the Institute but so far there was no success, but the Belmont women had not given up hope. Money was raised by a pie social, the draw for a three story Christmas cake, also a play and dance. A report of the historical research committee was given in February, and in March four dozen silver forks were purchased and a community social evening held. Donations were sent to the Muskoka hospital, the Canadian Institute for the Blind, and a cash donation toward prizes at the school fair. A layette was given a needy mother and flowers were sent to the sick. An autograph quilt has been started. The financial statement showed a healthy and gratifying condition.

SATISFACTORY PROGRESS

Miss Edna Frankish gave the report of the Lakefield junior branch which has a membership of thirty-five. During the year a first aid kit was donated to a rural school, gifts were given to three brides and sympathy and flowers to a widowed member. Two visits were paid the House of Refuge, with gifts of cheer to the inmates; six girls volunteered for home nursing during the influenza outbreak. Addresses were given during the year by Mr. Nelson, Dr. Sutton of Peterborough on Health, and by Miss Graham on good manners. Six delegates went to the Cobourg conference, one to Toronto and two to Guelph. A mongram quilt is under way. The balance on hand is $24.53.

Mrs. Buchanan gave the report of the honour branch which has a membership of 27. In August a grandmother's picnic was put on which was highly successful, a bazaar was held and a play put on by the Hastings Dramatic Club under the auspices of the Institute. During the year $10 was given for local relief and $10 to the Apsley hospital. A new note was struck by the fact that a bank account was started for twin baby boys. The balance on hand showed a satisfactory financial condition.

LAKFIELD SENIOR BRANCH

Mrs. Leslie Harrison gave the report of the Lakefield senior branch which finished a successful year. Showers were given for needy families in the May 1928 and February 1929 and a cash donation sent to a family near Apsley. A quilt was made for a local family and glasses procured for a young girl to enable her to attend school. In July a pie and ice cream social was held, addresses were given during the year by Mrs. Cameron, Mrs. Graham, Mr. Nelson and Dr. Sutton. Road signs were erected in August and a wreath was purchased for the cenotaph. Machinery was set in motion during the year which it is hoped will result in securing a community nurse. A shower was held for the Apsley hospital and visit paid to the House of Refuge at Christmas with gifts. A committee for relief work was formed in January to co-operate with the council of the village and neighboring townships. In March a course in household science was held in conjunction with the junior branch with a membership of 89. Kitchen utensils were purchased and a box to keep them in. Afternoon tea is served at each meeting for which a small charge is made and the proceeds used as a flower fund. Papers on poultry raising were prepared by Messrs. Bruce Charlton and Russell Little and were read by branch members at the April meeting. The balance on hand is $34.85.

APSLEY BRANCH

Mrs. W. Lean of Apsley gave the report of the Apsley branch which has a membership of nineteen and was organized last autumn by Mesdames Cooper and Anderson of Warsaw. A layette was given a needy mother and quilts and clothing given for local relief. Miss M. E. Taylor gave a talk on the care of premature babies which was very helpful.

HAVELOCK JUNIOR REPORT

Miss Edna Haig presented the report of the Havelock junior branch organized on February 28th last with a membership of 23. In April a progressive five hundred party was held successfully and the cash balance on hand is $15.65. Next year the girls hope to have a long list of accomplishments.

The next item was the roll call of delegates:—

Apsley—Miss M. Taylor, Mrs. W. H. Taylor, Mrs. Wellington Lean.

Belmont—Mesdames Russell, Menzie, W. Smith, H. Tinney.

Havelock Senior—Mrs. Armstrong, Mrs. Hagerman, Mrs. Hoffman, Mrs. Breckenridge and Mrs. Johnson.

Havelock Junior — Misses Edna Haig, thel Longmuir, Jean Anderson.

Lakefield Senior—Mrs. A. Davis, Mrs. A. E. Higgins, Mrs. J. W. Ridpath and Misses E. Elliott and B. Graham.

Lakefield Junior—Misses Lulu Darling, Muriel Bullock, Ethel Dunford, Olive Dunford.

Norwood — Mesdames Wheatley, Buchanan, N. Brown and F. Stuart.

Warsaw—Mrs. D. Miller, Mrs. W. Anderson, Mrs. G. Weller, Miss V. Drain, Mrs. T. Cooper.

Mrs. J. Rothwell of Norwood, secretary for the district, gave the report of the year which showed a cash balance on hand of $30.85 which was audited and found correct by Messrs. Cutliffe and Morton of Norwod.

Mrs. D. Miller of Warsaw and Miss M. E. Taylor of Apsley sponsored a resolution to the effect that there be greater supervision at the noon hour, more leadership and proper luncheon facilities in public schools and that where the latter are provided that they should be used. This resolution was passed by a unanimous vote.

A questionaire regarding maternal mortality which is a vital question has been sent out by the National Council of Women. Mrs. Miller spoke on this question stressing the need of definite action by the women. Many women have their health ruined for life by lack of care before and after child birth; pregnancy is a normal condition and, all things being equal, the woman who has borne children has better health than those who have not. The lack of pre-natal care is the cause of much trouble with young children; the highest privilege in the world is to bring children into the world.

Mrs. Eades of Coboconk who is representative of this sub-division on the Federal Board was present and urged that the district elect convenors for the standing committees of the Institute if they have not already done so, this could be done in the branches with great profit also. An invitation was given to hold the next district meeting in Havelock and was accepted at once.

A question as to whether the lunches in future should or should not be free was discussed and on motion of Mrs. Armstrong of Havelock and Mrs. Stuart of Norwood and unanimously carried, it was decided that there should be "free lunch" which made it more like a family gathering.

Mrs. Eades took the chair for the election of officers which was the last item on the morning's program and resulted as follows.

President—Mrs. J. A. Sexsmith, Belmont.

1st Vice-President—Mrs. Thomas Cooper, Warsaw.

2nd Vice-President—Mrs. Stuart of Norwood.

Federation representative — Mrs. George Weller of Warsaw.

Auditors—Mrs. Cutliffe and Wadwell and Morton of Norwood.

The Lakefield branch served a delicious luncheon which was heartily appreciated by delegates and visitors alike, and was managed by a competent committee with Mrs. Stanley Higgins as convenor. The tables were very attractively set and were decorated with mauve and white lilacs.

Others present from outside points include:—Mrs. Simmon Windsor, Mrs. W. Johnson and Mrs. L. Tucker, of Apsley; Mrs. H. O. Boyd of Bobcaygeon and Mrs. Guerant of Virginia; Mrs. Hubell, Mrs. Rigby, Mrs. Thomas, Miss Breckenridge and Miss Hubbell of Havelock; Mrs. Adam Patterson, Mrs Chamberlain, Mrs. Livingstone, Miss W. McMillen, Mrs. Harry Rogers, Misses Mary Stuart and Lillian Greenbanks of Norwood, Mrs. C. M. Callain of Coboconk, Mrs. W. N. Clements and Mrs. McQuade of Warsaw, Misses Madeline Armstrong Lulu Breckenridge and Mary Anderson.

Afternoon Session.

The afternoon session of the Woman's Institute opened with the address of welcome by Mrs. W. M. Graham, honorary president of the Lakefield branch. Mrs. Graham welcomed the delegates to the village and assured them it was an honor to the Lakefield branch, which is not yet two years old, to have them. One branch has celebrated its twenty-fifth anniversary, and has a record of service which is indeed praiseworthy. Lakefield, in comparison, is a mere infant, but we hope to go forward in such a way as to be worthy of our high calling.

The speaker asked the indulgence of the women while she urged the need of concerted action of the women of Canada to face an overwhelming problem which is baffling our Legislature, menacing our homes and little children. This is the divorce evil, which is rapidly growing and if it is not checked conditions will be as bad as in the United States, where divorce and re-marriage are so common as to be taken for granted.

The Woman's Institute is a great force for good, its field is nation-wide and its scope limitless, and it could stem this evil which is disrupting and shattering the homes of the country. The Senate of Canada wish to shift this responsibility to the Provinces, but the measure was voted down in the House in a vote in which party lines were laid down and men voted as they felt personally. The Roman Catholic vote was solidly against any measure which will make divorce easier or cheaper, and both the Anglican and Roman Catholic clergy are forbidden to re-marry divorced persons. Could not the Federated Woman's Institutes be induced to memorialize the Government in this matter.

Mrs. Hubell, of Havelock, replied to Mrs. Graham's address thanking her for the welcome and hoping to see as many in Havelock next year as were in Lakefield. We meet yearly to count our gains, to renew friendships, and to plan for the coming year. Lakefield has certainly upheld its hospitable reputation. It is said that "hospitality is the fairest flower that blooms in the spirit," and that has surely been exemplified to-day.

Mrs. Hubbell closed with a short poem which set forth beautifully that although we cannot all be numbered among the great we can all at least aim to be the best that we can be.

Misses Haig and Anderson, of the Havelock junior branch, played a piano duet very acceptably.

President's Address.

Mrs. J. A. Sexsmith gave the president's address. For over thirty years the Woman's Institute has given splendid service for home and country. It is organized in every Province of Canada and was carried by a Canadian woman, Mrs. Watt, to lands across the sea, and in England the Government has voted £10,000 annually to help the Woman's Institute, the first time in history that the British Government has made itself responsible for a woman's organization. The work is organized not only in Britain, but also in Belgium and other European countries.

Hon. G. Howard Ferguson, Premier of Ontario, says that it is very gratifying to know that there are 40,000 Institute members in Ontario; their work is beyond praise in the rural districts and along the lines of education and immigration and in other ways also. He urged that they include the welfare of crippled children in their program of work, for to endorse this great work would enhance the prestige of the Woman's Institute.

Service is the key note of the Woman's Institute program. Women, prior to this organization, have for years found happiness in service to others and the record of heroic women who have sacrificed their own comfort to help others who have been in need of help. Within the last decade the Canadian Parliament grudgingly conceded to women the franchise, forgetting that God Almighty had conferred on them a higher honor and more difficult task. Full granaries and crowded harbors are not the measure of a nation's greatness, but the service given by its men and women. Mrs. Sexsmith closed by repeating Kipling's poem, "When Earth's Last Picture Is Painted."

Miss Wanda McMillan, of Norwood, gave a piano solo in a pleasing manner.

Educative Work.

Mrs. Eades, of Coboconk, the district representative on the Federated Board, was the next speaker. The work of the Woman's Institute is educative as well as very interesting, and although an active member for eighteen years, the magnitude of the work has been a revelation to her during the year she has been a member of the Federated Board. In this sub-division, which Mrs. Eades represents, are four counties—Peterborough, Durham, Victoria, and Haliburton—and her part is to co-operate with the branch, the district, and the federation.

Service is the biggest word in the English language, and service to humanity is what the Institute stands for. Thirty years ago the first Woman's Institute met in the little village of Stoney Creek, Ontario, and now it is the largest woman's organization in the world, and Mr. Putnam says that foreign countries are looking to Ontario for leadership.

There are 1,100 branches in the Province and 100 districts, and all this owing to the vision of one woman, Mrs. Hoodless, of Stoney Creek. When the first branch was formed organization work went on rapidly in other centres, and soon the need of district organizations was felt and the Federated organization was the natural outgrowth. There are seventeen sub-divisions with a representative from each to make up the Federated Board. Mrs. Eades thanked the Peterborough district for their past co-operation and asked for a continuance of the same. The Woman's Institute in Ontario has been asked to take up the survey of the work for crippled children, provision has been made for the payment of the hospital expenses of those who need it by the Government and municipalities, and already hundreds have been helped.

Miss Winnie Payne, of Lakefield, sang a solo, "When You Come Home, Dear," and responded to a hearty encore.

Mrs. J. W. Stone, of Bond Head, the Provincial President of the Institute, was the next speaker. She outlined the work of the Federation and all that it means in a way which was clear to every woman present. It was felt for some time that there should be some stronger link between the Institute and the department than was possible with the branches and district, and in 1919 the Federation was formed as a unit to carry the feelings of the Institutes to the department. Each branch elects delegates to the district meeting and these delegates elect a district representative. In this sub-division No. 5 there are five districts, and at the Provincial annual these five representatives meet and from among their own number elect a woman to serve on the Federated Board. Thus Mrs. Eades, who is on the Board representing this sub-division has been actually elected to her office by your branches. The Federation is separate from the department, but it co-operates so closely that they work hand in hand. There are twelve conventions in Ontario, and their resolutions are sent to the Federated Board, and presented to Mr. Putnam. There is great danger of having too many resolutions, and when a whole group of resolutions for women's organizations are put before the Government they think naturally enough that the women don't know what they want and pay little attention. A minister once said that the women could get anything they wanted if they concentrate on one thing and stick to it.

Mrs. Stone advised as many as possible of the women to purchase Mrs. Lang's book "The Handy Guide to the Laws of Ontario." There is a supplement which is free to any who has the first book.

Mrs. Stone congratulated the district on their representative. Mrs. Eades, who is a tower of strength on the board, and a valuable member. She urged that where there is no junior branch that the young girls be taken into the senior branches and given some part in the work to gain and hold their interest. The Juniors should see that every girl in the community is asked to join the branch and given a chance. Many girls have been saved from the streets by the help of the Institute which gave them an opportunity to develop along useful lines. The women should take more advantage of the courses and coaching classes; these are helpful to both women and girls.

She urged a greater realization of the responsibility of members and a greater amount of co-operation given to officers; also, she stressed the value of a definite objective in branch and district, and don't make the raising of money the chief object. In some districts the branches are actually in competition to see which can raise most and in this way they lose sight of the real object of the Institute.

The Institute is the only organization in Ontario mentioned in the valuable handbook, "Five Thousand Facts About Canada," which shows its importance.

The Provincial Board has taken a great interest in the work at Tobermory, which is an isolated settlement in the Bruce Peninsula, and it was decided that as an experiment that a doctor be subsidized and sent there. One man went, but in 24 hours became discouraged and left, and in April, Dr. Fisher, a courageous woman, went up, and is doing a splendid work, and in all respects justifies the experiment.

The questionnaire sent out regarding maternal mortality, did not originate with the Institute but with the Local Council of Women, and each branch should make use of them.

Last year the descendants of unmarried parents increased 12 per cent. over the previous year, and in preventing this condition the Women's Institute can do much, as it is non-partizan and non-sectarian, and these women and girls are our sisters after all.

The work for crippled children is worth while and district and branch concerns should be appointed; also the work of the League of Nations should be stressed more, and it would be advisable to set a day apart for this topic, and also a day for Health. The Woman's Institute has never appealed to any other organization for help, although it has many appeals from other societies. First help the needs at home and then we can help others.

At the Provincial Board meeting in April the Institute was appealed to to champion the cause of Temperance. The Institute is non-sectarian, and non-partizan, and in the last Provincial election all the leaders declared it a political issue, so that it cannot be discussed, although censored literature will be sent to the branch, but there must be no controversy, because nothing would kill the Institute as quickly as partizanship. Mrs. Stone closed by reciting a poem, "Myself."

Mrs. Russell, the president of the Belmont branch, contributed a solo to the program.

Mrs. Cameron of Lakefield, spoke on "Women and their Vote" in a humorous speech, in which she urged women to use their franchise now they have got it. For years they fought for the vote and now they have won the battle they do not use it as they might and too often allow trifling things to stand in their way of exercising the right. If the women took the matter as a serious duty the men would follow suit, and the children, who are the voters of to-morrow would grow up realizing their responsibilities. Vote in the municipal, provincial and Dominion elections, and vote for the man who will best serve the interests of the country, and who will be for Canada first, last and all the time. At the trifling expense of two cents a day you can keep yourself informed through the daily papers of the important questions of the day, such as waterways, power control, tariff and other matters of national inportance. We want a representative who has a mind of his own and a man of upright character, and who is neither a "blatherskite" nor a "bump on a log." In closing Mrs. Cameron referred to two outstanding Canadians of opposite political belief, who, each in his own way, worked for the best interests of Canada and the Empire, with a patriotism unquestionable and a singleness of purpose not to be denied. These men were Sir John A. Macdonald and Sir Wilfrid Laurier, neither of whom enriched himself at the country's expense, but each gave his best to serve the Empire, of which Canada is the proudest part.

Miss Mary Stuart of Norwood played a piano solo in a pleasing manner.

The last speaker was Mrs. David Miller of Warsaw, introduced by Mrs. Sexsmith, as one who is heart and soul in the work. She spoke briefly on the value of Responsibility. We all have a responsibility whether we belong to the Institute or not, and we must accept our work, and do it. The young people of to-day are allowed to grow up in many cases with no responsibility at all; in many cases wanting everything they see others have and wasting their time and their leisure hours. The older people are responsible for this unfortunate condition.

Mrs. Miller spoke on the value of the questionnaire previously referred to; it is timely. She also urged more attention paid to visiting the sick and shut-ins.

We are urging that there shall be no more war but as long as man's inhumanity to man exists the war clouds will not be lifted.

Do not drop work as long as God gives you power to do it. Mrs. Miller closed with a short poem which illustrated the point of her earnest address.

Before closing a vote of thanks was extended to the Lakefield branch for their hospitality on motion of Mrs. Rothwell of Norwood, and Mrs. Hubbel of Havelock.

CATTLE, GRAIN AND PRODUCE

WHOLESALE FRUIT PRICES.

Fruits on sale at Toronto wholesale houses are quoted as follows:

Domestic—		
Apples, Spys, barrel	7.00	to 10.00
do. U.S. Winesap, box	3.75	to 4.00
Imported—		
Bananas, per lb.	5.50	to 6.00
Grapefruit, large case	5.50	to 5.75
Lemons, Cal., box	4.50	to 7.50
Oranges:		
Cal. navels, box	4.75	to 5.50
Cal. Valencias, box	4.00	to 6.25
Cocoa nuts, 100 per sack	5.00	to 5.50
Strawberries, quart	0.21	to 0.23
Pineapples, crate	3.75	to 4.50
Watermelons each	1.00	to 0.00
Sweet cherries, ox	4.00	to 0.00
Canteloupe, case	8.00	to 8.50
do. small case	3.25	to 0.00

The above quotations are approximate only and subject to daily change in wholesale markets.

WHOLESALE VEGETABLES.

Vegetables on sale at wholesale houses in Toronto are quoted as follows:

New Ontario potatoes, 90-lb. bags	$.00	to $1.25
Carrots, bag	1.00	1.25

do. twins	21½	to 00
New Stiltons	25	to 00

CHICAGO GRAIN.

CHICAGO, June 7. — Farm relief reports kept wheat traders on the jump yesterday, and had some comic aspects that were anything but funny, however, to the traders themselves.

Word that President Hoover would send an important message to Congress yesterday did much to stir up a buying rush that in some cases hoisted wheat prices to 5¼c per bushel above the day's bottom level. In many quarters it was assumed the

FRIDAY, JUNE 7, 1929

CAMPAIGN AGAINST SPEEDERS.

Several drivers detected exceeding the speed limits on city streets have been fined in police court recently, and it is announced that many more offenders may expect the same treatment if they do not profit by the fate of the advance guard of the speeders.

The warning will not be resented by any sensible motorist.

City streets are not the place for endeavoring to find out if the advertised speed of the cars is correct.

They are not speedways or racetracks, but thoroughfares built for the use of all, where courtesy and common sense and regard for the safety of the public are supposed to be the common concern.

There is too much fast driving here—no one can deny that fact or justify it—and the police department is to be commended upon its campaign to slow down automobile traffic to a rate consistent with safety, which certainly cannot be said of the speed at which many drivers have been operating their machines within the city limits.

The drive against speeding should be carried through until results are obtained.

SUMMER CAMPS.

The action of the Young Women's Christian Association in purchasing an attractive summer home at Stoney Lake for use as a camp provides Peterborough girls with the same opportunities for a delightful holiday as Skookum, the Rotary camp at Clear Lake, has furnished the boys of the community.

These two splendid camp properties place Peterborough in a most enviable position as regards vacation possibilities.

With well managed, well equipped and ideally located camps available for the young people of both sexes, this community has a distinct advantage over many other centres in this respect.

Peterborough's proximity to the beautiful Kawartha chain and the enterprise and vision of the citizens interested in such institutions as the Y.W.C.A. and Rotary have made this most happy condition of affairs possible, and parents should see to it that full advantage is taken of the facilities provided at these camps.

No finer outing is offered anywhere at such a low cost, and hundreds of Peterborough young people should avail themselves of the unique opportunity that is offered them.

THE PUBLIC SHOULD KNOW.

The strongest point Mr. Sinclair is making in his indictment of the Ferguson Government for its method of administering the Liquor Control Act is based on the Government's refusal to enlighten the public as to the total of sales made by the individual stores throughout the Province.

The withholding of this information is depriving the people of Ontario of data which they are entitled to possess.

The citizens of any particular section have a right to know how much is being spent in liquor in their neighborhood, and there does not seem to be any worthwhile reason why information on that point should be denied by the Government.

Why should the people of Peterborough not be told, for example, what the total receipts of the vendor's store and the beer warehouse here amount to in a year?

Surely there is not even a plausible excuse for keeping the figures hidden from those most interested in them, and the refusal to furnish this information gives every reason for suggesting that the sales in some districts are so large that the Government, for obvious reasons, fears to make them known.

Mr. Sinclair will find that he has plenty of support in his demand that the Government put all the cards on the table.

OLD AGE PENSIONS.

The City Council will soon have to deal with the question of how the Old Age Pensions Act is to be administered here, a subject of much importance and worthy of serious consideration.

In a number of municipalities it is proposed to have old age pension applications dealt with by a separate commission appointed by the Council; in other Ontario cities a committee of the Council is suggested as the most desirable means of handling the matter.

It will be necessary to come to a decision shortly as to whether either of these courses will be followed in Peterborough, or whether still another plan can be adopted.

In any case the matter will have to be decided by the Council, which will have to administer the Pensions Act itself if it does not get rid of that responsibility by appointing a body to accept the duties.

The Examiner believes that the most satisfactory method would be the appointment of an independent board or commission, functioning much as the Mothers' Allowance Board does.

Those eligible for old age pensions would undoubtedly prefer to apply to such a body rather than to a committee of the Council, and the work generally would be more satisfactorily done.

The necessary machinery will soon have to be provided, for the Act is to be signed immediately and will come into effect on November 1st.

MEDICINE IN THE WILDS.

Serious problems which confront people living in isolated parts of the Dominion have been under consideration of members of the Ontario Medical Association. They have drawn the attention of the Canadian Medical Association to conditions existing in many backwoods districts, as regards the services of physicians, and a resolution has been passed, suggesting that efforts be made to have a commission appointed by the Government to look into the matter.

One of the chief drawbacks to life in places far removed from ordinary means of communication and transportation is the fact that medical service is not available. The doctors, certainly, cannot be blamed, for they have their living to make, and must consider the economic side of their careers. In these small, isolated villages, they cannot hope to develop a practice sufficient to provide them with a livelihood.

There have been instances, of course, where self-sacrificing physicians have gone to such places, from pure love of their fellow-men, and lived on pittances in order to minister to the people about them. Doctors, however, should not be called on to do this.

Still other cases have existed where the entire population of a village has clubbed together to guarantee a steady annual income to any doctor who will settle in their midst, but this load is often too heavy for the villagers to bear. Still, no community should be without medical service. The situation is one which richly deserves investigation by a Government commission.—Border Cities Star.

RAMSAY MacDONALD.

British politics has no parallel for Ramsay MacDonald. The nearest approach to him is David Lloyd George. But though Lloyd George, like MacDonald, rose from a humble cottage, and was all but crucified before being crowned, he at least was brought to power by the force of an historic party. Ramsay MacDonald, on the other hand, is the creator of his own party. Keir Hardie may have been the father of Labor in Parliament, but it was MacDonald who cradled it, nursed it, stood by it in adversity, vitalized it with passion, gave it its creed and power. Without him, without his ideals and courage and statesmanship, Labor could not have triumphed.

MacDonald's background is of obscurity and poverty. Child of a Lossiemouth cottage; clerk; clerk in a London store at three dollars a week; broken in health through study for a scholarship, he tasted all the dregs of the bitterness of life. His first political job was as private secretary to a Liberal M.P. It was then that he determined upon a public career—but not as a Liberal. Victorian Liberalism did not appeal to him as sufficiently heroic for the evils he knew; so he became a Socialist.

It was no easy path. There had been Socialists in England, but they were politically insignificant. Ruskin and William Morris had preached a pale, intellectual creed; Hyndman and Keir Hardie were more bold; and there were Fabians like Bernard Shaw and Sidney Webb. But that Socialism should one day go to Westminster and challenge the great parties, that it should even enter the portals of 10 Downing street—that was not a dream.

It was not, therefore, until 1900, and after Southampton had rejected him by 5,000, that MacDonald entered Parliament for Leicester. A few years later, having distinguished himself for his eloquence and ability, he became leader of his party in the House.

Those were the days when Lloyd George, under Asquith, flashed his democratic sword. Liberalism, then, was the party of reform; and Labor, most of its thunder stolen by the crusading Welshman, did not progress far. Time and again MacDonald went into the lobbies to vote with Lloyd George. They even said that he was a Liberal who had strayed from his spiritual home.

Then came the war. Lloyd George was first pacifist, then patriot; Morley and Burns quit office; other Liberals held on. MacDonald, if he was not patriotic, was at least courageous. When Redmond, the Irish Nationalist, stood up to speak words of support; when Thomas and Clynes and the other Laborites stood by Asquith, Ramsay MacDonald got up and said no. He would never support war.

He became a pariah, an Ishmaelite. The public hated him, the politicians despised him, his own party disowned him. It all made no difference. MacDonald had taken his course, and not all the slings and arrows of fortune could divert him from it. He went into the wilderness and remained there until the guns were silent.

It is one of the finest of British characteristics that they forgive much to courage and sincerity. They forgave Fox and Bright; they forgave Campbell-Bannerman and Lloyd George.

So in the case of MacDonald. In 1922 a Welsh constituency, which had given its last man in the war, sent him to Parliament with a majority of 4,000 to become Leader of His Majesty's Opposition. One year later, he was Prime Minister of Britain. His story thereafter is history.

As parliamentarian, debater and orator, few surpass him. In dignity of diction, in use of the inevitable word, in passion, beauty and structure, his speeches are models of eloquence. So great a critic as Lord Birkenhead wrote that as debater MacDonald was surpassed by but three men in the House.

Shy, reserved, a victim sometimes of Celtic melancholy, he is often misunderstood. Biographers have pictured him as a dour Calvinistic Scot, as a combination of Hamlet and Highlander, but no one who has read the beautiful and moving love story of "Margaret MacDonald: A Memoir" can think of him as that. There are passages in that book, passages of such loveliness and of such pathos, that would warm the coldest heart. They tell the story of Ramsay MacDonald's romantic courtship and marriage to Margaret Ethel Kelvin, a niece of the great Lord Kelvin; and there is little in the love literature of the world more beautiful, certainly not more noble. Margaret Kelvin died, and this book, a tribute to her, is the very best revelation of the heart of Ramsay MacDonald.

It was said of one great Englishman by another that he was "sometimes wrong, sometimes on the wrong side, but never on the side of wrong." Whatever many may think of the Socialist creed of Ramsay MacDonald, one reads his story but to believe that he will never wilfully be on the side of wrong, that he will nothing mean nor petty do in the great and historic task to which he has been called.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

"Button Up Your Overcoat" is still a timely as well as popular number.

The electors of Prescott and Lanark are going to have an election campaign in July to help them pass the long summer days.

Publicity abroad for Canadian products has proved a tremendously paying investment, Hon. James Malcolm declares. And publicity at home for the same products will bring equally satisfactory results.

Windsor and Hamilton are teaming up in a drive for more tourists. The movement indicates how profitable tourist traffic is to the centres which get a fair share of visitors.

Now that the Derby is over Britishers will be able to give a little attention to the political situation.

We're wondering if reporters employed by a newspaper owned by a power company are paid on a kilowatt hour basis.—Milwaukee Journal.

A Thought

OUTCASTS

It often happens that the outcasts of one generation are those who are reverenced as the wisest and best of men by the next. The securest fame is that which comes after a man's death.—Grandfather's Chair.

He often acts unjustly who does not do a certain thing; not only he who does a certain thing.—Marcus Aurelious.

Horoscope

The Stars Incline, But Do Not Compel

Saturday, June 8, 1929.

(Copyright McClure Newspaper Syn.)

This should be a fairly calm and happy day, according to astrology which reads in the horoscope signs of good luck for dwellers on the planet Earth.

Under this sway it is well to review the week just past and to look forward, for vision should be clear and judgment trustworthy.

The day should be auspicious for producers of oil, for new discoveries are foretold.

The ocean or its shores will contribute new stores of "liquid gold", if the stars are rightly read.

Women to-day should plan recreation rather than work of any sort. It is an auspicious rule for outdoor entertainments.

The evening is read as an auspicious time for making wedding plans or even for going through the marriage ceremony.

Increase in the number of marriages is to be marked before the year ends and divorces are to diminish, it is again prophesied.

Under this direction of the stars music is most fortunately affected, for unknown artists are likely to be recognized.

Changes for the better in the management of theatres and the training of those who act in them are prognosticated.

Astrologers foretell a time when amusements will be raised to a high standard and their cost for the individual placed within the reach of all.

Devotees of the silent drama may expect a revival of popularity for the movie without noise, if the stars are rightly read.

New arts as well as new inventions are to be many in this year of 1929, but gradually what is good must be chosen from chaos, the seers declare.

Persons whose birthdate it is, have the augury to domestic problems in the coming year which will bring luck as well as threatened difficulties.

Children born on this day probably will be exceedingly kindly and affectionate. The subjects of this sign may be inclined to depend on others and should be taught self-sufficiency. Many of them have splendid gifts.

Why We Do What We Do.

WHY WE CRAVE WONDERS.

The magician tells you frankly that he is no miracle man. And yet you like to see him perform. You are intrigued, fascinated, mystified.

It is this very element of mystery and wonder that compels interest and arouses curiosity. We like to hear and tell incredible things. We are not overcritical about a really good story. It is common practice among sailors, cowboys and other men to get together and see who can tell the biggest yarn.

We do not worship fire and make sacrifices to the rain god as did our savage ancestors. We have learned a few of the laws of cause and effect, and thanks to Steinmetz, we can produce lightning in the laboratory or on the stage. Nevertheless, our seeming mastery over nature has served to increase rather than diminish our awe and wonder at the many things we do not understand.

A child's demand for the thrill of wonder and mystery, is fed by fairy tales and impossible exploits of adventure. The human race is never wholly and permanently fed up on mystery and wonder. It represents a thirst for the unnatural, the extraordinary.

The ordinary happens every day. It is no treat. The commonplace appears to be too well understood and lacks inducement for further study.

A certain degree of mystery is essential to keeping up interest. This is true of people as well as mechanisms and natural phenomena. Familiarity still breeds contempt. It is said that no man is ever a hero to his valet. The true leader must be inscrutable. The forceful and influencial person must not be too transparent. You must keep the other fellow guessing. How well the ladies know this art! And mercilessly they practice it!

We crave wonders to feed several appetites: the appetite of curiosity, the appetite of showing off, the thrill of the strange and new and novel, and the inherent desire to escape the monotony of reality.

Above all, we crave wonders because the quest gives us a sense of expansion in every dimension. It lifts us out of the sordid, commonplace verities of life and takes us to the land of enchantment. It is a combination of dreaming, reverie and day-dreaming in which you carve the environment to suit your tastes instead of changing your taste for fried chicken to a plate of beans.

We crave wonders because they wish fulfilling. Through them we get what we want.

"All work and no play," says motoring Mona, "make an automobile tourist." By Gettier.

The Tule Marsh Murder

By NANCY BARR MAVITY

Story of a Missing Actress and the Taxing of Wits to Explain Her Fate

THE STORY THUS FAR:

Don Ellsworth's wife, formerly the famous actress Sheila O'Shay disappears, leaving no trace, Dr. Cavanaugh the great criminal psychologist learns that their married life has been very unhappy.

Peter Piper a reporter on the Herald, tries to get an interview with Dr. Cavanaugh. Instead he meets Barbara Cavanaugh, the attractive daughter, and finds that she was engaged to Don Ellsworth before his marriage.

An unidentified body is found in the tule marsh outside the city. It has been burned by a fire in the marsh until it is entirely unrecognizable except for the fact that it is a woman. Dr. Cavanaugh is called in to help with the identification. The only thing by which the body can be identified is a patch of scalp with some hair attached. Dr. Cavanaugh takes this home with him. He asks Don Ellsworth to secure for him a strand of Sheila O'Shay's hair, and Don violently refuses.

CHAPTER 13.

With a single movement that was like the spring of a puma, Don Ellsworth catapulted from his chair. His toe caught in the fringe of a rug. He half stumbled, but recovered his balance blindly, hardly noticing the check of his progress. In another instant he had flung himself from the room, his hat forgotten on the table, and the outer door crashed shut, propelled by the backward fling of his arm.

Dr. Cavanaugh's hand paused a fraction of a second, his cigar half way to his lips. Then the interrupted movement was completed, as deliberatley as it had been begun. He had not risen to intercept Don, and he made no effort now to follow him.

"Hm!" The sound was half a hum, half a gently sigh. It was Dr. Cavanaugh's equivalent of half a dozen excited ejaculations. He settled his thick shoulders against the pillows of the chaise-lounge But there were no more smoke rings Instead, he drew from his inner pocket a small leather bound notebook, propped its lower edge against his arching middle, and proceeded to make notations in almost microscopic handwriting, first on one, then the other, of the two pages spread open before him.

"Hm!" he murmured again, like a gigantic bumble bee. "On the one hand we have a young man of undisciplined emotions, subject to gusts of rage which he has never been taught to control Unused to delaying his reaction to any impulse Caught by the tremendous vitality and charm of the dazzling Sheila O'Shay But the attraction evidently soon spent Query; Why did he marry her?" The query was underlined in the little notebook, and further marked by a star in the margin. "Corollary: "Why did she marry him? Money, probably. But did she capture him before he had time to get back his emotional balance, or had she some means of forcing him to it? Not inferable from present data. Leave that out—confuses the present problem." Dr. Cavanaugh accordingly drew a line lightly through the "corollary." He carefully deposited an inch of white cigar ash in the tray, allowing the notebook to flop forward, then adjusted it at its former angle.

"In general, people will subconsciously choose words that tell the truth, even when it is not the truth they mean at the moment. A great little master of the double entendre, the subconscious is!" he mused. "Let's see. Don did not say that he wanted his wife back—he said that he wanted to be rescued from the undesirable publicity aroused by her disappearance. That's quite different. His anxiety was not for her, but for the effect on himself. He resented the interference of Mrs. Kane, and of the police. He didn't care what we found—'so long as it wasn't Sheila.'

"On the other hand," Dr. Cavanaugh's minute scratchings were now scrawled on the opposite side of the facing pages —"His own subconscious desire to have his wife out of the way might have a powerfully disturbing effect when that unexpressed wish was suddenly fulfilled. There is also his extreme dislike, amounting almost to a phobia, of publicity, by which he feels that he has been victimized. The impulse to run away from an intolerable situation—all the more intolerable if it were to involve him in a sensational murder case—may have become overpowering; and so he ran away, without even considering the futility of the escape, nor its consequences. One thing is certain: Don Ellsworth would not be capable of any carefully devised plot. Unless we have to do with a person clever enough to convey the impression purposely, the whole evidence—what there is to it—does not point to premeditation, either on the part of Mrs. Ellsworth, if she actually left of her own will, nor of her murderer, if she was killed. Ellsworth might conceivably act with extreme rashness, follow an instinctive immediate course of self protection, and then wake up to find himself in a mess, utterly helpless both by temperament and training, to devise any sort of scheme to extricate herself."

Dr. Cavanaugh snapped the notebook shut, restored it to his pocket, and heaved himself somewhat wearily erect.

"That hair is beginning to be important," he said aloud. "But it's less important for me to get it than to find out who is unwilling for me to have it—and why. That's what Camberwell and his policemen will never quite appreciate. Which means that I'll have to go after it myself."

Having bet himself a nickel that Don Ellsworth would not have turned homeward after his explosive exit from the office, and verified the prediction by means of a telephone call, Dr. Cavanaugh pocketed his winnings, leisurely shrugged himself into the overcoat which always hung in readiness in the carved Florentine wardrobe that filled one corner of the room, and backed his small, unobtrusive black runabout from its place in the double garage.

The other side of the garage yawned empty. Barbara had driven to a party at the house of friends, and for once, Dr. Cavanaugh was glad of her absence. After all, she and Don had been very good friends not so long ago. He might yet have to be glad that the friendship had lapsed. But meanwhile, though she often followed his cases with eager interest, he hoped that he might avoid giving her an account—or, what was just as bad, obviously declining to give her an account—of his progress in this case.

The maid who answered Dr. Cavanaugh's ring at the front door of the Ellsworth house stopped short, her eyes as round as marbles, at the sound of his name. She, at least, was an avid reader of the newspapers, and the wonders to be expected of the great Dr. Cavanaugh, who was reported to have been called in consultation on the "Tule marsh mystery," had been the theme of delighted flights of imagination in the kitchen not an hour ago. Ethel's expression was a mixture of awe and fright, as if Dr. Cavanaugh, by by black magic, was likely to weave a connection between murder and anyone so unwary as to stand in his vicinity.

Dr. Cavanaugh submitted to this fascinated scrutiny with patience. Servants to him were human beings, and he was neither surprised nor offended when they dropped the pretense of being machines.

"I'd like to see Mrs. Kane," he announced with his usual directness, thereby shattering Ethel's previous conception of the devious ways of criminologists.

The girl's face reflected a shocked astonishment, not unmixed with malice and sheer delight in a thrilling situation. Already she could hear herself telling the cook that she had let the great man in, that he had looked "just like you or me, not a bit like a 'criminologist,' and no airs at all," that his request for Mrs. Kane made her feel "just like in the middle of a story—and I hope he's got something on that old cross budget and anyway, isn't it exciting, just?"

For the moment, however, she was confronted with a social emergency for which she was unprepared.

"Yes sir," she stammered, "Come in, sir, and I'll bring Mrs. Kane right down —or should I take you to the servants' sitting room?"

"I wouldn't dream of turning you out of your sitting room, with the radio program not half over," Dr. Cavanaugh said, smiling a little at Ethel's surprised acknowledgment of this slight demonstration of insight and consideration. "Mr. Ellsworth left my house only a short time ago; and though I know he did not come straight home, I think I may venture to take possession of the library in his absence."

"Certainly, sir."

Having opened the door for him, Ethel scurried down the hall. He listened to her footsteps, pattering almost at a run up the stairs.

So Mrs. Kane does not sit with the other servants in the evening—Don was right about her unpopularity, then."

Other steps came down the hall, a resolute, flat-footed thud-thud.

Dr. Cavanaugh picked up a magazine from the table, and was leafing its pages when the door opened. He did not look up until, after a moment's hesitation on the threshold, the footsteps, a shade less resolute, entered the room.

"And what, may I ask, do you want of me?" said Mrs. Kane.

(To be continued.)

Lyrics of Life

By Douglas Malloch

CHAOS.

A comet hasn't hit the sun
In fifty million years,
The moon run over anyone
In aeons, it appears.
But every time I walk the street
Some yokel steps upon my feet,
Some auto gives an awful squawk,
Somebody bumps me off the walk.

The planets never do go wrong,
They never do collide,
But people make their way along
By pushing me aside.
Their elbows, like extended jibs,
Are always landing in my ribs,
And I have nearly lost an eye
When parasols were passing by.

I wish that other folk would stay
Inside their orbits, too,
The way the planets all the day
And night appear to do.
It soon would end, this crazy world,
If through the skies the planets whirled
The way a woman crowds and shoves
When looking for those bargain gloves.

(Copyright, 1929, by Douglas Mallock.)

LAUGHS FROM LIFE

"I never thought Steve's boy would mount to nothin', but he shot a revenuer today."

LITTLE RAMBLES WITH SERIOUS THINKERS

Sometimes, I fancy that the United States will one day become the center of the British Empire.
St. John Ervine.

Nobody amounts to anything if they've had a happy childhood and youth. Joseph Hergesheimer.

Many of my best friends are farmers. Sherwood Anderson.

To my way of thinking, one of the soundest reasons for a man's head being placed where it is—on top—is because it can see better "up there."
George Matthew Adams.

An abundance of IT will make one the life of the party. Clara Bow.

The unclothed body should be beautiful in all its proportions.
Bernarr Macfadden.

In spite of what you hear to the contrary, the prohibition movement in the United States never was a failure and never can be a failure.
Pussyfoot Johnson

The average husband is approximately as romantic to his wife as a cow. George Jean Nathan.

MAY

May comes stepping down the spring
Delicately,
They have taken a web of the finest silk
And spun the gold of her hair;
They have taken the grapevine's tender green
And made her a robe to wear;
The embroidered girdle about her waist
Is the blue of her brooding eyes;
And the flowing sweep of her slender grace
A remembrance of willow sighs.
To her breast she presses a blossomed bough
As she moves toward the year's high noon,
For with solemn sweetness she goes before,
Bridesmaid to the radiant June.

May comes stepping down the spring
Delicately.

The number of new golfers this season will be larger than ever, and that reminds us that now would be a good time to organize a Hook-of-the-Month Club.

CANADIAN GRADED LESSONS

TORONTO, Ont., June 7.—Canadian graded lessons for Canadian Sunday schools were unanimously approved by the Toronto Conference of the United church Thursday. These lessons, which hitherto have been published in the United States, will be ready about October, 1930, it was stated.

STRANGE AS IT SEEMS— by, John Hix

The clown Costard, in 'Love's Labours Lost', addressing the schoolmaster, says, "Thou art not so long by a head as honorificabilitudinitatibus."

CAR ACCIDENT.

Traffic congestion on George Street just north of Hunter Street, caused a slight accident at eleven o'clock this morning. Mrs. C. E. Johnston of Nassau was driving north on George Street, and her car collided with that of Archie Reid. Reid was backing out from the curb. Mrs. Johnston's car was damaged along the right front running board.

W.M.S. MEETS.

Mark Street Ladies Hear Address From Miss Bradley, Missionary Worker.

The regular monthly meeting of the Mark street auxiliary was held in the church parlours Thursday afternoon with a large attendance. The president, Mrs. A. E. Thornley being absent, Vice-presidents Mrs. A. J. Throop and Mrs. John Speer, took charge. Miss Bradley, missionary worker, gave a comprehensive outline of her work in Vancouver. Miss E. Whattam reported great enthusiasm shown by the Mission Band members when they held a shower recently in the lecture hall of the church. They brought in useful articles such as towels wash cloths, pencils, marbles, etc., for the bale. Fifty energetic young people with their leader, Miss Throop enjoyed a banquet provided by the auxiliary ladies. Mrs. W. K. Payne was appointed temperance secretary. Arrangements for the annual picnic to be held in August were left with the executive.

Crosscutting is now said to be underway on the Boyle property, under option to Towagmac, at Alden. A shaft has been put down here to a depth of 115 feet and lateral work is now said to be underway on the 100-foot level. Cross-cutting is expected to reach the downward extension of the vein showing on surface in the near future.

CHEAPER-PRICED ISSUES SHOW GAINS AT NOON-HOUR SESSION

Ajax Oil Increases 23 Points in Turnover of 258,000 Shares.

OIL SECTION STEADY.

Amulet, Newbec and Big Missouri Among Issues To Advance.

TORONTO, Ont., June 7 (C.P.).—Prices were rapidly recovering toward the noon-hour after an earlier unsteadiness on the Standard Mining Exchange to-day, especially the cheaper priced stocks most of which, at noon, showed substantial advances. Ajax once more experienced a heavy run when a turnover of more than 258,000 shares sent the price floating up to 1.31, a net increase of 25 points. Amulet gained 7 to 1.30, while Newbec shot up 1 1to 65, and Big Missouri improved four to 1.37.

Noranda touched a low of 52.10 and then recovered to 53.05, up 45 cents. Oils were all steadier, with Alberta Pacific firming 30 cents to 4.50, Sterling Pacific 20 to 2.00, and Dalhousie 15 to 4.00.

SI AND MARY ENTERTAIN CLUB

Sports Day Program Outlined at Weekly Kiwanis Luncheon.

REPAINTING BOOTH.

St and Mary entertained the Kiwanis Club at their weekly luncheon in the Empress Hotel today. The far-famed, newly married couple of Smither's Corners unloosed a dazzling repertoire of card tricks that amazed and delighted the audience.

Congratulations of the club were expressed to C. S. Browne, Charles Lacheur and J. A. McKone for having rounded another milestone in life.

Art Moffat, chairman of the Sports Committee, announced the program of the big Kiwanis Sports Day, to be held June 11 at 7 pm. at King Edward Park.

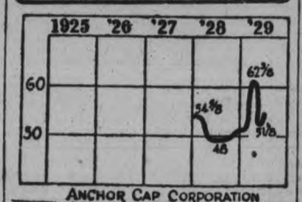
Douglas C. Grant, chairman of the Property Committee, announced that he had started painting up John Brownlee's booth. The redecorating of the blind man's booth will be completed within a day or two.

It was announced that the Kiwanis Fresh Air Camp at Jackson Park will be put in first-class shape for Old Home Week. A thorough inspection will be made and any necessary repair work will be done immediately.

Walter J. Kidd was booster for the day, and the prize-winners were: W. F. Kidd, Andy Purman and W. S. Merrill.

Visitors at the luncheon were: J. A. Wainman of Peterborough, Andy Purman of Chicago, S. R. Saxby of Toronto, J. J. Duffus of Peterborough, W. J. Anderson of the London Kiwanis Club.

STOCK A DAY



ANCHOR CAP CORPORATION

5 REARS RECORD. ANCHOR CAP CORPORATION.

The Anchor Cap Corporation is a holding company. Through subsidiaries, it controls a complete unit for manufacture and distribution of hermetically sealed glass containers. Its products are used by many leading packers, chain stores and food products companies while another type made by it, is used in the drug trade. A subsidiary makes machinery for applying the caps and these are leased to packers and users on a rental basis. The subsidiaries of the company operate five plants in addition to many sales agencies in the larger cities of the United States. The company had subsidiaries which also deal in auto accessories.

Sales and earnings have shown a steady increase for the last four years. Net income in 1928 available for the common stock was $909,783 or $5.17 a share. This compared with $390,863 or $2.71 a share in 1927. In 1929 the company acquired all the outstanding stock of the American Metal Cap Company.

There is no funded debt. Capital stock outstanding consists of 45,500 shares of $6.50 cumulative convertible preferred of no par value and 176,000 shares of no par common. Preferred is redeemable at 110 and is convertible into common at the rate of 8 shares of common for one of preferred. It has no voting power unless 6 quarterly dividends are in arrears. Preferred dividends have been paid since Jan. 1, 1929. On the common an initial quarterly dividend of 60 cents was paid in April 1, 1929.

As of Oct. 31, 1929, total current assets were $1,960,280. Current liabilities were $960,616 and net working capital $999,664. Book value applicable to the common stock amounted to $5.15 a share.

(Copyright, 1929, by the Bell Syn., Inc.)

The shift at the Falconbridge is now said to have reached 1000 feet, and station cutting is now in progress. It is planned to do considerable lateral work, possibly 1000 feet at this horizon.

DENTAL THIEF

(Continued from Page 1.)

pile of other loot, and within a few days the man was caught.

Chief Newhall told The Examiner that Butler had also robbed dentists' offices in Lindsay and Kingston about the same date that he had been here. The chief also declared that Butler had paid a visit here a few years ago and had cleaned up on several dentists. On that trip this practised thief had made good his getaway, and was never caught.

HEADQUARTERS AT J. J DUFFUS, LTD.

(Continued from Page 1)

be held for annual competition among the schools for their inspection. The school Cadet company winning the cup three years will retain the cup.

Bill Fleming has given a large cup for competition in the parade. This cup will be won by the person or company having the best float in the grand parade.

It was reported that the Canadian National Railways were unable to send their old type engine to Peterborough for the celebration, since the engine is at present out of commission. An effort will be made to have the railway send one of its most modern type locomotives and an observation car.

Bringing Along Band

The Toronto contingent to the celebration is bringing with them the T.T.C. band, and they have offered the services of this band to the city. Toronto Day will be Wednesday and the Toronto Old Boys are planning special features for that day.

That Peterborough's Old Boys and Girls are eager to return for the big week was shown by many letters read. Fred eHaslip wrote stating that a special car carrying the Chicago Old Boys to Peterborough is practically assured. In Detroit a meeting of former Peterborough citizens was called, and over a hundred were in attendance.

Letters were also read from London, Buffalo, and Los Angeles, and in each of these cities many persons are actively engaged in creating enthusiasm for Peterborough's Old Home Week.

Dr. J. E. Middleton and his committee will have a gaily decorated booth at the enrance to the city on Monaghan road. The visitors will be given information and a hearty welcome by those in charge of the booth. In this connection the committee is asking for volunteers to serve on the information bureau during Old Home Week.

Engineering advices from Prince Rupert are to the effect that the new vein on the Columario shows surprising values, channel samples giving a gold content of almost double the original sampling of $26 over a width of five feet. Columario was recently listed on the Standard Exchange, the shares selling over the dollar mark.

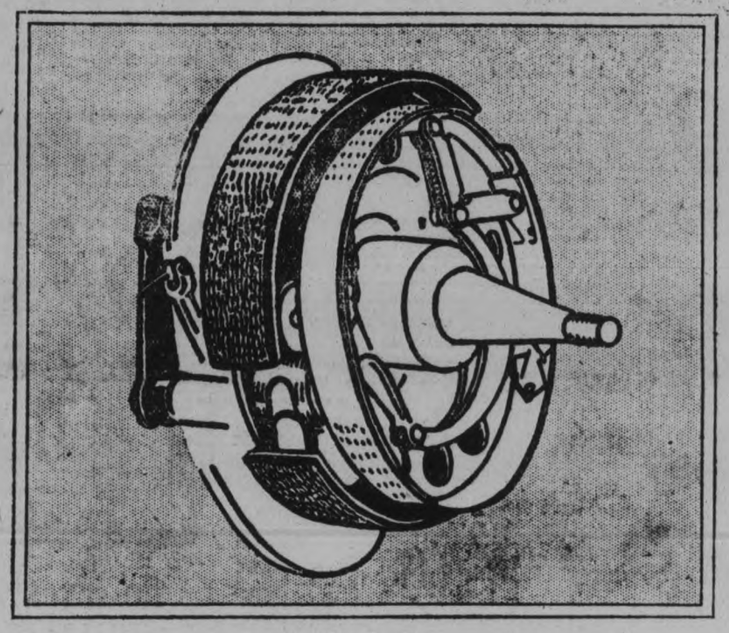
THE FORD CAR SIX-BRAKE SYSTEM



Grips with Silent Power

THE greatest safety feature on any automobile—the braking system—has been developed on the Ford car to a degree that insures absolute driving confidence. Being fully enclosed, the internal expanding brakes on all four wheels are free from any danger of impaired performance from mud, sand, road dirt, grease or other foreign matter entering the mechanism or between the bands and drum.

The four wheel system is operated by a foot pedal, while the emergency or parking system of two brakes, one on each rear wheel, is distinct and separate, operated by a hand lever. This added security is made possible through the unique design of the Ford steel spoke wheels to which drums are fitted to accommodate two sets of internal brakes on the rear wheels.

The smooth, even braking of the Ford car yields more advantages than maximum safety at all times, since it makes tires last longer and adds immeasurably to riding ease and driving comfort.

Ford

Drive it Yourself—there is no Better Test

Ford Car Features

REPORTS TO CITY COUNCIL

FIRE, WATER AND LIGHT COMMITTEE

That the Peterborough Utilities Commission be requested to make the following changes and additions in the street lighting:

Benson Street—Install one light.

Smith Street—Install one light.

Sherbrooke Street, Park Street to the Monaghan Road—Install ten 300-watt units and remove seventeen 60 watt units.

Bolivar Street, Park Street to the Monaghan Road—Install nine 300 watt units and remove fourteen 60 watt units.

John, Thomas and William Streets—Install three 300-watt units and remove four 60-watt units.

Prince Street—Install two 300-watt units and remove two 60-watt units.

The extra annual cost to the city on account of these changes to be $100.00.

That a request from the Peterborough Branch of the St. John's Ambulance Brigade saying that they were desirous of forming a Division of the Brigade in Peterborough and asking that a couple of firemen take up the work be left with the Chairman of this Committee to take up with the Fire Department.

That a letter asking that the street light at the corner of Water and Dublin Streets be changed to the centre of the street be referred to the Chairman of this Committee to report.

That the Chief of the Fire Department be authorized to employ two men temporarily for the holiday season and that they be paid on his certificate.

BOARD OF WORKS.

That notice be given of the intention of the Council to pave with concrete Murray Street from Reid Street to Downie Street as a local improvement under Section 8 of the Local Improvement Act.

That an application from G. Douglas for a sidewalk on Murray Street from Stewart Street to Rubidge Street, and also the matter of a drain at the same place be referred to the Chairman and the City Engineer.

That a letter from R. T. Hounsell for a drain on the west side of Aylmer Street between Antrim and Edinburgh Streets be received.

That a letter from J. T. O'Connell regarding the condition of part of Otonabee Street be referred to the Chairman of this Board and the Mayor.

That the assistant in the City Engineer's Office be paid at the rate of One Hundred and Fifty Dollars a month, to date from May 1st, 1929.

That the matter of procuring more gravel be referred to the Chairman of this Board, Ald. Stocker and the City Engineer to look into and report.

FINANCE COMMITTEE.

That an application be made to the Department of Immigration for the deportation of Mrs. Ivey Clarke and Miss Eni Gray.

That an application that Mrs. Close be sent to the Home for Incurables at Toronto be left with the Relief Officer with power to act.

That the application of Maurice C. Y. Hawtune and King Lewis for a license for an eating house over the store of E. L. Payne at the northeast corner of Simcoe and George Streets be granted, providing that a proper ventilation shaft is carried through the roof.

That the City Treasurer be authorized to pay to the Township of North Monaghan the amount that will be contained in the Order of the Municipal Board providing for the annexation of land west of the city, less the one-half year's taxes on the property, and that the Board be asked to provide that the Township collect the taxes for the year and pay the one-half year's taxes to the city; the amounts to be settled between the solicitors for the city and the township.

That the application of Mrs. F. James for the refund of the amount paid by her this year, namely, $2.00, for a dog license, be granted.

That licenses for eating-houses be issued on the order of the Chairman of this Committee up to July 31st next.

That the following accounts be paid: Adamson & Dobbin, $44.25; Alexandra Industrial School, $44.50; A. Brown & Son, $1.35; Br. Can. Brushes, Ltd., $24; New Centre Meat Market, 60c; C.P.R. Co's Telegraph, 41c; Can. National Railways, $118.35; E. J. Cadd, $5.75; Campbell & Best, $17.15; Can. National Telegraphs, 33c; G. L. Dodds, $2.30; Dawe-Pearson, Ltd., $19; F. & E. Cheque Writer Sales, $75; Fanning's Steam Laundry, $3.02; G. Walter Green Co., Ltd., $160.65; Grant & Thorpe, $9.65; W. H. Hamilton, $2.

PLANES TO BE FLYING HOTELS.

Flying boats which are to be constructed to plans of Dr. Claude Dornier, the German designer, will virtually be hotels of the air. They will be huge twelve-motor machines, capable of carrying 80 passengers, and will have restaurants, reading rooms, promenades and other features found in modern hostelries. The boats will be of a monoplane type, will have a wing spread of 150 feet, will weight 60 tons loaded, and have a cruising range of 2,700 miles. The 12 motors will develop 5,000 horsepower. The craft will be able to land or take off in a heavy sea. Three are to be constructed for mail and passenger service from Europe to South America.

ALL DANGEROUS

LONDON, June 7.—A British barrister claims that the first, and the years between the fifteenth and twentieth of married life, are the most dangerous. He bases his claim on divorce statistics.

FATAL WOUND IS DISCOVERED

Woman Found Dying in Hotel Room is Blood Poison Victim.

POLICEMAN IS HELD

NEW YORK, June 7.—Infliction of a two-inch wound, which precipitated blood poisoning, caused the death of Mrs. Helen Coberg, policeman's wife, who was found dying in Mansfield Hall Hotel on April 25th.

This is the conclusion reached by Medical Examiner Norris in an official report of the autopsy received by District Attorney Banton.

The report, written by Assistant Medical Examiner Gonzales, does not specify what sort of instrument caused the wound.

His Weapons Seized.

Assistant District Attorney Pecora, acting in Banton's absence, disclosed that his office had seized two service pistols and two "billys" belonging to Patrolman Frank Gentner, charged with homicide in connection with Mrs. Coberg's death.

The "billys" were found in the patrolman's locker at Elizabeth Street police station. One is an old wooden service weapon, the other a rubber implement of more recent manufacture.

Gentner, who was held without bail by Magistrate Corrigan, will have a hearing in homicide court. He is charged in an affidavit with either kicking or striking Mrs. Coberg.

Violence Disclosed.

The report of the autopsy also discloses there was a pleuratic adhesion on the left side, congestion of the lungs, a septic splee and a cloudy swelling of the liver, heart muscles and the kidneys. The physical condition of the woman, the report declares, disclosed violence.

The report of the autopsy made by physicians at Flower Hospital, where Mrs. Coberg died last Friday, was submitted to Banton. Its contents, understood to have given blood poisoning as the direct, and a kidney complaint as the contributing cause of death, was not made public.

Pecora said all the hospital records had been received. They will be examined by Dr. Otto H. Schultze, medical assistant to the district attorney.

POOR OLD BONES CREAK?

FRACTURES LEGS

Capt. R. J. Elliott, flying instructor at Camp Borden, Ontario, is in Christie St. Hospital, Toronto, with both legs fractured as a result of an airplane crash. The photo, supplied by Capt. Elliott's father, at Belleville, was taken several years ago.

NEW PUBLICATION IN COMMERCE FYLES

1929 Consular Directory for Benefit of Manufacturers in Chamber of Commerce Library.

The manufacturers and shippers of Peterborough will be interested to learn of an unusual and useful publication has just been added to the library and reference fyles of the Chamber of Commerce. It is the 1929 Consular Directory, published by the Lincoln Printing Company and distributed by them free of charge to all British Commercial Counsellors, Commercial Secretaries, Imperial Trade Correspondents, Consuls-General, Consuls, Vice-Consuls, Pro-Consuls, Consular-Probationers, Chambers of Commerce and Boards of Trade Secretaries throughout the world.

The Directory lists every known trading territory in the world and is admirably indexed and cross-indexed. It invades such unfamiliar places as Abyssinia, Albania, as well as the recognized trade centres, and indicates the population of each place and the area in square miles together with the names of the trade commissioners and other trade ambassadors in the territory. It is expected that this trade reference book will be utilized by shippers in Peterborough and others interested.

SHRINER PARADE IS 6,000 STRONG

LOS ANGELES, June 7—Six thousand Shriners, garbed in all the colors of the rainbow, surged through sunlit streets yesterday in a majestic parade to open the fifty-fifth annual convention of the Nobles of the Mystic Shrine.

The parade swept every programmed event of the crowded schedule to the side lines, despite the fact that the serious business of electing a mayor faced Los Angeles. Leading it as grand marshal was General Robert Wankowski, of Al Malaikah temple, Los Angeles, followed by his escort of nobles in decorated automobiles.

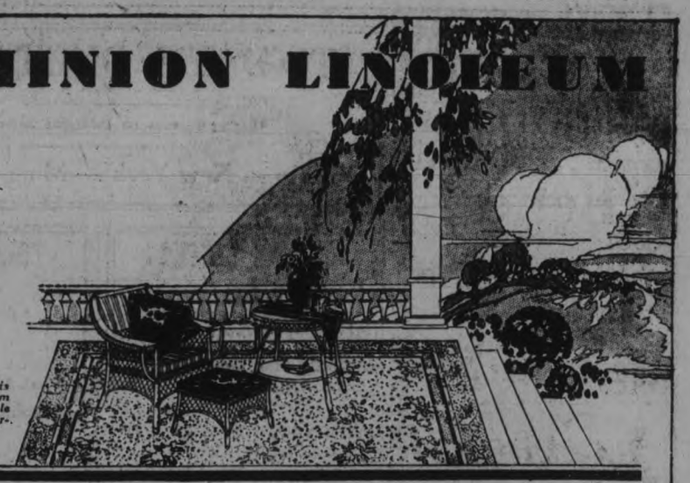
In the midst of the parade memtics to illustrate their enthusiasm, ing body of the Shrine, rode behind Imperial Potentate Frank C. Jones, of Houston, Texas, master of the 75,000 Shriners here.

A column of white-trousered, blue-coated Detroit Shriners singing convention songs and contributing antics to illustrated their enthusiasm, took a prominent part in the parade. It was the first column of singers to pass, and lusty voices outwitted the efforts of bands both fore and aft to drown them out.

CANADA'S ARCTIC ISLANDS

Canada's Arctic islands have an area in excess of 500,000 square miles.

DOMINION LINOLEUM



Design illustrated is Dominion Linoleum Rug No. 6557, available also in one other colouring No. 6555.

TRENTON WOMAN WINS FIRST PRIZE

Mrs. James Kerr, of Campbellford, Gets Honorable Mention in Recent Contest.

MONTREAL, Que., June 7.—(By the Canadian Press).—Miss Helena Driscoll, of Trenton, Ont., won the first prize of $50 in the recent short story contest held by "The Canadian League," official organ of the Catholic Women's League of Canada, it was announced yesterday. She was awarded first prize for her story, "Wings."

Miss Kathleen A. Mullan, of Regina, Sask., was second, receiving a prize of $25 for "Youth to Itself Rebels," and Mrs. S. A. Prudhomme, of Fort William, Ont., won the third prize of $15 for "The Old Order Changeth." A fourth prize of $10 went to Miss Kathleen V. Smith, of Halifax, N.S., for "The Bells of St. Mary's."

Receiving honorable mention were Mrs. M. S. House, Winnipeg, Man.; Miss Beatrice Hunter, Montreal, Que.; Miss Catherine Fears, London, Ont.; Mrs. James Kerr, Campbellford, Ont., and Miss Mary Fallon, Ottawa, Ont.

CONDEMNS CONTROL ACT

TORONTO, Ont., June 6 (C.P.).—A resolution condemning government control of liquor and advocating education along temperance lines was passed unanimously by the Toronto Association of Baptist Churches at its 55th annual meeting yesterday.

7-7-7

What Does It Mean?

COMMISSION INSPECTS GAS DEPARTMENT

Survey of Buildings and Property Made by Local Utilities.

MANAGER APPOINTED

Policy is Not to Make Any Changes in Personnel of Gas Department.

A general discussion of the policy and some of the first principles of management to be adopted by the Utilities Commission toward the Gas Department, just taken over, took up most of the time of the Commission's meeting held yesterday afternoon. H. L. Beal, manager of the department under the Ontario H.E.P.C., was called into the conference and a survey of the buildings and property of the Gas Department was made at the conclusion of the meeting.

Ross Dobbin was appointed general manager to be in charge of the three departments of the Commission. H. L. Beal was appointed manager of the Gas Department. In making these appointments Chairman G. S. Matthews declared that it was not the Commission's polity to make any changes in the personnel of the Gas Department, and that the business would be carried on in its previous manner as much as possible.

Adopt Present Rates.

The present gas rates were adopted, but a reduction as soon as it becomes practicable was favored. Mr. Beal stated that the reduction in rates last year had had the immediate effect of increasing the number using and general consumption of gas.

The police in regard to the selling of appliances such as stoves, burners and heaters was discussed. This was stated to be a necessary feature in the increasing of the business, and will likely be retained.

Manager Dobibn was authorrized to install the lights on the streets recommended by the City Council. It was stated that cost of street lighting will likely be increased $700 over last year, owing to the improvements made in the system.

The fleet of cars will be re-insured.

The Peterborough Golf and Country were given a flat rate of $120 on water and the cost of extending the main. The rate was only fixed for one year.

There are about 60,000 miles of pipe lines in the United States used to carry petroleum from the oil fields to the refineries.

GARDEN NOTES

This is about the time to put in that group of vegetables, or botanists may consider some of them fruits, known as the tender sorts. Chief among these will be the squash types. Marrows and summer squash may be planted any time up to July 1st. The same holds true for watermelon, citron, and muskmelon. The summer squash and marrows as well as cucumbers, which come in about this time, should be picked when about half grown, the flesh being more tender then than at any other time. This rule decidedly does not hold good for the Melons, however, which must be ripe before any but the very small boy will dare tackle them. To determine whether they are ripe or not, simply press the end of the fruit with the thumb, and, if it is a little soft, one can consume them safely. The soil for all of these plants should be warm, well-drained, well-watered, and very rich. An old chip pile, where some well-rotted manure has been dug in, and which is fairly drenched with sunlight, is the ideal location. Plant six seeds to a hill, three feet apart, and thin to four plants. This also is the proper time to plant lima beans, which should give a fair crop if sown immediately. Limas need richer soil than string beans, and there must be plenty of humus to retain the moisture. Pole limas give larger yields than the bush varieties, and usually do best with the amateur. They need seven feet of climbing space. Bush limas should be planted in hills eighteen inches apart each way. Water well in dry weather with the nozzle off the hose. Soak, do not sprinkle, and keep the water off the leaves. Egg plants should be set out now too, and to lay their full quota, which is not more than three or four full-sized eggs to the plant, they must set in rich soil, but not too heavy, and have abundant moisture. Set them two feet apart in the row.

Keep Flowers Picked.

To keep the flower garden blooming and looking its best, all dying flowers must be kept removed. With most sorts the oftener the bloom is removed, the more of it there will be. When the plants are allowed to start developing seed pods, there will be no more flowers. With these sorts, such as alyssum, phlox, petunias, and others which do not produce flowers that can be easily picked, it is advisable to shear off the fading bloom.

Ready With Celery.

That most popular green vegetable, celery, can be set out now. Except for the commercial man, it is inadvisable to grow plants, and these should be secured from a reliable source where the variety will be guaranteed. For a continuous supply, set out a few plants every week or two, up to the middle of July with the bulk going in about the last mentioned time for Fall storage. Celery can be grown on any rich, drained soil, provided it is not too compact. Well drained muck, which is the richest soil in humus that we have, gives the best results. Heavy applications of manure are needed on loam soil, with nitrate of soda during the early stages of growth. Water plants well before removing from flats, and, if possible, have soil moist into which they are being transplanted. Plant six to eight inches apart, in rows from one to three feet apart. Cultivate early and keep at it during the season. In order to keep the plants growing quickly, which is the only way to produce a tender crop, water when necessary. In the Fall, the simplest way to bleach the celery is to place boards close up against the plants on both sides of the row, and hill these up a little with earth to keep them in place. Celery will keep half of the Winter in cool, fairly dry storage.

Remove Surplus Growth.

A lot of wasteful growth around the garden can be prevented, and the surplus energy turned into useful flower and vegetables, if one will pinch off unwanted shoots before they develop to any extent. The newly set out bedding plants will have buds, or even flowers, on now, which should be pinched off so that the plant will get a chance to grow before producing bloom. Rose bushes will send out a dozen shoots when only half a dozen are wanted. The weaker buds should be rubbed off at once so that all the growth will go into the others. If larger flowers are wanted, nip off about half the buds.

O.R.E.C. CONVENTION HELD AT LILY LAKE

A. B. Burrows, of Lakefield, is Re-elected President For Smith Organization.

BRIDGENORTH, June 7 (Examiner Correspondence). — The O.R.E.C. Convention of Smith was held in the Gilmour Memorial Church, under the auspices of the Lily Lake Sunday School on Tuesday, June 4. The president, A. B. Burrows, of Lakefield, occupied the chair. A splendid report of the work of the convention was given by the secretary-treasurer, Mrs. Max Archer, of Smith.

Two addresses were given during the afternoon session by Rev. J. O. Totten, B.A., of Bridgenorth and Rev. Norman R. McLeod, of Brampton. A duet was rendered by Mrs. Mason and Miss Mason. At the close of this session supper was served by the members of Lily Lake Sunday School.

The evening session was opened with a song service and devotional exercises conducted by the Rev. Mr. Totten. The chair was taken by W. Saunders.

The report of the nominating committee was as follows:

President, A. B. Burrows, Lakefield; vice-president, W. Saunders, Smith; secretary-treasurer, Mrs. Archer, Smith; Primary Dept., Mrs. Joe Mann; Girls' Dept., Miss Hilda Bell; Boys' Dept., Ross Harrison; Temperance, A. B. Burrows; Home Dept., Mrs. Northey. Missionary Department, Miss M. Sinton.

Two stirring addresses were given during the evening session by Rev. David Wren, M.A., B.D., of Trinity United Church, Peterborough, and Rev. Norman McLeod.

A very impressive part of the evening session was the installing of the officers, which was conducted by Mr. McLeod. Special music was given by Mrs. Mason and her daughter.

The meeting was closed with prayr by Rev. Mr. Wren, of Peterborough.

Its Purity Counts Most With Mothers

Drink Coca-Cola Delicious and Refreshing

The price is 5¢

THE COCA-COLA COMPANY OF CANADA, LTD. Peterboro, Ont.

Little thirsts must be satisfied with something pure, yet delicious. Coca-Cola is made of pure, wholesome ingredients and blended flavors, even the color is natural. Moreover, it is made by automatic machines and is untouched by hand from start to finish, thus its purity is assured.

Over 42 years of public preference have increased Coca-Cola sales to the amazing total of over 8 million drinks a day.

It's pure and wholesome

CZ-2

MIDLAND COMPANY GETS AWARD.

OTTAWA, Ont., June 6. — Tenders for the dredging work at the site of the $5,000,000 grain elevator and lake terminal at Prescott were opened this morning at the Department of Public Works, the successful bidder being the Canadian Dredging Company of Midland, Ont., with a tender of $222,145. Six hundred thousand yards of material will have to be removed from the St. Lawrence at this spot.

There are 508 hospitals in the United States for the treatment of tuberculosis.

GETS LAST LAUGH

VANCOUVER, B. C., June 7. —The burglar got the first laugh and S. Izan, storkeeper, got the last and best guffaw. "I'm still laughing," Izan says. The burglar recently broke into his store and took a pair of loggers boots. In the dark he picked up two boots, both for the right foot, one size 11 and the other 7.

Clothing More Men every day!

MADE TO MEASURE ONE STANDARD PRICE

DAY after day—season after season—more men buy Tip Top Clothes!

BIG PILGRIMAGE NEARING SHORE; TO VISIT CANADA

1,055 Churchmen and Women Will Tour Ontario and Quebec.

ACCOMPANIED BY DR GUNN.

Immigration and Church Union Questions Will Be Studied By Members.

TORONTO, Ont., June 6 (Canadian Press).—Nearing the shores of Canada to-day is the White Star liner Doric, bearing 1,055 people, comprising the British Free Church pilgrimage, to make a ten-day tour of Quebec and Ontario in the interest of good-will and co-operation between the churches and people generally of Great Britain and Canada. The Doric is expected to report at Father Point, Que., Friday evening, and land her passenger pilgrims at Montreal Saturday.

While several hundred ministers and their families are included among the delegates with the pilgrimage, there are also large numbers of laymen and women. In the personnel of the party are representatives of Baptists, Methodists, Congregationalists, Presbyterians and various other non-conformist denominations from all parts of the British Isles. The objective of the pilgrimage is on broad lines. Opportunity will be taken to study immigration problems, the working out of union in the Canadian churches and other important matters. The party has been accompanied from Britain by Rev. Dr. W. T. Gunn, Moderator, and Rev. Dr. S. W. Fallis, book steward, of the United Church of Canada.

After a formal reception by the Montreal Presbytery of the United Church on landing Saturday, the delegates will board special Canadian National and Canadian Pacific trains for Toronto. On Sunday many Toronto pulpits will be occupied by British delegates. On Monday, June 10 the fourth anniversary of the consummation of Church Union in Canada, the members of the pilgrimage will attend special services in Trinity United Church and Massey Hall to celebrate the event. Tuesday will be spent at Niagara Falls and Hamilton, Ont., Wednesday morning and afternoon in Kingston and Brockville, the pilgrimage reaching Ottawa early in the evening. Various meetings have been arranged in the capital, and the Dominion Government will extend an official welcome.

The delegates will return to Montreal Friday, June 14, to spend nearly three days in that city, boarding the Doric in the evening of Sunday, June 16, for the return voyage to England. It is probable arrangements will be made for a stop of three hours in Quebec City on the way down the St. Lawrence River

All points on the itinerary municipal authorities have arranged for entertainment for the pilgrimage party.

OUGHTA BE A LAW

MADISON, Wis., June 7.—Prof. A. G. Barry, University of Wisconsin sociologist, believes that if policemen in the average Wisconsin city tried to enforce all the laws and ordinances they are sworn to uphold, a new police force would take their place in a week. "Seeking its social Utopia through legal enactments," he recently said, "America more than any other nation of the modern world has made its statute books the vehicle of social experiments. Hardly ever are the unsuccessful experiments repealed. Consequently, there is little or no reverence here for law as law."

VISITS AMERICA

Dr. Refik Bey, first minister of public health for Turkey, is a guest of the Rockfeller Foundation. In describing the changes in Turkey since the war, he smilingly points to himself. "Lok at me—a bachelor. Years ago a man supported many wives in my country, but here am I supporting none."

5,914 Immigrants Left Canada In April

WASHINGTON, D.C., June 7 (By Kenneth S. Clark, Canadian Press Staff Correspondent). — Immigrants to the number of 5,914, came to the United States from Canada during the month of April, the Department of Immigration has announced.

Altogether, 28,565 immigrants were admitted during the month, about two-thirds of that number coming from Europe.

The report says that 191 persons were deported to Canada during April. Under the new amendment to the Deportation Act, these are barred from re-entering the United States.

TRUE BILL IS RETURNED.

OTTAWA, Ont., June 6.—(Canadian Press).—The grand jury at the June session of the County Court which opened yesterday brought in a true bill in the vase of H. Braddish Billings, former clerk-treasurer of the Township of Gloucester, who stands charged with failing to account for $5,639 tax money collected under the 1926 roll.

The trial will start on Thursday.

The Morning Health Salt

MAY RAISE GALLEY

ROME, June 7.—Lake Nemi, which is supposed to cover the galleys of the Roman Emperor Caligula, is again being pumped in an effort to lower the level enough to get to the galleys. An attempt was made in the fourteenth and another in the fifteenth century to raise these rich ships, but with only rude grappling hooks, it was abandoned.

ARMY CAMPAIGN IS BIG SUCCESS; WORK OUTLINED

Peterborough Corps Exceeds Its Self-Denial Allocation By $60.00.

$2,608.96 RAISED

Seven Hospitals Are Being Operated by Salvationists in India.

The close of the annual Self Denial effort that has been recently held in the city, and incidentally right round the world, for this appeal takes place in all the countries in which the Salvation Army is operating, culminated in a service of thanks and praise held in the Temple Wednesday evening.

Ensign Green voiced his appreciation, also that of the local officers of the corps, of the support given by everyone in the city and vicinity to the Army's effort, and of the work of the members of the local corps, who besides collecting and canvassing the city, gave personal gifts amounting to almost $450.00. An interesting feature of the campaign has been the savings league in which the members of the Sunday school for 13 weeks bring their contribution, and at the end the total is credited to their section; one little girl who attends the Brownton Sunday school for the whole period gave up her candy and treats and did little errands and odd jobs to keep her savings, and was able to give $11.25, a sum of money that will doubtless help to spread the Gospel of Jesus Christ amongst some of the teeming millions of Dark Indian.

Work of Army in India

Reference to how this fund is dispensed was made by Ensign Green. In a reading from the Salvation Army Year Book. "We are told of the work of the Army amongst the sick of India, where there is only one doctor to every 250,000 of the population," he said.

"There are seven hospitals under the Salvation Army in India and at the Nagercoil hospital, Southern India, over 8,000 patients were attended during the year 1927 (the last official figures available), and over 1,500 major operations performed, special attention being given to eye cases. It is interesting to note that this hospital covers six acres of ground and was founded by the late Lt.-Colonel Dr. Harry Andrews, who was killed during the late war while on active service with the Indian troops and was afterwards posthumously given the Victoria Cross. He was for over 25 years a Salvation Army missionary doctor in India.

"The work of the Army has been in operation in Canada since July, 1882, and of its work and progress the public are well acquainted, and the opinions of prominent statesmen of the country voice the sentiments of all. The Hon. W. L. Mackenzie King said:

"'The test of any society founded on Christian principles is to be seen in its redemption of waste humanity and the re-making of men; to this test the Salvation Army is continually responding. Canada is distinctly better for its beneficient mission.'

"The Rt. Hon. Arthur Meighen said, 'Homes brightened, shadows dispelled, burdens lightened, erring and broken lives mended and fitted for better citizenship are the Salvation Army's contributions to the community.'"

Operates in 83 Countries

The Army is now operating in 83 countries and the Gospel is being preached in 67 different languages. The social activities are alone a great service to humanity. Some interesting statistics showing growth of the Army since the year 1912, when William Booth, the founder, died were given.

	1912	1927
Corps and Outposts	9,415	15,517
Songsters	13,092	61,265
Day Schools	572	1,086
Officers and Cadets	15,988	24,513
Bandsmen (Senior)	23,313	34,091
do., (Junior)	2,553	8,858
Social Institutions	1,142	1,533
Periodicals published	81	122

It is to support the activities of the world wide work of the Salvation Army that the proceeds of self denial are allocated, and the city of Peterborough has loyally supported the effort and raised the magnificent total given below:

Senior Corps	$1,335.41
Tag Day	545.02
Junior Corps	728.53
	$2,608 96

Of this total Ensign Green collected $1,156.00, Young People's Sergt. Major R. C. Braund, $136.25; Sister Mrs. St. Clair, $35.32, Bro. Illingsworth, $34.40; Sister Mrs. Anderson, $18.45. These being the largest amounts collected.

The tag day total has brought some interesting figures to light including: Small nickels, 1,000; large nickels, 1,100; dimes, 2,300; coppers, 1,050; quarters, 680; 50-cent pieces, 20.

Allowing that the average contribution be 10 cents, this shows that some 5,200 of the city people contributed, and assuming five being the average number per family, then at least one member of each family participated in tag day.

Ensign and Mrs. Green wish to convey to all who have helped in any way at all to make this effort a success their heartiest thanks and appreciation. The total this year exceeds that of 1928 by $180.00, and the target set for the corps for this year has been exceeded by $60.00.

There is usually something good kept for the end of similar meetings to this one, but the news of Wednesday evening, following the announcement of the grand total came like a bolt from the blue, for Ensign Green read a letter from headquarters in Toronto, instructing him to farewell from the local corps.. While the Ensign's removal is a distinct shock to us, we are glad that the leaders of the Army have seen fit to place the Ensign in another sphere of Army activity; the nature of his appointment at present has not been officially given out, but it is a promotion that the Ensign richly deserves and the prayers of the local corps and of the many friends he has made during his stay in this city will be that God prosper him in his new sphere and labors and that continued health and strength be given to Mrs. Ensign Green and their family.

CHAIR PRESENTED TO J. E. ROXBURGH

Directors of East Peterborough Agricultural Society Honor Retiring Secretary.

NORWOOD, June 7.— (Examiner Correspondence.)—At the last meeting of the directors of the East Peterborough Agricultural Society, J. E. Roxburgh, who was secretary of the society for many years, was presented with a beautiful Morris chair accompanied by an address. The address was read by Percy Gardner and the presentation was made by J. Robb. Mr. Roxburgh, in most suitable terms, acknowledged the gift.

The following is the address:

Mr. J. E. Roxburgh, Norwood:

Dear Jack,—We have taken note of the fact that you appear before us to-day in a new role. Emphasizing as it does the severance of our relations as secretary and directors of the East Peterborough Agricultural Society, our thoughts, naturally, are directed to the nature and importance of the service you have rendered. We recall that for some sixty years, you and your late father have filled acceptably this office. This in itself is unique history instancing few, if any, other agricultural societies in Ontario enjoying similar relations. Personally for some twenty-five years or more you have performed all the services pertaining to your office as secretary, cheerfully, willingly and faithfully, and much of the present day success of the East Peterborough Exhibition, we believe, is due to your untiring efforts. Believing as we do, that no financial remuneration could successfully recompense you for the unselfish service you have rendered, the directors here assembled desire to show our appreciation of your services by asking you to accept this chair as a mark of our esteem and good will, at the same time expressing the hope that you may for many years live to enjoy it.

Signed on behalf of the directors of the East Peterborough Agricultural Society.

Wm. Thompson, Pres.
S. W. Wildman, Sec.

BIG NEWS

MEXICO CITY, June 5.—There will be plenty of space in Mexico's latest contemplated paper for war bulletins. It is to be six feet by nine and will be pasted on walls and bulletin boards throughout the country at locations where large crowds can read it.

THE TONE OF THE SKIN.

Why is it that so many folks who ive a great deal of time to looking fter their complexion have so little uccess.

And those who have very large pores n the skin of the face, seem to have no uck whatever in reducing the size of he openings.

Dr. Earnest D. Chipman says that In practically every instance we found hat persons with enlarged pores have been using a great amount of hot vater, their idea being that it is more ffective in removing oil from the skin han cold water."

Now this is true to some extent, still ot water lessens the muscular tone of he skin and this allows the openings f the pores to actually grow larger.

Dr. Chipman suggests the use of an lkaline soap to dissolve the oil of the kin, even with cold water, as the cold romotes the muscular tone of the skin nd contracts or makes smaller, the ores.

We have all got so much into the abit of talking about the benefits of ot water that we forget that there are ome places where it is more harmful han helpful.

We know that after exercise, nothing 'relaxes" the muscles and gets ridof the tiffness and soreness that comes from he wastes made by excersice as the se of a good hot tub or even shower ath.

You will remember that the Japanese oldiers during their war with Russia ad hogsheads filled with hot water in hich they immersed themselves each ight after the exertions of the day.

This relaxed the muscles and they ere ready for work next day.

Now it is this very relaxing that you o not want when the pores are large ecause, as mentioned above, you want he muscles of the face to contract, to ighten, and close the pores if they are oo large.

Remember then that hot water and n alkaline soap will remove oil from he skin, but this should be followed by old water to contract the skin.

In fact this loosening and tightening f the skin not only keeps pores contracted but helps to some extent in arding off wrinkles also."

The skin thrives on exercise as does ll parts of the body, and hot water ollowed by cold, keeps it active.

Our Children

By ANGELO PATRI

MEMORIZING.

We ought to take care to see that he children memorize good poetry and rose. We do not do as much as we ould in that direction I fear. In the wer grades the children learn a goodly umber of rhymes and proverbs but sually as they advance in the grades he memory work slows down. There s so much other work to be done. nd yet, the poetry, the fine prose, neans so much to the children in later ears.

Select the quotations with due regard o the child's state of mind, stage of rowth, tastes, and abilities. Because hakespeare wrote magnificently is no o reason for making a nine year old oy learn "To be or not to be". That is ruel to the boy and to the memory f the great poet.

Nor is it fair to make him learn The he Captain's Daughter. I don't believe a word of her, so it would do me o good to learn her story. But there night be a little girl somewhere who adored her. Let that child learn the poem and let the boy learn "There was sound of revelry by night—" if he likes it.

The child must like the words he learns. That he fully understands them is not necessary. Indeed it is impossible. The words of the twenty third psalm have one meaning to us when we are children and another when, as olde folk we repeat them with full knowledg of their value.

The music and the rhythms of the words will outweigh the content in the beginning but that does not matter. The memorizing is the thing.

It is easy for children to memorize verse and prose when they are in the early grades of the elementary schools. They are curious then about words, about language, and all that comes to them is welcome. It is then they gather words as a collector gathers jewels. They select them and pridefully use them again and again until they are commonplace. Then they take another group and incorporate them into their language so that it is enriched and glorified by the words of a master writer.

Any child can learn ten or a dozen pieces in a year. If those are reviewed and repeated and kept well in mind from term to term, the child has a mine of riches to draw upon for the reast of his life. If he has not acquired the habit or memorizing by the time he enters high school, he is not likely to acquire it with any ease or pleasure later.

There are many sources of material. We begin with Mother Goose and work through to Shakespeare and the Bible. The field is wide and broad and rich. It offers material for any kind of child, to any sort of teacher. Let us not neglect it. "Speaking pieces" was a good practice. Some form of that festival should linger among us forever.

FASHION SERVICE

Madame Jenny has varied the ever-popular black with notes of white on the bodice and scarf of this chic daytime frock in crepe de chine.

SMART PARISIANS FAVOR BLACK VARIED WITH COLOR.

By Mme. Jenny.

Black continues to be a favorite with the smart Parisian, who however, likes to vary it with touches of color or of white. I have chosen white to give a note of interest to this frock, in black crepe de chine using it on the bodice and on the scarf. The bell sleeves and the amusing cuffs are among the details which should be noted.

(Copyright, 1929, by the Bell Syn., Inc.)

EMERGENCIES often further economies that would never be exercised without some pressing need. Sometimes the homemaker is amazed and amused by the frugalities that she pursued covertly lest the very fact of what she did, spoil the enjoyment of the result. Most homemakers can recall emergencies that produced such odd demands that her resourcefulness had to be exercised and often be severely taxed. A glimpse of two or three expedients that were resorted to will be illuminating, as they show what can be done, or recall instances of somewhat like nature among the amusing things a woman has practised at least once

* * *

Two examples come to mind about coffee. One woman who had saved the coffee left from one morning expecting to make coffee jelly from it, used it instead for the coffee for the next morning. Her grocery order failed to arrive. It was discovered at another address next day. Breakfast without coffee was unimaginable in her family of three.

* * *

The left-over coffee was strong. She put it in the pot with the shells of two eggs, brought it quickly to a boil and served it piping hot. To her utter amazement, her family specially commented "how delicious the coffee is this morning."

* * *

Another housewife, after an absence from home, found no coffee in the container when she went to make it for breakfast. Her perplexity was disturbing, but her resourcefulness was stronger. She had been saving coffee grounds for some time to use for the filling for small cushions for the summer place at the seashore, because needles and pins do not rust in such cushions.

* * *

She was a punctillious homemaker. Her home was a veritable "Spotless Town" residence. The coffee grounds had been carefully dried in containers covered with cheesecloth and then stored in air tight jars. It was this coffee that she now used! She mixed an extra large amount with one egg and boiled it a trifle longer than usual to extract all the flavor. This coffee proved a really successful beverage, and the family never knew from what it was made.

* * *

One homemaker had unexpected dinner guests at a meal where the dessert was individual strawberry shortcakes. She was minus two of the flakebiscuits. Her ingenuity served her in good stead. She used the portions removed from the other biscuits to form hollow cup-like containers. By carefully arranging these portions she contrived two other containers—for her family—but not even they appreciated the invention at the time.

One homemaker noticed the wistful glances of her day worker when she was about to throw away some soup bones to which bits of meat were clinging. "Would you like these?" she quickly queried. "Oh, yes mam" came the answer. "I can use them for soup stock. You'd be surprised how good it would be.

* * *

So always thereafter this thrifty day worker had the soup bones. It may be added that this person was a good cook, as well as an economical person. She had discovered that meaty soup bones can be used twice for soup stock.

* * *

Do you know that weaving without a loom is one of the simplest kinds of needlecraft? Threads introduced appear to be actually loom woven

* * *

As a matter of fact, they are introduced precisey to the thread of the machine design. A straight weave may appear to have a colored thread interwoven, or fancy weave can look as if a border section was done in a contrasting color. Yet so simple is the process that anyone can do the work.

* * *

It is when patterns are brought out that a distinctly novel note is struck. The process is an old one revived and has of late years been employed especially in the embroidery of handkerchiefs.

* * *

A colored thread (corresponding in fineness with that of the strands of a weave in which it is to be introduced) is knotted securely to the end of a thread in the textile, wherever the worker wants the color to appear. Then very carefully the thread of the textile is drawn out. As this is withdrawn the new thread follows exactly the same line of weaving, and is really, therefore, woven in without a loom being required.

* * *

If the textile has straight right angle cross threads of warp and weft, there will be no pattern other than a pin line of contrasting hue. A single line often suffices, or a row of lines may form a band. These bands may be grouped and be of differing widths and even of different colors.

* * *

Generally, it is wise to leave one strand of the textile weave between each row of the drawn-in intervweaing. In other words introduce the colored strands in every other thread of weaving and not in every one. This should be remembered especially when making borders of many in drawn threads.

* * *

If the textile is one with a pattern, it may be necessary to have consecutive threads replaced by the indrawn contrasting ones, for so only can the design be reproduced precisely in the new color.

* * *

The textile selected for this non-loom weaving should be firm but not tightly woven. Both warp and weft must be strong although the weave may be fine as in handkerchief linen. Round thread linen is best of all, such as comes from embroidery. It is excellent for napery and for bags. I have made attractive bags and table scarfs of a high grade of burlap ornamenting it with this thread drawns work.

* * *

A heavy thread can be introduced in the weave effectively. This requires two or four threads to be withdrawn. According to the size of thread to be introduced. In this way the regular run of the threads of the weave are not interrupted

OLD SONGS

THAT PIECE OF SONG, That old and antique song we heard, last night.

THE BATTLE OF ALMA.

(Contributed by "Bus")

Come all you gallant British hearts,
That love the Red and blue,
And drink the health of those brave lads
Who made the Russians rue.
Then fill the glass and let it pass
Three times three and one more,
For the twentieth of September
Eighteen hundred and fifty-four.

We sailed from Kalamita Bay
And soon we made the coast,
Determined we would do our best
In spite of brag and boast.
We sprang to land upon the strand,
And slept on Russia's shore.
On the twentieth of September,
Eighteen hundred and fifty-four.

We marched along until we came
Upon the Alma's banks;
We halted just beneath their lines
To breath and close our ranks.
"Advance" we heard and at the word
Across the brook we bore,
On the twentieth of September,
Eighteen hundred and fifty-four.

We scrambled through their clustering grape,
As came the battle's brunt,
Our officers all cheered us on,
Our colors waved in front.
Then fighting well, full many fell,
Alas, to rise no more
On the twentieth of September,
Eighteen hundred and fifty-four.

The French they had the right that day,
And flanked the Eussian line,
Whilst full upon their front they saw
The British bayonets shine.
We gave three cheers, which stunned
Amidst the cannon's roar,
On the twentieth of September,
Eighteen hundred and fifty-four.

A picnic party Menschikoff
Has asked to share the fun,
The ladies came at twelve o'clock
To see the battle won.
They found the day too hot to stay,
And the Prince felt rather sore,
On the twentieth of September,
Eighteen hundred and fifty-four.

For when he called his carriage up,
The French came up likewise,
And so he took French leave at once
And left them with the prize;
The Chasseurs took his pocket-book,
The Zouaves sacked his store,
On the twentieth of September,
Eighteen hundred and fifty-four.

A letter to old Nick they found,
And this is what it said:
"To meet their bravest men, 'My Liege,'
Your Russians do not dread."
"But devils them, not mortal men"
The Russian generals swore,
"Drove them off the Heights of Alma,"
In eighteen hundred and fifty-four.

Here's health to noble Raglan,
To Campbell and to Brown,
And to all the gallant French men
Who shared the days renown,
While they displayed their black cockade
As up the heights they bore,
In September, fifty-four.

One more toast we must drink this night,
Your glasses take in hand,
And here around this festive board,
In solemn silence stand,
Before we part, let each true heart
Drink once to those no more
Who fought their fight in Alma's Heights,
In September, fifty-four.

And may God bless our gracious Queen,
And all her Royal Race,
And may their boys to crown her joys,
Still keep the foremost place.
For in the van each Englishman,
Oft saw their sires of yore,
Brave Cambridge showed the Royal blood,
In September, of fifty-four.

NOVEL BATHING COSTUMES

(1) A novel bathing suit and cap from the House of Helle, the suit in pastel tone with striking edging of white. White marguerites adorn the cap which matches the suit in tone. Note the necklace and bracelet which have now become part of the bathing ensemble. (2) A summery hat of exotic straw in natural shade, trimmed beneath the wide brim with two bows of blue velvet giving a very girlish effect and reminiscent of the old-fashioned hair ribbon. The design is by Juliette Bretagne. (3) A second attractive bathing suit in unique striped design, with bewitching hat and modish necklace and bracelet, from the house of Helle.—Photographs are by Henri Manuel, Paris.

LONG GLOVES.

Eight button length gloves are selling for wear with the three-quarters wide sleeves that some afternoon silk suits affect. For evening there are stunning off-white tones.

SILKEN LACES.

A navy blue crepe Roma dress laces its sleeves to the elbow, its white georgette vestee and the sides of its skirt's yoke with little silken laces of self-fabric.

EVENING PURSES.

The finely beaded purse for evening is extremely popular. An off-white, with an intricate pattern in pastel colored beads, is an excellent choice for it goes well with an colored chiffon frock.

LAX LAWS PERIL TO MARRIED LIFE

Milwaukee, June 7 (By NEA Service)—Present laxity of marriage laws, according to Dr. John A. Lapp of Marquette University, is a serious threat to modern family life.

"The foundation of the family—the marriage contract—has come to be a mere scrap of paper to hundreds of thousands," he says.

Different state marriage laws are conflicting with one another, he explains. One state marries a couple. Another divorce easier. In brief, according to Dr. Lapp, marriage laws should be uniform.

"Our marriage laws are in chaos," he says. "The only reliance in law to-day is to seek a uniform statute in every state fixing a minimum requirement of a certain number of days after a license is granted before a ceremony can be performed; prohibiting marriage of parties outside the state without a license from their home county; and requiring that licenses must be secured in the home county of one of the parties."

CORN

is the one grain native to America. One of nature's most healthful cereals. To know how delicious it can be, just sit down to a bowl of crisp Kellogg's Corn Flakes with milk or cream!

Miss Margaret O'Sullivan of Campbellford was one of the graduates this week at the closing exercises of the Training School for Nurses of St. Michael's Hospital, Toronto.

* * *

Miss Helen Blade, Hunter Street East, spent a few days in Toronto this week.

* * *

Mr. Harold Beswithinick of Toronto has returned home after spending a few days with Mr. and Mrs. H. A. Bonney at 711 Water Street.

* * *

Miss Muriel Thomas of St. Catharines has returned home after spending the past few days with her sister, Miss Gladys Thomas, and with Mrs. M. Sedgewick, 509 Chamberlain Street

* * *

Mrs. J. Reid of Murray Street entertained at afternoon tea yesterday in honor of Mrs. R. French, who will be leaving the city at the end of this month. Mrs. Reid received the guests, and little Miss Barbara Gilmour made a charming door attendant. The tea table looked very attractive with its lovely damask cloth of white and mauve, and a fragrant bouquet of mauve iris in a cut glass vase as a centrepiece. Mrs. Reid and Mrs. J. Kingsbury poured tea. Assistants were Mrs. W. Hunt and Mrs. W. Petrie. During the tea hour a splendid radio program was enjoyed by the guests. An impromptu program was then given by several of the ladies. The following solos were sung: "The World is Waiting for the Sunrise" and "Killarney," by Mrs. W. Howse; "Mary of Argyle," by Mrs. G. Nimmons; "Jeanine" (in Lilac Time), by Miss Helen Veitch; "An Old-Fashioned Town," by Mrs. I. McPhate; "The Dear Little Shamrock," by Mrs. A. Duthie; "Scotland's Heroes," by Mrs. W. Hunt; "Love's Old Sweet Song," by Mrs. R. French. Piano accompaniments were played by Miss Isabel Reid. Those invited were: Mesdames R. French, R. Veitch, W. Petrie, A. Duthie, G. Moffatt, W. Howse, R. Graham, J. Wyllie, I. McPhate, G. Nimmons, J. Kingsbury, R. Gilmour, A. Clark, J. Hawkins, A. Milne, R. Ralston, R. Hendry, Misses H. Veitch and I. Reid.

* * *

Miss Gwendoline Lough, nurse-in in-training at the General Hospital, Oshawa, spent the week-end with her mother, Mrs. M. Lough, 406 Mark street.

* * *

Mr. and Mrs. Charles Theobald, of Dufferin street, have returned from Toronto, where they attended the graduation exercises of the Training School for Nurses of St. Michael's Hospital. Their daughter, Miss Mary Theobald, was one of the graduates of this year.

* * *

Mr. and Mrs. John Cairns, of 275 Prince street, celebrated the twenty-fifth anniversary of their wedding this week. A number of friends gathered at their home to extend their wishes for a continued happy married life and a musical evening was spent, followed by the service of a dainty lunch. Many beautiful gifts in silver were received by the hosts.

* * *

Mrs. T. Can, of Toronto, was the guest of Mrs. A. W. Blade, Hunter street, over the week-end.

* * *

On Tuesday afternoon, Miss Frances Turner of Millbrook, daughter of Dr. Turner, and a graduate this year of Trinity College, was the guest of honor at a tea given by Mrs. Reginald Batten, Highbourne Road, Toronto. Mrs. Batten and Miss Turner received in the living-room, which was gay with Darwin tulips and lilacs. The guests, numbering about seventy, included this year's graduates of St. Hilda's College and many former graduates. The tea room, attractive in a color scheme of lavender and gold, was in charge of Mrs. W. F. Cotton of Erindale and Mrs. L. V. Redman, of Caldwell, New Jersey, who were assisted by Miss Evelyn Gregory, Miss Alice Redman and Miss Margaret Bailey.

* * *

Mr. and Mrs. Walter Johnston, 175 Sherbrooke street, wish to announce the engagement of their niece, Agnes Davidson, daughter of the late Mr. and Mrs. C. R. Davidson, Aberdeen, Scotland, to James Barton, youngest son of Mrs. Barton and the late Mr. John Barton, Kilsyth, Scotland, the wedding to take place on the 14th of June.

* * *

Miss Catherine Cook, of Port Hope, was one of the graduates this year of the Training School for Nurses of St. Michael's Hospital, Toronto.

* * *

The engagement is announced of Elizabeth LaDelle(eldest daughter of Mr. and Mrs. W. E. Wilby, of West Toronto, to Robert Anderson, eldest son of Mr. and Mrs. John R. Anderson, of Havelock, the marriage to take place on June 19th.

* * *

Mr. and Mrs. George Land, of 567 Patterson street, entertained a number of friends at their home this week on the occasion of the coming of age of their son, Mr. Fred Land, who was the recipient of many useful gifts. The evening was pleasantly spent in playing games and dancing, after which a dainty repast was served.

* * *

Miss Irene Curtin, of Lindsay, was one of this year's graduates of the Training School for Nurses of St. Michael's Hospital, Toronto.

* * *

A number of the friends of Miss Rosaline Collins gathered at her home at 276 Lansdowne street, on Tuesday evening, in a surprise celebration of her birthady anniversary. Miss Collins received a large number of pretty gifts and the evening was spent in the enjoyment of games and dancing, and concluded by the service of dainty refreshments.

* * *

Mr. and Mrs. E. M. Austin have returned from a motor trip to Indianapolis, where they were called owing to the sudden death of the former's brother-in-law. Their daughter, Miss Bessie Austin, who has been attending school in Indianapolis, returned home with them.

* * *

Mr. and Mrs. H. Wood, McGill street, were hosts last evening to the members of the choir of Knox United Church, after the usual practice, when a pleasant social time was spent at their home in playing music, games and dancing, after which dainty refreshments were served by the hostess, assisted by members of the Social committee of the choir. Miss Grace McCannan presided at the piano for the entertainment of the evening. At the conclusion, a hearty vote of thanks was voiced by Mr. Stanley Willis.

* * *

Miss Mary Murphy, of Lindsay, graduated this week from the Training School for Nurses of St. Michael's Hospital, Toronto.

'ALL MY FOOD AGREES NOW I AM USING HUSKY'

"I've Stopped Having Heartburn and That Heavy, Uncomfortable Feeling After Eating," Says Well-Known Lady.

MRS. M. SHEA

"I feel sure Husky is the best medicine for indigestion because it has helped me so much in such a short time," says Mrs. M. Shea, of 48 Cameron St., Toronto, a native of that city and well known there.

"I had indigestion very bad," says Mrs. Shea, "and couldn't eat without having heartburn and a heavy, uncomfortable feeling in my stomach and chest. My heart would flutter and hurt. I felt miserable all the time and could neither sleep nor eat well. I had no energy and would really just have to drag myself around.

"I began using Husky after a friend had recommended it so highly, and I certainly feel lots better, although I haven't been using the treatment long. I haven't had any heartburn lately and that heavy, uncomfortable feeling is relieved. I have an appetite again, I sleep easier and get about so much better. It is wonderful how much better I feel, and I just want to say that I have never seen any medicine so good as Husky."

Begin using Husky to-day and note how soon your food tastes better, sleep is more sound and restful, and you feel stronger and better in every way. It is nothing short of marvelous what this medicine will do for you in a few days.

Call at Bond's Drug Store and see the authority from the Husky Laboratories who is now making his headquarters at this Store. He will gladly explain to you how best and quickest results are obtained from the use of this wonderful medicine. Call on him to-morrow, your visit no doubt will lead you to relief from suffering just as such visits have already brought new health and strength to hundreds in Peterborough.

Fashion's Forecast

TAILORED SIMPLICITY.

THE STYLE No. 2795 accents tailored simplicity through modish plaits, snug hip band, and applied band of Vionnet neckline, which has a jabot frill to add touch of femininity. The sleeves are dart-fitted below elbows and finished with cuff bands. An applied band also trims edge of skirt. It combines printed and plain silk crepe in bright red tones, outstandingly smart for all-round wear. Shantung in grass green, printed rajah, capucine print in georgette crepe on beige ground, printed pique, sportweight linen in jonquil yellow, wool jersey in chartreuse green, sheer tweed in beige and brown check and red and white gingham check are fashionable combinations.

THE PATTERN is offered at cost price 15 cents (stamps or coin) as a service to readers who sew and is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It has illustrations in Picture Dressmaking Lessons as a guide to help you make All you have to do is to follow these pictures, which is most interesting.

NEW FASHION BOOK containing all the latest styles is 15 cents (stamps or coin), but may be obtained for 10 cents if ordered with a pattern.

WEDDING BELLS

CURTIS—RADDON

A wedding of interest was solemnized at high noon on Saturday, June 1, in the Norwood Baptist church the front of which was beautifully banked with ferns, hydrangea, spirea and spring blossoms, when Clara Sophia, elder daughter of Mr. and Mrs. R. F. Raddon, became the bride of the Rev. John Hampton Curtis, B.A., B.Th., son of Mr. and Mrs. N. J. Curtis of Cobourg. The Rev. J. P. McLennan was the officiating clergyman.

The bride, who was becomingly attired in a white taffeta period gown of exquisite simplicity with veil (her mother's bridal veil) and bouquet of ophelia roses with lily of the valley, was given in marriage by her father, while the wedding music was played by Miss Bertha Ratray, of Yarker, attired in gold flowered silk georgette. The bride was attended by her only sister, Miss E. Belle Raddon, wearing pale pink silk georgette trimmed with Spanish gold lace and carrying premier roses. Little Miss Doris Curtis, sister of the groom, acted as flower girl, attired in yellow georgette and carried a basket of roses containing the ring. The Rev. Harold Bridge, B.A., B.h., of Toronto, assisted the bridegroom while the ushers for the occasion were Messrs. Otto Curtis of Pontiac, Mich., brother of the groom; Alexander MacNaughton, of Peterborough; Gerald MacMillan of Norwood, and Donald Raddon, brother of the bride. During the signing of the register Miss Minnifie of Cobourg in rose taffeta and large picture hat, pleasingly sang, "O Promise Me."

Following the ceremony a reception for the immediate friends was held at the home of the bride's parents, the bride and groom being assisted in receiving by the bride's mother, Mrs. Raddon, attired in black silk crepe with grey squirrel fur. Mrs. N. J. Curtis, the groom's mother was in flowered beige crepe and Mrs. (Rev.) J. P. McLennan in pale mauve crepe de chine. The pink and white decorations of the reception room and dinner table included tulips, roses, lily of the valley and a profusion of other cut flowers.

Later amid a shower of confetti Rev. and Mrs. Curtis, the latter travelling in a biege ensemble with fox fur, left for a short motor trip, before proceeding to their future home in Old. Alta., where Rev. Mr. Curtis has accepted a call to the First Baptist Church of that town.

The groom's gift to the bride was a gold watch and bracelet. Guests were present from Toronto, Port Hope, Peterborough, Yarker, Vermilion, Detroit, Pontiac, Cobourg and Baltimore.

FERRIS—PARKER.

The marriage of Miss Ethel Parker, daughter of the late Mr. and Mrs. Ernest Parker of Birmingham, England, to Mr. Arnold Wilford Ferris, of Wilton, England, took place at two o'clock, on Wednesday, at the Park street Baptist church. Rev. William McDonald officiated.

The church was decorated with a profusion of lilacs.

The wedding music was played by Mr. Cecil Lapp, and Mrs. Henry Turner sang "O Promise Me," during the signing of the register.

The bride, who was given away by her uncle, William Masters, was lovely in her gown of white French satin noces, fashioned on becoming lines. Chantilly lace formed the trimming, as collar to yoke, and deep pointed flounce on skirt. The bride's veil was of French net, and she carried a bouquet of Ophelia roses.

Miss Nellie Masters was her cousin's bridesmaid and looked charming in her pretty girlish frock of periwinkle blue and sand celanese, with matching hat and shoes.

The bride's brother-in-law, Mr. Albert Hayter, was best man.

A reception was held afterwards at the home of the bride's uncle, Mr. Masters, where a buffet luncheon was served to about 30 guests, Mrs. Masters, Mrs. Turner and Mrs. Hayter receiving.

The bride travelled in a navy blue and white celanese crepe ensemble, with hat and shoes to match.

After a short honeymoon trip to Toronto and Niagara, the young couple will reside in Peterboough.

SPEIRS—HARVEY.

ROSENEATH, June 7 (Examiner Correspondence). — A pretty June wedding was solemnized at the United Church parsonage on Wednesday, June 5, by Rev. M. R. Brown when Phyllis Mildred, daughter of Mr. and Mrs. Luther Harvey, became the bride of George Speirs, son of Mr. and Mrs. Bruce Speirs.

The bride made a charming picture in a gown of white crepe satin, pearls, and wore a veil of net and medieval style, and trimmed with lace fashioned with a bandeau of pearls. She carried a bouquet of Ophelia roses and lily of the valley and was attended by Miss Hilda Linton, who was beautifully gowned in coco sik and carried flowers. The groom was attended by his cousin, Earl Kimble, of Keene.

After a short honeymoon trip the young couple will reside in Alnwick Township.

BARRY EVERSON.

DUNSFORD, Ont., June 7 (Examiner Correspondence). — A very pretty June wedding was solemnized on Wednesday afternoon at 2 30 at the home of the bride's parents, Mr. and Mrs. Luffey B. Everson, Taylor's Corners, Mariposa, when their only daughter, Margaret Rebecca, became the bride of George Gordon Barry, eldest son of Mr. and Mrs. George Barry, of Oakwood. The ceremony was performed by Rev. J. F. Everson, of Dunsford, uncle of the bride, assisted by Rev. Thomas Brown, of Lindsay, who officiated at the marriage of the bride's parents, and also baptized the bride. At the appointed time the contracting parties took their places beneath an arch of evergreens, ferns, white lilacs and moon glow honeysuckle. The bride wore sunset satin-faced crepe, plain bodice, skirt of silk lace trimmed with French chiffon, pastel shade flowers and silver streamers, a pearl and brilliant bandeau in her hair, and pastel shade silk hose and shoes to match with oxide swirl buckle. Her going-away dress was rose beige crepe with hat, gloves, hose, and bag to match, and coat of imported Scotch tweed beige with fox fur collar. The happy couple were attended by Miss Mamie Barry, sister of the groom, and Clare Everson, brother of the bride. The bridesmaid wore forget-me-not blue georgette with long sleeves, with three rows of French hemstitching, scalloped belt and a deep bertha, a circular skirt, and pearl and brilliant bandeau in her hair. The bride's mother was attired in a dress of deep rose beige, skirt deeply pleated, waist of tiny tucks, the cuffs, collar, and vesta was of French sand crepe to match, and lily of the valley. The groom's mother wore black satin trimmed with lily of the valley and white crepe. The bride carried a bouquet of Ophelia roses, maidenhair fern, and baby's breath, tied with white satin ribbon. During the signing of the register Percy Chase, of Lindsay, sang sweetly "Oh, Promise Me." The wedding march was played by Miss Nettie Everson, cousin of the bride, who wore Alice blue flat crepe. The groom's gift to the bride was a silver tea service, to the groomsman white gold engraved cuff links, to the soloist a white gold tie pin and two French brilliants, to the pianist pink pearls, to the bridesmaid white gold necklace with three pear-shaped pearls. After the ceremony over 130 guests sat down to a delicious wedding dinner which was served from a tent erected upon the lawn. The wedding cake was served from a plate which was used over 75 years ago by the late Mrs. Hugh Cory, grandmother of the bride. The table linen was that used over 26 years ago at the marriage of Mr. and Mrs. William Everson, uncle an aunt of the bride. Rev. J. F. Everson acted as toastmaster, the toast to the bride being proposed by Rev. Thomas Brown, and responded to by Mrs. Percy Webster. Miss Olive Everson, of Lindsay, recited "I Am Proud to Be British-born." The happy couple left by motor for Toronto, and will visit St. Catharines, Niagara Falls, and Brampton, and upon their return will reside on the groom's farm at Oakwood West.

HONESTY IS—

SALT LAKE CITY, June 7.— At least 50 per cent of the students cheat in their examinations, psychologists at the University of Utah here claim. Crowded rooms make it easier for the students who believe cheating pays, they say.

SENSATIONAL RALLIES OF W.M.S. BEING HELD IN PRESBYTERY

One Hundred and Thirty Ladies Attend Meeting at Springville.

ATTAIN ALLOCATION.

Work of W.M.S. At Home and Abroad Is Outlined By Speakers.

Sectional rallies are being held throughout Peterborough Presbyterial this week with splendid results. Tuesday the northern section met at Lakefield and Wednesday the western section, which includes Peterborough, rallies at Springville United Church, which was decorated with lilacs and other spring flowers.

The meeting was under the direction of the three vice presidents of the Presbyterial, Mrs. R. S. Staples, Cavan; Miss Emma McIndoo, Ida, and Mrs. Rev. A. E. Thornley, Peterborough.

A delegation of one hundred and thirty ladies were in attendance and enjoyed the excellent and inspiring program which had been prepared. Mrs. A. F. Bookhout, president of Peterborough Presbyterial, presided with Mrs. Thornley and Miss McIndoo also on the platform.

The service opened with hymn "Unto the Hills Around Do I Lift Up My Longing Eyes", and earnest prayer was offered by Mrs. Bookhout for the work and workers.

The minutes of the last year's rally were read by Mrs. W. H. Morton, the secretary, recalling the successful meeting held in Knox United Church last June. The beautiful Scripture lesson, Psalm ninety-six, a song of praise, was given by Miss McIndoo.

To bring the reports of the W.M.S. conference branch meeting held in Kingston last month was one of the chief objects of this rally.

The work of the young women's auxiliaries circles, C.G.I.T. groups, bands and baby bands was presented by Mrs. J. John in a clever report written by the delegate, Miss Dorothy Bamforth.

This was Miss Bamforth's first experience at a W.M.S. convention and she said: "I frequently found myself with idle pencil but unflagging interest, everything seemed so vital."

The opening prayer of the first session was most beautiful and stirring. One sentence struck very forcibly and applicable to all, "God Himself can give us nothing better than a chance to serve."

Headed the List.

The proof that thorough organization is a success was shown by the fact that Oshawa and Peterborough led in the best organized societies and were the only two to reach their allocation.

One statement made was that over-organization for young people made a choice difficult in some places, while in others there is no junior work at all, owing to the lack of leaders. In this connection the summer school at Whitby is endeavoring to train girls for leadership.

The branch secretary for C.G.I.T. work, Mrs. M. C. McKinnon, said: "There was a most encouraging growth in membership, in finances and in interest." She urged groups to link up with the W.M.S. The main difficulties met by secretaries are the changing personnel and leadership of groups. She stressed the fact that the W.M.S. help and not hinder the C.G.I.T. The relationship should be a motherly one, not a step-motherly one. What girls want is comradeship and facts. The object of the C.G.I.T. is development not achievement financially. "The drum beats of Christ are the heart beats of our love."

Branch Report.

Mrs. (Rev.) A. C. Brown brought to the convention a very comprehensive report of her share of the branch meeting, which can only be touched upon.

She told of the arrival and welcome of delegates, of their registration and billeting and the royal entertainment received throughout.

At the supper hour Mrs. H. A. Lavell, past president of Dominion Board, was the speaker who thrilled her listeners with her impressions of a missionary conference in Detroit. She quoted two speakers Dr. Stanley Jones, author of "The Indian Road". "Skin Christians", he said, "will never reach the hearts of the people of India. Christianity must go deeper to win these people."

Dr. Yen was the second speaker quoted. Dr. Yen was a boy from the W.M.S. Mission school at Chengtu sent as an interpreter to France during the great war.

He worked out a plan of a few Chinese characters for the poor homesick coolies who could neither read nor write and in this way changed their whole attitude of life. He carried out this plan of education at home in China which has been a wonderful blessing to many ignorant and superstitious Chinese people.

Greetings were extended from the United churches of Kingston by Mrs. Brokenshire and Mayor Craig on behalf of the city also gave a hearty welcome.

Mrs. J. T. Daley of Port Hope, the retiring president, was the speaker of the evening. She thanked all for the co-operation she had received during her term of office. She said: "We so frequently lose sight of the object for which our society exists. We are in danger of giving to a "budget" instead of to a great cause. Her closing message to the branch was "Be ye steadfast, immovable, always abounding in the work of the Lord.

Reports were also given by the branch treasurer and the temperance secretary, the latter closing with this timely poem, "The Sheep and the Lamb."

Mrs. Curvin sang with her usual sweetness, "The Whole Wide World," Mrs. Bromwell accompanying.

The remaining part of the report was given in a most interesting way by Mrs. Thornley, who gave the high lights only of the many important addresses given.

Rev. Mr. Brown brought greetings of the Presbytery to the meeting. He spoke of the place woman holds in the world to-day. They are doing work man thought all his own. Congratulated W.M.S. on their great work and the business like way in which it was being done. He spoke of the sacrifices and hardships met in carrying on this work, but said all hardship would be taken from the sacriifce if work is done in the right spirit.

A beautiful and impressive "In Memoriam" service was conducted by Mrs. (Rev.) G. Barbour for the one hundred and fifty members who had died in the past year.

Miss Winnifred Thomas, candidate secretary, gave a report of a great lack of candidates. Very few with the necessary qualification offered their services, nurses, teachers or doctors. More volunteers are very much needed at present.

Mrs. Gordon and Miss Duff of the W.C.T.U. each gave five minute talks on pertinent questions.

By means of a chart Mrs. Gordon showed the effect of alcohol on the brain. The cells of decency and self control are the first to be influenced, she said. "Organize and work" was her slogan. Education is too slow. There are appetites being formed while education is going on, that no human power will be able to control.

Mrs. Thornley spoke briefly on the wonderful address of Mrs. Banfield, her vivid descriptions of the dark continent with its mighty rivers, forests, swamps, jungles and wealth. In all their scores of languages there is no "God" in any one of them. All the missionaries in the world are needed now, in Africa. The W.M.S. is just holding its own.

This closed all reports of the Kingston meeting and was followed by a beautiful and significant duet, sung by Mesdames R. S. Staples and Kennedy, "Lest I Forget."

The address of the afternoon was given by Mrs. (Rev.) A. L. Richards of Whitby, and of the Home Mission Board.

Rev. and Mrs. Richards have spent some time in work in the far west, some two hundred miles from Saskatoon.

In speaking of the needs of our home missions Mrs. Richards told many pathetic and some amusing stories of their experiences. "No country," she said, "can go farther than the womanhood of that country." She said she did not wish her hearers to think she was generalizing about conditions in their part of the west. It is the same in many other places. There is a cosmopolitan people from which the church hopes that fine Canadian Christians will emerge.

In one school she asked the children their names. She found a Patsy Callaghan, a Sandy McLean and a Lloyd George, besides the German, Scandinavian, Soviet Russian, Macedonian. Many of these go back home to live, and others go to visit so when we do home mission work we are at the same time doing foreign work, for these people go home and tell their friends, what they have gained and learned in Canada.

An instance was mentioned of one Ruthenian on returning to his country cabled to his friends here, "Arrived safely, all praying. Glad to be happy and free and to have Canadian citizenship and christianity."

In explaining some of the difficulties met, Mrs. Richards recalled a funeral to which her husband was called to officiate. In a little village of twenty-eight people where twelve distinct languages were spoken it was impossible to preach a sermon to reach all. So they joined in singing a hymn, each in his own words. It chanced to be one that Mr. Richards had learned to sing in Wales, so he sang it in Welsh, and though all were different, it made them one in spirit. An old man said to him "We no speak same, we no sing same, but you love Jesus, me love Jesus."

The territory given to Rev. Mr. Richards' work comprised fifteen hundred square miles. They were assisted by three students of the Montreal College. Distances were so great it was almost impossible to cover all the work even then. One of these students was in a school and to see what the children really knew he asked "Who is Jesus Christ?" A wee lad held up his hand. "Well", said the teacher. "I think," said the boy, "He is that bum farmer I heard father talk about." And the same boy's grandfather was an elder in Charles H. Spurgeon's church in London, but the family now knew nothing of Christ.

Evangelistic Work.

The work being done by Rev. Mr. Richards and his wife is largely evangelistic. At first they had six Sunday services, the people coming many miles to hear them. In winter they held the services in farm houses. These were informal talks, and the people were free to ask any questions on their life problems and get help.

They were once invited to go to a Mormon settlement to give help and their work brought great and good results.

On their long drives from place to place they often found a white woman, who never saw another white woman except when they made these visits.

Realizing that their people must have some relaxation, they tried to introduce some social life among them. In a little school house they brought a lantern and slides. They found that not a single child had ever seen a screen picture. When they asked them to come at seven o'clock every child was there at four and supper had to be provided for them. Picnics were planned in summer. The people were not inclined to be friendly. Two women living only a quarter of a mile apart for many years had never seen or spoken to each other.

Mrs. Richards told of a wedding at Lizard Lake. The coldest experience in her life. They were almost frozen when they arrived. It was the largest house in the community, composed of a large long living and bed room combined and a kitchen where the wedding feast was served. The table could accommodate only twelve and according to custom the bride and groom had to continue at table while the whole hundred and fifty-six guests were served.

They had looked forward to seeing the bride dressed in her native dress but found that she had in some way obtained an Eaton catalogue with a picture of a bride, and had fairly well copied it. The bridgroom had tried to follow her example, but had fallen short in the effort and color scheme. An interpreter always was present and the answers and questions interpreted to each. There was often a doubt in the mind of the clergyman as to just what their strange language made of the marriage ceremony.

Mrs. Richards told of the relief work which had fallen to their lot. They became doctor, nurse and did everything but operations. At last they turned the parsonage into a hospital, sent to Battleford for a surgeon, and treated tonsil, adenoid and many other cases for both children and adults. They found that children's clothing was for the most part, even when there was the complete outfit for an infant, made of flour sacks, sometimes beautifully embroidered. In other places the need of clothing was pitiful. The work of the school rooms is most important. Without it the children could never hope to go beyond the entrance to high school, whereas they are now, with the aid of church and missionaries, able to enter secondary school and the university.

There is great joy among these people when they see the difference in their children both from medical standpoint and the training in schools. They can see and understand that the missionary is not there to propagate some creed, but to really help them and to serve the Master whom they are rapidly learning to own and love. Mrs. Richards closed her splendid and enlightening address on this home mission work with a verse:

"Gather us in, we worship only Thee."

Mrs. Bookhout invited Mrs. Whitfield, the president of Springville Auxiliary to the platform. Mrs. Whitfield expressed her delight at the large gathering, the splendid reports and the inspiring address given, saying that each member had received many valuable helps to carry home to their local auxiliaries. She then invited the delegates and visitors to the dining room, where a lunch had been prepared for them.

Rev. A. H. McConnachie seconded the invitation. He also said it was a pleasure to welcome to his church, that the W.M.S. was engaged in big business and that it was the noblest work under heaven.

This splendid rally was closed with the hymn "I Love to Tell the Story" and prayer was offered by Mrs. G. Swayne.

QUICK! PUT WEIGHT ON "SKINNY" BODY

New IRONIZED YEAST adds pounds in few weeks. Results Guaranteed — or pay nothing.

Just think! In a few short weeks you may gain 5 to 15 pounds taking Ironized Yeast. Fill out ugly hollows. Put attractive curves on "broomstick" limbs. Banish pimples. Smooth out age-lines. Get new strength. Feel and look years younger. People ask—how does Ironized Yeast work so fast?

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

Pleasant tablets. No "yeasty" taste. No gas or bloating.

No excuse for ugly hollows or bony limbs. Get full size treatment of Ironized Yeast today at any drug store. If not delighted with quick results, get your money back.

If inconvenient to buy from druggist, send $1.25 direct to CANADIAN IRONIZED YEAST CO. LTD., Fort Erie, Ont. Desk 149-MW.

EASTERN STAR ELECTS OFFICERS

Mrs. Edith Stewart, Ottawa, Is Elected Worthy Grand Matron.

TO MEET IN WINDSOR.

OTTAWA, Ont., June 7.—(Canadian Press).—Mrs. Edith Stewart, of Progressive Chapter No. 18, Ottawa, was elected Worthy Grand Matron of the grand chapter of Ontario Order of the Easter Star, at the closing session of the organization here last night. Her name was the only one offered in nomination. Murray Wickens, Delphina Chapter No.74, Hamilton, Ont., was also elected by acclamation as Worthy Grand Patron.

Other officers follow: assistant matron—Mrs. A. Carruthers, Kenora, Ont., Grand Conductress—A. Boyd, Belleville, Ont.; Grand Secretary—Mrs. E. Malcolm, Toronto; Grand Treasurer—Mrs. C. Watson, St. Thomas, Ont.

Windsor, Ont., was selected as the meeting place of order next year.

Mrs. M. Slipper, Smith Falls, Ontario, reported that a committee had been appointed to secure legal advice respecting the matter of incorporating the Grand Chapter of Ontario Order of the Eastern Star.

To stimulate interest in the Florence Nightingale Home fund a special banner will be offered for competitions among various chapters, it was announced by Philip A. Jerguson, of Boston, most worthy patron of the General Grand Chapter. During the local session a sum of $1500 was contributed to the fund.

Driver Finds It Safer To Kill Man Than Cow

ALTUS, Okla., June 7—Charlie Blair killed a man and went free. He failed to kill a cow and must go to the penitentiary for a year on a charge of cruelty. He had shot and wounded a cow without dispatching the animal. Earlier this year he was released after pleading self-defence in connection with the slaying of Hayes Wampler. Both men lived at Duke, Okla.

A movement to aid children's hospitals in Ireland, which are in great need of funds, has been started in Dublin.

SETTLERS
Guard your Slash Fires!

Wood is the settler's winter harvest When his own land is cleared he may still obtain employment in the neighbouring forest. By care with fire, the wise settler protects his own living.

Issued by authority of
Honourable Charles Stewart,
Minister of the Interior.

REGISTER Of Social and Business Meetings

The Register is published to enable organizations planning major meetings to know in advance, and reserve, evenings on which there are no rival attractions. It will pay Peterborough organizations to consult the Register prior to settling dates. Responsible officers should mail notices well in advance.

Before deciding a date for any event, consult the Register to ascertain that there is no conflict with other events—and then send in YOUR date quickly so that other organizations will not use it.

What Will YOUR Retiring Income Be?

RECORDS of the last generation show that out of an average group of 100 men of 25 years of age, only 8% at 65 years of age had accumulated sufficient to retire.

In this generation, through the means of the Pension Policy of the Mutual Life of Canada, you can assure your independence, when the age of retirement is reached, by a regular income.

The insurance feature of the Mutual Life's Pension Policy protects your dependents, and its benefits may be paid in the form of income to a stated beneficiary if so desired.

Any of our recognized representatives will gladly explain the details of this policy, or, if you prefer, write direct to this office.

The MUTUAL LIFE OF CANADA Waterloo Ontario

GEORGE GIBBONS, District Manager.
A. C. GRAY, District Representative.
DOUGLAS C. GRANT, Representative, 201 Barrie Building, George Street, Peterborough, Ontario.

COMMANDER'S SIGHT AFFECTED

Evangeline Booth Will Be Confined to Bed Indefintely, Secretary States.

RESULT OF ACCIDENT.

HARTSDALE, N.Y., June 7. — (Canadian Press). — The sight of Evangeline Booth, commander of the Salvation Army in America, has been slightly affected through injuries which she suffered in an automobile accident two weeks ago, her secretary Colonel Richard Griffith, said today.

The commander, who will be confined to bed indefinitely, is wearing a covering over the left eye near which she received a cut, and the sight of the right eye has been weakened. She has difficulty in discerning objects held close to her.

It was not announced whether the impairment of her sight was the result of the cut near the eye or the result of the slight brain concussion which she received when she was thrown against the top of her automobile as her chauffeur swung into a ditch to avoid a collision with another car.

REFINE GOLD AT MINT.

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

A Complete Selection To Choose From

The Country-wide demand for the DE SOTO SIX has brought to our Used Car Department a fine and complete group of USED CARS, including a very fine assortment of Rebuilt Sedans, Coaches, Coupes and Tourings.

—1927 Nash Coach, excellent condition.

—1927 Essex Sedan, overhauled. Looks like new.

—1926 Oakland Sedan. An exceptionally good buy.

—1925 Studebaker Touring. Very small mileage. A wonderful purchase.

—McLaughlin Touring, winter and summer top.

—Ford Coach, Ford Touring.

We will gladly place your name on our List, and advise you when we have located the kind of Used Car you require at the price you are willing to pay.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

FOUR CRIMINAL CASES SET DOWN.

The criminal cases on the docket of Judge Huycke's court next week are a charge of arson against John J. Moloney of Cordova Mines, two charges of arson and attempted arson against John S. Moore of Warsaw, and a charge of shooting with intent to maim against Wm. McIntyre and A. McIntyre of Otonabee. The two McIntyre boys appeared before Magistrate Langley last Saturday on an accusation of firing at Indian trappers, elected trial by the Judge and jury and were committed

COMING EVENTS

The June sessions of the County Council open on Tuesday the 18th; the Peterborough County Holstein Breeders' Association is holding a picnic and field day Friday, June 21, at G. A. Brethen's farm at Norwood, and the Jersey Breeders' Association field day will be held at Field Lodge farm, east of Harwood on Thursday, June 13th. C. E. Moore of Smith is secretary-treasurer of the Holstein Breeder's Association, and Fred Field is one of the most prominent Jersey breeders in the province.

OLD FAD REVIVED

The younger generation of the city seems to have revived the old fad for roller skating, a method of locomotion that of recent years has fallen into comparative disuse. Children of all ages are now to be seen skating on the sidewalks using their rollers not only for amusement, but as a means of getting somewhere.

WORK PROGRESSING

The work on the New Kresge store on George street is progressing rapidly. The yellow brick sidewall along Simcoe street is already above the wooden screen and is mounting an appreciable number of feet daily.

ONE CHIMNEY FIRE

One fire bestirred the Fire Department yesterday. A call was received to 563 Chamberlain street, where the services of the firemen were required to put out a chimney fire.

The short but severe electrical storm that visited Peterborough last night passed without doing any damage.

NO CLOSING REGULATIONS

In view of some of the Western cities passing a by-law to allow restaurants to remain open all night to accommodate tourists, an investigation was made by The Examiner into such by-laws in the city of Peterborough. City Clerk Armstrong said that there were no regulations here as to the time of closing. Any restaurant serving meals could remain open all night. There are no regulations either in relation to the ice cream parlors of the city, but these are governed by the Ontario statutes as to their hours and the Sunday business.

However, the common hour for closing of cafes in the city is 2 a.m., and there are no all night restaurants here, and only the larger ice cream parlors remain open on Sunday.

UNUSUAL SIGHT.

People passing over the Hunter street bridge last evening had a chance to witness an odd spectacle. In a lull between the storms the sun came out for a minute, and seemed to focus itself on the cross over St. Joseph's Hospital. The white cross against a black background of clouds, illuminated by the golden rays of the sun seemed to shine as a thing immortal.

CAREFUL DRIVING NECESSARY.

The laying of the top dressing of Calcium Chloride and other chemical mixtures on the Chemong road is progressing at a favorable rate. It has reached a point to the top of the hill immediately this side of the Bridge - north turn. There are a great many more piles of gravel on the road and it is necessary to exercise careful driving.

FIRST BIRTHDAY.

To-day this column cuts its first tooth. It is a week old, and The Examiner is wondering how you enjoy all the little knick knacks, sense and nonsence, that is gathered here and there, now and then, off and on, about the fair city.

NEED THE BREAKS.

The rain may mean much to the farmers who had a chance to get on the land during the dry spell, and get the crop in, but the owners of the various dance pavilions about the city are complaining that the wolf is dangerously near the door, and if the weather does not improve soon, unfavorable results are likely to occur. A favorable break in the weather is all that is required.

NO STORM DAMAGE.

Last night's thunderstorm in the city was a poor example for various reasons. While there was the odd flash of lightning, and the occasional grumble of thunder, with threatening clouds, it could not make up its mind to be consistent, and further it caused no damage. The fire department report no fires from lightning or damage to the alarm system, while the Bell Telephone and the Utilities Commission were not troubled either.

PICNIC AT CHEMONG.

St. Paul's choir picked a poor night for their picnic last evening at Chemong, but later in the evening a number of the choristers seemed to be enjoying themselves in the pavilion, forgetting their troubles to a different tempo than is their usual rythm.

NEW FORD SIGN.

Hood and Cumming, Peterborough Ford Dealers, are the proud owners of a newly painted sign by Harris and Boddy, that covers the north and west sides of the building, taking in the narrow strip above the show windows, to advertise their product.

NEARING COMPLETION.

The British American service station addition at the corner of Charlotte and Stewart streets, is nearing completion. The brick work and the roof are completed while the pits and the concrete work has also been finished. There is left the windows and general touching up here and there.

MAIN STREET PESTS.

Motorists in the city are complaining about a habit that would indicate the small town mind of their fellow drivers. It is becoming quite a common thing, it seems, for a driver to stop in the middle of a street, and to call some friend from the sidewalk, who will come to the car, rest one foot on the running board and discuss the weather, elections and English Derby with their driver friend, and much to the inconvenience of the blocked cars behind. This is the simpler of the complaints, the more complex is when two cars meet as they did on Hunter street this morning, and both stopped, while the drivers leaned over the sides of the cars to pass the time of day, blocking traffic completely in both directions.

TOURING IROQUOIS TRAIL.

Frank G. Stinson, manager, Chamber of Commerce and Trent Waterway Association, left Peterborough to-day for a tour of the southern portion of the Iroquois Trail territory. On the trip he will visit the officials of the municipalities of Trenton, Frankford, Campbellford and Bastings and will arrange for the installation of the Iroquois Trail road signs as far as Peterborough.

SNAPPY DISPLAY IN STORE WINDOW

Equipment of Diplomas of Peterborough Business College Graduates.

A snappy-looking exhibit for today and tomorrow is in the south portion of the front window of the Teco Store, where the Peterborough Business College is displaying some of its equipment and diplomas of its April graduates.

The window has been fitted up as an up-to-date office, complete with all the accessories which go to the furnishing of modern places of business. Battleship linoleum is on the floor and the latest ideas in office furniture are exemplified in the handsome desks and chairs, while on the walls are interesting pictures of Peterborough, taken in panoramic air views. The typewriters, addressing and adding machines, and mimeograph, are from the Business College and illustrate the latest word in such additions to office equipment.

The handling of the display makes it very attractive and catches the attention of the passer-by at once. Displayed on the walls are diplomas of the Peterborough Business College, in the fine lettering used for these documents, and narrow ribbons stretching from them call attention to the little explanatory notes at the other end of the ribbon. These are brief histories of the business careers of the diploma winners, in red and black typeing, and they draw attention to the fact that the six students who graduated from the Business College during the month of April have already been placed in office positions by that institution. his is a record which demonstrates admirably the manner in which the College serves its graduates and the way in which it looks after their welfare, as all the positions are of an excellent type and the students were placed in the shortest possible time after graduation.

The equipment used in this display is of much interest to those who are not acquainted with such devices as are used at the present time to facilitate the business of the modern office. The dictaphone is a wonderful machine which has almost revolutionized the work of stenographers during the past decade. Into this machine, the business man dictates his letters and later, his typist listens to its words and transcribes them at will. The old system of dictating to the stenographer and leaving her to puzzle out the hooks and dots and dashes, either correctly or incorrectly, is done away with, by the use of the dictaphone, which speaks the letter into the typist's ear.

Another interesting bit of equipment is in the "Error-No" which is one of those little things that adds so much to the facility of the work of the typist. It is merely a metal rack, standing upright, which is attached to the stand at the back of the typewriter, and holds securely in place the paper with lists or notes from which the operator is transcribing. A metal pointer indicates the exact place to which the eye of the typist should be directed, and obviates the difficulty of finding the location of notes in the shortest possible time.

The handsome furniture used in the display was supplied by the Teco store.

THAT WON'T DO

LONDON, June 7.—Ignorance is no excuse for not paying income tax. One gentleman, on receiving his forms, sent the following note to Mr. Churchill: "Dear Sir:—I do not wish to join the Income Tax. I am already insured."

WE DELIVER QUICKLY

WHEW WHAT A CROWD!

I Am Forced to Apologize to those hundreds of women whom we could not serve on opening day. I tender my apologies. My error in not having enough salespeople has been rectified. There will be greater crowds than ever, but we are ready.
G. E. YEAGER,
U.S.S. Merchandising Attorney

We prepared for a rush, but it was greater than we had expected---hence I apologize

We had a lot of extra salespeople, but we had only half enough. Sales are seldom held at this well-known Store, and when such a drastic price wrecking Sale as this began the crowds simply swamped us. Of course, we were pleased, but still we are sorry because we failed to serve everybody.

Women's Coats, Dresses, Etc., were never sold so Low Before

We are going to create a panic Saturday by offering a bargain carnival that will block the street, and if we are forced to lock the doors until we wait on one crowd before letting another in, we ask you to be patient. There will be bargains for everybody, but you are advised to get here early.

Come SATURDAY and Buy Goods at Less Than Ever Before

When we say less than "ever before," we mean that some goods worth $25.00 will go for $1.00, some $45.00 goods will go for $3.50, and so on. Get ready for the surprise of your lives.

ON SALE SATURDAY

COATS, DRESSES, SUITS, UNDERWEAR HOSIERY, LINGERIE, HOUSE DRESSES, BLANKETS, YARD GOODS, Etc., Etc.

Prices are sensational in the extreme—less than 20c for a dollar's worth of goods in many instances.

Toronto Leafs Even Series By Defeating Royals 5-1

O'NEILL CLAN TALLIES FIVE RUNS IN THE SEVENTH INNING

Hogsett Carried Royals Through Six Innings With 1-0 Lead.

BEARS SWAMP CATS.

Orioles Tighten Hold On Second Place By Defeating Keys 12-1.

TORONTO, Ont., June 7 (C.P.).—The skilful pitching of Elmer Hogsett carried the Royals into the last part of the seventh inning of yesterday's game leading 1 to 0, but in this round and again in the eigth the Leafs' gun boomed forth in a mighty roar. When the smoke cleared away the Leafs had scored five runs, had a 5 to 1 victory safely stored away and the series evened.

The Royal's Indian pitcher held the Leafs to three hits, scattered over as many innings in the first six and his breakdown in the seventh was as sudden as it was unexpected. Only two men had reached second base, Ralph Shinners on a fluke double in the third, and Joe Rabbitt, who was hit by a pitched ball in the sixth and gained the halfway when Doc Gautreau dropped Niebergall's thrown on an attempted steal.

EVEN SERIES WITH CATS

JERSEY CITY, June 7 (C.P.).—Newark hitting at a fast clip and the wildness of Henderson and Underhill gave the Bears the second game and evened up the series with the Black Cats by a score of 10 to 2 here yesterday.

Chick Davies went the route for Bears and held the Cats to four hits.

Four runs scored on Bill Henderson, the Cats' starting pitcher, in the first session, was enough to win the game right there.

TAKE SECOND STRAIGHT

BALTIMORE, June 7 (C.P.).—Baltimore made it two straight wins from Reading and further tightened its hold on second place in the International league by winning 12 to 1, yesterday.

Al Bool was the big gun of the Baltimore attack, driving in seven runs.

Holley was driven from the box in the eighth inning and Stryker finished for the visitors.

WIN OUT AT ROCHESTER

ROCHESTER, June 7 (C.P.).—Buffalo defeated Rochester in the Bisons' first appearance at Red Wing Stadium yesterday afternoon, 4 to 3.

The contest was won for the visitors in the fifth frame, when Carleton purposely passed Fisher to fill the bases and get at Bill Conroy, who socked a single into left field to drive home two runs.

MISSED A THRILL

BOSTON, June 7.—Miss Wilhelmina Robinson, just recently turned 100, says: I detest men, and I put down my long and happy life to the fact that I was never foolish enough to marry one. It is men, men, men, all the time. I never asked a man to marry me—and no one ever asked me to marry him. I always hated men." Miss Robinson's only companions are two cats.

BOSSING 'EM YOUNG

BEAR LAKE, Mich., June 7.—This city claims the youngest president of any in the state and one of the youngest in the country. He is Arch Marshall, Jr., who just turned 21 last September. He was elected to office over his opponent by 50 to 38 votes.

ERRORS COSTLY BROOKLYN CLUB

Homers By Hornsby and Malone Pave the Way For Chicago Victory.

WIN OUT BY 8-6 SCORE.

CHICAGO, June 7 (C.P.).—Three Brooklyn errors and some timely hitting by Chicago gave the Cubs an 8 to 6 decision over the Robins here yesterday. Home runs by Rogers Hornsby and Pat Malone, relief pitcher, helped the home team.

Babe Herman's muff of Wilson's fly in the first inning paved the way for three Chicago runs, and Harvey Henderson's error in the third allowed another run to score.

Indians Break Winning Streak of Yankees

Philadelphia Athletics Continue Merry March To League Leadership

TORONTO, June 7.—There seems to be no stopping those Philadelphia Athletics. At least Daniel Howley must be very nearly convinced of it. The Browns were the victims of an unmerciful pummelling at the hands of Connie Mack's men, and they lost a chance to slip up into second place, as a result of Cleveland's victory over the Yankees. The Yankees had won four straight games before the Indians bowled them over, and the Ahtletics now have a seven-and-a-half-game lead in top position. Connie Mack's team goes merrily on its way, piling up victories and Miller Huggins, Babe Ruth, Lou Gehrig, et al, must be scratching their heads wondering just how long the A's can keep up that terrific pace. At one time last season the Yankees were nearly twelve games in front, but this lead dwindled away. Perhaps there is some consolation in that thought for the teams who face the task of overhauling the present pace-setters. The Boston Braves once rose from the cellar to the pennant in one of the greatest climbs a team ever made. But that was back in 1913, and experts say that the days of baseball miracles are past. In the meantime, there is not much to the American League race but Philadelphia. Even the Tigers, who promised to be a threat a few weeks ago, have been losing ground, while none of the second division clubs are showing any signs of deserting that section for higher company.

Seems Like High And Crabtree Pulled 'Em For the Record Books

COLUMBUS, O., June 7—Charley High, former major leaguer now playing with Columbus, figured in two feats recently which look swell for the record books.

High divides credit with Estel Crabtree, playing with the same club on option from Cincinnati, in one feat, but gets all the credit for the other.

With the bases occupied each time in the same inning of a game this season, High and Crabtree spanked out home runs. The record books fail to show any similar performance by two players in the same inning.

High also received credit recently for sending in six runs across the platter—and was credited with only one official time at bat. A home run with the bases clogged sent in four runs, a sacrifice fly sent in the fifth, and a walk forced a man in for the sixth run. And the time he hit the home run was the only official time he was at bat.

NEW YORKERS TAKE SECOND STRAIGHT

Although Holding Margin On Hits Cardinals Lose Out By 6-4 Score.

ST. LOUIS, June 7.—(C.P.)—The Giants scored their second straight victory over the Cardinals here yesterday, 6 to 4, although the home team held a margin in hits of 11 to 7. The victory gave the New Yorkers a run of five out of six in the west.

Welsh's double, a pass to Ott, Terry's single, his steal of second and Smith's wild throw in trying to break it up, gave the Giants two in the first.

HOMER FEATURES TILT.

CINCINNATI, June 7.—(C.P.)—Fresco Thompson's fly to right field which bounded into the bleachers for a home run, scoring Benge ahead of him, accounted for the only runs in Philadelphia's 2 to 0 victory over the Reds yesterday.

Benge held the Reds to five hits and aided his pitching labors by singling just before Thompson hit for the round trip.

PACKERS TO MEET QUAKERS SATURDAY

Important Game Scheduled For King Edward Park—Woolens at Deloro.

A very important soccer league match is scheduled for to-morrow (Saturday) afternoon at King Edward park between the Quaker Oats and the Canadian Packing. Kick off at three o'clock. Referee A. Aitkenhead.

These two elevens have not met yet in a point battle, and the game will be worth watch because the Porridge boys are endeavoring to get away from the bottom of the league table. They have signed on some new players who will strengthen the weak spots.

All players associated with the Quaker Oats are requested to be at the pavilion no later than 2.45, when the executive will pick from the following: Fowler, Cross and Maker, Budworth, Craig, Armstrong, Pulley, Watkins, Honour, Ward, Williams, Hanson and Evans.

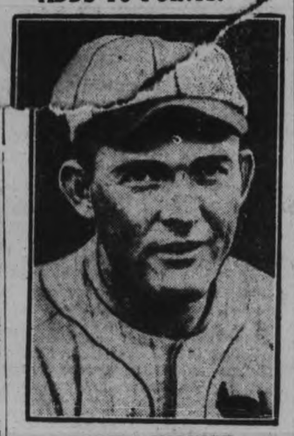
In all probability the Canadian Packing team selection committee will make a few changes after the exhibition of Wednesday evening.

Dominion Woollens travel to Deloro on Saturday to play a league game. A win to either team will greatly alter the league standing. If the Smelter boys win, they will be equal with their opponents and C.G.E.

ELAME UNFINISHED HIGHWAY

TORONTO, Ont., June 7.—A coroner's jury last night placed responsibility for the death of Edward Grosse, 24, at Long Branch, May 24, at the door of "those responsible for the unfinished condition of the Toronto Hamilton Highway." Grosse was killed when his motorcycle crashed into a street car, the motorman of which was found blameless by the jury. When interviewed, Warden Ray Price of Etobicoke township, of which Long Branch is a part, said that several parties were responsible for the delay. He refused to place the blame definitely on the Provincial Department of Highways.

ADDS TO POINTS.



ROGERS HORNSBY,

Chrcago Cubs' stellar batsman, who added to his standings in the Big Six averages in game with Brooklyn Robins yesterday.

Pirates On Batting Spree Beat Braves 4-2

PITTSBURGH, June 7.—(C.P.)—Seibold's poor control and a Pirate batting attack in the third inning gave Pittsburgh a 4 to 2 victory over the Boston Braves yesterday.

Seibold pitched a good game aside from the third frame, when he gave four bases on balls and three hits.

FOXX COLLECTS TENTH CIRCUIT

Athletic Batsmen Bombard St. Louis Hurlers To Take 15-4 Triumph.

YANKEES LOSE OUT.

PHILADELPHIA, June 7.—(C.P.)—(C.P.)— The Philadelphia Athletics made it two straight wins over the St. Louis Browns yesterday with a barrage of long distance hits that gained them a 15 to 4 triumph.

Blaeholder was blasted for five runs in the third inning, three of them counting on Simmons' twelfth home run of the season, and left the box in the next round when Foxx smacked the first pitch for his tenth homer.

RALLY IN EIGHTH.

WASHINGTON, June 7.—(C.P.)—Manager Johnson yanked Pitcher Hadley for a pinch hitter in the seventh inning of yesterday's game and Washington apparently put victory on ice, but Detroit hoped on Hadley's succesors, Ad Liska, for three runs and the ball game in the eighth.

The score was 7 to 5.

Buddy Myer, the first Senator to face Whitehall, hit for the circuit.

BREAK WINNING STREAK.

NEW YORK, N.Y., June 7.—(C.P.)—The Cleveland Indians broke the five-game winning streak of the Yankees here yesterday, taking the second game of the series by 9 to 7. The visitors knocked out Pipgras in the second inning, and continued scoring against Thomas and Zachary. Bib Falk drove in four of the Cleveland runs.

Walter Miller, Cleveland ace, was effective in the early innings, yielding only one hit in the first five rounds, but was easy for the Yanks towards the finish.

CHICAGO BEATS SOX 9-5.

BOSTON, June 7.— (C.P.)— The White Sox knocked Ed. Morris out of the box in the fourth inning here yesterday and took the second game of the series with the Red Sox 9 to 5.

The visitors hit Morris timely and errors by the home team permitted them to pile up a commanding lead.

Shires, after making two doubles and a single, hurt his leg in sliding into second and was relieved by Clancy.

Jackie Johnston Training At Midland; Meets "Kid" Chocolate On June 24

Jackie Johnston.

TORONTO, June 7. — Jackie Johnston, former Canadian featherweight champion,will have every possible assistance in his preparations for his bout here on June 24, two weeks from next Monday, with "Kid" Chocolate, the undefeated Cuban star. Matchmaker Playfair Brown is back from Midland, where Johnston's open-air training camp has been established at Little Lake Park, and states that the site and conditions are absolutely ideal. Midland sportsmen have provided tents, a cookhouse and a cook, and all in the party are delighted with the arrangements made for them. The air of the Georgian Bay district is very invigorating, and Johnston is putting plenty of energy into his work. So far he has done no glove work, but he has been travelling miles on the road every morning, and taking light exercises in the afternoon. With over two weeks to go he is already in splendid condition. Johnston will have plenty of capable sparing partners and plans to include boxing in his workouts starting to-morrow. Billy Ayrton accompanied him to Midland and they were joined by Artie McMcCann. Willie Morrissey left yesterday with Steve Rocco and "Red" Bragan, while Bobby Eber will join them to-morrow. Sam Hackett, Toronto featherweight star, will join the camp next week. The local boxing stars are keenly interested in Johnston's bout, and all have offered their assistance. Many visitors are expected to-morrow from surrounding towns. Matchmaker Brown is taking a party of Toronto newspapermen there for the week-end, while the motion picture news reel companies are sending their photographers.

THE MARKETS

(Continued from page 3.)

President would emphasize proposed agricultural helps. Later, when the fact developed that his message related to prohibition enforcement, hasty buyers of wheat side-stepped quickly to the selling side, and wheat values slipped back fast.

Closing quotations on wheat were nervous, 1¼c to 1⅜c higher than Wednesday's finish, corn closed 1⅛c to 1¼c up, oats ⅜c to ½c advance, and provisions unchanged to a rise of 5c.

Contributing to the brisk upward swing of the wheat market were estimates that exporters yesterday had bought 2,000,000 bushels of Canadian wheat for last half June shipment. There were also advices that too much wet weather in Kansas and Oklahoma had made the wheat crop outlook there less optimistic, and that, on the other hand renewed need of rain in Canada again had become apparent.

WINNIPEG GRAIN

WINNIPEG, June 7.—Declines of ½ cent to 1¼ cents at the opening were quickly wiped out on yesterday's market when reports of export business, black rust in part of Kansas and not enough rain in Western Canada reached the ears of traders. Good buying soon developed when these reports were circulated and prices started uphill, the July future advancing 2½ cents over the previous close. A little selling near the close lowered the advance but the market remained strong, finishing the day with gains of 1¾ cents to 1¼ cents for the day.

Seaboard houses purchased good quantities of wheat and an excellent export business in Manitoba was reported by Liverpool.

Cash wheat was well bought at prices unchanged to ⅛c higher, but light offerings curtailed trading.

Demand for oats, barley and rye continued fair at fractionally higher values. Flax trade was light.

HE'S RIGHT

LONDON, June 7.—You have plenty of brains—use them! Sir Arthur Keith recently made the remark that: "We have ten times as much brain as we need. Very few people use 50 per cent of their brains; many people but 10 per cent.

HOT STUFF!

ELYRIA, O., June 7.— 'Twas a spring day and Fred Allendorf, 17, was sitting at his desk in high school restlessly waiting for the school day to end. His fidgeting caused some matches to ignite in a rear pants pocket, causing a celluloid comb which he had there to burn. Yells, screams and a hasty exit marked the close of the school day. The combined efforts of Allendorf and Principle J. B. Zulauf were required to extinquish the fire.

Strikes 'Em Out In High School On The Average Of Two An Inning

FLORENCE, S.C., June 7.—An average of almost two strikeouts per inning for 51 innings—that is the sensational record made this season by Glenn Thomas, high school pitcher here.

Incidentally, the 94 strikeouts resistered by Thomas this season make it appear as if he has established a new national record for strikeouts in the past two years, as he struck out 108 batsmen during the 1928 season for the same team. South Carolinians claim a national record for their schoolboy wonder.

Although he struck out less men this season, Thomas' pitching is said to have been far more impressive than it was in 1928. Last year he pitched every game, but hasn't been used as much this season. However, when he isn't pitching he plays the outfield for his team, and that he is also a valuable outfielder may be judged from the fact that his batting average this season is about the .500 mark.

Thomas is 19 years old and has been an inmate of the State Industrial school for boys for the past eight years. He is one of the five boys from the industrial school on the high school team and is said to be the most popular student in high school. He expects to finish next year and then plans to enter some southern college to further his education—and probably carry on his baseball fame."

NO DULL GAME AS NATIONALS AND PETES MEET

Belleville - Peterborough Diamond Clashes Always Full of Pep.

CLASH TO-MORROW

Walter Gerow's Men Are Hero For the First Time This Season.

Belleville and Peterborough, rivals in the Central Ontario League race since away back in 1919 when Jake Solomon first organized the loop, clash at James Stevenson Park to-morrow and the result should be a sparkling game.

The Nationals and Petes have met many times with varying scores but there have been few dull battles between them, for somehow or other there is always a struggle when the two get together. The Petes already have the edge on Belleville by beating them on the Nationals' grounds last week and the Gerow-Mills combination will play their heads off here to-morrow in an effort to get on even terms with Manager Swanston's men. With the old rivalry as keen as ever the game to-morrow should present a contrast to last Saturday's Deloro fixture which was a drab affair.

This Belleville team is always a colorful gang, dangerous until the last man is out in the ninth.

To-morrow's game will start at 3 o'clock sharp in charge of Umpire Skitch of Cobourg and Kerr of Deseo.

There were some familiar old Central League faces seen at Exhibition Park Wednesday night when Cobourg played here. Dick Turpin, famous old Cobourg catcher, who used to hit them a mile before Babe Ruth was heard of was base umpire while Cliff Boundy, former Central League umps played left field part of the game. On the bench in uniform was Payne, for many years a tower of strength to Cobourg hockey and ball teams.

RADIO KILLS GERMS

BERLIN, June 7—Experiments have been conducted here which show that short wireless waves have a value in the treatment of disease. Dr. Esau, German professor, took 30 mice, inpected tuberculosis germs into their system and then treated them with wireless waves of less than three meters. Half of the rodents were cured.

COMEDY "THE SHE GOING SAILOR"

Bewdley Garage Broken Into

BEWDLEY, June 7.—Dr. D. S. K. Byrne's garage at Bewdley was broken into one night last week, and about one thousand feet of plank flooring, that had originally been used as the flooring for a tent, was stolen, also some furniture that had been stored in the tent.

Lord Astor's Entry Wins Classic Oak

EPSOM, Eng., June 7.—(A.P.)—Pennycomequick, Lord Astor's three-year old filly, to-day won the Classic Oak Stakes over the historic mile and one-half Epsome Downs course. It was Lord Astor's fifth victory in the historic race, which had a value of 7,000 sterling (about $35,000 to the winner).

GOLF FINALE IS TOSS UP

Maude and Cecil Smith Leading Contenders For Ladies' Championship.

ON BRANTFORD COURSE.

BRANTFORD, Ont., June 7.—(C. P.)—A sprinkle of rain as if to bring freshness to the course, fell early this morning ,to be succeeded at 8.30 by the appearance of Old Sol who smiled generously for the "day of champions" at the Brantford Golf and Country Club, where the final matches of the annual tournament of the Ontario Ladies' Golf Union will be played to-day. This morning the championship consolation, with Mrs. W. G. McLeod, Lambton, Mrs. R. W. Gouinlock, Toronto, and the six following flights will be played off:

This afternoon at 2 o'clock Maude and Cecil Smith, of Toronto, sisters, will for the second time in the history of the Ontario Association, meet for championship honors, Miss Cecil is the defending champion. Judging by yesterday's play, the finale is a toss-up, for Miss Maude won handily from Miss Edith Ellis, Hamilton, while Miss Cecil, who was off in her putting, was forced to the 19th to win from Mrs. J. H. Riddell, Scarboro, the latter having chances to win on the last five holes, losing through her inability to sink the ball.

Miss Maud Smith yesterday, in her match with Miss Ellis, was steady as a rock, missing very little. Miss Cecil is normally about one stroke per match the better, but on yesterday's play Miss Maude is about four shots to the good.

ORY TAKES COUNT

NEW YORK, June 7.—Leo (Kid) Ory, Montreal veteran, was knocked out by Al Singer, Bronx idol, in the first round of their scheduled ten-round bout in Jess McMahon's stdium here last night.

Crocker Defeated In Fourth Round

LONDON, June 7.—(Canadian Press.)—Willard Crocker, of Montreal, Canadian Davis Cup player, was beaten to-day in the fourth round of the North London tennis championships at Stamford Hill. He played against Hon. Cecil Campbell, Irish Davis Cup player and the Irish entrant won, 6-4, 5-7, 7-5. Jack Wright, another member of the Canadian team, is still in the running and won his match in the fourth round yesterday .

THEATRES

AT THE CAPITOL

MILTON SILLS IN "THE BARKER"

What might be termed the swan song of the deaf and dumb drama at the Capitol Theatre takes the form of an entertaining picture with the action centering around a travelling troupe of carnival players.

Milton Sills is the "barker" of the show and he gives one of his convincing delineations in this role. As 'Nifty' Miller, he dominates the picture and all the other actors in it. He is the swashbuckling he-man who 'treats 'em rough', when they get in his way, but his final refuge against disappointment and wrath is a large and expansive drunk that takes him away from the show and just as inevitably brings him back to it.

'Nifty' is the father of Chris Miller, a youth who aims to be a lawyer and wants to spend his vacations with the show. Betty Compson, who has the part of a pretty vixen as Carrie, a Hawaiian dancer with the carnival, is the extra spoke in the wheel when Chris (Douglas Fairbanks, Junior) joins the show. She becomes insanely jealous of the boy and bribes Lou (Dorothy MacKaill) to vamp him for a consideration of a hundred 'bucks.'

Lou carries out her part faithfully but falls in love with the handsome youth, into the bargain, and they elope.

On their return, 'Nifty' does a raging act that is nearly the finish of Carrie and then he departs to embark on a drunken carousal. His return is characteristic and enlivening.

The atmosphere of the picture is one of interest throughout. The life of the troupers on the lot and during their progress from town to town is reproduced faithfully, and there is plenty of entertainment in the picturizing of the many episodes in such a calling, especially in the rough and tumble fracas that ensues when the performers and the men of a rough mill town, come to blows. A minor actor that is famous almost the world over is One-Eye Connolly, appearing in the part of 'T-Bone.'

—Jeanette.

TILDEN IS WINNER.

ZURICH, Switzerland, June 7. (C. P.)—Bill Tilden defeated Eugene Grandguillot, 6-0, 6-0, to-day in the Swiss tennis championships, thereby taking revenge on the Egyptian Davis Star who, paired with Mlle. Annette Barbie, eliminated Big Bill and Mrs. May Sutton Bundy in the mixed doubles at Paris ten days ago.

HIGHWAYS AND BYWAYS IN THE SPORTS WORLD

BOOSTS AND KNOCKS For EVERYONE

(By "TED" OUTRAM)

BASEBALL—Seniors vs. Belleville at James Stevenson Park to-morrow afternoon.
Cogs. vs. Hastings, at Hastings to-night
Bethany vs. Crescents in the Exhibition Grounds to-night.

SOCCER—Packers vs. Quakers in King Edward Park, Saturday afternoon.
Woollens at Deloro to-morrow afternoon.

CRICKET—Practise match at the Oval (2.30 Saturday afternoon.)

* * * * * *

OPENING GAMES ON SCHOOL GROUNDS.

Riverside Bowl has not yet dried up sufficiently to allow the Softball players to scamper over its grassy surface. This may be the one difficulty that the softballers will have to contend with at the Bowl; it is low and retains the water after a rain storm.

However, the teams are eager to get started and at the meeting held last night it was decided to play the opening games at the Central Sschool grounds. Three games for next week as follows, were drawn up:

Monday, June 10—Harrison's vs. Western Clock.
Tuesday, June 11—Teco vs. Bridgenorth.
Thursday, June 13—C.G.E. vs. K. of C.

With six teams lined up in the league the competition promises to be hot. All the teams have about completed their playing roster and have had several practises. Perce Harrison will have last year's champion team practically intact while the Western Clock will trot out a strong aggregation with Delahaye, Kitchen, Barry, McLeod and several new comers.

* * * * * *

E.P.L. GAME HERE TO-NIGHT.

Bethany comes to the Exhibition Park this evening to play Crescents in an East Peterborough League fixture. Crescents will need to be on their toes to down the village crew, assisted as they are by several local players.

The Cogs go to Hastings this evening and should have no difficulty in bringing home the bacon.

* * * * * *

NEW BLOOD FOR HOCKEY TEAM.

It's the wrong time to talk about hockey players, but one arrived in the city recently in the person of Leo Larsen, a French Canadian, from Nashua, New Hampshire. Leo is reputed to be a clever stick handler, and a fast skater, and was captain of the Nashua team. He was born in St. Andrew, Kamomooka, Quebec, twenty-five years ago, and learned all his hockey around his native heath. He was moved from the Nashua plant in New Hampshire to the one here, and he was glad of the change, believing he will get more of his favorite game here. Application was sent in for his transfer some weeks ago to the O.HA.

* * * * * *

PETE COTE MAY GO TO THE TIGERS.

Rumor has it that Pete Cote, wee short stop of the Leafs, is slated for a move up to the majors with the Tigers. Schuble is said to be slipping and the report is that he will go to the Leafs in a swap for Cote. Cote has been a big leaguer, defensively, for a long time, but his hitting was never very healthy. This year a complete change has come over Pete and his work with the stick.

* * * * * *

DOMINION REPRESENTATIVES ON WAY.

Prepared to uphold Canada's status in the rowing world, the Argonaut senior eight, and Joe Wright, Jr., holder of the Diamond Sculls, emblematic of the world's championship in sculling, left Toronto to-day to sail to England. There, Joe Wright will defend his title against the Empire's best at Henley, and the Argonaut eight will compete in the world-wide event.

The Argonaut crew has been rowing together for years now, coming up together from the junior ranks. In their trials they are reported to have made impressive showings. They are being named one of the greatest crews Canada has ever had.

The interest in the Diamond Sculls centres around Jack Guest, formerly a rowing mate of Joe Wright, and the champion. There is little to choose between the two. They were both trained by Joe Wright, Sr., and both are giants of the blades. Guest has been training in England since early spring, having taken a job in London in the winter.

One Week Left In Bunion Derby

BUCKEYE, Ariz., June 7. (C.P.)—The 19 surviving runners in the Pyle Bunion Derby to-day turned toward Gila Bend, 58 miles from here, prepared to expend their best efforts in the remaining days of the New York-Los Angeles race. The Bunioneers should reach their goal by the end of next week.

Johnny Salo, Passaic, N. J., added 21 minutes and 10 seconds to his lead in elapsed time by capturing yesterday's 54.2 mile jjaunt from Mesa, Pete Gavuzzi, of England, his nearest rival, was second, and Giusto Umek, Italy, was third.

Paul Simpson, Burlington, N.C., limped in with a game leg and finished 17th, but retained 5th place in elapsed time.

EDUCATIONALIST DIES IN OTTAWA

Dr. Luther Edmund Embree Had Most Successful Career as Head of Collegiate Institutes.

EDITOR OF SCHOOL READERS

OTTAWA, Ont., June 7 (C.P.).—Dr. Luther Edmund Embree, one of the foremost educationists of the province before he retired in 1914, died at his home here Wednesday at the age of 84. He was born in Cape Breton, N.S.

Dr. Embree was successively principal of Yarmouth Seminary, N.S.; Strathroy, Ont., Collegiate Institute; Whitby, Ont., Collegiate Institute, and in 1908 became Senior Principal of the Toronto Collegiate Institutes. He organized the Jarvis Street Collegiate Institute at that time. For many years he was a member of the Senate of the University of Toronto and of the Knox College Senate. He was joint editor of the Ontario School Readers.

1st Rd.	1 ♦	2 ♥	Pass	2 ♥
2d Rd.	3 ♦	4 ♥	Pass	Pass
3d Rd.	Pass			

Salient Points of Bidding

Auction: Many players with West's holding would have made a pre-emptive bid of three or four Hearts over South's original bid of one Diamond. As heretofore pointed out, the prime object of a pre-emptive bid is, or should be, to shut out adverse suit indications. Consequently when an adverse suit bid has already been made, a pre-emptive overcall fails in the principal objective of pre-emption, and normally works more harm than good. In such case it is better to keep the real strength of the hand concealed. By so doing, there is a much better chance of securing the final bid.

Contract: The same principles as outlined under Auction Bidding should govern the bidding at Contract so far as it is possible to apply them; that is, after an adverse bid, the strength of a hand that might, prior to an adverse bid, call for pre-emption, should be concealed if possible. But the exigencies of Contract bidding frequently prevent such concealment, as with this hand. West is compelled to show his strength by means of a forcing overcall of two Hearts followed by a bid of four.

While in both the Auction and Contract bidding, North should really go to five Diamonds after his partner has rebid and accept a justifiable loss to save a threatened game, his obligation to do so at Contract is more marked than at Auction, because at Contract the game is more clearly threatened.

Played at five Diamonds, North and South would have gone down but two tricks, a small loss if Not Vulnerable, not so small if Vulnerable.

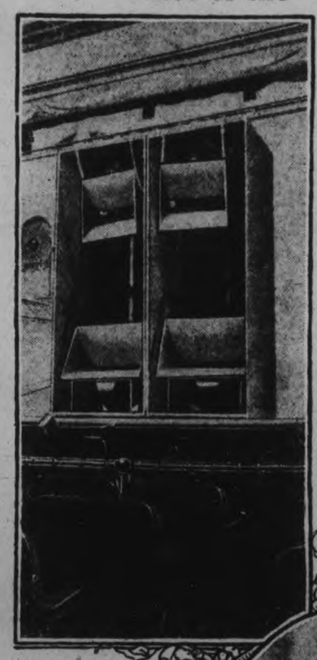
The Play

North opens the 4 of Diamonds, South winning. A Diamond return is trumped by West, who then plans the play of the hand. With nine positive tricks, the question that confronts the Declarer is how to develop the tenth trick required for game. To establish a Spade trick in Dummy, and subsequently make it, is clearly impossible because of lack of entries in Dummy. Therefore, the only recourse is to lose but one Club trick. This can be done only if South holds two of the three missing Club honors. With the cards so placed, a double finesse in Clubs can be taken and but one trick will be lost in the suit. The 10 or 8 of Hearts will provide one entry in Dummy for a finesse and the King of Spades the other. Consequently, West leads a low Heart to Dummy's Ten. The Ten winning, the first club finesse is taken, West playing the 9 which is won by North's Queen. North returns a low Spade and West wins with the Ace. West then leads a Heart. North, winning, leads a Diamond which West trumps. West puts East in with the King of Spades for the second Club finesse which wins, and West takes the rest of the tricks, scoring game on the hand.

MR. WHITEHEAD WILL ANSWER QUESTIONS CONCERNING YOUR BRIDGE PROBLEMS. WRITE TO HIM CARE OF THIS PAPER, ENCLOSING SELF ADDRESSED STAMPED ENVELOPE.

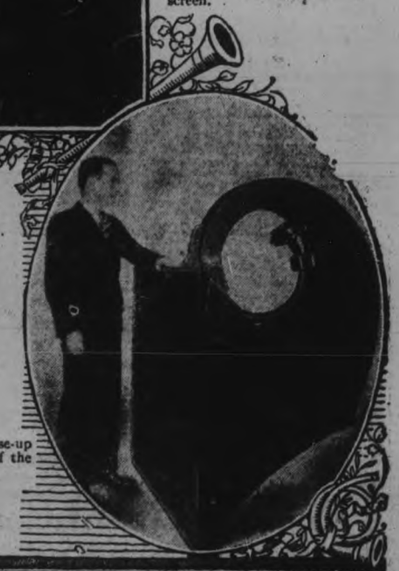
Copyright 1929 Auction Bridge Magazine, Inc. Distributed by Bell Syndicate, Inc.

Voice of the "Talkies"



FOUR giant mouths that might appropriately bear the names comedy, tragedy, music and song are made use of in the installation of equipment for theatres to provide patrons with the latest form of entertainment—sound pictures. Constituting integral parts of the Northern Electric Sound Projector Systems, which are installed in Canadian theatres from Coast to Coast, are these wellsprings of dialogue and music mounted within a skeleton steel tower that can be easily wheeled into position at the center of the stage and as quickly pushed into the wings when the sound picture presentations are replaced by a stage setting. In front of the tower is the screen which is of a special fabric known as the "Transvox," it is woven loosely enough to permit the passage of sound through the fabric, yet is sufficiently compact as to surface to hold and deflect the light coming from the motion picture projectors. Thus, through the use of the tower and the special screen, the horns can be ideally located to give the illusion that the voices or music are coming from the persons seen on the screen.

Above: Behind the screen a quartette of large horns from which the sound from sound pictures emerges, mounted on a movable tower.



Below: Close-up view of one of the horns.

Capitol Theatre, introducing "Talkies," Monday, June 10th.

A Reminder!

If you are interested in cemetery work of any kind, we invite you to look over our showing of Monuments, all of which have been made at our own factory of the best Canadian, European and American granite. Having all the latest machinery for cutting, polishing, carving and lettering, we can quote manufacturer's prices, THEREBY SAVING YOU MIDDLEMAN'S PROFIT.

Orders placed now will be erected for Decoration Day or the coming of old friends.

FRED WHITCROFT DONATES TROPHY

Another Old Peterborough Boy Who Takes Interest in Old Home Week.

When Fred Whitcroft, of Vancouver was in the city last week he stated to some members of the Old Home Week Committee that he would try and arrange for the appearance here of Percy Williams during Old Home Week. He took the matter up with a friend of his in Vancouver and received the following wire which explains itself:

"Officials here will not consider allowing Percy to run so close to the meeting here, as he has to keep in strict training and the train trip is very strenuous. He was mighty disappointed but hopes to be of service at some future date."

Fred is a close friend of Percy Williams and it is possible at a later date it might be arranged for him to appear in Peterborough if a sporting event of sufficient importance was organized.

Fred is forwarding a silver cup to the committee to be given as a prize in some event to be decided on locally. Fred, always a great booster for Peterborough, expects to be here with his wife and two boys for Old Home Week.

i Agents Wanted

GAS IN STOMACH HURTS THE HEART

Thousands of Cases of Heart Failure Are Caused by Acute Indigestion, Says Medical Writer

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable but some day it may prove fatal!

When your meals are followed by bloating, a feeling of fulness or pressure, shortness of breath and pains around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart. That's the reason for the shortness of breath and sharp, shooting pains.

Whether young or old, the presence of stomach gas is truly serious and should be given prompt and careful attention.

To quickly banish gas, cleanse and sweeten the stomach, neutralize the acidity—nothing is better than the daily or "as needed" use of ordinary Bisurated Magnesia. It gives aim at instant relief.

Any good druggist can supply Bisurated Magnesia, in powder or tablet form, at very small cost—but be sure you get BISURATED Magnesia—recommended by Doctors and Druggists throughout the civilized world for more than 15 years.

PLAY GAME EVERYWHERE

Dear Sir:

If you would be kind enough to give me a little space in your paper I would like to ask the soccer fans, and the Brinton ones in particular, to "Play the game in everything."

Excitement is blamed for a lot things but I dont think it is excitement that causes anybody to get sarcastic.

On Saturday last the C.G.E. goalkeeper came in for quite a lot of their so called wise-cracks, but what got me was Wednesday night's game. Among other things that were shouted at the C.P.C. goal-keeper was this: "Mind that leg." Now, as far as I am led to believe the goal-keeper in question got his leg stiffened, "Over There," and I think it is pretty rotten sportsmanship for anybody to holler what was hollered on Wednesday night.

I think it says a whole lot for the said C.P.C. player that he took no notice of them, and I guess he put it down for what it was, pure ignorance.

That kind of stuff never gets a team or a sport anywhere, and the sooner it is dropped the better for the game.

Yours in sport,
A Quaker.

OLD ENGLISH HOME RECIPE

For Falling Hair, Baldness Dandruff and Itching Scalp. Makes Hair Beautiful.

Thousands of people who find their hair coming out badly try various advertised hair tonics and hair growers without results and finally resign themselves to baldness and its attendant discomfort. Yet their case is not hopeless. The following simple home prescription in many instances has made hair grow again after years of partial baldness and almost instantly stops dandruff and further loss of hair. It will not make the hair dry or greasy, is pleasant and easy to use, inexpensive and can be put up in a few moments by any good druggist. Bay Rum, 6 oz., Lavona de Composee 2 oz., Menthol Crystals, one-half drachm. Add a little of your favorite perfume, if you desire. This preparation is absolutely harmless, but highly effective. Ladies using the prescription should be careful not to get it on the face or where hair is not desired.

WEDDING BELLS

RAMSAY—BARNES.

A quiet but pretty wedding was solemnized on Wednesday evening, June 5, at six o'clock, when Margaret Ethel Barnes and Walter Gibb Ramsay, both of Peterborough, were United in the holy bonds of matrimony at the parsonage by Rev. J. H. Sutcliffe, of Murray Street Baptist Church. The bride looked very handsome in a dress of beige georgette, with picture hat to match. The bridesmaid, Miss Gladys Guthrie, wore a dress of mauve georgette, with picture hat to match. Mr. E. Whyte, of Toronto, acted as best man. A dainty wedding supper was served at eight o'clock at the home of Mrs F. Guthrie, 181 Edinburgh Street. The happy couple will reside in Peterborough.

OBITUARY

MRS. GLEN DOUGLAS.

The funeral will be conducted from the family residence in Peterborough to Warsaw cemetery, and will take place Saturday, June 8, at 3 p.m. The service will be conducted by Rev. William Allan of St. Paul's church.

GERALD BARRACLOUGH

Gerald Barraclough, formerly of Peterborough, beloved husband of Gertrude Mulligan, passed away on Tuesday, June 4 in the Toronto General Hospital. The funeral service was held at the home of his mother, 103 Fermanagh avenue, Toronto, Thursday, 8 p.m. and interment took place at the Old English Church Cemetery, Galt, Ontario on Friday.

MRS. EBENEZER JENKINS

NORWOOD, June 7. — The funeral of the late Mrs. Ebenezer Jenkins took place from her residence in Asphodel on Tuesday afternoon. Mrs. Jenkins, whose maiden name was Minnie Gardner, had been a life long resident of this locality. Her death followed an extended period of ill-health.

She is survived by her husband and one daughter, Mrs. Rork Ferguson; one sister, Mrs. William Humphries, and two brothers, Messrs. George and Joseph Gardner, also survive.

The services at the house and grave were conducted by her pastor, Rev. S. H. Moyer, assisted by Rev. R. F. Stillman. Interment was made in the Norwood cemetery.

MRS. HARRIET ADLAM.

One of Peterborough's oldest and most widely known residents passed away at 7.30 last evening in the person of Harriet Adlam, widow of the late John Adlam, who died in 1924. The death occurred at her residence, 516 Sherbrooke Street, after an illness of five months. The deceased was in her 87th year, the last 58 years of her life being spent in Peterborough. Born in England in 1842, Mrs. Adlam came to Canada and settled in Peterborough in 1871. She was a member of Trinity United Church. There remain to mourn her loss two sons and one daughter, Seth and Fred and Mrs. Fred Drake, all residing in this city.

The funeral services will be conducted by Rev. David Wren, of Trinity Church, on Saturday at 1.30 p. m. Interment in Little Lake Cemetery.

LIBERALS BEATEN IN SASKATCHEWAN

(Continued from Page 1)

servatives to line up with the supporters of Dr. Anderson who have also suggested the possibility that Conservative ranks may be increased slightly by the addition of some candidates successful as Progressives.

Hope Faded To-day.

Hope of the Liberals which gradually dwindled during the night faded entirely to-day when Premier Gardiner, Liberal chieftain, declined to amplify a statement made last night in which he conceded the success of the Opposition

Haled by his enthusiastic supporters in Saskatoon as the province's next Premier, Dr. J. T. M. Anderson, Conservative leader, had an easy victory in the northern city.

McConnell, however, who entered the Legislature for Saskatoon through a by-election after the retirement of Hon. A. P. McNab, headed the polls in Saskatoon.

Charles Little, nominal leader of the Progressive group, failed to gain election in Bengough, where there was a three cornered fight.

Saskatchewan's largest vote was recorded before the government which held power from the time the province began was defeated. While statistics of the ballot total were not available due to incomplete returns from many quarters, it was freely estimated that the ballot aggregated votes at the last general provincial fully 250,000, compared with 213,000 election in 1925.

NEW LABOR CABINET VISITS KING GEORGE

Bliss Carman Dies Suddenly

LONG HERALDED TALKIES READY AT THE CAPITOL

First Showing Will Be Made in Local Theatre On Monday.

ALTERATIONS COMPLETE.

Tryout Held Yesterday Morning Proved Most Successful.

On Monday, the screen at the Capitol Theatre is going to talk for the first time. Long heralded, awaited with mounting interest, talked about just as eagerly as were the first productions of the "deaf and dumb" drama, the "Talkies" are going to be with us at last. Manager J. A. Stewart of the Capitol Theatre has provided the long-sought innovation and those who go to his playhouse hereafter will be able to see and hear, both at the same time. Residents of Peterborough will no longer be able to recite to envious neighbors about the wonders of the Talkies in Toronto and the queues of people who await their performance. They are right here with us and will probably be here for a long time. The "gabby" drama is in our midst.

Revolution in Picture Industry

Preparations have been going ahead for their reception, for many weeks past. The Talkies provide a revolution in the moving picture industry and they don't come quietly. They arrive with a fanfare of trumpets and a blare of sound, for the first example of the new idea will be "The Broadway Melody," acclaimed as a triumph of the conversational screen and exhibiting at the one time dancing, singing and talking. This will be shown for a week and the second week's picture will be "The Singing Fool," with Al Jolson. After that, two pictures a week, as usual in the past, will be given.

In the ordinary moving picture performance, anathema has been the name of those who insisted on reading titles aloud or indulging in sound producing foods, such as peanuts and brittle candy. But the watchword "Silence is golden," will be more appropriate than ever for audiences of the Talkies. The sound effects, which proceed out of the large horns placed on the stage of the theatre, are audible to a trained ear, and are made sufficiently loud so that any person of ordinary hearing may catch even the faintest whistle of an engine as it disappears around a curve in the distance of the film, but conversation, indulged in by the watchers will do

Great Poet Passes Away

Bliss Carman, Internationally Known Canadian Poet, Drops Dead.

BORN IN NEW BRUNSWICK.

Particularly Well Known As Writer of Out-door Stories.

NEW CANAAN, Conn., June 8 (Canadian Press). — Bliss Carman, internationally known Canadian poet, dropped dead of heart disease at the home of Dr. and Mrs. Thomas Tunney here this noon. He was 66 years old.

Carman was the author of "Songs of the Vagabond" and "Trees," two collections of Poetry which brought him fame. He made his home with the Tunneys for the last five years.

The poet returned a week ago from a trip through the west, which he began last fall

U.E.L. Descendant.

He was particularly well known as a writer of out-door stories, weaving his tales about the Canadian woods and lakes, where he gave the greater part of his life. He was a typically "out-of-doors man" and an enthusiastic canoeist.

He was born at Fredericton, N.B., April 15, 1861, and was educated at the University of New Brunswick.

Carman was descended on both sides of his family from United Empire Loyalists, who came to New Brunswick at the time of the American Revolution. On his mother's side he was a descendant of Ralph Waldo Emerson. The New England philosopher and poet's work as well as that of Browning and Whiteman, influenced Carman's work.

Bliss Carman was a graduate of the University of New Brunswick, a B.A. and M.A. and later receiving the honorary degree of LL.B. As a student he won the gold medal for Latin prose. A year after his graduation (1881) he began a post-graduate course at Oxford University, but the atmosphere did not suit him, and in a short time he went to Edinburgh University, where he put in a year

FLAG ISSUE IS BEING IGNORED BY CANDIDATES

South African Elections Are To Be Held Next Wednesday.

GERMAN TRADE PACT.

The Breach Between Nationalist and Laor Groups is Widening.

CAPE TOWN, Union of South Africa, June 8.—(By The Canadian Press).—The electorate of South Africa will decide next Wednesday whether the present Nationalist-Labor combine under General J. B. Hertzog is to be given a further term of five years in power, or whether the South African Party under General J. C. Smuts is to be recalled. In the last Parliament the Nationalists held 63 seats, the South-African Party 53 and Labor 18 and there was one forming a party of his own under the title "Constitutional Democrat." General Hertzog thus had a working majority of 28 which, on the vital issues of the German Trade Treaty dwindled in the last session to 5.

During their fourteen years of administration the S.A. Party Government under Generals Botha and Smuts, had to deal with a great mass of reorganization following on the Union in 1910, and then with the upheavals of the World War, eventually going out of office at the bedrock period of depression. By coincidence, with the advent to power of General Hertzog, the economic tide began to turn, and the Nationalist Government have experienced five years of prosperity, which have been reflected in continuous financial surpluses, and a peace in industry which South Africa has not known for many years. These have given General Hertzog the opportunity of demonstrating the spirit of nationalism in South Africa—already innate by tradition in the hearts of his supporters—to a degree which bade fair at one time to make a break in the Union. This spirit has made itself manifest in many ways, notably in the disputes over the Flag Bill and the German Trade Treaty.

Regarded As Settled.

The question of the flag, or rather flags, is now regarded as settled, and although sporadic references are made to it in the heat of election speeches, the party leaders, by tacit consent, have left the matter alone.

The main elements in the electoral struggle are a complete and apparently irrevocable split in the Labor party and the German Trade treaty. The split in the Labor party has been a gradual growth, and, apart from its personal element, began when the Labor party decided by a majority, in 1924, to join General Hertzog in forming a government. This decision was opposed by the extremists, who, like many others, less extreme, were unable to visualize radical Labor finding anything in common with an ultra-conservative farmers' party, or at least were unable to visualize Labor being effective in such a combination, especially in view of the small minority formed by the Labor members. While the Nationalists and Labor members continued to act in common in Parliament, the discontent grew rapidly within the Labor ranks, and although the malcontents obtained the appointment of an extra minister, this minister was eventually forced to resign. The enmity between the two sections, headed by the parliamentary leader, Colonel Creswell and by the national council, became so bitter, that the National Council decided to oppose the Creswell candidates, who, incidentally, are supported by General Hertzog, with the result that a number of urban seats, especially in Johannesburg and Cape Town, which went over to Labor in 1924, are expected to revert to the S.A. Party. Vigorous efforts have been made to patch up a truce in the quarrel, but without success, and in the event it

(Turn to Page 6, Please).

CALLED TO TORONTO.

TORONTO, Ont., June 8.—Rev. G. Stanley Russell, pastor of Clapham Congregational Church, Grafton Square, London, will occupy the pulpit of Deer Park United Church, acceptance of the call to the local church being contained in a cablegram received last night.

BODY LAY ON STREET AN HOUR.

TORONTO, Ont., June 8. — Merchants and passers-by protested yesterday when the body of an unidentified woman who fell dead on the street was allowed to lie on the sidewalk for an hour. Police explained that the ambulance that was despatched suffered a breakdown on the way.

GREAT POET DEAD.

Bliss Carman, internationally known Canadian poet who dropped dead to-day.

TWO PEERAGES FOR MINISTERS OF NEW CABINET

Two Members Have No Seats in British House of Commons.

FOUR PEERS IN COUNCIL.

Rt. Hon. Sydney Webb Is Considered One of Ablest Men in New Government.

LONDON, June 8. — (Canadian Press Cable).—In the course of a few days peerages will undoubtedly be bestowed on Sir John Sankey and Rt. Hon. Sydney Webb two of the members of the new Labor government who have not seats in the House of Commons. In this way they will be enabled to take their seats in the cabinet and the tradition that the House of Lord be represented by at least one or two important ministers in the cabinet will remain unbroken. Already two members of the upper house have been made members of the cabinet so that there will be four peers in Mr. MacDonald's Government. Lord Parmoor is Lord President of the Council and Lord Thomson is secretary of State for Air.

Has Excellent Standing

Mr. Webb, who is secretary of State for the Dominions and Colonies some years ago placed himself definitely outside the ranks of the Labor extremists when he startled his more hasty colleagues by coining the phrase "The inevitability of gradualness." It is typical of the rest of the cabinet that such a man should be given an important secretaryship. He has perhaps greater academic qualifications than any other member of the new cabinet. He is a life-long student of political economy and sociology and is the author of a long list of authoritative works.

Moreover Mr. Webb is a formidable debater and he comes to reinforce administration at its weakest point, in the House of Lords, where it is small in numbers. The Labor party needs powerful debaters in the Upper House to offset its minority position. The appointment has occasioned considerable surprise as it was thought Mr. Webb had definitely returned from politics. He hid not contest a seat in the general election.

No doubt the desire to secure adequate representation in the House of Lords also weighed in the appointment of Sir John Sankey who leaves the bench of the court of appeal to become Lord Chancellor. Under the Lloyd George regime Sir John headed a commission conducting an enquiry into conditions in the coalfields. At the end of the enquiry he issued the famous "Sankey report" which Laborites have ever since cited as an argument in favor of nationalization of the mines.

WOMAN INJURED BY HIT AND RUN MOTOR DRIVER

Hit and Run Driver Knocks Down Mrs. Stanley Delorme.

ARRESTS ARE MADE.

Two Children Narrowly Escape Being Knocked Down Also.

Mrs. Stanley Delorme, 63 McGill St., is in the hospital suffering serious injuries which she received when hit by a hit-and-run motorist at the corner of Perry and George streets, at 9.30 last evening. Mrs. Delorme's injuries include a deep scalp wound, injured shoulder and many bruises, and she is suffering from shock.

The owner of the car, H. Cavanaugh, Brock street, and the driver, Ab. Quinlan, McDonnel street, were sought out and arrested by Sergeant Wigg and P. C. Piercy shortly after 3 o'clock this morning.

Mrs. Stanley Delorme with her two children, Madeline, 14, and Arthur, 12, had been visiting at the home of a friend, Mrs. Fred Lanouette, 132 Perry street. Returning home at 9.30 with her children, Mrs. Delorme was walking east on Perry street. The little party had just come out on to George street, and had taken a few steps off the curb to cross the road when the car driven by Ab. Quinlan, going south on George street, at a fast rate of speed, hit her, the police allege.

Carried 35 Feet.

The car was going at such a speed that Mrs. Delorme was carried 35 feet by it. The car was stopped, backed up, then turned and speeded east on Perry street and south on Lock street. The driver speeded away despite the loud cries of the two Delorme children, "You have hit my mother! You have hit my mother!"

The children tried to get the number of the car, but in their excitement or because the tail light was out, they did not succeed.

Dr. E. H. Wood was called and he ordered that the woman should be conveyed to the hospital immediately. At the hospital her injuries were diagnosed as serious but in no way fatal.

Immediately following the accident the police began a search for the hit-and-run motorist, and they were successful in rounding up Cavanaugh, the owner, and Quinlan, the driver of the car in the accident, they state.

RUN DOWN BY MOTORIST

HAMILTON, Ont., June 8.—Robert Richardson, 38, was killed last night when struck by an auto driven by Jack Weir, this city. He died of internal injuries resulting when the wheels of the car passed over his body. An inquest will be held.

HOTEL KEEPERS JAILED

KITCHENER, June 8.—Three hotel keepers were sent to jail and eight others were fined for infractions of the Liquor Control Act. Total of fines imposed was $2,500.

SONGS OF VAGABONDIA

Make me over, Mother April,
When the sap begins to stir!
When thy flowery hand delivers
All the mountain-prisoned rivers,
And thy great heart beats and quivers
To revive the days that were.
Make me over, Mother April,
When the sap begins to stir!

Make me over in the morning
From the rag-bag of the world!
Scraps of dream and duds of daring,
Home-brought stuff from far sea-faring,
Faded colors once so flaring,
Shreds of banners long since furled!
Hues of ash and glints of glory,
In the rag-bag of the world.

Only make me over, April,
When the sap begins to stir!
Make me man or make me woman,
Make me oaf or ape or human,
Cup of flower or cone of fir;
Make me anything but neuter,
When the sap begins to stir!

—BLISS CARMAN.

REFUSAL OF CLEARANCE PAPER TO UNITED STATES RUM RUNNERS DEBATED IN HOUSE OF COMMONS

Hon. W. D. Euler Denies Report Concerning Supplying of Information.

Attacked By Progressives.

Minister Claims U. S. Authorities Ask Canadians To Discontinue Giving Information.

OTTAWA, Ont., June 8.—(By the Canadian Press.) —Emphatic denial was made by Hon. W. D. Euler, Minister of National Revenue, last night to statements that Canadian customs officials in the Windsor district had not supplied United States preventive officers with all the information with regard to the movement of boats smuggling liquor, which the anti-smuggling treaty intended. The ministers' pronouncement came during an onslaught on the government for having so far declined to grant the request from the government of the United States that Canada refuse clearance to vessels smuggling liquor across the border.

Progressives Make Attack.

The attack came from the members of the Progressive and U.F.A. groups, who insisted that Canada should do her share to prevent a traffic which was breaking the laws of a neighbor country. The best way for the Dominion to co-operate would be by refusing the clearances. The debate was launched when the estimates of the Department of National Revenue were before the House in committee.

Taking from a former speech by Mr. Euler the statement that in the Windsor district the giving of informaton regarding rum runners by telephone to officers in Detroit had been discontinued at the suggestion of the latter, A. M. Carmichael, (Progressive, Kindersley), wanted to know what led up to this action. Mr. Euler replied that the request of discontinuance of the information came from a representative of the United States government not from the collector of customs at Detroit.

Says Department Refused.

Mr. Carmichael referred to the report that "it was only when the Department refused to grant the American request to properly identify these goats that they asked for the discontinuance of giving this information. Without the identification the information was useless."

"I have read the same thing elsewhere," said Mr. Euler, "that the Department of National Revenue refused to give certain information which was asked for by the American authorities. I desire to deny that absolutely."

The information which the Canadian customs officials telephoned the American officers, included the name of the vessel, name of the master, license number of vessel, the kind of vessel, the description of the vessels sufficiently correct to enable its identification and the time of clearance.

Faithfully Carried Out.

"These were instructions that were sent out," said Mr. Euler, "and as far as I know they were faithfully carried out until at Windsor we were requested to discontinue giving that information."

Mr. Euler quoted Admiral Billard, who led the United States delegation at the rum-running conference here, as saying that Canada had fully and faithfully discharged the obligations which she assumed under the present treaty.

H. H. P. Johnston who replaces W. Beamer as district manager of Bell Telephone Company here. Mr. Johnston was formerly in Kingston and assistant to W. Northgrave, a former Peterborough manager.

Are Given Seals of Office

New Labor Cabinet Pay Their Respects to King George at Windsor Castle.

MEMBERS SWORN IN.

On Return to London Members Hold Informal Cabinet Meeting.

LONDON, June 8 (Canadian Press). — The new Labor Cabinet of Ramsay MacDonald was in full office today.

Members of the Cabinet journeyed to Windsor Castle this morning, paid their respects to King George, and returned to London bearing the seals of their office which the retiring Conservative Government members surrendered to His Majesty yesterday.

"My colleagues and I were highly delighted to find the King looking so well and to see how magnificently he was able to go through the ceremony without any suggestion of strain," said Mr. MacDonald afterward. "Everything went off smoothly."

The introduction of the Labor Ministers to the King took place in the audience room of Windsor Castle, into which the members of the Labor Party, attired in the formal morning dress befitting the ceremonial of the occasion, were ushered.

Members Sworn In.

Previously a meeting of the Privy Council, presided over by the King, was held for the purpose of swearing in the new members who had not previously been members of the Privy Council by virtue of the Labor Government of 1924.

The King received the members of the Cabinet one by one. Lord Parmoor, Lord President of the Council, was the first to receive his seal, followed by the Lord Chancellor, Sir John Sankey, who was given the great seal of England. Mr. MacDonald was next, and then came the other Ministers in their order of precedence.

On their return to London, the new Ministers met informally at No. 10 Downing Street. Premier MacDonald drove from the station to the garden entrance adjoining the Horse Guards Parade, and entered practically unobserved. The other members of the Cabinet arrived one by one until all were present for their consultations.

Sacrifice Salaries.

Some of the new members will be out of pocket because of the appointment

(Turn to Page 7, please)

GENERAL ASSEMBY TURNS DOWN RE-ORGANIZATION PROPOSALS

Board of Administration Remains As Constituted Last Year.

DEBATE GROWS WARM.

Twenty-seven Out of the Forty-three Presbyteries Endorsed Proposal.

OTTAWA, Ont., June 8. — The vexed question of reorganization of the Board of Administration of the Presbyterian Church in Canada, precipitated a storm at yesterday's session of the General Assembly. The same issue proved one of the most contentious matters debated at the Regina Assembly last year. Arising out of those proceedings a special committee was appointed to draft a remit, outlining the proposed changes and to submit it to a vote of the 43 Presbyteries.

Reporting on behalf of this committee, Dr. D. R. Drummond, of Hamilton, stated that the suggested re-organization provided for the constitution of a board of 40, with the principle of parity of laymen and clergy recognized. Last year the addition of eight ministers to the personnel of 35 laymen, was endorsed.

Dr. Drummond reported that the overture, providing for the addition of ministers had been approved by 27 of the 43 presbyteries.

Heated debate developed between lay and ministerial representatives on the feasibility of re-organization. In an effort to bridge the crisis, several amendments were offered, but not until Rev. Dr. Perrie, the newly elected Moderator, intervened, was the impasse overcome. On his recommendation the debate was closed and a vote taken.

By a margin of six to one it was ultimately decided there should be no change in the board as at present constituted, with 35 laymen and 8 ministers, who will act as convenors of the general interests committees, in the eight synods of the assembly.

City Council Provides New Parking Grounds

Additional parking space for automobiles has been smoothed out at the east end of Charlotte street, and that means in the hollow immediately north of the C.P.R. freight sheds. The Board of Works has filled up with ashes a low-lying piece of ground belonging to the city, but otherwise unused. It has been levelled off, and provides room for at least 150 cars. The location is only a stone's thrown from the market square, and is in the centre of the down-town district. Ald. Hamilton's department has completed this improvement and cars are now parked there every day. The C. P. R. yard back of the Duffus garage is also available, especially on Saturday afternoons, when many farmers are in the city.

500 STUDENTS GIVEN DEGREES

TORONTO, June 8.—Commencement exercises at the University of Toronto were concluded yesterday when 450 students in arts and 50 in domestic science were presented with their degrees. The graduates were addressed by Premier Howard Ferguson.

SUGGESTION REJECTED

TORONTO, June 8. — Toronto conference of the United Church rejected yesterday the suggestion of Algoma Presbyterial that organized choirs of individual churches be given representation on their parish boards.

LANDS IN OXFORD COUNTY.

WOODSTOCK, Ont., June 8.—Ralph Stancliff, missing St. Louis flyer, landed in a field near Bright in Oxford county early las tevening when his machine developed engine trouble.

Scientists Begin World Study Of Origin Of Earthquakes--Will Visit Volcanic Region

COLD SPRINGS HARBOR, L. I., June 8.—A study of the general causes of seismic activity which will take scientists of the Carnegie Institutions here and in Washington to darkest Africa, the frozen fastnesses of the Himalayas and to the craters and cones of Java, has been projected, it was announced at the Carnegie Institution.

The task has been undertaken by Dr. Bailey Willis, research associate of the institution in Washington, and by Dr. N. L. Bowen of the geophysical laboratory of the local foundation. Dr. Willis left last month and Dr. Bowen several days ago. They will confer in England with seismographists and will then proceed to East Africa to pursue studies in the trough of the Lake Tanganyika region.

On their trip into the Tanganyika territory the scientists will be accompanied by E. J. Wayland of the Geological Survey of Uganda. The plans called for Drs. Willis and Bowen to remain in that area during late Summer and early Autumn.

After completing that work Dr. Willis will go to India to consider and survey the Himalayas as "earthquake mechanism." He will then proceed to Sumatra and Java, revisit the Philippines and return home by way of China and Japan. Dr. Bowen will return direct from Africa to report to the Washington institution.

Similar studies were undertaken in Chile by Dr. Willis in 1922 after the earthquake in the province of Atacama.

400,000 Members Leave Church in Fifteen Years

DENVER, Col., June 8. — (Canadian Press) Approximately 400,000 members of the Baptist faith have severed their connection with the church in the last 15 years, it is shown in a survey prepared for presentation to the Northern Baptist Convention which convenes in Denver next week.

The survey, compiled by five prominent clergymen of the denomination also recites that despite salary increases effected in the last decade ministers still remain the lowest paid classes of men in the nation.

25 YEARS MARRIED.

Mayor Denne and Mrs. Denne are to-day celebrating their twenty-fifth wedding anniversary.

PLANNING AIRPORTS.

TORONTO, Ont., June 8. — Plans for an airport for Toronto providing accommodation for both air and sea planes were submitted for approval by the Harbor Commissioners to the Board of Control yesterday. An expenditure of $596,000 over a period of years is proposed, and if the project is successful an ultimate expenditure of $2,000,000.

MAPPING BY PHOTOGRAPHY

The camera has been used by the Topographical Survey, Department of the Interior, as a means of gathering topographical data in the field for mapping purposes, for the past forty years.

PERSONALITY LEADING FEATURE FOUND IN GREAT CANADIAN RACE

Canada Does Not Differentiate Between East and West, Professor States.

LIVE IN TWO WORLDS.

County Has No Need of Channel to Unite the English and French.

PARIS, June 8 (C.P. Cable).—Before a distinguished audience at the Alliance Francaise last evening, Professor William Caldwell of McGill University, Montreal, discussed the intellectual relations between Canada and France in a brilliant discourse. The President of the Senate, M. Doumer, presided.

"In the United States they believe in the melting pot, in standardization and uniformity of thoughts and sentiments on everything," Prof. Caldwell declared. "In Canada, however, we believe in personality, in the cooperation of groups and in unity in diversity. France can help the Dominion in that direction."

No Differentiation

Canada did not differentiate between the East and the West," Prof. Caldwell said, so that French-Canada had been indispensable in maintaining a Canadian national life as a distinct thing in the Empire. "The French-Canadians have been a conservative, stabilizing force of great value," he declared.

Referring to the activities of the Alliance Francaise, Prof. Caldwell said it had endeavored by reunions and conferences to strengthen the ties between the two races in Canada, particularly since the entente cordiale and more particularly since the war.

OLD PARTIES ELECT 26 MEMBERS EACH

SINCLAIR URGES DEVELOPMENT OF RESOURCES WITHIN PROVINCE

Liberal Leader Visits Great Pulp Mills at International Falls.

SPEAKS AT FORT FRANCES.

Great Wealth of Northland Should Be Kept in Province, He Declares.

FORT FRANCES, June 8.—(Canadian Press.)— New Ontario's great wealth of natural resources should be developed to the last ounce within the borders of the province, declared W. E. N. Sinclair, K.C., M.P.P., Liberal leader, in an address here last night in the town hall.

Though he made no specific reference to it in his address, Mr. Sinclair a few hours earlier had seen, in company with the group of Liberal members of the Legislature who are journeying through New Ontario with him, the great Backus Mills, just across the Rainy River from Fort Frances at International Falls, in the United States. Pulpwood from Ontario is cut almost excusively in this large plant.

"It should be and must be," Mr. Sinclair asserted, "the duty of governments that every available portion of the wealth of the province of Ontario should be developed within the provincial limits, so that we may build up a truly great province with a large population."

"There is a grand opportunity for men in public life to give this matter a thorough study and to do everything that can be done so that every ounce of the wealthy natural resources of the province will be manufactured into the finished product before they are taken outside our borders. That is the way to build up the province."

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO. TORONTO, ONT. (Formerly Windsor)

Governor Disapproves Of National Anthem

DUBLIN, June, 8.—(Canadian Press).—James MacNeil, Governor-General of the Irish Free State, may not attend the annual festivities of Trinity College next week because the authorities of the school insist upon having the hymn "God Save the King" as part of the program instead of the national song of the Free State.

The Free State national anthem is "The Soldier's Sons." It was the hymn of the Sinn Fein and there is much sentiment against it among Unionists. It has never been played at Trinity College.

When informed the Governor-General would not attend the college festivities unless "The Soldier's Sons" was played, Trinity authorities suggested that it might be played on the program if "God Save the King" could be retained. But this was unacceptable to the King's representative in the Irish Free State.

TWO SMALL INDEPENDENT GROUPS WILL HOLD BALANCE OF POWER IN SASKATCHEWAN LEGISLATURE

Neither Conservatives or Liberals Can Control the Baffling Situation.

Two Elections Postponed.

Progressives and Independents Elect Nine Members.

REGINA, Sask., June 8 (C.P.)—Neither Conservatives nor Liberals can control the baffling situation in which the Saskatchewan general election has left the province, it is claimed by George Thorn, secretary of the Saskatchewan Progressive Association. The Independent and Progressive groups, he says, hold the reins of power.

With additional reports received from the four doubtful constituencies—Happyland, Maple Creek, Morse and Willow Bunch—the Liberals are on even terms with the Conservatives in the number of seats captured in Thursday's provincial election.

In a statement issued at the headquarters of the Liberal Association here late last night, the ridings of Happyland, Maple Creek and Willow Bunch are claimed for the forces of Premier James G. Gardiner. The constituency of Morse is put in the Conservative column, making the standing read:

Party.	Elected.
Conservatives	26
Liberals	26
Independents	5
Progressives	4

With the reports received from the "doubtful" ridings all of the 61 seats contested Thursday now are accounted for, while in the two far northern constituencies—Ile A La Crosse and Cumberland—election was deferred to be held possibly in August.

Anderson's Statement.

"The next move is entirely up to Premier Gardiner," Dr. Anderson said in Saskatoon yesterday. "There are two courses open to him. He can either open the next session and face defeat in the House, or resign.

"If he resigns, the Lieutenant-Governor will decide on the next course. The Lieutenant-Governor, in the event of the resignation of the Premier, would likely call upon the largest group to form a Government." Mr. Anderson stated that he anticipated a definite pronouncement from Premier Gardiner in the near future.

The obvious move of the Conservative chieftain will be toward the Independents, now elected in three seats and leading in another. Largely of Conservative persuasion, the Independents are expected by the Conservatives to line up with the supporters of Dr. Anderson, who have also suggested the possibility that Conservative ranks may be increased slightly by the addition of some candidates successful as Progressives.

With aid drawn from the ranks of successful Independents and Progressives, the Conservatives may be able to gain a bare majority in the Legislature. Two far-north seats, Ile a Lacrosse and Cumberland, where elections were deferred, will prove important acquisitions to either when balloting is held; at the last election both seats were Liberal.

Narrow Margins.

Running ahead with a narrow margin of 100 votes in 55 of 80 polls in Maple Creek constituency, Hon. George Spence, Minister of Railways, was not absolutely certain of election. Full results were not expected until a late hour, as all unreported polls are in areas beyond telephone communication.

SELECTED BY CONSERVATIVES.

CARLETON PLACE, Ont., June 8.—Thomas A. Thompson, M.L.A. for North Lanark, was selected here last night as Conservative candidate in Lanark County to contest the Federal by-election on July 29 to fill the vacancy caused by the death of Dr. R. F. Preston.

Here's Proof That ZUTOO Ends Headache

Mr. E. F. Tomkins, Ex-Mayor of Coaticook, Que. proves it.
"Your Tablets are a safe and effective remedy for headache"

Mr. Geo. Legge, Editor of the "Granby Leader-Mail" proves it.
"Your Zutoo Tablets deserve to be widely known as a remedy that will stop headache."

A. C. Hanson, B. A., K. C., Colonel of the Hussars, proves it.
"I use Zutoo Tablets and find them a very satisfactory remedy for Headache."

Montreal Girl Guides Build Poster Beds

MONTREAL, Que., June 8.—(By The Canadian Press).—The hand that rocks the cradle wields the saw and hammer that made it. Montreal Girl Guides have been teaching the boys a trick with their own tools lately, and four-poster beds, cradles and other types or sleeping equipment are adorning various windows in the business sections of the city in testimony to their skill. A short time ago the boys demonstrated that they were adept in darning stockings and sewing on patches and buttons, when a competition in needlework was staged at the Montreal Boys' Hobby Show.

BIG PILGRIMAGE IS WELCOMED

Pilgrims From British Free Churches Will Make Study of Church Union.

1,055 ON BOARD.

(By W. T. Aitken—Canadian Press Staff Writer).

ON BOARD THE S.S. DORIC, St. Lawrence River, June 8 (By Wireless). — Canada last night extended her first welcome to the greatest religious pilgrimage to leave the shores of Britain since Richard Coeur De Lion led his glittering hosts in the crusades. Representatives of the United Church of Canada, the railways and the press boarded the White Star liner Doric at Rimouski, Que., to welcome the 1,055 pilgrims from the British Free Churches, who will spend a week in the Dominion studying the results of Church Union in this country and sight-seeing. Robust Christians, aged from nine to 90, greeted the boarding party.

Rev. A. G. Sleep, secretary of the Congregational Missionary Society, London, explained some of the objects of the pilgrimage to the Canadian Press.

Leads Motherland.

"Canada is destined to lead the Motherland in the matter of Church Union. We are on a pilgrimage of good-will and to learn. We came impressed not only with desirability of Church Union but with its practicability. From British churches, divided outwardly in thought but bound together in the common love for Christ, we bring most affectionate greetings to Canada and the great Church which exhibited to the world such a glorious example of Christians united."

Some interesting references to the British election were made by Rev. S. M. Berry, secretary of the Congregational Union of England and Wales, and E. H. Jeffs, political writer and editor of the New Outlook. Mr. Berry said that Labor succeeded because it worked on every street corner and made the closest contacts with the people. With the whole press against it, Labor won by sheer hard work, he said. The bulk of English people were not alarmed because the belief in the sanity of such experienced men at Rt. Hon. Ramsay MacDonald, Rt. Hon. Phillip Snowden, Rt. Hon. J. H. Thomas and other Labor leaders.

The Weather

Meteorological Office, Toronto, June 8. (C.P.) — Pressure is high over the Great Lakes and relatively low over other parts of the continent. The weather has been fair and warm in the western provinces and comparatively cool from Ontario eastward with showers in eastern Quebec and New Brunswick.

Forecasts.

Lower Lake Region: Moderate northeast winds; fine to-day and Sunday; stationary or a little higher temperature.

Georgian Bay: Moderate winds; fine and a little warmer to-day and Sunday.

Northern Ontario: Mostly fair and a little warmer to-day and Sunday.

Lake Superior: Moderate winds; fair to-day and Sunday with a little higher temperature.

Manitoba: Mostly fair and warm to-day and Sunday; possibly a few scattered thunderstorms.

Saskatchewan and Alberta: Mostly fair and warm. Sunday: Mostly fair with a little lower temperature; probably a few scattered showers.

Captain John Randell To Reside in Toronto

TORONO, Ont., June 8. — (Canadian Press).—Deserting the seafaring tradition of his family Captain John Thomas Randell of the ("I'm Alone") has decided to settle in Toronto. His desire to give his two sons a good education at the University here and his plans for commercial success have influenced the return of the Captain to land. He is going to England where he hopes to interest the naval authorities in a safety device for men trapped in a submerged submarine. In the meantime he has patented in Canada a razor sharpener, an invention he developed during many years of shaving on the sea, and while in England he intends to purchase a ship on which he will travel to South America to make travel pictures and news travelogues.

4 DAYS RACING AT EXHIBITION

Two Races Will Be Run Each Day For Purses of $600.

SUGGESTS NEW CLASS.

A short meeting of the Peterborough Exhibition Board was held last evening in the Chamber of Commerce Rooms. T. McIndoo, the vice-president, occupied the chair in the absence of President Denne, who arrived to carry on the duties after the minutes of the previous meeting had been read and adopted.

Mr. Knox reported that the prize lists would be out in a few days. Stan. Lowe reported on the progress of the race committee, after which a short discussion took place as regards the entry fee and the prize lists.

Mr. Brown moved that four days of racing be held this year instead of three, two each day for a purse of $600 each day, with an entry fee of 5 per cent. William Knox seconded the motion, and it was carried by the meeting.

William Knox suggested a commercial class for delivery horses open to miscellaneous trades as milk products, bakers, etc. These were provided to a certain extent in other classes, but the people concerned felt that there should be a separate class for these alone. Such a class would bar them from entering in other classes.

However, the meeting felt that it would be robbing one class to build another class, and as the prize lists were complete for this year, it would hardly be feasible to do this.

The question of admissions was brought up, but was left as previously decided.

RAIN NEEDED TO HELP CROPS

Three Western Provinces Require More Moisture.

SUMMARY IS MADE.

WINNIPEG, Man., June 8. (C.P.)—"It is evident that the success of a well rooted and evenly germinated crop turns now almost entirely on abundant June rains and warm growing weather," states the second general crop report for 1929, published by the Manitoba Free Press this morning.

In reports received from more than 300 correspondents scattered over the prairie provinces, covering the largest wheat growing areas of the west, it is noted that in more than a third of the districts reporting that rain and warm weather is required.

"None are 'urgently' in need of rain," states the Free Press report, "but few can do without it long without the crop going back."

MARMORA YOUTH CAPTURES EVENTS

Work of W. Shannon Features Interscholastic Athletic Meet at Kingston.

KINGSTON, June 8.—Twenty-two standards set by the Ontario Athletic Commission was equalled by the athletes in the annual track and field meet for public and separate schools, junior high school, intermediate high schools and senior high schools, under the auspices of the Commission.

Featuring the events was the running of W. Shannon of Marmora Continuation School, who covered the "century" four-fifths of a second under the standard, and the throwing of the javelin by G. McMahon of Kingston Collegiate Institute who bettered the standard by more than six feet. The finals for the Ontario championships will be held here in August.

Intermediate High Schools.

100 yards—1, W. Shannon, Marmora C.S.; 2, H. Moore, Napanee, C. I.; 3, A. Moore, Brockville C.I. Time—10 2-5 seconds.

220 yards— 1, W. Shannon, Marmora C.S.; 2, H. Moore, Napanee C. I. Time—24 seconds.

$650,000 ASKED PRESBYTERIANS IN 1930 BUDGET

Churches Closed Past Year With a Deficit of $20,000.

ALLOCATIONS MADE.

Former Treasurer Urges Creation of Reserve Fund To Meet Over Expenditure.

OTTAWA, Ont., June 8 (Canadian Press). — The estimated budget of the Presbyterian Church in Canada for 1930 is set at $650,000, it was announced at yesterday's sederunt of the General Assembly.

The budget, which was submitted by C. S. McDonald, of Brampton, Ont., on behalf of the Board of Administration, indicated that the deficit of $61,000 which had been shown last year had been increased to $81,000. This fact, Mr. McDonald said, should not prove a discouragement, for the church was a growing, progressive institution, which ultimately would emerge triumphant. Difficulty in raising funds, he submitted, indicated that much good work was still to be done.

$285,000 to Home Missions.

Of the estimated outlay, $285,000 has been allocated to Home Mission work, foreign missions will need $150,000, colleges and schoos $54,000, divided as follows: Knox Coll., Toronto, $25,000; Presbyterian College, Montreal, $20,000; Deaconess' Training Home, $7,000; and Pictou Boys' Residence, $2,000. Other items of expenditure are: Sabbath Schools and Young People's Societies, $11,000; Pension Fund, $18,000; General Assembly and Expenses of Committees, $19,000; Administration $25,000; Miscellaneous, interest, legal, taxes, etc., $20,250; budget $7,000. Under the special heading of "Capital Account," provision is made for an additional $3,500 for the Deaconess' Training Home and $7,250 for the Pictou Boys' Residence. An item of $50,000 is to be applied to reduction of deficit.

The Board of Administration struck the following allocations by Synods:

Maritime Provinces, $55,000; Montreal and Ottawa, $115,000; Toronto and Kingston, $230,000; Hamilton and London, $180,000; Manitoba, $15,000; Saskatchewan, $15,000; Alberta, $20,000; British Columbia, $20,000.

E. W. McNeil, Toronto, former treasurer of the Presbyterian Church, urged the creation of a reserve fund, as a principle of good business, to guard against over expenditure.

"We do not want to hear any more appeals from pulpits for special collections to meet expenditures we should pay for," Mr. McDonald said. "I hope by next year we shall have a small surplus to start the reserve fund," he added.

EATS MEDICINE TABLETS.

TILLSONBURG, June 8.—The two-year-old son of Mr. and Mrs. Ernie Hall, north of Tillsonburg, died yesterday in the Soldiers' Memorial Hospital here after suffering convulsions since 6 p.m. Tuesday. The child became ill suddenly after supper, and it was later discovered that he had eaten several medicine tablets in the brief absence of the mother.

Two Boxes Brought Him Speedy Relief

New Brunswick Lady Gave Husband Dodd's Kidney Pills

"We have used Dodd's Kidney Pills for years for Kidney Troubles and Lame Back," writes Mrs. Charlie E. Smith, who resides at Florenceville, N.B. "My husband got cold in his back and was very nearly laid up. He started taking Dodd's Kidney Pills and when he had used two boxes, the Lameness had disappeared. I have also used Dodd's Antiseptic Healing Ointment on my children's chapped faces and found it very good."

For over a third of a century, grateful men and women have attested to the merits of Dodd's Kidney Pills. Others have found relief from Kidney Ailments—why not you?

INDIAN NAME CHOSEN

New Ship Being Built at Midland to be Called Stadacona.

MONTREAL, Que., June 8.—(By The Canadian Press).—An Indian name, known to white men for nearly 400 years, has been selected for the new giant upper lake bulk freighter now under construction at the Midland Shipbuilding Company yards, Midland, Ont., for Canada Steamship Lines. The name Stadacona, which was the native identification for the village which stood on the present site of Quebec City, will be officially given to this 630 foot vessel in September when she will be launched.

MUSINGS AT A MANSE WINDOW

SO long as the present order of things continues we shall have to admit that old age is a disease for which there is no cure. Men may monkey with glands and women with diets of one kind or another, but there is no science known to man that can hold back a fortieth birthday. Therefore, we might as well set out to make the best of it. A certain dear old lady once said that she had got great comfort from the text which said, "Grin and bear!" It is of no consequence where she got her text so long as it can minister to our comfort also. If I may be permitted to speak from my own experience, I can add my testimony to say that I have tried it and found that it works.

When We Reach Our Fortieth-Year.

I have noticed that so long as we are on the sunny side of forty the approach of old age seems slow and a long way off. At that period it does not seem to give us any concern or worry. But when we find ourselves on the shady side of a fortieth birthday it is a different matter. Old age becomes a grim reality! It then seems so dreadfully near and we hate to think of it. I remember how, on one occasion, the wife of an eminent doctor said in my hearing, "I hate the thought of getting old." There seemed so much bitterness in her words that I had difficulty in understanding her attitude to old age. I think I can see things a little more clearly now. Her attitude wasn't to life or living so much as it was to old age and dying. The emphasis was on the wrong place.

Why Worry About It?

The fact that I can understand her better now ought to make me feel blue, since it suggests that I have already reached or am drawing near the place in the sum of life where she was when she made her complaint. But, strange to say, I don't feel the least bit blue! Why should I permit the inevitable to pain me? Nothing I can do can hold back the advancing years. In the working out of the sum of them a rule has been laid down to which there is no exception. It is the way all flesh must travel: therefore, let us make the best of it. And we can do that by enquiring and preparing for what lies beyond old age.

D. G. Rossetti wrote to his mother, May 12, 1868: "The reminder of the solemn fact that I am a man of forty now could hardly have come agreeably from any one but yourself. But, considering that the chief blessing of my forty good and bad years has been that not one of them has taken you from me, it is the best of all things to have the same dear love and good wishes still coming to me to-day from your dear hand at a distance, as they would have done from your dear mouth had we seen each other."

Shakespeare writes in his Sonnet:

"When forty winters shall besiege thy brow
And dig deep trenches in thy beauty's field,
Thy youth's proud livery so gazed on now
Will be a tattered weed of small worth held."

One of the wisest of all things said about the age of forty is in Cowley's essay, "The Danger of Procrastination": "There is no fooling with life when it is once turned beyond forty."

If We Could Be Young Again!

At times we are all tempted to think that it would be fine to be able to roll back the years like a curtain and be seventeen again! Everything then seemed so bright, and we were so care-free. Of course, it isn't possible! So, what's the use of crying for milk of which we have already made a meal? If it could be brought back it is just possible that it would be sour and disappointing. No! What has been is, for all eternity, in the past tense.

But, let us thank God for a Memory. Let us draw up our chair to Memory's Window and gaze with gratitude and wonder upon the past. Try and conjure it up again, if you can. Think of its long days of innocent childhood! Life seemed to be one long May morning which had not yet lost the dew of its freshness. With what zest did we play in its sunshine! Tired of our play, at last, we laid ourselves down to sleep and dream for a little while; and when we opened our eyes we found ourselves, with many others, grappling with the problems and promises of school life.

Early Experiences In Education.

I can see, as I look back over the landscape of the past, the village school. To me then it often seemed to be the vestibule to my scholastic purgatory. But, if I could go back to it now, it would seem to be a veritable sanctuary, consecrated to the task of giving me an education. Perhaps this is another illustration of the truth of the statement that "Distance lends enchantment to the view."

From that country home of mine to the village school was quite a walk for little feet and short legs, as others could testify who travelled it with me! But I, for one, have had few more interesting walks since. I am sometimes credited with having travelled far—but no journey has ever given me quite the thrill of the journey between my country home and the village school of those long, happy days.

Where Was Your Wonderland?

As I left the house in the morning, to wend my way down leafy lanes or skirt some field where the grain was getting ready for harvest hours, I was embarking upon a voyage of discovery which was just as romantic to me as any ever taken by any of the world's explorers. The voyage that led Columbus to discover the New World couldn't have been any more thrilling to him than those daily trips were to me. No boy was I, but a man braving the angry gales of uncharted seas. India might be my goal, with its strange cities, burning sands and snow-tipped mountains. At other times, it was China or Japan. Or perhaps I was bound for Arabia, to bring back the fragrance of its spices. Yet, as I think of it, no spices of the Orient could ever be as fragrant to me as the perfume of a hawthorn hedge when in bloom, or the fragrance of a clover field with the early morning dew still upon it ministering to its conceit.

The Best In Music.

Music has always had a charm for me—especially the kind that gets my heart all worked up. I can understand how Irvin S. Cobb felt, that first Christmas Eve he spent in New York feeling so lonely and homesick, when he heard a street organ grinder grind out the strains of "My Old Kentucky Home." Having heard much of the best in music, and most of the world's greatest living artists, he still says that the music of that old organ, played under such circumstances, was the finest music he has ever heard—because, as he says, "Kentucky was my home."

I, too, have heard much of the world's best in music, and not a few of its greatest living instrumentalists and vocalists, for all of which, with its cultural value, I am deeply grateful. And while I can admire the technique of some operatic star as she is revelling in some celebrated aria, I am hickish enough to admit that it never means quite the same to me as when she comes back and sings for an encore, "The Last Rose of Summer," or "Home Sweet Home." It is then that "My eyes cloud up for a rainy spell." I am her willing slave so long as she is willing to ravish my heart with such music! Like Cobb, I can say, "That's the kind of music-lover I am, and I suspect, if the truth were known, there are a whole lot more just like me." Come now, cross your thumbs, and speak your piece! Having said all that, I return to Memory's Window, and wish I could lie on my back in some meadow and hear the song of the lark. That to me would be music at its best! I came near having such a thrill when I stood on the top of Mount Eden, near Auckland, New Zealand, said to be the most perfect extinct crater, and heard some British larks filling the air with their singing.

We Should All Go Back.

None of us can bring back the years and play with them as we used to do. But, you can, by the view from Memory's Window, have a lot of fun in thinking your way back. And, best of all, let us never forget that the future holds more of promise than the past holds of performance. Our best days—no matter how many good ones we may have had—are still ahead of us. If I couldn't believe this, life, for me, would be robbed of one of its chief charms. A great deal more than fifty per cent. of its challenge would pass out of life if I had any doubt about the reality and glory of the coming day.

Therefore, let us be of good cheer, even if we are getting on in years. Let us be nice old gentlemen and sweet old ladies since it is now impossible to be boys and girls again. Better and Brighter things are in store for us than the past has ever been able to bestow. All life is an investment! Dividends are as sure as anything can be sure in this universe. What if memory is sometimes slow to function, steps slow and feeble, and the back bent under the load of advancing age, we may still go on with a song! There is no reason that I can see why we should hang our harps on some weeping-willow tree. It will not lend any value to the harp even if it does no harm to the tree. If the sun is making the day sultry and thunder-clouds are overhead, it might be all right to use the tree for a shade—but for goodness sake let us make melody on our harps even if it must be on a minor key.

—Allan Fairbairn.

The Minister Remarks-

—With some people that tired look is only put on for effect.

—The man who tries to live by bread alone, sooner or later, suffers the dull ache of a starved soul and a frustrated life.

—Some people can keep a secret if they get enough friends to help them.

—Ambition is an urge that sends some along the road to riches and others to the penitentiary.

—There is one kind of popularity that is paying well to-day, viz: the kind that is paraded in popular songs!

—Starve your inner life, and as sure as you are alive you will one day suffer from shallowness and disillusionment.

—A. F.

If I Could Only Begin Again.

IF I were starting life to-day, enlightened somewhat by experience, my earnest prayer would be: "O Lord, give me sense to see that the best investment in the world is to be found in a serviceable, awakening, stimulating education—the development of a keen, lively, exploring mind, and a disinterested curiosity about life, and in cleanliness and rectitude of character."

—A. F.

On The Edge of a Discovery!

HOW true it is, and how blessed also, that we never can tell what a day will bring forth! To people of vision this adds a still greater charm to the art of living. Rob human life of its sense of mystery and you bring it down to the level of the beasts of the field. The man of sense finds it easy and exhilarating to believe that every morning is a birthday and every evening a time of judgment.

It is the break of day! Lying behind us is the darkness of the night covering the mistakes of the past, even as the blood of His Cross covers the multitude of our sins. A new beginning lies before us as we go forth to meet the unknown quantity in life. What it may hold of bitter or sweet; of pleasure or pain; of darkness or light; of success or failure—only God can tell. Testings are sure to be met: because such are necessary for the development of character. You may come suddenly upon the impossible. If you do, remember that Lord Kelvin has said that when we are up against an impossibility we are on the edge of a discovery.

When we feel our weakness, and contemplate our ignorance, would it not be well, ere setting out to meet the day's experiences, to put ourselves intelligently and unreservedly under the watch-care of of a loving Heavenly Father?

To reach the place of perfect satisfaction and realize the Divine purpose in human experience, we often have to face the disagreeable; but I still think it true that he is not worthy of the honeycomb who shuns the hive because the bees have stings. The way to health of soul, as well as the way to health of body, often holds some bitter medicine for us.

Keep this in mind and it may help you over many a rough bit of road! Like the woman of Samaria, we often stumble, unexpectedly, on some of life's greatest moments. It is often the case that many of life's largest opportunities wear the garments of the ordinary, and at first sight are apt to be mistaken for the commonplace.

If you have met Christ at the place called Calvary, and know Him now as your Lord and Saviour, pray for a deeper reverence; a clearer and more comprehensive vision; and a wholesome enjoyment of the fact that when you come up against a seeming impossibility you are on the edge of what may turn out to be the most wonderful discovery you have ever made.

—A. F.

Hypocrisy

WHAT if there are hypocrites in the church? What has that to do with you? Are you one? The truth has always been counterfeited; the genuine always imitated. No one has ever yet attempted to counterfeit a bad thing, if he knew what he was doing.

Jesus had a Judas among His followers, but He had eleven men true and faithful. To which company do you belong?

Hypocrisy is always sure of detection. Men may think they are deceiving those about them, but they are sadly mistaken. Hypocrisy always courts defeat. Slowly, and yet surely the man who strikes a false note and leads a questionable life will reap his harvest.

You say that you are stumbling over hypocrites. Then you pay a tribute to your lack of good common sense, for what sort of a man is he who stumbles over hindrances in the way that he can easily see?

Who art thou that judgest another?

Remember two or three things:

1. You cannot see a man's heart nor always detect his true spirit, nor see the tears that roll down his cheeks when he is conscious of failure.

2. Better throw the mantle of charity over men whom we know to be untrue. Leave them with God. He is more just than we.

3. Try to help them. There could be no greater victory than to turn some man who is untrue into the way that leads to life eternal.

—Dr. Chapman.

Be moderate in the use of all things save fresh air and sunshine.

Do You Agree

ANY law that can be easily broken is a bad law. Any tendency in life that is wrong, which is palliated and perpetuated by society, is unethical. Every one is agreed that we should make it easy for everybody to do what is right, and difficult to do what is wrong. That is, we should reward, by a natural automatic process, everything which tends to human betterment; and we should discourage, by withholding a reward, everything which tends to double-dealing, falsity, finesse, chicanery.

A Colored Critic

THE negro pastor was explaining to his dumfounded congregation how Pharaoh's daughter found Moses in the bulrushes.

"Yes, breddren and sistren," he said, "dere was littl' Moses in dat backet, wid dem wild cattle surroundin' him an' pawin' de ground.

"But Pharaoh's daughter was a brave gal. Forcin' her way through dem ragin' animals, she grabbed up littl' Moses, an' dat's how she done saved him from de bulrushes!"

Children's Corner — TELL US A STORY

A story is told of William Carey, the famous missionary, to show his perseverance when a boy, which is eminently characteristic of his entire life. When climbing a tree one day his foot slipped, and he fell to the ground, breaking his leg by the fall. He was confined to his bed for weeks; but when he recovered and was able to walk without support, the very first thing he did was to go and climb that tree. Carey had need of this sort of dauntless courage for the great missionary work of his life, and nobly and resolutely he did it.

SEARCH THE SCRPTURIES

1. Which scene in the Bible has been called "The greatest recognition scene in literature?
2. Which is the pivotal verse in the story of Joseph and his brethren?
3. What merciless cruelty was practiced upon Joseph?
4. Why did Joseph ask that his bones should be taken when the Children of Israel when they left Egypt? To whose lot did it fall to fulfill this commission?
5. What were the steps to the fulfillment of Joseph's dream as recorded in Gen. 37?
6. Of whom, and in what respect, is Joseph a type?

(Answers to these questions will appear next week.)

—Florence Young.

Something About Marriage

A man who marries a woman to educate her falls a victim to the same fallacy as the woman who marries a man to reform him. If you marry a woman who is not on your mental wire, you'll either go down to her level or you will live in a water-tight compartment and go to purgatory through mental asphyxiation.

R. M. GLOVER Managing Director.

SATURDAY, JUNE 8, 1929

THE SASKATCHEWAN RESULTS.

There are occasions when the war cry, "It is time for a change," is more effective than the most important of campaign issues, and this would seem to be the case in Saskatchewan where the apparently firmly entrenched Liberal Government was defeated at the polls on Thursday.

Saskatchewan has been under Liberal control ever since it became a Province in 1904, and with the opposition holding only nine seats out of a total of 63 when the Legislature dissolved, there did not seem to be a chance that the Gardiner administration would be unsuccessful in its appeal to the electorate.

No very important issues were featured during the campaign, but the "Time for a change" slogan proved fatal to the Government.

The result is not as decisive, however, as could be wished, for while the Government has gone down the Conservatives at the time this was written were not likely to have a clear majority in the new House, and Saskatchewan would seem to be in for an era of unstable government that may have to be terminated by another election.

THE CABINET HOLDS OUT.

Latest reports from Ottawa indicate that the Federal Cabinet is stoutly holding out against the demand for increased sessional indemnities, and there is not likely to be any change during the present session.

Evidently the Cabinet is able to judge public opinion much more accurately than the private members who are pressing for greater remuneration.

The Examiner does not believe that the people of this country favor paying 245 members of the House of Commons and 90 Senators the sum of $6,000 a year each to carry on public business.

The present allowance of $4,000 per session appeals to the man on the street as thoroughly adequate, and if more is to be paid the general verdict would favor fewer members.

The simple truth is that this country is suffering from a surplus of legislators, and if the latter continue to put a steadily increased value upon their services to the people the long-suffering public is going to call for a readjustment that will give us fewer and better lawmakers.

JASPER PARK.

There really should be a law against some of the publicity the Federal Government sends out at this time of the year advertising Canada's' beauty spots.

For example, a booklet issued by the Department of the Interior and describing Jasper National Park, which reached this office to-day, is exactly of the type that makes any reader want to desert his work at once and hit the trail for the West.

The publication is a work of art—handsomely printed, beautifully illustrated with superb photographs of surpassingly beautiful scenery, full of word pictures setting forth the advantages of this peerless playground, and containing maps that tell you all about where the park is.

If it is given wide circulation in the right places this volume should attract a record number of visitors to Jasper Park this summer.

As an artistic piece of propaganda it has been wisely planned and effectively executed, and the department is to be congratulated upon the style and character of the whole booklet.

But it is cruel to send such things to newspapermen, giving them a severe attack of wanderlust which there is no particular opportunity of gratifying.

THE NEW CABINET.

While there are some surprises in the personnel of the Cabinet announced by the Right Honorable Ramsay MacDonald, notably the inclusion as Attorney-General of William Allen Jowitt, elected last week as a Liberal, the general impression will be that the Labor leader has lined up a strong administration.

Philip Snowden, who again becomes Chancellor of the Exchequer, has long since won his spurs; Arthur Henderson, who is to hold the portfolio of Foreign Affairs, is one of the outstanding figures in the Labor party, and the selection of "Jim" Thomas will please nearly everybody, for few men in public life anywhere enjoy the confidence and popularity that are his.

The new place in political life enjoyed by women has been recognized by the choosing of Miss Margaret Bondfield, M.P., for the important post of Minister of Labor. Miss Bondfield thus becoming Britain's first woman Cabinet Minister.

Wedgewood Benn, John R. Clyes, Noel Buxton, George Lansbury and Tom Shaw, who have been towers of strength to the Labor movement, are recognized by ministerial appointments, and all in all the verdict will be that Mr. MacDonald's selections have been in the main wise and justified.

THE INFLUENCE OF ROTARY.

In welcoming Rotary International Dallas isn't just entertaining another trade gathering. The thousands who make up the Rotary delegations are leaders among leaders. Rotary picks for membership men who stand high in each community, not only in every line of business and profession, but as leaders in civic movements.

Scan the list of Rotarians in Dallas. Most of the names appear in the rosters of civic and philanthropic enterprises, on public service boards, in the highest councils of church and fraternity. So it is with Rotarians everywhere. And these delegates to the International are the foremost among such men in their own cities. So we say they are leaders among leaders.

One great thought already appears predominant among the leaders of these leaders as they enter on the Dallas convention. And it is not preparedness and the possibilities of the next war. It is ar emphasis on peace by the building of good-will among nations. It is not the building of suspicion and fear of one another by war thoughts, but the building of good fellowship by mutual enterprise. And Rotary is one excellent medium for such a program. Here gather representatives for 49 nations, each with some influence in his homeland. The thoughts and impressions developed in this gathering they carry back to leaven the lump of thinking, each among his own people.

Trade conferences will be held during the week. Better business practice will be encouraged. Social and entertainment functions will be enjoyed, thanks to the hospitality and talent of Dallas. But the great thing will be the cementing of friendships with the delegates from other nations, this evident approach to consideration of international relations from a friendly point of view by men who help to make and unmake political leaders. The influence of Rotary may be very far reaching and potent for world peace.—Dallas, Texas, Despatch.

CADET TRAINING.

(From the Woodstock Sentinel-Review)

The Ontario Labor Educational Association, at its convention in St. Thomas a few days ago, followed the example of several other bodies of a similar nature in passing a resolution expressing strong opposition to cadet training in the schools of Canada. There is nothing new in this, of course, but it is rather unfortunate that any body of citizens should have so great a misconception of the value to the youth of Canada of the cadet movement.

A few years ago one of the Woodstock school trustees strongly opposed cadet training in the Woodstock Collegiate Institute on the ground that it was "training a race of potential murderers," as he expressed himself at a meeting of the Board of Education. But, after a longer term on the board, and after taking a keener interest in the activities of the cadets, he was willing to admit that there was a great deal of good in the movement, and that it was worth while.

In that particular case, the school trustee had the courage to admit that he had been laboring under a misconception of the work and purpose of the cadet movement, and, after seeing the physical training given the boys, the training in discipline and self-control, and the attention paid to manliness in behaviour, he saw that cadet training was not so black as it had been painted.

Ignorance of the vital principles of the movement is at the root of all the opposition to it, and it would be well if those who are protesting against it would take the trouble to become thoroughly conversant with it before passing their resolutions.

THE STOCK TAX.

Canadian financial circles are genuinely alarmed by Mr. Robb's stock tax proposals which have already been passed by the Commons, accepted by the Senate, and are due to come into force on July 1. The effect of the proposals is to tremendously increase the taxation on transactions in low-priced issues, indeed to such an extent that many persons are likely to be debarred from trading or to make their purchases across the line where taxation of the same character is lower.

The representative of a well-known Canadian broker has prepared, for the Star, the following brief table which shows how several well-known stocks would be affected by the proposed taxation change. The table shows the old tax on the sale of 1,000 shares, the new tax and the rate of increase involved:

Stock				Old Tax Per Shares	New Tax Per Shares	Increase
Duprat	at	3	(N.P.V.)	.03	1.00	3233%
Argo	at	1	($1 Par)	.30	1.00	233%
Area	at	12	($1 Par)	.30	1.00	233%
Bathurst ...	at	18	(N.P.V.)	.06	1.00	1566%
Newbec	at	75	(N.P.V.)	.24	2.50	941%
Siscoe	at	66	($1 Par)	.30	2.50	733%
Amulet	at	66	(N.P.V.)	.36	10.00	2677%
Lake Shore .	at	23.00	($1 Par)	.30	30.00	9960%
Teck	at	8.25	($1 Par)	.30	20.00	6566%
Noranda ...	at	49	(N.P.V.)	14.70	30.00	104%

It is pointed out that purchasers of high-priced stocks are not affected so seriously by the increase. The blow falls on the "little fellow," the man who can only afford to buy issues of low valuation. Brokers with offices in the United States can get around the change by placing their orders through their American branches. It has even been suggested that the Standard Mining Exchange in Toronto seek an American or New York State charter and transfer its whole activities to Buffalo. It is admitted that this is a remote possibility, but certainly it is not impossible. In the House a week or two ago when the matter was under discussion, Colonel Malcolm Lang, a Northern Ontario Liberal M.P., denounced the new taxation proposals as calculated to work a definite injury on Canadian mining interests. He was supported from the Conservative side, but the finance department's proposals were accepted.

Back of it all, some persons say, is a belief in Government circles that steps should be taken to curb stock market trading, particularly by people of slender means. This, rather than a desire for more revenue, is set down by some critics as the administration's real reason for the move. If such be the case, one can only describe the action as overstepping paternalism. Surely people are to be allowed to use their own funds for investment or speculation as they see fit.

It was confidently expected that the Senate would throw out the proposal, and there were even suggestions that the Governmen would rather welcome such action in the Upper House. Predictions as to the Senate's attitude were, however, far astray, for the increased taxation on stock sales has been accepted and, presumably, will go into effect on the date set, July 1. Inasmuch as the Conservatives opposed the change in the House, a reversing vote in the Senate was more or less taken for granted. With a Federal election in prospect for next year, however, it may have been deemed good business from a party standpoint to allow the Government's plan to go through and thus create one more argument for the forthcoming campaign.—Border Cities Star.

EDITORIAL NOTES AND COMMENT.

Something like a political landslide seems to have occurred "By the Banks of the Saskatchewan."

Old Home Week is but three weeks away. And success seems certain as the big event draws near.

Even without a campaign Ontario seems doomed to have a deluge of political speeches this summer, with Mr. Bennett due to start as Mr. Sinclair winds up his tour.

It was thought that electing Conservative candidates in Saskatchewan was much about the same thing as electing Liberals in Toronto—but elections are like horse races in their uncertainty.

A Thought

EXAMPLES.

We cannot follow good examples without setting good examples.

News of Our Own Village

Some of our best dressers has been wearing ear muffs this week.

Jack Marshall, of the village paper mills, took the long hop down to Halifax, Nova Scotia, east of here, this week, where he represented the mill owners of this place at a get together. Hope Jack didn't forget to tell 'em about Old Home Week.

Rollie Denne, our worthy Mayor, is going to have his picture done in fireworks during Old Home Week. Rolly ougta be pretty well used to fireworks by this time, say we.

The main street picture show is going to show them new fangled sound pictures here beginning Mon. 100 per cent talkies aint exactly new here but we aint going to mention no names.

Business is so good down at the village Sea Horse Mill that H. Campbell figgers more hands will hafta be took on before long. The engines they is making now can be fastened on a plank or a wash tub or anything and it goes right away from there when you start the thing. The world do move, say we.

"I see where the village engineer sez the streets is to be well oiled by some fellows from Toronto," sez the Hall of Wisdom critic. "That's a kind of a change from seeing some fellows from Toronto well oiled on our streets."

Wedding bells was heard here several times this week, but otherwise the village has been peaceful.

Sandy MacTavish must be getting ready for Old Home Week. He got a dime changed the other day and asked for a nickel and some small change.

Geo. Macdonald, Rollie Denne, and Walter Stocker did a little ball playing here last Sat., but up to the present no pro scouts has asked for a interview.

What with the changeable weather and anything, Charlie Telford and other beverage fellows of this village, don't know whether to look for orders for cold drinks or lay in a line of hot dogs. Or both.

Your scribe is in a position to state that the pickerel caught in these waters can't be beat, owing to a fish being sent by a kind-hearted cuss whose heart was touched by the fishless state of said scribe. The address is still the same.

The village council put their foot down on a upstairs eating house for main street, the other nite. Everything has got to be on the level here, the way the councillors see it.

Several fresh coats of paint has been seen on main street this week — not counting tourist and native complexions.

They aint been no outdoor bathing this week, the young folks taking their swims, if any, in the family bath tub. This kinda thing aint right in June, say we.

—F. D. C.

Population Mobilized To Fight Locust Pest

SOFIA, Bulgaria, June 7 (C.P.). —Every man and woman between 16 and 80 was mobilized by the government at noon to-day to fight plauges of locusts which are destroying crops in the Haskovo district of Southern Bulgaria. Farms already have exterminated no less than 65 tons of the pests, but have failed to check the depredations.

RAT BITES INFANT.

BELLEVILLE, Ont., June 7. — Awakened by the screaming of her seven-months-old baby, Mrs. A. S. Newman, this city, discovered that a rat had bitten off the infant's second finger and severely injured his palm.

"I see where an eminent gent. says a kiss is an electric shock," says sentimental Cynthia, "and I'm not surprised seeing how much kissing is current nowadays." By Gettier.

The Tule Marsh Murder

By NANCY BARR MAVITY

Story of a Missing Actress and the Taxing of Wits to Explain Her Fate

THE STORY THUS FAR.

Don Ellsworth's wife, formerly the famous actress Sheila O'Shay, disappears leaving no trace. Dr. Cavanaugh the great criminal psychologist learns that their married life has been very unhappy.

Peter Piper a reporter on the Herald, tries to get an interview with Dr. Cavanaugh. Instead he meets Barbara Cavanaugh, the attractive daughter, and finds that she was engaged to Don Ellsworth before his marriage.

An unidentified body is found in the tule marsh outside the city. It has been burned by a fire in the marsh until it is unrecognizable except for the fact that it is a woman. Dr. Cavanaugh is called in to help with the identification. The only thing by which the body can be identified is a patch of scalp with some hair attached. Dr. Cavanaugh takes this home with him. He asks Don Ellsworth to secure for him a strand of Sheila O'Shay's hair, and Don violently refuses. Dr. Cavanaugh goes to the Ellsworth house to see if he can secure the needed hair.

CHAPTER 14.

Dr. Cavanaugh finished reading the caption under a cartoon on the open page of the magazine, smiled appreciatively, and returned the periodical with meticulous care to its place in the row on the library table. There was plenty of time to look at Mrs. Kane. He knew the embarrassing effect of a pause—already he had put Mrs. Kane on the defensive by forcing her to open the conversation.

When at last he looked up his glance was casual, with no effect of scrutiny. He saw before him a tall, heavy-boned woman, whose hair, shinily black like shoe polish, was drawn up from her forehead in a still sausage formation—the "pompadour" in vogue twenty years ago.

"Dyed," Dr. Cavanaugh inwardly commented. "Now why should she bother to dye her hair?—not for beauty, certainly."

Her skin showed a network of tiny blood vessels. Her cheeks and nose had a tight, red, shiny look, even as her hair was tight, black and shiny. That nose was the dominant feature!—a heavy beak overshadowing a sunken mouth.

"False teeth," Dr. Cavanaugh continued, his silent observations. "And put in far too late, after the gums had shrunken."

Mrs. Kane's dress, like her hair, followed an extinct fashion. It touched the ground with its dusty hem-binding of dingy black. The collar and cuffs were rumpled, and showed a faint brown line at wrist and neck.

"A visit to the cleaner's and the laundry would seem to have been indicated—not at all the attire to be expected of a servant in a millionaire's home." With all this, Dr. Cavanaugh's survey had been so brief and unobtrusive that Mrs. Kane was left with the impression that it was she who stared. It was a hard, belligerent stare, from small but by no means dull, black eyes.

"I won't take up much of your time, Mrs. Kane," Fr. Cavanaugh began courteously. "But won't you sit down?"

"I'm busy. Besides, I prefer to stand."

A dramatic old codger! Whoever first started the idea, firmly fixed in the cheaper sort of literature, that it was the thing to "prefer to stand" in the presence of an enemy? Had it an anthropological basis-readiness to give instant physical battle? Dr. Cavanaugh decided to look it up some time. Meanwhile, it had its disadvantages. It showed conclusively that Mrs. Kane was not merely indulging her usual forbidding manner, but regarded him definitely as an antagonist.

"Indeed? I should have thought your duties would be considerably lightened, in your mistress' absence," he remarked suavely.

"My duties concern myself. I believe you had something to say to me."

Dr. Cavanaugh had some difficulty in restraining his eyes from a fascinated attention to Mrs. Kane's mouth. The false teeth had indeed been installed too late. When she spoke, the upper set moved up and down beneath her lip, like a stage drop retreating and appearing behind a lifted curtain. But her manipulation was expert. The teeth moved with a gruesome independence, but they never quite fell out, and when she stopped speaking, the clamp of her jaws thrust them into place with a slight click. The necessity of this constant management gave her sentence a clipped, jerky brevity.

"Well, to ask you, rather," Dr. Cavanaugh amended, "Perhaps you know that Mr. Ellsworth came to me for advice when Mrs. Ellsworth—left?"

"Mr. Ellsworth didn't seem to bother much until the police got busy," Mrs. Kane remarked grimly.

"At your request, I believe."

"He made me mad. I don't say I had ought to done it, if I'd stopped to think. But when I asked him what he was going to do, he said, 'I druther not discuss it.'" Mrs. Kane's thin lips snapped shut, and Dr. Cavanaugh found himself waiting anxiously for the reassuring click. "He 'druther not' indeed." The voice rose harshly. "Well, there's other folks as has their druthers, as well as him. I've got my druthers, too, if you want to know!" As if realizing that she was opening too much of her mind to this stranger, she stopped. Her whole face seemed to shut down, to become an expressionless mask.

"I think you did quite right, Mrs. Kane. You showed excellent judgment."

The praise brought a momentary flash from the small black eyes.

"I don't know about that," she said grudgingly. Then the impulse to unload a 'piece of her mind' to a willing listener became too strong. "Fancy losing a lady like Miss O'Shay and paying no more attention than if it was a lost dog that you might enquire for at the pound when you got around to it! An insult to Miss O'Shay it was—her that's had lords of Europe waiting at the stage door for her, and princes begging her to take their strings of pearls, and risking what their king-dads would do, which would be plenty, if they ever found out. Twist them around her little finger, she would, in them days."

"You must have been with her for a long time," Dr. Cavanaugh ventured, in a voice from which he banished all undue curiosity.

But Mrs. JKane was instantly on guard.

"O, you needn't think Miss O'Shay was a has-been. She didn't have to take up with that millionaire whippersnapper because he was a last chance, not by any means! And wny wouldn't she leave him, if she had a mind to, I'd like to know?"

"She did leave him, then?"

"I know nothing about it." The click this time was clearly audible. With amused admiration, Dr. Cavanaugh recognized its effectiveness as a means of emphasis.

"Still," he mused, "She might not have meant to go. Did you ever notice in Miss O'Shay"—tactfully he avoided the title "Mrs. Ellsworth," toward which Mrs. Kane had shown such marked aversion—"any signs of eccentricity, of unstable mental balance?"

"You mean, was she crazy?"

"I should not put it so strongly, but that is the idea."

"If you doctors would learn to speak plain English, maybe fewer of your patients would die. If Miss O'Shay was crazy, I'd say it was her own business."

"Yes, it might be," Dr. Cavanaugh's tone was placating. "By the way, do you read the newspapers?" He shifted ground suddenly.

"Do I read the newspapers! I've kept Miss O'Shay's scrap book of clippings since—for years. And the books would fill a shelf as long as that,"—pointing to the book case behind him—"I'm telling you."

"Then you know," Dr. Cavanaugh's voice was still unhurried, but he was forcing the pace now. "That an unidentified body has been found in the tule marsh ,and that I have been aksed to aid in the attempt to identify it. I may be able to make that identification complete, if I can secure a hair belonging to Miss O'Shay. I came to ask if you will be so kind as to get it for me."

For an instant Mrs. Kane's eyes widened, showing a rim of white around the iris. The nostrils of her beak-like nose flared with the sudden intake of her breath. The network of veins on her cheeks stood out against the surrounding pallor like a miniature railroad map drawn in red ink. Her lips worked convulsively.

"I'll do nothing of the sort!" she said in a high, strained voice.

And then it happened—the thing for which every one who talked with Mrs. Kane watched with horrified expectancy. Those imperfectly fitted upper teeth fell out, and clattered to the floor.

"Oh," said Dr. Cavanaugh gently, "I'm sorry. Allow me."

His heavy bulk covered the space between them with incredible swiftness. He stooped to recover the ghastly white semi-circle and as he rose, the fingers of his left hand plucked, unnoticed, a long, auburn hair from Mrs. Kane's skirt.

(To be continued.)

Lyrics of Life

By Douglas Malloch

THE BANK EXAMINER.

The sun was shining bright and gay,
The world looked well in every way,
And thankful was the grateful banker,
No mortal being could be thanker;
But when he reached the bank he found
The bank examiner around,
And soon he saw this world so merry
Was in a sad condition, very.

He learned that gilt-edge mortgages
Are not what anybody says,
That all the people he had trusted
We're very likely nearly busted.
Whatever else you may infer,
Just ask a bank examiner—
Were headed for a most titanic
And universal business panic.

Oh, this would be a lovely land,
With blooming flow'rs on ev'ry hand,
A land of milk and also honey,
A world forever bright and sunny,
And ev'ry man a lucky pup—
If bank examiners cheered up.
But, if they did, though well-intentioned,
Things might result the way they mentioned.

(Copyright, 1929 by Douglas Mallock.)

LAUGHS FROM LIFE

First Kid: Rotten luck to-day, Walt. "Yeh, the old creek is about fished out."

LIFE'S LITTLE IRONIES.

"Say, old man, anybody ever tell you you're getting bald? Kind of a tough break because you're only about thirty-eight, ain't you? Thirty-two, huh. Well hot or cold, the old hair ain't what it used to be in back. Why don't you do something about it? Goose grease and turpentine might help you. I'm not kidding. Just rub some all over your head every hour or so and in six months or so you'll notice a lot of difference. Tell you what else ain't bad. Powd red alum, sulphur and lard. Just massage your head a few hours every day. Then, smear on a lot of that junk and it can't miss. The wife's uncle knows a guy who had a brother-in-law who was almost bald ten years ago. They say he's got so much hair now, he's tripping over it—all from using alum, sulphur and lard. He took some kind of hair treatments beside. You know, one of them X-ray lamps or something. Why don't you do that? It don't take much time—only a couple of hours a day. Thank Pete. I ain't never going to be bald. Have to get a hair out almost every week. I inherited it from my old man. He's seventy-nine years old and got a mop of hair on him like a sheep dog. Well, have to be running along. Glad I ran into you, Ed. Take care of that bald spot or the flies'll be using your dome for a toboggan. Brown sugar, iodine, vinegar and cod liver oil, mixed up together, would do your hair a lot of good."

SYMBOLS.

No need to ask the time of year
When clouds of bright baloons appear
And some surprising magic drapes
Geraniums from fire-escapes,
When benches in the park gleam new
And barges dust the river's blue,
And hurdy-gurdies weave old lays
Along a city's teeming ways.
No need to ask if it is spring
When hearts long mute are stirred to sing,
When feet once leaden strive to run
And shadowed faces seek the sun.
When youth goes most supremely mad
And age forgets that it is sad,
When, 'spite of all that reason spurns,
The dreamer to his dreams returns.

EDUCATIONAL FILM

Julius: I think those slow-motion pictures are tiresome.

Caesar: This isn't a slow motion picture. That is a view of a plumber working at top speed.

The police of Paris have the largest collection of criminal fingerprints in the world: it contains more than 1,727,000 specimens.

DULL SESSION TORONTO CURB

Waiting Attitude Assumed By Speculators Responsible For Inactivity.

NICKEL HIGHER.

TORONTO, Ont., June. 8. — (Canadian Press).—A waiting attitude assumed by traders to-day resulted in one of the slowest sessions on the Toronto Stock Exchange for some time. Even such leaders as Nickel, Massey-Harris and Ford were neglected. Nickel having a turnover of a little more than 600 shares, the price holding 1-2 points higher at 47½, as did Massey-Harris at 62¼. Ford eased a similar amount to 47.

A few shares of Gypsum and Alabastine were sold three points higher at 108 while Laura Secord advanced to 44, up 1½. Walkers improved ½ to 20¾ but Brazilian eased fractionally to 54½.

OIL SECTION LEADS TRADING

Definite Trend in Price Movements Fails to Appear at New York.

INVESTORS UNINTERESTED.

NEW YORK, N.Y., June 8.—(C.P.)—(By Stanley W. Prenosil, Associated Press Financial Editor.) — The stock market again failed to develop a definite trend to-day, price movements being extremely irregular throughout the brief session. There was little public interest in the proceedings, and the activities of professional operators were confined chiefly to a readjustment of speculative accounts.

A brief flurry of buying developed in the oil shares in anticipation of constructive developments at the Colorado Springs conservation conference next week. On block of 10,000 shares of Atlantic Refining changed hands at 70, followed by a further advance to 70 7-8, or within a point of the year's high. Pan-American B, Lago and Indian Refining sold 1½ to 2 points above yesterday's final quotations.

Weakness also developed in several of the motor and accessory stocks, Hayes Body breaking 4 points, Packard 3 and several others yielding a point or more. General Electric, Radio and American Tobacco B also yielded readily to selling pressure.

The closing was heavy. Total sales approximated 1,100,000 shares.

DOME

Dome Mines May production $109,518, or $1,798,568 for five months 1929, or $253,000 greater than same period of 1928. May figures bettered May 1928 by $108,831. Dome shares hold strong $9.50 to $9.75, and yield about 10½%. Gossip has it that when market is right, there is big New York pool in stock ready to shoot.

KING EDWARD HOTEL STOCK SHOWS GAIN

Advances On Toronto Exchange Following Report of New Merger.

OILS LEAD TRADING.

General List Holds Steady With Nickel Registering Slight Setback.

TORONTO, June 8. (C.P.) — Oil stocks supplied the bulk of trading in a quiet session on the Toronto Stock Exchange yesterday. The general list held steady however with a few stocks such as Massey-Harris, Steel of Canada, Canada Dredge and British American oils making pronounced headway. Nickel was very quiet, and in a turn over of less than 900 shares eased back 1-4 to 48 1-2.

Ajax Oil was the most active feature and climbed up 13 points to 1.25. McColl, which has drawn much interest during the past week, got up to 41, and then fell off 3-4 to 40. Home regained 50c to 23.50, while B. A. moved up 1 1-2 points to 47 3-4.

COMMENT ON THE MARKET

A Special Service to The Examiner.

Stock Values Down $3,001,409,3936 In May

NEW YORK—The values of securities listed on the New York Stock Exchange depreciated heavily during May, erasing the gains made during the previous months of the year. The losses by 240 representative issues, comprising twenty groups, amounted to $33,001,409,396, according to a compilation made by The New York Times, bringing the average down to a new low level for the year. This drop compares with an increase of $418,688,632 in April and with a decline of $142,963,331 in the values of the same stocks in March.

The railroad group was the only one of the twenty classifications to show an increase, due to the favorable decision on rail valuations handled down by the Supreme Court in the O'Fallon case. The greatest losses were suffered by the motors, off $835,736,950; the coppers, down $454,591,075; oils off $315,830,759, and the chemical group, down $310,510,031.

Revision of New Federal Tax on Mining Stock Transwers Likely

The Financial News Bureau hears in well informed quarters that there is likely to be a revision made of the new mining tax regulations at Ottawa. The new tax imposition on transfer mining stocks was put through the House rather hurriedly. It is reported that some members now are convinced that a serious mistake has been made and that with respect to many stock a penalty has been placed on trading on Canadian markets, if the new tax comes into effect.

The Federal tax imposition, as passed by Parliament, by a narrow majority, in face of strong opposition by certain prominent members of the Government, is held to be responsible in part of the declines that have taken place in leading mining stocks on the Canadian markets. Facing such heavy tax burden in future, holders of stocks have been inclined to liquidate before the tax comes into effect.

Furthermore, some Canadian stock exchange houses have already made arrangement to open offices in United States on more favorable terms. This would be a direct blow at Canadian business and would impair instead of benefit the government revenues. Obviously The Canadian stock transfer tax should be no higher than that prevailing in United States markets.

MINING BRIEFS

A Special Service to The Examiner

Kirkland Lake is the next in line. Officials of the Oriole Mines, Ltd., inform the Financial News Bureau that encouraging results are being secured in trenching now in progress on their option in the eastern section of this camp (Elstone Kirkland). Porphyry was shown in the fourth trench which was recently completed. The fifth trench, just completed, shows the same porphyry body, considerably oxidized, and this is being shot before sampling. In the meantime trenches Nos. 6 and 7 are being put in. Additional trenches will later be put in to the west over a distance of some 2000 feet, at which point the old workings are located.

A number of silver mining companies are said to have conducted examinations of the Smith Cobalt mines property at Cross Lake, adjjoining the O'Brien, and an important deal may be closed at an early date .These interests are said to include the O'Brien, two other northern Ontario concerns, and a New York company. Surface work is said to have disclosed encouraging results and one of the veins uncovered is belived to be a continuation of a vein which yielded considerable silver ore on the adjoining ground of the O'Brien.

Bullion recovery at the Central Manitoba Mines from April 1 to May 15 is said to run over $71,500. A new diamond drilling outfit has been purchased and is now on the way in. The mill is operating at 160 tons per day.

Two feet of high grade and four feet of milling ore is reported from a drift at the top of the new raise at the Kootenay Florence. It is now planned to remodel the oil plant for modern flotation process.

Development of the No. 9 vein on the 1,000 foot level of the Vipond is continuing, according to despatches from Timmins. Stoping operations between the 400 and 850 foot levels is said to be giving good ore across widths up to 15 ft. The mill is currently operating at a capacity of about 300 tons per day.

The first plane to come out of the Crow River field since the break-up is said to have arrived at Allanwater yesterday. Several men were carried out and brought first news of operations in several weeks. However, data on development has not yet come through to Toronto.

Canadian Kirkland is reported to be making good progress in de-watering their old shaft. When this is completed a close study of the geology in the shaft area, and also of the vein on the 85-foot level, will be made. This work will require several weeks to complete.

The special meeting of the West Dome Lake Mines to deal with reorganization and re-financing plans was postponed because sufficient proxies were not on hand. Directors were re-elected but the number was cut to seven. Since the mill started on January 8 some 14,308 tons of $5.54 ore were treated while the loss for the first quarter of the year was $5,000. May production amounted to $16,000 and with development work cut down a slight profit was shown. Broken ore reserves are shown at 3,100 tons and probable reserves at 24,129 tons.

In view of the favorable developments in exploration for zinc in the Sudbury area it is believed that an early decision with regard to the erection of an electrolytic zinc plant will be made. It was first thought that a plant of this type would be erected in conjunction with the copper refinery of Nickel-Smelters-Ventures but this was later denied. At present the nearest zinc refinery is in British Columbia while a small one will be erected by the Hudson Bay Mining and Smelting in northern Manitoba. In view of the fact that to date the bulk of Canada's zinc production has come from British Columbia, where the plant is located, the relation of zinc ores and refined zinc produced in Canada has been very favorable. However, if this is to continue the east must have a plant to take care of their production. Otherwise ores will have to be shipped to Belgium.

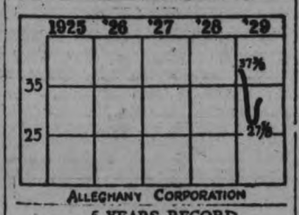
The Pacific ocean contains 668,634,000 square miles; the Atlantic 41,321,000; and the Indian, 29,430,000 square miles of water.

Big Hotel Merger Will Include Canadian Group

Merger proceedings between certain of the J. M. Bowman and United Hotel units, which was announced some time ago in these bulletins are making progress and it is expected that arrangements will be completer within three months. It is stated that J. P. Morgan and Company will be identified with the financing which will involve some $40,000,000. The King Edward Hotel, Toronto, probably will be identified with the new consolidation, as well as the Mount Royal, Montreal, Royal Connaught, Hamilton, Clifton, Niagara Falls, Tecumseh, London, Prince Edward, Windsor and Prince George, St. John, N.B.

While details regarding the consolidation have not been fully arranged and no official statement can be made as to terms, it is stated that a new issue of common stock will be made to holders of the junior securities of the merging companies on the basis of one share for each $4.00 of earnings and that the initial dividend on the new shares will be $2.00 per share per annum. As the King Edward Hotel earned approximately $16 per share in 1928, on the 20,000 shares outstanding, shareholders in this case would receive 4 shares in the new company for each share now held.

STOCK A DAY



ALLEGHANY CORPORATION

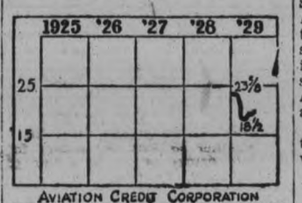
5 YEARS RECORD.

The Alleghany Corporation is an investment company formed on January 26, 1929, for the purpose of investing directly or indirectly in railroad securities, but it has the power to operate railroads or engage in the banking business. The corporation was formed by VanSweringen Brothers and will acquire from them at a cost of approximately $84,000,000 stocks in the following railroad companies: Chesapeake Corporation; Chesapeake and Ohio Railway; Buffalo Rochester and Pittsburgh Railway; the Erie Railroad and the New York, Chicago and St. Louis Railroad.

Funded debt totals $35,000,000 in convertible 5 per cent bonds due in 1944, which are convertible into 7 shares of 5½ per cent cumulative preferred without warrants and 10 shares of common, for each $1000 bonds. Capital stock outstanding includes $25,000,000 in 5½ percent cumulative preferred. Series A of $100 par and $3,500,000 shares of no par common. Of the common 2,250,000 shares are held by Messers Van Sweringen and associates. In addition 2,100,000 warrants are outstanding entitling the holder to purchase 1 share of common stock at $30 a share. No dividends may be paid on either preferred or common shares unless the aggregate value of the pledged collateral behind the bonds is maintained at 150 percent of the principal amount of the bonds outstanding. The preferred has voting rights only when 4 quarterly dividends are in arrears or if for 24 months dividends at no time have been fully paid when the preferred elects two directors.

It is estimated the income available for fixed charges based on current dividend rates of securities owned and interest at 4 percent on $45,000,000, the uninvested proceeds of the original financing. The balance available for commonstock after fixed charges is estimated at 48 cents a share. As of Jan. 26, 1929, total assets were $130,704,000 of which 46,636,047 was cash. Book value of the common amounted to $19,54 a share.

(Copyright, 1929, by the Bell Syn., Inc.)



AVIATION CREDIT CORPORATION

5 YEARS RECORD.

The Aviation Credit Corporation was formed under the laws of Deleware in January 1929, to engage in the financing of the sale of aircraft, motors and related accessories. Working arrangements have been made with leading airplane manufacturers among them the Wright Aeronautical Corporation, the Curtiss Flying Service Inc., the Keystone Aircraft Corporation and Travel Air Inc. The credit and collection details of the company's business are supervised by the Commercial Credit Company of Baltimore.

There is no funded debt. Capital stock outstanding consists of 250,000 share of no par common. There are 500,000 shares authorized of which 150,000 shares are under option at $23.50 a share until February 1, 1934 to underwriters, directors and others connected with the management. The stock was offered to the public at $23.50 a share.

No dividends have as yet been declared. According to the pro forma balance sheet of Feb. 4, 1929, current assets amounted to $1,000,000 in cash with no current liabilities. Net working capital was therefore $1,000,000. This balance sheet indicated a total book value of $100 a share.

(Copyright, 1929, by the Bell Syn., Inc.)

EXPANSION GREAT

Production and employment in Turner Valley doubled in six months. twenty wells produce naptha, twenty wells produce crude; payroll now about $4,000,000 yearly. Production value about $5,000,000 annually. Fifty new wells being drilled and production should double by end of year. These are interesting Turner Valley facts Sidney Norman of Canadian Mining World brought back to Toronto.

ANITA PAGE and KENNETH THOMSON in "THE BROADWAY MELODY"

AT THE CAPITOL ALL NEXT WEEK.

NEW YORK LIST IS IRREGULAR

Efforts To Extend Stock Recovery Meets With Increasing Opposition.

SPECULATORS UNEASY.

NEW YORK, N. Y., June 8. — (By Stanley W. Prenosil, Associated Press Financial Editor)—Efforts to extend the recovery in yesterday's stock market met with increasing opposition, giving price movements an irregular trend. Trading continued largely professional in character, with the outside public still in the side lines pending a further clarification of the credit situation.

Call money renewed unchanged at 7 per cent and appeared to be in rather more plentiful supply at that figure. Time money rates showed no change although an increasing volume of funds is reported as being loaned just above the 8 per cent level. Wall Street still fears a series of call money flurries later in the month, and this probably is keeping many speculators out of the market until after the turn of the month.

A wide open break in Commonwealth Power, which recently scored a spectacular advance to record high levels, had a disturbing effect on speculative sentiment in today's market. The stock, which registered a new high level at 218½ yesterday and closed at 212, broke from an early high of 213 to-day to 185¾. Renewed liquidation also developed in Radio Corporation on predictions of a relatively poor second quarter report.

CHEAPER ISSUES AGAIN ADVANCE

Ajax Oil Sags in Turnover of More Than Third of Total Sales.

ON STANDARD CURB.

TORONTO, June 8.— (Canadian Press).—Lower-priced stocks once more drew the limelight on the Standard Mining Exchange to-day. Ajax Oil accounted more than a third of the total sales, the price selling off 6 points to 1.24. Newbec in a turnover of more than 158,000 shares held unchanged at 66, while Amulet improved two cents to 1.34 and Big Missouri 4 to 1.46.

Noranda got down to 52.50 and then firmed 50 cents higher at 53.00, while Lake Shore moved up 25 to 23.50, and Sudbury Basin 20 to 8.40. Oils were generally steadier.

REGISTER

Of Social and Business Meetings

This Register is published to enable organizations planning major meetings to know in advance, and reserve evenings on which there are no rival attractions. It will pay Peterborough organizations to consult the Register prior to settling dates. Responsible officers should mail notices well in advance.

Before deciding a date for any event, consult the Register to ascertain that there is no conflict with other events—and then send in YOUR date quickly so that other organizations will not use it.

Auto Makers Issue Reports For Month

NEW YORK, June 8. (Special to The Examiner). — Automobile production during May was reported by several companies. All but one showed gains in output and shipments compared with the corresponding month of last year, also with the preceding month of the current year. Figures on Ford and Chrysler were published yesterday.

The Hudson Motor Car Company shipped 42,086 Hudson and Essex cars in May, a new high record for that month comparing with 32,450 cars shipped in May, 1928, an increase of nearly 34 per cent. In the five months ended June 1, Hudson shipped 194,570 cars, also a new high record, against 151,887 in the corresponding period of 1928.

The Packard Motor Car Company shipped in the five months ended May 31, a total of 22,487 cars, compared with 19,967 in the first five months of 1928, an increase of 2,520 cars. May shipments totalled 4,561 cars, compared with 3,706 in May, 1928. Production for the five months to May 31 totalled 23,398 cars against 22,214 in the same period of 1928. May production this year was 4,560 units, against 4,782 a year ago.

The Nash Motors Company shipped 12,117 cars in May against 16,066 in April and 1,342 in May, 1928, when the plants were closed down prior to the introduction of new models. May shipments brought the total for the first six months of the company's fiscal year to 71,194 cars against 39,401 in the like period of the preceding year, a gain of 80 per cent.

Graham-Paige set a new production record during the month of May with a total of 11,677 cars, surpassing the previous record of 11,550 established in the preceding month. For the first five months of 1929, Graham-Paige is 62 per cent. ahead of the same period last year, with a total of 48,51 units against 29,911.

The Marmon Motor Company shipped 5,221 cars in May, an increase of 174 per cent. over a year ago. Shipments for March, April, May, totalled 14,817 Marmon and Roosevelt cars, establishing the best quarter in the company's history. This compares with 6,893 units shipped in the same period last year, an increase of 115 per cent.

TURNER VALLEY SURPRISES

Easterners sufficiently intrigued by Turner Valley stories to pay a visit to field return home greatly enamoured with the outlook. Two of these, J. W. Callinan, well-known mining man, and Arthur G. Slaght, well-known criminal lawyer, took several reels of moving pictures when in the Valley and have hired a dining room in King Edward Hotel, Toronto, to show their pictures to the end that other Easterners will have some appreciation of the big development going on. They say millions will be made in Turner Valley company shares for those who buy and hold on.

There are some 176,000 miles of roads in Great Britain.

STUDEBAKER

WORLD'S LARGEST BUILDER OF EIGHTS

announces

The Dictator Eight

ONE HUNDRED AND FIFTEEN (115) INCH WHEELBASE

$1530

at Walkerville

Straight eight motor; 115-inch wheelbase; Steel-core safety steering wheel; Non-shatterable windshield; Adjustable steering column and front seats; Amplified-action 4-wheel brakes; Double-drop frame

STUDEBAKER'S New Dictator Eight is precisely what you would expect of the Builder of Champions. A worthy companion car to the World Champion President and the famous Commander. Champion quality is offered at a low price—possible only because Studebaker builds more eights than any other maker in the world.

In economy of fuel and oil this new eight rivals the thriftiest sixes. Performance is more satisfying than any other car at its price has ever provided.

This New Dictator Eight was developed on Studebaker's mammoth Proving Ground, by the same engineers whose genius endowed Studebaker cars with the ability to win and hold *every* official stock car speed and endurance record.

You who have always wanted a straight eight may now enjoy the silken smoothness of Studebaker straight eight power, its unhesitating traffic mastery, its flexibility and pick-up. The economy of operation upon which you have insisted will be yours, along with low initial cost.

Come in and see The New Dictator Straight Eight—drive it—today!

ASSIST DEVELOPING OF CIVIL AVIATION

Royal Canadian Air Force is Rendering Great Service for Nation.

OTTAWA, Ont., June 8.—(By The Canadian Press).—A type of enquiry with which the Royal Canadian Air Force has to deal is that pertaining to training for civil aviation. It is the policy of the Royal Canadian Air Force to assist the development of civil aviation. It does this by making service personnel available for civil companies and for the flying clubs. In addition, it trains flying instructors for the flying clubs and civil flying schools, and gives refresher and special flying courses for pilots actively employed by aviation companies and schools.

It is expected that this training will shortly be supplemented by the training of a Royal Canadian Air Force Reserve, courses being given in advanced flying, navigation, night flying, photography and other subjects designed to assist the training of persons engaged in civil flying.

Applications for instructors' courses, refresher flying and advanced aerial training must be made through the flying clubs or through civil aviation companies in whose employ such applicants are, or by whom applicants are definitely promised employment.

WHAT! LOUDER?

MARINE VOTES ARE APPROVED

Halibut Fishing On Pacific Is Discussed By House of Commons.

PROROGUE NEXT WEEK.

OTTAWA, Ont., June 8. (C.P.) — Estimates of the Department of Marine and Fisheries occupied the attention of the House of Commons yesterday. The marine votes were all approved. Progress was made with the appropriations for the fisheries, but a number of items still remained to be passed when the house adjourned at eleven o'clock. The last item under consideration was one of $31,500 to provide for continued investigation into the Pacific halibut industry by the International Fisheries Commission. Discussion on this item was unfinished, but Hon. P. J. A. Cardin, Minister of Marine and Fisheries, intimated that the government was willing to bring down legislation for the protection of the Pacific halibut fisheries when the United States indicated their readiness to pass similar legislation.

Predictions vary as to the date of prorogation, but it is generally conceded now that the House will not complete its work this week. The general impression appears to be that prorogation will take place about the middle of next week.

WEED INSPECTORS ARE APPOINTED

Wet Weather Causing Abundant Growth of Weed Crop.

The present state of the weather with its spells of heat and cold with abundance of rain produces a rich crop of weeds which the Agricultural Department has taken steps in the past few years to keep under control by keeping the noxious species cut, along the roads, beds of streams and drains, and have appointed men in each district as weed inspectors.

The following men have been appointed in this district as weed inspectors: Fred Dunbar, North Monaghan; J. J. Moore, Otonabee; Ed. Waters, Asphodel; T. H. Graham, Smith; Eugene Maloney, Ennismore; John McMurray, Sr., Douro; David Nixon, Dummer; James Freeman, Belmont; Stanley Bancroft, Harvey; J. J. Allen, Galway and Cavendish; B. F. Coons, Burleigh and Anstruther; Louis Post, Chandos; R. J. Webster, Lakefield; S. Southward, Havelock; and W. D. Lennox, Norwood.

In the City of Peterborough the weed jurisdiction lies within the powers of Chief Newhall, Chief of Police for the city.

London's police force now numbers 19,700 and 19,800, an increase of only 500 on the pre-war strength.

MORE LIGHTS FOR VICTORIA STREET

Matters Discussed at Meeting of Campbellford Light and Power Commission.

CAMPBELLFORD, June 8.—(Examiner Staff Correspondence.)— Business was brief at the regular meeting of the local Water and Light Commission held in the town office at five o'clock yesterday afternoon. As soon as the commissioners were all present and the opening routine disposed of, the matter of the damaged water front of S. S. Chappel's new stove was heard. It was decided that the damage had been done while the sewers were being flushed and that since the town officials had done the work, it was not for the Water and Light Commission to deal with the matter. The clerk was instructed to advise Mr. Chappel of this decision.

Mayor Davidson requested that one or two lights be installed on Victoria street. The request had been made to the council and they had recommended it to the commission. Another request was for a water main on Grand Road from the point where it ends at present to the corporation limits. The distance was not exactly known but it was only the matter of a few yards. A four inch pipe would be used and one new hydrant would be required. Both these requests were left with the engineer. He will report at the next meeting. A. L. Riendeau pointed out that there was a dangerous guy wire from one of the commission's poles on Rear street and he thought it should be altered. This was also left with the engineer to act upon.

At the close of the meeting a letter was read announcing the annual convention of the Electrical Utilities Association to be held at Bigwin Inn July 3, 4 and 5. After some discussion, Commissioner Riendeau and Mr. Scott, the engineer, were appointed delegates from the commission. The pay sheets and accounts were passed and the commission adjourned.

OBITUARY

MRS. JOSIAH BULLOCK.

LAKEFIELD, June 8 (Examiner Correspondence). — The death occurred on Friday of Mrs. Josiah Bullock, at her home on Queen Street, Lakefield, after a long illness. Mrs. Bullock has resided in this vicinity all her life, living in Smith Township until about twelve years ago, when she and her husband removed to the village. She was 88 years of age.

The funeral will be held on Sunday afternoon at 1 o'clock from the family residence to the Lakefield Cemetery.

GEORGE HAROLD JOHNSTON

The funeral of the late George Harold Johnston, aged 45, was held on June 1 at 2 p.m. from his home at Crawford's Grove to Little Lake Cemetery. The Rev. J. D. Paterson of All Saint's Church officiated at the service. The pall bearers were, Fred Dearborn, Fred Finnie, Bruce Johnston, Joseph Bell, Norman Moncrief and Gordon Deyell.

The late Mr. Johnston was a member of May's school board for a number of years.

JAMES WANNAMAKER.

TRENT RIVER, June 8 (Examiner Correspondence). — The funeral of the late James Wannamaker, who passed away on Wednesday, June 5, at the home of his daughter, Mrs. Sam Adams, Seymour West., was held on Friday afternoon. Service at the house was conducted by his pastor, Rev. W. R. Archer. Interment was at Polmont Cemetery.

Deceased was ill with pneumonia for a week. He made his home with his son Marshall, but had gone to visit his daughter the week previous to his demise. His wife predeceased him a few years ago. One daughter and one son survive — Mrs. Sam Adams and Marshall.

MRS. WILLIAM GRAHAM.

An old resident of Hastings passed away at the home of her daughter Mrs. George Whitred, in the person of Caroline Jinks, beloved wife of William Graham, at the age of 82 years, after an illness of six months' duration.

The late Mrs. Graham was born in Prince Edward County. Coming to Percy Township when just a young woman in 1869, she married William Graham, who survives her.

The funeral was held from the home of George Whitred to the Presbyterian Church, where the services were conducted by Rev. D. A. Thompson, thence to the Trent Valley Cemetery for burial. She leaves to mourn her loss, two sisters, namely, Mrs. W H. Ferguson and Mrs. R. Beaverstock, four daughters and four sons: Mrs. G. H. Douglas of Peterborough, Mrs. George Whitred of Hastings and Mrs. W. W. Stewart of Toronto; Clayton of Marmora, Charles of Hastings, John of Wellington, and Frank of Toronto. Three sons and one daughter predeceased her some years ago.

The pallbearers were: H. B. Wilson, I. Doonan, Harry Dodd, Alex. Brown, W. H. McMillan and George Richardson. Those attending the funeral from out of town were Mr. and Mrs. W. W. Stewart of Toronto, Mr. and Mrs. Frank Graham of Toronto, Mrs. T. H. Douglas and daughters, Eileen, Carrie and Erelle of Peterborough, John Graham of Wellington, Clayton Graham of Marmora and Cecil Whitred of Hamilton.

AFFECT OF SUNSPOTS ON PRECIPITATION

The Dominion Observatory, Ottawa, has recently commenced cooperative investigations of tree growth and forest fires with lumber and forestry interests. It is significant that, in certain localities of Canada, forest fires were numerous in 1923, a dry year at sunspot minimum, while they were relatively few in 1928, a summer of many rains at the maximum of sunspots.

DR. FRASER VISITS WARKWORTH LODGE

Masons Hold Big Night With Several Neighboring Lodges Attending.

WARKWORTH, June 8 (Examiner Correspondence). — Dr. Fraser, D. D.G.M., of Lakefield, paid his official visit to the local Masonic Lodge, No. 161, on Wednesday evening. Representatives of the Masonic Order from Hastings, Campbellford, Keene, and Colborne lodges were present, as well as a large number of local members. At the close of the meeting an excellent supper was partaken of, and many fine addresses enjoyed.

FLAG ISSUE IS BEING IGNORED

(Continued from Page 1).

will probably be seen that these seats will be the material factor in giving General Smuts his expected majority.

German Trade Treaty.

The other principal factor in the elections—the German Trade Treaty—is a specific demonstration of the independence gained by the Dominions at the Imperial Conference of 1926, and he has so been hailed by its supporters. The fact of Germany being the first country with which a trade treaty is concluded, is not in itself a material factor in the discussions, although the opponents of the treaty would have wished it otherwise. The vital point is that the Treaty gives Germany the benefit of any future preferences which may be given to Great Britain, and thus brings any extension of the Imperial preference system to an end as far as South Africa is concerned. Following so closely on the discussions as to whether the Union Jack shall be included in the flag of the country, this proposal has stirred South Africa to its depths, and General Smuts has promised that if returned to power one of his first acts will be to denounce the treaty, and render nugatory all its commercial clauses by refusing to enter into a customs agreement as provided for in the protocol. General Smuts has gone further and has promised to maintain the Imperial preference system and to do what lies in his power to extend trade within the empire. General Hertzog has announced that he takes his stand unequivocally on the resolution of the 1926 Imperial Conference, but the effect of the German Treaty is to force the empire issue to the forefront, and although Col. Cresswell described the treaty as "window dressing" his action in supporting it in parliament will doubtless have a marked effect on his electorate.

Incidentally the treaty raised a grave constitutional issue. The government, not having a majority in the senate, decided that the treaty was "purely administrative" and need only be submitted for approval to the popular house. The possibility of the government taking this line was realized when it omitted to submit the Kellogg anti-war Pact to the senate. On that occasion the South African party majority in the senate introduced its own resolution approving of the pact. In the case of the German Treaty it again introduced its own resolution, this time condemning it. The essential constitutional point was that the treaty provided for ratification by the "competent legislative authority", which in South Africa has hitherto consisted of the king, the senate and the house of assembly.

Choice of Color at No extra cost

A Special Show of Motor Car Color Designs

The smartness and distinction of your chosen color design—at no extra cost. Come to our Special Color Show and see the great variety of color combinations from which you may choose.

In performance as in style the finest Oakland ever built

IN distinctive appearance . . in beauty and individuality . . in these the Oakland Olympic Series Six obviously outstrips all earlier Oaklands. And that is not all. Owners will tell you that in performance . . as well as in style . . the Olympic Series is the finest Oakland ever built.

For this latest Oakland leaves nothing to be desired in snap and getaway. Because it is powered by a 228 cubic inch engine equipped with such features as a large, highly-perfected carburetor, including an accelerating pump, and a gasoline pump instead of a vacuum tank. But along with spirited action it offers those other characteristics of a really fine automobile . . unbroken smoothness and silence . . undisturbed balance and poise.

A special demonstration will reveal the advanced type of performance which the new Oakland Six provides. This is a demonstration which you should receive before buying any car at or near Oakland's price. If you will come in . . or call for an appointment . . we will make the demonstration for you at any time.

LOCAL THEATRE MADE READY FOR TALKIES

LONG HERALDED TALKIES READY AT THE CAPITOL

(Continued from Page 1)

much to distract the attention, cause undue disturbance and spoil the whole effect of the talking pictures.

Alterations Made

Although built to accommodate the silent dramas of the films, the Capitol Theatre has been remodelled to receive the intricate apparatus of the "movietone" machines. Large horns are set up behind the proscenium arch on the stage and the screen has been moved forward nine feet to accommodate them. Many lengths of wire have been relayed from the projection rooms to the stage, and each connection has been minutely inspected so that no halts may impair the success of the production.

Every seat in the theratre has been removed and carefully oiled and adjusted so that not the slightest squeak may interfere with the conversational pictures.

It is interesting to note that the everyday telephone is the immediate ancestor of these talking pictures. Authorities tell us that it was while engineers of the Bell Telephone laboratories in New Yorok were making a careful study of the ways in which speech is produced—so that they might discover the best methods of transmitting and reproducing it—that they developed the successive steps which have led up to the newest thing in moving pictures.

There are two different methods of making sound pictures. The first is known as the "disc" method. With it, the sound is recorded on a wax disc resembling an ordinary phonograph record, at the same time that the motion picture scene is being photographed.

With the second method—known as the "film" method—the sound is photographed by means of light variations on the side of the film itself. Both these methods were developed by the Bell Telephone laboratories for the Northern Electric and associated companies. Warner Brothers were the first to be licensed to use the disc method in making their "Vitaphone" presentations, which they introduced to the motion picture world in the fall of 1926. A few months later, the Fox Case Corporation was licensed to use the film method, and the result was the "Movietone." More recently, Victor Talking Machine, Paramount Famous Lasky, Metro-Goldwyn-Mayer, Uniter Artists, First National, Universal, Hal Roach, Christie, Columbia Pictures, and Harold Lloyd have arranged to use either one or both of these methods.

Disc Method

Photographing and recording a scene by the disc method—that employed by Vitaphone production—is done in a motion picture studio equipped with special facilities. These include one or more microphones placed about the studio, out of range of the motion picture camera, but near enough to the performers to pick up the desired sounds of orchestra, speaker or vocalist. Soundproof booths house the cameras, so that no extraneous noises may interfere with the recording. When a scene is to be recorded, the camera photographs it while the microphones pick up the desired sounds.

These sounds striking the diaphragm of the microphone cause it to vibrate and these vibrations are translated into a fluctuating electric current which flows through wires to a control room. There the current passes through an amplifier system on to a recording device where the fluctuations of the current are changed into mechanical vibrations which are recorded on discs of soft wax.

To ensure that the picture and music or speech are perfectly synchronized the motors which run the camera and the turntable carrying the disc are made to run at uniform speed and in synchronism. These motors are started and gain full speed ahead together and continue to run together.

For the reproduction of this process in a theatre, the usual standard motion projector is used to run off the reels while a turntable is added for the record. These are both operated by the same motor. An adaption of the Public Address System, also manufactured in the same Telephone Laboratories as was the Talking Picture Apparatus, picks up the electrical vibrations from the reproducer, amplifies them, and by means of special loud speakers located in the theatre behind the screen, transforms them into sound.

Film Method

A process quite different from that described above is employed in making the sound-on-film productions. In these, both the motion picture and its sound accompaniment, whether vocal or instrumental, are recorded on separate films, and later the two are amalgamated onto the master film. This process consists in photographing the variations in light intensity on a film, and is accomplished by collecting the sounds to be recorded through the use of microphones having the property of changing sound vibrations into electrical vibrations, similar to the method in use with disc reproduction. These electrical vibrations are then amplified and in turn cause to vary the intensity of a recording light, which is contained in a glass tube inserted in the back of the motion picture camera in such a way that the vibrations in light intensity fall directly upon a narrow edge of the negative film on which the motion picture is also simultaneously being recorded. Aside from the fact that the motion picture camera is motor-driven and that it is connected by wires to the electrical recording apparatus there is little difference between the old method of recording and that in use today in a motion picture studio.

The presentation of a sound picture to an audience is, in effect, a reversal of this process. The standard film, containing both picture and sound in a photographic record, is run through a standard moving picture projection machine to which has been attached a sound reproducing unit. This unit includes a light that is reflected on to the sound record of the film. As this passes the light, it interrupts the constant light shining through it on to a photo-electric cell which changes the light variations back to electrical vibrations which, being too delicate to be heard directly, are amplified more than a million times and carried by wire from the projection booth to horns located behind the screen. From these the sound emerges clearly into the theatre.

MANAGER STEWART

Through the initiative of Manager Stewart of the local theatre, who brought to Peterborough the first talking pictures a short time after their installation in larger centers, the Capitol has been equipped with no less than three systems. These include the Movietone or film system, the Vitaphone, or disc, and a non-synchronous system which will be in use for the rapidly-decreasing silent films or for the playing of an overture as an orchestral opening or interlude. The pictures, of course, carry with them on the same film as the talking and acting, the musical score that accompanies the production, and thus the orchestras will be dispensed with entirely in picture theatres of the future.

Patrons attending the matinees in the future will be assured of identically the same program of music, talking and pictures that will be given at the night shows. Comedies and short films will be given, just the same as formerly, all being of a conversational variety.

Manager Stewart announces that a tryout of the Talkies, made yesterday morning, showed them as being perfectly satisfactory in installation and equipment. The Northern Electric Company, a subsidiary to the Bell Telephone Compang, had charge of the local installation, at a cost of over $20,000. The equipment also necessitates the employment of extra operators, two experienced men being required in constant attendance in the projection booth, which has been enlarged to take care of the extra equipment. A portion of the machinery used has also been installed in a small front room downstairs.

With the rapidly growing popularity of the Talkies, many of the favourites of the silent drama are "trying out" before the microphones of modern moving picture studios; some are finding that their face is not their only fortune and are now fast capturing the favour of their audiences by their voice no less than previously they did by their silent acting.

Above: We see June Collyer and George O'Brien, featured in Fox films examining the electrical recording device in their Hollywood studio. Behind them is the newest thing in screendom, the Movietone Recording Truck, which the Northern Electric Company is now supplying to its Canadian licensee producers for recording scenes for their news reels in various parts of the country. Left, the sound picture projector of today is a marvel of intricate apparatus but works as simple as sewing machine. Right, A section of sound film showing the sound track at the left which in this case recorded the sounds of an aeroplane in flight.

Capitol Theatre, introducing "Talkies," Monday, June 10th.

STORE MANAGER FOUND GUILTY

Owner of Jeanette Stores Fined $1,000 and 60 Days In Jail.

WIFE IS FREED.

TORONTO, Ont., June 8 (Special to The Examiner).—For disposing of goods which he had obtained on credit within six months of the filing of a bankruptcy petition, Charles Okun was yesterday sentenced by Judge Denton in chambers to pay the maximum fine of $1,000 plus a term of sixty days' imprisonment.

Accused was acquitted of five other counts, and his wife, Jeanette, was found not guilty by His Honor on all six counts, preferred under the Bankruptcy Act.

"Seldom have I seen such a record of business rascality," His Honor remarked in reference to an attempt by the man to make a scoop or clean-up in October and the fact that proceeds of high pressure sales were diverted to accused's own use.

Discharging Mrs. Okun, Judge Denton remarked, "She was a mere tool in her husband's hands. She was occupied for the most part in the more important duty of motherhood."

The charges against the couple arose from the insolvency of the business known as Jeanette's Style Store, Limited, Yonge street, and George street, Peterborough, last November.

EARLY SETTLER PASSES AWAY

Thomas Thompson, Life-long Resident of Otonabee, Died To-day.

FUNERAL ON MONDAY.

The death occurred this morning at his residence, Hiawatha, of Thomas Thompson, one of the pioneer settlers of Otonabee. He was born in Roxboroughshire, Scotland on January 31, 1835, and came to this country with his parents at the age of eight years. With the exception of ten years spent in California, he has been a constant resident of Otonabee township.

The late Mr. Thomas was the oldest elder of Keene United Church and being very well known on the township he had a great number of friends and was an active person in all that interested Otonabee.

He leaves to mourn his loss his beloved wife, Ellen McIntyre, also a life long resident of the district, and three children, Peter on the homestead, Mrs. Howard Smithson of Otonabee and Mrs. T. A. MacDonald of oTronto.

Two of his family predeceased him the late Colonel C. G. Thomson, D.S.O., and Mrs. William Whittington of North Monaghan.

The funeral will take place from his late residence, Hiawatha at 2 o'clock on Monday, proceeding to Keene United Church where a further service will be held at three o'clock. Interment will take place in Keene Cemetery and the Rev. Mr. McNeeley, pastor of Keene United Church will conduct the services.

WEDDING BELLS

WATT—WHYTE.

The marriage of Muriel Ruth, only daughter of Mrs. W. K. Whyte and the late Mr. Whyte, to Mr. William Watt, of Toronto, eldest son of Mr. and Mrs. William Watt, Peterborough, Ontario, took place quietly on Monday evening, June 3, at the residence of the bride's mother, St. Joseph Boulevard, Montreal, Rev. T. Roy officiated. The house was decorated throughout with spring flowers and ferns. The bride, who was given in marriage by her brother, Mr. Melville Whyte, wore a frock of beige georgette crepe, a maline hat, and kid slippers of the same beige color. She carried an arm bouquet of pale pink roses. Both bride and groom were unattended. Later Mr. and Mrs. Whyte left by boat for Toronto, where they will take up residence at 51 Spruce Court Apartments, Spruce Avenue.

FINIGAN—FALLIS

Miss Marjorie Ethel Fallis, daughter of Mr. and Mrs. Ernest J. Fallis, of Bethany was married to Mr. Harry M. Finigan, son of Mrs. Gertrude Finigan Toronto, in St. Stephen's church, Toronto, at 3.30 o'clock this afternoon, Rev. J. E. Ward officiated. The bride's father gave her in marriage, and she wore a gown of bridal satin with veil of net and Chantilly lace, arranged in a cap of pearls with orange blossoms at either side. Her bouquet was a shower of Ophelia roses, orchids and lily-of-the- Valley. Miss Gertrude MacGillivary was maid of honor, in an ensemble of green lace and georgette, and the bridesmaids were Miss Elsie Fellows and Miss Shirley Fellows, the former in pale blue and the latter in pale pink. All wore hats to match their gowns and carried nosegays. Little Miss Eileen Bradley, cousin of the bride, was flower girl, carrying a small shower of roses and forget-me-nots. Miss Irene Baker sang and the best man was Mr. J. W. Shaw. Mr. O. D. Guthrie and Mr. S. Simmonds were ushers. After a reception at the Grey Gables tea room, the bride and groom left for a motor trip to New York and on their return will live at 255 Glebeholme boulevard.

OBITUARY

JERRY McCORMACK

The death occurred at noon to-day in St. Joseph's hospital of Jerry McCormack, 223 Woodbine avenue, after a short illness. He is survived by his sorrowing wife and family.

The funeral will be held on Monday morning at 9 o'clock to Immaculate Conception church and St. Peter's cemetery.

MRS. DUNCAN GAUL.

The funeral of Betsy Webster, beloved wife of Duncan Gaul, 494 Bolivar street, took place to-day at 2 p.m. from the family residence to Little Lake cemetery. The Rev. William Allan, of St. Paul's church, officiated at the services.

MRS. HANNAH ROSE.

The death occurred at an early hour this morning at her home, 489 King street, of Mrs. Hannah Maria Rose, relict of the late Stewart Rose, after an extended illness.

Mrs. Rose was born in the Township of Smith, March 24, 1855, and was the daugther of the late Cuthbert Branch. In January, 1882, she became the wife of the late Stewart Rose, and for many years lived in Smith Township, removing to the city forty years ago, where she resided until her death. Left to mourn her loss are one sister, Miss Laura Branch at home, one brother, Joseph Branch, of Los Angeles, California, two daughters, Eva, at home, and Jean of Winnipeg; and two sons, William of Peterborough, and Burritt, of Guelph, Ont.

The funeral will be held from the residence of her son, W. L. Rose, 265 Rubidge street, on Monday afternoon, at 2.30, to Rae's cemetery Lakefield.

The average area of an American state is greater than the combined area of England and Wales.

HAMILTON HAS VERY CLOSE CALL

Large Case of Dynamite Drops From Truck On To City Streets.

FAILS TO EXPLODE.

HAMILTON, Ont., June 8.—(C.P.)—A section of this city narrowly escaped destruction to-day when a case of dynamite fell from a big truck loaded with the same high explosive, but failed to go off. The truck was passing the intersection of Hess and York streets when a large box fell from the end and split open. Sticks of dynamite rolled in every direction around the roadway.

Bystanders noticed the mishap, and some one realizing the nature of the cargo, notified the police, but before an officer could arrive, the driver had gathered up the explosives and proceeded upon his way.

An immediate enquiry has been ordered by the Deputy Chief, and efforts are being made to trace the vehicle. It did not carry flags as is required for cars bearing explosives.

Police declared that had the dynamite which fell to the pavement exploded, the whole load would have gone off and wiped out the most densely populated section of the city.

NEWS IN BRIEF

(By Canadian Press)

NOT OPPOSE NEW MINISTER.

PRESTON, Eng., June 8.—Liberal leaders here have resolved to allow secession to Labor of their newly elected member of Parliament, William A. Jowitt, to pass without fuss and not to demand a new election. It was realized here Jowitt would be re-elected in any event.

SHOT DOWN AT DOOR.

NEW YORK, N.Y., June 8.—Called to the door of his Bronx apartment early to-day, Jack Firmin, 25 years old, was shot and killed by a man who had announced he was a private detective investigating a burglary to a store owned by Firmin.

The motive for the killing is unknown to the police.

INFANT FOUND IN BOX.

BROCKVILLE, Ont., June 8.—Dr. C. F. McPherson, coroner, Prescott, has ordered an inquest to be opened at Cardinal this afternoon in the case of a male new born infant whose body, wrapped in a newspaper and resting in a shoe box, bearing a Montreal label, was found yesterday in a culvert on the road leading from Cardinal, about 200 yards from the village. The infant had been dead for perhaps two days, Dr. McPherson asserts.

First Registrations For Old Home Week

The first registration for Old Home Week which starts on June 29 has been received by The Examiner. To Mr. and Mrs. Frank M. Brown goes the honor of being the first to register for this great event in Peterborough's history.

Mr. and Mrs. Brown are residents of Penticton, British Columbia, where Mr. Brown is a fruit grower. At present the couple are the guests of Mrs. Dunlop at 550 Water street of this city.

It was forty-seven years ago that Mr. and Mrs. Brown left the city and it is 29 years since their last visit to Peterborough. In that space of time they have noticed some remarkable changes and a wonderful improvement here.

How I Was Freed of Hemorrhoids

after 25 years of suffering

"I had protruding piles or hemorrhoids for over twenty-five years," writes Dr. H. S. Hussell, Graduate Veterinary Surgeon, of Upper Chaslo, N.B. "I bought medicines from all parts of the world and went under the knife twice—at Portland, Maine, and Sherbrooke, Que. I had spent hundreds of dollars and was about to go to the hospital at Campbellton, N.B., for another operation, but was in such a weakened condition that the doctor advised me to wait a few days.

"My wife happened to pick up Dr. Chase's Almanac and read about someone being freed of piles by using Dr. Chase's Ointment. I got a box, was so much better next day that I ordered three more boxes. In one week I was able to resume my practice. It is now four years since I have felt any effect of the piles, so I feel justified in believing the relief permanent."

Dr. Chase's Ointment is the standard, time-proven treatment for piles or hemorrhoids. Dr. Hussell's experience is similar to that of many thousands of people who have been positively freed of piles by this soothing, healing, antiseptic ointment. All dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto, Canada.

OPEN-AIR SERVICE.

Conducted By Touring Army Crusaders At St. George's Church.

Members of the Trinity Centre of the Church Army Crusaders, in Toronto, paid a visit to the city this week and gave an open-air service last night at St. George's church. The group, which was in charge of Captain Morley of Toronto, included cadets Wall, Bewley, Baker, Wheeler and Ayland, and while here they received a visit from the Rt. Rev. J. R. Lucas, D.D., Warden of the Toronto Traing Centre.

These young men, who are in training for the same type of lay missionary work that is carried on by the Church Army Crusaders in England, represent the vanguard of a movement that has only recently been established in Canada.

Starting from Toronto on May 9th, they treked by slow stages through the district around Lindsay and Omemee. They walk at all times, pushing their wagon which contains necessities such as a gasoline stove and cooking utensils and the tents in which they sleep at nights. While here they camped on St. George's church grounds.

They go from here to Lakefield and then to Young's Point, where they will hold an open-air meeting on Tuesday. They will spend two days of next week in Havelock. Their missionary tour ends in August at Smith's Falls.

PERSONALITY IS LEADING FEATURE

(Continued from Page 1)

constructive spirit, preparing for peace and all it entails is more difficult than preparing for war," he added. "Speaking French and English the Canadian can live in two worlds and thereby enrich his life in having a second atmosphere through coming in contact with French culture. The presence during generations, of the French in Canada opens our eyes on events in France and in the Latin civilization."

Canada, which had no need of a channel to unite the French and English-speaking of its population, offered the spectacle of inter-penetration of two civilizations. "Canadians know the Americans better than the French or the English; they are the natural intermediaries," he said. "There is a modern American influence in Canada, and the English and French traditonal influence. The Dominion is holding an even keel."

MODERN PIRATES' LOOT

LONDON, June 7.—Down below the level of the Thames river, near Billingsgate, is the king's warehouse. Rolls of silk, jewelry, liquor, tobacco, drugs, musical instruments and thousands of other articles which are valued highly are stored here. These articles have been seized by custom officials as they were bebing smuggled into the country.

MISS MAUD SMITH WINS GOLF TITLE

Defeats Sister By Two Up in Nip and Tuck Battle.

BRANTFORD, Ont., June 8.— Miss Maud Smith, of Toronto, is Ontario's women's golf champion for 1929. In the final match of the Ontario Ladies' Golf Union, played on the Brantford Golf and Country Club course yesterday afternoon, she defeated her sister, Miss Cecil Smith, also of Toronto, by two up in a nip and tuck fight. The fact that the championship was between members of the same family, as last year, when Miss Cecil won, did not detract from the class of golf played.

RUNNERS BATTLE FOR DERBY LEAD

Granville Continues To Hold Sixth Place As Race Nears Finish.

GILA BEND, Ariz., June 8.—(C.P.)—Three husky runners in the Pyle New York-Los Angeles race, continued a battle for leadership in to-day's 45 mile run to Aztec.

Johnny Salo, Passaic, N.J., who had a lead in elapsed time of one hour, 26 minutes and 19 seconds, and his nearest rival, Pete Gavuzzi, England, finished yesterday's 47.2 mile jaunt in a tie for second place behind Giusto Umek, of Italy.

Umek is third in elapsed time.

Pat Harrison of Miami, Ariz., finished in fourth place and Herbert Hedeman, 55, the oldest of the runners, was fifth.

The elapsed time standings:

John Salo, Passaic, N.J., 447:15:14.

Pete Gavuzzi, England, 448:11:33.

Guisto Umek, Italy, 463:21:38.

Paul Simpson, Burlington, N.C., 498:42:36.

Sam Richman, New York, 485:21:33.

Phillip Granville, Hamilton, Ont., 523:45:35.

M. B. McNamara, Australia, 40:50:04.

W.M.S. MEETS.

Temperance Is Subject of Address Given Knox Women.

The monthly meeting of the Women's Missionary Society of Knox Church was held on Thursday afternoon in the church parlors. The meeting, which was devoted to the subject of temperance, was in charge of Mrs. Roy Laing and Miss Hazel Huffman. Mrs. William Watt presided. The meeting opened with the singing of a hymn, after which Mrs. W. McDonald led in prayer. In a discussion which followed it was decided to hold a meeting in July, and to entertain the members of the Mission Band at tea. Mrs. R. Johnston and Mrs. J. McCurdy were appointed to take charge of the arrangements. The Watch Tower was in charge of three heralds, Mrs. McCurdy brought a message on the subject of Temperance, Mrs. Carter a message from India, and Mrs. R. Johnston a message from Truro, N.S. Mrs. C. H. Edwards delivered an interesting address on the subject of Temperance. The speaker emphasized the importance of education, the effectiveness of prayer, and the potency of the vote in the cause of temperance.

Mrs. Spicer rendered a solo, and Mrs. J. E. Moore contributed a reading. Rev. William McDonald closed the meeting with prayer. Refreshments were served and a social half-hour spent at the close of the meeting.

ARE GIVEN GREAT SEALS OF OFFICE

(Continued from page 1)

ments. In order to qualify for their ministerial salaries they will have to give up their present incomes and the expenditure entailed in high office will more than offset any difference. Rt. Hon. J R. Clynes, Home Secretary, Miss Margaret Bondfield, Minister of Labor, and Rt. Hon. J. H. Thomas, Lord Privy Seal and Deputy Leader of the House, will have to sacrifice their salaries as Trades Union officials.

Presumably also Rt. Hon. J. Ramsay MacDonald, Rt. Hon. Philip Snowden, Chancellor of the Exchequer and Rt. Hon. William Graham, President of the Board of Trade, will have to forgo the incomes they now receive from writing for newspapers.

W. A. Jowitt, K.C., the new Attorney-General, has to make a great financial sacrifice in abandoning his practise at the bar which is worth $200,000 annually for an office which carries a salary of $35,000 per year with fees amounting to $80,000 per year.

On the other hand Sir John Sankey exchanges a salary of $25,000 per year as a Judge of Appeal for one of $50,000 per year as Lord Chancellor. His new position however, is considerably less secure than his old one.

Another interesting point is who will live at No. 10 Downing street, the Prime Minister's official London residence. Mr. MacDonald, it is known, is reluctant to leave his home in Hampstead and he may use No. 10 purely as an office. It is expected, however, he will spent his weekends at Chequers, the Prime Ministers country home, which is maintained by a trust fund, providing the Premier with a daily allowance while he is in residence there.

THEY'RE STILL LIVING

HONOLULU, June 8.—Holding a complete suit in a bridge game is not so rare, but the division of the remaining suits has been more or less split up between the three other players in the game heretofore. George B. Wason, however, recently held 13 spades while his partner held 12 hearts and one diamond. One of their opponents held 13 clubs and the other held 12 diamonds and the ace of hearts.

SEIBERLING ALL-TREAD TIRES

WEAR-PROOF TIRES FOR THE SPRING TOURIST

SPRING VACATIONISTS PREFER SEIBERLING ALL-TREAD TIRES, LOCAL DEALER DECLARES

The Spring vacationist, rarin' to take the open road these days, may cross the tire problem off his list, according to J. J. Duffus, of J. J. Duffus, Ltd., local distributors of Seiberling Tires. He needn't worry about tires if his car is Seiberling-equipped.

"Local motorists who buy tires on a basis of quality and service report that the new Seiberling All-Tread Tire is practically wear-proof, trouble-proof and worry-proof on the road," he declared. "There are many good reasons for the preference shown this year to Seiberling Tires. They're the last word in tire manufacture.

"Developed especially to meet the gruelling demands of the speedy, quick-starting, four-wheel-braked 1929 motor cars, the Seiberling All-Tread Tire is virtually proof against wear. Abrasion, the constant whirling off of rubber particles, that is the greatest part of tire wear, is reduced enormously by the use of a new Seiberling rubber compound—'affinite'—so called because it brings about a closer affinity between the rubber molecules. In laboratory language, it 'increases the efficiency of vulcanization,' thereby greatly adding to the wearing qualities of the tread, making it equal to the cruellest punishment that the modern driver can inflict. It's the modern tire for the modern car.

AND COSTS NO MORE THAN ORDINARY TIRES.

FIRE DESTROYS FARM BUILDING

Archie Campbell of South Verulam Suffers Heavy Property Loss.

DURING ELECTRIC STORM.

LINDSAY, June 8.—(Special to The Examiner).—During the electrical storm on Thursday the dwelling house of James A. Thompson, in South Verulam was struck and damaged slightly and the barn of Archie Campbell burned to the ground. Mr. Campbell was working in the field when the storm came and hurried to the stable. When the crash came both Mr. Campbell and his team were knocked down. He let the team out and ran back to release the third horse as the flames were creeping through the passage way. The animal was saved but the barn with contents, including 400 bushels of grain and all his farm implements, fell a prey to the flames. The insurance will not nearly cover the loss.

CATTLE, GRAIN, PRODUCE

RETAIL.

Fruits.

Bananas, 25-40 cents a dozen; 2 lbs., 25c; oranges, 23-60c dozen; navels, 25c to 50c dozen; Japanese tangerines, 33c doz.; lemons, 23-28c; doz.; grapefruit, 2 to 4 for 25c; layer figs, 10-40c lb.; table apples, 40-60c doz.; cooking dates, 3 lbs. 25c; Duchess apples, 35-60c. peck; Snows 75c peck; Russets, 60c peck; McIntosh Reds, 35c. dozen; Greenings, 60 cents peck; Spys, 60c-$1.00 peck; cooking apples, 40 and 75 cents a peck; cocoanuts, 10c and 15c each; grapes, 25c lb.; pineapples, 15-30c each; pomegranates, 2 for 25c; persimmons, 15c each; rhubarb, 5c bunch; strawberries, 30c qt. box; cherries, 60c lb.; watermelons, $1.25-$1.50.

Vegetables.

Potatoes, 14c peck; $1.00 bag; new potatoes, 3 lbs. 25c (large), five pounds, 25 cents (small), sweet potatoes, 3 pounds, 25c; carrots (old) 25c per peck; 10 cents bunch (new); cooking onions, 3 pounds for 25c.; green onions, 5 cents bunch; Spanish onions 2 lbs. 25c; cabbage, 5-15c head (old); 5c lb. (new); head lettuce, 10-20c each; Iceberg 10c each; bunch, 5c; parsley, 5c bunch; cauliflower, 25c each; tomatoes, 15-25c per lb.; hothouse tomatoes, 40-50c lb.; cucumbers, 5-20c; celery, 15-25c bunch; spinach, 2 lbs 25c; green peppers, 10c each; radish, 5c bunch; beets, 2 bunches 19c; Brussels sprouts, 15c a quart; turnips, 20c peck; parsnips, 40c peck; vegetable marrow, 15c each; mushrooms, 90c lb.; cress, 5c bunch; asparagus, 2 bunches 25c, 40c lb.; wax beans, 25c lb.; green beans, 25c lb.

Nuts.

Mixed nuts, 19-29c lbs.; shelled walnuts, 45c lb.; peanuts in shell, 20c. lb.; pecans, 50c. lb.; budded walnuts, 29-40c. lb.; broken walnuts, 49c. lb.; whole halves, 35-39c lb.; shelled almonds, 55c lb.; filberts, 15-35c lb.; Brazil nuts, 25-40c lb.; chestnuts, 39c lb.

Dairy Products.

Butter, creamery, 38 and 40 cents pound; pasteurized, 39c pound; dairy, 35-37c lb.; lard, 20-22c lb.; shortening, 18c lb.; eggs, 25-30c doz.; cheese, 25-35c lb.; honey, clover, 5 lb. pail, 59c, 10 lbs., $1.18; amber honey, 5-lb. pail 39-45c., 10 lb. 85-89c.; Beekist, 5-lb. pail, 75c; sections, 18-25c each.

Fish.

Hides and Wool.

Cow hides, 7-8c lb.; horse hides, $2.50-$3.00 each; veal skins, 11-13c lb.; lamb skins, $1.25-$1.50 each.

Hay, Bran, etc.

Hay, $16-$17 ton (baled), $16-$18 (loose); straw, $8-$10; bran, $24; shorts, $36 ton.

Hogs.

Live hogs, thick, smooth, $12.00 cwt.; select graded, $12.50; dressed hogs, head on, $19.50; head off, $20.50.

WINNIPEG GRAIN.

WINNIPEG, June 8. — Profit taking wiped out gains of 1-2c to 1 1-4c in the first hour of trading on yesterday's wheat market, but prices firmed up again at the close and closing quotations revealed net gains of 3-8c to 1-2c for the day. Trading was mostly local in character and the early bulge in prices was largely due to the strength displayed at Liverpool. Export business was comparatively small.

Grades Nos. 2, 3 and 4 wheat were well bought by United States millers in the cash market. Prices were unchanged to 1-4c higher.

Activity in barley featured the coarse grains. Part of this buying represented export business while some of it was done by Eastern Canadian interests. Rye and oats were fairly active and prices held firm. Flax was featureless.

CHICAGO GRAIN.

CHICAGO, June 8. — Faced by heavy selling to realize profits and by indications of a bumper harvest in Kansas, wheat prices yesterday lost all of a new advance. Earlier yesterday the wheat market had risen to above any recent top level with big buying stimulated as a result of attention to farm relief developments and because of suggestions from important sources that with Government support wheat would perhaps go as high as $1.75 a bushel or even $2.

Closing quotations on wheat were unchanged at the same as Thursday's finish to 1-4c lower. Corn closed at 1-2c to 7-8c net advance; oats unchanged to 1-4c up; and provisions unchanged to a rise of 12c.

Kansas Crop Estimate Up.

Decisively setting the course of the wheat market backward for at least the time being, were unofficial but authoritative estimates which were received near the end of the day's trading, and which indicated that Kansas is about to harvest a yield of wheat 40,000,000 bushels more than late. The total output of Kansas wheat this season will be 173,500,000 bushels according to these estimates, and will be hardly 4,000,000 bushels less than last year.

TORONTO LIVESTOCK.

TORONTO, June 8.—Continued light supply in the cattle division of the live stock market at West Toronto allowed of a clean-up at the close of the week, which was an improvement from a movement standpoint, but there was no improvement in the price situation.

Light butcher steers sold a quarter higher in spots than last week, but very few showed the top of 11¼ cents on Wednesday, and Thursday's offering was too light to make a market. Steers 1,000 to 1,200 pounds were draggy at steady prices, with bulk of choice showing 11 to 11½ cents per pound. Top for butcher heifers was 11½ cents, and both steers and heifers ranged downward to 8½ cents per pound at the low. Best butcher cows were steady, but medium kind sold at a slight decline at mid-week, thin cows selling as low as 6½ cents per pound in spots, with canners and cutters at 4½ to 5½ cents. Good bulls sold 50 cents per cwt. lower than last week at 7½ to 8½ cents per pound, and bolognas were off 75 cents per cwt. at 6½ to 7¼ cents per pound. About 250 baby beeves offered during the week; they sold steady on Monday at a range of 10½ to 14 cents per pound, but Wednesday's sales showed baby beeves at a range of 9¾ to an extreme 13½ cents, or a quarter to a half lower for the week.

Volume of calf receipts was practically even with that of last week at around 3,100 but demand showed marked improvement, and prices advanced a cent to a cent and a half per pound in response to reports of stronger markets at Buffalo. Export movement recovered, accounting for 1,200 head as compared with 700 last week. Choice veal calves sold in the recovery at 13½ to 14½ cents per pound, with tops at 15 cents, with medium to good veals at 11 to 13 cts. Thin grassers brought 7½ to 8 cents per pound.

There was an increase of 400 in the supply of sheep and lambs as compared with last week. Lamb trade was slow and easier on Monday, but last week's levels were recovered later and good lambs closed at 18, with choice at 19 cents per pound, with thin lambs at 12 to 13 cents, a few from last year's crop selling at the latter price spread. Sheep prices were unchanged, clipped sheep, plain to good, selling from 2½ to 6½ cents per pound, while 7 to 7½ cents was paid for best wool sheep.

Hog supply for sale at the yards was 1,200 heavier than last week at 4,900, and billed through receipts showed at 1,250, an increase of 800. Prices were unchanged at 12¼ cents f.o.b. and 13¼ cents off cars, for selects. This was the packers' bid at the opening, and was accepted more readily than last week. No bids for week end loading were made. Arrivals by truck were fairly heavy, amounting to 1,300 hogs in the week. Select hogs off the road sold at 13 cents per pound.

TORONTO PRODUCE

TORONTO, June 8.—A stronger price tendency was evidenced on the local wholesale butter market this week, and prices recovered toward the latter part of the week to 36c per pound for No. 1 finest creamery and 35c per pound for No. 2 grade.

The recent fine weather has had the effect of materially increasing production throughout the Province, and fairly large shipments arrived at the market from all country points. The demand has continued to be steady, and supplies comfortably filled all requirements of the trade. Large dealers are of the opinion that the price slump of the past few weeks has finally reached the bottom, and that prices appear firm at the present levels.

The cheese market was decidedly more active this week, and the price of No. 1 large, colored, parafined and Government graded was stronger at from 18¾c to 19c per pound.

Egg prices were slightly easier in the local wholesale egg market this week, and receipts continued to be quite heavy despite the warmer weather, which should curtail production to some extent. Dealers are of the opinion that the cause of of this continued heavy shipping is that eggs are not being stored at country points as freely as they have been at this season of previous years.

Quotations to country shippers for ungraded eggs, delivered and cases returned, are as follows: — Fresh extras, 27c per dozen; fresh firsts, 25c per dozen, and fresh seconds, 22c per dozen.

SOCIETY MEETS.

Mrs. Sidney Armstrong Hostess To Members of Bethany Church Society.

BETHANY, June 8.— (Examiner Correspondence.) — The Women's Auxiliary of St. Paul's church met at the home of Mrs. Sidney Armstrong on Thursday afternoon.

Mrs. (Dr.) Hamilton, secretary, and Miss Emily Preston, treasurer, gave very satisfying reports. Mrs. Armstrong, who was a delegate to Toronto to the W. A. convention at St. Anne's parish hall, also gave a most interesting report of the convention.

Sewing was then done by the ladies for the next hour, after which Mrs. Armstrong, assisted by Miss May McGill, served dainty refreshments and a social hour was enjoyed. The next meeting will be held at the home of Mrs. Johnston Morton on the first Thursday in September, as there will be no meetings held during July and August.

PRESENTATION MADE.

W. P. Plant Honored By Members of Hastings Church A.Y.P.A.

HASTINGS, June 8 (Examiner Correspondence).—On Monday evening a number of the members of St. George's A.Y.P.A. paid a surprise visit to the home of W. P. Plant on the occasion of his birthday, and presented him with an electric reading lamp and a beautiful bouquet of roses, accompanied by an appropriate address read by Cyril Blackbourn. The gifts were presented by E. Radford and N. Dainard.

Mr. Plant replied suitably, thanking his many friends for their kindness.

Cobourg

COBOURG, June 7.—Found guilty of "breaking in" John and Lawrence Howell and Leo Brown were placed on suspended sentence for twelve months by County Judge L. V. O'Connor on Saturday morning. The three youths, who come from Port Hope, were also ordered to get immediate employment and to report once a month to Chief of Police T. Murphy at Port Hope.

Crown Attorney W. F. Kerr prosecuted and J. B. McColl defended. The fourth member of the troupe, Victor Little, also of Port Hope has not been located to date. All the goods stolen have been recovered with the exception of these believed to have been taken by Little. The youths broke into a Bewdley hotel and a number of summer cottages in the vicinity, where they stole a quantity of fishing tackle.

In placing the young men on suspended sentence, His Honor, reprimanded them severely for their act and cautioned them to go carefully in the future.

There are about 1,000,000 square miles of lake and river surface on the land, and 1,910,000 square miles of island in the seas of the earth.

Good-bye, Flies and Mosquitoes!

Unless you're a Flit user, you have no idea how soon you can rid your home of every fly and mosquito. Flit kills quicker, and is easier to use, in the handy Flit sprayer. Spray into cracks and crannies to kill roaches, bed bugs, ants. Flit vapor does not stain. Try the quicker Flit method today!

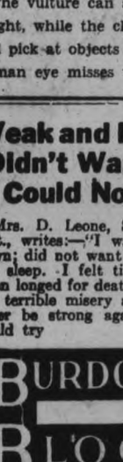
CHAMPION

SPARK PLUGS

Insure better performance on the tour



To enjoy carefree motoring and superior performance during the summer touring months, install a complete new set of Champion Spark Plugs now.

New spark plugs every 10,000 miles improve the power, speed and acceleration of every engine, and actually pay for themselves in gas and oil savings alone.

Champion is recognized by every standard as the better spark plug, and has merited over a long period of years the proud privilege of outselling throughout the world. It is by virtue of perfectly plain and easily recognizable structural and operative superiorities which are readily apparent, that Champions excel and outsell wherever spark plugs are used.

The exclusive sillimanite insulator is the finest known to ceramic science, and remains unusually free from carbon and oily deposits.

Special analysis electrodes are practically impervious to pitting and burning, while positive, paralleled, sparking services insure a fixed spark gap. Champion's exclusive two-piece, gas-tight construction is your assurance of the finest performance in today's high-compression engines.

There is a type and size Champion Spark Plug for every engine. Just one spark plug is *right* for your engine. Consult your dealer and he will recommend the plug which will exact from your motor the utmost in performance. Champion Spark Plug Co. of Canada, Limited, Windsor, Ontario.

FINAL MEETING MISSION CIRCLE

Good Program Provided By Members of George Street Church Society.

WILL PRESENT PLAY.

The last meeting of the Twilight Mission Circle of George Street United Church before the holiday season was held on Thursday evening. The girls assembled around the supper tables at 6 p.m. and enjoyed a social hour. Afterwards the business meeting was held in the board room of the Sunday school hall, with the president, Miss Helen Burns, in the chair. After singing a hymn, the Lord's Prayer was repeated in unison. The minutes of last meeting were read by the secretary, Miss Aileen Clark, and approved.

Mrs. W. H. Morton led in a discussion of plans for the autumn activities.

A resolution was passed that the Circle put on a play and a committee composed of Mrs. Morton, Misses Evelyn Miller, Lillian Stoneham and Helen Burns was appointed to arrange for same.

It was also decided to hold a tea, and have a sale of work, many of the girls being willing to make articles for same during their holidays.

A very interesting resume of the study book, "Drums in the Darkness," was given by Miss Vera Squire. Miss Dorothy Bamforth, late of Queen's University, who is spending her holidays at home, gave a splendid address on Mrs. Bamfield's work in Africa. Mrs. Bamfield will be remembered as the missionary from Africa, home on furlough, who spoke at the Mother and Daughter banquet in George street church and at the Presbyterial of W.M.S. held in St. James' church last winter.

The meeting closed by singing a hymn and repeating the Mizpah benediction.

This "Tweed" Steel STONE BOAT $12.00 Cash with Order

Delivered free to your station. Runs easily; very durable. Three steel runners underneath give added strength; won't rot like wood. Made of 3/16" boiler plate; angle iron around edge keeps stones from falling off. If not as represented, return and get your money back.

The STEEL TROUGH & MACHINE CO., Tweed - - Ont. Ltd.

Building Destroyed During Electrical Storm

LINDSAY, June 8. — (Special to The Examiner).—W. J. Patrick's barn and stables on the 13th concession of North Emily, were destroyed by fire, the result of lightning, which struck the buildings about four o'clock on Thursday. The buildings destroyed were situated about a mile and a half from the residence. With the efforts of neighbors the implements in the barn were saved and only a small quantity of hay and oats were lost in the fire.

Horoscope

The Stars Incline, But Do Not Compel

Sunday, June 9, 1929.
(Copyright McClure Newspaper Syn.)

Astrologers read this as rather an unimportant day in planetary direction, a time for rest and recreation.

Under this sway there may be apathy where church is concerned and a reluctance to hear sermons.

While the stars presage growth of interest in spiritual matters they indicate, also, a tendency toward practical reform movements, the seers declare.

Although the stars foreshadow great interest in education and surprising results from the year's work in schools and colleges this is a day when the cost rather than the attainments of students may loom large on the parental mind.

This should be a particularly favorable day for writing letters, especially those that have for their aim some business or professional ambition.

It is a lucky day for going over household accounts and adjusting the family budget.

The evening is a propitious time for entertaining celebrities or for associating with successful persons.

While this rule prevails the wearing of new garments should be especially effective, according to ancient lore.

Again the seers stress the return to feminine standards of beauty and even a surcease of restlessness on the part of the gentler sex.

All the signs seem to indicate that the pendulum of behavior is swinging backward to a more conservative and stabilized notch than at any time since the World War, astrologers declare.

It will be remembered that severe and unusual storms, tornadoes and earthquakes were predicted at the beginning of the year. The seers now remind dwellers on the Earth that the summer may be a time of extraordinary upheavals of nature.

Parts of the United States as well as Mexico, Venezuela and the West Indies may be subject to disasters from rains, winds and seismic phenomena, it is foretold with emphasis.

Persons whose birthdate it is, have the augury of a lucky year in which financial matters are satisfactory. Lending however, will be unlucky.

Children born on this day probably will be clever in the constructive lines of work rather than the creative. Girls who belong to this sign usually are exceedingly domestic in their tastes.

John Howard Payne, author of "Home Sweet Home" was born on this day, 1792. Others who have had this as a birthday include Robert W. Thompson, 1809, secretary of the navy under President Hayes; Sylvanus Thayer, 1785, famous American soldier; Henry Collins Bispham, painter.

Monday, June 10, 1029.
(Copyright McClure Newspaper Syn.)

Conflicting planetary influences are strong to-day, according to astrology, which reads in the horoscope certain adverse aspects.

The early morning worker should profit to-day when there is a sway helpful to initiative and promising for merchants and manufacturers.

All the signs appear to favor banks and banking. Many big combinations of capital are presaged by the stars.

Women as well as men will succeed as financial agents, it is forecast, and among the women a famous banker will develop.

This is not an auspicious day for women to push public affairs. Under this rule they are likely to arouse opposition on the part of men.

The seers declare that at this time the best and the worst of feminine traits will be revealed in the daily news.

Fame for good works will come to omen in legislative positions and in philanthropic activities, it is foretold.

In the swinging backward of the pendulum of modes and customs the best in manners and fashions is to be introduced, if the stars are rightly read.

This is not a lucky day to present letters of introduction or to bespeak attention from persons who wield power or influence.

Quests for employment or for better positions should be delayed until a more favorable rule of the stars prevails.

The conjunction of Mars and Neptune on July 3, is read as probably productive of deeds of violence and even terrible atrocities in foreign lands.

Again secret diplomacy and stealthy aggression are indicated in Europe where many troubles will be met in government affairs.

Persons whose birthdate it is, have the augury to a properous year in which there will be many temptations to ignore business for pleasure.

Children born on this day probably will be extremely gifted lovers of humanity and fond of travel. The subjects of this sign are usually eloquent and able to express exalted ideas.

Sir Edwin Arnold, author, was born on this date 1832. Minot J. Savage, noted clergyman, born in 1841, also claimed this as his birthday. Jean Joseph Constant, famous French painter, was born on this day, 1845, as was Gustave Courtet, another Paris artist who first saw the light in 1819.

NO APPEALS HEARD BY DOURO COUNCIL

Assessment Roll is Confined at Meeting Heeld on Monday.

The members of the municipal council of the township of Douro met at the town hall, Douro, on Monday, May 27, as a court of revision of the assessment rolls. On motion J. J. Leahy was appointed chairman.

There were no appeals.

The assessment roll was confirmed and council went into regular session for the transaction of ordinary business.

The minutes of last meeting were read and confirmed.

On motion of T. J. Fitzgerald and J. A. Crowe, insurance policy No. 102504 was renewed for one year, from May 20, 1929.

The treasurer was authorized to pay the following: A. J. Moher, salary as assessor and postage, $5.00; Clerk, postage, $5.00; Mrs. Brisbois, $37.50; J. B. Nelson, grant to school fair, $20.00; Jno. Callaghan, rebate of dog tax, $4.00; Globe Indemnity Co., insurance, $134.50.

Council adjourned to meet at call of Reeve.

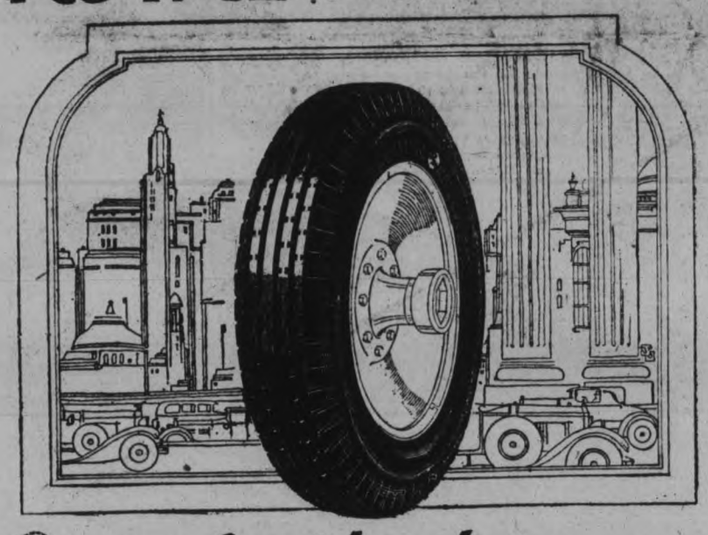
The ROYAL MASTER



Your family deserves this greater safety

SAFE, secure, confident, the family that travels on Royal Masters. Safe from blowouts and punctures—safe from trouble and inconvenience.

There have been accidents with ordinary tires — high speed — a blowout — flying glass.

Women driving alone *have* suffered hardships through blowouts or punctures in rainy weather, on muddy roads.

There is safety with Royal Masters, for yourself and family.

Not one in a thousand will ever puncture

Not one in five thousand will blow out under two years of service.

Built without regard to cost — with a double-thick tread — with extra heavy sidewalls — with an entirely new design and new structural principles, the Royal Master is without exception the best and the safest tire ever made.

It gives easier steering, due to narrower tread and less road contact.

—Greater safety, surer traction, surer braking, no side-slip.

—Silence — that means no suction — no lost power.

—Smarter style — adds distinction to the most luxurious car.

If you buy a car for only one year, Royal Masters will give you and your family that added safety they deserve.

If you buy a car for more than a year Royal Masters will give you safety, plus unquestioned economy.

This crest appears in gold on every Royal Master Tire

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred P. Averill, 136-12th Ave. Calgary, Alta., writes:—"I was bothered so much with my heart I could not sleep. I would waken up in the night screaming, and my heart would start pumping and pounding.

A neighbor lady told me to try

MILBURN'S HEART AND NERVE PILLS

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

When Food Sours

Sweeten the stomach—instantly

About tw ohours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drug store.

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright,
Where nothing stains the pleasure sweet,
Or dims the radiant light.
No unkind word our lips shall pass,
No savy sour the mind,
But each shall seek the common weal,
The good of all mankind.

MILLBROOK.

"Let all the sunshine possible circulate," is a slogan which some branches of the Women's Institute are using in respect to their homes —"the day when blinds were closely drawn to keep out the sur. lest there be faded carpets, or furnishings, is long gone past," being the added word together with an emphatic statement regarding intimate connection between sunshine and health.

A play, "An Argument in the Kitchen," which may be procured from the Dairy Department of the Dominion Government, is recommended as an instructive feature for some regular Institute program, as it has been successfully used by more than one branch. The suggestion that the Institutes of Ontario endow a scholarship in domestic science at Macdonald Hall, Guelph, is still being put forward, and gives evidence of the advancement in the knowledge of household economics, and the realization of its importance, which has come in recent years among the home-makers of the province. "That the real home-makers are all members of the Women's Institute goes without saying.'" Miss Ethel Chapman has been quoted as stating with emphasis.

A 'health competition' in the schools was conducted by the Institutes of one district in Western Ontario, when prizes were given the two healthiest boys, and the two most physically perfect girls, among the pupils in attendance. The school nurse and two doctors made the decision. It had a wide-spread influence, for the mothers had to bestir themselves to provide the right kind of meals with well-balanced menus, because the scholars made this demand in their homes, there being no lack of action, practical interest in winning the awards on the part of the boys and girls; the educative value to the latter in personal hygiene, and the practice of health habits in eating, exercise, proper rest, etc., was an outstanding feature.

"When a needy family in your community has to be clothed, let the seniors buy the material, and place the responsibility for the cutting, and making, upon the juniors," is a practical suggestion that might be adopted by almost any branch. "Many of the girls have now had training in sewing, under competent teachers, in connection with the various short courses held throughout the province; the Institutes have sponsored these, have given help, so why not reap a harvest when need arises? The girls will like to do the work, and, generally speaking, respond nobly when responsibility for a task is placed squarely upon their shoulders."

That Body of Yours

(By Jas. W. Barton, M.D.)

BEING WELL BORN.

One of the questions the insurance examiner asks is the age of your parents and the age of your grandparents when they died.

Why?

Because their experience tells them, that every things else being equal, if your parents and grandparents lived to good old age, that your chances of doing the same are better than those of an individual whose ancestors did not live to a good age.

Now why do the members of some families seem to live to a good age, and others pass away at or just past middle age?

Because in generations back certain ailments attacked families and communities and the ailment was fought off successfully.

In order to fight it off what are called antibodies were created in the blood, and these antibodies developed such great strength during the fight that that strength was handed down to the children and children's children, and as far as that particular ailment is concerned it cannot affect them again, or if it does, it is a very mild attack.

If then your ancestors fought off various ailments, and lived to a good age you naturally benefit therefrom and should therefore live to a good age also.

This accounts for the fact that you and I often see an individual who comes of sturdy stock who was "well born" who takes all kinds of chances with his body, drinks and smokes heartily and otherwise abuses his body, and yet he lives to a good age.

He of course is the exceptiion, but it is easily explained when we think of the reason.

However, where one inherits a strong body with this ability to resist infection, and lives also a normal healthy life, then there is an enjoyment in work, in play, in every activity of life that makes life full, complete.

And should you not inherit the strong body and ability to resist infection, then careful simple living with regular visits to the dentist and physician will enable you to avoid a certain amount of illness and be better prepared to withstand ailments that do attack you.

It is certainly a wonderful thing to be well born, but it is a most satisfactory thing to "know thyself" physically.

It's always two helpings now we use

HP SAUCE

Yes! Even the children know the difference the mellow, fruity, piquant flavor of H.P. makes. They eat up the cold meat readily enough now.

FAVORITE RECIPE.

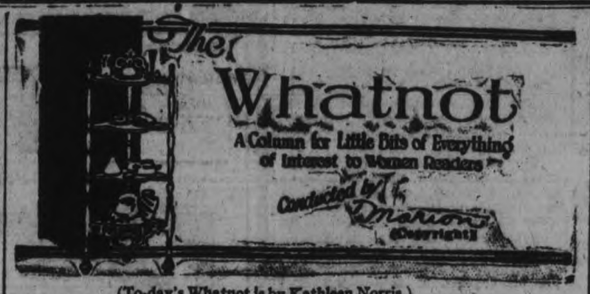
COCOANUT PIE.

(Contributed by "Maple Leaf.")

3 eggs, whites of two left for icing.
1 tablespoon corn starch, level.

Moisten with a little cold water and pour boiling water on it—about one cup.

1 cup sour milk.
½ cup sugar.
1 tablespoon butter, vanilla, salt.
½ cup cocoanut. Sprinkle cocoanut on meringue. Put in baked crust. This makes a nice cream pie without the cocoanut.



The Whatnot

A Column for Little Bits of Everything of Interest to Women Readers

Conducted by The Marionette

[Copyright]

(To-day's Whatnot is by Kathleen Norris.)

IF LIFE were indeed a stage, as Shakespeare more than once suggests that it may be, and if we were indeed no more than the players who strut through our little parts in the enormous drama,—then how often it would be a help and a satisfaction to go to some actress or actor, and suggest that he or she try a change of part, for a while.

* * *

How much healthier and happier every one of us would be, knowing just how it felt to be the Other Fellow!

* * *

Half the tragedy of modern marriage,—and modern marriage is both a Tragedy and a Problem,—would be done away with, if Jim could be in Mary's shoes for just one month,—for just a week,—no, for just one whole DAY every year!

* * *

How Jim's eyes would be opened, by that one bewildering day of being Mary!

* * *

For example, I know one Jim, whose name of course isn't Jim, who has a sweet, sensitive, not-too-brilliant wife, and five small children. The oldest child is 12 and the baby less than o ie year and although Mary usually has a good, general servant in the kitchen I need not say that these twelve years have been no picnic for Mary.

* * *

But instead of going into nervousness and thinness and illness with all this child-bearing, all this domestic burden, Mary has gone the other way, and has grown increasingly good-natured, easy and—alas! fat.

* * *

Jim makes a good living, is handsome, popular, sober, successful. But with all this smartness he never has thought ONCE, not for five minutes, what it would feel like to be Mary.

* * *

When anyone congratulates Jim on his five lovely children, he says jokingly, "Don't say a word, or Mary'll spring a sixth on me! When someone says that it is nice to see an old-fashioned wife and mother again, devoted to home and babies, Jim laughs; "Well, that's all a woman really wants!" Say and if Mary helps herself to more rice pudding, he will say jocularly, "Say lay off that stuff until you've worn out your new coat. Much more of that and you won't be able to get into it!"

* * *

All through the months before Mary's babies came,—and forty-five months are quite a slice out of her 35 years of life—Jim was casual about her physical discomforts.

* * *

Jim hasn't had OME MINUTE of that sort of thing, much less 45 months! Jim doesn't know—because he hasn't much imagination—what a hell life can be to the man who has a cold, pretty, beautifully-groomed childless wife, in the place of his pretty Mary. He doesn't know that the one reward Mary wants, for all her work and sacrifice and loving effort, is to have him praise her, have him loyal to her, have him PRETEND to understand her problem and her point—of-view.

* * *

Then there is the case of Harry and Helen,—when the shoe is on the other foot. Harry and Helen love each other, too; they have been happily married for more than six years. Harry makes a comfortable living in real estate.

* * *

Helen is "Daddum's" only daughter, and that's where the trouble comes in. Helen's mother is dead, and she and Harry and Baby Jerry live with her father, "daddums". Daddums is 48 and looks 35, one of the popular doctors of the small town. Daddums is handsome, vain, rich and he adores Helen.

* * *

Helen's mother left a small fortune for the girl in Daddums' charge, so between that, and Harry's modest income, and Daddums' practise, they have plenty of money. Helen lives for her father; she never put herself for one second into Harry's position and is a difficult position.

* * *

She sits next to Daddums at breakfast, and flirts with him. She interrupts Harry's most confidential conversations by starting up with an anxious "Is that Daddum's telephone?" She boasts about her father to everyone—Daddums is such a marvel, Daddums gave her the little car, she named Baby for Daddums of course.

* * *

Last summer and the summer before, she and the baby and Daddum went to the Lake for two months, Harry joining them for all but two weekends. Helen and her father swam, canoed, played tennis, tramped, danced like two young lovers. Everyone at the Lodge was filled with admiration for the handsome, Vandyke-bearded man and the lovely young matron. Everyone—except perhaps Harry, and he wasn't there very much, so it didn't matter.

* * *

Now Harry happens to have a little tragedy going on right under his eyes. There is a Russian-born stenographer of some 22 years in his office, and she adores him in a deep, passionate reckless fashion of her race. He knows it, too; at first he only laughed pityingly at the poor girl, who could not hope to cope with pretty Helen.

* * *

But Olga, is pretty too, and loving. She has the Russian art of understanding a man's loneliness and pride and hurt. Whatever Olga did or didn't do, as a wife, she would be kind, she would be considerate.

* * *

Beside that, there is, unknown to Helen, a stunning young grass widow, who is quite openly stalking Daddums. So that those of us who are mere onlookers, begin to feel that the old wheels in the mills of the Gods are still turning, and that another two or three years may see a great difference in the parts played by this little cast.

* * *

If her handsome father married, Helen would have to move out of that luxurious home over which she queens it now so complacently. And if Harry deserted her, suing for a divorce, and the right to marry again, she would rather suddenly learn exactly the worth of all the casual, surface admiration that she now takes for granted.

* * *

Sometimes life doesn't seem fair, and the Helens, or the Jims as in a case I first cited—seem to have all the advantage, to hold all the cards. But this sin't so. Time works her slow miracles and the selfish husband finds himself gradually ousted from his self-esteem, finds their patient, simple mother much nearer to the children, much happier and more needed than he is.

* * *

And sometimes the Helens, suave and sure and self-satisfied for a few accidental years, reach their level in a boarding-house, divorced, resenting Daddums' ridiculous infatuation for that preposterous woman, yearning always to get back to the flattering atmosphere that, without effort, they had for so long, and that, without fully sensing it, they have completely lost. And this is the time when they remember Harry, who was decent and gentle and generous for so many unnoted years.

* * *

If a mother could change roles with her puzzling, naughty child, just for a day, —if a teacher could get inside the head of her stubborn or unmanageable pupil, and understand, just for a few hours, what makes him stubborn and unmanageable, —if mothers-in-law had imagination enough, or memory enough to put themselves, in the place of their sons' wives, to remember the sensitiveness the tenderness, of young married life,—we should have a much pleasanter and happier world.

* * *

Meanwhile, when the next quarrel arises, in the nursery, or in the kitchen, or between brothers and between husband and wife, it might be an interesting experiment to stop for a minute in the war of words, and think—, think in some such phrase as this,

"I wonder what I'd feel if I were in your place."

IN WOMAN'S REALM.

By JEANETTE.

"O, every morn the winds are stilled,
The sunlight falls in amber bars,
O, every night the pools are filled
With silver brede of shaken stars.
O, every morn the sparrow flings
His elfin thrills athwart the hush,
And here unseen at eve there sings
One crystal-throated hermit thrush."

* * *

"A distracted parent. Two small boys. A wet afternoon. And to-day we have Talking Movies!"

"A hundred years ago the inmates of the nursery whiled away the hours with toys, which to us seem crude. One of these toys was called the 'wheel of life.' An instrument composed of a cardboard cylinder pierced with vertical oblong holes, through which when revolved, might be seen a series of pictures pasted to the inside walls in varied positions which, according to the speed of the cylinder, when rotated, gave more or less the appearance of a motion picture. In 1845 this 'wheel of life' was brought from Europe and immediately captured the hearts of the younger generation; and it would seem, older ones, too, since it became a custom for fathers (who were put to it for amusement of their children during dull wintry days) to apply their inventive genius toward the improvemen of this early moving picture machine.

"Dr. Coleman of Philadelphia, who had a bent for photography, was one of these. He invented the 'Kinematascope,' a machine somewhat resembling a butter churn. One afternoon he thought he would try to use his hobby as an amusement for his two boys, Junior and Horace. So he posed them in the nursery—one hammering a nail, and the other rocking in a chair beside his brother—and taking double exposures in rapid succession, achieved something of a success, though the results more closely resemble stereoscopic photographs than moving pictures. However, by pasting these pictures on paddles which were revolved inside of a circular tin box, the appearance of motion was given to the succession of photographs when viewed through a steresecopic hood placed above. This then may be considered as the first conscious attempt at moving pictures on this continent, and it is interesting to note that these two boys lived to see the realization of their father's dream.

"The solution of the whole problem was hit upon by the Reverend Hannibal Goodwin, who first used celluloid as the foundation for the photographic film. Later, two electrical giants in the youthful days of the great industry, Thomas Edison and Francis Jenkins, a young government clerk, actually staged the first exhibition of moving pictures, on June 6th, 1894.

"In his spare time Jenkins had been working away on a machine for projecting his moving pictures, taken on a narrow strip of film. June 6th found him in his own home town, carefully unpacking and setting up his invention in the jewellery store of a relative, where a few friends were invited to the showing. A notable feature of this first exhibition was, that some of the pictures were hand colored to add reality; so that he was not only the originator of an industry which has attained the importance of being fifth on the American Continent, but he was far ahead of his time in the technique of the industry to be."

The finest tea you can buy—Red Rose Orange Pekoe. Made from juicy, flavor filled leaves—three days in bud. Every package guaranteed.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good

Indigestion is a handicap to success!

THERE is nothing so insidious in sapping a person's strength as indigestion.

The inability to eat freely, the consequent lack of nourishment —pain, dizziness, nervous irritation — have proved a serious handicap to many people's success in life and made them old before their time.

Do you gain full benefit from your meals?

Even in cases of chronic indigestion, Dr. Williams' Pink Pills have brought relief to thousands of disheartened sufferers. By purifying the entire system and building up and invigorating the overtaxed nerves of the stomach, they correct digestive disorders in a natural way.

Buy Dr. Williams' Pink Pills now at your druggist's, or by mail, 50 cents, postpaid, from The Dr. Williams Medicine Co., Brockville, Ont. Send for Free Book "What to Eat and How to Eat".

"A HOUSEHOLD NAME IN 34 COUNTRIES"

No Other Cars in All the World Like These

THE Cadillac Motor Car Company invites every motorist to compare the newest and greatest Cadillac, La Salle and Fleetwood models with anything the automobile world can offer. Such comparison must reveal the indisputable fact that there are literally no other cars in all the world like these!

With the perfect synchronization of transmission gears effected by the new Cadillac-La Salle Syncro-Mesh Silent Shift Transmission, gear-shifting becomes an effortless and almost unconscious gesture, contributing immeasurably to the complete relaxation that motoring should be. The standard method of shifting gears is, of course, retained.

The latest and greatest Cadillacs, La Salles and Fleetwoods are lavish with a host of similar manufacturing refinements that go far deeper than mere outward beauty and are far beyond imitation.

New Cadillac-La Salle Duplex Mechanical System of Effortless Four Wheel Brakes, the most scientific, costly and efficient ever developed.

Security-Plate Glass, for your greater protection. New adjustable front seats, easily adjusted to suit the comfort of any driver.

Principles of pneumatic control engineered in chassis and body construction to assure maximum quietness. New rich modernity in finish and appointment. Chromium Plating, the new metallurgical treatment that assures permanent lustre of exposed nickel parts.

More powerful 90-Degree, V-Type, 8-Cylinder Engines — incomparably smooth and silent.

In addition to twenty-three refreshingly beautiful Fisher Bodies for the new Cadillac and the new La Salle there are fifteen exclusive and exquisite custom-built models, Fleetwood designed and Fleetwood built.

Cadillac-La Salle dealers welcome business on the General Motors Deferred Payment Plan.

THE SATURDAY MARKET BASKET

Prices this week are much the same as those of last week, and very few new arrivals have appeared on the market.

Home grown asparagus is quoted at 2 bunches for 25 cents, while other varieties are 15 and 20 cents a bunch. Strawberries are 27 and 28 cents a quart box.

Potatoes are quoted at 15 cents a peck and sweet potatoes are 3 pounds for 25 cents. New potatoes are 20 cents a measure. New cabbage is 5 cents a pound.

Hothouse tomatoes are 55 cents a pound and other varieties are 22 and 25 cents a pound. Cucumbers are varied in price, ranging from 5 to 15 cents each. Head lettuce is 10 and 15 cents a head and leaf lettuce is 5 cents a bunch. Radishes are 5 cents a bunch, and parsley is also priced at this figure. Green onions are 10 cents a bunch.

Oranges range in price from 15 to 50 cents a doen. Lemons are 27 and 30 cents a dozen, and grapefruit are 2, 3 and 4 for 25 cents. Bananas are 3 pounds for 25 cents and 25 and 30 cents a dozen. Apples are 50 and 60 cents a peck, and eating apples are 40 cents a dozen.

Celery is 15 and 20 cents a bunch, and celery hearts are 2 for 25 cents. Green peppers are 10 cents each.

Cauliflower heads are 25, 30 and 35 cents each. Cantaloupes are 25 and 30 cents each.

Yellow beans are 20 cents a pound. Pineapples range in price from 15 to 25 cents each, and watermelons are priced up to $1.50.

Carrots are 10 cents a bunch. Rhubarb is 5 cents a bunch and 3 for 10 cents. Spinach is quoted at 2 pounds for 19 cents, and cooking onions are quoted at 4 pounds for 25 cents, and Dutch sets at 20 cents a pound.

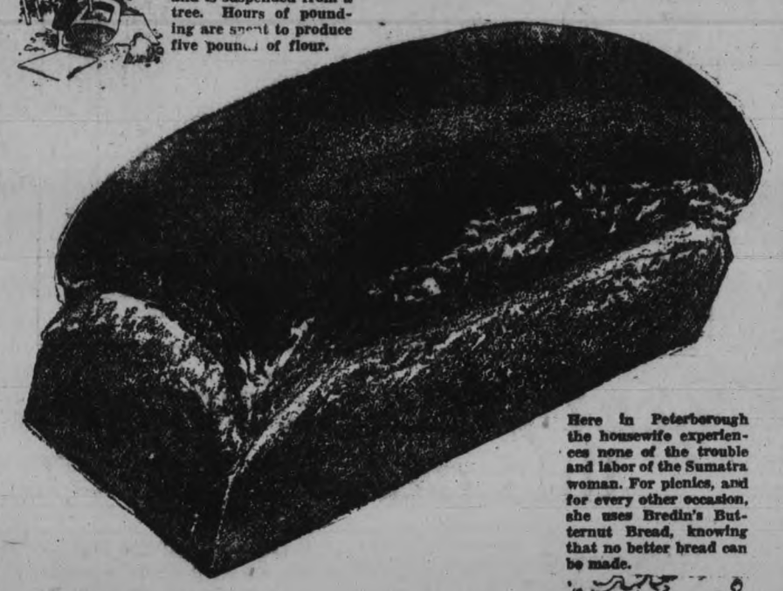
S-O-S

If you have a problem, or want advice, or a recipe, the neighbors will be glad to help out. Write to Marion, who will present your request.

"M.C." would like if some neighbor would send in a recipe for Rhubarb Wine. Will some neighbor respond?

BREAD BAKING IN OTHER LANDS

In Sumatra, meal is made in the primitive method shown in the illustration to the left. The beam used for pounding is very heavy and is suspended from a tree. Hours of pounding are spent to produce five pounds of flour.



Here in Peterborough the housewife experiences none of the trouble and labor of the Sumatra woman. For picnics, and for every other occasion, she uses Bredin's Butternut Bread, knowing that no better bread can be made.

We use Quaker Flour milled in Peterborough.

High Favor That's Won By Merit

PURE ingredients and sanitary baking methods and a famous old recipe have won the high favor that is accorded to Bredin's Butternut bread everywhere. So good that it lends its own delicacy and fineness to whatever else is served. Try a loaf to-day. Order it by name.

Mrs. E. Morrison, superintendent of the residence department of the Young Women's Christian Association, entertained last evening at the high tea given by her annually, in June, for the girls in residence and students who are finishing their scholastic year, also to a number of other invited guests who enjoy Mrs. Morrison's hospitality each year at this pleasant function. Ninety people were present and enjoyed a delicious repast at small tables laid in the green room and library. The large rooms and the reception halls were lovely with a profusion of white and Persian lilacs, and the some lovely white and mauve blooms, with rose tulips and bridal wreath, were in large glass bowls that centered the tables. The dainty color scheme was carried out in the floral fancies of the mauve and white place-cards and the mauve streamers which crossed the tables. During the progress of the High Tea, words of welcome to her guests were voiced by Mrs. Morrison and a number of toasts were honored. Mayor Denne proposed the toast to "The King," which was recognized in tradition fashion, while Miss Clara Doughty proposed the toast to "Our Guests," with a response by the Rev. D. Wren. The toast to "The Board Members was voiced by Miss Esther Deyell and Mrs. E. E. Harvey, acting president of the Y.W.C.A., made the response. In her brief acknowledgment of the compliments paid to the members of the Board for their unremitting interest in the affairs of the "Y," Mrs. Harvey spoke eloquently of the work done by Mrs. Morrison as "house mother" of the residence department, and of the untiring interest taken by her in the welfare of the girls, in sickness and in health. The development of a home atmosphere which was one of the main attractions of the local "Y" was credited to Mrs. Morrison's efforts in this way. Mrs. Harvey also spoke in eulogistic terms of the excellent work done by Miss Caroline Littlefield and Miss Leta Bronscombe and her assistant, Miss D. Sherin. The toast to "The Students" was proposed by Miss Bertha McConnell and responded to by Miss Jean Coates. An impromptu address which was given by Mr. Duncan Walker at the conclusion of the brief speeches, contained a reference to the manifold activities of the Y.W.C.A. and the good work in the community accomplished by it. Mr. Walker concluded his brief talk with a graceful tribute of thanks to Mrs. Morrison, to which a suitable acknowledgment was made by the hostess of the evening. A much enjoyed musical interlude comprised a vocal solo by Miss May Jory, with accompaniment played by Miss Musa Cox; an instrumental selection by Miss Cox; and a reading by Miss Mildred Lloyd, who responded to much applause with a humorous encore. Guests of the evening who joined the girls in residence in a delightful function were the Rev. and Mrs. D. Wren, Mayor and Mrs R. Denne, Mr and Mrs. D. Walker, Mr. and Mrs. V Eastwood, Senior, Mr. and Mrs. W R. Widdess, Dr and Mrs. W. D. Scott, Mr and Mrs. C E. Jamieson, Mr and Mrs. R T. E. Hicks-Lyne, Mrs. T N. Greer, Mrs E. E. Harvey, Mrs. G. N Gordon, Mrs. G E. Porter, Mrs. F Brownscombe, Mrs. N D. Buchanan, Miss Margaret Hamilton, Miss E. Morrow, Miss E. MacVannel, Miss L. Davidson, Miss A. Moir, Miss M. R. Rannie, Miss Cathleen McCarthy, Mr. M. H Park.

Miss Mary Kingsbury is celebrating a birthday anniversary to-day.

* * *

Miss Mary Allen of Douro is the guest of Miss Irene Garvey, Hazlett street.

* * *

Local people who heard Edward Murch, boy soloist sing at Trinity Church last summer, will be interested in the following excerpt from the writings of Lawrence Mason in the Toronto Globe: "The Spartanburg Musical Festival was held on the 15th and 16th at Spartanburg, South Carolina, for the thirty-fourth year. This is one of the leading events of its kind in the United States, so it is pleasant to find one of Toronto's gifted young artists announced thus in the program: 'A unique and special feature, new and entirely original with Spartanburg, is the engagement of Master Edward Murch, America's greatest boy soprano.' He sang an aria from the "Creation", with organ accompaniment, and four songs with piano accompaniment, at the children's afternoon concert, when a school children's chorus of five hundred voices also sang. Edward Murch youngest son of Mr. and Mrs. W. Murch, Toronto, has been boy soloist at Grace Church, New York, since last fall, where Redferne Hollinshead, also of Toronto, is tenor soloist. Young Murch, who has made many successful concert appearances in New York and other cities, will return to Toronto on June 15th, and will fill several Ontario engagements during his two-months' stay with his family.

* * *

Miss Jean Parkin of Lindsay graduated this week from the Training School for nurses of St. Michael's Hospital, Toronto.

* * *

Mr. and Mrs. Hiram Revoir and son Clayton of Trent River, attended the graduation exercises this week of the Ontario Hospital at Cobourg, where their daughter, Miss Margueretta Revoir, is a nurse in training.

* * *

Mrs. T. Garvey and son, Leo Garvey, are spending a few days with Mrs. Frank Leahy in Douro.

* * *

The Rev. N. R. McLeod of Brampton attended the recent Sunday School convention at Gilmour, Carmel and Westwood. During his stay in the city, he was the guest of Mr. and Mrs. C. Killingbeck of 309 Townsend street.

* * *

The Board of Managers of St. Paul's Presbyterian Church sponsored the annual picnic of the choir and friends numbering about eighty, at Chemong Park on Thursday night. Mixed baseball games were played and Mr. Harry Forler kindly granted permission to use the pavilion for supper. Votes of thanks to the managers and to Mr. Forler were passed. Dancing concluded the entertainment of the evening.

* * *

Miss Ethel Dudgeon has returned from a visit in Toronto and Port Credit. While away, she entertained at a shower given by her girl friends at the home of her sister, Mrs. D. Costella, of Toronto, and was also guest of honor at a shower held at the home of her friend, Miss Jean Craigie, in Port Credit.

* * *

Yesterday, Mr. and Mrs. Andrew Forrest of 466½ Gilmour street celebrated the thirty-fifth anniversary of their wedding day, in quiet fashion. Mrs. Forrest and her sister and brother made a triple wedding party thirty-five years ago in Portobello, Edinburgh, Scotland, when they were all married on the same day and by the same minister.

* * *

The executive members of the Women's Music Club held their annual picnic yesterday at Mrs. R. Gliddon's cottage at Chemong Park. The ladies enjoyed a pleasant day in the open, with dinner and tea served at the cottage. Those present were the president, Miss Mabel Clarry, Mrs. R. Gliddon, Mrs. W. R. Widdess, Mrs. N. D. Buchanan, Mrs T. H. Gillespie, Mrs G. E. Porter, Mrs. D. Walker, Mrs. G. N. Gordon, Mrs. J H. Vernor, Mrs L. A Potvin, Mrs. W A. Logan, Mrs J F. Allan, Mrs. W. A. Sanderson, Madam Masson, Mrs. D. Carmichael Mrs. W. Blackwell, Mrs M. English, Miss F. Gladman, Miss L. Hurley, and Miss E. Morrow.

* * *

The choir of the Murray Street Baptist Church was entertained on Thursday evening by the Women's Association of the church. The Rev. Mr. and Mrs. J. E. Todd were guests of the ladies also. The tables were tastefully decorated and a delightful fowl supper was served. A hearty vote of thanks to the ladies was voiced by Mr. H. H. Graham and a pleasant evening ended with the singing of "Aul Lang Syne."

* * *

Miss Ethel Dudgeon and Mr. Frank Stevens of St. James' United Church were entertained last night in the church parlors by the choir, of which Miss Dudgeon is a member and Mr. Stevens the popular organist. Mr. Henry Turner, president of the choir, read an address expressing the good wishes and congratulation of the choir members, twenty-five of whom were present. A beautiful fernery, filled with growing ferns and fuschias, was then presented by the Misses Greta Welbourn and Aileen Rose on behalf of the choir. On their cards, which were tied to the fernery with white ribbons, were expressions of good wishes and the names of each of the donors. Mr. Stevens, on behalf of Miss Dudgeon and himself, graciously thanked their colleagues in appreciative words. The choir all joined in singing, "For They Are Jolly Good Fellows," and afterward a merry social time was enjoyed. At the conclusion, refreshments were served by the committee, Miss Olive Prest, and Mesdames Pitchford and Monk.

* * *

Mr. and Mrs. W. J. Young of the Grand Hotel celebrate to-day the twenty-fifth anniversary of their wedding-day.

* * *

Mrs. A. B. Cunningham and Miss Grace Cunningham have returned from Toronto, where they attended the graduation ceremonies in connection with the University of Toronto, when their son, Mr. George Cunningham, received his degree of Bachelor of Applied Science.

* * *

The Rt. Rev. J. R. Lucas, D.D., Warden, of the Church Army Training Centre, Toronto, was the guest of the Rev. J. L. Hughes and Mrs. Hughes during his visit to the Crusaders at St. George's Church.

* * *

On Thursday evening, Mrs. Andrew McKenzie was at home to the members of the Volunteer Bible Class of Knox United Church, and their mothers, when the celebration of the hostess' birthday anniversary was the occasion of a pleasant gathering. A dainty buffet supper was served by the class members, who presented Mrs. McKenzie with two pretty pictures in appreciation of the twenty-one years of service given by her in teaching the class. The presentation was made by Miss Lily Campbell and Miss Reta Head gave the accompanying address. Mrs. McKenzie made a suitable acknowledgment of the gift. Members of the committee who were in charge of arrangements included Mrs. Ian McRae, Mrs. Allan Whyte, Miss Jean McCannan and Miss Pearl Finnie. Among those present were Rev. and Mrs. William McDonald, Mrs. Adam Gillespie, Mrs. C. Fisher, Mrs. William Watt, Mrs R. Johnston, Mrs. Ian McRae, Mrs. Allan Whyte, Mrs. M. Perrin, the Misses . Campbell, M. Byers, Margaret Shearer, Lily Shearer, Marjorie McDonald, Marion Hill, Jean Ingram, Jean McCannan, L. Beatty, Pearl Finnie, M. Hughes, Rita Head, Phyllis Shearer, V. Gatfield, and Mr. A. McKenzie

* * *

A very pleasant eevning was spent at the home of Mr. and Mrs. Aaron Davis of Smith, when a kitchen shower was given in honor of the bride-elect, Miss Gladys C. Sage, who was completely taken by surprise. The house was tastefully decorated with blossoms and white and mauve lilacs. The useful, as well as numerous, utensils were loaded on a beautifully decorated wagon, which was drawn by Elda Sanderson and Olive Sage, and which was driven by little Lorne Foster. An address was read by Miss Irene Davis to which the bride very fittingly responded.

* * *

A dainty luncheon was served, followed by instrumental music and singing.

Fashion's Forecast

THE IMPORTANT SUN SUIT.

THE STYLE No. 3483 is the important sun suit recommended by the Home Economics Department of the Uunited States Government, for the welfare and happiness of youngsters of 1, 2, 3, 4, and 5 years. The direct rays of the sun on the unclothed body have proven better than a tonic to make these little folk sturdy. It is such a comfortable fashion too that the kiddies just adore it, for they feel so free to romp and play. The cute flared sides with deep pockets and legs gathered into knee bands is so attractive. It is opened under the arms to waist. The front is in one piece; back in two sections with drop seat. It is enticingly cool, and at same time allows the sunbeams to strike the little body while at play. Materials best to select are loosely woven fabrics as galatea, gingham, cretonne, khaki cloth, linen and charmeuse.

THE PATTERN explains in Pictures how to make it. With this amusing Picture Chart, it's quite possible to make several sets in a single morning. It includes pattern for sunbonnet and is offered at cost price 15 cents (stamps or coin) as a service to readers who sew.

NEW FASHION BOOK containing all the latest styles is 15 cents, but may be obtained for 10 cents if ordered with a pattern.

Our Children

By ANGELO PATRI

FOR TO-MORROW.

There is one little point that parents and teachers ought to bear in mind as they plan the school courses for the children. We are training these children for to-morrow, not for to-day.

Do you ever stop to think of the kind of world this child of to-day is going to find himself in? Certainly it is to be a far different one from this, just as this is a far different one from that for which we were trained.

What were we taught about machines. Some few notions about steam engines, very meagre, very hazy, a bit of physics a smattering of the sciences, so smattering that a high school lad of to-day would laugh to glance over our note books. Yet how many weary hours we put in drawing the diagrams that meant nothing to us, memorizing the formulas that we would never use and which were to be rendered useless by changing circumstances of life made answer, by discoveries, inventions, and the resulting adjustments.

We have automobiles, airplanes, dirigibles, radio, wireless, and the countless machines that these and other modern equipments have evolved or stimulated. We are half afraid of them, but our children take them as a matter of course. They found them in their world when they came here and promptly adjusted themselves to them. We have never become fully adjusted to them and never will be. Our instruction had so set our minds that we were unable to fully let go the old and take on the new, joyously and freely.

Are we going to send on the next generation in that same plight? Is there nothing we can do to help them go forward with open minds for the rest of their days? Childhood is unbound save as we bind it by our fears and cautions, our dogmatism and our bigotry. If we were to send it out free, wouldn't that freedom carry on to the next generation and leave it free to grow with the new growth, accept it, use it gladly as we were unable to do? As it looks now, we are fitting this group of boys and girls for to-day, not for to-morrow, and they like us, will be old when their world is still young.

Perhaps the best we can do is to teach character. To so present studies that they will stimulate the mind to questioning rather than accepting, to send the children out with the idea that they are to go out to the world to search for new things, new powers, new associations, new creeds, wonders in all and everything.

Perhaps the best thing we can do is to set the faces of the children toward to-morrow, to teach them that the past is in their hands to be used to open the way toward to-morrow; that we their teachers and parents, are sending them out in the hope that they will never hold fast to to-day, but forever let it go and reach for to-morrow.

Which is, after all, an attitude of mine. Just what sort of attitude does your school hope to set?

(Copyright, 1929, by the Bell Syn., Inc.)

CLOTH BUTTONS.

Button moulds, covered with goods are very good now. A pink beige flat crepe has double rows of self-covered buttons up and down the front and back of its fitted waist and skirt yokes. The sleeves have double rows of the same.

SCIATICA? Rheumatism? Neuralgia?

Don't suffer with Sciatica. Mrs. E. Thompson of Hillsdale, Ont., was nearly frantic with it. Then T-R-C's made her well. "Before I finished the first box," she writes, "I had the greatest relief and quickly got over my pain." T-R-C's are equally good for Rheumatism, Neuralgia, Neuritis, Lumbago. Quick. Safe. No harmful drugs. 50c and $1.00 at your druggist's. 116

T-R-C's TEMPLETON'S RHEUMATIC CAPSULES

DON'T MEDDLE WITH YOUR NEIGHBOUR.

Don't meddle with your neighbour,
Let them go their own way.
You won't have to give account
If they should go astray.

Don't meddle with your neighbours,
Give their affairs no need,
Or be full sure contempt and scorn
Will be your only meed.

Don't meddle with your neighbour,
What matters it to you
Whether they're rich in gold and gear,
Or Fortune's favours few.

Don't meddle with your neighbour,
Ne'er watch, and peep, and pry
Upon their every movement
With disapproving eye.

Don't meddle with your neighbour,
When frail house of glass you own;
'Tis wise, says the old proverb
To cast no stunning stone.

Don't meddle with your neighbours
When grim trouble's at the door;
To the load they're bending under
Add not one morsel more.

Don't meddle with your neighbours,
All such dirty work eschew,
For words and deeds undone
You'll ne'er have cause to rue.

Don't meddle with your neighbour,
The adage still is true,
That those who mind their own affairs
Will have enough to do.

(Mrs.) A. F. Calder.
Peterborough, Ont.

DANCER TELLS WHY SHE ASKS $95,000

NEW YORK, June 7.—Pre-trial testimony of Mrs. Vera Brody, otherwise Vera Leightner, former Follies dancer, in her $95,000 suit against Jefferson Seligman, international banker, is on file to-day with the county clerk. Mrs. Brody alleges that from 1919 to 1924 Seligman maintained various apartments for her and asked her to marry him, but that in 1925 he suggested that he was "too old to marry" and promised her $100,000 to release him from the obligation incident to his asking her to marry him. She asserts the $95,000 is the balance on this amount. Seligman, she charged, asked her to live abroad and suggested a substitute husband in the person of Henry Clews, Jr., grandson of the founder of Henry Clews & Company.

OLD SONGS

THAT PIECE OF SONG, That old and antique song we heard, last night.

THE BATTLE OF WATERLOO.

(Contributed by 'Bus')

On the eighteenth day of January boys,
Napoleon did advance,
With the choicest troops that he could raise, within the bounds of France,
Their glittering eagles shone all round
and nobly faced their foe,
But British lions tore their wings on the plains of Waterloo.

The fight did lsat from ten o'clock until the close of day,
With swords and guns and cannon shot, mixed in confused array,
The French that day were beaten and fled before their foe,
But Britain obtained fresh glory on the Plains of Waterloo.

Hark! Hark! the cheering of the charge is heard amidst the fight,
Whilst Belgiumls troops in confusion like cowards took to flight,
And left bold Britain in the field, all singly with her foe.
But Britain still undaunted stood on the plains of Waterloo.

But now the dreary night comes on, a-sweeping o'er the plain
The Prussians with the British joined amid the heaps of slain,
The Prussians with the Bristih joined to nobly drub the foe,
And Bonaparte's Imperial Crown was lost at Waterloo.

May peace be with those honored souls, who fell that glorious day
And may the plough ne'er raise their bones or cut their sacred clay,
But may that place a mercy be, a terror to the foe,
When trembling Frenchmen pass that way, they may think of Waterloo.

Neighborly Helps

This column is used by Examiner neighbors to help out others who have requested recipes or advice. You may use it freely by addressing Marion.

Dear Marion:

In your issue of Tuesday there was an error in the recipe for Canning Corn. It should have called for one half cup of salt.

I thought it should be corrected as I am afraid the neighbors would find it would not keep at all without the salt.

Yours sincerely,
Net Craft.

Skin Sufferers Try This Test

A Pure Antiseptic Treatment

Are you tormented with the agony of a burning itching skin which seems to defy relief? Have you the sores, crusts, eruptions, blemishes, or skin disease? Try the pure cooling liquid D.D.D. It penetrates the skin, soothing and healing the irritated tissues. A 85c bottle proves its merit or your druggist gives your money back. D.D.D. means skin health. (Use only D.D.D. Soap.)

MARION'S MAIL

Address correspondence to Marion, at The Examiner Office.

Dear Marion:

Some time ago I noticed a request from "A Regular Reader" for recipe for cocoanut pie. As yet I have noticed no response to her request, so am sending mine, which she will like as well as we do.

Have been very busy housecleaning, but will soon be through now and will not be sorry. Please send helps marked. I am sorry I missed some I really wanted, but I guess I have no one to blame but myself.

I sure enjoyed your Whatnot on gossip. Too bad some of those gossipy ones didn't have a little more work to do. I think that is where some of the trouble starts, they don't know what to do. I'm sure if they were busy enough they wouldn't see so much and have so much idle time to gossip. What do you think?

I am sorry our weather took such a cold. Everything seems to be growing well though. My garden seeds and flower seeds are all up and doing fine. Will try to write a more interesting letter next time.

Hoping no one else has this pen name.

Maple Leaf.

I have registered your pen name, "Maple Leaf," as no one else has written under that name. Thank you for sending the recipe for "Cocoanut Pie."

Marion

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cabotte, Mahamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right, and now she is in perfect health. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

NEWS IS SPREADING

from coast to coast that Mrs. Sybilla Spahr's Tonsilitis is the most successful remedy to treat Cough, Bronchitis, Whooping Cough, Colds, Catarrh, Sore Thoats and Tonsil ills. Absolutely guaranteed. All druggists.

A Sure Relief for Women's Disorders—10 Days' Treatment Free

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered to normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorhoea ,falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A trial treatment, enough for 10 days, worth 75c, will be sent to any suffering woman who will send me her address. Enclose ten cents and address: MRS. LYDIA W. LADD, Dept. 17, Windsor, Ont. Sold by leading druggists everywhere.

EVERYTHING
THAT GOES TO MAKE UP
A FINE CAR

BEFORE you can fit a car into any definite class, you must consider the purpose for which it was designed and built. Otherwise you will have difficulty in "placing" Oldsmobile.

Oldsmobile Six . . although it is one of the lower-priced sixes . . was not built to fit a price. It was designed to meet the need for a truly fine car, with every quality that goes to make up a fine car, but of convenient size and handling ease.

The Fisher Bodies of Oldsmobile Six are among the most noteworthy and original creations of an organization famous for authentic and pleasing styles.

Step inside and note Oldsmobile's air of drawing-room luxury . . . Deep-piled upholstery over wide, restful seats . . Rich walnut finish trim and molding . . Ternstedt fittings of exquisite beauty.

Then drive the car, and experience the most convincing proof of Oldsmobile's inherent fine-car quality . . a mechanical excellence and performance that few cars at any price can surpass. Smooth, quiet, effortless . . yet absolute master of road and grade . . the Oldsmobile 62-h.p. engine is a triumph of precision engineering.

Judged by every quality of a fine car, Oldsmobile Six has won an astonishing popularity among motorists who look for something better than any other car at Oldsmobile price has ever offered. O-6-6-29

Cogs Retain East Peterborough League Lead

Win From Hastings 14 to 7

Hold Record of Three Wins and No Losses in E. P. L. Schedule.

SLUGGING MATCH.

Larking for Hastings is Big Hitter of Game With Four Safe Clouts.

Cognawagas supremely retain the leadership in the East Peterborough League with three wins and no losses with three wins and no losses as a result of their 14 to 7 victory over Hastings in a ball game played in the village down east last evening.

Condition were ideal for stretching hits into extra bases with the pastoral diamond being hilly throughout the outfield and taking a decided slope down right field. The players smacked the ball around with a will, and the noteworthy feature of the struggle was the slugging. Twenty-one hits were cracked out in all and five of them went for three bases and eight for doubles. Between swatting mosquitoes and chasing hard hit flies the fielders had a busy session. The rough undulating nature of the ball park made it difficult to judge flies and once they got away it was a chase to cope with them as they rolled down the hummocks.

None of the three pitchers used in the game had much on the ball duing the first half of the game, but toward the close as the darkness closed they warmed to their task and became more effective. E. McCarthy started on the mound for Hastings, but he was yanked at the end of the third when the Cogs had collected ten runs from his offerings. Scriver then took up the burden and with a burst of speed in spots succeeded in somewhat curbing the batting rampage of the winners.

Billingsley, the Cogs' left handed hurler, pitched the whole game. The McCarthy crew took kindly to his offerings during the first three stanzas, but he warmed to his task and was never in trouble after the third innings.

The Cogs made a total of five errors, but in nearly every case the blame could be safely laid upon the uneven and mountainous levels of the diamond. The home team seemed to know their own stamping grounds and played almost errorless ball.

Larking was the big hitter of the game, with four safe clouts in the number of appearances, and one went for two bases. This same player performed well at the middle sack, grabbing all that came his way in faultless style. Stan Jones had a triple and two doubles to his credit in four trips to the plate. Bob Ross smashed out the mightiest hit of the game and the nature of the grounds had nothing to do with it; it was a triple into cow pasture of centre field.

SET FAST PACE

The game started out from the first as a hitting bee. Wilson flied out to left field. Hillier hit a triple into right field, over the crest of the hill and Jones, next up, hit to the same place for two bases, scoring Hillier. Jone's was out at second on Rooke's fly to M. McCarthy.

Hastings equalized immediately. Harrington was tossed out by Hillier, but Scriver hit for three bases into centre field. Larking anigled, scoring Scriver. M. McCarthy struck out, and Stevenson sent a roller to Rooke.

Cogs batted around and collected five runs in the second. Grant opened with a hit. Prest folled suit and Crary drew a walk. Ross stuck out, but Billingsley cleared the runways with a double to right. Wilson hit. Billingsley scored on M. McCarthy's muff of Hillier's grounder, and Wilson scored when Jones was thrown at first by Larking. Rooke flied out.

.. walk, a hit by the pitcher and two extra base hits gave Hastings four runs in their half of the second.

Cogs came back with four more runs in the third and they succeeded in holding Hastings to only two in the last of the same frame. From then on Cogs added to their lead and Hastings were held off the score sheet.

PHIL PAGE SETS PACE FOR LEAFS

Holds Montreal Batsmen To Allow Toronto 7-3 Victory Over Royals.

STARS AT BAT.

Mamaux Pitches His Fourth Straight Shutout and Bears Win Out 7-0

TORONTO, Ont., June 8.—(Canadian Press).Phil Page had a disturbing first inning yesterday, but it wasn't as disturbing as some he has had since joining the Leafs and he pitched out a most convincing victory over the Montreal Royals in the third game of the series at the waterfront enclosure. The score was 7 to 3.

But shy Phil, aided and abetted by Nolen Richardson, played a rather shabby trick on Elam Vangilder ,erstwhile team mate, at Detroit. Phil not only outpitched Van by a wide margin but he swung a mean bat for his own cause, and that of the Leafs.

Page's bat opened a two-run charge in the second inning and it drove over a run in the sixth. Richardson doubled a pair of tallies home in the second and his single in the first set in motion the attack that resulted in one being scored.

WINS THIRD GAME

BALTIMORE, June 8.—(Canadian Press)—Nick Harrison was a regular cross-word puzzle to the Orioles here yesterday, and the Keys slashed the offerings of Roth, Jack Hollingsworth and Fritz Coumbe for 11 wallops to win the third game of the series, 11 to 3.

Deacon Scott had a perfect day at bat with four hits, while Harrison aided his own cause with four hits in five times up.

FOURTH SHUT-OUT

JERSEY CITY, June 8.—(Canadian Press). —Al Mamaux pitched his fourth shutout here yesterday afternoon and Newark Bears took the third game of the series by a score of 7 to 0.

The Bears knocked Bream and Henderson out of the box and Donal Starn, pitching his first game in thie circuit this season, finished for the Cats.

RED WINGS EVEN SERIES

ROCHESTER, N.Y., June 8. —(Canadian Press).—Rochester evened the series with the Buffalo Bisons here yesterday. Lefty Irvin going the route against the invaders to win, 10 to 4.

Irvin did not allow an earned run, all four tallies of the Bisons coming after an error on which would have been an easy third out. Heinie Sand with two singles and a triple topped the batting attack for the champions.

Eliminate Valuable League Player Award

CINCINNATI, June 8.—(Canadian Press). — The National League club owners decided to eliminate the most valuable player award this year at their annual June meeting here yesterday.

Browns Pound Mack Hurlers To Win Out

PHILADELPHIA, June 8 (Canadian Press).—The St. Louis Browns handed the Philadelphia Athletics their worst drubbing of the season here yesterday, pounding five Mack pitchers for a 15 to 6 triumph.

Heinie Manush and Frank O'Rourke led the bombardment of the Athletics' chuckers, Manush with a homer and three singles and O'Rourke with a pair of triples and two singles.

Manush hit Rommel for a homer with the bases filled in the fifth inning and Schulte followed with another home run into the stands in deep centre.

Inside Sportin' Dope—By A. Wise Cracker

Mister Sporting Editor:

All week I been thinking up a alibi for the trimming our lads got here last Sat. in the Central loop opener, and the best I can see is them tags our good friends of the Salvation Army was selling that day. They was labelled "To Help Others," and after wearing a slogan like that for a few hours, Mister Swanston and his talent just naturally had to help Mister Elliott's selects win the ball game. Anyway it looked like that.

As a exhibition, Mac, the affair was none too hot. Mebbe if Mister Ibey hadn't of chucked the horsehide right up against the back of Mister Al Heckman's pitching hand everything would of been lovely and the fans would of gone away chuckling to their self and saying what a smart ball club we got, instead of what was the matter with you fellows. Usually when Mister Heckman tosses his glove out there near the pitching mound the Deloroites just curl up and die, and you may of noticed that up to the time Mister Ibey made tha tfatal heave the Smelters had scored exactly no runs in 4 innings. And the chances is, they mightn't of got many more if it hadn't been for the aforesaid bump. As it was the game sort of degenerated into a hit and miss affair, with the visitors doing most of the hitting. Deloro got anxious and chased Mister Ibey to the showers just as soon as the Petes got to him for a couple hits, and Mister Wood was rushed in to the rescue. The relief pitcher ain't had much success stopping the Petes since he bust into the Central loop, but last Sat. he put the clamps on them, aided by some decidedly bad guessing on the part of some of the local talent. They is times when a base on balls is worth more than a hit, but you never would of thought watching the boys reaching for the bad ones in there Sat.

However, the game wasn't without its good points. The Petes fielded smart enough, the only 2 errors being made by the battery, and this young Mister Hollingsworth looked mighty good to the fans, both at the bat and in the field. As I see it, the kid has only one real weakness, his name is too allfull long to fit nice in a box score. But that's the printers' bad luck and no fault of the Petes' young shortstop.

Wed. the lads was to have boarded the red bus for a jaunt down Deloro way, but the rain in the a.m. put the ball game in the postponed list, which means 3 fixtures in 1 week later on in the season. The Petes' pitching staff is due to get some reinforcements over the week-end with the arrival home of Mister Angie Macdonald, what has been studying the Einstien theory, or what have you, at Yale. Mister Macdonald throws with his fork hand and is about the only heaver in the Central circuit this season who tosses them in from port. The left-hand batters in the loop is likely to get up a petition to have him barred out, but it won't get them much.

Well, Mac, Old Home Week is getting mighty close. I hope the cusomers is all set to give our army of visitors a time what they won't forget in a hurry. They will be a job for all hands, and the cook is getting ready for the big event, so hop to it, gang.

And now, old-timer, watch your step, for I'm going to take to the parachute.

Sportfully yours,
A. WISE CRACKER.

Detroit Crew Swamps Senators 17 To 11

WASHINGTON, June 8 (Canadian Press). — Detroit won a wild, free-hitting game from Washington yesterday, 17 to 11, by scoring 14 runs in the last three innings.

Going into the final frame the score was tied, but the Tigers pounded out the winning margin and then Whithill held the Senators.

Alexander, big first baseman of the Tigers, and Red Barnes, Washington recruit outfielder, hit home runs.

Baseball Champions Drop To Third Place

NEW YORK, June 8 (Canadian Press).—Cleveland again hit hard in the early innings here yesterday and downed the Yankees in the third game of the series by 7 to 3. The defeat tumbled the champions once more into third place as the Browns won from the Athletics.

The Indians rained a home run attack upon Ed. Wells in the first inning when four runs were scored. Joe Sewell hit for the circuit with two on base. Morgan, the next batter, hit another homer.

England consumes 15,000 tons of pepper annually.

HOME RUN KING MAY BE OUT OF GAME FOR REST OF SEASON

NEW YORK, N.Y., June 8.—(Canadian Press).—The Evening World says to-day that an overtaxed and weakened heart will keep Babe Ruth out of the Yankees' lineup for at least a month and possibly for the remainder of the season.

The home run king was described as "a pretty sick man." A stubborn lung congestion is taxing his strength and he is fretting over his physician's ruling that he must avoid all excitement. He is not allowed to drive his automobile and he has been refused permission to attend baseball games.

The paper says Ruth's doctor has been visiting him two or three times each night. The exact nature of the illness will not be known for a few days or until Dr. King, the Yankee's physician, turns in his report to the club management.

CUBS TAKE SERIES FROM ROBIN CLUB

Johnny Moore, Rookie Outfielder, Leads Attack As Chicago Wins 11-2.

CARDS LOSE OUT 8-1.

Giants Hold Record of Six Victories and One Defeat in Western Tour.

CHICAGO, June 8 (C.P.).—Chicago made a clean sweep of the three-game series with Brooklyn by winning 11 to 2 here yesterday. Charley Root hel dthe Robins to four hits while the Cubs pounded Dudley, Johnny Morrison and Moore for 12.

Johnny Moore, rookie outfielder of the Cubs, led the Chicago attack with a home run and three singles in four times at bat. Harvey Hendrick's home run in the sixth with Babe Herman on base accounted for Brooklyn's runs. Herman got three of the four Brooklyn hits.

DROP CARDS 8—1

ST. LOUIS, June 8 (C.P.).—Carl Hubbell held the Cardinals to eight scattered hits here yesterday and the Giants made a clean sweep of the three-game series, winning easily by 8 to 1.

Bill Sherdel was touched for 13 hits including a home run by Travis Jackson, but remained in the box for eight innings.

The victory gave the Giants a record of six victories and only one defeat in their current tour of the West.

REDS WIN FROM PHILIES

CINCINNATI, June 8 (C.P.).—Hurst's wild throw with a double play in sight permitted Ford to score from second and gave the Reds a 7 to 6 victory over Philadelphia here yesterday in 11 innings. The visitors had the game sewed up until the eighth when the Reds rallied, scored three runs and tied the count. McGraw walked Ford in the eleventh, Sukeforth singled, Ford going to second, and then Hurst threw wild to second on Kolp's infield tap, Ford scoring the winning run.

Hurst hit a homer in the sixth, with one on.

ERRORS COSTLY

PITTSBURG, June 8 (C.P.).—Ed. Brandt's wildness and errors by the Boston infield aided Pittsburg to defeat the Braves here yesterday 6 to 2. Ervin Brame won his fourth straight game of the season by keeping the Boston hits well scattered.

CRESCENTS WIN LISTLESS GAME FROM BETHANY

Home Team Are Victors 15 Runs to Nine in Last Night's Fixture.

FIVE FRAMES PLAYED.

Bethany Stopped in Third and Fourth By Fine Pitching of Holmes.

Old Man Frigidaire spoiled another good baseball offering at the Exhibition Park last evening, when Bethany and Crescents went through the motions to collect a total of 25 runs in five rounds. The pill pounders from Durham scorect in the sixth but the pair of tallies was an effort wasted, the contest being called on account of the zero breezes and darkness. The verdict went to Crescents 15 to 9.

None of the three pitchers had anything but colds. Ernie Holmes was the luckiest of the trio, and Jack McDonough fared worst. Harold Ralph wasn't in long enough to get a break, either way, although his entrance into the fray served the purpose of giving the new screen a thorough test.

Strutting out in their usual form, the visitors pelted Holmes in the first innings, an infield error and a bad peg helping the Hamiltonians to score three runs, but the uproar was only an incident as Crescents piled up five runs, eleven batsmen appearing at the plate. Another run for Bethany caused a flurry in the second, but it didn't mean a thing to Crescents, who added three more.This frame saw Bethany put over a neat double killing.

Holmes stopped Bethany in the third and fourth with the best pitching of the evening, holding the visitors to a pair of singles and striking out four. Jack McDonough was continuing to fare badly. He lacked control and his teammates found it an easy matter to add their quota of static, so that Crescents increased their count to thirteen at the end of the fourth.

The Durhamites warmed up a bit in the fifth when all hands batted for a total of five runs, singles by Johnston and Reynolds being good for two apiece. The skyrocket went up for Frost but Holmes weathered the assault and his mates grabbed another brace of counters, with Ralph pitching in the fifth.

The box score:

Crescents—

	AB	R.	H.	O.	A.	E.
J. LeBarr cf	3	3	2	0	0	0
J. Jones 2b	4	0	3	0	0	2

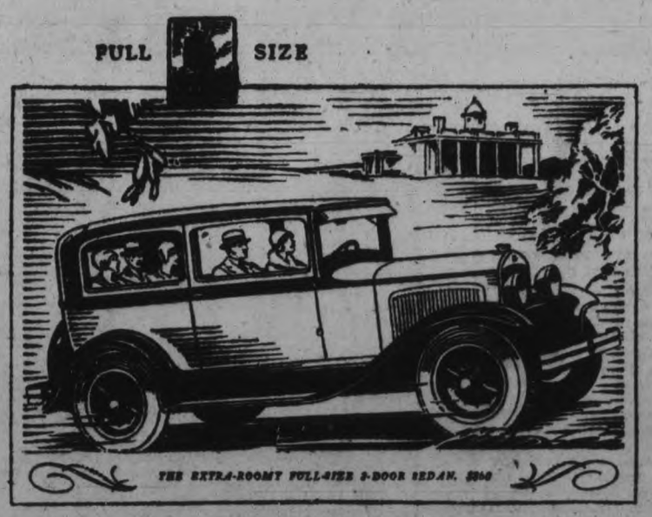
CHRYSLER MOTORS PRODUCT

Plymouth has the stamp of
Chrysler Quality —
not the look of
Low Price



THE Plymouth—product of Chrysler engineering and craftsmanship—has been so named because its endurance and strength, ruggedness and freedom from limitations so accurately typify that band of British people who braved the Atlantic three hundred years ago in pursuit of new high ideals.

YOU can be proud to own a Plymouth, the Chrysler Motors car in the lowest-priced field:

{$820 and upwards f. o. b. Windsor}

—proud, because Plymouth *is* a *full-size* car, not a miniature—a comfortable car in which you and your family and friends can relax to the fullest, instead of feeling crowded and cramped;

—proud, because Plymouth has a distinctively Chrysler-like style and manner, a richness and dignity not to be found in other low-priced cars;

—proud, because Plymouth is so typically Chrysler in performance—so swift in traffic, so eager on hills, so competent in maintaining top speeds, hour upon hour, smoothly, quietly and without effort.

Plymouth is *full-size* and full-quality in every single particular.

In addition to its *full-size* body, its *full-size* chassis, its *full-size* modern engine, its *full-size* axles—Plymouth gives you the easy control of Chrysler *full-size* weatherproof internal-expanding four-wheel hydraulic brakes—the safest ever devised.

Yet for all its size, Plymouth is so perfectly balanced and so skillfully engineered that unsurpassed economy of operation and upkeep is assured.

For reasons of both pride and purse, the Plymouth is today's finest investment in the lowest-priced field—the one car of that field that reflects fine quality without even the suggestion of low price.

Coupe, $820; Roadster (with rumble seat), $850; 2-Door Sedan, $860; Touring, $870; De Luxe Coupe (with rumble seat), $870; 4-Door Sedan, $890. All prices f. o. b. Windsor, Ontario, including standard factory equipment (freight and taxes extra).

SCHOOL HARDBALL FINAL ON MONDAY.

The final and deciding game in the long campaign for the championship of the Public School Baseball League will be played at James Stevenson Park at 4.30 Wednesday afternoon. The two outstanding teams developed in the league this season, Prince of Wales and King George, will battle it out for honors in this game. These two teams stand supreme in the league, each having won nine games and lost one. Each was defeated by the other.

The class of ball both have played has the whole youthful population of the city in two camps, maintaining that their favorites will win. Calladine, who has done the pitching for King George during the season, and Dunkerly, who has been the gunner for Prince of Wales, will oppose each other in the crucial fixture for the championship and the cup

The game will get away sharp at 4.30 and Alex. Kay will be umpire-in-chief.

* * * * * * *

COGS ON TOP RUNG OF E.P.L.

Both local entries in the East Peterborough League won victories in free-scoring contests last night. Cognawagas stepped into Hastings and defeated the home team 14 to 7 in a slug fest on the square-marked pasture. While at Exhibition Park, Crescents and Bethany were hammering each other for resounding hits, Crescents thumped their way to a 15 to 9 win.

Cognawagas as a result still maintain their string of straight victories and stand at the summit of the league with Crescents next.

* * * * * * *

D. H. MOORE HONORED BY BOWLING CLUB.

The high regard that the Peterborough lawn bowlers have for one of their oldest and most enthusiastic players, D. H. Moore, was displayed when Mr. Moore was presented with a life membership to the club. Mr. Moore has been through many exciting bowling campaigns during his thirty-odd years of membership in the club. He is now 78, but maintains his former ability and pep on the bowling green.

The presentation was made by President J. H. Sedgwick on behalf of the club. As soon as the brief complimentary speeches were concluded the players crowded around Mr. Moore and warmly shook his hand.

PICTORIAL GOLF

HITTING DOWN ON BALL DECRET OF IRON CLUB PLAY.

Iron club play is made easy to-day by the great variety of golf clubs that are offered us to select from. It is folly to try to gain distance with a light club when a heavier one is needed. Always use a club that will put you over in preference to a club that might leave you short.

The secret of iron club play is hitting down on the ball. If one could imagine that he was making an attempt to hit the ball into the ground, he would come close to making the ideal golf shot. The value in this is that one makes sure of the perfect follow through and no ball can be topped nor sliced in this manner. If one will try this, he will see how very difficult it would be to actually drive a ball into the ground. It would get up and fly in spite of one's best efforts to keep it down.

LAWN BOWLING

The men's lawn bowling club tournament was held last evening, with twelve rinks playing. G. Gimblett's rink excelled themselves with a total score of 19 for the three games. J. Bacon's rink won second place with a score of 10 and T. Donaldson's rink were close competitors with a score of 8 points.

Three rinks were in a tie with a score of 6—Mayneord's, Johnson's and Oke's.

The prizes were auto-strop shaving outfits.

RESULTS

Gimblett, Bennett, G. Johnson, McFadden—19.
Bacon, Routley, Brown, Batron—10.
Donaldson, H. Wood, W. Wood, McNabb—8.
Mayneord, Allen, Anderson, Downey—6.
Johnson, Fitzpatrick, Dyer, Coleman—6.
Curvin, Chenhall, Clegg, Disney—0.
Freeman, Ringer, Sexsmith,—1.
Fox, Chesler, Cheverill, Wall—0.

Oke, McDonald, Moore, Abramson—6

THEATRES

AT THE CAPITOL

THE OPENING TALKIE ATTRACTION AT THE CAPITOL "THE BROADWAY MELODY" A SENSATIONAL ALL TALKING, SINGING AND DANCING HIT.

"The Broadway Melody," Metro-Goldwyn-Mayer's first all-talking, all-singing, all-dancing film, a unique combination of musical comedy and dramatic technique which opens at the Capitol Monday was this company's first production to tax to the full the various resources of the big sound stages, recently perfected at the studio, which heretofore had been used only for short subjects and experimental work.

Not a talking picture scene of any kind, however, was "shot" at the M-G-M studios until months of painstaking preparation under expert supervision made it apparent that everything was in readiness to produce dialogue films technically and artistically as good as the best silent dramas. The futility of a "hastes makes waste" policy was recognized at the start, and the groundwork was laid with the utmost care and attention to detail.

The two great sound-proof stages at Culver City are the largest to be found at any studio and are completely outfitted for the production of any kind of sound film, from a one-reel monologue to a musical comedy demanding spectacular effects.

Each stage is 100 by 126 feet, surrounded by eight-inch concrete walls. When the two-ton doors of the stages are closed by machinery, the interiors are hermetically sealed, ventilation being supplied through sound-filters. These stages were designed by Professor Verne O. Knudson of the University of California, and each contains six sound-proof camera booths, housing, in addition to the camera equipment, motors synchronized with the recording instuments in the two-story building abutting on the tall windowless stages.

Representing, as they do, and investment of millions of dollars and presaging a new and unlimited field of development for the motion picture, these talking film facilities are under the management of the best electrical engineers—men who, for the most part, have followed through the attempts to develop a practical talking picture from the time of the earliest "flickers."

Minister of Justice Favors Women Senators

OTTAWA, June 8.—Miss Agnes Macphail (Progressive, South-east Grey) wanted to know in Parliament yesterday why Solicitor-General Cannon was going over to England in opposition to the appeal to the Judicial Committee of the Privy Council from the unanimous decision of the Supreme Court of Canada that women are not elgible to sit in the Canadian Senate.

Hon. Ernest Lapointe: Of course the Attorney-General of Canada is represented before the Court. The women of Canada who are interested will be represented there, and the Solicitor-General will have to be present to see justice is done. I may tell my honorable friend that so far as I am concerned, I am in symapthy with her views in the matter, and if the judgment of the Court is of a certain character I am willing to do my part to change the situation.

MALE VOICE CHOIR IS CONGRATULATED

Local Chamber of Commerce Receives Letter From Reo Company Official.

An indication of the profound impression the Peterborough Male Voice Choir made during its visit to the United States last week was received yesterday by the local Chamber of Commerce in the form of a letter which reached the offices from an official of the Reo Motor Car Company Lansing, Michigan. It reads as follows:

Dear Sirs:

I take this opportunity to heartily congratulate you and your people who no doubt made possible the appearance of your local male choir in New York at the meet of the Associate Glee Clubs of America in Madison Square Garden, May 24. You and the community may well be proud of your club, as they did nobly in the competition and came off with flying colors against very keen opposition.

If you could have witnessed the enthusiasm with which the Canadian flag was greeted by American people when it was presented to the association by your club it would have made you glad indeed that you were from Peterborough.

That club gave Peterborough more real advertising in half an hour than anything else imaginable. Immediately people began to inquire, "What do they make in Peterborough?" When folks begin to ask questions about a place it is a very good sign that it is being noticed.

Once again let me congratulate you and your club and wishing you all the success in the world and hoping to see your club at the next "meet" I am,

Yours for success
MACK COLLINS

USING MANY PULPSTONES

Over half a million dollars worth of pulpstones are usuad annually in the 60 Canadian pulp mills.

Do not wait for stiffness and lameness to set in—rub in Absorbine, Jr., immediately. It will quickly relieve the pain and ache and reduce the inflammation. Being a powerful antiseptic and germicide as well as a cooling, soothing liniment, Absorbine, Jr., heals quickly and shortens the period of recovery. Keep it handy at all times for cuts, wounds, bruises, sprains, burns and aches. It is not greasy and does not stain. At your druggists—$1.25 per bottle. Hospital size, 2.50.

Contract Bidding

The same as the Auction Bidding.

Salient Points of Bidding

North, though holding Club support takes out the Club bid by a bid of one Spade, preparatory to showing the two-suited character of his hand. On the second round, however, instead of naming his second suit, Diamonds, he bids three Clubs to show his normal support for that bid. East overcalling three Clubs by rebidding Hearts, and South passing despite his partner's assist, North then shows his second suit by a bid of four Diamonds. East and South passing, West is jutified in bidding four Hearts, his partner having rebid that suit. North and East passing, South then supports his partner's Diamond bid, bidding five Diamonds, concluding the bidding. At Contract, following North's bid of four Diamonds, West would have carried the bid to five, even had South not made the intervening bid of four Hearts.

The Play

East opens the King of Hearts. Declarer wins with Dummy's Ace, himself discarding a Spade. Declarer leads a small trump from Dummy and plays the Jack, forcing East's Ace. East assumes that Declarer is in no fear of a Trump return and therefore, rather than assist the Declarer by the lead of a trump, continues with a Heart to force the long trump hand. North, trumping, leads another trump, exhausting those adversely held. Declarer now sees that if the Club suit splits, he can make a Small Slam, since he can obtain two Spade discards, and Dummy can trump the two Spades that would then remain in Declarer's hand, and Declarer can trump the two Hearts remaining in Dummy's hand. The Club suit failing to break, however, Declarer, trumping the fourth round of Clubs, obtains but one Spade discard and thus is obliged to concede one more trick to the adversaries, making, however, five odd on the hand.

MR. WHITEHEAD WILL ANSWER QUESTIONS CONCERNING YOUR BRIDGE PROBLEMS. WRITE TO HIM CARE OF THIS PAPER ENCLOSING SELF ADDRESSED STAMPED ENVELOPE.

BAMBINO KING IS REPORTED AS SERIOUSLY ILL

Babe Ruth May Be Out of the Game For Indefinite Period.

MUSCULAR HEART TROUBLE

Some Hopes Held That He Will Be Back Within Ten Days.

NEW YORK, June 8.—(Canadian Press).—Lying in a sick-bed, George Herman Ruth, mghty man of swat, held the undivided attention of baseball's millions to-day.

A victim, according to official pronouncement, of "muscular heart trouble" the great home run slugger of the New York Yankees will be out of the game for an indefinite period.

The more optimistic of Ruth's intimates said he would be back in the Yankee's lineup within a week or ten days, the more pessimistic inclined to the belief that Ruth would not don his uniform again for a month and a half at least and possibly for the rest of the season. The great majority of expert opinion took the two extremes, divided by two and arrived at the conclusion that the "Big Bam" probably would be back in the game within three weeks.

Certainly there appeared to be no basis for early reports that Ruth's baseball career was over. Efforts to learn the Babe's exact condition were hampered by the wall of mystery with which his illness has been shrouded. Would-be interviewers have been uniformly unsuccessful in their attempts to pass doormen and elevator operators at the West 86th street apartment where Ruth and his bride of two months, Mrs. Claire Hodgson Ruth, are living. Enough has been learned, however, to indicate that a brief vacation is all the slugger needs to put himself right again.

Ruth himself was quoted as declaring he would be "as good as ever in ten days.

Ruth had been out of the lineup almost a week.

Mrs. Ruth said yesterday that the only serious thing about her husband's illness was the job of convincing him that he must obey his doctor's orders.

"Babe needs a rest, that's all," she said.

Since he signed his three year contract for $70,000 a season in January 1927 he has appeared in practically every game on the Yankee schedule.

In Police Court

It was a short session in police court this morning, only three persons being arraigned, but every charge was of a serious nature.

The charge against Albert Quinlan read as follows: "While having charge of a motor vehicle on a public highway, to wit, George street, did by wanton or furious driving, or by racing or other wilful misconduct, did cause bodily injury to Mrs. S. Delorme."

He elected summary trial by Magistrate Langley, and pleaded guilty. He was remanded for sentence until June 14th.

The charge against Harold Cavanaugh read: "Did assist Albert Quinlan, who had been a party to an offence, to wit, criminal negligence, to escape, knowing Quinlan to have been a party to the offence, and therefore is an accessory after the fact, criminal negligence."

He pleaded not guilty, and was allowed his freedom, bail being set at two sureties of $500 each.

Leo Pillow, an Indian, appeared on a charged of intent to defraud and by false pretences to obtain money on a check for $30. He elected summary trial before the magistrate and was remanded until June 14.

V. J. McElderry, K.C., was acting Crown Attorney on all the cases.

GREAT POET PASSES AWAY

(Continued from Page 1).

studying philosophy, mathematics and physics.

Returning to Fredericton in 1884 he taught in the Collegiate, engaged in field engineering, studied law, and finally went to Harvard University, where he made the great resolve to devote his life wholly to poetry.

Entered Journalism

The time for this, however, had not yet come, and the young poet of the New York Independent and the short-lived Literary World; then he was connected with the Cosmopolitan Magazine, Current Literature and the Atlantic Monthly in association with Thomas Bailey Alrich, and still later was editor of The Chap Book, which was his last work in journalism, 1898.

Thenceforth Carman followed his heart's desire and linked his life with the muse, except for a temporary period when he was forced by financial stress to turn to prose writing. He published four books of prose in the form of essays as follows: "Kinship of Nature," "Friendship of Art," "Poetry of Life," and "The Making of Personality." The last-named was written jointly with Mrs. Mary Perry King, New York, conductor of a school of expression, who was a friend of the poet and who subsequently collaborated with him in two of his poetic works, "Daughters of Dawn" and "Earth Deities... The monetary returns from his essays were sufficient to enable him to return to his first love, poetry, and he did not again revert to the producton of prose.

Bliss Carman, like many Canadian writers, found the chief market for his wares in the United States, and in 1897 he went to live in that country, alternating between New York City and the Catskil Mountain, with occasional excursions to Grand Pre, Nova Scotia, the Arcadian countries always having a charm for him.

Lived In New Canaan.

In 1906 he took up his permanent residence at New Canaan, Connecticut, a hamlet off the main route of travel, and about 40 miles from New York by train, and there he continued to reside. Notwithstanding his long residence in the United States, Carman remained a Canadian. He suffered a breakdown in health in the winter of 1919. The news of his illness caused a good deal of concern to his Canadian friends and admirers, and through the Arts and Letters Club of Toronto a benefit given for him proved very successful. When his health was restored he expressed his thanks in person at a dinner given at the Arts and Letters Club.

Later he was prevailed upon to give a series of readings in Ontario and Quebec from his works, and then followed a similar tour in the western provinces. Everywhere he went he was received enthusiastically. A new demand for his works arose. This led to the publication, in 1921, of a volume of selections from his books, "The Rough Rider and Other Lyrics," "Echoes from Vagabondia," and "April Airs: A Book of New England Lyrics," and the addition of about a dozen new poems under the title, "Later Poems," with an "Appreciation" by R. H. Hathaway of Toronto, a close personal friend of the poet, who had made a special study of Carman's works.

Bliss Carman published a large number of books of poetry. His first notable work was "Low Tide on Grand Pre," published in 1889. His works include: "Behind the Arras," "By the Aurelian Well," "A Winter Holiday," "Songs of Sea Children," "Songs from a Northern Garden," "Sappho: One Hundred Lyrics," "A Painter's Holiday," and "Ballads and Lyrics," the last-named having been published in 1923.

BUTTER SUPPLY IS PLENTIFUL

Silky-Coated Chinchilla Rabbits On Sale at Local Market.

NO NEW PRODUCE.

Silky - coated grey Chinchilla rabbits, the aristocrats of the big bunny family, were on sale at the farmers' market this morning. A whole colony of them arrived in hatches and waited for purchasers at the rate of $2.25 for the large sizes and 75 cents for the little ones. They were auctioned off and several went at different bids.

There was little new in the produce at the market this morning. Prices were as usual on the open section, but butter was on a sliding scale in the basket section. "It might as well be axle-grease," said one woman who was asking 35 cents a pound for her supply. Butter was plentiful and the top price was 38 cents a pound.

Eggs sold at 24 to 28 cents a dozen and chickens were 50 cents a pound for broilers and 30 cents for older birds. Ducks were quoted at 25 cents a pound.

LOCAL IMPROVEMENT NOTICE

TAKE NOTICE THAT:

1—The Council of the Corporation of the City of Peterborough intends to Construct as Local Improvements the following works on the following streets or parts of streets herein mentioned, and intends to specially assess the cost of the said work upon the land abutting directly on the said works. "People have been thinking too long of milk as merely something to use in tea or coffee."—Says the Farmer Boy.

MILK is a food — not just something to be mixed with tea or coffee. It should be eaten—not swallowed quickly. To sip Campbell's milk, slowly — means to get the full value of the health building elements it contains. As a health precaution order Campbell's milk—there's a difference.

CALEDONIANS HONOR DEPARTING MEMBER

Mrs. French is Presented With Handsome Club Bag.

The regular monthly business meeting of the Caledonian Club was held last night in the Woodmen of the World Hall. A good attendance of members turned out, and the regular business was discussed. R. Veitch, president, occupied the chair, and after the minutes were read by W. May, secretary, reports were read from the various committees. The activities which the club has made for "Old Home Week" were fully discussed, as well as other club outings for the summer.

A communication was read from Edinburgh, Scotland, in regard to the Club affiliating with the St. Andrew's Society of that city.

Mr. Veitch then called on one of the members, Mrs. R. French, who is leaving the city in the near future, to come to the platform. He read an address, which was as follows:

"Dear Mr. and Mrs., French,—It is with great regret that we learn of your departure from Peterborough in the near future and of the severance of your long connection with the Caledonian Club of this city, to the success of which you have both been outstanding factors.

"You are leaving behind you many staunch and true friends, and it is their earnest wish that you will meet with every success in your sphere of life and find as many good friends as you are leaving.

"On behalf of the Peterborough Caledonian Club, I will now ask you to accept this slight remembrance as a token of the esteem and affection which we hold for you both, and trust that you will long be able to utilize it in visiting Peterborough and your 'auld freens,' who after all are the best in the long run."

Mrs. G. Moffatt then presented Mrs. French with a handsome club bag. Although completely taken by surprise, Mrs. French very suitably replied.

Dainty refreshments were then served by the executive, and a social hour spent. Mrs. French sang a lovely solo, "Old Memories," accompanied on the piano by A. Clark.

R. Gilmour supplied the music for a few dances, which brought a pleasant evening to a close.

CANADA'S GARNET OUTPUT

Practically the whole of the Canadian abrasive garnet output up to the present has been obtained from the deposit situated about eighteen miles east of Bancroft, Ontario.

IN MEMORIAM.

WHITE.—In fond and loving memory of our dear son William, who passed away one year ago to-morrow:

Peaceful be thy sleep, dear son,
It is sweet to breathe thy name;
In life we loved you dearly,
In death we do the same.

Oft we think of you dear son,
And our hearts are sad with pain,
Oh, this would be a Heaven
Could we hear your voice again.

You are gone but not forgotten,
Never shall your memory fade,
Sweetest thoughts shall ever linger,
Around the grave where you are laid.

—Inserted By His Loving Mother and Father.

IN MEMORIAM.

WHITE.—In loving memory of our dear brother William, who departed this life June 9th, 1928:

One year to-day our brother was called
To his eternal rest;
Gone where the angels sing so sweet,
And taken when God knew best.

We miss him here so very much,
His presence oft seem nigh,
But we all hope in Heaven to meet
Where no one says good-bye.

—Inserted By His Brother and Sisters, Fred, Hilda and Rose.

TREES BEAUTIFY PARK.

The trees that were planted by the Ashburnham Patriotic League on Armor's Hill, in East City, have obtained a good growth. They are in a healthy condition and already are quite noticeable.

IMMIGRANTS SATISFIED.

The boys and men that were brought to Canada by the British Immigration Association are all doing well, according to G. A. Gillespie who has charge of the work in this district. Mr. Morris, inspector of the association from Montreal and Mr. Gillespie, recently visited a number of the boys and found that they were quite satisfied. The boys this yea are bigger and better than other years but there is some difficulty in getting men as they seem to find positions before they reach the city. In all about 75 boys have been placed up to date.

NEW THRILL FOR SKATERS.

Winter brings skijoring but the summer brings a sport more thrilling and a little harder when the fan tumbles. In the west end a youth was noticed on roller skates behind an automobile and was hanging on to a rope tied to the car which drew him along at a rapid pace. The trick seemed to require skill and nerve and probably was the result of the search for a new thrill.

THEATRE DECORATED.

The Capitol Theatre now has its hanging flower poth in place which adds to the attractiveness of the newly decorated front.

ADVERTISING OLD HOME WEEK.

Motorists about the city are advertising Old Home Week and are doing their part in spreading the good tidings abroad. A large weather proof poster bearing the words, Peterborough Old Home Week, June 29 to July 7. Come. The poster is made up of red letters on a white background.

PROJECTORS RECEIVED.

The projectors of the Capitol theatre now rendered obsolete by the installation of the more modern Northern Electric talking machines are finding a resting place in the Grand Opera House.

SIGNS OF SUMMER.

At least some signs of summer are seen about the city. Watermelons have made their appearance in many of the fruit stores. Even if these are Florida products, they are omens of warmer weather, it would seem.

STOCK COMPANY DAYS.

Reminiscences of past days were brought to light by an old sign on the Grand Opera House door. A sign displaying the price lists of the Rex Stock Company was noticed. The prices were 50c., 35c. and 25c.

PAINTERS' HEAVY HARVEST.

Old Home Week and its preparations have swamped the painters with work. Preparations for the expected crowds of visitors are reaching into many a household which might otherwise have put off the painting job indefinitely. A visit to a country home the other day found the rooms in a confusion of disarranged furniture, and paperhangers and painters had complete possession of the place. This disturbance was simply an indication of the re-union that will take place early in July in that and hundreds of other homes.

entirely new. It will have a central spray of water and several smaller jets on the side falling into a pond. At night several high-powered colored lights, which remain concealed, will light it up brilliantly, making of the fountain a small Niagara.

The fountain is in clear view of the Lakefield road, and it is set down in the centre of the finely-cared for little park near the Filtration Plant. Flower beds, benches and velvety grass combine to make this a beautiful spot and the fountain, the Commission hopes, will aid in its attractions both by night and day.

WILL TAKE PART IN PARADE.

Among the several committees of the Old Home Week interests that met at the city buildings on Thursday evening was a gathering of the United States born men who now have a share in business and industrial interests of this city.

There was a fair attendance, and several propositions were suggested and discussed. No definite conclusions were reached, but it is almost certain that the colony will have some share in the big parade on July 4. A subcommittee was named from among the number present to take action in working out details, and if approved, all local Americanborn will be canvassed in favor of the undertaking.

It can be expected that something further will be announced in the near future concerning the Fourth of July celebration.

AWAKENS SLEEPERS.

Residents of Gilmour street were rudely awakened from their slumbers last night when the large cement mixer of the Warren Paving Company rolled through the street at eleven o'clock. The giant "mixer" rattled and bumped over the thoroughfare, creating a noise halfway between a boiler factory and an air raid, several irate residents of Gilmour street stated this morning. Wires leading into the houses were torn down by its passage ,too, and were to be seen strewing the sidewalks this morning.

FOUNTAIN NEAR COMPLETION.

The illuminated fountain planned by the Utilities Commission for Filtration Park has been set up and is practically completed. The fountain is copied from several in the larger cities in the United States, and is something

The fire department received a call yesterday at 7.47 p.m., to 228 Sherbrooke, where a chimney had caught on fire and the red hot soot had dropped down the flue and set fire to some rubbish in the cellar. Chemicals were used.

Chief Gimblett would like the attention of the people called to the fact that there was not stopper on the bottom of this flue, which allowed the red hot coals to drop on inflammable material. People are advised from this authority to inspect such pipes and chimney about their home as they are dangerous and might result in a serious fire.

An alarm at 3.30 a.m. this morning gave the firemen a run to the Landy Apartments, where some clothing and books caught fire in a cedar chest. There was a slight damage. The occupant of the room was nearly overcome by the smoke before he awoke and gave the alarm.

DUTCH MOVE TO MEET BANDITS

New British Ministry Makes History

CABINET POSES FOR "TALKIES"

Unprecedented Scene Enacted As MacDonald Introduces Ministers To Nation.

SHOWS PUBLICITY VALUE.

Premier Waxes Humorous in Telling Points About His Appointees.

LONDON, June 10. — (Canadian Press Cable).—The gardens of historic No. 10 Downing street where so much British history has been made, witnessed an unprecedented scene to-day when the new British cabinet posed for a talking movie film just before their first meeting. Mr. MacDonald, the prime minister, after a few general words introduction presented each one of his ministers individually as he spoke into the microphone. The affair demonstrated Mr. MacDonald's sense of the value of publicity in politics as did his surprise broadcast speech on Saturday.

All the members of the cabinet were present with the exception of Sir John Sankey, the new lord chancellor. He was being sworn in to his office at the law courts and arrived too late for the picture.

In introducing his ministers, the premier assumed a slightly humorous manner. Of the new chancellor of the exchequer, he said, "Here is my old friend, Philip Snowden." Then when Sidney Webb, secretary for the dominions and colonies stepped forward he said, "He is still Mr. Webb," referring to the fact that a peerage is shortly to be conferred on this veteran Labor leader.

Premier MacDonald playfully chided Arthur Greenwood, minister of health, who hung in the background, for not coming forward quickly. With regard to Rt. Hon. William Graham he said, "He has got to come to the front in order to be seen and not felt. He is going to the board of trade."

With a broad smile and a very confident walk Rt. Hon. J. H. (Jim) Thomas strode into the limelight. Mr. MacDonald's introduction of him was, "Mr. Thomas has broad shoulders. He is going to have a big burden put on them. He is going to look after the work we are doing for unemployment and I am sure the whole nation wishes him the heartiest success."

A. V. Alexander, First Lord of the Admiralty, was described as a man "of great capacity."

Rt. Hon. William Adamson, Secretary for Scotland, was declared to be typical of his race

Of Captain Wedgwood Benn, Secretary for India, the Premier said, "He is one of our young men and he will also have a task of great importance. We wish him well in the trying time he has to face."

"Our old friend, George Lanbury,"

Fractured Collar Bone Detains Duke in West

VANCOUVER, B. C., June 10. (C.P. — H. R. H. the Duke of Gloucester, who suffered a fractured collar bone when his mount fell during a polo game here, will not leave Vancouver to-day

The Duke intended to resume his eastward journey to-day, but his physicians stated the date of departure will depend on the progress of the injury during the next few days

SEAT IS LOST BY TORIES IN SASKATCHEWAN

Dr. S. W. Arthur, Formerly Listed As Conservative, Is Independent.

ISSUES STATEMENT.

Throughout Campaign Member-elect Was Listed as Conservative.

REGINA, June 10.—(Canadian Press).—The strength of the Independent and Progressive groups which hold the balance of power as a result of Thursdays provincial election in Saskatchewan has been added to by a week-end development in the political maze sensation.

Dr. E. W. Arthur, formerly listed as a successful Conservative candidate in the constituency of Canningston, has issued an official statement in which he declared he is an Independent and not a follower of Dr. J. T. M. Anderson's party.

With this change the Independents and Progressive hold ten of the 61 seats in which election was held Thursday, and the 26-26 deadlock of the Conservatives and Liberals is broken, giving Premier James G. Gardiner's party 26 seats and Mr. Anderson 25.

Through the campaign Dr. Arthur had been listed as a Conservative nominee and his announcement of the week-end came as a distinct surprise to the political party leader. In Cannington Dr. Arthur had defeated A. E. Steel, Liberal, who represented the constituency in the last legislature.

With the definite election of three Liberals, including Hon. Geo. S. Spence, in Maple Creek, in the "doubtful" ridings on Saturday, the standing now is:

Liberals	26
Conservatives	25
Independents	6
Progressives	4

UNITED CHURCH CELEBRATES ITS FOURTH ANNIVERSARY

Pilgrims Are Spending a Day of Observation and Education in Toronto.

ATTEND CONFERENCE.

Special Services Were Held in Massey Hall This Afternoon.

TORONTO, Ont., June 10 (Canadian Press). — To-day, the fourth anniversary of the inauguration of the United Church of Canada, is a day of "observation and education" for the one thousand strong party of pilgrims now in this city from the British Free Churches. According to the leaders of th pilgrimage one of the great objectives of the trip is "to learn" of the practicability of church union. The program of the visitors' activities to-day has been framed to provide the opportunity for adding to their information in this regard.

This morning the pilgrims attended the session of the United Church Toronto Conference Addresses were delivered by Right Rev. Dr. W. T. Gunn, Moderator of the United Church of Canada; Sir Joseph Flavelle, Rev. Dr. R. P. Bowles, Chancellor of Victoria College, and Very Rev. Dr. George C. Pidgeon, who was the first Moderator of the United Church of Canada. Several members of the Free Church party responded. At noon the visitors took part in an impressive prayer service led by Rev. Dr. S. D. Chown commemorating the actual inauguration of the United Church. The union was consummated at noon, June 10, 1925.

Special Services.

Anniversary services commemorating church union were held in Massey Hall this afternoon, attended by the visiting pilgrims from Britain together with a large representation of United Churchmen of Toronto and other parts of Canada. Sir Robert Newbald Kay, of York, England and other distinguished visitors addressed the gathering. The Canadian speakers included Dr. Gunn, the Moderator; Dr. Pidgeon, Very Rev. Dr. James Endicott, another former Moderator of the United Church, and Hon. N. W. Rowell, K.C.

The visiting pilgrims were entertained at luncheon to-day by the City of Toronto. Mayor McBride and Controller Bery Wemp welcomed the visitors on behalf of the corporation.

To-morrow the pilgrims will visit Niagara Falls and Hamilton Ont. and continue their tour through Ontario on Wednesday, stopping at Kingston and Brockville. On Wednesday evening the party is due at Ottawa, returning to Montreal on Thursday to embark on the liner Doric and sail for England on Sunday, June 16.

Two Members Of Nobility Believed Lost in Desert

KHARTOUM, Anglo-Egyptian Sudan, June 10 (A.P.).—Two members of the European nobility were believed lost to-day in the Jubian desert. Prince Ferdinand Andreas of Leichtenstein and Court de Almasy of Hungary left Wady-Halfa for Cairo on June 3 in two automobiles with native guides and a mechanic. They had only 100 gallons of gasoline. Neither has been heard of since.

PRAISE GIVEN UNITED CHURCH

Free Church Pilgrims Extol Movement Toward Union in Canada

BUILDING CROWDED.

Meeting On Anniversary of Consummation Has Double Significance, Speakers Say.

TORONTO, Ont., June 10 (Canadian Press).—Exemplification of the results of Church Union in Canada was presented and the leadership of the Canadian churches in this movement for Christian unity extolled, in the various addresses of Canadian and Old Country clergymen here to-day. It was the occasion of the official welcome of the United Church of Canada to the members of the British Free Churches pilgrimage here to examine and study the workings of Church Union and other important problems.

Trinity United Church was the meeting place of the nonconformists of the Old Land and the United Churchmen of Canada. The building was crowded to the doors with the 1,000 pilgrims and their friends who shared the meeting with the Toronto conference of the United Church.

To-day being the fourth anniversary of the inauguration of the United Church in Canada, this meeting of the visitors from overseas and the members of the United Church had a double significance, as one of the speakers pointed out, in that it is a great compliment to the United Church and in its significance as a trend of the times towards a greater Christian unity.

All the welcoming speeches breathed the spirit of heartiest goodwill and co-operation. The responses by the Free Church representatives accepted with cordial understanding and fraternal affection the hospitality of the Canadian people. The congregational singing of two of the great hymns of the Church, "All People That on Earth Do Dwell" and "The Church's One Foundation," stirred the gathering in one great inspiration of Christian fellowship.

Sir Joseph Flavelle, of Toronto, chairman of the local committee, extended the official welcome. Rev. Dr. A. Boyd Scott, of Glasgow, and Rev. Dr. D. J. Sutherland, of Edinburgh, responded for the pilgrims. Leaders in the Canadian United Church who took a prominent part in the service included Right Rev. W. T. Gunn, Moderator; Rev. Chancellor Bowels, of Victoria University; Very Rev. George C. Pidgeon, first Moderator of the United Church of Canada, and Rev. S. D. Chown, general superintendent of the Methodist Church in Canada before the Union in 1925.

Rev. Dr. J. G. Sutherland of Edinburgh, who heads the Scottish members of the pilgrimage, responded for the Free Church party. As one of the foremost workers in the union of the churches of Scotland, which is now practically completed, Dr. Sutherland paid high compliment to the energy and enterprise of the churches of Canada in their leadership in the matter of Church Union.

The Weather

Moderately warm weather appears to have come again. Yesterday's highest point was 71 degrees; this morning the thermometer was around its usual night figure of 40 degrees. The general weather forecast as it came over the radio this morning from the weather bureau at Washington, for the eastern portion of the continent was "Generally fair to-day, and warmer to-morrow."—W. P.

BODY TO BE CREMATED

NEW CANAAN, Conn., June 10.—In accord with his wish, the body of Bliss Carman, poet and writer, who died Saturday, will be cremated following services in St. Mark's Church here to-morrow morning.

Belgian Prince Fined For Failing To Vote

BRUSSELS, Belgium, June 10. (C.P.) — Prince Charles, second son of King Albert, was fined 100 francs (about $4) to-day for not voting in the Belgian Provincial election of Sunday, in accordance with Belgian law.

The prince arrived at the doors of the polling place early in the morning, but they had not yet been opened. After 15 minutes in line with other voters he left for a country trip.

GOVERNMENT WINS IRISH BY-ELECTION

Republican Party Lose Important Seat in Free State Election.

PAYMENTS DUE BRITAIN.

Issue Settled Around Question of Land Purchase Annuities.

DUBLIN, June 10 (Canadian Press Cable).—Wresting a seat from the Republican party of Eamon De Valera, the Free State Government won an important by-election in Sligo and Leitrim Saturday. The Government candidate, Major-General Sean McEoin was elected with 28,598 votes, while the Fanne Fail candidate, Eamon Donnelly, polled 24,621. The by-election was caused by the death of the former member who was a follower of De Valera.

The issues in the election centred almost entirely around the question of the payment or non-payment of land purchase annuities. The Republicans sought an endorsement of their policy for retaining in the Irish Exchequer some $15,000,000 of annuities which at present are paid annually to the British Government.

Opposed Proposal.

The Government strenuously opposed this proposal, claiming it involved a policy of national embezzlement which would have a disastrous effect on the credit of the Free State. Nearly every member of the Dail Eireann spoke in the constituency during the campaign and the verdict is considered significant as the decision of a purely agricultural constituency on an issue of immediate concern to farmers.

The land purchase annuities are payments due the British Government of money advanced to farmers for the purchase of land under various land acts before the establishment of the Irish Free State. Now the Free State has taken over these land loans and the Government wishes to repay the British Government.

FATHER FOCH PASSES AWAY

Younger Brother of Late Generalissimo of Allied Armies Is Dead.

75 YEARS OLD

PARIS, June 10 (Canadian Press). —Father Germain Foch, Jesuit priest and younger brother of the late Marshal Ferdinand Foch, died to-day, less than three months after his soldier brother passed away.

Father Germain died quietly in the Hospital of the Brothers of Saint John of God, where he has been ever since he was brought to Paris from his home in Montpelier on March 21, arriving on the same day the Marshal died.

He was so ill from a long-standing heart affection he was not informed of his brother's death until the next day.

Father Foch was 75 years old. He was so frail even prior to his death he had to be accompanied by other priests and nurses when he visited his brother on what proved to be his death bed.

THREE KILLED IN CRASH.

WILMINGTON, N.C., June 10. — Lieut.-Col. John A. Hambleton, of Baltimore, and Mrs. and Mrs. J. Von Der Heyden, of New York, were instantly killed near the county airport here on Saturday when Colonel Hambleton's airplane, the Governor, crashed. The accident was witnessed by Mrs. Hambleton.

The diameter of the earth at the equator is 7,926.68 miles. The diameter at the poles is 7,899.98 miles.

Warships Ordered Out

"Bandits" Seize Arms After Overcoming Police Force at Willemstad.

CHIEF KIDNAPPED.

Armed Band of Five Hundred Attack Venezuelan Government, Says Report.

THE HAGUE, Netherlands, June 10.—(A.P.)— The Dutch authorities moved promptly to-day to deal with the situation created at Willemstad, Curacao, on Saturday night when a force of 500 men described as Venezuelans overcame the military police and seized the store of arms in the police barracks.

The Dutch destroyer Kortenaer was ordered to leave for Curacao, which is off the coast of Venezula, while the battleship Hertog Hendrik also was ordered to prepare for her prompt departure to West Indian waters.

During the attack at Willemstad three members of the military police were killed and several wounded. The Governor of the Island and the commander of the police were kidnapped and carried off in a seized vessel, but subsequently were permitted to return to Curacao.

While the reasons for the attack were somewhat obscure, the Dutch colonial office was of the opinion that the raid and the seizure of the police arms were part of a movement by the attackers to be launched against the government of Venezuela.

The Governor of Curacao, who reported that the situation was now in hand, informed the colonial office to-day that the Petroleum Company of Curacao was not interfered with in any way and has continued operations.

The 500 "bandits," as the government report described them, sailed for Venezuela and have since dropped from sight.

The Dutch colonial office issued a communique to-day on the trouble at Willemstad, stating that bandits captured the governor of the Island, which is a Dutch possession, and the commander of the police, took them to Venezuela and then subsequently released them.

Detailing what happened on Saturday night the communique asserted that an armed band of 500 Venezuelans suddenly attacked the military police at Willemstad.

"Their aim apparently was directed against the Venezuelan government," says the communique.

(The island of Curacao is just off the coast of Venezuela and has frequently been used as a place of refuge by Venezuelan revolutionaries).

MEETING TO-NIGHT ON DECORATIONS

All Interested in Brightening City For Old Home Week Invited.

The meeting of the Decorations Committee to be held in the City Council Chamber at 8 o'clock to-night is very important, in view of the short time remaining for this very essential work.

All who possibly can should attend, to discuss and decide the best methods of brightening the city for Old Home Week. Ladies of all the societies which have agreed to help are specially invited.

REV. DAVID WREN IS NEW PRESIDENT

Ministerial Association Elects Officers—Rev. Dr. Blagrave Gives Address.

At the regular monthly meeting of the Ministerial Association held in the Y.M.C.A. parlor the following new officers were appointed for the coming year:

President: David Wren, M.A., B.D.; Vice-President, Rev. J. H. Sutcliffe, M. A., B. D., Secretary, Rev. William McDonald, B.A., Treasurer, Rev. Dr. R. C. Blagrave, B.A.

Rev. Dr. Blagrave gave a very illuminating and inspiring address on "Some Aspects of Modern Theological Problems," which was greatly enjoyed and highly appreciated by all present.

REYKJAVIK, Iceland, June 10.—(C.P.)—A radio received to-day from a ship which went to the aid of the seaplane "Sverige" of Captain Albin Ahrenberg, said the machine and airmen were safe at Skapataros and that all they wanted was gasoline. The plane is expected here this afternoon.

Pilgrims Render Song Of The Canadian Nation In a Way Seldom Heard From Visitors

MONTREAL, Quebec, June 10. (C.P.)—Like the pilgrims of old who sang their way through the country, the visiting delegates of the British Free Churches, who arrived in Montreal on Saturday on their way to Toronto to attend the fourth anniversary of the United Church of Canada, sang their way into port. Their song was "O, Canada," and instead of the usual enthusiastic but inharmonious rendering one is accustomed to hear from visiting strangers who attempt this song of the Canadian nation, the waiting crowd on the docks were thrilled for the visitors had learned not only the words but the music. To Sir Henry Coward, one of the most noted authorities in England on choral music, the credit for this little compliment is due. For several days the former leader of the Sheffield Chor personally coached the pilgrims on deck and below, morning and night, until practically everybody on board knew the words and music.

CONTINENT'S AUTOMOBILE BILL JUST TWICE NATIONAL DEBT

SPEAKS AT ROTARY.

GEORGE E. ANSLEY,
Sales Manager of General Motors, who addressed the local Rotary Club to-day.

Canada and United States Spending Well Over Four Billions a Year On Cars and Parts.

STARTLING GROWTH.

George E. Ansley Tells Rotarians of Expansion of Automobile Industry.

That the people of the United States and Canada spent last year in automobiles and in automobile parts and accessories twice as much as would have paid the national debt of Canada was only one among many unusual facts presented to the Peterborough Rotary Club to-day by George E. Ansley, sales manager of the McLaughlin Motor Corporation, who delivered a most informative address on the automobile industry at the weekly luncheon of the club.

At to-day's meeting, voting for the new board of directors was held, resulting in the election of the following five from a field of ten named by the nominating committee: Robert Abbott, Ross L. Dobbin, R. F. Downey, James Juby and George A. Macdonald. These, with W. R. Morris, president for the past year, and Secretary Roy Thompson will constitute the Rotary directorate for the next year.

Rotary Andrew Brown had a number of his automotive competitors as his guests to-day to hear the industry they are interested in discussed.

Another feature was the appearance of Roy Locksley and his dance orchestra from Rye's Pavilion, who contributed a concert arrangement of Salut D'Amour, and several dance and novelty numbers in splendid style and were warmly applauded. Mr. Locksley conveyed H. B. Rye's offer of the use of the orchestra and pavilion to the Rotary Club in arranging any event they might desire to stage.

Mr. Ansley, in his address, presented some striking figures as to the growth of the automobile industry and as to the part played by General Motors in Canada in this expansion.

The first year of automobile production in the United States, he said, showed a total of 300 automobile units, and this had grown to 4,601,000 automobiles produced in 1928. The value of this production had increased in the same period from $465,000 in 1895 to $3,162,800,000 in 1928.

When the amount spent in acces-

(Turn to Page 5, please)

FOUR DROWNED ON PRAIRIES

Heat Wave in Western Provinces Forces People To Seek Water.

NEWLY-ARRIVED DEAD.

WINNIPEG, Man., June 10 (Canadian Press). — Four lives were claimed by drowning over the week-end on the prairies.

Ferdinand Marquis and William Harder, both 16, were drowned in a small slough near Rosthern, Sask., when they went bathing to seek respite from the heavy heat.

George Jenkinson, attempting to swim the Souris River, at Melita, Man., was unable to make the crossing, and succumbed.

Peter J. Aspaas was drowned in the Canadian National Railways dam at Moose Jaw, Sask. Newly arrived as a farm laborer in the Tilney district, Aspaas fell from a boat in which he had been paddling about.

EXPERTS' REPARATION REPORT MEETS WITH GENERAL FAVOR

London Papers Express General Satisfaction With Final Decision.

TIRED OF SACRIFICES.

LONDON, June 10. (Canadian Press Cable.) — The morning papers generally express great satisfaction with the reparations report. The Daily Telegraph says the proposals will substitute fixity for uncertainty, normal healthy relationships for morbid vexations financial conditions, and will open the way to the removal of the last obstacle to the withdrawal of the armies of occupation in the Rhineland.

The Daily Chronicle says that under the experts' scheme the cost of diminution seems to fall more on Great Britain than on anyone else. "The British public, tired of sacrifices which win little thanks, may not hear this with pleasure," this paper adds. "If, however, it is true, we shall be still able while paying the dominions their amounts undiminished, and to cover ourselves on the Balfour principle against our American debt, we may not have given more than our further political objects justified. These objects are stabilization of international finance and trade, the following up of Locarno, early evacuation of the Rhineland and renewal of effort towards disarmament."

The Morning Post describes the committee's work as a "satisfactory discharge of a well nigh impossible task."

The Financial Times terms the report "a magnificent, constructive piece of work."

The Times states that in so far as Great Britain is concerned the report will be welcomed with genuine relief and sincere satisfaction, though, perhaps not enthusiasm. "We made sacrifices but we safeguarded the Dominions' share of reparations and the most important economic interests of great Britain seem satisfactorily safeguarded." The Times adds: "In comparison with the enormous importance of a unanimous settlement of the reparations question, not merely to Great Britain but to the world, the sacrifices which have been made are almost trivial."

News in Brief

(By Canadian Press)

SCHOONER IS AFIRE

HALIFAX, N.S., June 10. —An unidentified schooner was afire 10 miles north of Sable Island to-day, and another vessel believed to be a trawler, was standing by, according to wireless information reaching C. H. Harvey, local marine and fisheries agent, this afternoon.

MAY TAKE OFF TOMORROW

OLD ORCHARD, Me., June 10.—Unless an unexpected storm developed over the Atlantic ocean to-day, a take-off of the monoplanes Yellow Bird and Green Flash for Europe tomorrow morning appeared probable.

FOUR PERSON INJURED

YOUNGSTOWN, O., June 9.—An airplane crashed on top of an automobile near here to-day and although there were four persons in the car, none was killed. They were injured severely, however.

A 22-year-old girl, a student pilot, was operating the plane. Her identity was not learned. The girl disappearing shortly after the crash, apparently unhurt.

LABOR CABINET HOLDS MEETING

Members Pose For a Talking Picture Film in Downing Street Garden.

INTRODUCED BY PREMIER.

LONDON, June 10 (C.P.)—The first formal meeting of the new Labor Cabinet was held to-day, with all 19 members present. It was preceded by a posing for a talking picture film, the Prime Minister, Ramsay MacDonald, and his colleagues gathering in the garden behind No. 10 Downing street.

Mr. MacDonald, speaking into the microphone, introduced his colleagues in the Cabinet with the words: "May I introduce to you the members of the Cabinet, who have been chosen for very hard work and because, I believe, this nation fully believes they are competent to perform it."

The Premier motioned to each member of the new Cabinet, reaching Miss Margaret Bondfield, Minister of Labor, "Last, but the most unique," he said, "is our friend, Margaret Bondfield. She is double first; the first woman to be admitted to the Privy Council, now the Right Honorable Margaret Bondfield. She is also the first woman in the Cabinet and I am sure in the name of the whole country we greet her in the new position she is to fill."

TREATY WITH GERMANY.

Canadian Trade Commissioner's Visit Portends New Agreement, Report says.

(Special to The Examiner.)

OTTAWA, June 10. — A new trade treaty with Germany is under consideration, it is understood to-day. L. D. Wilgress, Canadian Trade Commissioner for Germany and Northern Europe, is expected in Ottawa this week, and it is believed that the trade situation will be discussed with him.

ST. ANDREW'S SUNDAY SCHOOL CELEBRATES ITS ANNIVERSARY

NEWS IN BRIEF

(By Canadian Press)

CASE IS HELD OVER.

TORONTO, June 10. — On application of defense counsel, Peter White, K.C., a further remand was granted in court to-day to William M. McDonald, president of the Manufacturers' Finance Corporation, charged with theft and false pretenses, in connection with the company dealings. Bail of $50,000 was renewed and the case was set for September 18.

STRIKE DELAYS DIDIGIBLE

HOWDEN, England, June 10. (C.P.) — A strike of fitters employed on the giant dirigible R-100 has delayed work in preparation for the airship's projected flight across the Atlantic in the autumn

CHARGED WITH THEFT OF $2,100

Winnipeg, Man., June 10.—Charged with the theft of $2,100 from the F. W. Woolworth store, Portage and Donald street branch, here, Charles B. Baker, formerly assistant manager, is held at central police headquarters.

Baker wa sarrested at his home late Sunday, and the money, intact in a satchel, recovered.

FLYERS TAKEN IN TOW.

REYKJAVIK, Iceland, June 10.—The Swedish airplane Sverige, which made a forced landing at Skaptaros south-east Iceland, yesterday, on the second lap of a Stockholm-New York flight, was taken in tow late this morning by the Danish inspection ship Odin.

Young People Conduct Services and Present Pleasing Program.

SERMON IN PAGEANT.

Services celebrating the Sunday school anniversary of St. Andrew's Church on Sunday were given over to the young people of the church. The morning services were by the Sunday school and the evening services by the Canadian Girls in Training of the Sunday school.

Greetings by Barbara McLean, of the Beginners' department, and a duet "Flow On, O River," sung by Jean McKone and Edith Culcheth, were greatly appreciated at the morning service, while an outstanding number was a monologue: "Let Me Live in a House by the Side of the Road," given by Helen Ross with a violin obbligato by Arnold Spencer.

The sermon was given by a pageant entitled, "The Lighted Torch." The lighted torch is the church and the only way that the torch will remain lighted is through the energetic work of the young people, who must rally to the church.

Those taking part in the pageant were "The Spirit of the Church," Jane Cathcart; "Service," Margaret Emerson; "Deeds of Service," Jean Doughterty, Agnes Richardson and Ruth McNeeley; "Chivalry," Vincent McLean; "Loyalty," Bill McPherson; Knights, Donald Purdy, Ormond Weir, Barclay McKone, Doug. McPherson, Jim Morrow, Jack McKone; "Brotherhood, Isabelle Cragg; "Love and Goodwill," Viola Dobbin and Jim Morrow; "Co-operation," Mary McPherson and Florence Trebilcock.

Recitation, choruses and solos were interspersed throughout the pageant. "We Will Light Our Candles," a duet by Jean McLean and Winnifred Dob-

EIGHT KILLED IN ACCIDENTS OVER WEEK-END

Death Toll Heavy On Roads

Eight Are Known To Have Been Killed in Accidents Over Week-end.

SCORE INJURED.

Two Little Tots Are Drowned Near Brockville While at Play.

TORONTO, Ont. June 10.—(Canadian Press).—At least eight persons were killed and a score or more injured in accidents over the week-end. Favored with perfect weather citizens of Ontario thronged the highways and beach resorts. Motor car accidents were responsible for the greater part of the toll of death and injuries.

Patricia Fulford, 9, and Eileen Badour, 8, were drowned at Brockville when they fell from the breakwater at Block House Island, while at play.

Omar Brown, 22 was killed when a car he was driving crashed into a truck near Whitby. He was alone at the time. The truck was damaged but the driver escaped injury.

Skids In Fresh Gravel

Nancy Hay, 15, daughter of a prominent Woodstock manufacturer was killed when an automobile in which she and several companions were travelling turned over in the ditch after skidding on some fresh gravel. The other members of the party escaped with cuts and bruises. Five young men were injured, one seriously, when a closed car in which they were travelling left the road near Oshawa, crashed into and broke off a telegraph pole and piled into the ditch. The five young men were taken to Oshawa hospital. James Devitt, Birch Cliff, said to be the driver of the car suffered serious cuts and bruises about the head.

Police Make Arrests

Several arrests were made by police as a result of accidents. While a number of constables and a coroner's jury were investigating the accident in which Omar Brown was killed another motorist is alleged to have driven through the crowd of officers at a great rate of speed. He was pursued and arrested.

James Northcott, North Oshawa, narrowly escaped death when the car in which he was driving crashed into a telephone pole at North Oshawa Saturday. Pronounced at the hospital to be under the influence of liquor he was arrested, charged with driving a car while intoxicated.

The Weather

Meteorological Office, Toronto, Ont., June 10 (Canadian Press).—A depression of moderate intensity is centred off the South Atlantic coast and another is moving eastward across Northern Manitoba, while pressure is high from the lower lake region eastward to the Maritime Provinces. The weather has been warm, with showers in the Western Provinces and fair and somewhat warmer from Ontario eastward.

Forecasts.

Lower Lake Region and Georgian Bay—Moderate winds; fair to-day and most of Tuesday; not much change in temperature.

Northern Ontario—Fair to-day; probably scattered showers on Tuesday.

Lake Superior—Moderate to fresh south-east to south-west winds; partly cloud to-day and Tuesday, with local showers or thunderstorms.

Manitoba—Partly fair, with local showers or thunderstorms. Tuesday—Partly cloudy and somewhat cooler; scattered showers.

Saskatchewan and Alberta—Partly cloudy and somewhat cooler tonight and Tuesday; probably a few scattered showers.

MOTOR TROUBLE COMPELS SWEDISH AVIATOR TO LAND

Seaplane Sverige Makes a Forced Landing On Iceland Coast.

TRYING NORTHERN ROUTE.

Cruiser Leaves With Gasoline —Day's Delay is Probable.

REYKJAVIK, Iceland, June 10. (C. P.) — The Swedish seaplane Sverige was forced down at Skaptaros on the south coast of Iceland by engine trouble.

Although Captain Albin Ahrenberg and his two companions fell short of reaching this city, where they were to refuel for continuance of their flight to New York, they were able to reach a safe haven despite the crippled motor. Their Junkers monoplane had encountered strong head winds after passing the Faroe islands, half way from Norwood, but by means of their radio they were able to keep the world informed of the situation.

One of these messages said that prospects for further flights were uncertain. The head winds had already put the plane behind its schedule, which was designed to demonstarte the feasibility of regular commercial air service over the northern route, and Captain Ahrenberg had planned only a two hour stop here.

Delay of at least a day appeared certain early this morning. The Icelandic patrol cruiser Fylla left with gasoline for the stranded fliers, but there was no expert mechanical assistance available. However Captain Ahrenberg carried with him mechanic Hans Ljungiund, besides Lieutenant Axel Floden.

It was not expected that the aviators would reach here until afternoon.

IMPRESSIVE MEMORIAL SERVICE HELD AT ALDERVILLE RESERVE

Orangism and Patriotism Were Keynotes of Several Addresses.

UNDER ALDERVILLE LODGE.

Tribute Is Paid To Fine War Record Made By Men of Reserve.

ALDERVILLE, June 10 (Examiner Staff Correspondence). — Orangism and patriotism was the keynote of the memorial service held at the cenotaph at Alderville yesterday. The service was under the direction of the Alderville Orange lodge, No. 1069. Several hundred visitors were present. Among the visiting brethren of the Orange Order were members from Campbellford, Polmont, Codrington, Cold Springs, Hastings, Brighton and Colborne and other places. Among those who were on the speakers' platform were Major the Rev. James Belford, Codrington; Fred Slade, the Indian Agent; Major J. M. Bygott, Campbellford; Frank Dauncey, County Master, East Northumberland; A. H. McKeel, designer and builder of the memorial; Henry Meiklejohn, Master L.O.L. 36, Campbellford; J. A. Anderson, Past Master of the same lodge; Gordon Parker, Reeve of Alnwick township; W. H. MacMillan, County Master of Peterborough County East; and others.

The service opened when the parade, headed by the Alderville band, arrived from the Orange Hall and took its place in front of the memorial. In the parade were the visiting brethren of the Order, followed by the local lodge. It made an impressive showing. Three wreaths were placed on the memorial. The one on the right, a large design from the memorial committee. In the centre was a wreath from the Campbellford Branch, 103, Canadian Legion, B.E.S.L. The third was placed to the memory of Archie Simpson, one of the men from the reserve who was killed overseas. During the service, three familiar hymns were used: "Onward, Christian Soldiers," "Rock of Ages," and "Abide With Me." It ended with the Rev. James Belford leading in the Lord's Prayer and the singing of the National Anthem. Music for the hymns and the offertory was furnished by the Alderville band.

The Speakers

Fred Dauncey was the first to speak. He reminded the people that they were there to pay tribute to the men from Alderville who had fallen during the war. He was pleased to see so many present and hoped it would be encouraging to the people of Alderville. Gordon Parker, Reeve of Alnwick and district master of Cobourg district, spoke along similar lines. W. H. MacMillan, country master of East Peterborough, said he had not been notified of the service till late Saturday night, and had not been told that he was to speak. Nevertheless he was pleased to be present at the memorial service to the men who had gone before and fought the battles at the expense of their lives.

Major Bygott, Reeve of Campbellford, greatly appreciated his association with the service. He had been present at the unveiling of the memorial and had very vivid memories of that occasion. Although he was not the official representative, he wished to bring greetings to Alderville from the Campbellford branch of the Canadian Legion. He said that that organization stood ready to be of service to the men of Alderville in any way and at any time possible. It had been his privilege to command a

Jack Parks Is Taken To Portsmouth Prison

WINDSOR, Ont., June 10 (C.P.).—Jack Parks, Peterborough jail breaker, was taken from Essex County jail at Sandwich late Saturday afternoon, escorted by two county constables for the Portsmouth Prison at Kingston to start a 5-year term for theft of an automobile. He had served out here the 30-day period allowed for an appeal against the stence.

Provincial police evidently have dropped several other charges pending against Parks, who escaped last April from the Peterborough jail and was recaptured in Moose Jaw, Saskatchewan.

News in Brief

(By Canadian Press)

MINISTER TO RATIFY AGREEMENT.

TORONTO, June 10. — Hon. Peter Heenan, Minister of Labor, will fly to Toronto on Tuesday to give the Federal Government's ratification to the agreement between Ontario and the Dominion for the province's entry into the Old Age Pensions scheme.

FOUR YOUTHS JAILED

ST. CATHERINES, Ont., June 10. —Four Hamilton youths, Albert and James Lowe, Clarence Smith and Thomas McConville, ranging in ages from 18 to 21 are locked up here following their alleged forced entry and robbery of the Wayside Inn east of Grimsby yesterday. Two of them, police say, were held up with a shot gun by the son of the proprietor and the other two were caught by police.

BODY IS NOT IDENTIFIED.

ST. CATHARINES, Ont., June 10. —The body of a man pierced with bullet-holes, taken from the Hydro Canal at Queenstown on Friday night, is still unidentified as a result of the statement of Mrs. Rapitch that it is not the body of her son, Robert Rapitch, 16, who disappeared from Tonawanda, N.Y., on May 19. The body was first thought here to be that of Rapitch.

RALLY TO LIBERALISM.

SIOUX LOOKOUT, Ont., June 10.—A great rallying of Liberalism throughout the province is seen by W. E. N. Sinclair, K. C., Liberal leader in Ontario, as one of the results of the northern tour which he is making with a party of his followers.

CANADIAN AVIATOR KILLED.

CHICAGO, June 10. — Ernest Stewart, aged 23, a student aviator of Toronto, was killed here yesterday when he attempted to land his airplane during a fog. Stewart's mother lives in Toronto.

EDUCATIONALIST NAMED

WASHINGTON, D.C., June 10.—(Canadian Press).—The Washington Post to-day says it has learned "from an infallible source" that Pope Pius XI has named Dr. Edmund A. Walsh, vice-president of Georgetown University and head of its foreign service school, as the Vatican's representative in negotiations for settlement of the controversy between the Mexican government and the Catholic church.

1,055 PILGRIMS HAVE ARRIVED IN TORONTO

Many Toronto Pulpits Were Occupied By Visitors Yesterday.

160 MINISTERS.

Tendency Towards Union Is Becoming More Evident in England.

TORONTO, Ont., June 10.—(By W. T. Aitken, Canadian Press Staff Writer.)— Great Britain's 1,055 pilgrims of good will and religious unity from the Free Churches of Great Britain were welcomed to Toronto yesterday by their official hosts, the United Church of Canada. Four train loads of the visitors were greeted at the Union station by officers of the General Council of the Church and by the hundreds of Toronto citizens who have thrown their homes open to the visitors for their two-day stay in the city.

Rev. T. Albert Moore, secretary of the General Council, who was in charge of the billeting arrangements, said that every member of the party had been taken in charge by a Toronto citizen and with the exception of a few who preferred a hotel, every pilgrim would have a chance of seeing a Canadan home and family. Of the 1,055 who disembarked from the White Star Liner Doric at Montreal Saturday night, 160 are ministers. Every United church pulpit and a number of others were filled at yesterday's services by one or more of these visitors.

Widely Known Divines.

Some of the best known of the Old Country divines who preached to Toronto congregations yesterday wer: Rev. Dr. J. D. Jones, the famous "J. D." of Bournemouth; Rev. Dr. S. M. Berry, one of the leaders of the English and Welsh Congregational church; Rev. Dr. A. Boyd Scott of Glasgow, noted as an author and poet; Rev. Mr. Edith Pickles, the only regularly ordained woman minister on the pilgrimage; Rev. Dr. Charles Stedeford, president of the United Methodist Conference of England; Rev. Dr. J. G. Sutherland, of Edinburgh, and Rev. W. Lewis Robertson.

Although the pilgrimage is referred to as a good-will tour its purpose is not pleasure alone. Rev. A. G. Sleep, of London, organizer and leader of the expedition said: "We are not on a picnic but to see in action Canada's great experiment on Christian unity and if our desire is fulfilled we shall carry back to England, 1,055 enthusiasts about Canada and Church Union." Rev. Mr. Sleep said there was a pathetic lack of knowledge about church union in the old country, "but it is hoped after the pilgrimage those who are now only impressed with its desirability will return convinced of its practicability," he said.

Union Tendency More Evident.

Various members of the party emphasized the fact that the tendency toward union was becoming more and more in evidence. Already the Presbyterians in Scotland have united Rev. R. H. B. Shapland, president-designate of the United Methodist Church in England, pointed out, union of the Wesleyan Methodists and the Primitive Methodists and his own body, the United Methodists is at present under consideration, he said. "The problem in the old country is quite different to the one faced in Canada," he added. "We have to deal with a past deeply embittered and in matters of policy we have many problems to solve."

One main characteristic of Methodism was the emphasis placed by all branches on religious experience, Rev. Mr. Shapland explained, and now in the present revival period of church organization "this common characteristic is pulling all elements together."

CAR TURNS OVER NEAR GROVE SCHOOL

Driver Lost Control As He Was Making Dangerous Curve.

(Examiner Correspondence.)

LAKEFIELD, June 10. — A car belonging to Everet Dunford of Lakefield, was badly damaged when it turned over at a dangerous curve near the Grove school, yesterday. Something went wrong with the engine, according to witnesses, and the driver lost control. There were a number of children in the car, but outside of painful cuts, none of the occupants of the car was seriously injured. The car was badly damaged as a result of the crash.

While the road is quite wide at this section it is more or less dangerous as there is a sharp curve at the top of the hill.

Purbach, an astronomer, published the first printed almanac at Vienna in 1457, called "Pro Pluribus Annis."

GYPSIES AROUSE WARSAW PEOPLE

Seven Carloads Arrive in the Village Early Last Evening.

ORDERED ON BY POLICE.

WARSAW, June 10 (Examiner Correspondence). — The village of Warsaw was greatly excited on Sunday evening about five-thirty when seven carloads of gypsies entered the village and word was received from the Lakefield police that it was believed they had stolen $20 from Flynns' store there. County Constable Henry Clements of Warsaw was asked to hold them.

The nomads arrived over different routes, one car coming down the second line of Douro to Stewart Miller's home, where one of his daughters was home alone. However, as they started to enter the grounds they were fightened off by the dog.

Another car came down the boundary line and stopped at Mrs. David Drains' home, where, it is said, they demanded soup for a sick lady, threatening to burn down the house and barns if they did not get it. They were refused and did not carry out their threat.

The band then combined and visited every store in the village, but did not create any mischief, after which they camped above the United Church. By this time the entire populace was alarmed.

Constable Clements quite cunningly held the gipsies until the Lakefield police arrived with Miss Flynn, when the roamers asked the constable the way to Ottawa, and he started to give them a northerly direction. On the arrival of the people from Lakefield the stolen $20 was recovered, but there was no arrest made. The band was then told to get out.

They started off but stopped two miles down the Scotch Line, near William Davies' place to get supper. Provincial Constable Harry Thompson of Peterborough was in the district and went immediately to the scene and ordered them to move, which they did. Mr. Clements said that he followed them all the way to Norwood.

PREMIER MACDONALD PLANS BIG DISARMAMENT CONFERENCE

May Invite Premier King To Conference With President Hoover.

CANADA INTERESTED.

Undefended Frontier Would Be Extended To Atlantic Ocean.

LONDON, June 10 (Canadian Press Cable). — The possibility of a disarmament conference at Washington between Premier Ramsay MacDonald of Great Britain, President Hoover of the United States, and possibly Premier W. L. Mackenzie King of Canada, was thrust into the forefront of political discussion to-day from two different sources. The Labor newspaper The Daily Herald said Premier MacDonald not only desired personal consultation with President Hoover on Anglo-American relations, but was willing to go to Washington for the purpose. The Sunday Observer yesterday had editorially urged such a gathering at Washington, where the undefended frontier between Canada and the United States could be extended to the Atlantic Ocean, as an undefended "frontier" between Britain and America.

The Daily Herald, organ of the Labor Party, editorially will say that Prime Minister Ramsay MacDonald desires personal consultations with President Herbert Hoover on Anglo-American relations, and is willing to go to the United States for that purpose.

If the meeting is arranged, the paper says, the British Cabinet will likely take the view that it is essential Canada be represented, and Premier Mackenzie King would probably be invited to represent the Dominion in the conversations.

NO BARRING ON RACIAL GROUNDS

Rev. W. H. Sedgwick Declares Sectarianism Should Not Enter Into Immigration Question.

TREATMENT MATTERS.

TORONTO, Ont., June 10. (C.P.)—"Canada should hesitate long before closing her doors against any people on racial grounds," declared Rev. W. H. Sedgwick, acting chairman of United Church Home Mission board at the Toronto conference of the United Church last night. "We do not believe that it is in the national interest that railroads and steamship companies should be allowed to pour thousands of immigrants into this country," he said, "and we certainly do not believe that sectarianism should have anything to do with the selection of our population."

He attacked what he called "The false assumption of the urgency of big population. No such urgency exists except on the part of some commercial enterprises. The spiritual interest of the country is greater than any material consideration. The adding machine is a great invention but it should not occupy the central space in our immigration system." He rapped "mollycoddling" of immigrants in stimulated immigration. "It matters not where immigrants come from or how they get here, but how they are treated after they arrive," he declared. There were three Dominion cabinet ministers, he said, who came here as immigrants, and he wondered how much help they were given here by fraternal societies for immigration.

KEPT THE BOYS AWAY

VIENNA, June 10.—A typist here recently sued her employer claiming that the confining work had ruined her eyes, causing her to wear glasses and for that reason caused her to miss several chances at matrimony. The employer countered with the remark that the glasses had improved her looks and had made her "interesting." The girl lost the suit.

A shark has been known to cover 800 miles in three days.

ORGANIST IS SUING SESSION OF CAMPBELLFORD CHURCH

Division Court Action Is Result of Dismissal of Organist.

CLAIMS SALARY.

Case Opens in Campbellford Before Judge Huycke.

CAMPBELLFORD, June 10.—(Examiner Staff Correspondence).—It is safe to say that the present session of the Division court is creating more interest locally and throughout the district than any session of court here has commanded for several years. There were but three cases on the docket and two of them were soon disposed of. The third is a matter of church law and proprietory and deals with the affairs of the organist, the choir and the officials of the church. Judge E. C. S. Huycke, Peterborough, is the trial judge and it is for him to decide whether or not Prynce Nesbitt, former organist and choir master of the church was wrongfully dismissed and whether or not he is entitled to the salary for which he asks. N. Alex MacCall, local barrister, is conducting the case for the plaintiff. Frank C. Kerr, K.C., Peterborough, is the defense counsel.

St. Andrew's Presbyterian Church dates back in the history of the town to the days when Campbellford was only a settlement in the forest. Then the services were held in a log building. At the present time, the church property is recognised as one of the most outstanding in the district.

Prynce Nesbitt was engaged as organist and choir master of the church in the month of November, 1928. In February, 1929 he was informed that his services were no longer desired and was given his salary to April 1. The case has been discussed from many angles by members and friends of the congregation till tempers have become more than warm and friendships have been strained and in a few cases, broken. When the court assembled Saturday afternoon at two o'clock, ever available inch of standing room and seating capacity was taken up. People jammed the stairs and hung in at the windows, eager to catch every word of the trial that is making history in the Presbyterian church in Campbellford.

The general opinion was that the case would be cleared up Saturday, but when six o'clock arrived and the proceedings had only nicely started, it was adjourned till ten-thirty Monday morning, and is continuing.

Plaintiff's Case

N. Alex MacCall, local attorney, opened the proceedings by a brief sketch of the facts of the case for the benefit of Judge Huycke. He said that Nesbitt had been engaged as organist of the church in the month of November 1928 and had been paid monthly up to March 31st at the rate of 800 per year. The present action was a suit for Nesbitt's salary for April, 1929.

W. W. Clarke, clerk of Session of St. Andrews Church, was the first witness called. He identified himself as that official and also identified the letter he had written engaging Prynce Nesbitt. It was dated October 8, 1928. Nesbitt, he said, had come to take the position in response to that letter.

R. N. Morrison, treasurer of the church, was the next witness called. He stated that he was the official treasurer and that all cheques were issued by him. He had paid Nesbitt's salary up to March 31st, 1929, as he had been instructed to do by both the session and the board of managers. He had paid him nothing since.

Claims Non-Suit

At this point, Frank C. Kerr, K.C., the defense counsel, claimed nonsuit on the grounds that Nesbitt had not rendered service to the church since that time and had not offered to do so. His honour did not substantiate the appeal and ordered the evidence to be proceeded with.

Prynce Nesbitt

Prynce Nesbitt identified the contract and letter. He said he had answered an advertisement for an organist in the church here and had received a letter asking him to come down and try out. He had done so. Next morning as he was leaving town, he was met at the station by James Massie, a member of the session, and asked how he liked the town, the church and the organ. He had also been told not to pay much attention to what another member of the session had told him about the church not being able to pay the organist more than five or six hundred dollars. J. A. Anderson had told him this, he claimed. Massie had said he hoped he would be given the position. Later he, Nesbitt, had received a letter telling him that he had been hired, and he came back to assume his duties. Then he told of the concerts which the choir had put on in order to raise money for the choir fund. There had been some objections apparently, and Rev. Mark had said that the music was unsuitable. He claimed that it might be sacred to Nesbitt but was not so to the church. A request for the organist to meet the session had followed and he had met them. The contract was produced and signed. After that he had played hymn tunes only, as he had been requested to do. The other music had been termed cheap and degrading by the minister, Nesbitt said.

Objects to Concerts

On Sunday, February 10th, there had been a tense atmosphere in the church at the morning service. When the time came for the announcements to be head, Rev. Mark explained that he had a painful duty to perform, but did not read the notice, saying that the concerts would be discontinued since the session had objected. Nesbitt asked him to read it and he did it then. Asked if it were unusual for him to speak to the minister during the service, Nesbitt said that he had corrected him on other occasions regarding the numbers of hymns, etc. Others had done the same thing. It was at that service that the minister had called a meeting of he congregation to "Fight it out." Nesbitt did not know what was to be fought out, but rather than have any scene in the church and on a Sunday, he explained that he would meet the session or members of the congregation at any time they wished, to discuss the matter, but he did not wish to do so on the Sabbath Day. Then he walked out of the church.

The following Sunday, February 17th, he had presented himself for work as usual. Members of the session met him downstairs and told him that he had been discharged. Having received no written notice of this, he was not willing to accept a verbal dismissal. Then they asked him into the vestry up stairs and there was a discussion there. This ended in a notice of dismissal being written and handed to him. He accepted it and sat in the congregation during the service. The notice was dated February 17, 1929, and was entered as exhibit three. During the week that followed, he had received another letter under date of February 23, 1929, which remined him that his services were no longer required and saying that this letter was sent as a precaution against any repetition of the affair of the preceding Sunday. It was intimated that he might not consider his notice legal since it was dated on a Sunday.

It was stated that Nesbitt was under contract for one year and that he was cashing the cheque he had received, not as notice of dismissal but as wages due and accruing.

A letter from W. W. Clarke to Nesbitt was exhibited. It claimed that Nesbitt had broken faith, assumed an attitude of rebellion, disturbed the sanctity of the service and appeared to have no deshe to obey the law. His services were no longer required.

Prynce Nesbitt, continuing his evidence, said that he had cashed the salary cheque on the twenty-eighth day of February, and had received no money since that time. He had made seven applications for employment and had received three replies. But there had been no further communications and he had not been able to secure a position. He was not asked about his services here but had given the minister's name here as a reference.

Plaintiff Cross-examined

F. D. Kerr, K.C., counsel for the defense, took over the examination of the plaintiff. To him, Nesbitt admitted that he was not familiar with the laws and government of the Presbyterian church. Before coming here, he had not played for any length of time as a church organist in any church. While here he had struck strictly to music which he considered sacred. This was the case at both the church services and at the concerts given in the church. Asked what he considered sacred music, Nesbitt, replied that any music written under inspiration was considered sacred.

A press clipping from the Campbellford Herald, Feb. 7, 1929, which was an account of an organ recital given by him, was examined in detail. The Barcarolle from the Tales of Hoffman, and Humoresque, were two of the pieces discussed. They were not humorous selections, he said, and he had seen them in music books authorized for use in churches. He was also able to name the volume. As for playing the Swanee River in the church, he claimed that he had played it with Humoresque and that he had only used about four bars, which would require only a few seconds to play. He considered this number the best piece of music that was presented that evening. In a Monastery Garden, a violin solo was also criticised, as was Reaping, a vocal solo sung by Miss Hazel Atkinson. There were other numbers as well. The concert which had been cancelled was to have been given with Mrs. Fred Free, Major J. M. Bygott and Frank Linton as the soloists. The remainder of the program was to be rounded out by numbers from Nesbitt himself. A notice to this effect had been inserted in the local paper and on the following day Mark had come to him and discussed music generally from the point of view of what was good and what was not. He had asked if the value of a piece of music lay in its appeal to the public. He was not referring to music from a religious angle only.

Session and Choir Meet

On Friday, Feb 8th, the session had met with the choir. On that occasion Rev Mark had taken exception to the Chopin composition, Waltz in A Flat on the grounds that it was dance music and should not be played in a church. He wanted some of the program numbers changed. Nesbitt had refused to do this, but had agreed to put on an entirely different program, if the session would draw it up to meet their own approval, or he was agreeable to cancelling the program entirely.

They would not do this, he claimed. At this time, he was aware that there had been a motion passed by the session, disapproving of the concert. He was also certain that the concert had been announced as the last one.

The much discussed announcement was entered. Nesbitt said that Mr. Mark did not read it at all at first, but tried to give the impression that Nesbitt had wished to continue the concerts. He had asked the minister if he would kindly read the announcement. Nesbitt also admitted writing a note to the president of the choir, and said it was not out of their hands. That there was more talking than usual among the choir members was due to the type of sermon which was being preached, not to the note.

Friday, Feb. 15, there had been a meeting of the choir, and several members of the session had attended. The discussion had ended in a letter being sent to the session, saying that the choir would assume full responsibility for the sacred concerts. He was told that if he would apologise to the minister things might acquiesce. He did not believe he had anything to

so of Windsor had his leg broken when he was knocked down by a car.

Shot By Brother

STRATFORD, June 10.—(Canadian Press)—John D. McTavish, 12-year-old son of Mr. and Mrs. Alex. McTavish, residing on the Shakespeare highway, one mile east of that village, was shot and almost instantly killed yesterday afternoon by a bullet from a 22-calibre rifle in the hands of his 15-year-old brother Peter.

The boys with their dog, were on the way back to the bush at the rear of their father's farm to shoot groundhogs.

Hydroman Electrocuted

ST. THOMAS, June 10.—(Canadian Press).—Anslem Clements, 30, a hydro employe, was electrocuted yesterday morning when he touched a high tension wire in the tower situated a short distance west of Lyons. Coroner Sinclair of Aylmer decided an inquest was unnecessary. Clements, who was a Finlander, lived in Toronto.

Traffic Officer Killed

OTTAWA, Ont., June 10.—(Canadian Press).—Traffic officer Myles Campbell of the county Carleton Place police force, was instantly killed yesterday when struck by an automobile on the Montreal road, a few miles from Ottawa.

George Gould, of this city, who was driving the car that struck the policeman, was arrested on a charge of manslaughter. He was later released on bail of $10,000 and the case was remanded for hearing until next Tuesday.

IMPRESSIVE MEMORIAL

(Continued from Page 1)

company of the 93rd Battalion, and he had nineteen men from Alderville with him. Of them he spoke in the highest terms. Although he was not a member of the Orange Order, he was glad to be associated with it on this occasion.

A. H. McKeel, designer and builder of the memorial, was the next speaker. There was a round of applause as he rose to speak and also at the conclusion of his remarks. He said he felt lonely because of the absence of his son who had helped him in the memorial work, and because of the absence of others he had known while working there. He appreciated what the men from Alderville had done for Canada, pointing out that while it was the white man's duty to go to the war, the Indian could not be conscripted but volunteered just the same. He had been made an honorary member of the Campbellford branch of the Legion and would not trade the honor for the highest position in the Dominion. He deemed it a privilege to be thus permitted to associate with the men who had fought the battles of his country. Of the Indians, he spoke in the highest terms, referring to them as good workmen and staunch patriots. It was such men as those from Alderville, he said, who had preserved the freedom of the British Empire. They were true friends and would protect a friend with their very lives. He wished them all prosperity within the reserve. Harry Meiklejohn and J. A. Anderson, also spoke. They dealt briefly with the great sacrifice which the men from Alderville had made and expressed their appreciation for having had the opportunity of taking part in the service. They also said that the Campbellford lodge would be pleased to be of assistance to the Alderville lodge at any time.

Major Belford.

The principal speaker of the afternoon was Major the Rev. James Belford of Codrington. In his usual fluent manner, he said he was always glad to come to Alderville and see the standard which the Indians had set for the white men. The reserve had a high percentage of enlisted men. These men had not only joined the army, but had gone to war. By that he meant that they had gone to the front and fought in the battles. There was a big difference in going overseas and going to the front. And the Indians had suffered heavy casualties.

It was his desire, he said, to link up Orangeism and patriotism and service. Alderville Lodge was an old one, he said, and had set a good example during the war. Orangeism was devotion to God, and the Indians were fighting on the side of God. Right and Justice were with them. Everything, in fact, that called out the chivalry of manhood was on their side, and by the same token, on our side. The Indians had learned their patriotism from their government agent, from their missionaries, and from their Orange Lodge. The lodge, he said, stood for several things: for God, for the Bible and for real religion. There were many fancy religions but Orangeism stood four-square on the Scriptures. Its members were trying to follow in the paths as set down there. Their ideals stood for sacrifice and for loyalty to the King and to the country. Every Canadian must look back upon the Union Jack and its traditions. They must recall how the Union Jack had led the way and the forces of civilization had followed. To be an Orangeman, a man must be one hundred per cent. British or he was not wanted.

In the Indian there was no British blood. Their fathers had owned the country and it had been taken from them by the white men with small recompense. During the war they were the allies and friends of their white brothers in arms. Thus Orangeism taught patriotism. It was different from the code of Germany, "We crush with the Iron Hand." The Union Jack, he said, stood for freedom of speech and freedom of thought, the freedom which allowed him to stand on the platform and express his beliefs just as it would permit another to follow him and express the exact opposite. Just as the Orange Lodge and the memorial linked the two phases of life in Alderville, so was mutual support necessary in all walks of life. The man who set out to go through life alone was making a mistake. He could not get along without friends. Orangeism stood for a brotherhood among men and fellowship with God. The former principle was exemplified during the days of the war.

Much had been said and many reflections cast about members of the Order, but those days were past. No better teaching than Orangeism could be found anywhere. Members of the Order strove to follow that teaching although they made many mistakes because they were human and not incapable of error. In conclusion, the Rev. Major Belford thanked those present for the encouragement they had shown the Alderville Lodge. He reminded them that it had suffered heavily through casualties during the war, and claimed that no other lodge in the county had such a glorious history. He also thanked the County Master for the spirit of brotherhood they had shown in coming such great distances in order to be present. A. H. McKeel, Campbellford, was also complimented for his fine work in Alderville and for the keen interest he had taken in the affairs of the returned men in Campbellford and other places in the district.

The service endad with the Lord's Prayer and the National Anthem. The parade returned to the Orange Hall, where the members assembled for a brief session and heard addresses from the visiting officials and brethren.

TO SETTLE DEBT QUESTION

BRUSSELS, Belgium, June 10—Negotiations between Belgium and Germany on the German marks question, which for a time threatened full agreement on the reparations settlement, will start in Brussels on Monday and are expected here to be concluded by the end of the week.

HUGE MOOSE VISITS TOWN

Early Morning Risers at Campbellford See Strange Sight On Saturday.

DISAPPEARS INTO WOODS.

CAMPBELLFORD, June 10 (Examiner Staff Correspondence). — Early risers rubbed their eyes and looked again, and late prowlers blinked stupidly, and wondered what it was all about, when they saw a strange animal strolling peacefully along Bridge Street a few minutes after six o'clock on Saturday morning. Some of the local wits suggested that Campbellford had assumed the role of Birdseye Centre. Others claimed that the animal was a Presbyterian, since it left its trail across the manse lawn when it took its departure. Nevertheless, the fact remains that a full grown moose, supposed to be about three years old, roamed Bridge Street as far as Rear Street at least, during the early hours of Saturday morning. When the first business men began to appear for their daily round, it decided that it was time to leave.

As nearly as can be learned, the animal came to town via the old C.N.R. right-of-way that has been abandoned for several years. One man who resides in that section of the town was getting dressed, when he chanced to glance out of his window and saw the animal trotting down the old track way. He was a little excited and wondered what it was caused people to see such things at such an early hour. His calmer story is that the moose has been ranging with a herd of dairy cattle that is pastured in that vicinity. It was about ten past six when he saw the animal coming down the track.

In town, several people saw the animal. The first to see it called their friends by telephone, and in more than one case, received a hot reply and were requested to mind their own business and not try to be funny so early in the day. But the joke was on them; there really was a moose. When first seen, it was on Bridge Street, pretty well down toward Front Street. But a farmer with his milk wagon appeared on the scene and it retired to the library lawn. Its stay there was short because a butcher with his truck came along and frightened the monarch of the forest so that it turned tail and made off in a southeasterly direction over the manse lawn. Further south, toward the corporation limits, it got into trouble with a wire fence, but managed to extricate itself, and disappeared.

Various reports of a deer having been seen in the locality lately seem to have been verified by the moose's appearance in town. Last Wednesday a deer was reported near the Innes farm just west of West's Corners. Other reports have also filtered in. Although the incident caused quite a stir, it may not be as strange as it at first appears. It is not so many years since this section was well stocked with game. The advance of civilization had, of course, changed this condition. There still remains the unmistakable trace of a deer runway through Ferris' Woods, and it was in that direction that the late visitor took his departure. A few years ago a moose appeared in the district and caused quite a little commotion. It managed to become hopelessly entangled in a wire fence near Healey's Falls, and had to be killed.

CATTLE, GRAIN, PRODUCE

WINNIPEG GRAIN.

WINNIPEG, June 10.—Saturday's wheat market finished the session with final quotations ¼c lower to ¾c higher. The Manitoba Free Press crop report sent prices forward at the opening 1c to 1 5-8c by stating conditions in Western Canada were not as favorable as expected. An official weather forecast issued later, predicting scattered showers throughout the West, wiped out the early advances.

The market firmed near the close, with July wheat finishing with a gain of ¾c, October ¼c, and December showing a loss of ¼c.

Trading was light in cash wheat, with prices on the various grades unchanged to a fraction easier. Very little export business was reported.

Coarse grain trading was practically at a standstill, the only real business occurring when a small export demand appeared for high-grade oats. The other coarse grains were neglected, and prices held unchanged.

CHICAGO GRAIN.

CHICAGO, June 10.—Indications that all was not rosy with agricultural prospects in countries competing against the United States did much to hoist wheat values in Chicago Saturday. Canadian advices in particular told of persistent widespread dearth of moisture threatening to curtail the 1929 Canadian wheat crop. On the other hand, the majority of traders here were expecting an official crop report from Washington which would suggest a materially larger domestic yield of wheat than was forecast a month ago.

Closing quotations on wheat were firm, ½c to ¼c above Saturday's finish. Corn closed 1¼c to 2 1-8c up, oats ¾c to ½c advance, and provisions unchanged to a rise of 12c.

Dry weather complaints which were unexpectedly serious from Canada came also from Argentina and Australia, supplementing bullish market effects of the farm relief outlook. Winnipeg despatches said reports from 335 points in the Canadian North-West showed more or less urgent need of rain. It was added that winds also had done considerable though not irreparable damage to Canadian wheat at more than 100 places. Owing to previous advices of severe shortage of subsoil moisture in Canada the fresh reports Saturday pointing to worse conditions led quickly to increased buying of wheat future deliveries here.

Adding to the incentive for wheat-purchasing were cables from Argentina saying there had not yet been rain enough in that country to counteract the evils of the recent prolonged drought. Moreover, despatches at hand said moisture supplies remained deficient in eastern sections of Australia, and that the wheat crop of New South Wales especially required heavy rains.

Top Prices Are Not Maintained.

Uncertainties about the tenor of the expected official crop report from Washington operated to prevent the day's top prices here from being fully maintained, but were far from changing the general drift of sentiment favorable to the buying side of the market. According to some predictions, the Washington report was likely to suggest a 1929 domestic wheat yield of 950,000,000 bushels, including 630,000,000 to 650,000,000 bushels of winter wheat, the latter comparing with 532,000,000 bushels as the average recent unofficial estimate and 595,000,000 bushels, the Government forecast a month ago.

Corn Prices Advance.

Corn throughout the day showed a decided upward trend. Traders who have recently been active sellers of corn future deliveries gave evidence of being uneasy over continued smallness of receipts and because of lack of rural offerings. Good demand for corn to be shipped out of Chicago was apparent. Oats also were influenced by better shipping call and by lightness of the country movement.

Provisions averaged higher, owing a good deal to buying of September lard for houses with connections East.

WEDDING BELLS

BROWN—WHITTAKER

A pretty June wedding was solemnized at St. Luke's Church, Tuesday, June the 4th, at high noon, when the Rev. J. Bousfield united in the holy bonds of matrimony, Irene Emma, youngest daughter of Mrs. Flora Whittaker of this city, to Allan George, eldest son of Mr. and Mrs. William Brown of Otonabee.

The bride, who was given away by her brother, Samuel Whittaker, looked lovely in her gown of blue embroidered georgette over sand, with sand hat, shoes and hose to match and brown fox fur. She wore a corsage bouquet of lily of the valley and Ophelia roses.

Following the ceremony a recepton for the immediate friends was held at the home of the bride's sister, Mrs. J. Burgess, Rogers street, after which amid showers of confetti, the young couple left on a motor trip.

CANADA'S ARCTIC CITIZENS

There are approximately 6,000 Eskimos in Arctic Canada, scattered in small groups in the Arctic islands and along the northern sea-board.

A GREAT POET PASSES.

The death of Bliss Carman, one of Canada's most gifted and most beloved bards, has caused genuine regret throughout the Dominion.

The spirit of Canada breathed in the writings of Carman, who loved the great open spaces and the rivers and lakes of his native land, and transferred much of their beauty to his delightful poems, which have been read and loved the world over.

Born in New Brunswick, a descendant on both sides of his family from the United Empire Loyalists, Bliss Carman was every inch a Canadian, despite the fact that, like many another Canadian writer, he had to seek a market for his literary wares outside of his home land, and for many years was a resident of the United States, where, however, he stoutly adhered to his British citizenship.

He wrote many beautiful things, some of which at least will live to keep his name ever green, and in the Canadian Hall of Fame there will doubtless be a permanent place for the name of a native son who left such a rich heritage of entrancing poetry.

PROTECTION NEEDED.

A danger spot from an accident hazard viewpoint is the intersection of Reid and McDonnel streets, a corner where the traffic is unusually heavy and where a number of narrow escapes from serious injury has been recorded recently.

Many motorists are of the opinion that Reid street should be made a stop street at this point, and that traffic entering McDonnel street there should be compelled to come to a full stop before proceeding.

Stop signs at this intersection would undoubtedly contribute materially to safer driving conditions there, as the present system is decidedly dangerous in view of the heavy traffic along Reid street to and from Chemong and Lindsay.

The authorities would be well advised to study the conditions for themselves, and motorists are satisfied that if they will do so the protection asked for would be provided speedily.

The stop street plan, which has given such good results, should be applied to all such dangerous points.

WHY NOT ENFORCE IT?

Despite the fact that the law requiring automobile drivers to have an operator's license has been in force for nearly two years, there is a feeling that it is not functioning as it was hoped that it would because it has not been enforced with the strictness that its importance deserved.

It was hailed on its introduction as a valuable check upon careless driving and as a regulation that would speedily eliminate the unqualified motorist.

It might have done so had it been operated with that end in view rather than merely as another source of revenue for the Government to tap.

There has been, in fact, such a half-hearted effort to enforce this measure that it is no wonder that many people have come to regard the law as of no importance, and that hundreds of people are driving cars in all parts of Ontario who are without the operator's license that the regulation says they must have.

A systematic check-up and the imposing of heavier penalties for driving without a license are needed if the law is to accomplish anything.

Drivers are not afraid to take a chance at the present time, knowing that there is only one chance in a hundred of getting caught and that if the worst comes to the worst, there is only a small fine to pay.

THE SECRETARY RETIRES.

The directors of the East Peterborough Agricultural Society recently made a presentation to John E. Roxburgh, who has retired from the secretaryship of the organization after many years of service.

Mr. Roxburgh, as was his father before him, has been an unceasing and energetic worker on behalf of the Norwood Exhibition, and in no small measure the growth and expansion recorded by that splendid annual event can be attributed to his work.

Residents of the whole district who know how much of himself Mr. Roxburgh threw into the activities of the Norwood Exhibition will echo the appreciation of his services expressed by the directors.

In every community there are a few public-spirited citizens upon whose shoulders falls the burden of keeping community enterprises moving.

Such has been the case with Mr. Roxburgh in Norwood, and now that he has relinquished the duties of his responsible position, it is timely perhaps to pay tribute to what he has accomplished and to the ungrudging services he has rendered.

THE AMERICAN CRIME COMMISSION.

(From the New York Evening World)

Only the most captious critic can possibly find fault with the personnel of the President's National Law Enforcement Commission just announced. It is difficult to see how it could have been improved upon. Some of the members are among the most eminent Americans in public life to-day, noted for their intellectual qualities and fine traits of character. George W. Wickersham, who heads the commission, is one of the leaders of the American Bar who has also long commanded admiration because of his wise and intelligent views on public problems not directly associated with his profession. Newton D. Baker was probably the outstanding intellectual figure of the Wilson Cabinet, and he ranks among the most brilliant members of the Bar. Roscoe Pound, Dean of the Harvard Law School, is a thinker of note, both as law instructor and publicist. And Judge William S. Kenyon was one of the keenest, fairest, most independent and courageous members of the progressive group of the Senate before he went upon the Federal Bench. The others, while not so generally known, are persons of note and character.

If the purpose of this commission were confined to the study of the failures of law enforcement and the weaknesses of judicial procedure it would be impossible to conceive of a stronger body of men or one more likely to command public confidence. Or if this were the commission promised by the President during the campaign, to study prohibition in all its phases, with the view to recommendations looking to possible modifications of the law to make to conform more nearly to public sentiment and human nature, neither wet nor dry would have occasion for criticism.

The fact remains, however, that whatever these men may think of the necessity of modifying present prohibition law to make possible real enforcement, they are apparently bound to consider the law itself as beyond criticism and to confine themselves to the impossible task of finding means rigidly to enforce it. The weakness, and we had almost said the trickery, in the plan behind the commission is in the fact that under that plan these men are apparently expected to close their eyes to the essential difference between such laws as those against murder, robbery, arson, embezzlement, forgery, and the law making it a crime for men to drink beer or wine. It is possible that they may place their own interpretation upon their functions and approach the study of violations of the prohibition law from a different angle than that from which they study ordinary crime. Let us hope they will find a way.

It was the understanding during the campaign that Mr. Hoover would name a commission to study the prohibition scandal. By making this a part of the general study of lawlessness we are afraid the promise has been evaded. However, it is gratifying to find the personnel of the commission such as to promise much for the reform of the administration of criminal law.

NO ONE STEERING.

Whenever the Government is under fire for its failure to develop an aggressive immigration policy, the Minister, Hon. Robert Forke, falls back upon the defence that attacks upon the Government immigration policy are inconsistent; sometimes the Government is attacked because it is permitting too many people to come to Canada; sometimes because it is not bringing in enough; sometimes because it does not encourage continental immigration and sometimes because too many continentals are arriving. The Minister's defence is a weak one.

The Canadian people present as many different ideas on the tariff as they do on immigration; they have as varied viewpoints on public ownership, on banking policies and on taxation, and yet Governments do not hesitate to formulate policies on all these matters. The duty of a Government is to give leadership, to work out the policy that it conceives to be in the best interests of the country and then to pursue that policy fearlessly and thoroughly, in an attempt to make it work, reserving always the right to modify the policy in the light of experience.

It can hardly be said that the Government has a well-defined immigration program. It is allowing matters to drift and is fairly well satisfied with results under this policy of drift. As a matter of fact, the country's small immigration effort at the moment cannot be called a complete failure, for we are gaining a considerable number of very desirable immigrants. We are getting a good share of the emigrants from Britain, more than any other single country, even including the United States. During 1928, 54,709 people left Britain to come to British North America, 33,689 went to Australia, 22,345 to the United States and only about 25,000 elsewhere.

Canada's total immigration for the year to March 31 last was 167,722. This included 58,800 from Britain (among whom over 6,000 returned miner-harvesters who subsequently returned), 30,560 from the United States, 29,579 from the preferred countries of Northern Europe and 48,703 from other countries.

Viewed another way, by racial origin rather than by the countries from which they came, the 167,722 immigrants included 75,581 Britishers, 41,059 North Europeans and 51,082 of other races.

Last year Canada welcomed home 33,793 Canadians returning from the United States, making total arrivals from that country 64,353 against 57,300 reported as leaving Canada for the United States. The balance of 7,023 in our favor represented a considerable change from the previous annual net losses to the United States.

It seems to be true, though, that this more favorable trend in our immigration movement is directly the result of greater prosperity in Canada rather than of any forcefully applied policy of Ottawa. When we compare last year's immigration of 16,000 with 262,000 in 1908, 208,000 in 1910 and between 300,000 and 400,000 each year from 1911 to 1914, we cannot claim to be maintaining our pre-war position. Mr. Forke contends that the pre-war immigration effort proved a failure in that the 1,761,425 people who came to Canada in the five years from 1910 to 1914 were not digested, most of them left the country, and Canada gained nothing from the movement. But Mr. Forke overlooks the depressing effects of the long war, the slowing up of construction developments as a result of the war, and the prolonged post-war depression. The war and post-war slump are now happily past and Canada faces such an era of prosperity as will insure the rapid and permanent absorption of large numbers of new citizens. Mr. Forke's own Government is as well entrenched in the seats of office as any Government has ever been in Canada after seven years of office and has it in its power to conduct a forward-looking and constructive policy that will help to maintain general prosperity in Canada. — Financial Post.

EDITORIAL NOTES AND COMMENT.

"It won't be long now" is the slogan round Old Home Week headquarters.

Apparently Kitchener is one place where liquor control is a phrase of more or less doubtful significance.

Nobody has sent for Lloyd George yet, but the Liberal leader's inning will come before long.

Probably those members of Parliament down at Ottawa think that an increase in sessional indemnities would be another good proof of Canada's prosperity.

It looks as if Uncle Sam will have to do it himself if he really wants to keep Canadian liquor out of the Republic.

After Saturday's ball game, Umpire William Skitch, of Cobourg, would have some little difficulty in being elected mayor of Belleville.

A Chicago automobile dealer advertises that he stands behind every car he sells. Good thing he doesn't sell mules.—American Lumberman.

"The only people I have heard speak English as it should be spoken were an Indian and a Scotchman."—Sybil Thorndike.

A Thought

PREPARATION

At least half of the battle lies in preparation. Putting a uniform on a man does not make him a soldier, placing a gun in his hands does not make him a marksman, and lining up a million men does not make an army. Preparation is what does the trick.

Horoscope

The Stars Incline, But Do Not Compel

TUESDAY, JUNE 11, 1929

Good and evil planetary influences contend today, according to astrology, but benefic aspects are strong.

It is read as an unfavorable rule under which to sell real estate or to engage in land speculation.

Farmers and all who draw their sustenance from the earth should exercise extreme thrift in managing their affairs, for unusual weather conditions may cause losses.

Under this direction of the stars there may be a trend toward depression and lack of confidence in one's ability to accomplish anything worth while. Rest and recreation will restore the energies.

This may not be a favorable sway for surgeons who should delay the most serious operations.

Plans long considered may be found impractical while this configuration rules, but disappointment should be banished as better things are indicated.

Late in the afternoon there is a rather good sign for all who are in search of positions of the higher class.

Men and women of trained minds and first rate experience should benefit today which may present obstacles that can be overcome.

Under the planetary government of the early summer days the outlook for business of every sort appears amazingly bright.

Banks will gain in the scope of their activities and financiers will accomplish great national aids in the period of prosperity.

Again the stars seem to favor bring purchasers intocloser con- that bring purchases into closer contacts with the purveyors of merchandise.

Women are to succeed in many lines of business not usually entrusted to them, if the stars are rightly read.

Persons who birthdate it is have the augury of a year in which they must avoid speculation. There may be a tendency to enter into quarrels or dissensions that should be avoided.

Children born on this day probably will fine intelligence and high ambitions. Many reach the top of their professions.

James Constable, famous painter, was born on this date 1776. Others who claimed this as a birthday were William Robert Brooks astronomer, 1884; James Teschemacher, scientist, 1780; Eli Thayer, educator and statesman 1817.

Why We Do What We Do.

WHY A MAN LIKES TO GET BEHIND A GOOD CIGAR.

"What this country needs is a good five-cent cigar," said the genial and witty Vice-president Marshall during the days of high prices. That saying made a great hit. It has become classic.

Whether you are a smoker or not, you have doubtless observed the keen satisfaction and air of contentment on the face of the man behind the cigar. This is especially noticeable after a meal. A meal without a good cigar is lacking in some important particular. It's like the proverbial apple pie without the cheese or the kiss without a squeeze.

One of the important laws of the body-mind combination is that when any instinct or urge or desire is present, a person is uneasy until that want is satisfied. We want what we want when we want it. Take the instinct of hunger for example, with the strong desire to take nourishment. The hunger person is uneasy, restless, crabby. The good salesman will avoid the hungry brute.

Incidentally this will explain why pugilists training for an important bout become grouchy and unmanageable as the fight approaches. This grouchy attitude is the best sign of being in the "pink" of condition.

Any urge to action produces a state of restlessness in a person. It is nature's way of keeping us at it until the want is met. If the slightest opposition disheartened us we should starve to death for lack of persistent effort to get food.

A habit has the same force as the instinctive drive. It may be even stronger. The narcotic and alcohol habits are good examples of the strength of habits and the state of uneasiness set up by the absence of the drug and the alcohol which temporarily satisfy the craving and allay the habit.

The habit of smoking may not be as strong as that of narcotics and strong drink. But it is nevertheless a habit which sets up an "itching" in the nervous system, an uneasiness that persists until we light a smoke.

Now, the case of the peaceful and contented look on the face that is behind the cigar after a good dinner, there is a double satisfaction. In addition to allaying the fundamental instinct of hunger there is the allaying of a habit. The two seem to reenforce each other.

What more could a man ask than a good meal and a good cigar? The world is his. Why shouldn't he look the picture of contentment. He feels like the college youths who sing, "If care must come, it comes to-morrow. To-day our hearts are bold and strong."

(Copyright McClure Newspaper Syn.)

LARGEST MOTORSHIP

BELFAST, June 7.—What is said will be the largest motorship of its kind is being constructed here. It is to be 1000 feet long, weigh 60,000 tons and have the biggest Diesel engine installation and electrical plant yet employed at sea. One thousand horsepower is expected to be deevloped in the engines used. It is being constructed for the White Star line.

The Tule Marsh Murder

By NANCY BARR MAVITY

Story of a Missing Actress and the Taxing of Wits to Explain Her Fate

THE STORY THUS FAR

Don Ellsworth's wife, formerly the famous actress Sheila O'Shay, disappears, leaving no trace. Dr. Cavanaugh the great criminal psychologist learns that their married life has been very unhappy.

Peter Piper a reporter on the Herald, tries to get an interview with Dr. Cavanaugh. Instead he meets Barbara Cavanaugh, the attractive daughter, and finds that she was engaged to Don Ellsworth before his marriage.

An unidentified body is found in the tule marsh outside the city. It has been burned by a fire in the marsh until it is entirely unrecognizable except for the fact that it is a woman. Dr. Cavanaugh is called in to help with the identification. The only thing by which the body can be identified is a patch of scalp with some hair attached. Dr. Cavanaugh takes this home with him. He asks Don Ellsworth to secure for him a strand of Sheila O'Shay's hair, and Don violently refuses. Dr. Cavanaugh goes to the Ellsworth house to see if he can secure the needed hair. Mrs. Kane the waiting woman who has been with Sheila O'Shay throughout her career, is suspicious and hostile, but Dr. Cavanaugh gets what he is after.

CHAPTER 15

Dr. Cavanaugh carefully tucked the hair between thumb and forefinger into the envelope which lay ready in his coat pocket. The gesture was apparently merely that of reaching for a folded handkerchief, with which he dabbed his fingers after restoring the teeth to their owner.

Mrs. Kane with a sublime disregard of germs and complete lack of embarrassment, popped the teeth into her mouth.

"But aren't you, to say the least of it, interested in knowing the fate of the lady to whom you have been so long devoted?"

"Devotion's neither here nor there," Mrs. Kane responded cryptically. "I guess I'll find out all I need to know soon enough—maybe sooner."

"Perhaps. And yet I take it you would want to do all in your power to bring the criminal — supposing there is a criminal—to justice." Dr. Cavanaugh spoke with a mild positiveness, as if stating an obvious fact.

But Mrs. Kane was not accepting any statement merely because it was positively made.

"Justice!" she retored with an angry snap of her jaws. "What good would that do?" Justice generally is just somebody's fool notion of the way other folks' affairs ought to be fixed for them. Besides, you've got a long way to go to prove that there's any criminal in it at all."

"Oh, yes, quite." Dr. Cavanaugh waved the point aside as if it were not worth arguing.

"I reckon a lady could leave her house without being murdered. There's plenty that does, anyway."

"You're quite right. It isn't certain." Dr. Cavanaugh conceded. "Still, I believe you were the one who was sufficiently worried over Mrs. Ellsworth's absence to notify the police."

"Yes, I did that, I already told you I was mad at the way Mr. Ellsworth acted. And if Miss O'Shay comes back, she may call me a fool for my pains. I wouldn't be the first time she's done that. At any rate, letting the police know she's gone is different from getting her mixed up with the murdered corpse of some nobody that Miss O'Shay probably wouldn't touch with a ten-foot pole. If Miss O'Shay ever got killed, she'd see to it that it was done with more-more- style!"

Dr. Cavanaugh's wandering gaze unobtrusively followed the movements of Mrs. Kane's bony fingers plucking at the folds of her skirt. He was listening more to the modulations of her voice than to her actual words. Was there an undercurrent of acute anxiety beneath these disconnected asseverations?

"Unfortunately, one cannot always control the stage setting in such matters," he said dryly. "I'm sorry you don't feel inclined to help us out; but if you won't, I suppose you won't."

He picked up his hat from the table, and spoke with the mild disappointment of one who has been refused a subscription to his pet charity.

"Well, I won't, so you might just as well quit right now!" The click with which Mrs. Kane's teeth dropped into place was a very determined click indeed.

As he switched on the lights of the car, it occurred to Dr. Cavanaugh that not once had she referred to the missing woman as her mistress, nor addressed him in any other fashion than as an equal.

It was late when he entered the lamp-lit serenity of his most unofficial looking office, but he lifted the wooden box containing his microscope from a cabinet which looked better suited to liquor bottles than laboratory equipment, deftly transferred the hair to a glass slide, and for a long time sat motionless at his desk, one eye glued to the instrument. Without looking up, he transcribed a series of minute, indecipherable notes on the sheet of paper under his hand.

Barbara, returning from her party, saw the thread of light under the office door. She hesitated a moment, her hand lifted to knock. Then, with a weary little shake of it and flitted noiselessly up the stairs.

The next morning, at an hour when most late-hour folk have yet to begin consideration of breakfast, Peter Piper was also experiencing hesitations and head-shakings.

"It's one peach of a good murder!" the city editor said with the appreciation of a connoisseur. "We ought to get Cavanaugh's report in time to make the home edition—Camberwell said he expected it some time this morning. You never can tell about these 'Experts'; but if he doesn't turn up anything, play it up anyway as you can, and we'll nurse it along. You drop everything else, Piper, and stick to Camberwell. Stick if it takes all day. You might telephone in occasionally."

"Right."

Peter, the inevitable copy paper bulging from his coat pocket, lounged out of the local room. But he was not whistling. He was meditating disobedience to the city editor's orders—which meant the imminent and definite risk of losing his job, and, what was infinitely worse, of "falling down on a story." But if his hunch was right, he stood a chance of getting that report at least a full half hour before the boys gathered in the press room at the city hall—getting it in time to beat the opposition, and getting it direct from Dr. Cavanaugh, himself.

He stood for a moment outside the entrance to the "Herald" building, and even took a few steps in the direction of the city hall. Then he shook his head and darted across the street, pursued by indignant squawks from the horns of intervening trucks. A moment later the sputtering with which "Bossy's" engine always preceded going into action was accompanied by a low, lugubrious whistle.

Peter was banking everything on a girl whom he had seen only once, a girl with whom he had matched wits as an antagonist—a girl who would have no idea what it meant to hear Jimmy say: "You may call at the cashier's desk for your money"—a girl who would think it a matter of no importance whether you let your paper down. And yet he was banking on her!

(To be continued)

Lyrics of Life

By Douglas Malloch

DESERT DAYS.

Above you angry mountains toss
Their heads, and there streams to cross,
And sometimes it's the crooked trail,
The tangles wood, the windy gale;
And then you come to some low plain,
No tree, no brook, no mountain-chain,
No hill to climb, no dip, no raise,
And know the time of desert days.

But sometime, sitting by your fire,
(For so the wanderer will tire),
When hands grow heavy, limbs grow cold,
(For so they do when men grow old),
You will remember streams you crossed,
And heights you gained, and heights you lost,
But seldom will your memory gaze
Along the path of desert days.

Life has its rivers and its rills,
Its depths of sorrow, and its hills,
And oftentime the heart complains
For endless peace and level plains.
But when old age may sit at last,
And memory review the past,
You will regret not harder ways
But the lost hours of desert days.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them published.

SOMETHING FOR DOG CATCHER

To the Examiner:

Why is the south-end allowed to have so many stray dogs running over people's gardens? Some are tied up at daytime and allowed to run at night?

—One Who Suffers.

POLICE DID WELL

Editor, Examiner:

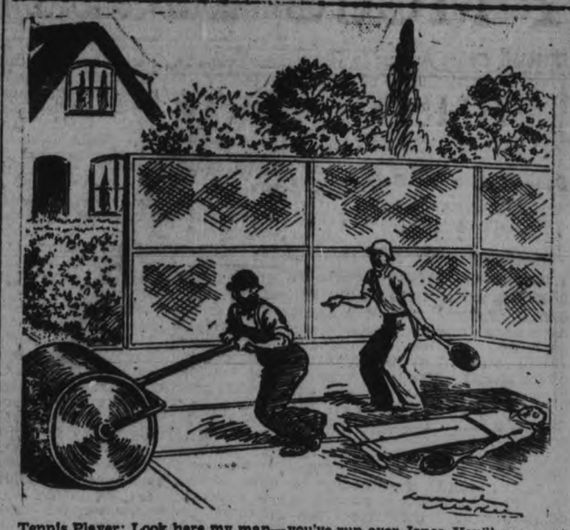
Dear Sir.—I wish to publicly thank and at the same time compliment Chief of Police Newhall, for the successful manner in which he and his staff brought to justice the sneak thief who has been pilfering dental offices of their gold for some years. He has made a business of breaking into the offices and stealing from dentists all over Ontario, and it remained for our Chief to devise ways and means for his capture, and this week succeeded in having him convicted and sentenced to two years. The Chief will have the thanks of many dentists in Ontario, who will feel that they are rid of a dangerous individual.

Yours sincerely,
M. A. Morrison.

Peterborough, June 8, 1929.

It is estimated that a motor car travels two and a half million miles for every fatal accident.

LAUGHS FROM LIFE



Tennis Player: Look here my man—you've run over Jones. You'll never get a smooth court if you aren't morecareful!

24,493,1224 motor vehicles registered in the United States, it is reported. That figure must be inaccurate; we're sure we counted more than that at the ferry last Sunday.

This would be a much nicer world if a man's pipe wouldn't go out when he stops puffing on it to do a little whistling.

The height of illegibility—adoctor's prescription written with a post-office pen on a train.

Girls nowadays must be lean to be appreciated.

Nowadays two pints make one quit.

In the theatre district you cannot park your car and have it too.

Simile

Exchanging wives or husbands for new ones is like exchanging old cars for new ones. Before you make the exchange you find out what you get on the old one.

About every six months a good housewife cleans out the medicine cabinet so that her husband may have a place to keep his shaving things for a few days.

The chief criticism of artificial bait for fishing is that very often it mistakes the seat of your trousers for a trout.

A tree will stand beside a road without making a move for sixty or seventy years, and then one day it will suddenly jump in front of an auto.

STRANGE AS IT SEEMS— by John Hix

NEW YORK, N.Y., June 10.—(A.P.)—Highly erratic price movements again characterized the stock market to-day. Prices opened irregularly higher, turned heavy before mid-day rallied briskly in the early afternoon and then became spotty again as fresh selling developed in some of the public utilities. Trading continued relatively light in volume, indicating an absence of any extensive public participation.

Call money renewed unchanged at 7 per cent. but the supply was only nominal. Wall Street expects stiffer money with the approach of heavy mid-month payments, and this is having a deterrent effect on speculative operations for the advance. Short selling is also restricted by the fact that a large short interest already has been built up in several of the speculative issues, making further "bear" committments rather hazardous in the event of any organized buying support suddenly making its appearance.

You will find many things in the Classified Ads. of The Examiner.

DULL SESSION TORONTO CURB

F. N. Burt, Maple Leaf Milling and Moore Show Slight Avances.

OIL SECTION STEADY.

TORONTO, Ont, June 10. (C.P.) — Trading was extremely dull on the Toronto Stock Exchange to-day and with two or three exceptions there were no pronounced change in price. Five shares of F. N. Burt chahged hands at 68, up four points, while Maple Leaf Milling advanced a further two points to 173, and Moore improved a single point to 29.

International Nickel experienced a slight increase in trading with the price strengthening 1-2 to 48, while Ford at 47½ recorded a similar advance. McColl firmed 7-8 at 40 7-8 and Ajax moved up 8 points to 1.30, but the rest of the oils were stationary. Canada Dredging dipped three to 68.

J. J. SOUTHERN NAMED CLOTH DIVISION HEAD

Peterborough Man Appointed General Superintendent at Hespeler and Here.

J. J. Southern, manager of the Auburn Mills here, has been appointe general superintendent of the Cloth Division of the Dominion Woollens and Worsteds, at Peterborough and Hespeler. He will commence his new duties on July 1 and will retain his residence in Peterborough and his connection as manager of the Auburn Mills.

Mr. Southern has been a resident of Peterborough for the past six years, coming here as assistant superintendent of the Auburn Mills. A year ago, he was appointed manager of the Auburn plant.

PRESBYTERIANS DECIDE COMMISSION TO REMAIN

Effort to Have Ministers From Other Churches Named By Assembly Fails.

OTTAWA, Ont., June 10 (Canadian Press).—The commission for the reception of ministers into the Presbyterian Church in Canada is to be continued. This was decided at this morning's sederunt of the 55th General Assembly in St. Andrew's Church here. An effort was made to have the commission abolished, and the power to accept ministers from other churches again placed in the Assembly. The majority of the members present contended that an emergency still exists, with the result that the commission is to remain.

DRAGGED BY HORSES; DIES.

BROCKVILLE, Ont., June 10.—As the result of injuries sustained ten days ago when he was dragged for half a mile near the village of North Augusta by four runaway horses attached to a barrow, William Chellew, 47, of Metcalfe's Corners, died last night in the General Hospital. Chellew received a fractured skull and other severe injuries in the runaway.

Financial News and Briefs

A Special Service to the Examiner

Operations of Shawinigan Power Extended

MONTREAL—The first step to be taken by the Shawinigan Water and Power Company in the great development on the Upper St. Maurice River as a result of the rights obtained by the company from the Provincial Government just a year ago, starts with a line which that company is now building from Shawinigan Falls to Latuque, and which will eventually connect with the first development that company will build on the St. Maurice.

The line at present being built will have an ultimate capacity of 100,000 horsepower. For the present the line from Shawinigan Falls to Latuque is also being designed to take on a new customer, which Shawinigan announces it has obtained, in the Brown Corporation at Latuque, which company will take a maximum 15,000 horsepower from Shawinigan over these lines.

One of the larger developments will be near Latuque on the St. Maurice River, it is announced by Shawinigan, but they point out that the company has still several parties in the field continuing the work of investigation commenced last year on the St. Maurice, and only when this survey has been completed will the exact locations of the various power plants be determined. The survey is being made both on land and from the air of the river and its tributaries.

At the time Shawinigan obtained the rights on the Upper St. Maurice it was estimated that the development of the rapids would add an additional supply of power for that company of over 600,000 horsepower.

Canada Bud Breweries May Sales Showed Big Growth

Sales of Canada Bud Breweries are exceeding expectations and showing a greater increase than anticipated at this season, according to officials of the company. Sales for the month of May were the largest in the company's history. The aggregate was twenty-five per cent., above April and more than seven times the total for May, 1928. Operations today are well up to capacity and ample storage is being provided to take care of further business in the summer months.

Public Utilities Centre of Attraction

American public utility stocks have had a big following in Canada for some time past. This is due to the great profits that have been made over the period of the past few years by different concerns located in many sections of the United States. More recently the activity has been attributed to the gigantic combinations that have been worked out and the unusual possibilities thus brought about for different issues.

Last week, even when the general industrial list was under severe pressure, a very good market for public utilities was in evidence. Much of this buying was due to the fact that different large investment trusts were increasing their holdings in anticipation of the big deals that are being worked out.

According to banking interests on the Street, Canadian holdings of American public utility stocks are three or four times greater than at any time in the history of the market.

Street Discussing Possible Developments in Montreal Power

A further tribute to the popularity of the old-established favorite, Montreal Power, was afforded by the readiness with which the stock advanced when market conditions showed signs of a turn for the better. As is the case at all times when the market sells off to any extent, Montreal Power was picked up steadily by investors during the recent period of reactions. It is this class of buying which tends to reduce the floating supply of the stock, which considering the large capitalization does not assume comparatively large proportions.

It has for years been a market axiom that buying into Montreal Power is equivalent to investing in the future of the City of Montreal. It is now three years since the last split in the stock took place, and already it is being mooted in some quarters of the Street that if the company follows its long-established policy of periodically benefiting shareholders by some form of capital change, such as a split or a bonus, such a development may be on the way. Rumors are also heard that, owing to the success of the way customer-ownership offer, the matter of a further issue of this sort is likely to be given serious consideration by directors.

In official circles, however, no inkling of any such possibilities is obtainable, but the Street in general would not be surprised if something special in either direction were to be announced within the not too far distant future.

Favorable Reports Send Prices Down

CHICAGO, Ills., June 10 (Canadian Press).—Reports of rain in Canada, where there had bee ncomplaints of a moisture shortage, led to an early downturn in wheat prices today. Besides, in some quarters the United States Government crop report was construed as decidedly bearish relative to wheat. Opening 3-8 to 1 cent lower, wheat afterward underwent an additional sag. Corn, oats and provisions also were easier, with corn starting at ⅛ cent decline to ¼ cent advance, and subsequently showing a set-back all around.

MINISTERS SAY FAREWELL TO DEPARTING MEMBERS

Rev. J. E. Todd, Rev. A. H McConnachie and Ensign Green Leaving District

The members of the Peterborough Ministerial Association met in the Paragon Tea Rooms to say farewell to three of their members, these being the Revs. J. E. Todd, A H. McConnachie, and Ensign Green Rev. J. L Hughes presided.

After a good lunch had been served, President Hughes spoke in the highest terms of the three retiring members and expressed his best wishes for them in their new spheres of labor. Several others took part in the expressions of appreciation of the three departing members, these being Revs. Dr. Blagrave, McDonald, Sutcliffe, Thornley, Edgar and Wren.

Each of the three retiring brethren thanked the members of the Association for their kind words, expressed regret at leaving Peterborough ,and voiced the thought that wherever they went they would carry with them the happiest memories of the time they spent in this city.

The parting hymn, "Blest Be the Tie That Binds Our Hands in Christian Love," was sung as the party surrounded the table. The Benediction, pronounced by the President, brought a most impressive and interesting occasion to an end.

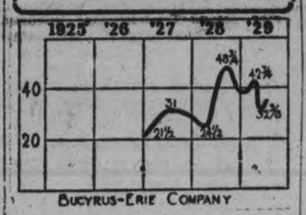
Ruth Watches Rival Add To Homer List

NEW YORK, N.Y., June 10.—(Canadian Press). — Babe Ruth may be too ill to play baseball these days, but he can't keep away from the game that made him famous.

With his wife, the former Claire Hodgson, the Babe was an interested spectator at yesterday's game between the Yankees and the Browns.

He stood up and cheered when his friendly rival, Lou Gehrig, hit his 13th home run, and was dissuaded only with difficulty from tossing away his expensive hat when "Columbia Lou" shot his 14th into the right field bleachers later in the game.

STOCK A DAY



BUCYRUS-ERIE COMPANY

BUCYRUS ERIE COMPANY

The Bucyrus Erie Co. resulted from a consolidation in 1927 between the Bucyrus Company and the Erie Steam Shovel Company. The corporation is the largest manufacturer of excavating machinery. Its products include quarry and mining shovels, railroad type shovels, tower excavators and other devices. The Bucyrus Company plants are located at South Milwaukee, Wis., and Evansville, Ind., The Erie plants are at Erie, Pennsylvania. In the latter factories the smaller types of steam shovel and gasoline-air shovels are made. The plants contain all essential equipment and the company owns property which can be used for any necessary expansion.

For the four years to and including 1926, net income was about on a level but declined somewhat in 1926 and 1927. Sales volume in 1928 was satisfactory but the earnings were affected by the charges applicable to the consolidation. Net income in 1928 was $2,687,177. This compared with $2,937,919 in 1927.

There is no funded debt. Capital stock outstanding includes, $6,830,000 in 7 per cent cumulative preferred shares of $100 par; $2,095,560 in convertible preferred of $5 par and 4,800,000 in common of 10 par. The convertible preferred is entitled to assets of $7.50 a share before the common and to non-cumulative dividends not exceeding $2.50 a year. Receiving that amount in those years where the common gets $1 a share. All classes of stock have one vote a share. Regular dividends are being paid on the cumulative preference stock. On the convertible preferred the present rate is 62 1-2 cents a quarter. On the common stock 25 cents a quarter is being paid.

As of Dec. 31, 1928, total current assets were $13,818,805, current liabilities $2,517,497 and net working capital $11,301,308. Book value of stock has not been computed because good will, patents and other intangibles were not reported separately.

ARCHBISHOP O"BRIEN DETAINED BY ACCIDENT

Steps on Stone in Descending from Car in Rome, Spraining Leg.

Archbishop O'Brien, who is still in Rome, suffered a minor accident last week which will keep him in Italy for a longer period than was at first intended. It is understood that he was stepping from a motor car and slipped on a stone, causing him to sprain severely the ligaments of one leg. He will be confined to the hospital for several weeks in consequence, and will not be able to return for Old Home Week, as he had wished to do.

NEWBEC ISSUE LEADS TRADING

Speculators Take Little Interest in Session on Standard Exchange.

PRICES HOLD STEADY.

TORONTO, Ont., June 10 (Canadian Press).—Aside from Ajax Oil and Newbec, which again furnished the bulk of trading, there was little interest manifested on the Standard Mining Exchange this morning. Noranda and other higher-priced stocks were not in demand, and prices remained motionless. Oils were slightly easier, with South-West Petroleum losing 25 to 5.50, while Associated and Dalhousie registered fractional declines.

Ajax sold down rapidly to a low of 1.17, and then smartly recovered to 1.35, a net advance of 11 points, while Newbec touched a low of 67 with the noon price of 73½, indicating a net gain of 7½ points.

ST. JOHN"S AMBULANCE HAS SPLENDID TALK

Dr. T. S. Loudon is Lecturer on Artificial Respiration at Regular Meeting.

A most instructive lecture was given to the St. John's Ambulance Brigade by Dr. T. G. Loudon at its last meeting. Dr. Loudon spoke in detail on the respiratory system, including natural and artificial respiration. He gave a complete demonstration of artificial respiration, a member of the brigade being the patient. Dr. Loudon also guided several of the members through the movements of the first-aid treatment. He concluded his lecture with a talk on the nervous system free of technical details and very interesting. The brigade voted Dr Loudon hearty thanks for his instruction

The next meeting of this club, which has as its purpose to train themselves to help others, will be held on Tuesday, June, 11, at 8 p.m.

PRESBYTERIANS WELCOMED.

OTTAWA, Ont., June 10. — The Presbyterian General Assembly resumed its deliberations in St. Andrew's Church to-day. Several of the visiting clergymen occupied local pulpits yesterday. In St. Andrew's Rev. Dr. Robert Johnston of St. Catharines, preached in the forenoon and Rev. D. H. R. Grant, of Fort William, in the evening.

The Commissioners were the guests at a garden party at the Central Experimental Farm on Saturday, where Premier Mackenzie King welcomed them "as head of the Government and as a Presbyterian." He promised to address the Assembly later in its session.

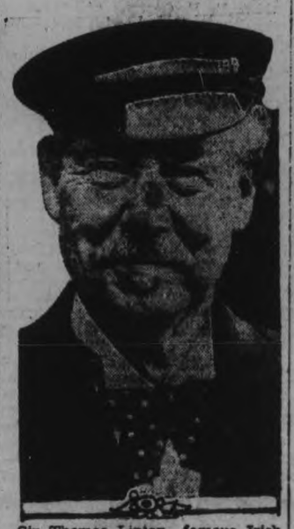
PERFECT GARAGE COSTLY.

Plans for what is believed would be the perfect public garage won the prize in the recent competition of the Royal Institute of British Architects for a garage in London's theatre district. Thomas Spencer, of London, was awarded the prize of $1,750. The garage planned by him would cost $2,950,000, and would house 750 cars, all of which could get in and out at a moment's notice. The entrances and exits are on two streets to avoid traffic blockades. A central room, in touch with all floors by telephone, controls the exits. All of the six floors are reached by one-way ramps. Writing rooms, lounges, bathrooms, waiting rooms, repair shops and a cleaning room would be features.

ELASTIC GIRL MYSTIFIES.

Scientists of Europe are mystified over fifteen-year-old Kathleen Harcourt, who has been nicknamed "Miss India Rubber," of Birmingham, England. Normally five feet, six inches tall, she can add three inches to her height by grasping some overhead object and putting her weight on it. Her legs can also be made four inches longer than normal. Physicians have been unable to diagnose the peculiar structure of her body. Her mother discovered the abnormalty when Kathleen was a baby. The girl says she feels perfectly normal, and she has never been ill. She refuses all offers to capitalize her abnormalty.

DONATES CUP



Sir Thomas Lipton, famous Irish sportsman, has presented a cup, to be known as the "Lipton Trophy," for the sea flea races at the Canadian National Exhibition.

NEWS FROM THE MINES

Selloway, Mills & Company Through

Chances of Fortunes in Turney Valley

Financial Times, one of Canada's leading financial papers, answering enquiry of reader regarding Turney Valley prospects, says: "Turner Valley is growing steadily in importance and there is no doubt but that field will play a very important part in building up of west. Some fortunes have already been made in some of oil issues and more will be made in future. Structure of Valley has now been proven and much of risk has thereby been eliminated. Companies which at present appear to have best chances, in our opinion, are Royalite, Dalhousie, Okalta and Home. We would advise holding of your Dalhousie shares."

Home No 2

Home No. 2 drills are now driving down somewhere between 110 ft. in limestone and 140 ft., the horizon at which Home No. 1 caused a burst of joy when it came in with a 600 barrel flow, and which has now expanded to 900 barrels daily. Home No. 2 is now over 300 barrels, so that if it does no worse or better than increase as No. 1 did, it will mean a 450 barrel well, which means an earning power of $1,687 per day exclusive of crude production, or over $600,000 yearly.

Kirkland Gold-Chaput Hughes

Kirkland Lake Gold will take over Chaput Hughes 14 acres adjoining on south as well as other claims on a basis of one Kirkland Gold for ten Chaput Hughes and involving 239,123 shares. This will take care of the Chaput shareholders outside the block of stock already held by Kirkland Lake Gold and taken in payment for drilling done. Kirkland Lake announcement says it is reasonably certain that commercial ore, if it exists, will be found at great depth.

West Dome Lake

West Dome Lake special meeting to deal with reorganization and refinancing plans was postponed because sufficient proxies were not on hand. Annual meeting re-elected directors, board being cut to seven. Since mill started Jan. 8 treated 14,308 tons of $5.54 ore. Loss for first quarter of year $5,000. May production $16,000 and with development cut off slight profit was shown. Broken reserves 3,100 tons, probable reserves 24,129 tons.

Zinc Smelter Mooted

In view of favorable dveelopments in exploration for zinc in Sudbury area, possibilities of an early decision with regard to an electrolytic zinc plant believed to be in offing. First customers of such a reduction works would be Treadwell Yukon, Lake Geneva Mine of Towagmac and Sudbury Basin Mines, with other properties in district as probable coming producers.

Oils Offer Possibilities

A whole month now looms ahead of market without holiday interruption, and during that period there should be a steady flow of good news from Turner Valley. Best opinion seems to be that any good oil stocks purchased at present levels should show good profit in June.

Hargal Oils

Hargal Oils, according to statement of managing director in Calgary, is seeking additional oil leases and may obtain holding adjoining Imperial Highwood structure. Two wells now being drilling offsetting Hargal ground in Wainwright.

Home 2

Home No. 1 secured its huge naphtha production 173 feet in limestone. Wednesday saw No. 2 drill working between 154 and 160 feet so that a marked increase in well's production, now over 300 barrels, anytime, should not surprise. Drilling was resumed Saturday with bit 120 ft. in limestone so that good speed is being made.

LAKE SHORE

It has been common gossip for some time that Lindsley interests had made offer $30 per share for control Lake Shore. Mining writer today suggests that those in control ask price about double present market, which would make valuation of enterprise about $100,000,000. Pointed out that profit outlook of $3 per share within year makes $30 per share offer reasonable.

BARRLY HOLLINGER

Official word on Barry Hollinger's development is to effect that vein on 1500 level still strong with at least 8½ ft. nice ore. Gold fine but well disseminated across both walls. Whole vein is series of quartz stringers and lenses and crosscut face was still in ore. Barry shares strengthened Wednesday. It is possible new find will justify stepping up mill to 75 tons daily on which basis operations might work out profitably.

BOWLING DATES.

MONDAY, June 10.

Mr. Martin in charge.
Cairns vs. Gimblett.
Mayneord vs. .....
Martin vs. Skinner.
Seymour vs. Sedgewick.
Bredin vs. Allan.
Chenhall vs. Freeman.

FOREIGN EXCHANGE

NEW YORK, N.Y., June 10.—(Canadian Press)—Foreign exchange quiet; demand rates (in cents): Great Britain 484 7-16; Canadian dollars 25-32 of one percent discount.

OPENING GAME OF SOFTBALL LEAGUE

Harrison's and Western Clock Hook Up To-night at Central School Grounds.

The official opening of the softball league will take place to-night when Harrisons and the Western Clock hook up at Central School grounds. Both teams are strong, Harrison having his last years aggregation practically intact while he has added a couple of more players. The Western Clock are newcomers to the league but have lined up a smart outfit. The opening game should supply the fans with some real fast ball.

The game will start at 6.15 sharp with "Sailor" Maudsley in charge and Harry Dugan on the bases.

On Tuesday night Teco and the Bridgenorth Wildcats will meet. This game should also be a humdinger as both aggregations have a good roster of players. Bridgenorth will field practically the same team that won the Lakefield Softball League last winter, with Forsythe, one of the best softball pitchers in the game, doing the twirling. Teco have a vastly improved team from last season, having signed a number of new players. Carruthers will likely get the pitching assignment for the Big Store.

This game is also called for 6.15 sharp and will be played at Central School grounds.

Continent's Automobile Bill Just Twice

(Continued from Page 1)

sories and parts was included it was found that in the United States and Canada last year the total expended on automobiles and accessories was $4,740,000,000, while the national debt of Canada was $2,227,000,000.

Canadian production had grown from 117 cars in 1904 to 242,000 cars in 1928, while automobiles exported from Canada ranked fourth in the list of exports from this country.

Speaking of General Motors, Mr. Ansley said that the sales of the Canadian branch amounted to $75,000,000 last year, while the pay-roll amounted to $10,500,000. The company expended over $18,000,000 with other Canadian manufacturers, paid the Dominion Government in excise and sales tax some $8,500,000, spent with the railways $2,200,000, with the newspapers for advertising $1,250,000, and paid to stockholders $2,700,000. The company had furnished employment to 10,700 Canadians, and had furnished raw materials, etc., from over 600 Canadian firms, including such Peterborough industries as Canadian Woollens, the C.G.E., the Raybestos Company, J. J. Turner and Sons, and the Canadian Crayon Company.

In concluding his address, Mr. Ansley made a strong plea for support for Canadian industries in general, recommending the slogan, "It's better because it's Canadian" as in every way worthy of consideration.

Rotarian John Crane expressed the thanks of the club to Mr. Ansley for his splendid address.

EXHIBITION GAME ON TUESDAY NIGHT

Moose Juveniles Will Meet Kiwanis Junior On King Edward School Grounds.

The fast-fielding, hard-hitting Moose Juveniles will take on Jack Deannard's Kiwanis Juniors in an exhibition tilt to-morrow evening at 6 p.m. The game will be played on King Edward school grounds.

The Moose have been playing smart baseball and they have yet to taste anything like the sting of defeat, but they are trying a big dose when they try the Kiwanis smart Junior company.

Five Canadians In New Company

(Special to The Examiner.)

TORONTO, June 10. — Canada is to be represented by five members on the Board of Directors of the United Tobacco and Drug Corporation, a concern with assets running into hundreds of millions of dollars, and incorporated to acquire the businesses of United Cigar Stores Company of America, Tobacco Products Corporation, and the Union Tobacco Company.

Advertising is a reference book that is never out of date

THERE is a dictionary so large that it took more than thirty years to compile and publish it complete. This great book seeks to give the truth about all words and their uses. To-day, only the last volume, devoted to words beginning with "Z," is strictly up to date.

Consider the advertising in this paper. It describes commodities for your use, as a dictionary describes words. It tells how they will save you time, increase your comfort, give you the advantages of modern living. Yet none of it is out of date by as much as a week.

Advertising is news, as much as the headlines on the front page. Very often, indeed, it is news of more significance to you, and has more bearing on your life to-day, to-morrow. Read these advertisements with confidence. They are the daily reference book on the things you need.

Advertisements keep you abreast of the times. Read them.

DISTRICT NOTES from Villages and Towns in District

(BY CORRESPONDENTS OF THE EXAMINER)

MILLBROOK

Congratulations are being extended to Miss Francis A. Turner who has been successful in her Honor Course for the degree of B. A. in the recent examinations at the University of Toronto. Miss Francis is home for the summer holidays with her parents, Dr. H. A. and Mrs. Hunter.

AT LAKEFIELD

A number of friends of Miss Mary Dever called on her at her home on Albert street, on Friday evening, May 31st, and presented her with a handsome club bag as a token of their affectionate regard and as a memento of many happy days. Miss Grace Darling read the address and Miss Mildred Purdy made the presentation. Mary has been a great favorite in the community, her unfailing good humor and her sterling character won for her many friends who regret her departure but unite in heartiest of good wishes for a successful career in the calling she has chosen. Miss Dever responded gracefully to the tribute of her friends. The evening was spent in games, contests and dancing and passed quickly and pleasantly and will long remain a happy memory of Lakefield days to the Dever family, who are leaving this week for Detroit, where they intend to make their home.

A long-felt need has been supplied to the village this week in the form of chains for the government dock. As the river is deep and has a strong current at all seasons at the dock the need of chains has long been felt and now it has been supplied and will help to prevent fatalities at that place.

Mrs. R. C. Chittick left this week with her little daughter, Doris, for a visit to friends in Smith's Falls.

Mrs. C. M. Callam of Coboconk was in the village on Wednesday.

KINGSTON AIRPORT

A new Canadian airport, with hangars and metal runways, was opened on June 4 at Kingston, Ontario, under the auspices of the Kingston Flying Club. Photo shows one of the Moth airplanes of the club, ready to take off with Mayor Craig and his daughter as the club's first passengers. Inset shows Mayor Craig, who presided.

No jumpy feeling NOW *when I drive through traffic*

A feeling of strain takes the pleasure out of driving. Any motorist is apt to feel the effects of nervous tension during a long spell at the wheel.

Nothing relieves this tension so effectively as Wrigley's. The act of chewing, as motorists have discovered, has a gentle soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth—steadies the nerves. Ask your doctor and he will tell you so.

Dentists and medical men recommend the regular use of Wrigley's after every meal—because it aids digestion and cleanses the mouth after eating, drinking or smoking.

Efficiency and refinement call for Wrigley's.

WRIGLEY'S

Spearmint—Double Mint—Juicy Fruit—and P. K. Sugar Coated

after every meal

CJ-12

Give Her *a Kelvinator — the Gift She will Appreciate*

AFTER the Wedding March—the congratulations—the "going away," there confronts the bride a routine of household duties in which the problem of meals looms large.

Now, she is a caterer, with a patronage of one and occasionally a dinner party.

If someone has been thoughtful enought to present her with a Kelvinator, that person has given her THE gift that will do most to ensure *happiness for two.*

Her meals will all taste better, her problem of avoiding waste will vanish, her work will be lessened, her home will be modernized by this wizard of food conservation, all for less than the cost of a good radio set or a piano.

Be unique in your present—give her a Kelvinator —the Gift She will Appreciate.

MARKERS BEING PLACED

Road is Rich in History and Beauty, Making Wonderful Motor Drive.

A group of men seated around a table in the beautiful town of Orillia in November, 1927, were destined to make history. Having recalled all the ancient folk lore of the Indian tribes and knowing of the wealth of scenery, summer resorts, and fishing grounds in the district that were unknown to the average tourist, and to whom many were never guided to share in the beauty and wealth, unless they travelled by water up the picturesque Trent Waterway, these men determined to make it possible for the motorists to share in their endowment of nature.

So, the idea of a motor trail, rich in history and beauty were originated by the Trent Waterway Association and crystallized at an executive council meeting of this association which was held in Orillia in 1927, when it was moved by G. J. Owen of the Orillia Board of Trade, seconded by Mr. Starr, vice-president, and carried unanimously by the gathering, that steps be taken to make a scenic highway from points on the St. Lawrence Highway to Orillia, Ontario, following closely as possible the Trent Waterway and to touch the Trent towns.

Taps St. Lawrence Highway.

One of the basic ideas was to tap the St. Lawrence highway traffic, and to guide the motorist into a land possessing lakes and scenery, such as was before unknown to them, and to allow them to share with the people of that territory the thrill of catching the fighting lunge or the gamey bass, or to linger for a time in one of the numerous resorts that dot the trail.

The decision was reached to call this new motor highway, the "Iroquois Trail." No other fitting name could be better applied to such a historical route that follows so closely the route taken by those famous Indians in the year of 1649. Practically every mile is marked by some historical reminiscence, if not the beauty of the scenery or the excellent fishing makes up many times the lacking of story.

The southern and eastern terminus of the route is at Trenton, Ontario, where American motorists can turn north and west off the beaten trail, into a beautiful rolling country. Trenton is also the southern end of the Trent Waterway. From this delightful little town the trail leads north to Stirling and then turns west through Campbellford, Trent River to Peterborough, following the general course of the old Indian Warpath. From this city, which possesses many opportunites to the lover of the outdoors and which has a wealth of history and interesting sights, as the largest Hydraulic Lift Lock in the World, the trail beckons the motorist further west, through Omemee, Dunsford, and Lindsay ,after which it turns north again through Beaverton and then west to Atherley and Orillia, where the first idea received its official recognition. However it does not end here as was originally intended, but presses west to that picturesque town of Midland on Georgian Bay and the north-western terminus of the Trent Canal, but still farther west it leads to Penetanguishene, close to the 30,000 islands in Georgian Bay.

Touches Large Waters.

This is mainly the main route touching only the larger bodies of water as the Trent River, Rice Lake, Otonabee River, Scugog River, Lake Simcoe and Couchiching, ending at Georgian Bay. But there are many side trips within no great distance from the main trail where King Fish reigns supreme and every type of summer resort can be found, from the liveliest to the quietest, a hotel to suit anyone's fancy. Stoney Lake dotted with islands and cottages, Chemong Park with its pavilion and summer dwellers. Buckhorn Lake with its wild beauty, Sturgeon, Cameron, Balsam Lakes and the Severn river in its natural state are all beauty spots within easy reach of the main trail.

Tourists following this famous old Indian route will be guided by 500 specially designed road signs which have been ordered so that the trail will be well marked, not only will the main trail be marked but also the side trips into the less accessible hunting and fishing grounds, the borders of which the trail skirts. Belleville.

The signs are of a new type. The Indian head and the words, "Iroquois Trail" appear in red, while the directing arrow and the names of the towns are in black, with the entire design on a cream background. The signs are much larger than the usual type and are designed so that they can be easily seen and read after dark.

These markers are made in Peterborough and this week the work of erecting them commenced. During the process of erection of these signs the mileages from point to point will be recorded so that the distances may be published in next year's "Iroquois Trail" booklet.

Once the signs are in place it will be possible for tourists or all motorists to follow the trail into any section without fear of getting lost or wandering off the beaten path.

New Folder Published

It is also expected that the trail will open the way for local people to explore the different sections of it as well as the tourist. A new booklet has been published by the association called "The Iroquois Trail," which is an attractive folder containing a map of the route as well as a wealth of information for the stranger or even the local motorist who has not ventured far afield in this district.

This booklet will be distributed through the mail to the hundreds of inquiries received by the Chamber of Commerce and allied organizations, as well as at the tourist exhibitions held in New York and Cleveland as well as in 1930 in Pittsburg, where it is expected a similar meeting will be held.

The officers of the Trent Waterway have been highly complimented by both the provincial and federal governments in connection with the trail. Congratulatory letter have been received from the Honorable Charles McCrae, Minister of Mines, and from the secretaries of the Department of Lands and Forests, and the Department of Public Highways. Recently a letter was received from the Department of Railways and Canals asking for copies of the Trent Waterway and the Iroquoise trail publications.

A practical recognition of the trail was made recently by Morris Ackerman, well-known Cleveland sports writer. His article in The Cleveland News says:

"The Iroquois Trail. It's the very latest thing in motor highways in the province of Ontario. It's to the motorist what the Trent Waterways are to the sailor In fact, the Iroquois Trail follows the waterways course from Trenton to Georgian Bay. This new scenic and back-country highway is destined to develop a lot of tourist transportation. There is every reason why it should. To start with it's close to Toronto, not more than a hundred miles north at its western terminus. On the east it is "fed" by the Kingston highway.

"The object of the opening up of the Iroquois Trail is to induce tourist traffic that comes into Quebec across the St. Lawrence to travel westward —and for a reason. The reason, apart from a desire to bring more money into Ontario, is outstandingly worthwhile. No big towns. No heavy traffic. Good road. Lake, streams, a wealth of scenery, and Fish.

"And, on top of all of this, the hotels, resorts, camps and tourist camp grounds are in tip-top shape. The Trent Waterway Association, with headquarters at Peterborough, has spent much money and much time in making a real appeal to tourists visiting Ontario this season.

Signs Bear Indian's Head

"Sign, bearing the Indian head and arrow, with the words "Iroquois Trail," in addition, are already erected on every bend and corner of the trail from Trenton, on Lake Ontario, to Penetanguishene, on Lake Huron. A great and beautiful trip for folks of the middle-west will be northwest from Toronto to Penetanguishene, southeast on the trail to the Kingston highway, thence west to Toronto, and home.

"New Englanders and tourists from the east can reverse the schedule, "taking off" at Trenton, northwest to Penetang, south to Toronto and east to the St. Lawrence ferry, crossing and home. East to west the Iroquois Trail will touch Trenton, Frankford, Stirling, Campbellford, Hastings, Peterborough, Omemee, Lindsay, Beaverton, Atherley, Orillia, Coldwater, Midland and Penetanguishene.

"We venture the guess that the Iroquois Trail will be the most popular angler's highway in Canada, if not in North America. We cannot think of a single thoroughfare in either Canada or the United States that will "tap" so many fishing spots in the same number of miles. If Ontario has such a thing as "Fisherman's Paradise," then this must be it.

"Trenton, the eastern and southern terminus, is on the Bay of Quinte, a justly famous bass and musky grounds. We have written reams about the fishing in Rice Lake, in the Kawarthas, Simcoe, Couchiching, Sparrow Lake and the Severn River. The fame of Georgian Bay is a legion.

"Will a road that touches the famous fishing spots of Ontario be popular? It will! Can a mocking bird sing? Umphhumph! Before signing off, give a lissen to this—then oil up the ol' gas buggy and get set to go a day to two before the fishing season opens on Monday, July 1. The Iroquois Trail takes you to the front yard of—

"Port Severn and the 30,000 islands of Georgian Bay; the Trent Waterway, and the lake along the line; then get this, in rapid succession, Coboconk, Fenelon Falls, Bobcaygeon, Burleigh Falls, Lakefield, Peterborough, Keene, Trent Bridge, Campbellford—names, mind you, names that shine brightly in the minds of 10,000 fishermen hereabouts, who are waiting for the call of July 1."

HUSKY RELIEVING INDIGESTION FOR MANY THOUSANDS

Another Man Expresses Appreciation for Quick and Complete Relief.

PERCY THURGOOD

Public opinion is the most powerful force on earth, and when the manufacturers of the medicine called "Husky" decided to leave the merit of this preparation to public opinion, they felt that they were giving the people of the Dominion the facts in the most honest and truthful way possible. One man or group of men may be wrong, but 100,000 men and women when voting on a question usually return a majority for the truth and the right.

That is why hundreds of thousands have been interviewed about Husky and why their opinions are made public. When, by actual count, Husky has benefitted 98 out of every 100 persons reporting their cases, every sufferer can draw his or her own conclusion as to the merit of this medicine. The statements of many thousands regarding the worth of Husky for indigestion have been published, but these cases are not enough, and therefore we cite still another—that of Percy Thurgood, of the Merchants Rubber Co., who lives at 114 Breithaupt St., Kitchener, Ont. He says:

"I suffered from indigestion and stomach troubles, and also constipation. I was feeling so weak that I could hardly get out of my bed in the mornings. My tongue was white, I had no appetite, and when I did eat my food just soured in my stomach and gave me stomach pains.

"I had heard a great deal about Husky, and therefore I went to Tamblyn's Drug Store to ask the Husky Expert about it. He told me what the medicine contained and how to use it. I followed his advice, for which I am very thankful to-day as I feel like a new man altogether. My appetite has come back to normal, my bowels are regular and I get up in the morning ready for a full day's work. My food agrees all right and there is no more trouble with my stomach.

"I have recommended Husky to many of my friends suffering with similar troubles, and I feel positive that they will have the same results. Once more, thanks to Husky for the good it gave me."

If you would like to know more about "Husky" call on the Expert from the Husky Laboratories, who is now making his headquarters at Bond's Drug Store. He explains, free of charge, how best and quickest results are obtained from the use of this medicine and answers questions about the treatment. Call at Bond's and ask for the Husky Expert today. His information has led thousands to find the relief and new health they had been seeking for years.

Liver-in Vancouver

" Three years ago while in Vancouver, the house physician at the Hotel advised me to use Kruschen Salts for a bad liver and constipation. I can say I never have had anything that gave me almost instant relief before, and I, therefore, got my chemist to order Kruschen for me—I think no less than 40 or 50 families have used it by my persuasion.

" Most other remedies on the market leave a bad effect in many ways, but I can safely say I haven't been as well in many years, as since I have taken Kruschen."—Mrs. C. R. M., Williamsport, Pa., U.S.A.

There are *six* salts in Kruschen. That's why it's so different from Epsom and Glauber, which are only single salts. Kruschen attends to all the needs of the system: stomach, liver, Kidneys, blood, brain, muscle—all feel the benefit. That is why Kruschen brings almost instant relief in half the common ailments known to mankind. Buy a bottle to-day and begin a new life to-morrow.

Kruschen Salts

Good Health for Half-a-Cent a Day.

At Drug and Dept. Stores at 75c. a bottle. Manufactured by E. Griffiths Hughes, Ltd., Manchester, England (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

MOB OF 10,000 STORMS PRISON

Crowd Demands Son of French Merchant Convicted of Murder.

MOUNTED POLICE CALLED.

LIMOGES, France, June 8—(Canadian Press).—Twenty persons were seriously injured here to-day in an outbreak of rioting incident to storming of the prison by a mob of 10,000.

The disturbance followed return of a sentence of life imprisonment for Charles Bartaud, degenerate son of a local merchant, who was convictel of two sordid murders, but by a strange twist of court procedure saved from the guillotine.

The mob formed outside the prison and demanded Bartaud be handed over to them. Troops finally joined police to quell the uprising but it was not until 2 a.m. After mounted police had charged again and again into their midst that order was restored.

Fourteen of those injured were republican guards. There were a large number of minor injuries.

The castle of Alhambra in Spain was originally capable of holding 40,000 men.

History of Peterborough

Written by Thomas W. Poole, M.D., and Published in Peterborough 1867

CHAPTER VIII.

Erection of Court House and Jail.—Continued.

On the 21st day of August, 1838, John Reid, Esq., P.L.S., reported to the committee in reference to a survey of the Government appropriation of ground for a courthouse, etc., which consisted in all of seven acres, lots Nos. 5, 6 and 7, of which would be required for the intended buildings. The foundation had not been excavated, and the grounds were still covered with brush and fallen trees, when it became known that His Excellency Sir George Arthur, Lieutenant-Governor of Upper Canada, was about to visit Peterborough. As it was desirable that the foundation-stone should be laid by so distinguished a personage, Mr. Scobell was requested, by resolution, "to open about six feet of ground," and "have placed on the spot one load of stone" to admit of this ceremony being performed. The chairman was instructed to solicit this favor through His Excellency's secretary on his arrival, and "should he consent," the Rev. Mr. Wade was "to be requested to offer a short blessing on the success of the undertaking."

His Excellency cheerfully consented, but his time being limited, the committee met at their room at 6.30 o'clock on the morning of the 25th of August, 1838, waited upon the Governor at 7, and at 7.30 o'clock a.m. His Excellency and suite, accompanied by the building committee, proceeded to the ground, and in the presence of numerous spectators laid the corner stone of the new buildings. The official ceremony over, the Rev. C. T. Wade, M.A., offered up an impressive and appropriate prayer.

The following articles were placed by His Excellency beneath the stone in the foundation of the southwest corner:

A parchment scroll, on which was tastefully engrossed the following: "On the 25th day of August, A.D., 1838, His Excellency Major-General Sir George Arthur, K.C.H., Lieutenant-Governor of Upper Canada, laid the first stone of these buildings."

Then follows the names of the building committee, already mentioned, in full. The following coins were also deposited:

A British shilling of the reign of George IV., 1929; a British sixpence of the reign of William IV., 1834; a British penny of the reign of William IV., 1831; a British half-penny of the reign of William IV., 1831.

The lettering of the scroll was executed in elegant style by our townsman, Ivan O'Beirne, Esq.

Tenders were afterwards received from time to time for the erection and completion of the several parts of the court house building and jail, the entire cost of which, including alterations and extra work, amounted to £7,190 15s 7d.

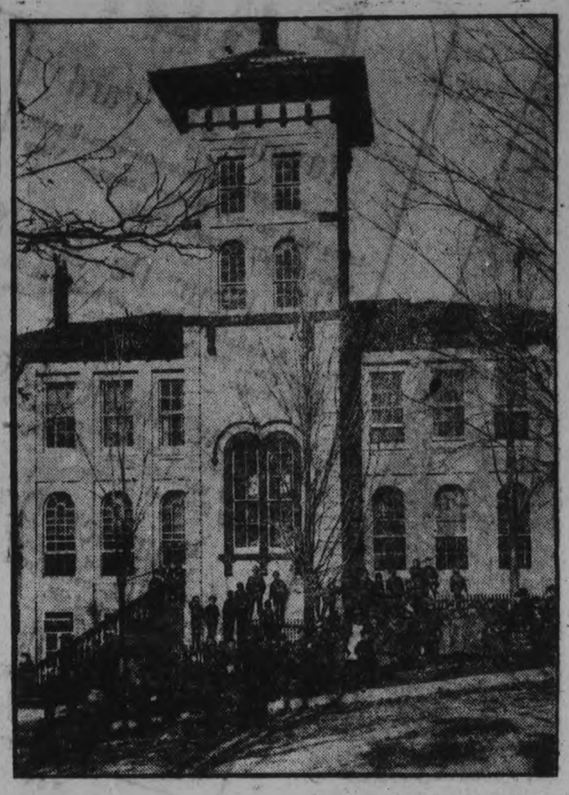
During the progress of the work, meetings of the magistrates of the proposed district were several times held, to advise with and assist the committee. Towards the close of the work, Ephraim Sanford, Esq., was appointed treasurer of the committee in place of Mr. Duffy, who had removed from the Province, and D. Griffith, Esq., was appointed a member of the building committee.

The walls and roofs of the court house and jail were completed in 1839, and the work on the interior of the court house finished, and that building handed over to the committee by E. Chamberlen, Esq., on the 16th day of November, 1840, but not finally accepted by them until the May following. The jail was not entirely finished until the summer of 1842, owing to a defect in the written agreement, by which the contractor, Mr. Edward Lee, claimed that the plastering was not included in his contract; and the season of 1841 was so far advanced when this became known that the plastering of the jail had to be deferred until the following spring.

At length, on the 27th day of December, 1841, after upwards of three years of arduous duty, the building committee were finally relieved of their task. At a meeting of magistrates held that Day, their accounts were examined and declared correct, and a vote of thanks was tendered "to the gentlemen composing the building committee, to their treasurer and secretary, for their indefatigable exertions in carrying the object of their appointment to completion."

(To Be Continued)

To Hold School Here



—Old Photo by R. M. Roy.

Central School, with a group of pupils of long ago. The old boys and girls will attend school here during Old Home Week.

PORTRAIT OF MAYOR FOR BIG FIREWORKS

The Toronto bunch seem to think of everything. A demand is made for a profile photo of His Worship, the Mayor of Peterborough, that it may be reproduced in the fireworks display to be put on by the constellation from Toronto. The portrait is to be in profile, and the Mayor made a special sitting. When displayed the whole thing should be a blazing success. Frank O'Connor, the right bower of the Toronto aggregation will also be limed in the fireworks display. Such is fame and prosperity, both excellent things for Peterborough.

JERRY SHEA COMING FOR OLD HOME WEEK

Jerry Shea is one of those fortunate humans born with a great personality, and a natural musical talent which has been developed to a remarkable degree. At the ripe age of 13 years he was organist at St. Gabriel's church, Montreal. At 14 years he was appointed choirmaster succeeding his father.

His success as a violinist dated from an earlier age, as his first concert was played in the Victoria Armoury hall at age of 7 years. At 15 he was concert master for the Nicosias Grand French Opera Company en tour through Canada and the United States.

At 19 he was the youngest conductor in the United States, achieving a remarkable success in his chosen field. He was leading musical conductor for Klaw & Erlanger of New York for 5 years, after which he returned to Montreal to take over the Princess Theatre Orchestra.

For years he was manager and conductor of the Sunday Symphony concerts in Montreal; and for five years his work was notable as producer and musical director of the Capitol Theatre, Montreal.

When the era of jazz invaded Canada, Jerry Shea was the first man to introduce it to Montreal, where he opened the famous old St. Regis Cafe and other popular resorts of the day.

At present he is a big hit at the Palace Theatre, Montreal, and his orchestra is conceded to be the best in Montreal.

His little son D'Arcy, 8 years old is following in his Daddy's footsteps, and played his first concert on the violin the other day, making a big success.

In bringing Jerry Shea to our city we feel that we are going to give our citizens a rare musical treat.

WORKS OF ART ARE GATHERED

Greater Interest Being Taken By Canadians in Recent Years.

VALUABLE COLLECTIONS

MONTREAL, June 10—(By The Canadian Press).—The interest of recent years in the preservation of early Canadian engravings, prints and pictures has resulted in much of the available material being brought together into several private and public collections. Fortunately the majority of these collections have not been secured by persons of narrow interests who seclude their treasures from the view of historians, students and the public generally. One of the great collections is in the Public Archives, Ottawa. Another is the John Ross Robertson Collection in Toronto.

Another group of Canadians is rapidly assuming impressive proportions. This is the Canada Steamship Lines Collection which is being used in the interior decoration scheme of the Manor Richelieu at Murray Bay, Que. From France, from England and from the United States have come additions to this group of old pictures. All of them are relative to Canada's story and many items have romantic histories of their own. From most unexpected sources rare old pictures have been produced. Some of the military maps from the period of the conquest of Canada with officers' notes penciled on them tell unspoken dramas of war.

38 Water Colors.

Outstanding in the collection are 38 water colors by Lieut.-Col. JJ Cockburn, a British army officer, who served in Canada during the eighteen twenties and thirties. This enterprising officer travelled extensively in Upper and Lower Canada in the performance of his military duties but his sketch book was never far from him. Down across the century have come these extraordinary views of street and rural scenes. His fine feeling for architecture and his true appreciation of Canadian country side are blended into this remarkable series which is invaluable to students of Canadian history for the pictures from the life of the period.

Another interesting section of the selection consists of twenty water colors by Sir Daniel Wilson, who was president of the University of Toronto from 1881 to 1892. A gentleman of unusual attainments, Sir Daniel was an author and an authority on such subjects as antropology, British history and English literature. The leaves from his sketch books which make up this group of pictures are the result of observant travel in the eighteen sixties on the St. Lawrence river and the Great Lakes.

TRAVEL FUNDS *for* CANADIAN TRAVELLERS

WHEN planning a trip either to great cities or unfrequented places, you may obtain from the Bank of Montreal travel funds suited to your individual needs.

Travellers' Cheques in convenient form and cashable in Canada and in other countries, or Letters of Credit that are acceptable the world over, supply funds with safety and convenience.

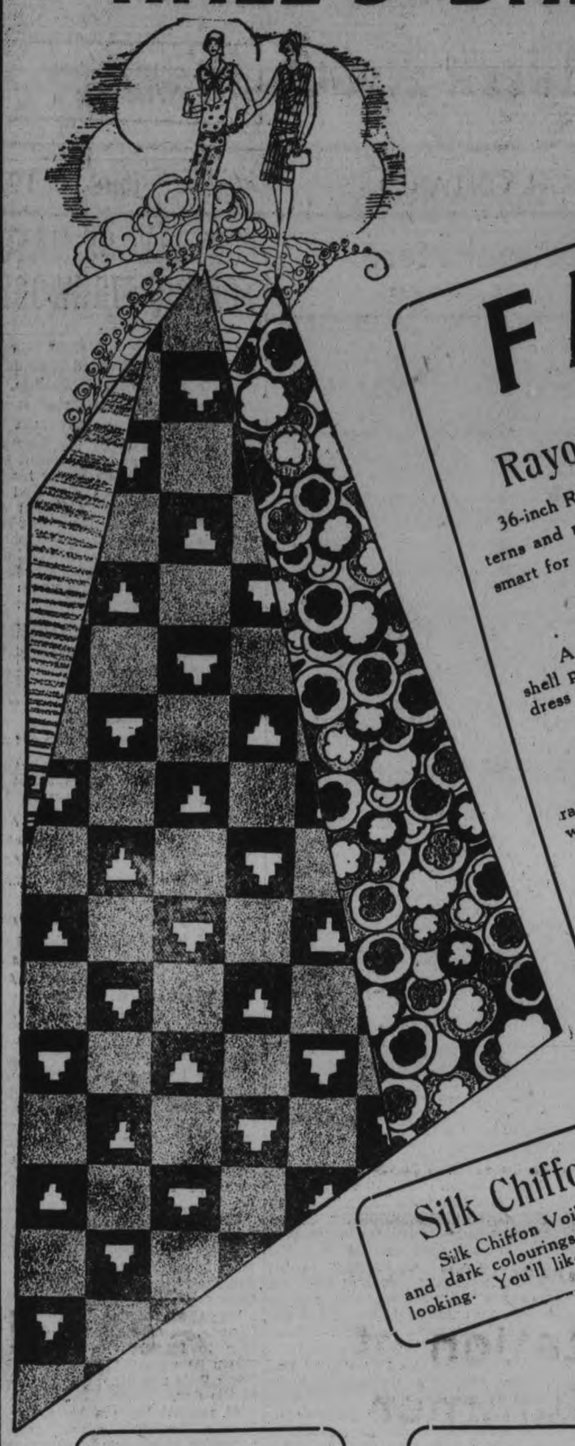
HALL'S DAILY STORE NEWS



FABRICS

Rayons 98c yard

36-inch Rayons in attractive small patterns and novelty flower designs. Very smart for all Summer frocks.

Dainty Silk Crepes 98c

Plain Coloured All-Silk Crepes in a full range of fashionable shades for Summer wear. An astonishing value at such a low price.

Fleur De Soie $2.75 yard

A delightful fabric with soft taffeta finish, in shades of sea green, shell pink, peach, white, etc. Washes perfectly. A splendid Summer dress crepe.

New Novelty Crepes $1.49 yard

Novelty Silk Mixtures, Silks and Crepe de Chenes in a delightful range of patterns and colourings. They make up into beautiful, good wearing Summer frocks.

Summer Dress Prints 59c

Fine mercerized fabrics in a good variety of small flower and fancy designs. All tub-fast colourings. Very smart for Summer frocks for grown-ups or little folk.

All Silk Flat Crepe $1.98

38-inch All-Silk Flat Crepe in a good range of colours. An exceptionally fine, smooth finished, firm quality for all Summer dresses. It's actually worth $2.98 yard.

Double Fugi 98c

A heavy Double Fugi Silk in good shades of peach, cream, sand, jade, apricot and white. This wears and washes well.

Silk Chiffon Voiles $1.49

Silk Chiffon Voiles in a pleasing assortment of mid and dark colourings in floral designs. Crisp and cool looking. You'll like the quality.

Figured Organdy 69c

36-inch Figured Organdies, guaranteed permanent finish and tub-fast. This comes in dainty, cool Summer shades. Make your selections now.

Tobralco

69c

39-inch Tobralco, in floral, vine and conventional designs. A dainty cotton fabric with fine dimity cord.

Flannels

98c

54-inch All-Wool Flannel in a splendid range of shades. Quality suitable for blazers and Summer coats.

Plain Voiles

39c

36-inch Plain Coloured Voiles in a good assortment of shades. Fine quality for lingerie or for Summer frocks.

Batistes

59c

38-inch Batiste in gay floral patterns. Ideal for cool Summer dresses. All tub-fast colourings.

RICHARD HALL LIMITED

MRS. C. N. WHYTOCK IS NEW PRESIDENT

General Business Transacted At Annual Meeting of Madoc Women's Institute.

MADOC, June 10.—(Examiner Correspondence).—Mrs. C. N. Whytoch was elected president at the annual meeting of Madoc Women's Institute held at the Community Hall recently with Mrs. Tumulty presiding.

Correspondence was read regarding the girls' judging competition on June 5-12. Miss L West was appointed as junior representative and as many seniors appointed to attend, as possible.

Reports were received from several committees at this meeting. The Home Economics Committee reported several subjects dealt with during the year, such as Useful Christmas Gifts; How to Keep Young; The Efficient Every-day Mother; Home Decoration and Housecleaning, and a large sewing class was held.

The Health and Child Welfare committee reported a talk given by the school nurse and an address by a doctor. The Relief Committee for which Mrs. W. E. Connor reported, spent five dollars for local relief and about fifteen dollars for flannelette which was made up by members of the committee for layettes sent to Bancroft and Coe Hill Hospitals.

For the Historical Research and Current Events Committee, Mrs. L. Ashley reported that material had been prepared, but had not been used. Mrs. C. Whytock reported for Legislation Committee. There was one address given by a lawyer on laws regarding women and children, also a short talk on "How and Why to Make a Will." No report was given by the Canadian Industries Committee and the Publicity Committee reported that each meeting had been written up for local papers each meeting advertised for two weeks and printed programs used.

The community activities were reported by Mrs. W. Ross and it was found that this had apparently been a great success. The Institute was able to complete the erection of the War Memorial; held a moving picture show and held three public social evenings for Institute funds. An annual social re-union for members and friends was also held.

Mrs. J. A. Caskey reported for the Agriculture Committee when it reported a class of twenty-six formed for the girls' judging competition and one of these was successful in winning a prize in Belleville.

No report was given for the Education and Better Schools Committee. Three interesting talks on travel and a most instructive address on "Music in Home and School" were given during the year.

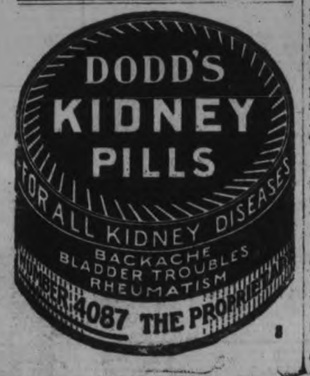
The Flower Committee reported eleven gifts to the sick and shut-in members with an expenditure of $12.28, leaving a balance on hand of $6.79. Cemetery expenditure for the year was $45.93.

he auditors' report as presented was adopted. The treasurer's report showed receipts to be $723.53 and expenditures $646.35, leaving a balance on hand of $77.16 and an Institute balance of $35.81.

The President's address was brief, but she thanked the members for their courtesy and support during the year. Mrs. C. N. Whytock took the chair for the election of officers by ballot and which resulted as follows, Mrs. W. Whytock and Mrs. Avery acting as scrutineers:—

Honorary president—Mrs. E. M. Tumelty; president—Mrs. C. N. Whytock; 1st vice president—Mrs. J. B. Hough; 2nd vice president—Mrs. W. Whytock; 3rd vice president—Mrs. E. West; secretary-treasurer— Mrs. T. L. Nickle; district director—Mrs. W. E. Connor; branch directors — Mesdames D. Moorcroft, R. Bristol, J. A. Caskey, W. Ross, A. Sinclair, W. Parks, W. Whytock, Springham, and Ashby. Chairman of committees: Memorial—Mrs. E. M. Tumelty; Music—A. Kincaid, Wellman McBain. Flower committee—Mesdames Parks, Ashley, E. Phillips and C. Henderson; home economics —Mrs. W. Whytock; health and child welfare—Miss A. Sinclair; relief—Mrs. W. E. Connor; legislation —Mrs. E. M. Tumelty; Canadian industries—Mrs. Jas. A. Caskey; publicity—Mrs. T. L. Nickle; community activities—Mrs. W. Ross; agriculture—Mrs. James Kincaid; education and better schools—Mrs. J. B. Hough; auditors —Mrs. W. Ross and Mrs. J. B. Hough; representatives—Mesdames C. N. Whytock; W. E. Connor, Tumelty, Moorcroft, Miss A. Sinclair; alternates—E. West, W. Whytock, Springhain.

Arrangements were made for the meeting at Mrs. Kilpatrick's, also for district annual at Marmora. The roll call was answered by the paying of fees and thirty members were enrolled for the new year. A special treat of ice cream and cakes was served by Mrs. Tumelty and her assistants.



FARMER'S WIFE GETS STRENGTH TO DO HER WORK

By taking Lydia E. Pinkham's Vegetable Compound

St. John, New Brunswick.—"I was all run-down from a pain in my back and my left leg bothered me so sometimes that I was unable to do my work. I saw your ad in the newspapers and decided to give your medicine a trial. I have taken over seven bottles of Lydia E. Pinkham's Vegetable Compound and am now relieved of this suffering. I am a farmer's wife and have three children. I tell all my friends of your Vegetable Compound and I am sure that when it helps me it will help them. I am willing to answer letters from women asking about the Vegetable Compound. All thanks to Lydia E. Pinkham!"—Mrs. Arthur N. Dennison, 183 Wentworth St., St. John, New Brunswick.

Transatlantic Hops Are Again Postponed

OLD ORCHARD, Me., June 8.—(Canadian Press). — Prospect was dimmed to-day that the monoplanes Green Flash and Yellow Bird could leave here to-day on their proposed trans-Atlantic flights. Dr. James H. Kimball, New York weather forecaster, reported a bad storm area which the flyers could not hope to evade if they started to-day, but he indicated it was slowly moving out of their projected course.

Four Strikers Seriously Wounded In Gun Battle With City Policemen

GASTONIA, N.C., June 10.—(Canadian Press).—Four men today were in hospitals, two of them in a serious condition, a fifth was nursing birdshot wounds and forty-four members of the National Textile Union were in custody charged with assault with intent to kill as a result of a fight last night between guards about the strikers of Tent Colony and city policemen.

The city, which for several hours last night was thrown into a turmoil, had grown calm with rapid work by special detectives in rounding up suspects.

The shooting, all agree, was done by guards posted about a tent, established by the National Textile Workers Union for some 150 persons, strikers and members of their families, who were evicted from houses in the Loray Mill village a month ago.

DUNSFORD WOMEN MAKE PRESENTATION

Rev. and Mrs. Everson Are Given a Fernery By W. M. S.

DUNSFORD, June 10 (Examiner Correspondence). — The June meeting of the United Church W.M.S. was held on Thursday afternoon at the home of Mrs. Walter P. Thurston, with 36 members and visitors present. The president, Mrs. Thomas J. Thurston occupied the chair, and read and explained the Scripture lesson from Psalm 23 and St. John, chapter 10, the first 18 verses. Prayer was offered by the pastor, Rev. J. F. Everson. It was decided that anyone who could, should attend the summer school to be held in Ontario Ladies' College, Whitby, early in July. It was also decided that each person make a contribution to the bale of supplies and report at the next meeting of the Auxiliary what might be expected to be received. Mrs. Vernold Thurston gave the chapter on the study book. Mrs. J. F. Everson gave a reading on China, Mrs. Alexander Thurston one on Temperance. A reading entitled "The Urge of Prayer," was given by Mrs. Robert Brien. A solo, "The Sinner and the Song," was beautifully rendered by Mrs. Nelson Thurston. During the meeting an address to Mr. and Mrs. J. F. Everson was read by Mrs. W. M. Thurston expressing appreciation of the help given by both the pastor and his wife in the work of the W.M.S. and of the Ladies' Aid. Special mention was made of the efficiency of Mrs. Everson as teacher of the Bible Class. Mrs. T. J. Thurston, in her remarks, stated that she could not have undertaken the work of president of the Auxiliary but for the assurance of valuable support from Mr. and Mrs. Everson, were presented with an expensive fernery as a tangible expression of appreciation of their work. The presentation was made by Miss Laura Kennedy and Mrs. Walter Thurston. Many regrets were expressed at the departure of Mr. and Mrs. Everson from the Dunsford charge.

Lunch was served at the close and a social hour enjoyed. The July meeting is to be held at the home of Mrs. Theodore Greer. Mrs. W. M. Thurston is to give the Bible lesson and Mrs. T. V. Thurston is to synopsize the chapter in the study book.

In the absence of Rev. Mr. Everson, who was in attendance at conference last Sunday, the services at both Emily and Dunsford were taken by the young people of the different congregations, and were much appreciated by the large congregations that attended.

DISTRICT MARKETS

PRESENTED TO PRINCE

J. J. Gibbons, well-known Canadian advertising man, dressed for the Prince of Wales' recent levee at St. James' Palace.

A wife-saver for the warm days

SHREDDED WHEAT

12 full-size biscuits — *With all the bran of the whole wheat*

It is ready-cooked and ready-to-eat—Just crisp the biscuits in the oven and pour milk or cream over them—Delicious with berries, prunes or canned fruits.

Have the children save the paper inserts in each package.

WISH YOU WERE HERE

WAYNESBURG, O., June 10.— A postcard has been received in Davistown, Green county, after being in the mails 18 years. It was sent from Keokuk, Iowa, in 1911 and addressed to Mrs. Thomas Steel, who has been dead for 12 years.

A Challenge to You!

"All institutions", it is said, "are measured by their service to mankind."

...The modern institution most closely linked with the lives of men and women is the Daily Newspaper.

...In Canada ninety-eight Daily Newspapers serve 2,067,000 paid subscribers. They have gained 111,500 in one year. Every new literate family that arrives in Canada means a new subscriber to a Daily Newspaper.

...Every normal and alert Canadian who reads anything reads a "paper" every day.

...If the Daily Newspapers were not serving this army faithfully and well they could not maintain such steady increase and prestige.

...A good Newspaper should never have to solicit your lineage; its mere existence is a challenge to your advertising intelligence.

CANADIAN DAILY NEWSPAPERS ASS'N

GOOD PROGRAM IS PROVIDED AT BAILIEBORO SPORTS DAY

Successful Affair Held Under Auspices of United Church Societies.

SOFTBALL GAME.

Play "Assisted By Sadie" Presented By Members in Evening.

(Examiner Correspondence.)

BAILIEBORO, June 8 — At the sports day held here on Monday, Percy Stinson, president of the East Durham Tuxis League, opened the league by pitching the first ball across the plate.

The sports day was held under the auspices of the Young People's League of the United Church and the Victor Tuxis Square and has been an annual event for the past five years.

About four hundred people were present and the afternoon was counted the best ever held on Mr. Thompson's athletic field.

The sports opened with a softball game between the public school children and the public school ball team from the Boundary school. At the end of the seventh inning the score stood 14 runs to 2 in favor of the Boundary School. The battery for the Boundary team was: Hanbridge, p.; Handbridge, c.; for the local team, G. Anderson, p.; M. Guyatte, c. Miss Bonnycaste and Miss M. Earl.

A program of children's races were then run off providing plenty of entertainment for the spectators.

Handball Game

A hand ball game between Garden Hill, and Plainville, added to the afternoon's sports. At the end of the seventh inning the score stood 6 to 2 in favor of Garden Hill. Batteries for Garden Hill, Mercer and Dunbar; for Plainville Buttais and Muncher.

The local hard ball team played the Elizabethville boys and after slugging the ball all over the field the final score stood 20 to 2 in favor of the local nine.

The Millbrook Scouts were present and played the local Tuxis boys softball team a snappy game. At the end of the seventh inning the score stood 16 to 2 in favor of the local Tuxis boys. G. Raper and T. Budd comprised the Millbrook battery and K. Barnard and R. Barnard made up the Bailieboro battery.

Field Sports

The pole vault was won by Sidney Greenaway of Port Hope, Archie Deyell second, D. Concilla of Port Hope third.

The high jump in the senior class, Archie Deyell first, G. Sneyd second, Sherry, third.

Junior high jump—G. Roper first, B. Gainer, second.

Standing broad jump—G. Sneyd, 9 ft. 7 in.; A. Deyell, 8 ft. 11 in.; Leo Brown 8 ft 10 1-2 in.; Sherry, 8 ft. 5 in.; Concilla, 8 ft. 4 in.; A. Brown, 7 ft. 11 in.

100 yard dash, Jr.—Sherry, first; Sherry, second; Concilla third.

100 Oyard dash, Jr.—Shery, first; A. Bateman, second; J. Hibbard, third.

220 yd. dash—Sneyd, first; Sherry, second; H. Chambers, third.

1 mile race, junior—J. Ackison, first; W. McElroy, second; A. Bateman, third. Time about 6 1-2 minutes.

1 mile race, senior—Arnold Brown, first; Fred Barnard, second; Geo. Sneyd, third; Sherry, fourth; Chambers, fifth; Concilla, sixth. Time, 4 3-4 minutes.

Present Play

The Y.P.S. and Tuxis Square staged their play entitled "Assisted by Sadie," in the United Church in the evening and presented it to a packed house.

The male quartette from Centreville Presbyterian Church were present and provided numbers between acts. The quartette was composed of Messrs, J. Isbister, M. Bradshaw, Geo. Berry, and Chas. Anderson. Miss Grace Johnston played the piano for the quartette.

Judging from the hearty applause, both the play and the musical numbers were immensely enjoyed by the large audience present. The proceeds of the day would amount to approximately two hundred dollars.

THREE SALARIES ARE INCREASED

Four Additional Resignations Accepted By Campbellford School Board.

MAY REDUCE STAFF.

CAMPBELLFORD, June 10 (Examiner Staff Correspondence).—Every member of the local Board of School Trustees was present at the adjourned meeting held in the Council Chamber Friday at eight o'clock. At the preceding meeting, the matter of salaries and contracts for the High School staff was discussed at considerable length without any definite conclusion being reached. This state of affairs was the first to be dealt with at the last meeting. There were four additional resignations received and accepted, three from the Public and one from the High School. New contracts are to be drawn up for the High School staff and all members, including the principal, are to be requested to sign. Three salaries were increased on the High School staff and there is a possibility that the staff of the Public School may be reduced by one teacher. A change was also agreed upon for the regular meeting night.

Resignations Accepted.

The resignation of Miss Stafford, of the High School staff, was read and received. This is the third to be received from the school, and in each case the teacher has expressed her appreciation of the courtesy of the Board, the other members of the staff and general atmosphere of the school. The Internal Committee has been authorized to advertise for teachers to fill these vacancies.

Through the medium of the Internal Committee, three more resignations were received from the teaching staff of the public schools. Miss McGirr's resignation was accepted at the regular meeting. The additional three are those of Miss Elsie Smith, Miss Irene Davidson and Miss Evelyn Irwin. As spokesman for the committee, Dr. Watson said that James Loucks, Thomas Hall and himself had visited the public schools and interviewed the teachers. Those named had stated that they were going to resign. There was another teacher who was not decided at that time. The committee had also visited the High School and had learned that Mr. Stephens, the assistant principal, was quite willing to sign the teachers' contract, but that he had thought his case settled and the contract unnecessary. If the Board considered it to be so, he was quite willing to sign.

OPEN DISCUSSION

Once more the matter of contracts, salaries, etc., was thrown open and a lively discussion followed, with Trustees Lynch and Loucks being the principal speakers. William Cock and Dr. Longmore also featured in the argument. Finally, one of the members of the board declared that the discussion was out of order since there was a motion before the chair. However, it appeared that there was not, so the discussion continued, till a motion by D. J. Lynch and Dr. Longmore, granting a raise of one hundred dollars to E. H. Grieg, principal, and Miss Ferris and Miss O'Shaughnessy was put and carried.

Other Business

The next point was a request from Principal Grieg to have the board's authority behind him n regulating the decorum of the school and demanding that proper professional etiquette be observed. The general opinion voiced was that the principal already had this authority, but a motion to that effect was made and carried.

Thursday, the regular school board meeting night, being an open night since the new by-law came into force, Dr. Watson and Geoorge O'Sullivan moved that the night be changed to the last Monday of each month. The motion carried.

The next motion was made by O'Sullivan and seconded by Watson, that a new contract form be drawn up by the internal committee and D. J. Lynch, solictor. This motion also passed. In future the salaries of the caretakers will be paid twice monthly rather than once each month as has been the custom.

Regarding the public school staff, Dr. Watson reported that the internal committee had interviewed Charles Haig, principal of the schools, with reference to the matter, and he had explained that he could not make any definite statement at this time of year. After the examinations were over, he would be in a better position to view the situation. He explained that although the general attendance was somewhat smaller than last year all these scholars were not out of one class. This led the conversation to the absentee situation, and the principal reported that there were from forty to fifty absent every day. The board considered that this matter should be investigated.

Having completed their business for the month, the board adjourned at 9.15 p.m.

Constipation

Messenger of Misery

IF you are a prey to habitual faulty elimination of waste, your system is slowly—steadily absorbing body poisons. How can you expect anything else but sallow cheeks—lack-lustre eyes—leaden steps?

Many people can avoid constipation by including the right kind of roughage in the diet. Eat Post's Bran Flakes regularly, every day. Post's Bran Flakes provides necessary roughage. It helps to keep the normal person regular, and helps back to regularity those afflicted by constipation caused by lack of roughage. There's a tempting flavour in each crisp, golden flake. You'll enjoy Post's Bran Flakes. Everybody does.

Cases of recurrent constipation associated with too little bulk in the diet should yield to Post's Bran Flakes. If your case is abnormal consult a competent physician at once and follow his advice.

Make this two weeks' test and note the difference

Constipation must not be neglected. Start a two weeks' test now. Order a package of Post's Bran Flakes from your grocer.

Start by eating a dish of Post's Bran Flakes for breakfast. Eat it as a cereal, with milk or cream. You will find it as delicious as it is effective.

Do this every day for two weeks. We predict you will find a real difference in the way you feel, and that you have been "regular" all the time.

But don't stop at the end of two weeks. Eat Post's Bran Flakes every morning for health and regularity.

Post's Bran Flakes is sold by all grocers, in a wax-wrapped package. Ready to eat.

Write for free trial package to Canadian Postum Co., Limited, Sterling Tower, Toronto 2, Ont.

SPEAKING OF wedding showers and gifts for the June bride last week reminded me of a certain June bride who was doing her shopping.

* * * * * *

After the wedding apparel has been decided upon, the bride turns to her going-away costume. Its importance can hardly be realized for the bridegroom really sees his bride for the first time when they are away from the noise and confusion of the day and starting on one sweet journey together!

* * * * * *

Of course, when he looks with his approving eye upon his new posession of a few hours, she must look her VERY best, so that his eye may always be approving.

* * * * * *

It shouldn't be very hard this year, with such a world of beautiful costumes from which to choose. And each bride is desirous of leaving a most pleasant picture in the mind of her new husband when he first beholds her!

* * * * * *

She has the choice of an ensemble or suit, her figure, height and age, of course, determining her choice. Whatever she chooses it should be tailored in consummate taste, but very, very feminine looking—a little lace touch or something fine and gleaming always pleases the eye of a man!

* * * * * *

As to color, she should be able to choose that which will bring out that natural bloom in her clothes, those golden lights in her hair, or if she is brunette, what colors make her hair that enviable blue-black.

* * * * * *

The bridal wardrobe should be gay but not gaudy. A dark suit with the right blouse is sometimes Fashion's most successful contribution in getting a bride started towards making her husband proud of her loveliness!

* * * * * *

There are the new shades of red, green and blue, and each of these give the June bride a diversity of styles, color and fabrics. Each is excellent for certain types of beauty and for different kinds of wedding trips.

* * * * * *

The tailored outfit is always in order and lucky is the bride whom tailored clothes set off to advantage because there is the new 'Gypsy' which is a stunning outfit.

* * * * * *

It accordian pleated skirt is black flat crepe, its straight line long coat is of the same or may be of worsted material.

* * * * * *

Its blouse is a veritable work of art in the way it combines chartreuse, melon and orange flat crepe in modernistic manner to fashion a man's shirt that has true feminine chic. Bands of the same shade of velvet hug the hipline of this shirt and its tie is a flowing black crepe one.

* * * * * *

And then the hat! It is a vagabondish model with wide, rolling brim, banded with narrow strips of the three shades of silk braided and tied in a small knot on one side.

* * * * * *

The choice of a hat is of real importance, for a hat can embrace a woman's beauty or kill it.

* * * * * *

If the bride is a blonde or brunette who wears green well, she might choose a suit of emerald green flat crepe with an adorable little blouse of very finely pleated chartreuse chiffon, with the wee-est touch of lace at the neck.

* * * * * *

Stunning and noticeably different from everything else is the lacquer red flat crepe and satin ensemble that makes the woman who can wear it look like a million—as the little boy would say!

* * * * * *

A Havana brown cardigan silk suit which I noticed has a handkerchief linen gilet and is topped by a brown felt hat with yellow quills stuck through its brim. This makes an attractive suit too, if the June bride prefers brown.

* * * * * *

But a costume is never complete without the accessories which go so far these days to make the entire costume chic. The hand-sewn suede gloves have always individuality and a purse should be chosen to correspond with the outfit and sufficiently large to hold necessary small toilet articles, etc.

* * * * * *

And of course, if the honeymoon is to be spent at the seashore or wherever it is spent, the bride should have a jacket to wear. This year they come in gay calicoes, quilted silks and in linens and cretonnes. One's hat should go with one's jacket.

* * * * * *

The new panama and other white summer hats have Roman stripped bandings that snap shut around the crown. Several can be made for each hat, matching the costume with which it is worn.

* * * * * *

There is a cute afternoon frock which the bride may find useful in her trip, of figured chiffon with flaring sleeves. Often they are tight to the elbow then grow bell-shaped or split to form a sleeve that falls away from the arm.

* * * * * *

She might find a tennis frock useful too, and there are charming ones in two-piece models. The skirts usually have fitted yokes, while the tuck-in blouses are diminutive things with no sleeves and a very low sun-burn back line.

* * * * * *

Let us wish her every happiness in her new role of life!

OLD SONGS

THAT PIECE OF SONG, That old and antique song we heard, last night.

(Contributed by Mrs. C. J.)

THE LOST LETTER.

In the post office window was one broken pane,
In the wainscot there was one loosened board,
And conveniently near, was the broad oaken table,
Where the mail from the bag had been poured.
'Twas a morning in May, with a sweet-odored breeze,
And it happened unnoticed by all!
That a most precious missive, a love-laden letter,
Fluttered down through a gap in the wall.

Chorus:

Two lives wrecked by a zephyr,
Two hearts crushed by the fall;
When that most precious missive, a love-laden letter,
Fluttered down through a gap in the wall.

Both were faithful and true, 'twas gossip's remark,
That had clouded loving hearts with concern;
But alas! came a quarrel, and she in her anger,
Bade him go, never more to return.
O! how soon she repented, and great was her grief,
And how humbly she penned her recall;
But that most precious missive, a love-laden letter,
Fluttered down through a gap in the wall
Fluttered down through a gap in the wall.

It was just on the morrow the carpenter came,
Such defections in that wall to repair;
And he hammered and sang, and departed unmindful,
Of the hearts he had thus buried there,
And in heaps on the table, all safe and secure.
There lay many a valueless scrawl;
But that most precious missive, a love-laden letter,
Fluttered down through a gap in the wall.

When she knows how she wronged me, my darling will write,
Mused the lover, as he watched for the mail;
But his letter came not, and hisheartened and hopeless,
For a land far away, he set sail.
Oh! the long weary years of suspense and regret,
And of presage, perplexing withal;
When that most precious missive, a love-laden letter,
Fluttered down through a gap in the wall.

From the time-crumbled pile, came the time-faded sheet
With its ancient superscription and date;
And from exile the lover, the faithful lover,
Hastened home but to seal his ill-fate.
'Twas his most cruel pang, that he might not explain,
To the sleeper beneath her black pall,
How that most precious missive, the love-laden letter
Fluttered down through a gap in the wall.

S-O-S

If you have a problem, or want advice, or a recipe, the neighbors will be glad to help out. Write to Marion, who will present your request.

J. F. C., Lakefield, wishes to obtain the words of an old song entitled "In the Golden Vales of Limerick," some of the words of which are:

"Down by yon Shadow's stream
There dwells a maid that holds my heart
And haunts me in my dream.
She had shining, showery, golden hair,
As gentle as a swan,
And her cheeks would make a red rose pale;
She's my darlin' colleen bawn."

Our Children

By ANGELO PATRI

FLY SCREENS

Fly weather is upon us. Teachers and doctors and nurses and mothers fear and hate flies. Born in filth they carry disease to little children. Screen the baby against him. Screen everything he eats from them. A single fly crawling about a baby's mouth may cause a severe illness and babies cannot afford illness especially in warm weather.

Of course the very first thing to do is to see that all breeding places for the pests are abolished. All stables, barns, garbage heaps, any place that harbors waste of any sort should be cleaned down to the fresh soil. I like to clean down to the fresh earth and then lime the whole area well. Lime is a cheap and a thorough cleanser. Then keep the place cleaned up.

Every good school has a science class and at least one teacher who is devoted to science. At this time of the term a project is an invaluable help to the teacher and class. Books and drill for tests are weighing heavily upon the spirits of the children and the school teachers. A little variety in the program is good. Chase out the flies. Route them out of their breeding place. Kill all of them if possible. Have reports upon them. Have the science class write up the life of a fly from observation, if possible. Have them inspect their town and undertake a cleanup. The board of health will help. The women's club will be delighted to help. Everybody will lend his strong right arm to swat a fly.

When the good work has been done see to the screens. All windows and doors must be screened. The baby's carriage, his crib, his room, are to be thoroughly screened against flies and mosquitos. When the baby leaves his screened room to take his nap under the trees, don't forget the netting. Even if the last fly in your village has been flattened into extinction one may fly over from the next village and enjoy the freedom of the place. The baby must be screened from all such insects.

Perhaps you have no wire screening? Then surely you can get mosquito netting? If it is for the baby better buy the white sort. The colors of the ordinary netting run swiftly when a shower touches them and although they run so fast and so far when wetting in the netting, they won't budge once they get into the sheets and pillow cases. White mosquito netting is cheap and very effective.

To all earnest, boys and girls, to all women's clubs, to all health officers everywhere, I offer the house fly as a candidate for destruction. Swat the fly is one slogan that is music to my ear. And don't forget the mosquito. The same motion will kill him— and her—and the merit achieved by the swatter is just as high.

The total number of hospitals in the United States' possessions is 229.

Buyers and Sellers

by Agnes Kent

THE COLLEGE WOMAN AND ILLUSION.

"I wish I could afford to send Betty to university," one woman remarked to a group of us over the teacups.

"It would be nice, but why worry," answered the most brilliant of the lot. "All I should ask is that she have enough early education to train her to read her newspaper intelligently."

"Just what do you mean?" said the puzzled mother.

"Exactly what I say. The average girl of to-day gets a fair education if she has brains enough to absorb it from the newspapers."

"Well, of all the piffle,"' replied the indignant mother.

"You have evidently overlooked a good opportunity yourself," merely laughed the other. "I am no salesman of newspaper space, but think a moment, every day the newest things for the home are featured before your eyes. They teach correct dress and fashion; they teach sanitation, and where to buy the best and newest food; they tell about modern art, letters and music, finance, banking, prices and opportunities for thrift and investment."

"These things are nothing if you haven't brains enough to see their significance and uses; they are everything if you do."

That Body of Yours

(By Jas. W. Barton, M.D.)

FASTING.

One of the interesting exhibits of former days was the professional "faster" who abstained from food for many days even up to five or more weeks.

Some were watched closely and apparantly all they had was water to drink.

How much nourishment was in this liquid was not investigated.

Some of these fasters were genuine and actually did without food or water for a long time.

The fact that a short fast of two or three days has certainly been of help to many individuals, has encouraged them and others also, to try a long fast, and the results have in many cases been disastrous.

When you take food into your system the body works actively on it for twelve or more hours, taking all the nourishment out of it. If however, you have eaten much meat or eggs it will work longer on it.

The blood and all parts are thus enriched and keep up your weight and strength for some hours afterward.

Then comes a time when the nourishment of this food has been completly used.

What happens then?

The actual tissues are then used to keep up the heat of the body which is absolutely necessary to life.

These tissues in getting so used, get broken down into wastes and wastes as know are poisonous to the system.

If they are properly gotten rid of by the skin, lungs, kidneys and intestine, the average fasting individual can go along nicely for two or three days.

Getting rid of this weight and the accumulated poisons is really a benefit to the system. If he then comes gradually back to a full diet, using liquids and fruits first, he should get some benefit from the fast.

This is for ordinary healthy adults who are "fed up", and not for weak sickly folk, who should not undergo a fast, however short, without the supervision of a physician.

For infants and small children a fast is often ordered to get back an appetite.

For growing boys and girls fasting is positively dangerous. Food is essential to growth aside from maintaining animal heat.

Treat fasting as "medicine", a powerful, useful, but dangerous drug.

FAVORITE RECIPE.

DUTCH PIE

(Contributed by "Mike")

2 egg yolks.
¾ cup white sugar.
1½ cups currants or raisins.
1 teaspoon cinnamon.
1 teaspoon soda.
1 cup sour cream.
1 teaspoon butter.
1 teaspoon flour.

Mix in order given, put in saucepan, bring to a boil and boil for two minutes, stirring all the time. Remove from fire and put mixture into a baked pie crust. Beat whites of eggs with a tablespoon of sugar spread over the top of pie and brown in moderate oven.

MAPLE SYRUP PIE.

(Contributed by "Jeannine")

One cup maple syrup; 1½ cups raisins; 1 lemon rind and juice; 2 tablespoons flour; Bake with one or two crusts.

QUICK LAYER CAKE.

(Contributed by "Jeannine")

Two eggs; 1 cup sugar; 1 cup milk (scant); 2 tablespoons melted butter; 2 teaspoons baking powder in 2 cups flour.

305 Famous Beauty Shops Find—

FAMOUS BEAUTY SCHOOLS also find Lux gentlest to the hands! The National Schools of Cosmeticians chose Lux for use in manicuring because Lux suds proved most soothing! "There is no better beauty aid than Lux in washing dishes," they add.

96 OUT OF EVERY 100 BRIDES questioned in 11 great cities are using Lux for their dishes, to keep their hands truly lovely! These modern girls mean to keep house without losing a bit of youthful charm. They find Lux means beauty care!

Lever Brothers Limited, Toronto 5015

"With all our experience we cannot distinguish between the hands that never wash dishes and hands that use Lux in the dishpan."

NOBODY has a better chance to compare women's hands than the experts in these famous beauty shops all over the country!

And they find that—

"Lux for dishes means hands that are truly lovely—soft and white as the hands of leisure."

Here is beauty care *in your dishpan!*

While you are washing dishes with gentle soothing Lux suds, your hands are gaining a half-hour, or more, of real *beauty care!*

The secret is this: Lux is different from other soaps! It cherishes the delicate oils of the skin, while so many soaps pitilessly dry these beauty oils—leave the skin roughened and red looking.

Best of all, this beauty care costs almost nothing—less than 1¢ a day!

Here is the wisest, most inexpensive beauty care known—right in your own dishpan!

THESE FAMOUS HANDS of Miss Irma Wright, world champion amateur typist, delight big audiences with their speed! "Lux in my dishpan keeps my hands supple and white," she says—"solves my problem of being both champion and homemaker."

OF COURSE DISHES SHINE, glasses sparkle, with lovely Lux suds—truly as magical for dishes as for hands! And Lux costs so little! The big package of Lux will wash 6 weeks' dishes for the average family—lovely hands for less than 1c. a day!

Neighborly Notes

Please phone items to 1600 or 1601

Mr. and Mrs. Cyril Rathbone, Miss Ida Cunningham and Mr. James Brown of Toronto were week-end guests of Mr. and Mrs. W. H. Cunningham, Weller Street.

* * *

Miss Jean Craigie of Port Credit was a guest on Saturday at the wedding of Miss Ethel Dudgeon and Mr. Frank Stevens.

* * *

Mr. W. A. Craw, B.A., of Toronto, spent the week-end with his mother, Mrs. Mary Craw, Water Street.

* * *

Mrs. P. Heenan, Water Street, is visiting her daughter, Mrs. J. Anglesey, in Detroit.

* * *

Mrs. William Brown (nee Irene Whittaker), whose marriage took place recently, was guest of honor at a kitchen shower given for her by the Girls' Auxiliary of St. Luke's Church, and held at the home of her sister, Mrs. James Burgess, Rogers Street.

* * *

Sir John Sankey, who has been made Lord Chancellor of England in the MacDonald Cabinet, and who will be raised to the peerage this week, is a cousin of Mrs. R. C. Blagrave of St. John's Rectory.

* * *

Dr. and Mrs. C. A. Dudgeon of Port Credit were guests on Saturday afternoon at the wedding of the former's sister, Miss Ethel Mae Dudgeon, to Mr. Frank E. Stevens.

* * *

Mrs. Percy Reeds of 531 Parnell Street was hostess last week at a pretty shower held at her home in honor of her niece, Miss Etta Ruttle, whose marriage takes place next week. The house was tastefully decorated with mauve and white crepe paper and lilacs. The bride was ushered in by her sister, Mrs. Wellmer Windsor, and was showered with confetti while the company sang "For She's a Jolly Good Fellow." A large number of pretty gifts were received by the bride-elect and the evening was spent in the enjoyment of music and dainty refreshments.

* * *

The Rev. J. W. Dudgeon and Mrs. Dudgeon of Toronto were guests on Saturday afternoon at the wedding of the former's niece, Miss Ethel Mae Dudgeon, to Mr. Frank Stevens. The Rev. Mr. Dudgeon assisted his brother, the Rev. James H. Dudgeon, pastor of St. James' United Church, in performing the ceremony.

* * *

Mr. and Mrs. J. H. Rowe and Miss Olive Rowe attended the Graduation Exercises of the Training School for Nurses at the Belleville General Hospital, which took place on Friday night. Their daughter, Miss Emma Rowe, a graduate of the school this year, won numerous honors. She was the gold medallist of the 1929 class and also received other prizes, among which was a set of nurses' instruments in a handsome leather case, from London, for the most deserving nurse of the year.

* * *

Among the guests from Toronto who attended the Stevens-Dudgeon nuptials on Saturday afternoon were Mr. and Mrs. D. Pacella, Mr. and Mrs. William McIvor, Mr. and Mrs. Harry Montgomery, Mr. and Mrs. Albert Doidge, Mr. and Mrs. Thomas Dudgeon, Mrs. A. Jennings, Miss Blanche Jennings, Miss Clara Doidge and Mr. Arthur Doidge.

* * *

Mr. and Mrs. E. H. Hiland, with their daughter, Mrs. Dorian Macdonald, and son Joseph, attended the Convocation Exercises of Toronto University, when Miss Vera Hiland was one of the graduates of the year.

* * *

Mrs. Ethel Tully Heard spent the week-end at Chemong Park with her mother, Mrs. J. D. Tully, at "Fern Lodge."

* * *

Mr. and Mrs. Albert Butcher of Cannington were guests on Saturday at the Stevens-Dudgeon wedding.

* * *

The Misses Nora and Mona Coughlin motored to Niagara Falls and Buffalo, N.Y., to spend the week-end.

* * *

Mr. John Botterill of Lakefield announces the engagement of his daughter, Vera, to Francis L. Erskine, son of Mr. and Mrs. F. G. Erskine of Lakefield. The marriage to take place on June 29th.

* * *

The Rev. Walter Creighton of Lakefield officiated on Saturday in Toronto at the marriage of Mr. Harold G. Brooks to Miss Lettice N. Cumberland.

* * *

Miss Beatrice Butcher and Mr. Percy Butcher of Beaverton were guests on Saturday at the Stevens-Dudgeon nuptials.

* * *

Mrs. John Brent of Coleville, Saskatchewan, who was delegate to the Council meeting of the Women's Missionary Society of the Presbyterian Church, at Ottawa, has been visiting Mr. and Mrs. J. H Rowe, Bethune street, for the past week. She left to-day to visit relatives in Western Ontario after returning from Belleville, where she accompanied Mr. and Mrs. Rowe on Friday night for the graduation exercises of the General Hospital there.

* * *

Mrs. Richard Shelton and daughter Shirley have returned home after spending the past week with friends in Toronto.

* * *

Mr. and Mrs. R. J Allan and son Norman, Mrs. A. Gillespie and Miss E. Clysdale attended the graduation exercises of the Belleville General Hospital, on Friday night.

* * *

Mr. and Mrs. J. S Mason of Arbour road and son Albert, sailed from Montreal on Saturday night to spend the next two or three months with relatives in England.

* * *

Mr. and Mrs. P. J. Scollard and daughter, Miss Veronica Scollard, were in Toronto for the Convocation of the University of Toronto, when Mr. P. D. Scollard was one of the year's successful candidates from St. Michael's College.

* * *

Mr. and Mrs. J S. Mackin, Aylmer street, sailed last week for England, where they will spend the summer months.

* * *

Dr. and Mrs. J A. Morgan attended the convocation exercises of the University of Toronto, where their daughter, Miss Aileen Morgan, was one of the year's successful candidates.

* * *

Guests from Peterborough who attended the Dudgeon-Stevens wedding on Saturday, included Mr. and Mrs. Herbert Snelgrove, Mr. and Mrs. G. F. Liddle, Mr. and Mrs George Groombridge, and Miss Doreen Groombridge, Mrs. E. J. Wagar, Miss Berenice Ferguson, Mr. Clifford Jackson and Mr. Edward Kingdon.

* * *

Friends of Mr. and Mrs. Shewin of Lock Five will regret to learn of the serious illness of their little seven-year-old son, who is the grandson of the Rev. Rural Den Spence of Apsley. Little Claude Shewin was compelled to undergo three operations within the past twelve days, two for mastoiditis and one for appendicitis. He is doing as well as can be expected, in Nicholls Hospital.

MELODY INN MAKING HIT WITH YOUNG

Pavilion is Beautifully Laid Out and Decorated.

ORCHESTRA COSTUMED.

Members Play With Smooth Finisth Most Acceptable to Dancers.

Long pendant lines of dancing musical notes in yellow red and green carry out the idea of "melody" at Melody Inn, at Lakefield, the pleasant summer dancing place that Eric Roberts has evolved from the Pavilion there. The swaying notes vibrate above the heads of the dancers and the same bright colors of red, yellow and green are carried out through the whole long interior.

Around three sides of the Pavilion, flanking the dancing floor, is a railing that separates a space where little tables are placed. This railing, with its posts, and the little tables and chairs, are painted in the three gay tints and the dainty menus that are adorned with vivid musical notes, carry out the same color scheme. An overhead fringe that makes a brilliant canopy is of graduated lengths of paper in red, yellow and green, and the long basket shades on the lights are of similar hues.

The orchestra stand is draped with bunting in red, white and blue, in solar-ray effect, the octagon-shaded lanterns strung along the sides of the hall have gaily colored frosted glass panels and there is futuristic chintz in the gay curtains at windows and doors. The impression of coolness that comes from subdued lighting and opened lattices gains headway when one observes the evergreen boughs which make the ceiling at either side of the hall.

Orchestra Costumed.

This illusion of gay, soft coloring and brightness is carried out in the costumes of the orchestra players, wearing white fannels with blazers of red and black stripes, in the illuminated drum and the tiny megaphone of frosted brilliants through which Eric Roberts sings ,had in the ladies' waiting room, decorated in red, with parchment-shaded lights. Even the chain used is gaily and prettily colored to match.

A spotless little canteen at the end of the hall is equipped for the service, by white-coated waiters, of light lunches, sandwiches, ice cream novelties, fruit punch, hot dogs and coffee, and cigarettes. Later on, Sunday chicken dinners will be served.

Eric Roberts and his orchestra play with a smooth finish and a tantalizing rhythm that brings the dancers back, time and again, to the highly-polished floor. There program includes at moment such favorites: "Louise" "Honey" "Deep Night" "Weary River," "The Wedding of the Painted Doll" "How About Me", "I'll Always be in Love with You,' and and Irving Berlin's new waltz medley that holds in its crooning syncopation such favorites as "Croquette"" and "Marie" and "Where is that Song of Songs for Me?"

The personnel of the orchestra, with Eric Roberts as the leader, is: Walter Townsend, piano; Pat O'Keefe traps; Gordon Braund, trumpet; Stanley Wheeler trombone; Ambrose Pooley, Sousaphone. W. E. Massey Cooke acts as floor manager and H. Fleetwood Cubitt has charge of the canteen, where a novelty is a delicious pineapple sandwich.

The big white pavilion with strings of colored lights at its entrance, with its bright, charming decorations and smooth, attractive music, is proving a popular stopping-place for motorists who like to have an hour of dancing or light refreshments, at Melody Inn.

HOLD COMPETITION IN LAKEFIELD

Boys' and Girls' County Judging Contest Scheduled for June 18.

The change in the boys' and girls' judging competition at the Peterborough Exhibition from a local to an open class has necessitated the holding of a local competiton which will be held on June 18, in Lakefield.

Here ten boys under twenty-one years of age, and who will be under that age by November 1, will be selected to make the trip to the Royal Winter Fair in Toronto. The best ten will make the trip, on which all expenses will be paid by the Department of Agriculture. In Toronto they will be entertained for three days, when they will get a chance to see the Fair an will be the guests of some of the larger firms while in the city, who will show them through their plants. The trip is of an educational nature, but there is a good time also in store for the winners.

At this same judging competition that is being held in Lakefield, the teams for the inter-county judging competitions will be picked. These teams for the boys' live stock judging will compete at the Ottawa and the Canadian National Exhibition at Toronto.

The girls' domestic team will also be picked at this competition and will participate in this class in the C.N.E. at Toronto.

SEASON'S SPORT MODELS

(1) This little imported tennis costume scoffs at the sun. An almost backless frock, it is accomplished in white silk crepe, and is similar to one noted at the Coliseum on the opening night of the military tournament. The lacings are in bright red. The skirt is short and flared, while a simple white head band completes the ensemble. (2) Unusually interesting is this smart sports jacket of novelty Rodier cloth, showing a green block pattern in a soft summer shade against a white star motif. Pearl buttons devise a link closing at the cuff. A white linen frock is given added chic when worn with this jacket. The hat is of matching green felt. (3) This sports costume subscribes to the sweater mode. A novel note is introduced in the brightly colored motif interwoven in the sweater, achieving an embroidered effect. To accent the red tones in the motif a coral necklace is worn.

WOOD BUCKLES.

New straw hats have unusual buckles and ornaments in modernistic design made of wood. Purses take wooden frames and fabric sports pumps for midsummer have matching wooden buckles.

NEW BOUTONNIERE.

A black suit has five colorful feather tips stuck in graduated manner in the buttonhole of its jacket.

HIGHER WASITLINES.

Paris raises the waistline with each fashion showing. A pale blue taffeta party frock has its molded silhouette place its belt almost at Empire line.

This clever little suit from Jenny with its numerous smart details is in brown rep with white polka dots, and is worn with a blouse in yellow georgette.

SMART DETAILS GIVE CHARACTER TO SPRING SUITS.

By Mme. Jenny.

Numerous smart details have been used to give character to this spring suit which I have created in brown reps with white polka dots of minute size. Among them are the turn down flaps of the pockets, the buttoned on empiecement at the elbow, and the clever collar and lapels. A simple blouse in yellow georgette trimmed with horizontal folds completes the costume.

Uncle Wiggily

A Bed-Time Story by Howard R. Garis

UNCLE WIGGILY'S JUNE BUG

Copyright, 1929, by McClure Newspaper Syndicate.

By Howard R. Garis

Uncle Wiggily had only just stepped out of his hollow stump bungalow one morning before all of a sudden, something banged him in the eye, a buzzing noise sounded in his ears and he felt a tangle of rough legs in the hair and fur of his head.

At the same time a jolly voice called out:

"Here I am! Right on time! Have you missed me? Oh, how jolly glad I am to be back again! Toodle roodle!"

"My goodness! What's all this?" asked Uncle Wiggily, and he was wishing he was near a flower, for his eyes were full of water, from having been banged, and he could easily have watered a blossom if one had been there.

But there was that buzzing, humming sound around the rabbit gentleman's ears, and once more a voice cried:

"Here I am! Aren't you glad to see me?"

"Who are you?" asked Uncle Wiggily; for, just then, because of the water in his eyes, he could see no one. And then from behind his head there flew a big, brown, fluttering creature who cried:

"I'm your June Bug!"

"Oh, so you are!" said Uncle Wiggily who could see better, now that the water was out of his eyes. "But be careful! Don't bang me again!" he begged. For he saw the June Bug zooming straight at him the way those bugs always zoom when they fly.

"Don't worry! I won't bang into you again!" buzzed the June Bug, settling down on the screen door and flitting his wings. "It was just that I was so glad to see you I tumbled all over myself."

"I should say you did!" chuckled Uncle Wiggily. "But go easy now."

"I will," promised the June Bug. "But aren't you glad to see me? I am back here right on time. First day of June! Listen to the moon! See the sugar spoon and croon and loon! Listen to me croon! In June—some moon! Come soon." And he began singing away as jolly as a five-cent piece.

"That's so! This is June! I had forgotten," murmured Uncle Wiggily.

"It sure is June!" buzzed the bug, getting ready to fly off the screen door. "And I'm a June Bug and I always come around on the first day to flit around the light—in the night, what a sight! Oh, moon! Oh, spoon! In June!"

"Well, you seem to be very jolly and happy!" chuckled Mr. Longears.

"I am!" sang the brown bug. "I'm as happy as a lark, in a park, see the spark of the fire, blowing higher! In June, see the moon! Some tune!"

Now I know the sillly summer season has begun," spoke Uncle Wiggily. "It always starts when you June Bugs come around to fly in the moonlight and get tangled in the girls' hair. Hey! Look out! Don't bang me again!" cried the rabbit gentleman, ducking his head, for he saw the June Bug start to fly again.

"I'll be careful!" promised the Bug. But he was so happy and jolly and light-headed as well as light-hearted, that he zoomed all around and wou have banged Uncle Wiggily in the eye again if the rabbit gentleman hadn't gone inside his bungalow and clossed his door.

"Oh, come on out and play!" begged the big, brown Bug, banging up against the screen door. "No fair going inside!"

"You are too lively for me!" laughed Uncle Wiggily. "I'll wait until you quiet down!"

But it was some time before the June Bug went to sleep to get ready for his first night of flying in June. Then Uncle Wiggily hopped out the back door, very softly, leaving the lively insect asleep in front.

Uncle Wiggily never quite knew how it happened, but all at once, as he was skipping through the woods, thinking how lovely everything was, and how the Good Old Summer Time was coming, out from behind a bush jumped the Woozie Wolf.

"Oh, toodle oodle!" cried Uncle Wiggily, before he thought.

"Don't call me names!" snarled the Wolf. And before Uncle Wiggily could explain that he wasn't calling any names, that Wolf began to chase him. Of course the rabbit hopped toward his bungalow and as he came within sight of it, with the Wolf close behind, the June Bug awoke, zoomed off the screen door and buzzed:

"Oh, here comes someone to play with me!" And with that he banged the Wolf on his nose and bounced into his eyes and tickled his ears, so the Bad Chap was soon glad to tuck his tail between his legs and run back, leaving Uncle Wiggily alone.

"Thanks, June Bug!" said the rabbit. "I'm glad you are so lively!"

CANADA PLANS PROTECTION FOR ESKIMO TRIBES

Increase in Medical Officers Was First Step in Campaign Last Year.

TWO STATIONED IN ARCTIC

Another Physician Will Be Sent North With July Expedition.

OTTAWA, Ont., June 8. (Canadian Press).—Realizing that the future development of Northern Canada depends to a large extent on the health and general wellbeing of the native population every effort is being put forth by the Department of the Interior to protect the Eskimos of the Far North.

When the Department assumed charge of Eskimo affairs in 1927 one of the important steps taken was the decision to increase the number of medical officers among the natives. Two officers were stationed in the Arctic during 1928, one at Pangnirtung, Baffin Island, and the other at Aklavic, Mackenzie River delta. This year a third post will be established at Chesterfield Inlet, on the western shore of Hudson Bay, and a fourth on the Arctic coast at the mouth of the Copper Mine River.

Last year Dr. D. D. Livingstone was sent north with the 1928 Canadian Arctic expedition to the post of the eastern islands of the Arctic archipelago and made his headquarters at Pangnirtung on Baffin Island. Later Dr. J. A. Urquhart proceeded to the Western Arctic and established himself at Aklavik, at the mouth of the Mackenzie River.

Plan Expedition.

When the 1929 Aretic expedition leaves North Sydney, N.S., about July 20, on board the steamship Beothic, it will include a new medical officer to relieve Dr. Livingstone at Pangnirtung. The change will be made during the southern leg of the patrol and Dr. Livingstone will accompany the Beothic to Chesterfield Inlet, where the materials and supplies will be landed for the new medical post. It is expected Dr. Livingstone will continue the trip on the Beothic to the home port and will submit his report to the North-West Territories, and Yukon branch at Ottawa. Later, probably in January, 1930, he will set out for Chesterfield Inlet, where he will remain as departmental medical officer for a year or more. Plans for the establishment of the medical officer at the mouth of the Copper Mine River are being formulated.

Maintain Clinics.

The Department of the Interior, through its North-West Territories and Yukon branch, is maintaining medical officers at different points in the North-West Territories. These officers, who are given the status of medical health officers, are Dr. W. A. M. Truesdell, Simpson; Dr. C. Bourget, Resolution, and Dr. A. L. McDonald, Fort Smith, all in Mackenzie district.

IS YOUR CHILD THIN AND WEAK?

McCoy's Tablets Puts on Flesh and Builds Them Up

In just a few days—quicker than you ever dreamt of—these wonderful health building, flesh creating tablets called McCoy's Cod Liver Extract Tablets will start to help any thin, underweight little one.

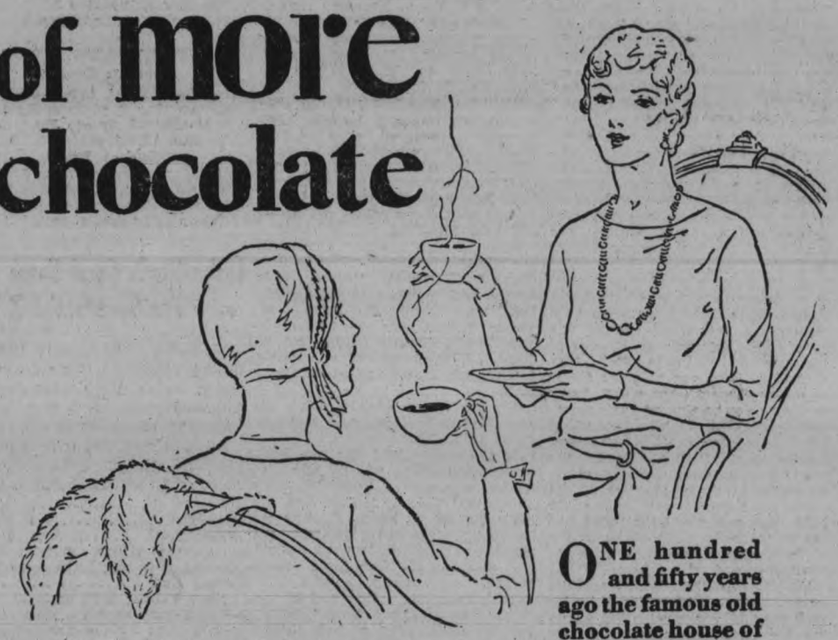
After sickness and when the children are exceedingly puny they are especially valuable.

All over North and South America and even in Great Britain and Australia tens of thousands of skinny run down men and women have put their faith in McCoy's—and have not been disappointed.

Try these wonderful tablets for 30 days and if your frail, sickly child doesn't greatly benefit you get your money back.

Ask McDermid & Jury, McDermid, Bond's, Lynch, and Payne, or any druggist for McCoy's Cod Liver Extract Tablets—as easy to take as candy and 60 tablets, 60 cents—Economy Size $1.00.

The delicious flavour of more chocolate



ONE hundred and fifty years ago the famous old chocolate house of Walter Baker & Co. started the art of fine chocolate making. Today, for candies—for cooking—for eating—Baker's has the preference; more housewives use Baker's in the kitchen than any other brand.

Baker's have increased the popularity of *cocoa* because there's MORE Chocolate Flavour in Baker's Cocoa. Here's a cocoa rich—smooth—full-bodied, yet easily digested. If you want *more* chocolate flavour try Baker's Cocoa. It costs no more.

From your grocer, today, buy a tin of Baker's Cocoa. Try this recipe. You will find it the finest cup of cocoa you have ever tasted.

NOTE.—Cut out the recipe from this advertisement. It is *new* and does not yet appear on the Baker label.

USE BAKER'S PREMIUM CHOCOLATE for COOKING

THIS RECIPE IS *NEW*

Note this special recipe for Baker's Cocoa—developed by domestic science experts—tested by cooking schools and universities.

Here it is:

For each cup allow 1 heaping teaspoonful Baker's Cocoa, 1 level dessertspoonful sugar, ¼ cup water, ¾ cup milk, few grains salt. Measure cocoa and water into saucepan. Stir over direct heat until mixture is smooth. Boil about two minutes and add the salt, sugar and milk. Heat until foamy, beat well and serve. Vanilla may be added just before serving—or whipped cream or a marshmallow.

C-29-29

BAKER'S COCOA

SENIORS DEFEAT NATIONALS SECOND TIME

PETES WIN FROM OLD RIVALS WHEN INTERFERENCE BY SCOTT SENDS WINNING MARKER IN

Unusual Climax When Belleville Nationals Lose Here 4 to 3.

A TIGHT BATTLE

Petes Finally Win Out in Ninth Against Ontario Champs.

(By F. D. C.)

A breach of the traffic rules played a big part in the 4 to 3 victory scored by the Peterborough Central Ontario Club over their old Belleville rivals at James Stevenson Park Saturday, the Petes second win this season at the expense of the Ontario champions.

Bob Scott, fast-fielding National third baseman, in the midst of an exciting ninth inning attack by the home talent overlooked the necessity of giving the base runner the right of way and so when Al. Heckman, pounding down from second on a sharp single to left by Max Swanston was blocked by the Belleville third sacker as he went to round the difficult corner, Umpire Bill Skitch promptly waved 2the Petes' pitcher home. And that same wave terminated the ball game for the run that Mr. Heckman carried in with a broad smile was the winning counter, breaking a stalemate that had existed from the fifth frame.

The anguish of the Belleville team over this all-important decision was painful to contemplate.

They surrounded Mister Skitch at the home plate and led by Mister Peeney Mills rent the peace of a June afternoon with a chorus of verbal protests that were forcible, picturesque—but useless.

All they said then—and anything else they thought on the way home—meant nothing alongside the verdict of the umpires-in-chief that Scott had been guilty of interference and that therefore Heckman was entitled to come home.

It was an unusual finish to a typical Belleville-Peterborough ball game crammed full of interest and color all the way. First the National set up a one run lead in their first inning only to have the Petes come back with three. The Gerowmen picked one off that handicap in the third on a hit, a steal and a two-ply wild pitch and wiped it out altogether in the fifth by dovetailing two doubles, one of the most effective ways of getting a run that baseball science has yet devised. And then the old rivals battled on even terms until the last of the ninth when a pass to Heckman and singles by Legon and Swanston set the stage for Bob Scott to appear as the villain of the piece and Umpire Skitch to represent the avenging arm of the law—although the Belleville reports will doubtless assign the former role to the Cobourg arbitrator.

Al Heckman pitched steady ball at all stages to register his first win in his eighth annual campaign as a member of the Petes' tossing brigade. The Nationals could collect hits now and then—in fact they slashed at least one in every frame except the seventh but when baserunners were tugging at their moorings, waiting for the blow that would send them plateward, safeties were harder to get than tickets for the Royal York opening. Heckman pitched cagily to the weaknesses of the Nationals hitters when hits would have been costly and the result was ten of the enemy left on bases, the visitors being stranded in pairs towards the end of the game.

Vinnie Utronki, Renfrew sidearmer, went the route for Belleville and turned in a good card, allowing the homesters only seven hits. In spite of a shaky start when a bobble by the usually reliable Harry Blakely gave the Petes two more runs in the first than they should have had Utronki levelled away and from then until the ninth the homesters got only three singles and three runs less than that number off the submariner's delivery.

It was a smartly played ball game with both teams turning in some fast defensive work. Blakely for the Nationals made a beautiful play to rob Red Hollingsworth of a hit in the first inning and later he started a fast double play after a clever stop. Rose for the Petes played great ball at second in handling seven chances while Red Hollingsworth's shortstopping was clean cut and clever, his double play in the ninth being a life saver and Legon did some fine fielding.

A regrettable feature was the injury sustained by Vernon Weir, the Nationals' popular second baseman, who while at bat in the ninth ducked squarely into the path of a low curve and was hit over the eye. Dr. J. C. Smith rendered first aid and Bennett ran for the injured second sacker, finishing the game in right field while Sonny Green came into second.

The Game In Detail.

There were more runs scored in the first inning than during the rest of the game. Belleville started with one. Scott's liner was knocked down by Rose for a smart catch, but Verne Weir walked, stole second and went to third when Hatton's throw hit him. Heckman made a one-handed stop of W. Mills' hard rap and threw out the batter, holding Weir at third, but Harry Mills supplied the necessary punch with a clean single to centre, scoring Weir Sonny Green fanned.

The Petes came back with three. Hollingsworth was robbed of a hit by fast fielding by Blakely. Rose drew a pass. Hall singled to left and when Weir let the throw in get away, Rose went to third. Hall stole second. Harrison's high fly to M. Green scored Rose with the tieing run. Blakely fumbled Ash's roller and Hall registered. Ash stole second and came home on Heckman's hot single through short. Legon walked, but Hatton struck out.

In the second Blakely was tossed out by Hollingsworth. M. Green flied to Hall. A. Weir singled past Rose and stole second but Utronki's fly was easy for Legon.

For the Petes Sweetman flied to S. Green and Hollingsworth to V. Weir. Rose walked but was forced on Hall's tap to Blakely.

The Nationals cut a run off the lead in the second. Scott singled past second and stole the middle bag. Rose tossed out Weir. Scott being held at second. When Heckman uncorked a wild pitch Scott scored. W. Mills flied to Hall and Harry Mills struck out.

A fast double disposed of the Petes. Harrison fouled to W. Mills. Ash singled to centre but was doubled with Hall when the latter rolled to Blakely.

Belleville wasted two hits in the fourth. Sonny Green singled to left but died stealing, Hatton to Rose. Blakely flied to Ash. M. Green walked and A. Weir singled to centre but Utronki's best bid for a hit was a roller to Heckman.

The Petes died in order. Legon rolled to Scott, Hatton fanned and Sweetman flied to centre.

The invaders tied it up in the fifth. Scott drove one past Rose and by fast running turned it into a double. Weir struck out, but W. Mills doubled to right centre to score Scott. Harry Mills fanned and S. Green was tossed out by Sweetman.

Hollingsworth led off for the Petes with a single through short, but was caught off first when a sacrifice play went wrong. Rose lined to M. Green and Scott threw out Hall.

In the sixth Blakely fanned and M. Green popped to Rose. A. Weir drew a pass and Utronki shot a single into centre, only to have Scott roll to Harrison for the third out.

Harrison walked to start the Petes' half, but was forced by Ash, Scott to V. Weir. Heckman flied to M. Green and Legon fanned.

The Nationals went out in order in the seventh. V. Weir fanned Rose tossed out W. Mills and H Mills flied to Legon.

Swanston, who had replaced Hatton in the sixth, got a single when his roller took a bad hop away from Blakely. Sweetman sacrificed him to second. When Hollingsworth rapped to Utronki, Swanston was run down between second and third and then Hollingsworth was called out as he slid back into first.

Belleville had another chance in the eighth. S. Green rolled to Hollingsworth. Blakely walked, stole second and went on to third when Swanston's throw hit him. M. Green hoisted one to Legon in short right, Blakely being held at third. A. Weir walked and stole second, but Utronki rolled to Heckman.

For the Petes Rose struck out, Hall flied to M. Green and Harrison rolled to V. Weir.

In the ninth Scott was out, Rose to Harrison. Weir was hit when he ducked into one of Heckman's slow curves and Bennett ran for him. W. Mills singled to right. It was up to Harry Mills but Hollingsworth grabbed his roller touched second and threw to Harrison for a double killing.

Then came the hectic end of the frame. Ash was thrown out by Scott but Heckman drew a pass. Legon singled past third. When Swanstone followed with a single to left, Heckman collided with Scott at third and Umpire Skitch waved him home with the winning run because of interference by the third baseman.

Liska Hurls Good Game For Senators' 5-2 Win

WASHINGTON, June 10 (C.P.).—Batting Miljus for four runs in the second inning, Washington deefated Cleveland yesterday, 5 to 2, in the first game of the series.

Ad Liska, returning to form for the Senators, held the Indians well in check except for the fourth inning.

	R.	H.	E.
Cleveland	2	7	3
Washington	5	11	1

Batteries.—Miljus, Ferrell, Harnden and L. Sewell; Liska and Ruel.

Gehrig adds

NEW YORK, N.Y., June 10 (C.P.)—Lou Gehrig blasted a path back to second place for the Yankees at the Stadium yesterday with his 13th and 14th home runs in successive innings, the third and the fourth. The St. Louis Browns were deefated by 17 to 2.

Gehrig's two drives, one of them with a man on base, sent him to the top in the American League and tied him with Chuck Klein of the Phillies and Chick Hafey of the Cardinals for the inter-league leadership.

Batteries—Collins, Stewart, Coffman, Streleck and Schang, Ferrell; Johnson, Moore and Dickey.

DELORO SPLITS DOUBLEHEADER WITH OSHAWA

Five Pitchers Are Used by Two Teams in First Battle.

HEAVY HITTING

Deloro Boys Run Away With Second Fixture, Score Being 7 to 3.

OSHAWA, Ont., June 10 (Special to Examiner).—Oshawa and Deloro split a double bill here on Saturday, Oshawa winning the first fixture 14 to 6, and Deloro taking the second 7 to 3. Both games were featured by errors, and were not as good exhibitions of baseball as the opening game of this season in the C.O.B.L.

The first game was a heart-breaker for Deloro to lose. In the first inning, with Ibey and Buck on the bags, Elliott sent a smashing homer to left field, landing in the cars parked on the meadow, bringing his team's score up to 6 runs. This put Deloro in the lead 6 to 4, but in the next inning Oshawa got to Ibey, and with a combination of hits and errors, put four of the motor boys across the plate, giving the locals a lead that never after was threatened by Deloro.

Three Pitchers Used.

Three pitchers were used by Deloro and two by Oshawa in the first duel. Ibey started for the visitors but was replaced by Wood in the fifth, after Carver had scored and McCallum and Elliott were safely perched on the bags, with nobody out as a result of a walk to Carver, an error by Elliott of Deloro that let McCallum get on, and a single by Elliott of Oshawa that sent Carver across the home plate.

Wood was not shown any brotherly love either when he came to the mound. Matthews, first man to face him, sent a crashing single to left that scored McCallum and Elliott, giving the local a 7 to 6 lead over the visitors. A fielder's choice let Young on at Matthews' expense. Wood walked and then Morrison singled to centre field, scoring Young. In the next inning four more hits and three runs were collected off Deloro's second pitching hope. Carver, Elliott, Matthews and McCallum getting the hits, one after another, and Carver, Elliott and Matthews scoring. Leal, Deloro third and last pitcher, was also touched for two hits, and these, combined with three free passes that he issued, gave the locals two more runs. In the eighth, Elliott singled, Matthews walked, Rowden went to first on Leal's error, and with the bases loaded and nobody out, he struck out Young and Quinn, but weakened and walked Morrison and hit Sutton with a pitched ball, forcing two runs across the plate. Carver flied out to end the agony.

In the first game Osborne allowed seven hits in eight innings, striking out five men and issuing no walks. Ogden, in one inning, allowed two hits and struck out one. Ibey, who lasted four innings, allowed five hits, two walks and made no strike-out. Wood, in two innings, allowed seven hits, one walk and struck out one. Leal, in two innings, allowed one hit, struck out three, hit one batter, and walked three.

Score by innings:

Fair replaced Matthews in ninth; Sutton batted for Osborne in eighth, replaced Morrison in ninth; Penu batted for Morrison in eighth;; Ogden replaced Osborne in ninth.

Second Game.

The second game, a seven-innings scramble, was all Deloro's, after they piled up their runs in the second innings. Despite the use of three pitchers Oshawa could not stop Deloro from keeping their lead, and went down to defeat although the locals piled up ten hits against Deloro's six. Oshawa and Deloro shared the errors fairly even. The locals started off well. McCallum's walk turned into a score by Elliott's double.

In the second frame Deloro piled up a two-run lead. Elliott of the visitors walked, Boudreau singled to centre, and then Brown stepped in with a beautiful triple to left that scored Elliott and Boudreau. He counted on Ralph's single. The locals came back in the second frame to score another run on a single by Morrison, a sacrifice by Gray, and a single by Carver, although McCallum also singled Wills and Ogden went out by easy grounders. Deloro made it four to two by scoring another run in the fourth.

Deloro got a three-run addition to their scoring column in the next frame.

Oshawa secured one additional counter in the seventh when McCallum, Elliott and Young squeezed singles off Wood. The last minute rally was not able to turn the tide to victory.

5—Replaced Morrison in seventh.

Rally in the Ninth To Defeat Tigers 7-6

BOSTON, June 10. (C.P.) — The Red Sox made a spectacular four-run rally in the ninth inning and defeated Detroit and the Tigers' Premier pitcher, George Uhle, 7 to 6 at Braves' field yesterday. It was Uhle's second defeat in 11 games.

The visitors' scored three runs in the first of the ninth for the Sox. Todt and Regan singled and Williams doubled to score Todt. Pinch hitter Ruffing hit a sacrifice fly and Regan scored, while Charlie Berry hit for Morris and his single scored Williams with the tying run.

	R.	H.	E.
Detroit	6	8	3
Boston	7	11	2

Batteries: Uhle and Phillips; Morris and Heving.

ORIOLES HAVE BRIEF HOLD ON SECOND PLACE

Birds Take Opening Joust 3-2 But Lose Out in the Nightcap 4-3.

KEYS DIVIDE BILL.

Rochester Scores Their First Shutout This Season in Reading Game.

BALTIMORE, June 10 (Canadian Press). — Mound work of a high order with a corresponding sag in base hits featured the division of the spoils in the double-header with the Toronto Leafs at the local Orchard here yesterday.

The Birds emerged from the rear to take the opening joust 3 to 2, and balanced themselves momentarily on the second place branch only to slide back into third place when the Leafs grabbed the nightcap, 4 to 3.

Bob Lamotte stepped forth to bask in the sunshine of high regard when he slapped the ball over the left field fence for what proved to be the winning run in the seventh inning of the first game.

However, Bob, in company with his team-mates, subsided in the second game before the fine hurling of Joe Sampels, the twenty-year-old Scranton pitching recruit.

First game:	R.	H.	E.
Toronto	2	9	0
Baltimore	3	7	0

Batteries—Gibson, Hankins Barnes and Olavey; Clarkson and Boo.

Second game:	R.	H.	E.
Toronto	4	7	1
Baltimore	3	3	1

Batteries — Samuels and O'Neill; Bolen and Bool.

FIRST SHUTOUT FOR WINGS

READING, June 10.—Reading and Rochester divided a double-header here yesterday.

The Keys, behind the five-hit pitching of Pete Fowler, took the first by 6 to 1, but were blanked by Carlisle Littlejohn in the nightcap, 3 to 0.

It was the first shutout by Rochester this season.

The game [illegible] flow record crowd of more than eight thousand.

First Game:—	R.	H.	E.
Rochester	1	5	0
Reading	6	9	1

Batteries—Derringer and Mancuso; Fowler and Murphy.

Second Game:—	R.	H.	E.
Rochester	3	6	1
Reading	0	4	1

Batteries—Littlejohn and Florence; Welch, Stryker and Styles.

SPLIT DOUBLE BILL

NEWARK, June 10 (C.P.).—Newark and Montreal split a double-header here yesterday, the Bears winning the first game, 3 to 4, and the Canadians taking a 4 to 3 decision in the seven-inning fray.

Newark batted Herb Thormahlen hard to take the opener, while Hub Pruett was keeping ten Montreal hits fairly well scattered.

Two errors gave the Royals two runs and the winning margin in the nightcap.

Manager Tris Speaker made a vain attempt to tie the count in the final inning by inserting three pinch hitters, and the Bears did score one run.

First Game:—	R.	H.	E.
Montreal	4	10	1
Newark	9	13	2

Batteries. — Thormahlen, Pomorsh and Daly; Pruett and Cummings.

Second Game:—	R.	H.	E.
Montreal	4	2	0
Newark	3	9	2

Batteries—Buckalew and Niebergal; Fischer and Skiff.

CHURCH TEAM AGAIN WINNERS

St. Andrew's Score Ten Rounds When Clothmakers Blow Up in Third Innings.

FINAL COUNT 22-11.

CAMPBELLFORD, June 10 (Examiner Staff Correspondence). — St. Andrew's won their second game this season when they doubled the score against the Mill. When the game ended, the count stood twenty-two to eleven. It was the intention of the association to have four well balanced teams enter the league this year and thus assure an interesting series. So far there have only been three games played, and two of the scores have been very one-sided. In the case on Friday night, it was the third innings that proved disastrous for the Clothmakers. Their organization blew up and the Churchmen scored ten runs. In the second, fourth, and fifth innings they were held to no count, while in the seventh and the ninth they scored one run each time up. The Mill played a more consistent game insofar as the count was concerned. They batted last and scored two runs to equal the pair the Churchmen had tallied. In the second, they scored twice more and were leading by that margin. In the third innings they scored three more, but the Churchmen got going strong and chased ten across the plate. Neither side counted in the fourth, and in the fifth Fred Blake brought in a counter for the Mill, while the Presbyterians were held to no score. The next time up St. Andrew's counted three times, thus increasing their lead by one. In the seventh, the Mill counted two and in the eighth one. They were held down in the final frame.

This leaves St. Andrew's at the top of the list, with only one game scheduled for this week. This is with the Clerks, and it is expected to be an interesting game.

The line-ups:

St. Andrew's — J. Storie, p; P. Saunders, c; F. Ingram, 1b; B. Reynolds, 2b; C. McArthur, 3b; H. Tinney, ss; H. Dunk, cf; N. Reynolds, rf; C. Massie, lf.

Mill — V. Cochrane, p; E. Wilkes, c; F. Adamson, 1b; H. Lambert, 2b; F. Blake, 3b; W. Reynolds, ss; M. Booth, cf; F. Dennis and T. Saunders, rf; H. Beatty, lf.

By innings:

St. Andrew's	20-10-003151—22
Mill	223010210—11

13TH HOMER FOR FISHER.

JERSEY CITY, June 10. (C.P.) — Buffalo split with Jersey City in the double bill here yesterday by taking the first game, 12 to 2, and dropping the second by 6 to 5. Fisher hit his 13th circuit clout of the season in the fifth inning of the first game.

Jorgens, the Black Cats' catcher, copped the batting honors in the first tussle by connecting for a quartet of singles in four trips to the plate.

With the score deadlocked 5-5, in the 6th inning of the second game, Manger, the Cats' second baseman, connected with one of Lefty Faulkner's offerings for a two bagger, sending Eddie Kunesh home with the winning tally.

First game:

	R.	H.	E.
Buffalo	12	13	2
Jersey City	2	11	6

Batteries: Mills and Collins; Shoffner and Jorgens.

Second game:

	R.	H.	E.
Buffalo	5	11	2
Jersey City	6	9	3

Batteries: Faulkner and Barnes; Rhodes and Head

CAMPBELLFORD CLUB WINS TENNIS SETS

Captures Five of Seven Points in Tournament With Peterborough Players.

(Examiner Staff Correspondent.)

CAMPBELLFORD, June 10. — In the opening tilt of the Central Ontario Lawn Tennis Association, the local tennis club started out on a par with its last season's prestige by winning five of the seven points of the tournament from the Peterborough players. The two points which were won by the visitors were the men's doubles.

In the men's singles, George Scott of Peterborough, lost to Clifford Weston of Campbellford, by the score of 6-3, 6-0, and William Cruthers lost to J. R. Smith of the local club, 6-0, 6-0. The men's doubles from Peterborough were more successful. B. Sturgeon and J. Wilson played three sets with B. H. Beatty and S. H. Neale of the local club before the victory was decided in favor of the visitors by the scores 1-6, 6-4, 11-9. G. Langley and H. Young won from Dr. Johnston and Walter Henson of the local club 7-5, 6-4. Eleanor Ferris kept the honors in the ladies' singles at home when she defeated Mrs. Cruthers, Peterborough, 6-3, 6-3. Mrs. Douglas and Miss L. Smith did likewise in the ladies' doubles when they won from Mrs. Langley and Mrs. Hewitt of Peterborough, 6-2, 6-2. In the mixed doubles, Dr. Hewitt and Miss Hewitt of Peterborough, lost to Dr. Longmore and Miss Jessie Weston 6-3, 6-4.

Wilson's Homer Enables Chicago To Win Out 2-1

CHICAGO, June 10 (C.P.)—Hack Wilson's eleventh Home run of the season, with Hornsby on base, gave Chicago a 2 to 0 victory over Boston in the second game of the series here yesterday.

Wilson's smash came in the seventh after Freddie Maguire's double and George Harper's single had put the Braves ahead.

	R.	H.	E.
Boston	1	4	0
Chicago	2	4	1

Batteries—Cantwell and Taylor; Nehf and Grace.

O'Neill Clan Winners Of Montreal Series

TORONTO, Ont., June 10 (C.P.).—The Leafs wound up their home stay by defeating the Montreal Royals, 4 to 3, in ten innings, Saturday. The victory gave O'Neill's men the series, three games to one, and five to two on the season

Ralph Shinners drove in the winning run and also one in the sixth. Sheedy opened the tenth by drawing a pass and he moved to second on Burke's third successive hit. Then Shinners lined the ball over short, and Sheedy scored.

LEAGUE STANDING.

CAMPBELLFORD SOFTBALL LEAGUE.

CAMPBELLFORD, June 8 (Examiner Staff Correspondence). — Following is the standing of the Softball League:

	Won	Lost
St. Andrew's	2	0
Clerks	1	0
Legionaires	0	1
Mill	0	2

Reds Halt Triumphs Of New York Giants

CINCINNATI, June 10. (C.P.)—The Cincinnati Reds stopped the triumphal march of the New York Giants through the west here by defeating the McGraw men 2 to 1 here yesterday.

The game was a pitchers' battle between Jack Scott and Red Lucas but the Cincinnati red head had a slight edge and the speed of Evar Swanson, the Cincinnati recruit, on the bases, was largely responsible for the Reds victory. Swanson went from the first to third on Critz's sacrifice in the first inning, and then scored on Terry's wild throw to third in attempting to catch him there.

	R.	H.	E.
New York	1	6	1
Cincinnati	2	9	1

Batteries: Scott and O'Farrell; Lucas and Gooch.

Philadelphia has 1,800,000 people in the city proper and 2,400,000 in the metropolitan area as a whole.

EMPLOYEES OF LOCAL PLANT ENJOY AFFAIR AT OSHAWA PARK

Varied Sports Program Provided Entertainment For Happy Picnickers.

FILL SPECIAL TRAIN.

Many Others Travel By Car — Keen Competition in Softball Games.

A clear, sunny sky, a merry crowd of 1,500 people, and an entertaining and diversified program of sport combined to make the 3rd annual picnic of the C.G.E. Social and Athletic Club, held last Saturday at Lakeview Park, Oshawa, an unqualified success.

A special train of twelve coaches pulled away from the C.N.R. Station at 8.30 in the morning, crowded with more than six hundred and fifty of the employees and their families and sped Oshawa-ward. The trip was made in fast time, and the picnicers reached the park shortly before noon, the last two miles from Oshawa station being traversed in street cars.

Many motor parties arrived from Peterborough in the afternoon, augmenting the large number which had come by train. These, together with a contingent of about two hundred from Toronto, brought the total up to fifteen hundred.

T. B. Mitchell, Mayor of Oshawa, and Leon Frazer, secretary of the Chamber of Commerce, welcomed the visiting host and expressed their appreciation over the selection of Lakeview Park as the picnic grounds. The park itself, a distinct credit to the city of Oshawa, proved an ideal picnic grounds with its excellent facilities for sports, convenience for preparing meals, ferris wheel, merry-go-round and roomy pavilion. Four buffaloes in a wire enclosure on the grounds were objects of interest to many of the grown-ups as well as the young folks.

Varied Sports Program.

The novelty races, children's sports and distance events which formed the most important part of the afternoon's entertainment were soon under way. Athletes and would-be athletes, together with scores of kiddies, came forth to take part. There was no shortage of entries. In the first two events for girls and boys, five years and under, every entry secured a prize. The hobble race provided the spectators with plenty of amusement, as several of the participants tied hand and foot, topples over, and were unable to rise. Plenty of laughter was also occasioned by the balloon race, in which the wind caught the tiny balloons and carried them out of the course, much to the annoyance of the ladies and their partners.

The following were the prize-winners:

Girls, 5 and 6 years, 25 yards—1, E. Craig; 2, E. Darling.

Boys, 5 and 6 years, 25 yards—1, Doug. Self; 2, Les. Maudsley.

Girls, 7 to 9 years, 25 yards—1, G. Lemmings; 2, Mabel Barnes.

Boys, 7 to 9 years, 25 yards — 1, Cyril Barnes; 2, Albert Pilley.

Novelty, thread-the-needle race—1, Dick Bates and Mary Cummings.

Girls, 10 to 12 years, 50 yards—1, Dorothy Self; 2, K. Jayes.

100 Yard dash (open)—1, G. Ouzen; 2, Ronnie Robinson.

Boys, 10 to 12 years, 50 yards—1, G. Seabrook; 2, A. Porter.

Men's 3-legged race (employees only)—1, C. Heal and E. Boon.

Girls, 13 to 15 years, 50 yards—1, E. Clarke; 2, M. Jay.

Boys, 13 to 15 years, 50 yards — 1, Tom Wallace; 2, Stan. Clarke.

Balloon race, one lady and one gentleman—1, M. Snowden and H. Bannon.

Girls, 16 to 18 years, 75 yards—1, K. Joyes; 2, E. Clarke.

Hobble race, men, 50 yards—1, Cliff Heal; 2, Jack Thornton.

Employees over 35 years, walking race—1, J. Pilling; 2, F. Batterson.

100 Yards dash, employees only—1, Ronnie Robinson; 2, E. Cuzens.

Relay Races.

Eight runners were sent down from the General Motors to take part in the relay races and the longer runs. They gave the local entrants very stiff opposition, cleaning up on the senior one-mile relay and the ¼-mile, while the local runners took the one-mile senior and the one-mile junior.

The race results were:

Senior relay—1, General Motors: Don Black, H. Armstrong, G. Campbell and Bill Engel. Time: 3:37.

One mile, junior—1, H. Stewart, C.G.E.; 2, L. Towns, General Motors; 3, G. Campbell, General Motors; 4, W. Engel, General Motors.

One mile, senior—1, H. Tranter, 4.47 C.G.E.; 2, Willby, 4.58, C.G.E.; 3, G. Moss, 4.63, General Motors; 4, C. Dodwell, 4.67, General Motors.

Quarter mile (open)—1, W. Engel, General Motors; 2, H. Tranter, C.G.E.

For Dance Lovers

The commodious pavilion located in the centre of the grounds was crowded during the afternoon by those for whom the dance floor had more attraction than the sport field.

Snappy music was supplied by the G.E. orchestra and all present had an enjoyable time.

Softball Tournament

The enthusiasm of the picnicers was aroused when the forces of the C.G.E. broke up into four squads and staged a softball tournament. The teams adopted the names of the departments which they represented and a spirit of rivalry sprung up that added zest to the proceedings for both the players and the spectators.

The office battled the Armature team for five innings and came out on the long end of a 6-4 score. Both teams made costly errors but the work of some hefty sluggers on the Office team and their pitcher, Routley, finally tipped the scales for a win. At the same time the Industrial Control and a team from the Tool Room engaged each other on another diamond in the expansive park. This fixture was close and hard fought but the Tool Room players, although they had Williams and Gordon of Raybestos and Cog fame, working for them went down to defeat by a score of 6-5.

The final game of the tournament was between the winners of the first two competitions, Office and Industrial Control. The work of Routley in the box for the Office team combined with some real support from Les. Calladine, Barry and the rest of the infield enabled the Office squad to run up a score of 8-1 against the Industrial Control crowd. The feature of this game was the base stealing of the Office gang. Hefferman for the losers started out to pitch what looked like an air-tight game, but he soon began to hand out hits and walks that became increasingly frequent throughout the game. The one run scored for the Industrial Control was achieved by Dave McCulloch.

Loose to Toronto Team

The feature game of the afternoon was staged when the C.G.E. softballers locked horns with the Toronto head office team in a strenuous tussle and lost 6-5. This game was a nip and tuck affair, being devoid of any spectacular plays but of note for its display of consistent infielding.

Devana, twirling for the head office, had a world of speed and several fancy curves which earned him two strikeouts. Robinson on the mound for Peterborough struck out one and passed one.

The line-up:—

Toronto Head Office—Towne 3b., Mooney 2b., MacWilliams .s. Carr c., Price l.f., Calder 3b., Ivil c.f., Devana p., Tricky r.f.

Peterborough C.G.E.— Calladine 2b., Weir s.s., Newson r.f., Weese 3b., Palmer 1b., Hedger m.f., Wilson l.f., GGrant C., Robinson p., Woods c.f.

Umpires—Batley and Bennett.

Footballers Also Defeated

While the C.G.E. and Head Office game was in progress the C.G.E. footballers were being swamped in a hard fought battle against a team from the Davenport Works, the final score being 4-1

Davenport made a particularly good showing in the first half, scoring one goal and bouncing the ball off the cross bar several times to keep the C.G.E. goalie on his toes. They pressed hard all through this period but their effectiveness was counteracted by the splendid defence work of the home towners.

Davenport however had a decided edge in the final session and ran in three more goals. Alex. Mitchell secured the lone tally for the local team near the close of the game from the close in on a neat solo play.

The teams:—

Davenport Works, Toronto—Goal, Allin, full backs, Whinnie and Brodie; half backs, Crossan, MacInnes and Boal; forwards, Ogilvie, Mole, Bortley and Roy; Centre Grieveson.

Peterborough C.G.E.—Goal, Bolton; full backs, Figg and F. Wade; half backs, Robb, Mann and Rankin; forwards, Lovatt, J. McMaster, B. McMaster, Darling and Mitchell.

Linesmen—Cathcart and Thompson.

Referee—Jack Clarke.

Softball Team Victors.

One of the highlights of the afternoon's program was a softball game between the local C.G.E. team and a team from the company works in Davenport. Much to the pleasure of the zealous rooters, the local team scored a win by a count of 12-4. This contest is one staged annually with the Mallet Cup at stake, and the Peterborough nine having won the cup last year, will retain it for another season.

Attracting a large gallery of picnicers the game opened with some wild tosses by the Davenport pitcher, Myers. But he soon steadied down and handed out fewer walks and more strike-outs. Powell, twirling for the Peterborough team, received first-class support from both the infield and the outfield. The lads made few errors in handling the many pop-flies and grounders of the Davenport crew. Harry Palmer, on first worked neatly with Calladine, Powell, and Weese to put the opposition down in smart order.

The struggle was close up to the eighth innings when Myers blew up and allowed seven hits. The Petes trotted over the plate one after another, bringing the score from 3-2 up to 12-2. The final effort of the Davenport team brought them only two runs.

The teams:

Davenport — Cruse, 3b; Barnes, ss; Myers, p; Mackie, lf; Taylor, 1b; Maclanagan, c; Upton, 2b; Corbett, cf; Cole, rf.

Peterborough—Calladine, 2b; Weir, ss; Playford, lf; Weese, 3b; Palmer, 1b; Hedger, cf; Robinson, rf; Grant, c; Powell, p; Wilson, lf.

Successful Outing.

At 6.30 the excursionists took their last look around the scene of their afternoon of pleasure and started on their homeward journey. This marked the closing of the most successful outing yet held by the C.G.E. Social and Athletic Club. No accident had occurred to mar the carefree happiness of the crowds and even the weather man had favored the occasion. Without a doubt, the object of the outing had been gained—the spirit of goodwill and co-operation among the employees of the great plant had been enhanced.

C.O.B.I. BULLETINS.

Official bulletin from C. O. B. I. headquarters. Schedule and umpire appointments June 15th to July 10th, are as follows:

June 15—Oshawa at Peterborough. Umpires, Skitch, Cobourg; Kerr, Deloro.

June 19 — Peterborough at Belleville. Umpires, Sullivan and Nicholson, Kingston.

June 19— Oshawa at Deloro (double header). Umpires— Kay and L. Lebarr, Jr., Peterborough.

June 22— Belleville at Oshawa. Umpires, Kay and E. Lebarr, Peterborough.

June 22—Deloro at Peterborough. Umpires, Skitch, Cobourg; Woodley, Belleville.

June 26—Peterborough at Deloro. Umpires, Kay, Peterborough; Meagher, Belleville.

June 26— Oshawa at Belleville. Umpires, Sullivan, Kingston; Kerr, Deloro.

July 1—Oshawa at Peterborough. Umpires, Skitch, Cobourg; Woodley, Belleville.

July 1—Belleville at Deloro. Umpires, E. Lebarr and Kay, Peterborough.

July 3—Deloro at Belleville. Umpires, Sullivan and Nicholson, Kingston.

July 6—Belleville at Oshawa. Umpires, Kay and E. Lebarr, Peterborough.

July 6— Deloro at Peterborough. Umpires, Skitch, Cobourg; Wilson, Oshawa.

July 10— Peterborough at Belleville. Umpires, Sullivan, Kingston; Kerr, Deloro.

July 10—Oshawa at Deloro (double header). Umpires, Kay and E. Lebarr, Peterborough.

Umpires are requested to confirm appointments with the President, R. A. Elliott, Deloro, not later than Wednesday, June 12.

June 5 games were both rained out and clubs are requested to arrange these games as soon as possible in order to keep schedule up to date.

CENTRAL ONTARIO LEAGUE NOTES

Deloro and Oshawa broke even in their double header at Oshawa Saturday and as a result of those dire doing and the Peterborough win over Belleville, only one game separates the top and bottom teams in the Central loop. The standing:

	Won	Lost	P.C.
Oshawa	2	1	.667
Peterborough	2	2	.500
Deloro	2	2	.500
Belleville	1	2	.333

Peterborough tie into Oshawa twice this week, playing in the Motor town Wednesday while the Motorists make their first appearance of the season here on Saturday.

Mickey Murray, the Providence goal keeper and erstwhile third baseman of the Petes, was a visitor at Saturday's game and did some Old Home Week rooting for his old team.

The Petes squad has been augmented by the arrival home from Yale of Angie Macdonald, giving the Petes' pitching staff a left-harwled flinger. The young southpaw will be warmly welcomed back by both players and fans alike.

That interference decision will cause plenty of discussion all season in the Belleville camp. It was a tough break for the visitors, although the Petes looked due to win in any case. The incident will teach infielders, however, that the runner has the right of way in such cases, and that he cannot be blocked save by a player who has the ball in his hand.

The only two errors made by the Petes Saturday were technical ones. Both Batton, who caught the first five innings, and Manager Swanston, who finished the game behind the bat, had the bad luck to have a throw to head off a base stealer hit the runner and give him an extra base, the play having to be scored as an error, although neither throw was bad.

Oshawa, at present leading the league, play their first game of the season away from home on Saturday when they will provide the opposition at James Stevenson Park.

HIGHWAYS AND BYWAYS IN THE SPORTS WORLD

BOOSTS AND KNOCKS For EVERYONE

(By "TED" OUTRAM)

ROSEVEAR MAY AGAIN UMPIRE IN C.O.B.I.

It is confidently predicted that now Jack Rosevear of Port Hope, has donned his umpiral harness again, he will soon be back in the Central League. Jack is noted as being one of the best umpires in the circuit, and it is likely that steps will be taken to entice him back into the senior series. He would be a decided acquisition to the C.O.B.I. staff.

* * * * * *

ATHLETICS ON BATTING RAMPAGE.

Cornelius McGillicuddy's Athletics are riding high, wide and ferocious this season. They are topping the boys in the American League by seven games. This is a nice lead at any stage of the race, even if bets are not paid until October.

Three of the leading reasons why Mr. McGillicuddy is up there, are Foxx, who is leading the league with 410; Cochrane, who is next, with 383, and Simons, who is among the first five hitters, with .353.

Last year Foxx was being shifted around and did not hit his real stride, while Simmons was out more than half the season because of bad health. Now that these two are in the game every day, and Cochrane is going as well as ever, the Mackmen will be hard to check.

* * * * * *

OSHAWA WILL BE RAYS' STUMBLING BLOCK.

The Rays play in Cobourg in a twi-light game at the lake shore on Wednesday. The Rays defeated the Cobourg nine without much difficulty here a week ago, and they should be able to continue the good work.

Oshawa looms up as the team in the league that will give the Rays the most trouble. They won the opener from the locals on May 24, and their line-up has few weaknesses.

The Rays will hold a practice this evening, and it is announced that there may be a few slight alterations in the line-up. Things aren't just working as perfectly as they might and Manager Art Primeau is not yet satisfied.

* * * * * *

SOCCER POPULAR THIS SEASON.

Soccer continues to gain ever-increasing crowds to its games at King Edward Park. On Saturday afternoon there were hundreds of fans on hand to see the Canadian Packers win out 3 to 1 over the Quakers. The game was smartly contested with both teams combining nicely.

* * * * * *

INTERNATIONAL LEAGUE AT STANDSTILL.

No ground was gained or lost by the International League Clubs yesterday, an even break being recorded in every city As usual, homers played an important part in the games at Baltimore. In the majors the Yankees walked over the Browns into second place, while the Giants had their winning streak stopped by the Reds.

* * * * * *

THIS IS SOMETHING ELSE AGAIN.

Sault Ste. Marie hockey officials rise to remark that Collingwood and Sudbury can secure capable competition at any time or place from a team composed of graduate Greyhounds However, in submitting a line-up, the fact was overlooked that only native sons would be eligible for a series, as proposed by the Collingwood hockey enthusiast who started this argument. Here's the Soo squad: Goalkeeper, "Flat" Walsh, (Kingston); defense, Art Duncan (Soo), and "Dutch" Cain (Newmarket); centre, Bill Phillips (Thessalon); left wing, Bill Cook (Kingston); right wing (Fred Cook (Kingston); relief men, Billy Coutu (Soo), Babe Donnelly (Soo), Gerald Munro, (Soo), Stan Brown (North Bay), "Gloomy" Lessard (Soo), Garnet Campbell (Blind River), and Vic Desjardins (American Soo). It will thus be seen that great and all as the Soo has been in hockey circles, the home city of the McNamara Brothers has been somewhat remiss in producing home-town talent capable of turning back the natives of Sudbury and Collingwood

GAVUZZI CUTS SALO'S LEAD

Bearded Italian Captures Second Place in Yesterday's Lap.

DERBY STANDINGS.

WELLTON, Ariz., June 10.—(Canadian Press).—Hope for victory in C. C. Pyle's coast to coast Bunion Derby blossomed brightly in the heart of Pete Gavuzzi, bearded Italian of England, at the start of to-day's 49-mile lap to Algodones, Mexico, just below the border south of Guma, Ariz.

Gavuzzi, second in elapsed time, captured second place in yesterday's 42-mile jaunt from Aztec, and cut 29 minutes and 45 seconds from the lead of Johnny Salo Passaic, N.J., who tied Paul Simpson, Burlington, N.C., for fifth place. Salo said he was slowed down by a stomach ailment.

Giusto Umek, Italy, was first in six hours and five minutes. Sam Richman, New York, finished third and Charles Eskins, Elyria, O., came in fourth. Phil Granville, Hamilton, Ont., finished thirteenth and retained his stand in sixth position.

The race is scheduled to end in Loss Angeles next Sunday.

The standings in elapsed time:

John Salo, Passaic, N.J., 460:46:14.
Pete Gavuzzi, England, 461:25:43.
Giusto Umek, Italy, 475:39:38.
Sam Richman, New York, 499:31:12
Paul Simpson Burlington, N. C., 512:45:12.
Phillip Granville, Hamilton, Ont., 540:00:20.
M. B. McNamara, Australia, 555:-19:44.

CARDINALS TAKE SECOND STRAIGHT

St. Louis Nips Two Late-Inning Rallies to Win From Phillies 5-4.

ST. LOUIS, June 10 (C.P.).—The St. Louis Cardinals nipped two late-inning rallies to make it two straight wins over Philadelphia yesterday. The score was 5 to 4.

The Phillies outhit St. Louis, but failed to tie the score when they needed one run after filling the bases in both the eighth and ninth innings.

Douthit saved the game in the eighth by a sensational running catch with two down and the bases filled.

PACKERS WIN FROM QUAKERS

Losers Play Ten Men Against Eleven Throughout Ninety Minute Tussle.

FINAL COUNT 3-1.

Lack of players brought defeat upon the Quaker Oats on Saturday afternoon when the Canadian Packers gained a three to one verdict along with two valuable league points. The losers gave a splendid account of themselves with ten players against the full quota. Craig of the Quakers missed a penalty kick in the first half. The C.P.C. were minus the services of Westwood and Griffin who were in Oshawa. Robinson and Foster fielded the positions.

First Half

Canadian Packing lost the toss and faced the sun, "Newt." Downer broke away fast twice on the wing to give the Quaker custodian some anxiety when the ball went rolling out of bounds. Following this the Quaker's left wing transferred the attack to the other end where the Packers defence gained the verdict.

Repeated raids by the Packers failed to bring any success, the Quaker goal keeper counteracting any attempt to score. Twice in succession Johnny Wade accepted two nice passes from the left wings that caused a flutter until it was punted up field.

Both elevens endeavored to break through the defence but found them impregnable, although Ward carried the ball right through once to miss at the critical moment.

Ladler Scores

On mid-field play, the Packers forced the issue against the Quaker's defence to get the break that they waited patiently to obtain. After making a brilliant save, Fowler had to concede defeat when Laidler lobbed the sphere into the far corner of the net out of the goal keepers reach.

Just before half time, the Quakers carried the play into their opponent's territory to get a penalty kick. Craig was the selected player to do the needful but his parting shot skimmed the bar on the outside of the net. The whistle sounded two minutes later with the Canadian Packers one goal ahead.

Half Time

On resuming, the Quakers became very aggressive in their opponent's territory. Wilson cleared to midfield. Buchan trapped the ball to Beggs who struck the cross-bar with a rocket shot.

Quakers Equalized

Eventually the Porridge boys gained the equalizer when Foster was out of his goal after clearing from a scrimmage but the return shot was over the goal-line when the Packer's defence man kicked out as he stood inside the goal posts, at any rate, the officials verdict was instantaneous and he was undoubtedly in a favourable position to see it. This decision added more pep to the game, in fact, it made the players open up the tactics on mid-field movements.

Free Kick Gave Goal

In a close tackle on the centre line, a Quaker player conceded a free kick. Downer placed a perfect ball to his anxious forwards, O'Halloran followed up the ball to lift it over the custodian's head into the rut, making the Packers again in the lead. With only ten Quaker players against the Packers' eleven, the former put up an excellent brand of soccer. Twice flag kicks went in favor of the Quakers that produced scrimmages in front of goal and offside decisions. A break away in the closing minutes gave the Packers another goal when Beggs connected after Fowler ran out to stop Robinson's progress. Nothing interesting transpired thereafter. Canadian Packers 3, Quaker Oats 1.

Goal scorers— Packers, Laidler Beggs and O'Halloran. Quakers, Pulley.

Canadian Packing—Foster, goal; J. Downer and Wilson backs; Carmichael, Buchan and Bromley halves; N. Downer, O'Halloran, Beggs, Robinson and Laidler, forwards.

Quakers—Fowler, goal; Cross and Honour backs; Budworth, Craig and Pulley halves; Watkins, Ward, Williams and Hansoon, forwards.

Referee—A. Aitkenhead.

Linesmen—T. Stewart and C. Fenner.

Brooklyn Defeats League Leaders 9-6

..BROOKYN, N.Y., June 10 (C.P.).—Babe Herman's double with the bases filled in the eighth inning yesterday enabled the lowly Dodgers to defeat the league-leading Pirates 9 to 6.

Jess Petty went the route for the Pittsburg club, although battered for 14 hits.

McWeeny and Dudley divided the pitching for Brooklyn, and the Waner boys each hit a home run.

	R.	H.	E.
Pittsburg	6	10	2
Brooklyn	9	14	0

Batteries — Petty and Hemsley; McWeeny, Dudley and Picinich.

THEATRES

AT THE CAPITOL

Today, the Capitol screen comes to life—"The Broadway Melody" the sensational 100 per cent talking, singing and dancing picture, the opening attraction.

"The Broadway Melody," an elaborate production filmed by Metro-Goldwyn-Mayer with all-talking, singing and dance effects opens the Capitol "Talkie" policy today. It is the most vividly portrayed drama of back stage life to reach the screen, with all the glamour, tinsel and clatter for which life behind the scenes is famous, reproduced in truthful and vivid manner.

The story, an original by the celebrated playwright, Edmund Goulding, relates the sad yet humorous experience of a small town "sister act" that looks like material for the Follies but flops in rehearsal. Through it all runs a humanly interesting romance, such as is carried on only in the average life of show people, whose chief aim in living is to entertain the public for which they perform.

The dramatic climax is a most heart-gripping episode, for after struggling to keep her "little sister" from wandering off the straight and narrow, the good samaritan sees true love take its course by sacrificing her own lover. Anita Page and Bessie Love appear as the "sister act," and Charles King, musical comedy star, as the helpful song-and-dance-man lover.

Kenneth Thomson plays the idle rich and handsome stage door Johnnie, who endeavors to gain the attentions of Miss Page and is the ultimate cause of the cyclonic climax. Mary Doran, Eddie Kane and others of note are in the supporting cast.

Harry Beaumont, responsible for "Our Dancing Daughters" and other successes, directed the new production, which is interspersed throughout with specially written musical scores.

Salient Points of Bidding

Auction: South's opening bid of No Trump was sound in spite of his holding no Aces. Had he been allowed to play the hand at one No Trump, there would have been a saving, since, with the normal opening of a Diamond, he would have been set but one trick; whereas the opponents made game at Spades. East's position to the right of the No Trump bidder dictated a Spade bid with his semi-two suited holding. Had he been on the left of the No Trump bidder, his proper declaration would have been a negative double.

Contract: At the contract, West, holding five Probable Tricks in support of Spades, should raise his partner's bid of two to three. East, himself holding five Probable Tricks, should then bid four Spades for game.

The Play

South opens the Kings of Clubs and is allowed to win the trick. Continuance of the suit would permit of the accomplishment by East (Declarer) of the attempted Bath Coup. South, warned of this attempt by his partner's play of the 2 of clubs, shifts to the King of Diamonds, East winning with his singleton Ace. South's correct shift at this point would have been to trumps but for the almost certain loss of a trick should he do so. East leads the Ace of Hearts and then cross-ruffs two Hearts and two Diamonds. South's King of Hearts and Queen of Diamonds falling, South is marked as out of both suits. East then leads a low trump to Dummy's King, returning the 3 of trumps. North showing out, South is marked with the Queen of Spades and also with three Clubs, one of which is the Queen. Accordingly East throws South in with the Queen of trumps. South is then compelled to lead a Club, and Jack and Ace both make, the Declarer thus belatedly accomplishing his earlier attempted Bath coup. The final trick goes to the adversaries.

Mr. Whitehead will answer questions concerning your bridge problems. Write to him care of this paper enclosing self addressed stamped envelope.

MANY PERMITS ARE GRANTED

Alterations Are Being Made to Many Buildings in the City.

NEW ONES GOING UP

The number of building permits granted at the city engineer's office during the past week indcates that there is considerable renovating and alterations being made on property throughout the city.

J. T. Braund is making alterations to his apartment house of 172 Charlotte street, which will include a new front, new floors, taking out of partitons and the building of new apartments. The roof will also be re-repaired and a one-story addition built. M. J. Braund is the contractor.

Alterations at a cost of $125 will be made on the Royal Bank building. The partitons will be taken down and the apartments made into offices.

A new concrete vaule of dimensions 8 feet by 9 feet by 8 feet will be built in the post office building and 64 square feet of new tile will be laid in the vestibule. The cost of this work is estimated at $1.300.

James Lynch is erecting a warehouse 24 feet long by 24 feet wide at the rear of 168 Hunter street west at a cost of $600.

Alterations to the extent of $1,300 will be made in the building of F. Johnston on the corner of McDonnel and George streets. New windows will be placed in the north and south walls.

B. M. Frederick is erecting a garage value at $150 at 102 Dublin street. C. Brisbois is also building a garage at 715 George street, and Arthur Moffat is putting up temporary shack on Princess street.

Trees equivalent to 500,000,000 fence posts are cut every year for that purpose in the United States.

Children Love It

GIBBS Dentifrice in individual containers is the ideal family dentifrice. How children love its bubbling, cleansing foam! It surges through the inmost recess of the mouth. Gibbs comes in cake form, packed in tidy, silvery containers. Rub the tooth brush over the solid pink cake and you get just the right amount of dentifrice. All druggists have Gibbs. Two sizes, 15c and 25c.

Gibbs Dentifrice cannot spill or squeeze out. It gives several times the service of ordinary pastes and powders.

DEATH SENTENCE APPEALED TO-DAY

Ivanchuk Produces Volunteer Testimony On Alibi By Commercial Traveller.

TORONTO, Ont., June 10.—(Canadian Press).—An appeal on behalf of John Ivanchuk, sentenced by Mr. Justice Wright at Cochrane, to be hanged on June 21, for the murder of license inspector Harry Constable on October 15, 1926, was dismissed by the second divisional court at Osgoode Hall to-day.

A feature of the appeal was the presence of E. De Repentigny, commercial traveller, Montreal, who had voluntarily made an affidavit to the effect that he was with the condemned man for an hour on the night of the murder.

Chief Justice Latchford pointed out that other witnesses had testified as to an alibi for Ivanchuk and the jury did not believe them, so he could not see how one more man could help. He said he would not look at the affidavit as he did not think it proper.

A. G. Slaght, K.C., defense counsel, said it was not possible for counsel or his client, prior to the trial, to have known of the existence of this evidence. "It is a very vital piece of evidence," he said.

"The accused must have known he was with Repentigny that night," said Mr. Justice Magee, "and he should have known of the possbity of getting him as a witness," Mr. Justice Orde added.

"If a girl counts the engagements she has had on her fingers," says catty Katrinka, "it means she hasn't returned the rings." By Gettler.

MAY SHIFT RACES FOR AMERICA'S CUP

New York Yacht Club Discusses Advisability of Holding Tests at Newport.

NEW YORK, June 8.—Though no member of the New York Yacht Club committee would make any definite statement, it was learned on reliable authority yesterday that the challenge of the Royal Ulster Yacht Club for a series of races for the America's Cup, made in behalf of Sir Thomas Lipton, undoubtedly will be held at Newport late in the summer of 1930 instead of off Sandy Hook, where they have been held since 1851, when the cup was brought here from Great Britain.

Though Sir Thomas, in the challenge sent on May 3 by the Royal Ulster Club, stated specifically "we suggest that the first race should take place on Saturday, Sept. 13, 19330, and that the series of races should be held over the old courses at Sandy Hook as previously, it is not unwilling to have the course changed to Newport.

Another point that probably will meet with the approval of both clubs is that challenger and defender be sloops built under the New York Yacht Club classification between fifty-five and seventy-six feet rating. If this is the case, it will eliminate the necessity of the boats racing under a time allowance and though Sir Thomas has signified his intention of sending over a cutter, seventy-seven feet on the water line, it generally is believed that he is quite willing to race a sloop that will come under either Class J or K of the New York Yacht Club's specifications.

Ready to Accept Challenge

With these two moot points ironed out, it is understood that when the special committee of the New York Yacht Club meets some time next week, the club formally will accept the challenge of the Irish club.

The proposal to shift the scene of the race from these waters to Newport where the big races of the New York Yacht Club are held, has been brought about, it is understood, by quite a number of circumstances. One of the chief ones is that the traffic past Sandy Hook, the entrance to New York Harbor, is so great that the race may be interfered with to a considerable extent. Another point is that the oil sent overboard by steamers make waters in this vicinity not altogether suitable for yacht racing.

While the deed of gift states that the races shall be on ocean courses, free from headlands, it also says that "The club challenging for the cup and the club holding the same may, by mutual consent, make any arrangement satisfactory to both as to the dates, courses, number of trials, rules and sailing regulations and any and all other conditions of the macth."

This clause virtually leaves it up to the two clubs to make any arrangements that may suit them as regards type of boats and scene of course.

Newport Change Popular

The change to Newport, if it is made, will be a popular move among the members of the New York Yacht Club. Many members, who do not care to be quoted, have expressed their approval of the change.

The substitution of the class rating for the water line length also seems to be generally liked if for no other reason that it gives the challenger more of a sporting chance to win. Sir Thomas's sportsmanship, particularly in view of this, his fifth challenge for the cup, has won the admiration of all members of the yachting fraternity.

TERRIBLE ECZEMA

Quickly Healed and Skin Cleared By New Ointment.

Discovered by a famous physician and tested both in private practice and hospital cases, "Sootha-Salva" is simply marvellous in all forms of Eczema. Quickly, it stops the itching and burning. Quickly, it kills the germs of Eczema. Quickly, it soothes and heals inflamed surfaces. 50c at all druggists.

It costs you nothing if you do not benefit. After using two boxes of "Sootha-Salva," if you are not satisfied, just return the empty tins to Fruit-a-tives Limited, Ottawa, Ont., and we will refund your money.

START BUILDING FLOATS.

Monster O' Home Week Parade Is Already Under Way in City

Work on the building of the floats will commence next week, in earnest. There is not a truck in the city but has been engaged for the big parade. Indeed, if the demand keeps up we may have to go to Lakefield and Norwood to secure additional trucks. A month ago it was estimated that if the parade left the Exhibition grounds and stretched along George street it would reach from the gates of the grounds to the C.N.R. crossing on Water street north. And during the interval many additions have been proffered.

Railway Time-Tables

ADVERTISE IN THE EXAMINER

REGISTER Of Social and Business Meetings

The Register is published to enable organizations planning major meetings to know in advance, and reserve, evenings on which there are no rival attractions. It will pay Peterborough organizations to consult the Register prior to settling dates. Responsible officers should mail notices well in advance.

Before deciding a date for any event, consult the Register to ascertain that there is no conflict with other events—and then send in YOUR date quickly so that other organizations will not use it.

NERVES GONE CAN'T SLEEP?

"Fruit-a-tives" restore good Health

Are you tired? Downcast most of the time? Worried at trifles? Can't sleep? Mr. J. O. Ringheim, Wynndel, B.C., writes:

"My nerves were completely gone. I owe my present good health to 'Fruit-a-tives.'"

"Fruit-a-tives" is a combination of intensified fresh fruit juices and the most scientific medicinal ingredients. In a natural gentle way it stirs lazy liver, bowels, and kidneys into normal, healthy action, soothes the digestive tract, and calms the troubled nerves. 25c or 50c boxes at all druggists.

In Police Court

Leonard Davis, aged 19, having previously pleaded guilty to the charge of stealing a bicycle and also to the charge of breaking and entering a private dwelling, was this morning sentenced to two years, less one day, in the Ontario Reformatory by Magistrate Langley in Police Court. A strong plea for leniency because of the youth of the prisoner and his lack of education and upbringing was entered by his counsel, A. Elliott. In the face of his previous convictions, Magistrate Langley stated that he could see nothing left but a heavy sentence for the young man, so he sent him to the reformatory, with Burwash Farm recommended.

Two local men pleaded to being intoxicated in a public place and were fined the usual $10 and costs.

A local man appeared, charged with having lost control of a car on Chemong Road while in an intoxicated condition. He declined to plead and was remanded until June 17. He was allowed his freedom on bail of $1,000.

Another pleaded not guilty to the charge of having liquor in his possession while not being the holder of a permit. This offence was stated to have occurred in Smith Township. He pleaded not guilty, and was remanded until Monday next.

Arthur L. Davidson was remanded on a vagrancy charge. Officers stated that he had been forcing his keep upon a woman in North Monoghan The man claimed stoutly that he was looking for work and that his record would stand the inspection of the world.

NO ACCIDENTS.

For the first time in many weeks, "No accidents," was the report at the police station this morning. "There wasn't an accident in the city over the week-end," the desk sergeant said. "If there had been we would have heard" he added.

Sunday usually swells the accident total for the week, and last week there was a total of five in and about the city. Accidents are the expected thing with the increased week-end traffic. Yesterday can almost be called a record.

KILLS WOMAN AND SON THEN TAKES OWN LIFE

Hired Man Shoots Two in Southern Manitoba—No Cause Told

WINNIPEG, Man., June 10—(Canadian Press). — Mrs. Ruth Jones and her 11-year-old son were shot and killed to-day by Kost Werseuik, hired man on a farm near Dropmore Man. Ommediately afterwards, it is stated, Werseuik killed himself.

Dr. J. J. Gilhooley, coroner for the Russel district is handling the case. Dropmore is located 24 miles north of Russel, a town in the central part of southern Manitoba.

MAKES SAFE LANDING.

OTTAWA, Ont., June 10.— Using parachute flares, Squadron Leader J. H. Tudhope, of the Civil Aviation Branch, National Defence Department, succeeded in making a safe landing late Saturday night on the unlighted field at Orckliffe airdrome on his return from Winnipeg.

OBITUARY

MRS. HARRIET ADLAM

The funeral of Mrs. Harriet Adlam took place Saturday at 1.30 p.m. from her residence to Little Lake Cemetery, the service being conducted by Rev. David Wren of Trinity United Church. The pallbearers were all grandchildren of the deceased.

MRS. GERTRUDE WILKINSON

There passed away at St. Joseph's Hospital yesterday, Mrs. Gertrude Wilkinson of 297 King street after a very short illness. The deceased was born in Peterborough and lived here all her life. She was aged 32.

Mrs. Wilkinson was formerly Gertrude Goselin daughter of Isadore Goselin of 513 Romaine street. Her husband, Herbert Body Wilkinson, and two children, survive her. The funeral particulars will be announced later.

ALFRED KINGSCOTT

The death of Alfred Kingscott occurred at the residence of his daughter, Mrs. D. Longworth, 55 Warden street Mimico. He was the dearly beloved husband of Annie Kingscott and was in his 76th year.

The remains will be forwarded to Peterborough to-night and the funeral will be conducted on Tuesday at 2.30 by Rev. Dr. Blagrave from Comstock's Funeral Home to Little Lake Cemetery.

JACK O'TOOLE

The passing of Jack O'Toole on Sunday was a shock to his extensive circle of friends in Peterborough. He died at his home, 24 Aylmer street, after an illness of a few days. The deceased was 24 years of age and had lived in Peterborough all his life. Of late he was employed by the Canadian General Electric Company. His parents, Mr. and Mrs James O'Toole are among his survivors. There also remained four sisters and two brothers, Margaret, Agnes, Earl and Harold of Peterborough and Helen and Anastasia of New York City. The funeral will be conducted from 24 Aylmer street to St. Peters Cemetery on Tuesday at 8.45.

WILLIAM A. YOUNG.

The death of William Alexander Young, 55, took place at his home on Chemong road on Saturday night. The deceased was the son of James Young, born in the Province of Quebec. About two years ago he came from Montreal to Peterborough, but his work as a constructional engineer for Price Brothers made it necessary to travel a great deal throughout Canada. His death, coming after a short illness was a shock to the community. There survive him his wife, a brother in La Chute, Que., a brother in Fort William and a sister in Montreal.

The funeral was conducted from Comstock's Funeral Home at 11 a.m. to-day, interment being made in Little Lake cemetery, with services being conducted by Rev. Wm. Allan.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

WORK COMPLETED

The laying of the hardwood floor at the fire station has been completed and those who have seen the work of the firemen are complimenting them on the fine job they have done. When it is finished, with sanding and a polishing it will be a real piece of craftsmanship.

SCOTCHMAN'S GALLERY

Hunter street bridge served as the usual grandstand to the Belleville - Peterborough baseball game on Saturday at James Stevenson Park. There was a crowd of people, young and old, perched on the railing or leaning against it watching the progress of the Petes free of charge. Also at the game there were a number of small boys who found the odd hole in the fence and saw the game from inside of the park. In fact, it was a real ball day.

NEW USES FOR STOP LIGHT

Man will invent and people will adopt the inventions for something entirely different. At Chemong on Saturday night the stop light on an automobile was put to two different uses. The first and perhaps the more original was on a parked car. In the back seat was a couple enjoying the strains of dance music when they were rudely disturbed by a pair of glaring headlights peering at them and which were kept flashing on and off to disturb them. Another couple in the front seat of the car hit upon a scheme to register their displeasure and kept putting on the foot brake which caused the stop light to flash in an angry red the word "stop." Another time a lonely man inspired by the tempo of the music who kept time by putting his foot on the brake and at each beat of the music the light would flash the warning signal.

HIGHWAYS CROWDED

The fine weather of Sunday crowded the highways and motorists on any other but the Port Hope provincial highway experienced dusty roads that were very uncomfortable to drive on.

HIGHWAY PAVED

The road between Peterborough and Port Hope is now completely paved. The construction company has passed through the village of Bailieboro and so have covered the only piece of gravel road on the highway that had not previously been improved in the dustless fashion. The work is progressing very rapidly and the distance from Bewdley to the top of the hill this side of Bailieboro has been covered in fast time. They are now re-surfacing the road from this point to Fraserville.

CAR TAKES FIRE

At 6 20 this morning the Fire Department was called to 401 Homewood avenue, where an automobile had caught fire. The fire was put out before any damage was done.

EXAMINATIONS STARTED

Examinations in the first, second, commercial and vocational forms of the Collegiate Institute started this morning. The class work in these forms was completed last week and now there are only examinations until the closing of school. Class work is still being carried on in the third, fourth and fifth forms and examinations do not start in these until the middle of the month.

YOUNG ROBIN IN STOVE

Young robins frequently make their way into strange places far removed from their natural habitat and George J. Johnson, 784 George street, found a young fledging in his stove yesterday morning.

Just as Mr. Johnson was about to light the fire he heard chirps and scratching. Finally, after he had searched everywhere else for the source of the plaintive squeaks, he removed the stovepipe from the stove, stretched his hand in to its farthest corner, and brought forth a young bird. It was black and sooty, having every appearance of a blackbird. On closer inspection it proved to be a robin. After giving it a drink and some food, Mr. Johnston placed it on the roof to the joy of the mother bird.

The young robin in order to get into Mr. Johnson's stove had to fall down eight feet of chimney, then make its way through twenty feet of stove pipe and around four elbows, and then the final dive into the back of the kitchen range.

FRESH FROM SEA, LAKE AND RIVER

Fresh Fish Inn Spares No Expense For Its Sanitary Equipment.

A comparatively new but rapidly growing business—one to which discriminating shoppers are attracted more and more every week—is that of Fresh Fish Inn, 203 Charlotte street. Established by Mr. Frank Asta in 1928, this store is meeting with public approval by selling every shopping day in the year absolutely FRESH AND FRESH CAUGHT fish from river, lake and ocean, together with the pick of quality smoked and cured fish foods. Every kind of fish in season can be had at Fresh Fish Inn, where no expense has been spared that the last word in sanitary conditions should obtain, and where premises and all equipment are immaculately clean at all times.

Fresh Fish Inn is an exclusive and all-the-year-round fish market, and its service is unexcellably efficient. There is perhaps no food commodity which needs a higher degree of sanitary handling and keeping than fish, and consumers would be surprised were they to know how much per pound it costs Mr. Asta to make sure that no fish leaves his store which is not absolutely pure and wholesome.

Mr. Frank Asta is a successful young business man, who has made good in the fruit business, and it is a pleasure to note that his Fresh Fish Inn is a firmly established concern, enjoying the confidence of an ever-increasing patronage.

BIRTH.

WHEELER.— At Nicholls Hospital, June 9th, to Mr. and Mrs. Allan Wheeler, of Toronto (nee Ethel Anderson) a son, Allan Jr.

GASH.— At Nicholls Hospital, on Sunday, June 9th, to Mr. and Mrs. Dennis Gash, a daughter.

THOMPSON.— At Nicholls Hospital, on Friday, June 7th, 1929, to Mr. and Mrs. J. H. Thompson, 64 Aylmer street, a daughter (still born.)

IN MEMORIAM.

BUTCHER.—In loving memory of by dear grandmother, Mrs. J. W. Butcher, relict of Rev. J. W. Butcher, who passed away June 10th, 1924.

—Not Forgotten By Her Grandson, Harold Hudson and Family, Detroit.

IN MEMORIAM.

SCOTT.—In loving memory of Mrs. Wm. Scott, who passed away June 10th, 1927:

There is someone who misses you sadly,
And finds the time long since you went,
There is some one who thinks of you always,
And tries to be brave and content.

Gone is the face we loved so dear,
Silent is the voice we loved to hear;
'Tis sad, but true, we wonder why,
The best are always the first to die.

—Inserted By May Caird.

IN MEMORIAM.

MACK.—In fond and loving memory of my dear mother, who departed this life June 9th, 1926:

A wonderful mother, woman and aid,
One who was better God never made;
A wonderful worker, so loyal and true,
One in a million—that, mother, was you.
Just in your judgment, always right;
Honest and liberal, ever upright;
Loved by your friends and all whom you knew,
Our wonderful mother—that was you.

—Inserted By Her Daughter and Son, Pearl and Howard.

WEDDING BELLS

BROWN—WHITTAKER

The marriage was solemnized quietly at twelve o'clock noon, on June 4th at St. Luke's Church, of Irene Emma, youngest daughter of Mrs. Florence Whittaker and the late W. A. Whittaker, of Peterborough, and Allan George Brown, son of Mr. and Mrs. William Brown of Otonabee. The Rev. G. J. Bousfield performed the ceremony. The church organist, Mr. William Thompson, played the wedding music.

The bride, who was unattended, wore a stylish costume of navy and sand, with sand hat, shoes and hose, and fox fur, the gift of the bridegroom. She wore a corsage bouquet of Ophelia roses and lily of the valley.

After the ceremony, a buffet luncheon to the bridal party was served at the home of the bride's sister, Mrs. James Burgess, Rogers street, and Mr. Brown and his bride left later by motor for an extended honeymoon trip, after which they will reside in Otonabee.

STEVENS—DUDGEON.

St. James' United Church, lovely with mauve and white lilacs, made an artistic setting for the very pretty June wedding which took place on Saturday at two-thirty o'clock, when Miss Ethel Mae Dudgeon, daughter of the Rev. J. H. and Mrs. Dudgeon, was united in mariage to Frank Esmond Stevens, son of Mrs. Stevens, and the late Charles Stevens, of Peterborough.

To the strains of Wagner's Bridal Chorus from Lohengrin, played by Mr. G. F. Liddle, organist of the George street United church, the bridal party entered the church.

The ceremony was performed by the bride's father, the Rev. J. H. Dudgeon, assisted by her uncle, the Rev. J. W. Dudgeon of Toronto.

The bride, who was given in marriage by her brother, Dr. C. A. Dudgeon of Port Credit, was winsome in a gown of ivory satin, fashioned with long, close-fitting bodice and bouffant skirt trimmed with tiers of handsome Venetian lace.

Her bridal veil was arranged in cap effect with coronet of pearls, and caught with orange blossoms. It was prettily draped with a long train of ivory silk hand embroidered net. Her shoes were white kid. She carried a bouquet of Ophelia roses and valley lilies, and wore the groom's gift, a rope of pearls.

Miss Jean Craigie of Port Credit as maid of honor, was lovely in a frock of palest pink organdie, fashioned with skirt drooping at the back, girdle and long streamers of orchid velvet Her large picture hat was of orchid mohair with wide bows of velvet.

She carried an old-fashioned nosegay of sweet peas and lilies of the valley as did Miss Dorothy Dudgeon, her sister's bridesmaid, who wore a pretty girlish frock of orchid taffeta, with full skirt and large shawl collar. Her hat was of velvet trimmed orchid mohair.

Little Doreen Groombridge was the lovely flower girl. She wore a soft green crepe de chene frock and carried a basket of sweet peas and valley lilies.

The groom's gifts to the bridesmaids were amethyst pendants, and to the flower girl a pearl pin.

Mr. Allin Stevens ably supported the groom, and Wilburt Westran and Edward Kingdon acted as ushers.

During the signing of the register and while the wedding party was leaving the church, Mr. Liddle played Mendelssohn's wedding march.

After the ceremony a reception was held at the home of the bride, St. James' parsonage. Receiving with the wedding party were the Rev. and Mrs. J. H. Dudgeon and Mrs. Stevens, the groom's mother. Mrs. Dudgeon wore an ensemble of black and white georgette with corsage bouquet and small mohair matching hat. Mrs. Stevens was in a gown of black flat crepe with touches of white, and wore a small black hat and jet beads.

Following the reception the bridal couple and their friends lunched at the Austin tea room, which was beautifully decorated with streamers in rainbow colors. Over the bride's table was a huge white wedding bell.

After the toasts and speeches in honor of the occasion the happy couple left by motor on a honeymoon trip over the Ferguson Highway to North Bay and Englehart.

The bride travelled in a smart black and white ensemble, with black satin shoes and hat of orchid braided mohair, with bag to match. Upon their return, Mr. and Mrs. Stevens will live at 72 Aylmer street.

CABINET POSES FOR "TALKIES"

(Continued from page 1)

was Mr. MacDonald's description of the First Commissioner of Works, and he added, "He is going to take part in the solution of the unemployment problem and he brings to bear on it his great experience in local government."

RELATIONS WITH AMERICA

LONDON, June 10 (C.P.). — The Evening Standard says that the Cabinet council to-day gave particular attention to Anglo-American relations and that Premier MasDonald's expressed wish to get in personal touch with President Hoover was communicated to the Cabinet.

LAYS POLICY FOUNDATION

LONDON, June 10 (C.P. Cable).— The Press Association understands that at to-day's meeting of the Cabinet the Government began the task of laying the foundation of its policy which is to be embodied in the terms of the Speech from the Throne, which will be delivered at the opening of the new Parliament.

CHOOSES SECRETARY

Premier MacDonald has chosen L. MacNeil Weir, member of Parliament for East Sterling, as his parliamentary private secretary, an office which he filled in the preceding Labor Government.

Mr. Weir has been a journalist, actor, sailor, teacher and lecturer on political economy, but his chief fame in Westminster is for his inexhaustible fund of Scottish stories.

TUNNEL TO GIVE WORK

Construction of a tunnel under the English Cannel to connect England and France by rail is one of the schemes on which J. H. Thomas, Lord Privy Seal, has his eye, in connection with his plans to solve the unemployment problem. Mr. Thomas has been delegated by Premier MacDonald to direct the Labor Government's work on the unemployment situation.

Mr. Thomas is organizing a new government department of unemployment and has obtained reports on a number of projects which might supply work for some of the men now unemployed as a preliminary to calling in experts from all the Government Departments.

ST. ANDREWS MARKS SCHOOL ANNIVERSARY

(Continued from Page 1)

bin; a recitation by Ruth McNeeley; a chorus, "Follow the Gleam," with solo parts by Barclay McKone and Bill McPherson; a recitation by George McLean; a chorus, "Knights of Loyalty, Brave and True," by the Sunday school choir; "Flow On, O River," by Edith Culcheth and Jean McKone; a chorus, "Love," by the Primary Department; a solo, "Leave a Little Bit of Love," by Isabel Weddell, and a recitation, "Where Men Are Led," by Helen Hefferman made a very enjoyable program.

The arrangement of the Sunday school choir was quite picturesque and the dresses of the girls made a very pretty picture. The pulpit had been removed and on a pitaform built on this place were the beginning; immediately below them in the choir loft were the juniors, intermediate and senior classes, while directly in front of the choir loft, another platform had been constructed where the primary tots sat.

The evening services were conducted by the Canadian Girls in Training. The George Street Sunday school orchestra, under W. H. Cunningham, rendered a recital from 6.45 until 7 p.m., and supplied the music for the service.

"Londonderry Air" as played by Arnold Spencer was greatly appreciated, as well as the duet, "For You I am Praying," as sung by Edith Culcheth and Jean McKone. Fred McNeeley spoke a few words on "World Brotherhood," and in the course of his address he was lavish in his praise for the work that Mrs. J. A. McKone had accomplished in the anniversary services of the Sunday School.

Helen Ross gave a recitation, "The Passing of the Kings" (Owen), as a tribute to King George V. This was a very beautiful number and ably rendered.

A pageant, "The Scum of the Earth," was given by the C.G.I.T. girls. Individual countries represented by different girls appeared on the stage, and Miss Dorothy Henry explained each of the characters and the country that she represented as the girls appeared.

The theme of the pageant told how each year thousands of immigrants reached Canadian shores, disdained by the people living here. Yet when it is thought of, these people are the same as everyone else, with the same family instincts and intuitions and holding the same thoughts at heart. Possibly among them there are also some great men. They should be treated as brothers. George McLean also gave a pleasing recitation at this service.

Both service were successful, due to to the untiring efforts of Mrs. J. A. McKone, who spared nothing to make them so.

TRUSTEES MEET IN BROCKVILLE

150 Delegates Are Expected To Assemble in St. Lawrence Town To-day.

MOTOR BOAT TOUR.

BROCKVILLE, Ont., June 10 (C.P.) Approximately 150 delegates from all parts of the province are expected to assemble in the New Hotel Manitoba here to-day for the annual meeting of the Urban School Trustees Association of Ontario with the banquet this evening as the chief feature of the day's program. The welcome to the delegates will then be extended by Mayor Allan Donaldson and H. H. Miller, chairman of the Board of Education, while Hon. Geoorge P. Graham will be an additional speaker. At the same time committees will be appointed, the regular business proceedings opening tomorrow morning.

Those on the program include Cecil Bethune, Ottawa; H. L. Kerr, Toronto; W. C. Allen, Toronto; Mrs. Gordon Kerr, Windsor; W J. Salter, St. Catharines; W. W. Pearse, Toronto; and Judge J. H. Scott, Perth. T. G. Bishop, of Kingston, is President of the association.

A motor boat tour of the Thousand Island, as guests of the town of Brockville, is included in the entertainment for the delegates.

The planet Neptune, the farthest from the sun of those yet known, was discovered in 1846. It is not impossible that one or more planets exist in our solar system out beyond Neptune, but they have not yet been found on any photographs.
